But the very best, no MC can test

[Verse 3: KRS-One]
Uhh, uhh, South Bronx
You sitin and you wonderin, how we keep it comin in
KRS and Puff again to push it, and shove it in (that's right)
The neighborhood be buggin when we we comin in, rulin
(With more Wildcats than Rick Pitino, I mean yo)
Just Coolin', like Levert, I do work
They love me, thick with G. Simone, Puffy
Young black and educated, that's how we made it (oh yeah)
Study and bring the money in, you can't fade it
This scholar, gets the dollars
While these other scholars just holler (remix)
With no dinero, your zero (remix)
You think I care what you whisper
You got the wrong picture (remix)
I'm chillin with G. Simone eatin dinner (haha)
The 1997 winner, of your respect
High tech, you get the album or cassette (that's right)
And don't forget, while you listenin, skills I flaunt it
That Boogie Down Bronx shit, we on it

[Puffy]
Scott LaRock rest in peace, Biggie Smalls rest in peace
Step into a world
We love y'all, always and forever, and we won't stop
Where there's no one left
Cause we can't stop, and we won't stop
Where the very best
BDP, Bad Boy
No MC can test

Cause we can't stop, and we won't stop *[x4]*
Step into a world, where there's no one left
But the very best, no MC can test
[repeat last refrain to fade]

Rock on, Bad Boy, remix, for eternity baby, BDP rock on rock on..

KRS ONE
THE SNEAK ATTACK

KRS-One Lyrics

"Ghetto Lifestyles"

"Why do you listen to KRS-One?"
"Cause it's more than just music.
He speaks to my way of life."
"KRS is the best. Listen for the inner meanings."
"Never heard, anyone like this."

[KRS-One]
Feel this! Feel it!
Feel the power, of DJ Kenny Parker, word up.. huh!

C'mon, yeah.. uhh.. ("Yeah yeah yeah")
So we gonna come down one time for your mind, you know whassup
Turn it up, turn it up turn it up turn it up
Look!!

We spit out hits, ghetto chicks, chromed out whips
Philosophers rockin your corner movie scripts
Ghetto lifestyles, keep watchin..
("Protect yourself") - that's right!
We spit out hits, ghetto chicks, chromed out whips
Philosophers rockin your corner movie scripts
Ghetto lifestyles, keep watchin..
("Protect yourself")

Yo, all summer they bump the KRS-Oner
From the microscopic atomic structure of the under
I spit thunder, which hunts ya, runs you down and stuns ya
I'm at the center of all rap worlds like a rotunda
Then again, I rock you and your friend again
In any club in the country when you say KRS they say, "Let him in"
V.I.P. passes for intellectuals with glasses
Ignorant asses get left outside with the masses
Next day we attend classes and gatherings
Shattering, those that be rattling about battling
Battin 'em down from the Bronx like Don Mattingly*[?]*
The black African snappin backs again and laughin again
You won't be askin again, my album I'm already masterin
Whoever you think is dope I'm already blastin him

We spit out hits, ghetto chicks, chromed out whips
Philosophers rockin your corner movie scripts
Ghetto lifestyles, keep watchin..
("Protect yourself") - that's right!
We spit out hits, ghetto chicks, chromed out whips

Philosophers rockin your corner movie scripts
Ghetto lifestyles, keep watchin..

KRS-One Lyrics

"Attendance"

[KRS-One]
Who was the first to flash the heat on the cover?
Who was the first crew to go against another?
Who was the first to go acapella on a video replay?
Who was the first to lose a DJ?
Who was the first to teach at Yale?
Who was the first to hit that hip-hop reggae, on the nail?
Who was the first to say (Stop the Violence)
and teach that real bad boys move in silence?
You're soon to see the mindbendin rhyme weapon
Get more busy than two-two-three-double-nine-seven
All these rappers, swear they the best
I know whatchu thinkin about, "Where's KRS?"
Eighty percent of these rappers fake they shit
The other twenty percent they goin upstate and shit
There's no way out except knowledge and wisdom
I got it so I spit 'em you ain't got it you gotta get 'em
Who was the first to produce mix and write
at the same time up in the club rockin the mic?
Who was the first to have a DJ and a side man?
The first to say what is hip-hop? "I AM!"
Who was the first to produce gangster shit?
Put out, gangster hits with a gangster click?
Not no prankster shit, Steady B, Mad Lion
Just-Ice, Shabba Ranks and shit
My Channel is Live, my only battle is Jive
MC to MC, you won't survive
You'll be censored cause my Crew is 2 Live
I ascend like Christ and watch you die

[Chorus: x2]
Breakers (HERE!) MC's (HERE!)
Writers (HERE!) Beat-boxers (HERE!)
DJ's (HERE!) Hip-Hop (HERE!)
Hip-Hop (RIGHT HERE!) Hip-Hop (RIGHT HERE!)

[KRS-One]
I'm like Noah, I'm takin 'em, two by two
I took, them and them and I'll take, you and you
Be I'm right or be I'm wrong
You'll see I'm tight with this mic, you should be like, "B I'm gone"
But you still in my face Neo, I'm not your girl
All that ice and thug life, that's not my world
I'm the teacher, but you still can't see

cause while you respect Tupac, Tupac respected me
Another thing; don't ever show me another ring
Remember you Rudy Ray Moore, I'm Martin Luther King
Everything you bring sounds horrendous
You need repentance, 'fore I take attendance

[Chorus]

[KRS-One hums a melody for a bit]

[Chorus]

KRS-One Lyrics

"Hot"

Yeah
Who will be standing when the smoke clears?

[Redman] (KRS-One)

Word up!
What's up with this?
We're coming through
Boogie Down style, kid
What's up
This is KRS-One
The light at the end of the tunnel

Yo, they not HOT, all they do is talk a lot
That's not HOT, where's your respect on the block?
That's HOT, not cause you're friends with the cops
That's not HOT, a real MC you're not
I'm HOT, been hot, repeatedly heated
Don't call the teacher, hah, you best be seated
You got these kids gased up like you own the inventory
Fake muthafuckas ain't tellin the whole story
Tell em how you borrow from everyone you knew
And now that you're on top, they can't borrow from you
That's not hot, tell em how you love bein pop
Cause you was so broke before, sleepin cold on a cot
You don't rock, you grab money
Your crocks rock the spot and you grab them honeys
It's about to get ugly
I don't even go to these bullshit kiddie-ass clubs
You wanna be a thug? Let's thug
First of all, soldiers speak to soldiers
Captains speak to captains
Lieutenant/lieutenant, cool?
But your first mistake is: he's steppin to me, rookie
Like you a O.G. and you just a run-up, fool
Who really got these streets on lock?
Whose name really holds high respect on the block?
Who opened up these clubs and taught you how to mix?
Who opened up these thugs from Compton to the Bricks?
I don't even sound like the rest of you kiddies
I study the ways of God, you studyin titties
And ass, I pity your class
Cause you come out with a blast
But you're trash, so you really don't last

They not HOT, all they do is talk a lot
That's not HOT, where's your respect on the block?
That's HOT, not cause you're friends with the cops
That's not HOT, a real MC you're not
They not HOT, all they do is talk a lot
That's not HOT, where's your respect on the block?
That's HOT, not cause you're friends with the cops
That's not HOT, a real MC you're not
This is hotter than heat, too deep, I'm on top of the streets
You weak, you ain't really rockin these beats
You *[?]* you dress straight, eat straight
But you're a slave, and yo, you can't come up in a heat tank
G-o-d we thank, we watch what we sell
You better hope these Christians are wrong cause you goin to hell
Think about that when you're spittin your raps
And you call out KRS, I'll put you flat on your back
You're not HOT, all you do is talk a lot
That's not HOT, where's your respect on the block?
That's HOT, not cause you're friends with the cops
That's not HOT, a real MC you're not
What's HOT?
(KRS-One)
That's HOT!
What's HOT?
(KRS-One)
That's HOT!
Who's HOT?
(KRS-One)
That's HOT!
Where's your respect on the block?
[scratching of]
[Redman] (KRS-One need to be runnin for office
So Butta-Pican Rican, tell em to get off it)

KRS-One Lyrics

"Why"

[KRS-One] Class in session. What, is, democracy?
[student] Yo it's the rule of the people. The self rule.
[student] It's what the people want!
[K] That's right. But is this a democracy?
[s] Nah, democracy is a goal to be attained.
[K] That's right. The character of the people should be reflected
[K] in the laws and the institution of the state.
[s] Psssh, I don't see my character reflected!
[K] Tell me

[Chorus 1: KRS-One]
WHY, are all the schools they fallin apart
and WHY, the youth not takin no musical art
and WHY, the professionals really don't know where to start
No, one, really, cares, about
WHY, the people ain't trustin the law and the order
and WHY, the hookers from 70's look like our daughters
and WHY, the radio station they help with the slaughter
No, one, really, cares, about

[KRS-One]
The mind, they usin until it's time they doin a rhyme
will ruin what you doin if you crime pursuin
Let me tell you bout gettin your family out the mean ghetto
to green meadows, where you can finally be settled
That street level, freak level, pullin out heat level
Eatin meat level, deceit level, that's that beast level
You gotta stand upright in a house with three levels
Where you don't even see devils unless he shovels the snow
Many philosophers live on the low
Never crazy hazy or lazy we get up and go
Whaddya know, I'm always teaching after the show
Not messin with hoes, I'm with my wife, changin my clothes
Blowin my nose, deliverin blows to foes
with new flows; then disappear where nobody knows
Cause I got too many questions, too many lessons
I gotta go, too many people stressin but I gotta know

[Chorus 2: KRS-One]
WHY, these officers gunnin us down on our block
and WHY, the President never steps in on these cops
and WHY, the mayor don't even look like he in shock
No, one, really, cares, about
WHY, the call of the poor is always ignored

and WHY, the senators governors breakin the law
and WHY, they taxin and taxin and taxin the poor
No, one, really, cares, about

[KRS-One]
You, me, or themselves you can tell, they livin in hell
But they come on the TV lookin so swell
Sellin you dreams of schemes of you gettin green and cream
But they never explain the work and all it means
You got to visualize, close the lid on your eyes
and visualize, minimize lies
See yourself bigger in size, quicker to rise up
wise up climb up, before your time's up but

[Chorus 1]

[s] The votes
[K] That's right
[s] The politics
[K] That's right
[s] The government you know!
[K] Uh-huh, people basically have the government they want
[s] If people felt dissed, they'd be out rebellin right now

KRS-One Lyrics

"Doth Thou Know"

[KRS-One]
Thou knowest not what thou sayeth in speech?
Doth thou know what thou teacheth to each?
From thine own mouth, thy corrupt thine own house
Thy corrupt thine siblings and thine own spouse
Satan has hold of thy spirit
So evil has hold of thy lyric
Whomsoever shall hear it shall adapt it
And walk the talk of evil just as ye rapped it
But I cometh forth today to say thus
Evil is an illusion, in GOD we trust
In Satan we lust
Coveting thy brother's vehicle while riding the bus
Feeling unjust
Trust not sinners in the flesh they aren't winners
But in the spirit they art children, beginners
Eat not of the dinner they serve
Seek the experienced MC, not the beginners in word

KRS-One Lyrics

"The Lessin"

(feat. April S. Williams)

Yeah.. uh-huh.. underground, never stop y'all
Underground, K.P. y'all c'mon!

[Chorus: April S. Williams]
Ain't no stoppin what we done
Don't give up this fight is won
There's no way they can hold us down
Cause with power and strength we gonna take it now
Take that stand realize the truth
Knowledge intellect bringin minds anew
There's no way they can hold us down
Cause with power and strength we gonna save you now

[KRS-One over Chorus]
Uh-huh

[KRS-One]
B, R, O, N, X
See these cars, see these checks, intellect
See these thugs, ain't no sweat, intellect
A thousand miles, how do you do it? One step
Now check out this flow, they wanna be down, but they cain't
Original (Criminal Minded) flow, they just ain't
ready for the real, ready to peel off the paint
Your style is fake, the teacher returns to debate
You the best? That's bull, you questionable
Highly flexible, wasn't you sexual?
Now you hardcore? You need to see God more
I sit on the faculty; you, you sophomore

[Chorus]

[KRS-One over Chorus]
Uhh, get 'em up
Yeah, get 'em up uhh
Yeah, uhh, that's right

That's right uh-huh, tell 'em again
It go.. get 'em up
Yeah, that's right, uh-huh
Uh-huh
Another Kenny Parker exclusive!

[KRS-One]
Time to get it, now you did it, tryin to spit it
You don't fit it, ask the critics, already did it, skipped the gimmicks
I don't mimic, metaphysics, you'll admit it, better to live it
better to give it, so I spit it every minute so you get it
My lyric is wicked an' full of culture y'all
Huh? Battle, nah - get back in your car
Either you never heard of me or you really wanna get with me
But as your teacher let me test you for a learning disability
You feeling me? Cause you can't, get it through your head
This is, sui-CIDE!! You're better off dead
Let me not amp you up, cause this style you can't do what
My stomach can take it and your stomach it'll cramp you up
This is, breath control, breath control stylee
I get up all in that ass that *[?]* heinie
Try me, back in the days you woulda had sorrow
Try the teacher today, and you won't see tomorrow cause

[Chorus]

[KRS-One over Chorus]
Uhh, we get 'em up
Uhh, that's right, get 'em up
Yeah, uh-huh, get 'em up
Yeah, ONE MORE TIME NOW!
Uhh, that's right, get 'em up
Uh-huh, uh-huh, get 'em up I HEAR YOU
Uh-huh, I HEAR YOU, WORD UP!
LOOK AT THIS!

[KRS-One]
Like a piss on the streets I exist
Not the meat but the fish
Complete the feat when I'm speakin the heat into this
Witness Kris rippin this
Don't trip on this, skip ahead if you're ready
My show medley is deadly
I'm about a hundred million mic years away
These players I don't hate, but I'm not here to play
I hit it all day, all night, all afternoon
Rock all mics from the days of sassoon
Where the hell was you? On the corner with rats
when we was at the LQ, lockin it down and that was that

Divine speaker, mind keeper, time teacher, time leader
I'll be sittin in the club by the speaker
Waitin for you rappers to choke up then I eat ya
like some prehistoric winged creature, AHHH!
On your neck, like the American eagle facin East and West
I be the best, Blastmaster KRS cause

[Chorus]

[KRS-One over Chorus]
We get 'em up
Uhh, yo, we get 'em up
Like, YEAH, I SEE IT OVER THERE
I SEE IT OVER THERE, IT'S.. YEAH IT'S OVER HERE!
Uhh! Uhh, one more time we get it up
Yeah, yeah, we get it
Uhh, uhh, IT'S OVER HERE NOW!
IT'S OVER HERE NOW! UHH!

[April and KRS-One ad lib]

[Chorus]

[KRS-One]
Attention all true hip-hoppers
Let us come together, for the unity of hip-hop culture
Every third week in May, is hip-hop appreciation week
Celebrate with us
Then, join us in November, for hip-hop history month
Big up, to the Zulu Nation, PEACE!

KRS-One Lyrics

"The Mind"

[Chorus 1: x2]
First thing we must do is make up our - MIND
Then we must go and really clear our - MIND
Erase the doubt and the fear from our - MIND
Share our - MIND, speak our - MIND

Stand up brother, stand up sister
I told y'all before, love is gonna get'cha
Lovin that money, lovin that liquor
Lovin that sex without respect you gets no bigger
I ain't got time to chill, only got time to build
You find that in those with skills
This a real MC, of the highest degree
With no video, my show they dyin to see
Not whether I'm buyin 'em three
When you watch television just keep sayin they lyin to me
Cause they are - how long you gonna stay at the bar?
I'm not desperate for money, maybe you are, but listen

[Chorus 2: x2]
First thing we gon' do is make up our - MIND
Then we gon' go, and we gon' clear our - MIND
Erase the doubt and the fear from our - MIND
Share our - MIND, speak our - MIND

Don't you think it's time we thought about the future?
Whether our children they gonna be winners or losers?
Don't you think it's time to advance the rhyme we spit?
Whether you know it or not, you deep in politics
All inside of it, in fact YOU the issue
Don't let this government diss you!
They really do not want you to vote
They really do not want you to hope
They really want you sniffin they coke
You look around yo we missin the boat
I coulda wrote about ANYTHING to get on, but this what I wrote
And what I'm writin, is guaranteed to enlighten
Like Dr. Cornel West, Michael Eric Dyson
This is how we do it today, enough of the crime talk
KRS got somethin new to say
Rise up, and put aside childish things
This is the message we bring; listen

[Chorus 2]

Last verse, KRS, blast first
Ignorance is bad, but temptation that's worse
They hide they purse, cause of the way we spit the verse
No one ever told 'em that the style's rehearsed
And even if they did, it wouldn't be new to they mind
Cause all day rappers confess to doin these crimes
So when the cops see you, they're not thinkin about me
They thinkin about takin you out of society
Keep it right, don't lie to me
You think it's too much preachin teachin?
Huh, well fine, we'll see
When you're locked up in J.D.C., or even prison
The truth shall set you free, just listen
You want health, and really that's about prevention
You want love, real love, and not depression
You want awareness, which come from discipline and will
You want wealth, which come from skills
When you really ready to talk, let's build
You ain't gotta be a scholar to know the next 4 years gonna be ill
I believe you already know the drill, don't lie
don't steal, seek peace and don't kill

[Chorus 1]

KRS-One Lyrics

"Hiphop Knowledge"

You know.. life is funny..
If you don't repeat the actions of your own success
you won't be successful
You gotta know your own formula, your own ingredients
What made you, YOU..

1987 I was at the Latin Quarters
Listenin to Afrika Bambaata give the order
The call of the order was to avoid the slaughter
He said, "Record companies ain't got nuttin for ya!"
Without a lawyer, he taught The Infinity Lessons
In how hip-hop could be a, many a blessing
And that was great, so in 1988
there was no debate, we had to end the hate
The name of the game was "Stop the Violence"
and unity, knowledge, and self-reliance
We - started talkin bout Martin and Malcolm
Had these ghetto kids goin, "Huh, what about him?"
1989, Professor Griff speaks his mind
but his freedom of speech is declined
1990 came with the West coast
East coast, West coast, who is the best coast?
Lookin back now, of COURSE it was bogus
The whole argument was where we lost focus
We got hopeless; not with the lyrics and music
but with hip-hop, and how we used it
Or abused it, you know how the crew get
"You like it cause you choose it"
1991, we opened our eyes
with Human Education Against Lies, we tried
to talk about the state of humanity
But all these others rappers got mad at me
They called me "Captain Human", another message was sent
"Self Destruction don't pay the {fuckin} rent"
Remember that? Nobody wanted conscious rap
It was like - where these ballers at?
Where can they call us at? All was wack
Hip-Hop culture was fallin flat and that was that
So in 1992, I found my crew
They said, "Yo Kris, what you wanna do?"
I said, "Damn - why they wanna get with me?
If I bust they {shit} I'm contradictory.
If I play the bitch role, they take my shoe.
Tell me what the {fuck} am I supposed to do?"

So I did it, don't stop get it get it get it
All of a sudden these critics they wanna spit it
"Kay Are Ess One is con-tra-dic-to-ry"
Just cause I wouldn't let these rappers get with me
{Fuck} that, {fuck} you and {fuck} your pen
If a rapper wanna diss, yo I'd do it again
But I'm makin these ends, and I got my friends
And I really don't wanna have to sit in the pen
So I go back to the philosopher
1993 hip-hop is uhh.. wack
Go back, check the facts
1994, "Return of the Boom Bap"
It wasn't all about the loot
It was all about Harry Allen Rhythm Cultural Institute
Blowin up, 1995
Conscious rap is still alive
But nobody wanna play it, nobody wanna say it
Nobody okayed it, they'd all rather hate it
1996 it really don't stop
We put together somethin called the Temple of Hip-Hop
Not just DJin, breakin, graf and lyrics
But how hip-hop affects the spirit
"Step Into a World," that's what I did
1997 I was raisin my kid
or kids, but I, had to go
Cause New York DJ's changed the flows
to clothes and hoes, but that wasn't me
I'll be damned if I dance for the MTV
So in 1998 I began to debate
Should I go now, or should I really wait?
'99, I moved to L.A. you see
and took a gig with the WB
Started studyin philosophy full-time
To have a full heart, full body, full mind
But you know what the problem is or was?
DJ's don't raise our kids, cuz
they so caught up in the cash and jewels
How they gonna really see a hip-hop school?
How they gonna really see a hip-hop temple?
They don't even wanna play my instrumentals, but
big up Dr. Dre, Snoop, Xzibit
Especially Xzibit, he was there in a minute
Mic Conception, all of them, said
"Yo you need help? I should call them"
When I was in L.A., I held the crown
Bloods, Crips, they held me down
I could never forget Mad Lion, killer pride
with the gat in the lap in the low-ride
Oh I can't forget, Icy Ice, Lucky Lou

Julio G, that was the crew
Davey D, Ingrid, David Connor
The list goes on and on, let me tell ya
FredWreck, and my man Protest
Much respect, no less
To my spiritual and mental defenders
Big up to L.A., temple members
But in 2000, I seen how I wanted to live
I wasn't no executive
So I picked up the mic and I quit my job
Said to Simone I gotta get with God
She said, "Don't worry bout these dollars and quarters.
Record companies ain't got nuttin for ya."
Damn, she took me back to Bam!
Took me back to who I am!
Brought me back to the New York land!
Now I overstand!..

[interviewer]
Now KRS-One, now you've been quoted as saying that
rap is something we do, hip-hop is something you live.
[KRS] Yes!
[interviewer]
Explain that to us please.
[KRS-One]
Well, well, today hip-hop, we are advocating that hip-hop is not,
just a music, it is an attitude, it is an awareness, it is a way
to view the world. So rap music, is something we do, but HIP-HOP,
is something we live. And we look at hip-hop, in it's 9 elements;
which is breaking, emceeing, graffiti art, deejaying, beatboxing,
street fashion, street language, street knowledge, and street
entrepenurialism - trade and business. And uhh, that's where y'know
that's the hip-hop that that that we're about. We come from the uhh
the root of, of Kool DJ Herc, who originated hip-hop in the early 70's
and then Afrika Bambaata and Zulu Nation (mmhmm)
who instigated something called The Infinity Lessons
and added conciousness to hip-hop, and then Grandmaster Flash
with the invention of the mixer, on to Run-D.M.C. and then myself.
And uhh, we created the "Stop the Violence" movement, you may recall
a song, "Self Destruction" and and and so on. All of this, goes to
uhh uhh, the idea of LIVING this culture out and taking responsibility
for how it looks and and acts in society.

KRS-One Lyrics

"What Kinda World"

There's no such thing as a government
There's only people rulin over people
People jerkin around people
People lendin a hand to people..
What part of the system do you play?
Who do you oppress? ..Uhh!

[Chorus]
What kinda world are we livin in? Yo
What kinda world are we livin innnnnn?
Can I get with my people? Can I sit with my people?
Break bread with my people? Move ahead with my people?

[Chorus 1/2]

When every day, seven thousand kids are gettin locked up
When every day the justice system seems to stay stocked up
When every day they cuttin 'em down 'fore they even pop up
When every day you gotta duck 'fore you get shot up
What kinda world are we livin in, spinnin in
Winnin in, sinnin in, let us begin again
Churches are ran like corporations makin me holla
Corporations are ran like churches praisin the dollar
There's no way out, or is it? Release your doubt and live it
Teachin metaphysics don't listen to these critics hear it
What kinda world are we livin in?
Believe in yourself, achieve for yourself, see for yourself
Speak for yourself, never weaken yourself, by deceivin yourself
Believe in your wealth, c'mon!

[Chorus]

Yo, yo, yeah
What kinda world are we livin out, we move about
in fear and doubt, tryin to get more clout
Just check it check it out, we took the wrong route
to a morality drought, basically I'm callin 'em out
What kinda world are we livin in, when a song
will not get on, unless it talks 'bout thongs
Now where did we go wrong? We don't have long
Preference all torn all worn not norm and all gone
What kinda world do we live around, when we lay around
Let me break it down, they shuttin us down
while we play around, we fallin, stallin

while God's callin, all in to fall in

[Chorus]

[Chorus 1/2]

When every day another unwanted pregnancy ends
When every day another person is betrayed by a friend
When every day it never ends, and the people pretend
like the President is there cause of them, let me ask
What kinda world can we really trust
when the cops they can shoot at us? Bo bo!
What kinda world can we really grow (ohh)
when our daughters wanna be hoes (ohh)
and a father that nobody knows (ohh)
and a mother wearin them sexy clothes (ho)
What kinda world are we livin in, yo
What kinda world are we livin in, uhh

[Chorus: w/ variations]

Can I get with my people? Can I sit with my people?
Break bread with my people? Move ahead with my people?
Can I sit with my people? Can I get with my people?
Break bread with my people? Move ahead with my people?
Can I sit with my people? Can I get with my people?
Break bread with my people? Move ahead with my people?

Fresh.. for two-thousand-one.. you SU-CKAZZZZZZ!

KRS-One Lyrics

"I Will Make It"

(feat. Hezekiah Walker Choir)

[KRS-One]
Instead of reading the word of Christ, BE the word of Christ
Instead of following God's word, BE God's word
That's the conciousness of hip-hop
You are not just doing hip-hop, you ARE hip-hop
You are not just reading the word of God, you ARE the word of God

[KRS] I will make it
[HWC] I will make it!
[KRS] They can fake it
[HWC] [?]
[KRS] Time that I state it
[HWC] I can create it
[KRS] I create it
[HWC] No one can make it

[KRS-One]
For me, what you see is what you get in these days
I'm so hungry you can throw my dinner right on the stage
You can bite down on my rage, bite down on my anticipation
With no doubt or hesitation, repeat this affirmation
(I WILL MAKE IT) Not I wanna make it
(SHOW 'EM HOW WE MAKE IT) In fact, we've made it
Every time we state and believe it we create it
The power of your very word is highly underrated
Sleepin in the dark in the park watchin others push they cart
Say this whole thing in your heart

[KRS] I will make it
[HWC] I will make it!
[KRS] They can fake it
[HWC] [?]
[KRS] Time that I state it
[HWC] I can create it
[KRS] I create it
[HWC] No one can make it

[KRS-One]
For me, I ain't askin I ain't beggin I ain't pleadin
In a positive direction my lifestyle I'm leadin
I'm readin about ways of achievin what I'm believin
Every time I'm speakin I'm seein myself leapin
over buildings, over the one on the corner chillin

Straight into knowledge of self, countin up millions
Changin my situation, with creative visualization
Givin libation for this ancient information

[KRS] I will make it
[HWC] I will make it!
[KRS] They can fake it
[HWC] [?]
[KRS] Time that I state it
[HWC] I can create it
[KRS] I create it
[HWC] No one can make it

[KRS] For me
[HWC] I will make it.. cause you're gonna make it!
[HWC] I will make it.. cause you're gonna make it!
[HWC] I will make it.. cause you're gonna make it!

KRS-One Lyrics

"Get Your Self Up"

Yeah
(Yeah)
Yeah
(Yeah)
Ah-ha
(Ah-ha)
Ah-ha
(Ah-ha)
Hardcore!
Word
Hardcore!

[live excerpt]
(You really think they're ready, black?)
Let's break it all the way down
All the way down
Huh-huh
Don't be fooled
Don't be fooled
Rap is something you do
Hip-hop is something you live
Rap is something you do
Hip-hop is something you.. *[crowd responds]*
Rap is something you do
Hip-hop.. *[crowd responds]*
You are not just doing hip-hop..
[crowd responds]

Yeah
Let's get this started
Word up

[CHORUS]
You gotta - get - your - self - up!
You been knocked down?
Get yourself up!
You been shot down?
Get yourself up!
You been locked down?
Get yourself up!
Get - your - self - up!
Been knocked down?
Get yourself up!
Been shot down?

Get yourself up!
You been locked down?
Get yourself up!

What is a real hip-hop MC?
Is it MTV, is it BET?
Is it five m-i-c's
So the people can see
I mean, how you think you're free
When you act like property?
Tell me, how do you judge an MC when he's rockin
I mean rockin it live, not pickin his cotton
I mean adjustin his clothes, I mean how do you know
Before you come to the show that you're not gettin heated
That you're not gettin cheated
That you ain't come to the club thinkin 'I must've been weeded!'
(Word)
You got to be a educated consumer
Spend your money on MC's cause these rappers'll do ya
Ass they want is your cash, ass, grass, gas in a flick
When you ask for that autograph they ass-dash quick
Beware of the rapper, he talks like it don't matter
He pulls his gat while we bust off the gatler

[CHORUS]

This is the "Sneak Attack"
The "Edutainment" style returns like that
Take it off your shelf
Cause all we deal with is knowledge of self, health and wealth
Not Stealth bombers, leather goose bombers
Original hip-hop armor on cd-rom - eh
You got to get with a
21st century philosopher
Representin the religion of hip-hop, sir
Those that oppose are foes and will get rocked - eh
Stopped, eh - I rise like a helicopter
Like Zulu I'll Shaka, crowd
With a beat that's loud
Huh, I'm black and I'm proud - irrelevant
I'm black and intelligent
I teach my kids to watch the education they give em
Cause it's really all about street wisdom

[CHORUS]

True hip-hoppers don't bleed
True hip-hoppers don't need
True hip-hoppers don't speed

No time for greed
True hip-hoppers do read
And will lead, not plead
Will sow seeds that breed
Ah-ha that's safer than weed, indeed
True hip-hoppers don't slave
True hip-hoppers don't crave
Silver and gold, we're not amazed
We live f-r-e-e
If you not into lyrics you can't really hear it nor see me
My philosophy keeps it plain and simple
Here it is: the kingdom of hip-hop is within you
Or is it the kingdom of hell that sends you?
I'm ringin a bell within you
You only seek in a cell, that's what sin do
It tells you to put your craft on a menu, a chart
So they can sell you and your art

[CHORUS]

KRS-One Lyrics

"Krush Them"

We crush, them, and they click
Let me tell you right now what you supposed to get
You supposed to get free and intelligent
Not a platinum plaque, that's irrelevant
We CRUSH, THEM, and they crew
Let me tell you right now what you supposed to do
While they floss with the chi-ching and all the rings
You stay focused, keep doin your thing
You cannot get the diamond ring, if you can't really sing
Or if you haven't got a skill, that you ready to fling
What you bringin to the table if you not really able
Tryin to get to the top, like the Tower of Babel
Back in the days, remember all the old gold cables
Where they at now? Sold, when they dropped from the label
All the money they gave you made you very unstable
They really enslaved but you wasn't able with the coke in your nasal
to see, you up in the crib but they rockin your cradle
You a joke and you fatal, they made you an M.C.
Meaning: Most Confused
Not E-M-C-E-E, that's what I use
Many people really wanna know from me
when I'ma drop and they can go cop, the next LP
Or CD, or T-A-P-E you see
It's about word of mouth, for me

We crush, them, and they click
Let me tell you right now what you supposed to get
You supposed to get free and intelligent
Not a platinum plaque, that's irrelevant
We CRUSH, THEM, and they rap
Yo, they don't really know where the money is at
And what's funny is that, is if you'd just stay focused
they'd be the one to be the brokest!
I'm from the inner city, that's right
Flashy asses and titties that's right
No pity mad graffiti that's right
Broken gang treaties, that's real
I speak complete broken slang freely at will
I spit what I'm about to spit, get what I'm about to get
Never no counterfeit, movin about a bit
Knowledge Reigns Supreme, only a few like the sound of it
Others can't get down with it (ONE.. TWO.. THREE.. BREAK!)
So why did I have to come off my sabbatical?
Battle you? My metachromatical will splatter you

I got another track to do, I can't mack witchu
Your rhymes are fictional, mine are factual
I'll embarass you, I'm glad to do
I'm the teacher but in the streets it can be bad for you
I feel sad for you, cause you frontin like you gettin ahead
but you really on E instead
I've come to show these people you're not my equal
All you want is the cash and a hoe in a see-through
Yeah; KRS-One comin through with the breeze team
You know how we do

We crush, them, and they click
Let me tell you right now what you supposed to get
You supposed to get free and intelligent
Not a platinum plaque, that's irrelevant
Yo we crush them, and they squad
Let me tell you right now that it's all about God
You can walk around the streets like you livin it hard
But a real teacher know when you scarred
I refuse to be bought, I refuse to snooze
I refuse to come up short, I refuse to lose
I refuse to be caught in the court
I refuse to refuse bein taught, I refuse evil thoughts
Cause they whole {shit's} wack, trap's wack
You're wack, you're pack's wack, in fact I jab-slap that
Cap at that, now, retract that crap, wherever I'm in or at
You better go back and sip that crap
Bring your gat, I'm lovin that
Like football, you'll be, runnin-back
Blazin 'em, merely dazin 'em, barely playin 'em out
These are God's lyrics, I'm just sayin 'em out

We crush, them, and they click
Let me tell you right now what you supposed to get
You supposed to get free and intelligent
Not a platinum plaque, that's irrelevant
We CRUSH, THEM, and they crew
Let me tell you right now what you supposed to do
You supposed to be buttoned up right to your neck
If you a woman, you'll get respect
Let me tell you we crush the, and they crew
Let me tell you right now what you supposed to be
You supposed to be a man of integrity
Above the law, you effect destiny
We CRUSH, THEM, and they lies
This is concious rap, we not hypnotized
Anywhere the action's at, we rappin at
Takin it home and unpackin that-that-that

KRS-One Lyrics

"Hush"

(feat. Nyce (The Breeze Team))

Uh-huh, whatchu thought? Uh-huh, we was done?
Uh-huh, whatchu thought?! Yeah, yeah
Yeah, whatchu thought? Uhh, uhh, uhh
Yo, yo, back again! What's that? Back again!
What's that? Word! C'mon

[Chorus x2: Nyce]
A North Face and skully hat don't MAKE YOU A THUG
A army suit, a pair of Timbs don't MAKE YOU A THUG
An ill mug and a gat don't MAKE YOU A THUG
A real thug is a thug that's HUSH!

[KRS-One]
Yo, yo, yo, check it, check it
Let us begin, KRS, winnin again, KRS-One did it again
KRS bigger than them, look at them they bit it again
I think my gun just gonna start clickin again
Click-clack, I always spit back
Anybody call my name I go get that
In fact we draggin 'em out, to a deserted route
The teacher returns, you must learn, the word is out
No doubt highly respected, Front Page Records
Off the hook, yet still connected
Are you teachin yourself, teachin yourself?
I'm like history repeatin itself
"Criminal Minded", you've been blinded again
Lookin for my style you can't find it again
You can find these others that may sound like Kris
but when it comes to the hands they don't get down like Kris!
They never ran up in the clubs with a hundred thugs
Never had the respect of Crips and Bloods
Never knew B.O., they never knew Big Pun
They never battled MC's, they never bust they gun
They don't know that, all they know is that show DAT
That's Digital Audio Tape if you don't know that
Now go back and get my name correct
'fore I snatch that platinum from 'round your neck

[Chorus x2: Nyce]
A doo rag a platinum chain don't MAKE YOU A THUG
A fat ride with chrome don't MAKE YOU A THUG
That tough guy talk don't MAKE YOU A THUG
A real thug is a thug that's HUSH!

[KRS-One]
Word, yeah yeah, uh-huh, yo
Yo, yo, yo (hit 'em Kris!)
What mean the world to me? H-I-P, H-O-P
And S-I-M, O-N-E
And G-O-D, I stay low key
I go down to hell, and slap up Satan
Then return to heaven, where Scott LaRock is waitin
Resurrection, just like my brown complexion
when I speak, I don't need protection from the heat
I walk these streets and I'm quick to hit first
Throw on any beat I'll be quick to spit first
and rip town, I take one look around
And all you hear is, "Get down, get down, get down!"
Knowledge Reigns Supreme, I stay on blast
That's why these rappers want me to go on last
That's the truth, that's the fact, that's the deal
Forget sex appeal, my tech is real
And my rep is real, K-R-S
Woo-woop-woop! That's the sound of E-M-S
The rag on your head, it best stay white
Cause I can turn that red in a mintue a-ight?
Now go back and get my name correct
'fore I snatch them diamonds from 'round your neck
Once again, get my name correct
'fore I snatch that platinum from 'round your neck

[Chorus: Nyce]
A North Face and skully hat don't MAKE YOU A THUG
A army suit, a pair of Timbs don't MAKE YOU A THUG
An ill mug and a gat don't MAKE YOU A THUG
A real thug is a thug that's HUSH!
A doo rag a platinum chain don't MAKE YOU A THUG
A fat ride with chrome don't MAKE YOU A THUG
That tough guy talk don't MAKE YOU A THUG
A real thug is a thug that's HUSH!

[KRS-One]
Yeah.. yeah.. yo, yo, yo
To all my heads who wanna see an improvement
in hip-hop culture, join this movement
We need more glocks than my man Freddie Foxxx
The knowledge I spit to the click it don't stop
That hardcore God-core, ready to start war
Rock more shock more top your pop tour
I'm sure I'll drop the grade to zero
When the teacher return, I don't chase DeNiro
Like where yo? Where yo? They livin in fear yo

It's a jungle sometime, but I got my spear yo
The album's called "Sneak Attack", that's what it is
KRS-One spittin facts to kids

[Chorus: Nyce]
A army suit, a pair of Timbs don't MAKE YOU A THUG
That tough guy talk don't MAKE YOU A THUG
An ill mug and a gat don't MAKE YOU A THUG
A real thug is a thug that's HUSH!
A doo rag a platinum chain don't MAKE YOU A THUG
A North Face and skully hat don't MAKE YOU A THUG
A fat ride with chrome don't MAKE YOU A THUG
A real thug is a thug that's HUSH!

KRS-One Lyrics

"The Sneak Attack"

(feat. April S. Williams)

[April S. Williams]
We keep it tight.. we keep it right..
We're comin strong.. we're movin on.. (yeah)
It's time to rise.. and unify..
Keep comin strong (uh-huh, uh-huh, uh-huh!)
Just keep movin on..

[KRS-One]
Yo, where's my people at?
We be where the elite be at
We really never need the gat, we comin with a sneak attack
In fact, best believe we back
What we rap it heats the track
Kenny Parker sees to that, my job is to teach these cats
Present the clear speech they lack
And show 'em how to eat from rap

[April S. Williams]
We keep it tight.. we keep it right.. (that's right)
We're comin strong.. (uh-huh, yeah) we're movin on.. (tell 'em again!)
(Uhh) It's time to rise.. and unify.. (yeah, yeah)
Keep comin strong (uh-huh, uh-huh, uh-huh!)
Just keep movin on..

[KRS-One]
You know why the devil can't get with me?
Cause he's a liar, I've got victory
You can stick with me, my click is free
Negativity, that doesn't live with me
These rappers on one, I've skipped to three
These rappers on A, I've skipped to C
My image, heads ain't quick to be
So I thank you for pickin me
I know why people got to know, these wack rappers got to go
Let a MC rock the show
I'll show 'em how it 'posed to go
We forgot simply what we supposed to know
We still must defeat the foe
So what you got the dough? Your words don't make us glow
In fact they make us slow
How long this gonna take to know you ain't gotta be a hoe?

[April S. Williams]

We keep it tight.. we keep it right.. (yeah)
We're comin strong.. (yeah, yeah) we're movin on.. (uh-huh)
(Tell them again!) It's time to rise.. and unify.. (yeah)
Keep comin strong (uh-huh, uh-huh, uh-huh!)
Just keep movin on..

[KRS-One]
Look at the teacher, I stay attuned
People are blessed when I walk in the room
Snakes*[?]* don't stop me, and if they did
they'd be askin for a tag 'fore they kids
Medical students lose it when I enter any hospital
Doctors wanna talk music and whatever's topical
It's all logical, I perform the impossible
Through words I put hip-hop in you; listen
Here's what we got to do, unify
Defeat the flesh, defeat the beast in you and I
Win or lose I never shout, believe in yourself and never doubt
Discipline is simply a better route

[April S. Williams]
We keep it tight - we keep it tight
We keep it right - we keep it right
We're comin strong - comin strong
We're movin on - movin on!
It's time to rise - it's time to rise
And unify - unifyyyy
Keep comin strong - comin strong
Just keep movin on - keep on movin on
We keep it tight - we keep it tight
We keep it right - we keep it right
We're comin strong - we're comin strong
We're movin on - movin on!
It's time to rise - it's time to rise
And unify - it's time to unify
Keep comin strong
Just keep movin on - keep on movin on
..
Just keep movin on - keep on movin on
Just keep movin on - we gotta keep on movin on
Just keep movin on - wake up and realize
Just keep movin on - that you just keep movin on
Just keep movin on - it's time to realize
Just keep movin on - that you gotta keep movin on
Just keep movin on - keep movin on, keep movin on
Just keep movin on - you gotta keep movin on, you gotta take that time
Just keep movin on - you gotta realize, that it's time
- keep on movin on, keep on movin on

KRS-One Lyrics

"Shutupayouface"

Yeah, whassup?
Whassamatta you? (You) Why you lookin so sad (so sad)
KRS is back (he's back!) But you don't look so glad
Ahh shutupayouface!
Look at this place!
Why was I chosen to pick up the race?
And carry the flame, the torch, the name?
Millenium games, it's all the same
Sinners repent, many for fear
End of the year, everyone cheers
Only a few hear my voice in they ears
Everyone else well they really don't care
But what if I told you I could read the future
and in the future, they the losers
We the winners, cause they the sinners
Well it's all mathematics, can I eat my dinner
and think (think) why was I made to link
between them and the universe; battle, who the first?
I don't really care, cause I'm really not here
I'm showin you skill, but you still sayin "Where?"

Whassamatta you? (You) Why you lookin so sad (so sad)
KRS is back (he's back!) But you don't look so glad
Ahh shutupayouface!
Every race, walkin around with they head up in space
They cannot see that we all really one
In any battle I already won
Thank the creator, it's already done
KRS-One? Leavin 'em stunned
Dunn duh-duh dunn dunn done it again
Me and Will and my brother named Ken, now let me tell you
The bass in your face, the highs in your eyes
will make you real-IZE
If you down with the Temple of Hip-Hop, you not no average GUY, or girl
C'mon take a critical look in my world
See the metaphysical books that I twirl and twist
Forces the ventriloquist
I'm just a dummy gettin money at this name Kris

Whassamatta you? (You) Why you lookin so sad (so sad)
KRS is back (he's back!) But you don't look so glad
Ahh shutupayouface!
KRS-One, Knowledge Reigns Supreme Over Nearly Everyone
Look, I be chillin readin a book

While the hip-hop nation repeats my hooks
All I wanna see is y'all healthy and wealthy
Yeah we already did it, really what can they tell me
About the pimps and the hoes, players and the clothes
You gets no money if you got no flow, no skill
C'mon y'all it's time to build
If you got no skill, how you gon' build?
Build, c'mon y'all it's time to build
If you got no skill, how you gon' build?

Whassamatta you? (You) Why you lookin so sad (so sad)
KRS is back (he's back!) But you don't look so glad
Ahh shutupayouface! Negative ass..
We bring the light!

North Carolina - they got me
Florida - they got me
Texas - yeah they rock me
In New York City they got me
L.A. - ha hah, they got me
Canada - Up North they rock me
D.C. - Atlanta, they got me
Ha hah - none of y'all can't stop me

Whassamatta you? (You) Why you lookin so sad (so sad)
KRS is back (he's back!) But you don't look so glad
Ahh shutupayouface! ..
Give it to 'em..

KRS-One Lyrics

"False Pride"

[KRS-One]
Okay now, listen to this..
[sound effect: seagulls]
A mystical teacher sat by the seaside
It was about five o'clock cause we heard the free ride
Anyway; the teacher was talking in stride
sitting upon a rock that was wide
and warning against false pride
"Come to where I reside!" a woman cried
and the teacher replied, "Do you serve your fish fried?"
"Yes," she replied, "with potato salad on the side."
And the teacher replied, "Well where do you reside?"
She said, "Up on the hillside, it's not a far ride.
If you came to have dinner, I would be so gratified."
The teacher replied, "It's six o'clock, seven o'clock, you decide."
She replied, "Seven o'clock, do you like stir-fried?"
She was mystified and felt so dignified
The teacher was coming to the house where she resides
So she purified with pesticides
[sound effect: chemicals sprayed]
Called her friends up nationwide
[sound effect: phone being dialed]
Some of her friends were tongue-tied they felt so glorified
She made steamed fish, baked fish, fish that was fried
Soup, steamed vegetables, potato salad on the side
[sound effect: food cooking]
You could smell the bread in the oven far and wide
Natural juices and water purified
Organic fruits brought from the countryside
with silver forks and knives placed side by side
[sound effect: silverware clinks]
You could not be dissatisfied;
looking out the window staring at the mountainside,
you would have died
6:59 she's swollen with pride
As the moment intensified, there's a knock from outside
[sound effect: door knocking]
She opens the door, for the teacher has arrived
[sound effect: door creaks open]
But to her surprise, it was a bum who cried
"Please, I smelt the bread from outside!
One piece," and then she replied
"The teacher is coming, he's soon to have arrived.
You're making me look bad, come on now, step aside!"

The bum then replied,
"When I say I'm hungry I haven't lied.
Give me some of that chicken that you just fried."
[sound effect: food cooking]
She replied, "Chicken - fried?
No that's for the teacher, you're not purified"
Then she slammed the door and went back inside
[sound effect: door closes]
Sat on the couch with the TV Guide
She looked at the clock, it was 7:09, then 7:30;
he still hasn't arrived
Eight o'clock, she's on the downside
Nine o'clock, by now she's teary-eyed
She's pissed off and her anger multiplied
She cried, then fell asleep dissatisfied
Next day she woke up, and was preoccupied
with meeting the mystical teacher who lied
Where could he hide?
She ran down by the seaside
[sound effect: seagulls]
He was there teaching about - false pride
"You lied!" she replied, "You lied!
You said you'd be there at seven o'clock, you lied!"
He replied, "No I have not lied.
I came at 6:59, and you told me to move aside.
I asked for bread and the chicken that was fried.
[sound effect: food cooking]
And you said, that I wasn't purified."
She replied, "I wasn't notified!
I had no idea that you was the bum that cried!"
And the teacher sighed, then replied,
"This concludes our lesson on false pride."

KRS-One Lyrics

"The Raptism"

(feat. Hezekiah Walker Choir)

So gather round now for the raptism
Cause if the dogs don't get 'em
the cattle get 'em, or the gat'll get 'em, or the crack'll get 'em
Time for spiritual activism, life is a journey
and Kris got the map with him
Teach latinos and blacks with 'em
It's amazing when whites and asians kick raps with 'em
Cause out of a thousand MC's, believe I taught half of 'em
Knowledge Reigns Supreme, I beam through many images
My origin is a mystery like capstones on pyramids
We live it kid, challenge the teacher you will regret that
I'm giving careers and taking careers away, did you forget that?
[H.W.C. harmonizes a melody (no words)] Better check that, you can rock this track and the next track
[H.W.C. harmonizes a melody (no words)] But when I correct the spirit hit, you'll always be set back
So gather round now for the raptism
Only those that got hip-hop in 'em
and not rap in 'em and no crack with 'em
Step up now and receive a holy dose
from a holy host, and take a break from these rappers that only boast
[H.W.C. harmonizes a melody (no words)]
[HWC] Wake up, to make up
[KRS] Yeah yeah, yeah
[HWC] Wake up, to make up
[KRS] Huh, huh, yeah yeah, yeah
[HWC] Wake up, to make up
[KRS] Yo, yeah, yo..
[H.W.C. harmonizes a melody (no words)] My intellectual battle will make your brains rattle
[H.W.C. harmonizes a melody (no words)] I'll unwrap you and your crew from the same shackle
I'm on many different planes like a airport
Psychologically you be rethinkin your identity and cuttin ya hair short
Now there's a thought, that exposes your insecurity
You put no fear in me, I break the M from the C
[H.W.C. harmonizes a melody (no words)] And reverse it to say "See 'em? See 'em?"
[H.W.C. harmonizes a melody (no words)] They allow the devil to lead 'em, and they be givin up they freedom
So, huh, gather round for the raptism
[HWC] Wake up
When the spirit hear it the lyric long before the track get 'em
[HWC] Wake up
I spit 'em out, gotta get 'em out, the world I never been about
I see them glitter but their spirit's goin in and out
We see them fading, we also see them hating

We also see those living for musical chart ratings
Hear what I'm stating or trading for what you're paying
Replace fear with faith and you'll stop decaying
Gather round for the raptism (word)
Gather round for the raptism (word, word)
[HWC] Wake up, wake up, wake up
[H.W.C. harmonizes a melody (no words)] Gather round for the raptism
[HWC] Make up, make up, make up
[H.W.C. harmonizes a melody (no words)] Cause if the dogs don't get 'em
[H.W.C. harmonizes a melody (no words)] the cattle get 'em, or the gat'll get 'em, or the crack'll get 'em
Yo, yo, gather round for the raptism
[HWC] Wake up
Word.. word..
[HWC] Wake up
Word..
[HWC] Wake up
the dogs don't get 'em
the cattle get 'em, or the crack'll get 'em, or the gat'll get 'em
[HWC] Wake up
[HWC] Everyday, when you wake up
[HWC] You got a chance, to MAKE UP!
Remember, you are not just doing hip-hop, you ARE hip-hop
[HWC] Wake up to make up
[HWC] Wake up to make up
Twice a year, hip-hoppers come together
to celebrate the unity of hip-hop
We come together, during Hip-Hop Appreciation Week

THE MIX TAPE

KRS-One Lyrics

"Ova Here"

[Intro]
The real hip hop is ova (Here!!!!)
The real hip hop is ova (Here!!!!)
The real hip hop is ova (Here!!!!)
The real hip hop is ova (Here!!!!)

[Interlude]
Blaow Blaow!!! Blaow Blaow!!! Clear em out clear 'em out!!! Word!

[Verse 1]
Yo Nelly! You ain't Fo'Reel and you ain't Universal
Your whole style sounds like a N'Sync commercial
Ignoramus, I'm the baddest with the mic apparatus
Challengin the God of rap is madness, I'll snatch your status
With this ugly lookin billboard you could stop them
But I got enough albums to make my own top ten
You limited, like the spread of traffic
You bite my style off the radio so when you speak you bet I hear the static
You better Chillout like Chuck, I kick like three Norrises
One of my sixteen bar rhymes is eight of your choruses
Of course it is ridiculous
Watch out, I begin to curve indispicuous
Gotcha! On your, hands and knees
Ain't it about time for some real emcees?

[Chorus]
The real hip hop is ova (Here!!!!)
The real hip hop is ova (Here!!!!)
The real hip hop is ova (Here!!!!)
The real hip hop is ova (Here!!!!)

[Verse 2]
(Uh!) Uh! We on the hunt tonight
When you see me comin, I don't front I fight
People say I'm contradictin, cause I'm all about peace
To say the least with a violent history
It ain't no mystery these rappers wanna get with me
My people don't see that all they hear is stop hittin me, huh
Stop beatin me Chris, you want to help my career Nelly?
Well you can help if you don't exist, huh
I think it's 'bout time we stop these pop rappers
Fuck these pop rappers, hip hop does matter to me
Does it matter to you? My crew
If it does, you know what the hell to do
Throw your guns in the air, pump it like yeah
Let these bitch ass rappers know we in here
Go to the shows huh, boo 'em off stage
Tell 'em KRS told you they at the end of they days

Let me tell you let's give hip hop a lift
And don't buy Nelly's album on June twenty fifth
That'll send a message to all them sellouts
House nigga rapper, your bottom done fell out
You don't even know how
I told you I wasn't talkin about you then, but I'm talkin about you now!
Blaow! one to the kness, blaow one goes right through
Even St. Louis don't like you!!!!

KRS-One Lyrics

"Things Is About To Change"

Word.. we stand out, word
We don't wanna sound like that bullshit

Let 'em all be aware, not at all will I care
You gotta know it's about the flow when you comin in here
Not how long is your hair, but how long were you here
How many dues you paid, crews you slayed, yeah
How many clubs you done rocked, f'real
You ever rocked outside with cats poppin they steel?
You fake like Ma-Ma-Ma-Max Headroom
You go from the bedroom to the studio back to the bedroom
We be on the front line, pavin the way
for you to do what you do, get what you get, say what you say
Flip what you flip, play what you play at the Grammy's
But you don't represent our family, you a thief!

All up and down the East coast
THINGS IS ABOUT TO CHANGE
All up and down the West coast, down in the South
THINGS IS ABOUT TO CHANGE
All up top and in North Canada, make some noise
THINGS IS ABOUT TO CHANGE
All my cats in London, Birmingham, Brixton, word!
THINGS IS ABOUT TO CHANGE

Join the campaign to rearrange the rap game
Don't look at me like I'm insane, the facts remain plain
You to blame, when you take it in vein
The gains and struggles and pains of those that already came
From the beginning we tried to attain, the money and fame
That's not new to the game, it's still the same
But what seems to change is the loyalty
Rappers degrade hip-hop for a royalty
It's all about me and my click and we ballin G
But we fallin, stallin our callin to be free
You can't see, they're gonna judge our poetry
in two-thousand and twenty-three, where will your money be?
Where will your Benz be? Your friends be?
Your beginnin be? Your end be? Gently
You tell me to my face my style you envy
But behind my back you condemn me, you a thief!

All out in Germany, Africa
THINGS IS ABOUT TO CHANGE
Word up, hip-hop, join the nation, movin!
THINGS IS ABOUT TO CHANGE
Word up, all them fake-ass whack rappers, word up!
THINGS IS ABOUT TO CHANGE

Tell 'em, go to they shows and let 'em know it's like this
THINGS IS ABOUT TO CHANGE

For sure, it's the people that defend me
Yeah you on MTV, but did you know Ted Demme?
What about Fab 5 Freddy, Red Alert?
You not ready.. ready.. ready.. *[fades]*

[ends with sound of glass shattering]

KRS-One Lyrics

"Splash"

Word up! It's just a little somethin to tide you over, word up
The "KRStyle" album comin soon, KRS-One all in the room
We gonna bounce these cats this year, word up
Why they do this? Ha - yo, yo

I climb up the back of rappers
Reach over they head, and rap backwards at 'em
Excuse me madam, I used to throw these uzis at 'em
But I'm a teacher, skills I truly have 'em
These clubs I duly pack 'em
Potential lawyers engineers and doctors, I do attract 'em
Go to your professors and ask 'em
if the songs of the "Edutainment" in college they didn't blast 'em
Yes - I'm that ancient one
I set the framework for today's rappers to make they funds
But no you don't know me son
My facial features matches the Sphinx with it's nose redone
You know how many clubs we done rocked?
You know how many guns we done popped?
You know how many funds we done dropped?
You know how many ones we done got?
We been gettin live since the days of Chubb Rock
We know how to survive; these other cats
be in at nine o'clock then be out at five, uhh
We doin the overtime, on stage I over-rhyme
Makin these whack rappers tow the line
Steppin to me, I know you blind; cause your whole flow
your show, your style, you know it's all mine!
The first time you learned to spit
It was either me, Kane, Rakim or Slick Rick!
[water splashes]

Welcome to the "KRStyle"
This year I had to switch styles and bust off two miss-iles
And that's not all, rappers have the gall
To pray and pray for my downfall - but still in all
I have X amount of lyrics to get 'em all
Live at the club I spit 'em all
Rappers backstage lookin sad and piti-fal
Cause they know I'm the pinna-cle and they mini-mal
I spit the metaphysical, the spiritual
The oracle, the lyrical, the oratorical
Rookie! I'll mop the floor witcho'
I'm the lyrical foundation to all your flows
All your clothes, all your shows and I'm not alone
You wouldn't even know how to hold the mic or the phone
You couldn't even bite on the bone
While we was rockin mics out in Rome

Now you hyped cause you grown?
You know we internationally known, the people love it
But what they learnin bout is on the whole, look above it
But let us get back to what we call hip-hop
Before you whack rappers went pop
[water splashes]

KRS-One Lyrics

"Down The Charts"

You cats still worried about chart position
It's the heart that your missin
It's the art that your missin
Just a little something to hold yall over
The Kristal album on the way, word up

When you're number one, everybody come
But when you drop to two everybody still with you
But when you drop to three everybody want to see
But when you drop to four everybody still endures
But when you drop to five people will help you strive
When you drop to six you still in every mix
But when you drop to seven people start guessin
When you drop to eight people hesitate
But when you drop to nine thats when you start to find
That when you drop to ten you start to lose your friends
When you drop to eleven your record stop sellin
When you drop to twelve it's everyone for themselves
So when you drop to thirteen you stop working
When you drop to fourteen no more self esteem
You drop to fifteen cuz you lived and you seen
When you drop to sixteen you now out the scene
When you drop to seventeen you see things you never seen
Like when you drop to eighteen you know what it mean
So drop to nineteen and on then to twenty
At nineteen you lose your honey
At twenty your money to a Playboy bunny
At twenty one things ain't funny
At twenty two you don't know what to do
So you hit twenty three you look for security
So you drop to twenty four no more can you endure
When you drop to twenty five at the bottom you've arrived
When you drop to twenty six you in a old school mix
When you drop to twenty seven until you start steppin
When you drop to twenty eight you start to meditate
When you drop to twenty nine you expand your mind
When you drop to thirty you see it was all dirty
No you drop to thirty two and it occurs to you
When you hit thirty three now you can see
That it's all about skill and a love for the art
Not whose above or whose below in the chart
You got to look in your heart
It's there where you start
I and hip hop are never ever ever apart
WORD!!

KRS-One Lyrics

Not sex y'all, move that neck y'all, correct y'all
Checks y'all, cash y'all, don't last y'all
With cops y'all to blast y'all, harass y'all
Flash y'all as they pass y'all, through the glass y'all
These videos gas y'all cause they trash y'all
I ask y'all this fact y'all
Unaired y'all, these cops y'all they scared y'all
They fear y'all they hear y'all they hate y'all
Less than 40,000 a week, they make y'all
Cops y'all with black feet, livin from week to week
Walk crooked beats in the streets y'all
They greet y'all with the heat y'all, to defeat y'all
It's deep y'all, hear what I teach y'all, and speak y'all

[Chorus 2: KRS-One]
Hate - don't mess with that
Trends - don't mess with that

G.E.D. - mess with that
Science of mind - mess with that
Family - mess with that
Hip-Hop - we lovin that

[Verse 2: Shuman]
Yeah, yo.. aiyyo, yo
Who seein us, with an overdose level of free in us
They bring the heat to us
They don't really want the beat in us
Take heed to us
While they plottin and schemin to be deletin us
Best believe in us, they not defeatin us
Them glocks wanna bust
With twenty-one shots to put the leak in us
So they can bloody the street with us
What does it mean to us
You know what they need from us
Give cream to us, hide the lies and deceit from us
That doesn't equal us
Who's ready to get in the Jeep with us
Form a fleet with us and take back the street with us
Meet with us, drop bombs in the street with us
Never saw it comin, attack on the sneak with us
Thus, they can't compete with us
We flow through your veins like DJ's
When they cut, you'll be bleedin us
I came with Kris to heat it up
Showin my body's the temple, hip-hop is the lock
Now put the key in us

[Chorus 1]

[Verse 3: KRS-One]
Truth y'all, facts y'all, proof y'all, black y'all
Time to check this map y'all, are we goin back y'all?
Let's make a pact y'all, come together watch your back y'all
Stay in tact y'all, never whack - gimme dap y'all
Comin at y'all, headcrack y'all with the facts y'all
Police y'all, on the attack y'all if ya black y'all
So if this is fact y'all, when we rap y'all
over the track y'all, why we rap about crack y'all?
That's whack y'all, we trapped y'all
Holdin the gat y'all just to kill another black y'all
Clak clak clak y'all, it's like that y'all
KRS-One yo, let's take it back y'all, listen!

[Chorus 2]

KRS-One Lyrics

"Problemz"

Yeah man, yo Marla what's up
Yeah, Inebriated Beats, big up Boston, the whole Boston
Edo.G what's up man? I got you
We gon' bounce this now, can I start? Can I start?
Here we go

I'm the newest and the truest MC on the mic
I wrote over 500 songs, pick what you like
It ain't easy bein me, by day or night
But it's easy bein free to recite what you like
Hip-Hop is my inalienable right
When it comes to emceein KRS is a whole different type
Now go get it right, did I flow spit it tight
In a fight I was the type to go get a pipe
BINK! BINK! BINK! BINK! Movin 'em back
BINK! That's the sound of an aluminum bat
But it seems they new to these facts
Which means they new to the tracks
Which means they do hold us back
Too new to know all that but still runnin they trap
Do the math, radio gets a 20 record a week stream
But only three are ever seen
What happens to the other 17?
It's a PROBLEM.. PROBLEM..
PROBLEM IN HIP-HOP TODAY!
We gotta solve it

Too many players and not enough crime
When they finally wake up they woulda ran out of time
They can't see today how they effect tomorrow
Too afraid to follow, cause they trust is hollow
Because according to the laws they'll harp some sorrow
Yo, "Victory Over the Streets" - that's our motto
But if people ain't got no vision, that's a PROBLEM..
PROBLEM IN HIP-HOP TODAY!
We gotta solve it

People say, "Kris - why you teach so much?
Why you preach so much? Why you speak and such?
Why you so bent on reachin each of us?"
I reply - because you eatin with us
In the future our children will be meetin with us
Have a seat then with us and start speakin with us
They'll be critiquin us to be sure they believe in us
We don't need a PROBLEM..
PROBLEM IN HIP-HOP TODAY!
We gotta fix it

We live non-toxic, we teach that hip-hop is
the transformation of all subjects and objects
Retrain your optics, to reinterpret the topics
We gotta stop treatin hip-hop like a product
and more of a strategy; I got graphs, charts
sacred textbooks, these cats can't battle me
But they try, and why? Cause that's a PROBLEM..
PROBLEM IN HIP-HOP TODAY!
We gotta fix that

These cats need history to get with me
But hip-hop's history's a mystery
So how they gonna find out, trial and error
We can make one the example for all to get better
Inform, KRS is not the norm
I go from hot to warm to cold to hot
But hip-hop's history many forgot
And that's a PROBLEM..
PROBLEM IN HIP-HOP TODAY!
We gotta solve that

[interlude beat]

PROBLEM.. PROBLEM IN HIP-HOP TODAY!
We gotta fix that

KRS-One Lyrics

"Ova Here (Remix)"

[KRS-One: speaking live]
First of all, I don't know WHO, y'all saw on this stage before me (aight)
I don't know WHO, y'all gonna see on this stage after me (true)
But THIS, is REAL.. HIP.. HOP! Worrrrrd UP!
I'm gonna find out tonight, where the real hip-hop

[Intro: live response]
The real hip hop is (ova here!!!!)
The real hip hop is (ova here!!!!)
The real hip hop is (ova here!!!!)
Real hip hop is (ova here!!!!)

[Interlude]
Bla-blaow! Bla-blaow!
Clear 'em out, clear 'em out - word!
[scratching:] "Aww yeah!", "The real hip-hop, is ova here"
[scratching:] "KRS, come get up in they asses"

[Verse 1]
You ain't Fo'Reel and you ain't Universal
Your whole style sounds like a infomercial
You ignoramus, I'm the baddest with the mic apparatus
Challengin the God of rap is madness, I'll snatch your status
With these elders lookin at Billboard you could stop them
But I got enough albums to make my OWN top ten!
You limited, like the spread of traffic
You bite my style off the radio
so when you speak in fact I hear the static
You better Chillout like Chuck, I kick like three Norrises
One of my sixteen bar rhymes is eight of your choruses
Of course it is, ridiculous
Watch out, I be in the club inconspicuous
Gotcha, on your, hands and knees
Ain't it about time for some real MC's?

[Chorus: live response]
The real hip hop is (ova here!!!!)
The real hip hop is (ova here!!!!)
Real hip hop is (ova here!!!!)
Real hip hop is (ova here!!!!)

[KRS-One]
Yo yo, Beatminerz, turn up the track a little bit
Gonna do this right now

[Verse 2]
Remix it, don't re-fix it
First brigade, second brigade - all swords lifted

Formation, classified information
Code red rhyme style accurate articulation
Don't test my foreign relation
The cats in Brixton, Birmingham and London just waitin
Got my cats in France like ill
Even Africa's laughin at'cha right along with Brazil
The West Indies? Jus' wan fi kill
Got Canada mad at'cha, Germany heard of me, they seen the skill
Hip-Hop is more than a thrill to us
A dollar bill to us, believe you will trust in that
Cause if you bust at me, on TV, CD
Internet trust that, I WILL BUST BACK
I turn down heat real quick, when I spit
you need the medicine what I speak is so sick
Then again these veteran be better than many men
Forever we hit 'em again better than ANY trend they could ever say
In any season, hot warm cold or freezin
When it comes to MCin, we believe in rhymin for a different reason
No frontin, my rhyme style tells you somethin
They rhyme style tells you who they freakin
But you was already told - what does it profit a man
to gain the whole world and lose his soul?

KRS-One Lyrics

"Preserve The Kulture"

[audience clapping, beat starts]
We've been having these gatherings for over 12 years
Uhh, my first one, was ah at Latin Quarters in 1987
with Afrika Bambaataa - he threw the first one, that I attended
We kept the tradition going through the Stop the Violence Movement
Through Human Education Against Lies, Rhythm Cultural Institute
And now the Temple of Hip-Hop
This is Hip-Hop's spiritual base
And as a spiritual base, we look to guide the youth in that discipline
Uhh, no culture is a culture, unless it has principles
unless it has morals, unless - we are unified
in some sort of principle, something we are not going to step beyond
Something that defines us
What I'd like to do, is just for a moment as we.. deal with this
Think about your role in Hip-Hop
Think about what you do everyday in Hip-Hop
This is not about right now
It's about twenty years from now
It's about ten years from now
The tapes are rolling, the notes are being taken
This is the type of thinking we have to get into
if this is going to survive and last
So again, Hip-Hop Appreciation Week, is a time of self-reflection
A time for Hip-Hoppers to ask,
"What am I doing, to preserve the culture?" *[echoes]*

KRS-One Lyrics

"Lord Live Within My Heart"

[repeat 2X - sung]
Lord live within my heart.. Lord don't you ever stop..
Fill me up with what I need.. just have to ask I shall receive..

Look, look!
Ba-bi-di-ba-bi-dang-a-dang-diggy
How many rappers can actually hang with me?
My style is that Kris-style, it's witty
In they style, I have no more Faith like Biggie
I battle on many levels, I shatter so many devils
'Fore you challenge me you better know the essentials
It's the K to the R to the S, to the uno
You know, if you don't know your crew know
When you hear the thunderin sound, you under the ground
You can tell by the way we jumpin around
It's the teacher, breakin it down
I'm an upright MC, these others they be crawlin around, word

[repeat 2X - sung]
Lord live within my heart.. Lord don't you ever stop..
Fill me up with what I need.. just have to ask I shall receive..

Yeah yeah, word up, look, look!
You know when the teacher returns, just get ready to learn
Just get ready to earn, health, love
awareness and money to burn, I'm not really concerned
how the Benz just turn, 'round the corner
for our sons and daughters to yearn, stand firm
If you lookin at these hooks you becomin a mad worm
Danglin from the pole of the fisher, the corporate fisher
The talent scout and no doubt ready to get ya!

[repeat 1X - sung]
Lord live within my heart.. Lord don't you ever stop..
Fill me up with what I need.. just have to ask I shall receive..

Look look look look!
I'm anything BUT regular, not even similar
I get rid of the SIN in ya when I spit at ya, my new literature
Now who forever been with ya? THE TEACHER!
Who remembers the kid in ya? THE TEACHER!
I'm winnin ya, or winnin a convert when the rhyme splurt at the concert
Forget the times that hurt, if the mind's alert let the mind work
Uh! Let the body divert

To get to the top of the mountain, you've got to climb dirt
So c'mon climb through, don't get stuck lookin behind you
It'll blind you, however I'm here to remind you
Many of you lost you've got to find you
You'll be found you simply by you finding you, c'mon!

[repeat 4X - sung]
Lord live within my heart.. Lord don't you ever stop..
Fill me up with what I need.. just have to ask I shall receive..

KRS-One Lyrics

"Take Your Tyme"

Y'all don't know? Y'all don't know your body is a temple?
A temple to the living God? Don't get gassed y'all
All my sisters out there, here's the truth
You, a you've got to.. {TAKE.. YOUR.. TIME}
Look, look!

You don't want no unsteady relationships, you want it tight
You don't want no man beggin and always gonna get, am I right?
You don't want no man sleepin cheatin freakin behind his wife
There's no such thing as make love, it's really make life
I don't care what nobody say; you sleep with a man, that's your husband
So make sure, before you lay down, you love him
And learn him, yes it's still sacred to be a virgin
Relax, it's curiosity that always burns 'em in fact
Sex is like candy, be disciplined, no splurgin
You don't want your stomach hurtin
Girl, you gotta.. {TAKE.. YOUR.. TIME}
Listen!

Cash is an issue with that he can never diss you
Even if he makes you cry, you bought your own tissue
witcha own case, witcha own hand, wipe ya own face
And throw him out, no doubt, out of your own place
If your heart is broken you can mend it
If you're independent, your womanhood, that's when you defend it
Just.. uhh, just {TAKE.. YOUR.. TIME} woo!
Look!

{TAKE.. YOUR.. TIME}

Don't come witcha hand always out
If he buys you somethin thank him, but that's not what a man is about
Real men are real friends, showin their real commitment
He tells you he really loves you, a boy can't really admit it
If a man really wants you, that man really flaunts you
In public or private a real man really supports you
'Member what Guru taught you? Of course you "Royalty"
You dress how you like when a QUEEN is what you ought to be
and ought to act like, and also ought to manifest
How you dress makes you constantly blessed, or constantly stressed
{TAKE.. YOUR.. TIME} Yo!

{TAKE.. YOUR.. TIME}

Yo, yo
So while you burnin off those calories, think about reality
Get a skill for the salary, a man for the family
Not a boy, that's a catastrophe, don't get mad at me
Instead of always clubbin visit museums and art galleries
Pick the single man, admirin the ancient sculpture
He's cultured, chances are he won't insult ya
Give him your number only after you know what he does
Ask him what it is, not what it was
You want the good life (GOOD LIFE)
You want the good life (GOOD LIFE)
You want the, you want the, you want the
C'mon, you gotta {TAKE.. YOUR.. TIME}

KRS-One Lyrics

"Take It To God"

(feat. Professor Ecks)

[KRS-One]
Yeah, once again, word up urban inspirational
KRS-One, Professor Ecks, whattup Dan? Woo
Temple of Hip-Hop, let's do it

By the sound of the track, you know who is back
It's the teacher, philosopher of conscious rap
Rappers tired of me sayin where hip-hop is at
Cause they know they unoriginal, copycats
Watch me bump this gospel rap, never wack
In fact, I tell you where the tracks is at
TV is wack, they wanna show us beatin Iraq
When the question is, is where is Chandra Levy at?

[Professor Ecks]
Murdered God and left for dead like hip-hop
And admit to Condit like conduct, to kill Ecks the dread
And Kris crucified the false prophet
John F. Kennedy to these MC's, I draw and cock it
Cock on cocky cops for the love of the art
Punish the part, partition
Pardon the pause, poison pens penetrate the mental
I walk with Kris so my body's a temple
Body instrumentals and body your squad in the body of a God

[KRS-One]
Just think, just think, what if Malcolm X returned
or Dr. King returned, tell me what have we learned?
As we takin our turn, tell me what have we earned
or is the ice and the cars our only concern
Mo' money, mo' money, you be yellin it out
And on TV can't you see you be sellin us out
So in 2010, look to 2002
Who you think they gonna respect, me or you?

[Professor Ecks]
Behold, the God, in the form of the man
Walkin off water and *[?]* flesh absorbs in the sand
Moor gets the land, divorcin the clan, I'm off into sand
Off and I'm slayin delicate arms from porcelain hands
Slaughtered the lambs, charge it to the game
Cats take hip-hop's name in vain
Disrespectin the forefathers who came (uh-huh)

Goddess hurt 'em right now, like when Marvin was slain

[KRS-One]
They don't want it, nope, they don't need it, nope
Just stay weeded and hope, I don't read what you wrote
Best believe they ain't dope, they deceivin these folks
with they meaningless quotes, I got my feet on they throat
What they speak is a joke, they really weak and they broke
Have a seat and take notes, on the streets I'm the Pope
MTV is they hope, they repeat what they wrote
I'm an MC that won't, let them tempt me with coke

[Professor Ecks]
Nope, flesh of my flesh, blessed by KRS
Used to love her, they *[?]* haven't made a date with death
Follow no man, enslave the Ecks, Professin the student
I vibe with the teacher obliged to drop *[?]* liver than heaters
Lyrics liable to eat us like the survivors of Jesus
Now the, blind is the leaders, your styles is egregious
Gets now the brow beateth to underground emceeth
The game is overheated, overweeded, and misunderstood

[KRS-One]
Word, just a ride in they boat, with a platinum rope
No doubt, they sellin us out, what's happenin loc?
Quit this rappin I won't, cause MC'n is dope
If I can't do it for the love then do it I won't
How many times we note when these rappers is dope
Satisfied, that's why I'm renewin your hope
Broaden your scope, when cleaned out your mind
my rhyme is like a new bar of deoderant soap

[Professor Ecks]
In this land of men mice and mimes, I holds right for the laws
Live life like Christ, makin bread from mics and applause
The snakes fight with Tyson like jaws for what's rightfully yours
I might *[?]* 'em all, tell me - is it life or it's war?

[singer]
Goooyyyyiiyyyiyyyyod, Goooyyyiyyiyyyiiiod, Gooyyyyiyyiyyyod
My God, your God, our God.. is God, is God
Change is gonna come, where you goin to run, but to God?
To God, run to God, run to God
Run to God, and let him in your heart
Change is gonna come, the change is gonna come
Make it your change, run to God, in your heart
Let God in your heart, he will fillt he part
Goooyyyyiiyyyiyyyyod, in youuuuuuur heart
Take it to God, take it to God God

Take it to my God, your God, take it to God
Take it to Goooyyyyiiyyyiyyyyod, take it to Goooyyyyiiyyyiyyyyod
Take it to Goooyyyyiiyyyiyyyyod, take it to God
Just take it to God, run and, take it God
Take it to Go-awd

KRS-One Lyrics

"Good Bye"

Yeah, yeah, let's switch the flow up a little
Word.. bring the love back, here we go

You ever lost somebody, a member of your party
Your daddy maybe mommy, for them there was no copy
Just know that we all asleep, pray to the lord my Soul will keep
Life is a dream no need to weep, God's gonna wake us up from sleep
Every night we die, we practice for death
Everytime we sleep we say goodbye
But I, still can't get over the fact
That my best friend's awake and not comin back
So as the tears.. {tears roll from my eyes}
Uhh, uhh, I never got a chance to say

{Goodbye!!!} Trouble MC, Scott LaRock, Paul Sea, Doctor Rock
Mastadon, Trouble T-Roy, Aaliyah, Cowboy
Sugar Shaft, Eazy-E.. {got to say goodbye}
Yeah.. bring the love back, bring the love back

When you wake up, then you'll know, what was up
You won't live, so corrupt, only love, you'll take up
All the chasin and rushin impatience and fussin
The racin for somethin the hatin and frontin is makin you NOTHIN
So, die before you die so when you die you don't die
You got to die before you die so when you die you don't die
You got to die to all the world, all the guys and the girls
You got to die to lovin money and them diamonds and pearls
So as the tears.. (tears roll from my eyes}
I never got a chance to say to y'all

{Goodbye!!!} Prince Messiah, Bigga B, Freaky Tah, B.I.G.
Big Pun, Mercury, June Bug, Buffy
Tupac, Darryl C.. {got to say goodbye}
Bring the love back, bring the love back, uhh, hip-hop

So remember when they die, they have only woke up
It's our wants and our needs that be chokin us up
{And I want and I need and I want and I need..}
Yo, there was a time when hip-hop was on our mind
It wasn't about no crime, just reality rhymes
If you battled me fine, but in the end we reclined
with a bottle of wine, MC's the ORIGINAL kind but
{Why did you stray..} hip-hop
{Why did you stray..} hip-hop

{Why did you stray..} hip-hop!
{Why did you stray....} bring the love back
{Why did you stray..} bring the love back
{Why did you stray..} {Why did you stray..}
{Why did you stray..} rise up y'all
{Why did you stray..} remember where you came from
{Why did you stray..} bring the love back
{Why did you stray..}

KRS-One Lyrics

"South Bronx 2002"

This what you call hardcore, fat gospel.. street gospel

[all] South South, Bronx!
[KRS] Yo where my people at?
[all] South South, Bronx!
[KRS] Yo where my heart is at?
[all] South South, Bronx!
[KRS] C'mon let's bring it back
[all] South South, Bronx!

[KRS-One]
Raw rhymes for raw times
My albums are underground, but this blessing is all mine
And when it's tour time, we open more minds
You need to rethink who you think is the "Greatest of All Time"
I got this - I'm raw like Freddie Foxxx is
Hardcore like The LOX is, Scott LaRock is where Tupac is
Where hip-hop is, Digital-ly Underground like Shock is
Oh yes - I know where the top is
But I'd rather rhyme about how crooked some of these cops is
My synopsis ain't pretty
I'd stay, off them plains and, out the city if I were you
Do what you gotta do
But while you wave them flags, remember Amadou.. Diallo
Here's what we gotta do, follow
I'll put hip-hop in you if you're hollow
Those that already filled, STILL take swallows
Goin over potholes with Tahoes
You don't think (I) know? Huh! I'm lookin at you right now
You ain't dancin in the club, you in your car, sittin down
You in the crib, on the low
You got them headsets on the go
You just saw me at the show - oh you don't know?
It's the Temple of Hip-Hop, comin, with a whole DIFFERENT flow
Yo where them hoes at? I don't know
But wherever God at, I'ma go
I give 'em a hard rap AND a flow
That's why when they call back for the show, with no video
We get up and go!

[Chorus: repeat 2X]
[KRS] Yo where it started at?
[all] South South, Bronx!
[KRS] Yo where my people at?

[all] South South, Bronx!
[KRS] Yo where my heart is at?
[all] South South, Bronx!
[KRS] C'mon let's bring it back
[all] South South, Bronx!

[KRS-One]
Peep it out while I tell ya like this
In every single hood in the WORLD I'm called Kris
It's the, truth for ya, it's the proof for ya
My Cristal passes more bars than lawyers
The underground sound, this is not easily found
You don't need no rings to be down
This is, past the platinum and gold
We already had 'em, it's old
Here's the truth if it be told, gather 'round
Philosopher style is known to be wild
If you only holdin them guns, who's holdin your child?
You got to be thinkin you KNOW that you shrinkin
When the art of Navigation has been reduced to a Lincoln
Change the dial! I was free then and I'm free now
You free, runnin to MTV? I don't see how!
You know the real from the fake, you know they stealin they cake
You know it ain't about the art, it's all about what they make
You know the radio's late, you know they play what you hate
That's why you got that Kay Slay tape, tryin to escape
You know the love of the cars and the rims
Tattooed arms and Timbs, are also called sins
You know you got to pay for these spins
You know the rap magazines be wack from beginning to the end
BO!

[Chorus]

[KRS-One]
I never was a king and I'm not the Pres
I'm a teacher like that reefer goin straight to your head
I'm a preacher tryin to bring my people back from the dead
I'm a leader tryin to keep you all away from the feds
You my sister I'll be tryin to get you OUT of the bed
I'm a philospher sayin what has GOT to be said
I don't FILL you with lead, I bring that KNOWLEDGE instead
FOLLOW this dread, I'll take you from A to Zed
Who am I? Just a scholar called K-R-S
You can spend your money on others but THEY AIN'T BLESSED
You can spend your money drugs and STILL BE STRESSED
Look around for conscious rappes yo there AIN'T NONE LEFT
I'm holdin it down; better yet I'm holdin up
Waitin for some young buck to come and sip from the cup

And continue with the menu puttin new knowledge in you
I got a question and a lesson cause I KNOW what you been through
But..

[Chorus - 1/2]

[no beat]
[KRS] Yo where it started at?
[all] South South, Bronx!
[KRS] Yo where my people at?
[all] South South, Bronx!
[KRS] Yo where my heart is at?
[all] South South, Bronx!
[KRS] C'mon let's bring it back!!

The South South Bronx, boyeee..

KRS-One Lyrics

"Never Give Up"

Gather 'round, gather 'round, ha
Metaphysical style, spiritual style, the ORIGINAL style, ha
Yes.. let's do it

[Chorus]
- you can never give up, you should never give up
- you can never give up, we can never give up
- you can never give up, you can never give up
- you should never give up, we can never give up, you can never give up

Yeah, yeah
Y'all don't really know about the KRS rap
Y'all don't really about why we stay trapped
Y'all don't really know hip-hop ain't rap
But let me tell you how we can get it all back
First realize givin up is wack
Say to yourself I can never be wack
Then realize that we must go back
And the reason you can't seem to get on track
is you, keep, buying, HOES, simple and plain
You, keep, buying, HOES, all y'all know my name
And how I get down and move around
I've already been to the proving ground
In conscious rap, who rule the sound
The question is are you down?

[Chorus]

Look - KRS-One, I've learned already
Everything they doin is temporary
No matter how big you live
You still the creation of a music executive
And when you get old no matter what you did
They throw you away and they pimp your kid
Yeah kids, on the TV whylin
You know why we got racial profilin?
Cause you, keep, buying, HOES, simple and plain
You, keep, buying, HOES, all y'all know my name
So there in the future we'll look back
And then we will see we were under attack
But it'll be too late, the loss'll be too great
You'll see, just wait!

[Chorus]

C'mon, c'mon, yeah c'mon
You see how they shuttin down KRS-One
Cause I'm not sexy, thuggin or dumb
Ask yourself -
- why they only promotin criminal activity and nothin else?
On the videos and on the radio
Teachin our kids which way to go
And the way that they tell our kids to go
If you listen, heads right straight to prison
While you, keep, buying, HOES, simple and plain
You, keep, buying, HOES, y'all better peep the game
You got to release that temptation
Get a brand new affirmation
Your life is what you make 'em
Peace, salaam alaikum

[Chorus]

KRS-One Lyrics

"Tears"

"At midday today, some Americans attended memorial services
for victims of Tuesday's acts of terrorism. Thousands
gathered at Chicago's Daily Plaza. Hundreds more looked
on from the windows of surrounding office buildings.
Many waved flags, and traffic came to a complete standstill.
On the rooftop of City Hall, which faces Daily Plaza, a
police sharpshooter watched the crowd, even as he saluted
the flag. After a minute of silence, church bells rang."

{Ain't no need in all the tears, oh no no, yeah yeah
Yeah cause things will be better tomorrow}

[Chorus: repeat 2X sung]
No need for tears, no need to cry
No matter what we face, we shall get by
When the problems you face are too much to bear
Know I'll be there

Hold that head up y'all, don't get fed up y'all
C'mon let's get up y'all
Make that bed up y'all, life is a set-up y'all
Sadness comes from a lack of knowin, not knowin
where the one that you love is goin
We all gonna reap what we all are sewin
There is no death, just constant growin
We can't stay here forever
We all gotta go to a place we believe is better
So why be sad, why be mad
Now you can see it ain't about the cheddar
It's all about the time that we spend together
Not the rhyme or the crime or the Gucci sweater
The house that's built on a rock can stand the weather
Faith, can stand the weather
But is your house, upon the rock
Or is it on sand and about to drop
Here is the question that you got to ask
Do I live for today or do I live for the past?
Think fast, but do not hurry
Life is a class and we should not worry
But tell me, how long you gonna ignore
Tell me how long you gonna ignore God's law?
How long can you really endure
Livin like pimps, livin like whores
The choice is yours, or really ours

Think about this while you lay the flowers
on the grave, uh, let's talk about how you behave, uh
Do you come out the neighb' or out the cave?
Better change your ways, we comin up on some stranger days

[Chorus]

Uhh, uhh
Don't step where the danger lays or danger lies
Open them EYES UP, better to RISE UP, WISE UP
Raise your MINDS UP
Look to the left, look to the right
Pray in the day and the night
Be prepared for the fight, not scared of the fight
He's the way, the truth AND the light
J to the E to the S to the U to the S
You can remove the stress
Yes, we do need you here
Yes, we wanna be free from fear
Yes, we wanna start seein clear
Havin you here, not over there
Lookin around sayin where, does anybody care?
Yeah, I'll be there
At the door, not at the war
At Matthew 5:44
"But I say, unto you
Love your enemies, bless them that curse you
Do good to them that hate you
And pray for them which despitefully use you
and persecute you"
This goes for them terrorists too
But them publicans, done put themSELVES up above again
Lookin for blood again, hate no love again
Got them soldiers runnin in, with a gun again
With a ton of sin, in a holy war, how we gonna win?
I think it's time for KRS-One again

[Chorus repeat 2X]

The time is now, you gotta make your choice
Which side are you on? Turn now to Matthew 5:46
"For if ye love them which love you, what reward have ye?
Do not even the publicans the same?
And if ye salute your breddern only, what do ye more than others
do not even the publicans so? Be ye therefore perfect;
even as your FATHER which is in heaven, is perfect.." *[echoes]*

KRS-One Lyrics

"The Conscious Rapper"

You think this is easy right? (Yeah!)
You think this is easy right? (That's easy!)
You think you got what it takes? (Yeah that's easy!)
Huh, we gon' see.. we gon' see right now (Now what?)
Look

So you wanna be a conscious rapper
Can you handle the press and they negative chatter
Can you eat cold platters, and still spit data
Watchin others spit lies and they pockets get fatter
Can you climb up the ladder, and reach the top?
But it still doesn't matter, cause you ain't pop
Can you rock for the love of the art
Can you drop hit after hit after hit and still don't chart?
Can you REALLY stay loyal to God
when your life is full of strife, plus it always seems so hard
Can you handle the criticism
People holdin you up to higher standards, but they don't live 'em?
Can you hear these kiddy flows and laugh at it
But when you spit they callin you arrogant?
You better think about that before you rock to this
Sometimes it's easier to pop your Cris', let's do it!

[Chorus: sung]
Think you can do what I do
Think you can step in my shoes
You have no clue what I go through
You never felt my pain
When they attack my name
All because I have spoken the truth

To be a conscious rapper ain't a mystery
You gotta laugh when they call you contradictory
The whole industry, you gotta push and pull it
To really get with me, you gotta dodge they bullets
Blaow, blaow, blaow, every day and every way
You critics got somethin to say
At the same time, you gotta uphold Christ
Uphold life, while others flash cars and ice
It could break you down, take you down, make you frown
It could actually shake your ground
But if you love who you are, and believe in that
Best believe you will BE where the teacher's at
And where's that? In fact, in cold or heat

Yes, I declare victory over the streets
Overstand, over these beats, over the so-called elite
Over the strong, over the weak
I know how to speak, and most of all I know how to eat
I know I want humble and meek
So you better think about that before you rock to this
Sometimes it's easier to pop your Cris', uhh

[Chorus]

Look!
So you thinkin about bein a concious MC
Well you gotta love God and you got to live free
You got to see the life that others can't see
You got to be the person that others can't be
You can't be a S-L-A, V-E
If you sayin to yourself, "This may be me"
Then you know goin in that you work against sin
Your very skills will kill the demons within
So don't expect respect from slaves and hoes
Nor the slavemaster's video shows
Nor the rap mags, you know how it go
Especially black mags, you know they don't know
Just go to the crowd that you know will need you
Cause NOTHING compares to the respect of the people
That's what you look for, that's what you work with
Cause anything else, is truly worthless
You better think about that before you rock to this
Sometimes it's easier to just pop your Cris'
You better think about that, 'fore you rock to this
Sometimes it's easier to just pop your Cris', uhh

[Chorus - repeat 2X]

KRS-One Lyrics

"Trust"

C'mon, gather round now, gather round now, look now
How many times did you pre-meditate
what you thought was your fate, cause you couldn't just wait
You had to have it the way that you thought in your mind
But in the end, everything came in time
But before the time, you was losin your mind
You was racin and rushin and fallin behind
But let me tell you bout God and the way that She works
I mean the way that He works, I mean the way that We work
You gotta trust in your Lord, everything is in accord
Don't rush or fuss, you gonna get yours
Close your eyes, your heart, your ears, your mind
to the ways and thoughts of mankind
And seek ye first the Kingdom of God
And things won't seem so hard
You gotta trust your Lord, uhh, uhh.. tell 'em bout

[Chorus]
Trust and obey, trust when afraid
Trust when you paid, trust when betrayed
Trust when you fear, trust when you unclear
Trust when you here, trust when you near
Trust when you down, trust when you found
Trust when you clown, trust

C'mon, let's do it again, uh, uh
Let's raise it up, c'mon, look

After you live and you learn then you see
You will learn how to trust in your G-O-D
You will be so free, you won't see no me
You will only see the will of the almighty
You sick of what? Well ya will, give it up
Stop thinkin and begin to, live it up
Everytime you think it's one way it's not
Everytime you wanna start you really stop
Trust in the inner the outer is for the sinners
In fact this whole rap is for beginners
Those that have talked and walked upon the path
Know that they get what they want before they act
So why rush, if your respect is due
Whatever you DON'T have is protectin you
Here's what you DO have that be bringin the drama
Ask and it shall be given, with a comma

[Chorus]

[singers]
You trust in her, trust in him, trust in them, and then
Trust in men, trust in sin, trust in friends
You trust in her, trust in him, trust in them, and then
Trust in men, trust in sin, trust in friends

Uh uh, soundin good, soundin good, look, look
So when will you be it, when will you see it
That thoughts and things they manifest when you decree it
But God be lookin out for you
Puttin a stop to what you're about to do
In your life, and in your circumstances
Everytime you speak you be takin chances
Talkin bout things that you really don't have to have
So when you get 'em, your life turns sad
Your life turns bad, now why would your God be allowin that?
Trust in God, that's where the crown is at
It's not in what you get, it's what happens after that
So if you think your life is shrinkin
It may be cause you keep thinkin
Not that intellect is wrong
It's just the beginning, it might be time to move on

[Chorus]

KRS-One Lyrics

"Ain't Ready"

Uhh! They don't wanna battle
They ain't ready for the battle, uh-uh, uh-uh (Temple of Hip-Hop)
Listen, listen, listen

[Chorus: repeat 2X]
Your spirit AIN'T READY
Your church AIN'T READY
Your bishop AIN'T READY
Your deacons AIN'T READY
Your choir AIN'T READY
Your ushers AIN'T READY
At the Temple of Hip-Hop
WE TEACH MANY!

Look! To all my people hurtin, all my people searchin
What we know for sure, God is always workin
Workin while you flirtin, workin while you jerkin
Workin while the world is turnin and these cities burnin
God is always workin, workin while you learnin
Workin while you ignorant and when you're not concernin
Christ consciousness, get that, got that
Spit that, rock that, hip that, hop that
You sniff that? Stop that, I give back and got back
Greedy? I'm not that, you needy for that shock rap
Slangin on the block rap, duckin where the cops at
I don't know that, but Jesus done copped that
Not that man on the cross, it ain't like that
You must act like the son of God, that's where the lights at
Stop readin only and start bein show me
Like the resurrection I'll be back, they can't hold me

[Chorus]

One thing's for sure and believe it hurt
It's when the pastor ain't sure, and deceives the church
They don't know God's law, and can't see God at work
So when they see hip-hop, they push it to the back of the church
Like fig trees or figures they don't bear fruit
They gospel artists, still tryin to chase that loot
Hear the truth now, I come to enhance the light
They women of God, singin while they pants is tight?
They not hot! Really they, regular
They clothes they flows, all that, secular
What's the difference I could stay in the world and wild

if these church girls wear more makeup than Destiny's Child
Keep it real Christian, some of y'all liftin ain't likin
But this is the difference between a Christian and a Christ-ian
Stop readin only and start bein show me
Like the resurrection I'll be back, they can't hold me
..listen, listen, listen

[Chorus]

Look! Spiritual minded, you must find it
Find your spirit and go deep inside it
This goes out to the Christ-ians listenin
This is the flow that, gospel's missin it's urban inspirational rap
We got our own section in the record stores, in our own rack
We respect tradition, from the start
But we now know, the true word of God is written in our heart
We gotta say somethin to the streets kid!
All these churches surroundin the devil still ain't defeat it?
They the type to get down, I'm the type to get up
From "Criminal" to "Spiritual Minded", now raise your head up
Let me start, these rappers ain't got God in they heart
All they want is quick money, and a movie part
Let me begin - what, where, why or when
What's the use of double platinum if you're livin in sin
Hear the truth - how long you think you gonna last
rockin the mic, without havin to go back to class?
Now you're forced, to listen to the teacher outrap them
Yes there's life after platinum

KRS-One Lyrics

"Know Thy Self"

You ready to go? I'm ready to go
What about y'all, y'all ready to go? (yeah aight yeah) I'm ready to go
Look

[repeat 3X]
Know thy self, and thou shalt know
The universe and God (whoa-ohh-ohh)

God is the mother, the father, the friend
Know ye not that ye must be born again?
What does it mean to be in the world but not of it
It means you want the cars the cash the jewels the house but you don't love it
It means to taxes regulation state law you live above it
It means you a FREE hip-hopper, you ain't nobody's puppet
You don't see no money on me, you see it up in the cupboard
You see me up in Toys'R'Us, with my seeds cause they love it
You see insurance flash out, if my kids pass out
You see seven acres of land where we can all spaz out
To all my fathers that fathered, hold your head up for starters
Teach your toddlers, not to be thieves and robbers
This that other kind of rap, that leads to true hip-hop
There's other kinds of raps, but they lead you to get shot
The choice is yours, you gettin older now
You got a kid comin, how you gonna hold it down?
It's one thing to be iced out and rocked up
What's the point if you're gettin locked up?

[repeat 3X]
Know thy self, and thou shalt know
The universe and God (whoa-ohh-ohh)

God is the mother, the father, the friend
Know ye not that ye must be born again?
It's really time we seperate the young men from the big men
The young girls from the women, whatever the title that fit them
My style designed to open a child's mind when I spit them
I only got a little bit of time to really rhyme and uplift them
You see them brothers talkin about that crime? Forgive them
It won't be long before they words manifest and they live them
Sometimes you gotta go back to the beginnin to learn
After fifteen years I'm just BEGINNIN to burn
To all my true hip-hoppers, that pay bills and live proper
Never allow a negative thought to stop ya
Correct ya posture, stand upright not uptight

Don't be scared of the light, just prepare for the fight
We say "Criminal Minded", cause our thoughts are illegal
We represent the very thinkin of, inner-city people
Real people, people that take care of theyself
They need health, love, awareness and wealth
Not to mention, knowledge of God
Not college, the job then dead - if you agree nod your head
It's one thing to be iced out and rocked up
But what's the point if you're gettin locked up?

[repeat 3X]
Know thy self, and thou shalt know
The universe and God (whoa-ohh-ohh)

God is the mother, the father, the friend
Know ye not that ye must be born again?
C'mon c'mon yo, tonight is it
We gonna steal away together, through these rhymes I spit
When the student is ready, the teacher, shall appear
So I'm here, but are you really ready to face your fears?
Mo' money, mo' money, is that your credo?
You've been livin in a dream world Neo, power to the people!
Nobody's equal, everybody's diversed and different
My lyric'll never cheat you, my verse is gifted
So manifest what you believe is God almighty
It could be Allah Jesus Krishna Buddha Aphrodite
It could be Nefretire come hear me and never fear me
It's like at some point in your life you gonna have to hear me
I represent them teachers preachers comin through your speaker
Manifestin another lesson to them true believers
Instead of pickin up our women ready to mistreat 'em
You better get yourself a wife and kid and never leave 'em
You better teach 'em you better read 'em you better feed 'em
The system will defeat 'em if you don't teach 'em the cops'll beat 'em
The style that I be kickin quick is "Edutainment"
Hip-Hop culture needed a teacher quick so I became it
Instead of rhymin about my history and what I been through
I'd rather rhyme about awakening the God within you
Yo, it's one thing to be iced out and rocked up
But what's the point if you're gettin locked up?

[repeat 3X]
Know thy self, and thou shalt know
The universe and God (whoa-ohh-ohh)

God is the mother, the father, the friend
Know ye not that ye must be born again?

Yeah.. yeah.. FRESH, for two-thousand and two

my sisters and BROTHERS, my sisters and BROTHERS.. *[repeats to fade]*

KRS-One Lyrics

"G. Simone Speaks"

Praise God.
YES, I have danced with the devil
- and I learned all the steps!
You watched me God, and inside you wept.
You reached out for my hand - I turned my back on you.
I thought I knew the plan; but that's not true.
I've learned who I was, and I know now who I am.
Meet me on the dancefloor God, for you.. I will stand.

KRS-One Lyrics

"Dayz Ahead"

God core, urban inspirational
Holy hip hop
You know the type, all in your city
Word up

I know that the dayz ahead are dark
But you can shine the light that's in your heart
You've gotta see yourself in victory
The love I give to you, you give to me

Let's come together once and for all
Before our children cannot walk in the mall
Before we cannot talk or walk at all already aviation is stalled
Now everybody wants to drive, bringing our highways to a crawl

Just about three weeks on back
I was talking to a journalist about my album, the sneak attack
Now I know, why I felt that way
Why the cards God revealed to me was dealt that way

Be prepared for the unexpected, that was the theme
But if your booty's shaking, you can't know what that means
Look, we all, in the, same, game
It's that world bank game that got struck with two flame

But we, yes the people, are struck with true pain
'Coz the world Bank'll do the same under a new name
We gotta recognize the prize and the people at the door
No more lies, you can no longer ignore

I know that the dayz ahead are dark
But you can shine the light that's in your heart
You've gotta see yourself in victory
The respect I give to you, you give to me

I know that the dayz ahead are dark
But you can shine the light that's in your heart
You've gotta see yourself in victory
The respect I give to you, you give to me

I know
(Know what?)
I know
(What you know?)

What do I show?
(What you show?)
Captivating lyrical flow
(They don't play it on radio)

Yeah, but the spirit know
But only a few can hear it though
The metaphysical lyrical blow
The minute you're in it and hear it, yo

See the evil and clear it, yo
See that for as many that died there was twice as many miracles
Uh, so let the dead bury their dead
Life is but a dream and in the dream we gotta get ready for bed

Better we look ahead instead, to the ones that survived
Pray for them too, 'coz there grace of God kept them alive
Yes, we mourn for the dead and will still kill for them
But what about the injured that must still rebuild again?

I know that the dayz ahead are dark
But you can shine the light that's in your heart
You've gotta see yourself in victory
The love I give to you, you give to me

I know that the dayz ahead are dark
But you can shine the light that's in your heart
You've gotta see yourself in victory
The love I give to you, you give to me

To all the people, that never lost someone
Consider the cost of the loss of a lost daughter or son
These cowards slaughter and run
And to know that there's more than just one

Makes you wanna store up your gun
And withdraw all the funds, but

I know that the dayz ahead are dark
But you can shine the light that's in your heart
You've gotta see yourself in victorya
The love I give to you, you give to me

I know that the dayz ahead are dark
But you can shine the light that's in your heart
You've gotta see yourself in victory
The respect I give to you, you give to me

KRS-One Lyrics

"Power"

Father, Father, Father, Father
Father, Father, Father, Father
You are God, You are God

Father, Father, Father, Father, Father
Father, Father, Father, Father, Father
You are God, You are God

You reign in power, power
You reign in power, power
You reign in power, power
You reign in power, power
You are God, You are God

Father
(Father)
Father
(Father)
Father
(Father)

Father
(Father)
Father
(Father)
Father
(Father)
You are God, You are God

You reign in power
(You reign in power)
Power
You reign in power
(You reign in power)
Power

Trust Him, trust Him
Trust Him completely, trust Him completely
Serve Him, serve Him
Serve Him with gladness, serve Him with gladness
Praise Him, Praise Him
Praise Him forever, praise Him forever

Power, power, You reign in power

You reign in power, You reign in power
You reign in power, You reign in power
You reign in power, power

Yeah, yeah
There was a time when I could not find
The Spirit of God beyond the mind
In retrospect, the intellect is blind

It makes me think that I'm the reason
For all that's mine
Even this rhyme, I'm inclined to believe
Is from me, instead of being received
This is how we're deceived

How am I more than dust
When it's Your love that animates us?
Forever I will trust
Your love is better than lust
You live forever in us

"Intro: You Know What's Up!"

[Intro: KRS-One]

[Verse: KRS-One]

Digital Underground, with the metaphysical thundersound
KRS from the Boogie Down like that y'all
You don't quit, KEEP ON!

[KRS-One]
Wadda-by-by-bye, wada-by-by, ba-by-by, ba-by-by, ba-bye
KRS come down, WATCH DIS!!

KRS-One Lyrics

"For Example"

[Chorus: sample from a live performance of "The Bridge is Over"]
Here's another example of the KRS-One (BO!)
Here's another example of the KRS-One (BO!)
They wish to battle BDP but they cannot
They must be on the jock of WHO? (DJ Scott LaRock!)

Yeah, one-two, what? What?
Grab any tape that you think is hard
Put it in your tape deck and press record
Get this - what's a real hip-hop emcee?
Is it MTV? Is it BET?
Is it five M-I-C's so the people can see?
I mean, how you think you free when you act like property?
Tell me, how can you judge an MC when he's rockin
I mean, rockin it live, not pickin his cotton
I mean, adjustin his clothes I mean, how do you know
before you come to the show, and you're not gettin cheated
That you're not gettin heated, that you ain't come to the club
thinkin, "Uh-uh - I must have been weeded!"
You got to be a educated consumer
Spend your money on MC's cause these rappers'll do ya
All they want is your cash, ass, glass, gas and a flick
When you ask for that autograph, they ass dash quick
Beware of the rapper, he talks like it don't matter
He pulls his gat while we BUST OFF the gatler
He's more of an actor, someone, into theater
Not an upright MC with styles who speaks clearer!

[Chorus]

MC's have no time for the bar
Unless we politickin a tape to some drunk A&R
We grab the mic and say who we are, KRS
And start takin it to the chest of the best
This is not a test or a demo
This is when you let go of the limo, like many can't do
They may wanna amp you and chant new, record sellin
But movin the crowd is somethin that they can't do!

[Chorus]

C'mon!
You got to be mistaken, I am not your boy
You fake what you creatin, playin wit'cha toys
G'wan with all that bullshit bout you bringin noise
Time for somethin more than PO-PO-POI-POI
All of hip-hop ain't seventeen
Some of us still go back to "Microphone Fiend"

Back when it was just MC's and DJ's
No video that come on and just replay

[Chorus]

Uhhh... uh-huh, uh-huh uh-huh
We can never stop, forever we rock, take a listen
The t'cha is back, cause rap's whack when I'm missin
Me, I would never want the future to believe
that when they trust to look back on us there was no dope MC's
There was, all these rappers grabbin more and more money
And now that I'm A&R they look more and more funny
They rap for platinum plaques without buildin
a cultural strategy worthy of our children!

KRS-One Lyrics

"Tell The Devil Ha!"

Be strong, be strong

You must tell the devil (HUH), you must tell the devil (HA!)
You must tell these devils, word, (HA! HA!)
You got to tell a devil (HUH), then tell a devil (HA!)
Got.. word.. what, (HA! HA!)
You must tell the devil (HUH), huh huh (HA!)
Be strong! (HA! HA!) Word
Stand on the rock (..stand up on the rock..)

When the devil got your soul, and you ain't got control
You know you Born Again, but you feel like you old
You put your mind on Christ, or put your mind on Kris
For everlasting life, you must listen to this
Now you could get with this, or you can get with that
I think you'll go with this, yo Christians where you at?
Oh yes it's KRS, with Church of the Harvest
With Clarence *[?]*, hip-hop's winning evangelist
And then there's Hezekiah, his fire brings the fire
He's takin it higher, tell 'em {THE DEVIL IS A LIAR}
I know, you thinkin bout that Y2K
And I see, this fear that makes you lose your way
But we got, somethin that is bigger than Benz
And we stand, upon the rock that cannot break
Through millineiums, don't you think we been here before?
Through millineiums, God has always opened the door
Word!

You must tell the devil (HUH), you must tell the devil (HA!)
You got to tell the devil (Ahhhhhhhhhh HA! HA!)
You must tell the devil (HUH), you must tell the devil (HA!)
Word, word up (Ahhhhhhhhhh HA! HA!)
Word (HUH) (HA!)
(Ahhhhhhhhhh HA! HA!)

(..be strong..) Be strong (..be stronnnnnnnng..)
Be strong! Word
(..be strong..) Be strong (..be stronnnnnnnng..)
Endure! Endure!

Yo, if all you got is money and the little things you wear
You worry bout your car note, you worry bout your hair
Then you ain't got no faith, and you must live in fear
Now listen to me people, and listen to me clear
So like I was just sayin, I think it's time for prayin
Don't put your trust in Satan, it's Christ you put your faith in
You minimize your hatin, and stop your hesitatin
It's faith that keeps you movin, so do not be mistaken

You must tell the devil (HUH), you must tell the devil (HA!)
You must to tell the devil, word (Ahhhhhhhhhh HA! HA!) word
You got to tell the devil (HUH) UHH tell the devil (HA!)
You got to tell the devil, word (Ahhhhhhhhhh HA! HA!) word
You must tell the devil (HUH), you must tell the devil (HA!)
Word, tell that devil, word (Ahhhhhhhhhh HA! HA!) wo-word
You must tell the devil (HUH) uhh (HA!) uh-huh, yo
(Ahhhhhhhhhh HA! HA!) Yo

Now you listen to these lyrics, they speak into your spirit
You shiver when you hear it, but some just cannot bear it
But when you get up near it, there's no need that you fear it
It's KRS O-N-E you know me hip-hop be spirit
So you tell the devil HUH, tell that devil HA
Tell that devil HUH, tell that devil HA
You must tell the devil HUH, tell that devil HA!
Get out of my life, change your life, word

(..be strong..) (..be stronnnnnnng..)
(..be strong..) (..be stronnnnnnng..)
(..STAND UP ON THE ROCK!..)

KRS-One Lyrics

"Bring It To The Cypher"

(feat. Truck Turner)

[KRS-One]
Every once in a while
You got to put aside childish things
And get with the teachers and the kings
K-R-S... Truck Turner...
Bring It To The Cypher
Like this, like this y'all

[Verse 1: Truck Turner]
I'm at the end of my rope, I'm bout to snap
Cut a nigga throat, put a bullet through his hat
With his head attached
What's the deal new jack? Who dat? Got his chest blew back
Clak! Clak! Bullet through his teeth, nigga true that
You in my way, move that, Truck coming through that
Run up in your spot, come out, raising two gats
Move back, give a nigga room, let me hit this
Way back, since up in the womb, I was with this
Every sentence, we doom with consistence
Be the witness, let me spit this, Kris hit this

[KRS-One]
Yo... if it's all about the hundreds, let's try to get two 50s
Don't stop and switch a temple, let's work and build a city
You see the equation, to this whole situation?
If I'm the God of rap and you battling me, you Satan
And that's why you hating, creating debates
When you know damn well that your title will be taken

[Hook: x2]
You think you all that son?
BRING IT TO THE CYPHER!
You only got platinum?
BRING IT TO THE CYPHER!
You think you got props son?
BRING IT TO THE CYPHER!
You living Hip Hop son?
BRING IT TO THE CYPHER!

[Verse 2: KRS-One]
Yo... daytime, nighttime, anytime, I got plenty time
To kick many rhymes, big time, all time
Taking it to you over time, so when I'm flowing rhymes
Bright I shine, simply cuz I'm
Lyrically be kicking out the tighter rhyme, till I climb
Bring in the chime, in your mind, you fall behind
Picking up your rhyming skill, I am fulfilled, when I kill at will

Still number one for fun, kill another one
Battle your bugging son
Look I cut your tongue, KRS-One is never done
I am the proper one, this ass-whipping will make you better son
Go and tell your mum I took a bite out of your bum
Anytime you want it, doggone it, yo put me on it
Never running up on it, you never disappointed, get on it
I simply jam, not that I give a damn
Let me tell you who I am, just ask your buddy
Put your cash on Kris, I bet you double up your money
You can call me Chris Rock, ain't nothing funny

[Truck Turner]
Nigga what, let me change my style up, in a rough
Nigga duck, dropped your face, pick it up, shook 'em up
Automatic fire – Brrrrrrrruh! Brrrrrrrruh!
All up in the party, clip it out, give it up

[KRS-One]
Where's the money for this single, get it out, give it up
Blastmaster's coming through Truck, what

[Hook: x2]

[Verse 3: Truck Turner]
That night I let the fo'-fo' bark, spark right off the dark
Body parts chalked, where we live, how we get down
Come up on my block making noise, keep the shit down
I cripple you, pull up a wheelchair, permanent sit-down
Perfect fit now, now clown, who the shit now?
Fo'-fo' aimed at your dome, bout to spit rounds
Me and you, getting it on? Don't even go there
Once I bring it to you, you won't be save nowhere
Oh yeah, your mom's funeral don't even show there
It'll be a double burial dukes, when the smoke clears
Love you like a brother, but I'll kill you if you rally
Stay on my good side, my bad side, I annihilate
Don't hold me back, get off me, told these kats never cross me
But they crossed the line, I gotta show 'em
My fo'-fo' snub is what I owe 'em, Kris you know him? (Nah)
Ice pick, adequate style, I'm bout to blow him
Dudes get trifle, catch the barrel of the rifle
Fuck you, until more niggaz looking just like you
Don't toot, when you hear me squeeze off the cycles
I squeeze you load (I squeeze you reload)
I squeeze you reload till this whole shit can roll
Where I'm from, that's the code, BDP got your shit sold
Like bad heads that fold at war, anything goes
Made us, broke the mold, another Bronx episode nigga what

[Hook: x2]

Truck... Turner... express, ya don't stop

K... R... S.....
Truck... Turner... express, c'mon y'all
K... R... S.....

KRS-One Lyrics

"Let It Flow (Get You In The Mood)"

(feat. G. Simone)

[KRS-One]
In the beginning, it was WHBI

[G. Simone: singing]
Just let it flow...do what you know..
To get you in tha moooooood..

[DJ scratching]

Just let it flow...do what you know..
To get you in tha moooooood..

[DJ scratching]

[KRS-One]
Check it Now!Back up on the set KRS is on the mic' kid
I rock the black and white kid, smash that ass and you fly, kid
No need to hype it but KRS-One's the one who pipe's it
These lyrical freestyles meanwhile you're gettin excited
Quickery, inginiery, over my delivery I'm glittery
I'm rhyming against biggetry while you're giving me...
...ignorance, incompetence, inexperience! I'm not hearing it!
I battle with expedience and obedience, you macking the ingredients
Hiphop you're not being it!! You're trying it
My whole style right now you're I and it
I'll take ya dark demo and put the sky in it
You say you're dope but like an Elvis Presly CD I ain buying it

[Beat Stops and KRS-One speaks with G. Simone adding additional vocals]

Tell me the relevance of Money without intelligence?!?!
There is none! EXPERIENCE= Wisdom! MC's I flick Dem
Lyric lick them, trick them, Kick Them, HAA HA-HA!!
Stick Them!

[Live audience laughs and sound fades. KRS continues rapping]

Yeah! Yo!
Now ev'ry time I kick this style that get you open
I remind I rhymes yeah I know you opened
For sum'thing more gifted uplifted!
Topical, rocking you, if its possible
let me give it to you logical
Give it up is what you got to do! Like a bad habit!
To battle KRS you need battle skills and magic
See this talus mineral around my neck can try to grab it
But remember: I don't write rhymes I write classics

You can get your ass kicked, get back up in ya strolla
KRS-One is seven dope albums older, the holder of a boulder
You want a fresh style? Let me show ya...
we will be here forever I told ya!!!

[G. Simone - singing]
Just let it flow...do what you know..
To get you in tha moooooood... *[x2]*

[KRS-One]
Watch me now, wa-watch me now, wa-watch me now glock me now
You be looking sloppy now, drop me how? rock me how?
You can't even stop me now!
Watcha really thinking bout when you wanna think it out!?
When I'm bout to bring it out the terror that I sing a bout?
If you do the crime then you must do the time and
if you kick a rhyme and its wack thats your behind and...
don't be blinded looking this way 'cause you'll be fine dead
My career going up-hill while yours declining
I'm the bomb on foot K-1 land mind
bumping to this you will shatter same time!!
These rappers be blind - they simply forget
that I'm the god of rap and my pride.. study the rhyme

[G. Simone: singing]
Yeaaaaah!! If you're feelin what we're feeelinnng!
Let it floww. Yeaaahh!!

KRS-One Lyrics

"Remember"

(I remember..) Big Daddy Kane
(You've forgotten..) Salt-N-Pepa
(To remember..) Outrageous clothes
(I wonder why..) Uhh, oh
(I remember..) Heavy D
(You've forgotten..) Kool Moe Dee
(To remember..) Dope videos
(I wonder why..)

Remember the day, 'member the play, 'member the way we used to say
"Dee-dee-dee-da-di-dee-dee-dee-dee-da-di-dayyyyy"
Remember the jams, 'member the plans
'member the plans you made with your man
Maybe you can or maybe you can not
Remember the architects of hip-hop
It's really hard to forget about Tupac
Respect is what the Crash Crew got
Better we ask you not, to recite the history of Hip-Hop on the block
You could forget about Grandmaster Flash if you try
You know not, the t'cha returns, have you forgotten?
I speak not to idle concerns, I keep it rockin
But you have forgotten I'm the holder of a boulder
Money-folder, we will be here forever, I TOLD YA!
To remind ya, just when them chrome rims blind ya
That them rims come from the expression of what's inside ya
My lyrics guide ya, and they fly too
Why don't you try to find who you rhyme through?
I think it's time to untie you

(I remember..) MC Lyte
(You've forgotten..) Stetsasonic
(To remember..) Fancy bars
(I wonder why..) Oh, oh
(I remember..) Brand Nubian
(You've forgotten..) Nice & Smooth
(To remember..) Those candy cars
(I wonder why..)

Some like it slow, some like it off beat
Some like smooth jazz I like it all street
We come in all shades, like coke we always
thinkin of more ways to leave them all dazed
All hazed, all crazed and all amazed
My last name should have been Letterman like Dave
But I wasn't his slave, I'm referrin to the way
that my lyrics behave, when I rock raves
Let off shockwaves baby it's crazy not too much can stop me
I walk right in, these other cats be knock-kneed

Terrified, they still actin all cocky
When the storm hits they be screamin "MAMI! PAPI!"
"AUNTIE! SOMEBODY!" I'm from the orthodoxy
It takes more to rock me, like in "Attack of the Clones"
these rappers be carbon copies, and they hardly got the
flow, rhyme style sloppy and old
What's up with "The Show"?

(I remember..) Public Enemy
(You've forgotten..) Dana Dane
(To remember..) Outrageous clothes
(I wonder why..) Yo, oh, oh
(I remember..) Doug E. Fresh
(You've forgotten..) Das EFX
(To remember..) Videos
(I wonder why..)

(I remember..) W-H-B-I
(You've forgotten..) K-Day!
(To remember..) Outrageous clothes
(I wonder why..) Oh, oh
(I remember..) Red Alert
(You've forgotten..) Fab 5 Freddy
(To remember..) Videos
(I wonder why..)

Yo, oh, ah, yes, do it
Do it, ah, Mad Lion on the hookup
J Rock on the hookup
Oh, we do it just like that, just like that

KRS-One Lyrics

"Smilin' Faces"

(feat. Shock G)

[Shock G]
Yeah.. aiyyo Kris tell 'em what's up yo

[KRS]
Yo, yo yo, one two!
Comin at you live and direct (that's right)
Digital Underground kid, you know what's up

[Shock G]
Aiyyo Kris is chillin, Shock G's chillin
What more can we say, about the village
The real killers, chillin in the Whi.. I mean the not RIGHT house
Want me to be they lab white mouse
The smile of seedy greedies, deprivin the needies, breakin treaties
Overseas wildin while they profilin on the TV's
Some of 'em cool though.. see I like that nigga Bill
Hittin everything in town, and he got that smile down
Now let's break down the meaning of a smile
Is it happiness and blissfulness, well let's go down the list
You got the real deal for real-real smile
You got the phony they don't know me let me hide my feel smile
The dumb embarassed smile
The ooh she look delicious, yo that girl is lavish smile (uh-huh)
Then you got the shake your head nah black, that shit was whack smile
The across the bar, yeah it's cool, we can hit the sack smile
The crack smile, the caught in the act smile
The over my shoulder caught you schemin on me delayed react smile
The smile you're really glad to see when it comes round
The spot's hot, they got you boxed in, it's bout to go down
You glance back, your man who packs that once in a while
gives you the - oh I'm strapped, do your thing, baby I got your back smile

[Chorus: KRS-One]
Smilin faces, sometimes
Pretend, to be your friend
Smilin faces, show no traces
Of the evil, that lurks within

[KRS-One]
Whaddya think I joke? Whaddya think I sniff coke?
Me a wild t'ing like Tone Loc, you better be dope
When the soundclash erupt, rev up, step up to the cut
Whassup? I show up to blow up and leave the spot TO' UP
You know what? I'ma go nut, but you know what? Yeah, so what!
It's the regular, when you checkin the, one that perfected the
Smilin faced people posin as your equal
Knowin they wanna beat you defeat you and eat you, but they greet you

with peace and love, not with the piece but the dove
Not beneath but above, now the cheek give a hug
Snug, no grudge, 'til you turn your back and learn the facts
Called learnin truth, the tree is only KNOWN by its fruits
These smilin faces, in many places, sometime they racist
Sometime they sexist, sometime they want your Lexus
Sometime they be your family members remember
Oh no not my lady, oh no not my fella, with them you thought
you'd never ever sever, but they was two-faced - it happens
With a whole 'nother agenda but clever to say whatever forever
Let me make this relationship better, if you real stay real
Be real, the truth we got to treasure, not these

[Chorus]

[Shock G] And they be lurkin
[KRS] You know what's up, ha!
[KRS] KRS-One, Shock Gigga!
[Shock G] That's me baby
[KRS] HA HA.. word

[Shock G]
Yo, just let the beat breathe
Uhh.. yeah..
Cause they be lurkin
Never trust a big butt and a smile baby
Uhh.. keep it goin, ah keep it goin
Yo Kris that's peace baby (uh-huh)
They know the deal
Smile ain't nuttin but an upside down frown (word)
Never trust a big butt and a smile

[KRS-One]
Be-dee-dee-da-dee, dee-dee-dee-dee-da-de-day

You gotta be willin to rock in the middle of dry and the middle of wet
But I'm willin to bet, on the Sway and the Tech, they stay in effect
Never been a pain in the neck, they gainin respect
Nevertheless I'll WRECK YOU, now you know what Sway and Tech do

Ya hear dat? (HO!) Ya see dat? (HO!)
You believe dat? (HO!) You can feel dat (HO!)
Ya follow dat? (HO!) You believe dat? (HO!)
Ya see dat? (HO!)

Show me an MC that think he's too hot
Bring him to KRS-One, I'll show him he's NOT
Blowin the whole spot up when I spit up
Knowledge Reigns Supreme, when I walk past, get up
My wrists ain't lit up! I don't even live that life
Gold, diamonds, platinum, I give to my wife - you see
Diamonds are a girl's best friend, not mine
You got it, FINE - but what about that rhyme?
Can you rhyme? Can you spit it quick
like watermelon pits at a picnic? Ha!
Or are you just dressed up with nowhere to go?
Or is the record company the pimp and you the ho?
LET'S GO!

[Chorus]

I write my own books like I write my own hooks
Step in the spot and these rappers be so shook
They don't look here cause KRS is BOOM!
Platinum rappers be hidin out in they dressin rooms
Yo, get away from me
You got a million dollar video but I'M the one they wanna see
The capital E-M-C-E-E
A repitition of words, I been divorced Melodie
I'm out, confident, no doubt
I get what I gotta get when I spit I don't shout
This New Yorker, Kris Parker's a quick talker
You can get what I spit or get the klik-klocker
Overseas I got the breeze as a hip-hopper
Where they speak eat and drop the beats proper
Street doctor, I'm (Brown) and (Foxy) like the (Ill Nana)
Whoever you think is hot, I'm hotter

[Chorus]

RADIO! These suckers never play me
or Chuck - but do you think we really give a...
Southside, Westside, Eastside, North

I spit the hot flame, you get your flesh torn off
I come from that place where you cats can't face
Where cops can't chase or invade my space
We turn up the bass, you tremble in the place
Phones ain't traced and flows we don't waste
Hoes we don't chase or kiss, they know they place
with Kris or Christ, they'll lose their life
You don't lose if you come in two's, you and a wife
But you crews wanna be bruised, so choose your knife
Choose your gat, choose your rat, when the smoke clears
you'll be like, "God damn - who was that?"
Loosen that noose around your neck and back
Embarassin blacks, ain't no respect in that!

[Chorus]

Let's do it! (HO!) (HO!) (HO!) (HO!)
Everybody up top! (HO!) (HO!) (HO!) (HO!)
Yo, all my cats in the front! (HO!) (HO!) (HO!) (HO!)
Yo, yo, all my cats in the back (HO!) (HO!) (HO!) (HO!)
Yo, we out!

KRS-One Lyrics

"Underground"

[Chorus]
What does it mean to be UNDERGROUND?
It means you gotta be free to be UNDERGROUND
Yo, you got your own key when you're UNDERGROUND
If you're listening to me yo you UNDERGROUND

It's time that I open with a thunder sound
Now look around your own town for the UNDERGROUND
Yo, you rhymin for the TV, or a million CD's?
You ain't a MC, you ain't UNDERGROUND
You could be platinum or gold, hot or cold
But it's the respect you hold that's UNDERGROUND
When the critics don't get, that for the streets you spit it
When your lyric they fear, that's UNDERGROUND

[Chorus]

Yo, white kids, black kids, skinny kids, fat kids
Them Asian cats be UNDERGROUND
Chicanos, Palestinians, Milanos, fuck the Lone Ranger
Where's Tanto? That's UNDERGROUND
Freddie Foxxx, Blackalicious, Kweli
M.O.P., GangStarr that's UNDERGROUND
Mad Lion, Smif-N-Wessun, Buckshot
Armageddeon T.S. that's UNDERGROUND, UHH!

[Chorus]

Yo, the t'cha returns, I told y'all I went to Cali to learn
And that shit was UNDERGROUND
If the cops be eyein you, cause survive is what you try to do
Yo I'm wit you, you UNDERGROUND
If it's justice you want, and you protest the ice they flaunt
You want skills that's UNDERGROUND
Yo it's not about a rugger rapper, or an actor
It's about your subject matter that's UNDERGROUND
LOOK!

[Chorus]

Chevonne Dean from Ruff Ryders, all the Outsiderz
Young Zee, that's UNDERGROUND
When all your money's spent, and you're still hangin on
to 50 Cent (get it) you UNDERGROUND
When you rep the collective consciousness of hip-hop
Not hip-pop, you UNDERGROUND
Yo it ain't about jewels, bitches and cars
It's about Nas, that's UNDERGROUND, yo!

[Chorus]

To be underground simply means that you're down
for the struggle, get 'em up, that's UNDERGROUND
You could be a classy lady or a whore
But if you protest the war, for sure, you UNDERGROUND
If the government can't see you, or deceive you
You love your people, believe you UNDERGROUND
If you refuse to play the game, you go against the grain
You ridin the train, you UNDERGROUND - get it!

[Chorus]

Yo, yo, that blast from the past, like Grandmaster Caz
Bam and Flash, that's UNDERGROUND
Doug E. Fresh, Lord Finesse, KRS
If you listenin to this you UNDERGROUND
Turn it up now KRS about to show you how
They go wow, BLAOW for the UNDERGROUND
Mr. Walt, Evil Dee, KRS, BDP
Kenny P, that's UNDERGROUND - do it!

[Chorus]

(Alright!) Turn it up ah, turn it up ah
Turn it up ah, turn it up ah
Turn it up ah, turn it up ah
Turn it up if you UNDERGROUND - LISTEN!

KRS-One Lyrics

"How Bad Do You Want It"

[KRS]
Yo, my man, how bad do you want it?
You know how many cats I threw the pitch, and they never caught it?
I told them to bring they lyric, but they never brought it
Scared to get ripped off, cheated, deleted, rejected and shorted?
Yo, how bad do you want it?
Fear I ain't got no time for it
If you want it, yo there's the track put your rhyme on it!

[Peedo]
This hunger inside of me's unexplainable, Kris
The struggle we put in this box will be put into disc
Birth and ever, these family problems is hurtin'
Both of my sisters is pregnant, fuckin' feel like murkin'
All I have is my word and my balls
And my fam and my music speaks for them all
It's the Dominican animal ready to damage, you puttin'
Pressure to rappers that think they can challenge you, Kris (uh huh)
We been through it all, the grimiest days, this earth ain't
Ready for my brain, comin' to face (word)
Everyone plus everyone
Do you hear me, KRS-One?

[KRS]
Well listen
You grimy and hungry?
But how long you gonn' trust me?
You really down for this cause or just chasin' the money?
I be up in them spots to be hot, so dusty and ugly
Nothin' be funny, it's all dark, nothin' sunny
Can you walk with me? Talk with me? Pop the cork with me?
When we in other cities, will you rep New York with me? (yeah!)
I need respect and honor
Discipline and no drama
How bad you want it, poppa? (with all my...)

[Peedo]
Loyalty is the key to it all (remember)
Get used to my face, we the winners of all
By mi gente, yo I go low to say-ah
Real like them Washington Heights
Niggaz there (say yeah!)

[KRS]
After you rap, will you stab my back? (never)
You gimme a track, will you take that back? (never)
I give the word, yo you bustin' your Gatt? (whatever)
Respect from your crew? They livin' like that? (they better)

This is no game! Why should I make you popular?
You know I'm the philosoph
How bad do you want it?
How bad do you need it?
If you see it, you can believe it, perceive it, retrieve it and flaunt it
How bad do you want, doggone it, there's the track, if you want it
You got to put your rhyme on it!

[Peedo]
How bad do I want it? I'm ready to die like Big
A serious man with blood in my eyes for this
Success doesn't come overnight
It's gonna be dark a while until I see light (that's right!)
What is it?

[KRS]
This is no game, why should I do it?
KRS-One, me and Peedo runnin' through it
I saw you down the street in FedEx
You said you had the beats was comin', like "I Got Next"
So we went upstairs, my man Choco hooked it up
This is KRS-One turn my voice up! Wha (wha-,wha-)
How bad do you want it?
How bad do you see it?
How bad do you hear it?
How bad do you BELIEVE you can be it?
If you doubt, then you're out
If you believe, you can achieve
I got the city on lock, but I'm gonna hand you the Keys like Alicia
You know my style, you know I'm the teacha
Philosopha, minister, emcee, Hiphop's spiritual leader
With the heater
You comin' with me? You runnin' with me?
In the spirit Scott LaRock, JMJ and Pun is with me
Yo, cats be steppin' to me ALL the time
With the rawest rhyme
But two weeks later, they fall to crime
If you listenin' to this song, and you want to be put on
You must be loyal to the cats that made you strong
It could be your friend, your father, you sister, your mother, your brother or some other
Just remember the days when YOU was under!
Before the Hummer, before the Benz
Before the hundreds, before the fifties, the twenties and tens
When you was thirsty, remember the living water, and who poured it
Now ask yourself, how bad do you want it?

KRS-One Lyrics

"Ain't The Same"

You know it's Kris!

[Chorus]
It ain't the same now (it ain't the same)
They switched the game now (they switched up on us)
They talk 'bout chains now (bling bling)
Rims on the Range now
It's sounding plain now
Y'all rock the same style (sound of the mic)
I know the way how (I know)
Bring it back to one
It's supposed to be...

This is the way it's supposed to be
It's supposed to be like you more close to me
It's supposed to be about our families
It's supposed to be about avoiding catastrophe
But it's all about salary and flattery
Distrust, lust, hate and tragedy
It's supposed to be about you and me on the same route
Were you there in eighty-six when I first came out?
And you know about how they runnin' this game out
It's supposed to be about fun and getting' the pain out
But it's all about clout and poppin' them chains out
Instead of forgiveness, we poppin' they brains out
It's supposed to be about seekin' in the seek out
You witnessin' injustice, you got to speak out
If you claimin' you love this, you got to release doubt
Knowledge is what I'm all about

[Chorus]

Well it's supposed to be sunlight over me
Light over you, not you runnin' over me
It's supposed to be a two dollar royalty minimum
A Hiphop guild we got to begin buildin' 'em
It's supposed to be NO police brutality
And the fact that we tolerate that crap is insanity
It's supposed to be museums and archives
Where people can see the importance of OUR lives
But it ain't about any of this
Cats are trying to get that diamond-studded Rolex on they wrist
You hear a voice in the wilderness you know it's Kris
Higher consciousness lyrics, they will persist
But it's supposed to be about makin' it better
You see, Hiphop's not a product like pants or sweater
Go aheadóbe a hero, get your cheddar
Even y'all gonna see when you look back you remember that

[Chorus]

You can see in your heart how it's supposed to be
You doin' your part, THAT'S how it's supposed to be
Pursuin' your art, THAT'S how it's supposed to be
Today you will start, THAT'S how it's supposed to be
It shouldn't be about you movin' slowly
Then talkin' junk when you don't even know me
And you cats be pussy like Josie
I (Touch) "50 MC's" like (Tony)
Everybody in the hood ain't your homie
I spit the truth, but I'm not the only
There's plenty
K-R-S-O-N-E

[Chorus]

KRS-One Lyrics

"It's All A Struggle"

[Chorus: KRS (guest)]
It's all a struggle (tryin to make it day to day)
It's all a struggle (from my hood to around your way)
It's all a struggle (single parents all by theyself)
It's all a struggle (diseases decreasin your health)
It's all a struggle (fiends swearin that's they last puff)
It's all a struggle (hustler tryin to avoid handcuffs)
(No matter what you do, who you are or where you from)
(Rich poor black white, at the end of the day)

It's all a struggle - and most people's struggles are doubled
You ain't the only one with a challenge facin some trouble
Look at the woman chewed up by the dog with no muzzle
Or the workers that got trapped underground in that tunnel
Some kids are playin in pools, others in puddles
When they listen to the news the propoganda is subtle
But it's time for you to know that the cryin got to go
Release the guilt that you built and let it flow
Slow and low, that is the tempo
Move slow and on the low, this you gotta know
You don't get the muscles without the hard struggles
You ain't the only one out here tryin to get dough
From the hustler to the preacher to the government leaders
From the airline pilot to the chef to the teachers
We linked in the same huddle, in the same tussle'n'bustle
Cause at the end of the day, it's all a struggle

[Chorus]

It's all a struggle - but don't let the challenges bug you
Or the government drug you, or the thieves in the street
beat and mug you - build your tunnel under the rubble
Come up on the other side eye to eye with the trouble
Look at the Twin Towers crumble
Look at the religious leadership stumble, everybody struggles
But not everybody comes through nifty, it's fifty/fifty
The city itself will outrun you quickly
Whether you be healthy or sickly
Whether you be wealthy or thrifty, ugly or pretty
Everybody's tryin to get 50's and 100's
I taught this at UCLA just off Sunset
Now run get "Ruminations"
It's a book that I published for the healing of this nation
In just a few chapters we run through, some possible solutions
Cause at the end of the day

[Chorus]

It's all a struggle

KRS-One Lyrics

"What Else Happened"

[KRS-One (voices)]
There once was a dreamer named Peter (what else happened?)
Peter was also known as SKeeter (what else happened?)
Peter had sex with Anita (what else happened?)
Anita got pregnant from Peter (what else happened?)
Peter wasn't just with Anita (what else happened?)
Peter knew this girl named Rita (what else happened?)
Peter had sex with Rita (what else happened?)
Rita got pregnant from Peter (what else happened?)
Now TWO girls are pregnant by Peter (what else happened?)
But Rita doesn't know of Anita (what else happened?)
And Anita, doesn't know Rita (what else happened?)
The two of them, only know Peter (what else happened?)
Now Peter's at the mall with Anita (what else happened?)
You know, he runs into Rita (what else happened?)
Well Rita takes a look at Anita (what else happened?)
And Anita takes a good look at Rita (what else happened?)
Well Rita starts to pull out the heater (what else happened?)
The heater now is pointed at Peter (what else happened?)
Anita jumps right on Rita (what else happened?)
Rita busts shots at Anita (what else happened?)
Rita missed Anita by meters (what else happened?)
But Rita's bustin shots at Peter! (What else happened?)
Just then somebody shook Peter (what else happened?)
Yo how many spoons of the dairy creamer? (What else happened?)
It's Keisha sayin WAKE UP PETER (what else happened?)
That's why they call you the dreamer (Now that's happenin!)

KRS-One Lyrics

"Somebody"

Oh, do it now, oh, do it now
Yeah, we celebrate diversity in the university
Everybody can't be a queen, everybody can't be a ho and a bitch (Ha ha)
Everybody can't b e a philosopher
Some of y'all gotta load up the clip
Word up, watch this

It goes 1, 2, 3 we the best
Knowledge Reigns Supreme, as you can see, or KRS
You don't wanna test the team, why get a vest
You don't wanna be cursed in a verse, by the blessed
KRS with the sound for the eat and the west
Follow no, follow no, follow no, follow no beast on a quest
Somebody gotta be fresh
Somebody gotta be wack
Somebody gotta be the Mc
Somebody gotta do the rap
Somebody gotta be smart
Somebody gotta do that
Somebody gotta do art
Somebody gotta be black
Somebody gotta have heart
Somebody gotta be white
Somebody gotta do their part
Somebody gotta be bright
Somebody gotta be up
somebody gotta be down
Somebody gotta be the teacher
Somebody gotta be the clown
Somebody gotta be lost
Somebody gotta be found
Somebody gotta be in the economy making the money go round
Somebody gotta be the president
Somebody gotta get down
Somebody gotta be hesitant
Somebody gotta be relevant
Somebody gotta be celibate
Somebody gotta be having their sex in a lex for the hell of it
Somebody gotta be intelligent
Somebody gotta be illiterate
Somebody gotta go all the way
Somebody gotta go a little bit
Somebody got to be an idiot
Somebody gotta be belligerent
Somebody gotta be hip hop
Cause somebody else is living it
Somebody gotta be spitting it
Somebody gotta be ignorant

Somebody gotta be holy
But somebody gotta have sin in it
Somebody gotta be losing it
Somebody gotta be winning it
Somebody gotta be flippin' the style I'm kicking just a little bit
Somebody gotta be into it
Somebody gotta be out of it
Somebody gotta be up for it
Somebody gotta be doubtin' it
Somebody gotta be running it
Somebody gotta be all that
Somebody don't even known that
Somebody gotta come right here
Somebody else gotta go back
Somebody gotta be scheming
Somebody gotta be a witness
Somebody gotta be seeing in the meaning is different
Somebody else gotta be somebody, for some else to be somebody
Somebody else to run into to wealth, to try to create one body
One aim, one GOD, one destiny
I'm not non-violent, you can back up off of me
I sip my tea, and cock back three
One for Tiny Tim, Mr.Walt, and Evil Dee
I hope you all see, the need for unity
I'll never stop speaking about Marcus Garvey
Kwame Ture or Malcolm X all day
Black leadership today is all play
Y'all play, y'all immature black behavior
IS worse than being a trader
Do on to others, as you would have done do to your neighbor
Big up to my philosophy majors
Free Mumia Abu-Jamal from the cages
We writes the pages and teach all ages
Justice, tell me what we want now
Justice, for Mumia Abu-Jamal
Or justice for Amado Dialo
Justice, there is no peace without (Justice)
All dem mercy, now watch this
I sing, 1,2,3 we the best
Knowledge Reigns Supreme, as you can see, or KRS
You don't wanna test the team, why get a vest
You don't wanna be cursed in a verse, by the blessed
KRS with the new sound for the eat and the west
Follow no, follow no, follow no, follow no beast on a quest
Follow no, follow no, follow no, follow no beast on a quest
Follow no, follow no, follow no, follow no beast on a quest
Follow no, follow no, follow no, follow no, follow no, follow no, follow no
follow no...

Follow no beast, on a quest
Do you hear me?
Follow no beast, on a quest
Word

Hip Hop ya don't stop
Tiny Tim ya don't stop
KRS ya don't stop
Get by us

KRS-One Lyrics

"Survivin'"

(feat. Tekitha)

[KRS-One] Yeah, all my fathers
[Tekitha] That survive, gotta ride to break the illusion, confusion
[KRS-One] Uh.. uh, word
[Tekitha] Keep on fightin, strivin
[KRS-One] Uh.. hold your head up!
[Tekitha] Survivin, survivin
[Tekitha] That survive, gotta ride to break the illusion, confusion
[Tekitha] Keep on fightin, strivin, survivin, survivin

[Verse 1: uncredited - possibly Shuman]
Yo, time to do what we gotta do
These days, livin ain't true, but I ain't mad at you
I don't got time for the stress and the nonsense
So I try to stay blessed, but it's all tense
When I awake, feel the sun on my right side
It make me wanna grab a gun and change my lifestyle
But it only goes so far, so live it up
Or realize what you know star, and give it up
Or either switch it up, gotta keep reppin on
And lookin out for our kids, like the rest of *[?]*
Now I know how it is, and what you're handin me
So I can calculate the right moves for my family, yo

[Tekitha] That survive, gotta ride to break the illusion, confusion
[KRS-One] Keep on!
[Tekitha] Keep on fightin, strivin
[KRS-One] C'mon, c'mon!
[Tekitha] Survivin, survivin
[KRS-One] C'mon, that's right
[Tekitha] That survive, gotta ride to break the illusion, confusion
[Tekitha] Keep on fightin, strivin
[KRS-One] Word up!
[Tekitha] Survivin, survivin

[Verse 2: KRS-One]
C'mon, let's do this
When it comes to the cash, we ain't equal
Rich man, poor man, poverty defeats you
Where my people? Yo, Kris see you
There's only one of you, that's why you gotta be you
Them others be see-through, flashin and flossin
Me I'm with Inebriated Beats in Boston
Strivin, survivin, we get cash often
But do you really know what daycare be costin?
All my fathers, all my mothers
All my sisters, all my brothers
Hold your head up and teach them younger cats

It ain't where you're from, it's where you're at!

[Tekitha] That survive, gotta ride to break the illusion, confusion
[Tekitha] Keep on fightin, strivin, survivin, survivin
[Tekitha] That survive, gotta ride to break the illusion, confusion
[Tekitha] Keep on fightin, strivin, survivin, survivin

[Verse 3: uncredited - possibly Priest]
Now see I'm livin just to die without most any reason
So I keep on chasin paper 'til it's time to go
But should I really go for mine and put the clip all in the 9
Or stay at the 9 to 5 a day I just don't know
But a brother got a daughter I gotta support her
Caught up in the system inside a order, man I can't afford
a kitted Escalade, or bling bling
And so I gotta keep survivin, is the song that I keep singin
I try to keep my head off the floor, the country's goin to war
While Bush is givin dough to NASA and ain't feedin the poor
But I keep love over these beats, these beats keep me alive
Alive, I got to stay the Priest, I will survive y'all

[Tekitha] That survive, gotta ride to break the illusion, confusion
[KRS-One] Uh, word
[Tekitha] Keep on fightin, strivin, survivin, survivin
[KRS-One] C'mon, c'mon.. SURVIVIN
[Tekitha] That survive, gotta ride to break the illusion, confusion
[KRS-One] Uhh! Keep your head up, word!
[Tekitha] Keep on fightin, strivin, survivin, survivin
[KRS-One] C'mon, uhh.. SURVIVIN
[Tekitha] That survive, gotta ride to break the illusion, confusion
[KRS-One] Uh
[Tekitha] Keep on fightin, strivin, survivin, survivin
[KRS-One] Word! Uh-huh
[Tekitha] That survive, gotta ride to break the illusion, confusion
[KRS-One] Uh.. ALL MY FATHERS
[Tekitha] Keep on fightin, strivin, survivin, survivin
[KRS-One] Word!

KRS-One Lyrics

"Things Will Change"

Hands in the air! *[X4]*

Good looking, word...
DJ Revolution, word up...
Let's do this, kid...
Here we go!

[Chorus]
A good time, a good vibe, and a house with a court
Good life, good wife, a little food for thought
I need (I need) food, clothes, and a whip with rims
I need God in my life
I need family and friends
(I need) money, power, respect, I need love
I need world peace, homeless to eat, no drugs
I need every race and creed to be one
Every nation, every face and seed to see sun

You need to listen to this
You need to listen to Kris
You need to have peace at least
You need spiritual bliss
You need a lyrical twist
Do you know what a miracle is?
Before we begin, you may need a kiss
I suggest either one from J to O-one from the lips
Either way what I'm saying, yo, is bound to uplift
You need checks, you need cash
You need intellect
You need to be moving fast
You need that big respect
You need to be rolling in a car
Going to a bar that's far
Makin' the deal to make you a star
You need to ask yourself, now do you know who you are?
Where you goin'? How many steps you took so far?
You need patience, you need to control your mind
If you read and don't act, then you're wasting your time
We need better leaders, we need better preachers
We need a three-thousand dollar raise to all teachers

[Chorus]

You need some meditation
You need rejuvenation
You need assistance right now with your situation
You need some contemplation
You need a combination

A combination of will power and concentration
You need some syncopation
With regular relaxation
But you can't, 'cause you runnin' and racin' and chasin'
You need to slow down, maybe you should speed up
One sayin' "lay down," the other's sayin' "leap up"
You gotta keep up
I suggest you start to speak up
A lawyer, a doctor, a rapperóyou wanna be what?
Whatever it is, you gotta visualize
You need to focus for real, and stop livin' them lies
The time you givin' them guys
You could be workin' upon the goal you hold
Yo, you must realize
Yo, you need to be wise
Yo, you need to be alive, there could be no revenge or deceit in your eyes
Rise!

[Chorus]

Gimme what I need
Do it with speed
Change the situation around, plant new seeds!
I roll with a righteous team of adults
Forget the insults
We plan to get results
You can call us a cult, you can call us a gang
But when it comes to Hiphop, no, you cats can't hang
When the Gatts go bang
And the telephone rang
Telling you to come to identify the remains
That's when you feel the pain
And my name comes as comfort, ease and all stress and strain
You need to know the game
You need to know the meaning of your own name
Reprogram your own brain
Ask questions with no shame
How you think you gonna master your craft if you don't train?
Perfecting your skill, that's the aim
Perfect your skill, and you'll always have money and fame
C'mon!

[Chorus]

What I, uhh, what I need
(House on the hill)
That's what I need
(Cash credit on my bill)
That's what I need
(All my dreams fulfilled)
That's what I need
(New whip that I can wheel)
What I need

(With the chromed out grill)
Uh huh, that's what I need
(And the girl that can chill)
That's what I need
(And my spirit all healed)
That's what I need
(That's what I need)
That's what I need
(That's what I need)
That's what I need
(That's what I need)
That's what I need
(That's what I need)
That's what I need
That's what I need
(That's what I need)
[fade]

KRS-One Lyrics

"The Movement"

Where the real at!
Where the real at!
Yeah!

Yo
Where I come from gats bust for nothin'
Thugs, ministers, cops, teachers, all be hustlin'
Your family's the only one ya trustin'
Clubs be jumpin', redesigned cars be bumpin'
Now there's ranks supreme KRS is a free man
In Hip-Hop culture, I'm like Allen Greenspan
I tell the culture what's hot and what's not
Now look who's on top and look whose shit just dropped
We ain't about sellin' records, we ain't music merchants
We emcees we go straight to the club and hurt shit

[Hook]
New York, New Jers', Boston, COME ON!
California, D.C., Baltimore, COME ON!
Texas, Atlanta, New Orleans, COME ON!
Philly to Chicago, Carolinas, COME ON!

I'm authentic, KRS I'm really hot
Yo, what up Fat Joe that's my nigga for life
Remember when Pun fell off the stage, right on my wife
In the Bronx, we all laugh about it today
What up Freddie Fox, 2 Glocks, Pik and Spay
Dr.Dre all day, both of them
Dr.Dre with Ed Lover and the one with Eminem
This a movement, all over the world we reach
I can prove it, all over the world I teach
You hear that Dr.King, "I Have A Dream" speech a lot
But no where is it manifested but in Hip-Hop
While them other cats be lookin' for a radio song
I'm in Washington Heights, puttin' them Dominicans on
You can feel it I'm strong, I last longer lets do it
You want the real Hip-Hop well join this movement
We ain't about sellin' records, we ain't music merchants
We emcees we go to the club and straight hurt shit

KRS-One Lyrics

"Gunnen' Em Down"

Uh-huh! Y'all forgot about this shit right? Haha
Haha, TURN THE RADIO OFF!!
Word! Yeah, whattup Choco? Haha
Yo turn it around for me one time
Uhh, uhh, yo

I don't despise thugs, I (ADVISE) thugs
I teach y'all thugs, cause that's what I was
Yeah I say was cause today I'm above
All the guns, illegal funds, the crews and the drugs
ANY HOOD I walk in, they show me love
They say 'Knowledge Reigns Supreme, WHATTUP CUZ?'
Cops wanna get sit down and get all bud
They wanna think as they drink drink down to the suds
I respect it, but I don't get down with the fuzz
I don't drink with DT's I don't hang with the judge
But truth be truth and I got the proof
Most ministers were straight thugged out in they youth
See if you're over 25 and you never got live
when it was time to ride, you ain't got no heart
But if you're over 26 and you're still in the mix
and your life you ain't fixed, you ain't doin your part
You see them cats on TV, playin the role?
Gassin y'all, them cats be over thirty years old!
Actin all dirty and cold
NONE OF MY CLASSIC ALBUMS they was worthy to hold
I'm concerned with the soul, overstand?
When we was slappin up rappers they was doin the running man
You don't know my style, we be straight gunnin man
If you don't know you better ask your older brother man
Shit gets realer than, Real TV
From eighty-six, ain't no rapper realer than me
Or Just-Ice, I.C.U. or Steady B
What y'all waitin to see? Somethin faker than me?
Don't let me have to pull out the Jamaican in me
I'd rather pull out the asalaam alaikum in me
Wa-alaikum salaam, yo you wan' tess de Don?
BLAOW BLAOW BLAOW-BLOAW-BLAOW, bwoy gone!

[Chorus]
They don't really wanna learn - well start gunnin 'em down!
Yo they really ain't concerned - well start gunnin 'em down!
They don't wanna get the book - well start gunnin 'em down!
They don't want a conscious hook - well start gunnin 'em down!
They don't wanna pay dues - well start gunnin 'em down!
They be actin brand new - well start gunnin 'em down!
They don't wanna get the light - well start gunnin 'em down!
Yo, pass me the mic - we'll start gunnin 'em down!

Watch dis! Your crew is my crew and my crew is my crew
Your crew you lied to, my crew will find you
The light I recite will blind and outshine you
Street cats be wonderin why they even signed you
Where they find you? WHO is the first cat to rap
"wa-da-da-ding" and show you what the nine do?
You ain't never seen me behave with them firearms
Maybe not, cause you just a slave to Viacom
Me, I'm a free MC hip-hopper
I teach real gangsters, hang with real Godsters
I am to hip-hop what Selassie is to rastas
Watch your mouth before someone I don't know pops ya
Lemme stop, don't-a-stop the street rhetorhic, ha
Your soul you sellin it ha, come wit some better shit, ha
In five years your whole catalogue's irrelevant ha
You spit the ignorance while I spit intelligence
You got it backwards like sayin hop-hip
That's why when you battled your whole crew got ripped!

[needle drags across record] You wanna battle?

[Chorus]

KRS-One Lyrics

"Philosophical"

Yo turn me up just a bit, so I can hear it and spit
Reverse spit, and get tips, rehearse a hit and take tricks
Research the art just a bit, don't let me start I won't quit
But if I start I'ma flip, just like I'm startin the whip
Puttin the key into it, mentally seein it
G.O.D. believin in it, I get a fee when I spit
C-L-U-B's I just rip, I'm lyrically well equipped
Over the beats and the mix, I keep the streets in a fit
When it comes to lyrical spit, I'm the t'cha of it
Higher consciousness, truth, I'll be reachin for it
Metaphysics, here's an example cause I'm speakin of it
Put your hands in the air, but you must be aware
That even if your hands are down, ain't they still in the air?
I be takin you all the way down the road, takin you there
I'm livin and givin just a smidgen of what I share
The style that I'm kickin, lyric lickings from over there
We rockin forever, we get better with every year
With letters and intercessors I sever every fear
Lookin here, like UPS KRS takes it there
Let's make it clear, thought waves go through the air
You can act like you busy or you dizzy or you don't care
But listen here, everybody got a fear
An insecurity, some type of thing they gotta clear
So that's when I, reappear, from the rear
Philsopher, follow the bright light to right here
I might wear, light gear
Appear when you least expect it, tellin you now how to fight fear
With faith, you hear the bass, well clear the waste
You gotta get the negative cats out your face
Get that irrelevant crap out your space
Conceive it believe it decree it achieve it with HASTE!

[Chorus]
Nuttin in the world is impossible
Listen to the shit that I drop on you
KRS-One, philosophical
Believe and achieve what you got to do

We rawwwwwwwwwk, we don't stop
Hip-Hooooooooop, we don't stop
Tick-toooooooock, we don't stop
We at the top we never drop cause true hip-hop is so hot
Some people thuggin, some be pimpin, I be teachin a lot
I be teachin about the meaning of a deeper hip-hop
That don't make me any better than a thief or a cop
All I know is when I flow, the people be shocked
You don't really want the teacher to come step on your block
With my whole glock takin everything that you've got

I'm a different type of deeper intellectual rock
For when you really wanna compete and get up off your block
You are not just doin hip-hop, you +ARE+ hip-hop
Like if you have a badge and a gun, you ARE the cop
Like if you practice medicine, you ARE the doc
You just forgot rappers rap about cars a lot
And the magazines worry about stars a lot
But I'm the sun and they avoid me BECAUSE I'm hot
The orthodox hip-hop is sure to rock
With or without a video, I'm leavin 'em all in shock, OHH!

[Chorus - repeat 4X]

KRS-One Lyrics

"9 Elements"

Well my ladies and gentlemen
This is a rapsession and my name is "KRS-One!"
And when I talk about "Hip-Hop Music!", I know

One: Breaking or breakdancing
Rally b-boying, freestyle or streetdancin'
Two: MC'ing or rap
Divine speech what I'm doing right now no act
Three: Grafitti art or burning bombin'
Taggin', writin', now you're learning! uh!
Four: DJ'ing, we ain't playing!
[scratch] You know what I'm saying!
Five: Beatboxing
Give me a *[beatboxin]* Yes and we rockin'!
Six: Street fashion, lookin' fly
Catchin' the eye while them cats walk on by
Seven: Street language, our verbal communication
Our codes throughout the nation
Eight: Street knowledge, common sense
The wisdom of the elders from way back whence
Nine: Street entrepreneur realism
No job, just get up call 'em and get 'em

Here's how I'm tellin' it, all 9 Elements
We stand in love, no we're never failing it
Intelligent? No doubt
Hip-Hop? We're not selling it out, we're just lettin' it out
If you're checkin' us out this hour, we teatchin' hip-hop
Holy integrated people have it, I'm the present power!

Rap is something you do!
3x Hip-Hop is something you live! *[scratched]*
Rap is something you do!
Hip-Hop is something you live! *[scratched]*

Skaters, BMX-bike riders rock
Don't you ever stop! You are hip-hop
You doing the same things we did on our block in the suburbs
You know you be packing that black block
Selling that crackrock and ecstacy
Gettin' pissydrunk, fallin' out next to me
But like I told those in the ghettoes
Here's the facts! True hip-hop is so much more than that
Some much more than rap, so much more than beats
Hip-hop is all about victory over the streets
What you see on TV is a lie
That's not something you wanna live or pattern your life by
But, huh that's too much preachin' ain't it?

You don't want the ?education*[?]*, you wanna be dead on the pavement
Well, so be it, some of ya'll ain't gonna see it
Others wanna enslave your mind! Kris wanna free it!

[Chorus]
Rap is something you do!
5x Hip-Hop is something you live! *[scratched]*

"Oh yea" *[scratched]* - From "P is dead"

"I have spent my whole life livin'", "talk to the fullest", "no doubt"

You know that's why these rappers can't hang
Cause the essence of hip-hop is not a material thang
They so careless, hip-hop is in a *[?]* we give
Rap we do, hip-hop we live
How many times I gotta say it? How the radio ain't gonna play it
And you hip-hoppers sit back and okay it
Think about it! (think about it)
The present course of action, we have got to reroute it!

[Chorus: repeat 3X]
Hip-Hop is something you live!

KRS-One Lyrics

"Alright With Me"

[Chorus]
I've got the illest live show (Now what you sayin?)
I drop the illest rhyme flow (Now what you sayin?)
But you still want to act like you don't know
Well, that's alright with me
People sample me like James Brown (Now what you sayin?)
When they want to hear that sound (Now what you sayin?)
But you still want to put me down
Well, that's alright with me

The Kristyles is officially on blast
Don't worry about what he say, cuz he wont last
If you want to learn the way take a seat in this class
I write albums like singles and release them so fast
I get around the whole country on foot like Flash
I don't fly across country I be there with the mass
Drivin, drivin, pulling up to your hood spot
You sayin to your son, "now this how radio should rock."
I pray for these radio cats cuz they don't know
how fast I be movin when they be movin slow
This ain't no fast food rap dude, get it and go
This that home cooked type meal, lyrical flow
Spiritual grow, ya know cuz ya was there, fo sho
Like Joey Greck I'm not the average Joe
(Yo, welcome cats to the BDP show
with KRS, Kenny Barker, G Simone, and Chalk-o)

[Chorus]
I've got the illest live show (Now what you sayin?)
I drop the illest rhyme flow (Now what you sayin?)
But you still want to act like you don't know
Well, that's alright with me
People sample me like James Brown (Now what you sayin?)
When they want to hear that sound (Now what you sayin?)
But you still want to put me down
Well, that's alright with me

I spit when I speak, when I speak I spit
When I spit what I spat it splits ya clique
Spit, spat, speak, spoke, either way
I spat that your rap's not dope any way
When you spoke I spit that splattered your scope
I split that and spit that unanimous quote
No hope when I battle I'm staggering folk
They slip-sliding away there rappers ain't dope
Get my coat, I make sure you can see shells
For sure you gon' see them cuz all you see is sales
Forget it you ain't wit it, admit it

Every thing you did I already did it

[Chorus]
I've got the illest live show (Now what you sayin?)
I drop the illest rhyme flow (Now what you sayin?)
But you still want to act like you don't know
Well, that's alright with me
People sample me like James Brown (Now what you sayin?)
When they want to hear that sound (Now what you sayin?)
But you still want to put me down
Well, that's alright with me

Too many emcees not enough time
nine out of ten niggaz say they wanna rhyme
Four out of nine talk about drugs and crime
Three out of four say they wit it but they not
Two out of five spit fire plus the underground
One out of three spit righteous but they never shine
One out of two claim they ballin all the time
And only one make it to prime
Do that math, only one Biggie, one Pac, one Jay-Z
one Nas, one Fifty, one X, one Slim Shady
One KRS-One, one L, one K, one Busta, one Pun, one Love, only one me
Take that TNT, that spit is my property
You copy me, fuck you, pay me (nigga)

[Chorus]
I've got the illest live show (Now what you sayin?)
I drop the illest rhyme flow (Now what you sayin?)
But you still want to act like you don't know
Well, that's alright with me
People sample me like James Brown (Now what you sayin?)
When they want to hear that sound (Now what you sayin?)
But you still want to put me down
Well, that's alright with me

KRS-One Lyrics

"The Only One"

In case you ain't know, check it
Let me tell you right not and the whole world
You are the only one

I saw them guys you were with
I don't flash platinum watches and drop-top whips
But you can rest assure you're my perfect fit
Every dollar that we get, we be earning it
Yo, you never have to worry about me taking a trip
Or leaving you at home so I can quickly forget
Yo, with me it's the opposite, you swerve the jeep
You the queen of your house, you earn your keep
And I respect that, in high school we both got left back
We both were divorced and had setbacks
But you should never let that depress you
God has blessed you
Yo, here's what KRS do
Support your goals, keep you warm when it's cold
It ain't about now it's about when we get old

[Chorus 2x]
Let me tell you right now and the whole world
You are the only one
In my heart you are that number one girl
You are the one (one, one, one)
Even when your hair ain't done with no curl
You are the only one (one, one, one)

Crazy why love making we already did
Shit, that's why we got four kids
Romantic, our parenthood we planned it
On the queue two to England, cross the Atlantic
Respect, you don't have to demend
It's like you got the perfect husband and your friends cant stand it
Especially when I watch the kids
And when you come home I ain't trying to find out what you did
It flips theirs leave, 'cause they looking for the player
A little boy trying to pay theirs cell phones and pagers
But with me you living with the savior
We be up in the temple of hip-hop, or chilling with the mayor
I thank the creator
We don't need what they handing out
This is what your man is about
It's like peace and much love
Trust and respect
Your friends may have diamonds but they aint get that yet
They may have the burghettes and cars and private jets
But all they're really good for is sex

[Chorus]

We be hanging out late night at denys
Having conversations about every and any
Many people want what we got
A relationship that just keeps getting hot like hip-hop
You know I'm not the regular guy
You know I can't be compared
You know when the drama comes I ain't scared
My name rings bells in the street
You can say my name in any hood your protection is complete
Thugs be right on their feet
Saying "What, your man is Kris?"
You don't worry miss

[Chorus]

But most of the time you're with me and the kids
Mind at ease, chilling out at Chucky Cheese's
These are my kids, I know what their need is
I know what the doctor bill in school to which in fee is
My daughter, I know who she is
And all my sons know exactly what being free is

[Chorus]

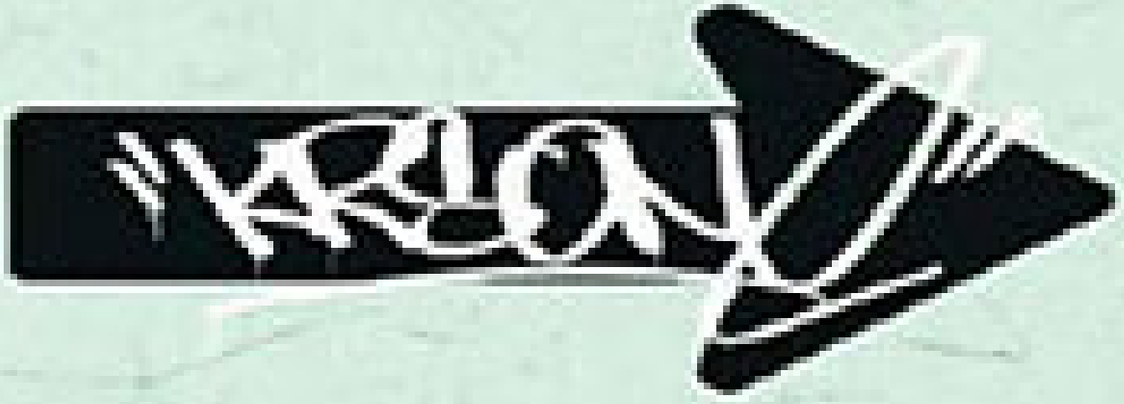
No, you might not get the drop-top three
But all your kids want to be like me
Their father, and even when times is getting harder
There's only one name you could trust, Kris Parker

[Chorus]

uhh
send this out to you
you and yours....word
it's that time yo.....that's word

[Chorus]

KEEP



RIGHT

KRS-One Lyrics

"Club Shoutouts"

[KRS-One:]
Listen, I don't know where them other cats be at
But we be in the clubs
We be all over the country, KILLIN IT~! (Yeah)
They can talk that club rock, this that and the other
But when it comes to really gettin down
We gets down, y'all know what time it is
Big up to my people at the 9:30 Club, Washington D.C.
Big up Cat's Cradle in North Carolina
House of Blues in New Orleans
S.O.B.'s in New York
King Club in, in in L.A.
Aww man it's sick, Aggie P and them in in Denver
(Word up we be smashin 'em Blast, they can't get enough of it!)
(But big up to my peoples at the Electric Factory in Philly)
(Joe guard your grill up in Chicago!)
(Big up to The Destiny in San Fran)
(Big up to the Apache Club, in A-T-L)
(The Hundred Club in Las Vegas)
(And The Spot up in San Jose)
(You know how we do, "Keep Right" word up)
Smashin, SMASHIN~!
(At some point, they're gonna have to come to the truth)

KRS-One Lyrics

"Are You Ready For This"

[Chorus:]
Well are you ready for this? (We ready for this)
Are you ready for this? (We ready for this!)
Well we just can't miss (just can't miss)
Well we just can't miss (drop the beat like this)
Well are you ready for this? (We ready for this)
Are you ready for this? (We ready for this!)
Well we just can't miss (just can't miss)
Well we just can't miss

Well when I speak this
I'ma be like this, I'ma be like Kris
I'ma teacher, I'ma preacher, I'ma free my kids
I'ma grow dem and show dem what a leader is
I'ma teach dem the laws of receive and give
Knowledge Reigns Supreme, believe and live
You done heard the hype, COME to where the talent is
"I'm Still #1," yup you heard right
People say, "KRS-One you shine bright!"
Others say, "Yo - you rhyme tight"
When you find me, you find light, and that's alright
I don't know about pimpin, sellin women like retail
Or turning coke into crack for resale
But I do know if we fail
In 2020 our children by the million gonna be jailed
We got the victory over the streets
God willin we chillin, we know we gon' eat
I'm a whole different kind of MC, hoes don't like
not tempt me but the ladies treat me oh so gently
Universities sendin me stretch Bentleys
My seminars and lectures, are rarely never empty
We teach students plenty, honorary degrees
Gold and platinum plaques I got many, ask Kenny
People get shocked when I walk into Denny's
Or the corner Kwik-Stop, they say, "That's Hip-Hop
right there," and yeah it's really quite clear
2004 might be the right year
for mental and spiritual repair
The solution is in the resolution you just declared

[Chorus]

When I speak like this
Knowledge Reigns Supreme, hip-hop philosopher
All in the street well I'm very popular
All through the hood I make all the stops and I
avoid the cops and them random shots well I
love hip-hop and I, live hip-hop so I

spit that shit to get you off your block cause I
can't understand and I, wish I could see dem
cats that talk bout they love the hood and they
never bring the hood anything that's good, and they
rap for the money tree, chasin a company
But I think you can now see, rap is fun to me
I got a ministry, a class, a staff that's under me
KRS in pop rap? Nah, it ain't ought to be
It'll never happen like, you eatin pork with me
Amateurs hawkin me, DON'T EVEN talk to me
My house is in Atlanta but I still got New York in me
Walk with me, most rappers are short to me
I'm like Chamberlain, dominatin the sport you see
I toss MC's off of me
When you hear KRS you say that's how it ought to be

[Chorus]

I drop heat like this!

KRS-One Lyrics

"Illegal Business Remix 2004"

Ha! Ha! Huh! Huh! What's this?
Yo, huh, huh, huh

I'm the one that steps in the club, ya not see it
Givin dap, givin pounds and hugs, ya not see it
In the club I'm not lookin for love, ya not see it
Gimme the mic and I'll show you whassup, better believe it
I'm not at the bar, whatever the pub, ya not see it
Still they sendin me these bottles of bub, ya not see it
But I will open the minds of thugs, ya not see it
Who you think really bring in the drugs, ya not see it
60 million people smokin the bud, ya not see it
Cause the American way of life is bugged, ya not see it
You never peep it, yo this ain't a secret, ya not see it
They confiscate it, resell it, you retrieve it, ya not see it!
So believe it while you sit there weeded, ya not see it
Hip-Hop culture who gonna lead it, ya not see it
K, R, S One, ya not see it
Peace love unity and havin the fun, ya not see it

[Chorus]
Cocaine business control America
Ganja business control America
KRS-One still causin hysteria
Illegal business control America
Diamond business control America
The oil business control America
KRS-One still causin hysteria
Illegal business control America

Yo, rise up brother, raise up sister
Visualize wealth, put yourself in the picture
Very few cats gon' tell you the half, ya not see it
Cause they're really only after the cash, ya not see it
But they wind up sellin they own ass
One album, two album, they gone they don't last
So hold on a minute now, don't be so fast
Knowledge Reigns Supreme with me ya won't crash
Ha, I'm the cat that spits the raw, ya not see it
They can't believe when I hit the tour, ya not see it
I'm not ready to retire for sure, ya not see it
I'm from the 70's, I'm down by law, ya not see it
We passed fliers door to door, ya not see it
Popularity's growin more and more, ya not see it
Conscious rap where the heart is at, ya not see it
We be screamin WHERE THE PARTY AT, ya not see it
But instead of the Bacardi sack, ya not see it
Fallin out in the party in the back, ya not see it

Let me show you where the art is at, ya not see it
Put down your money I'm takin all of that, ya not see it
All the clubs they be callin me back, ya not see it
I'm never short cause I'm taller than that, ya not see it
I'm only showin you the other way out
Maybe I'm preachin but this is what love is about, ya not see it

[Chorus]

KRS, I speak when I must
This that official underground rap, this you can trust
I stand outside the industry and there's many of us
Talkin mad shit but for those who not bilingual, plenty of stuff
My whole crew is why you can't get with any of us
Reason I'm not on TV cause I'm not sellin you nothin
I'm not rhymin for a Bentley or a house this plush
I spit for the conscious, what about us?
Time's up, time to open that mind up
Temple of Hip-Hop sign up, devils we bind up
When I'm up rhymin cuts your spirit hear it and shines up
Climb up before you wind up takin

[Chorus]

[scratching]

[Chorus: minus instrumental]

KRS-One Lyrics

"The Prayer Of Afrika Bambaataa"

(feat. Afrika Bambaataa)

[Afrika Bambaataa:]
In the name of the force who is the source who is called by many names
Allah, Jehovah, Yahweh, Elohim, Jah, El Nu, El Kuluwm, The All
And as we give praise to the creator
And we give praise for all you human beings
Who's down here on this planet, so-called Earth
And to all the extraterrestrial beings
In other planets and other places and other dimensions
Throughout our universe of universes
I greet all of y'all with the greetings words of PEACE... *[echoes]*

KRS-One Lyrics

"You Gon Go?"

I'm bringing back the style that others have pushed to the rear
Now you see me, now you don't, now I'm everywhere
Maybe you can see that knowledge does reign supreme
Rap is like a ballclub and I coach the team
Move the crowd, that's what MC mean
How many albums I got? Mmmm...12, 13
I've told y'all before
You are not just doin' hip-hop, you are hip-hop
Them jokers need to stop, be hip-hop
I mastered this and him, her, they, them, that one
she and he did not
I speak a lot
I hit 'em in they weakest spot
Come see me rock, yo, you'll leave in shock
KRS, you ever wonder why he's so hot?
It's because he's not pop yo, he's hip-hop
West to East the sound of the police will rock
If you don't love this you won't have the heat I got
Disciplined if you listening the beats *[?]*
Fuck the dumb shit yo, we gotta teach the tots
They say I preach a lot
And last year the took the jeep and shot
But this year the beat will knock

[Hook x2:]
I know where
We can go
To see how a real MC flow
No video
No radio
Just a live show
C'mon now you gon' go?

I'm still standing, demanding playing my lex jammin'
Cats wanna really see me start blam-blammin'
Put away the cannon for this overstandin'
I'm landin'
Let the music play like Shannon
I'm so hot, why not, I bring all the fans in
Watch me now come alive like Peter Frampton
Listen to me people, listen to me loud and clear
It's time I found out what type of people up in here
When I shout out the classic if you know it say yeah
South Bronx-Yeah!
My Philosophy-Yeah!
Black Cop-Yeah!
You Must Learn-Yeah!
Yeah we gonna do it up in here

I'm still standin'
And rappers be mad-mad
Cause they know they'll give birth like the American
flag in Baghdad
All they do is blab-blab, that head chatter
Why the dopest MC always a dead rapper?
I'm a real live rapper, I'm out to set it
I pay dues, while your crews still on credit
You talk that shit till I come out the school
And all y'all sound like Trina sayin' "That's Cool"
Time for the streets again
Time for them cats to pop gats into the mic you speakin' in
I'm creepin' in with a hundred soldiers
When I step on the stage it's over

[Hook x2]

They don't play me a lot
KRS you don't see a lot
On TV a lot, but I do MC a lot
I don't duck and hide when I see the cops
I'm free with the knowledge to free the block
Live on the radio I'm sendin' my rhyme, you can see
I'm behind enemy lines
You already heard about plenty of crime
Now hear about the sciences that could really open ya mind
I only got a little bit of time to rhyme before the
producer over here says "Ok, that's fine"
So let's get to it, I got my whole squad with me
On top'a all that I got God with me
You can go far with me
From New York, to Atlanta, to LA
You know they all with me
You might not see me on this station cause this is a
Rapcity and KRS leads a Hip-Hop nation
Even though y'all chase ends
Why can't weeeeee be friends, it all depends
Cats wanna thug it out
Isn't it true that Hip-Hop was bigger when we all loved it out?
Look at the difference in raps
See when I'm spittin' the facts
Louder than anyone could rap, the industry collapse
No one's special anymore
Variety is gone for sure

[Hook x2]

KRS-One Lyrics

"Phucked"

Yeah
Y'know when advice is in your face, you need to heed that
Word, you need to read that
Y'know, I put this lil' joint together real quick
You know what it's called?
It's called - NOW YOU'RE FUCKED!
That's right, listen

Wasn't you the type to mimic what you saw on TV?
Wasn't you the type to mimic what you heard on CD?
You never wanted to work you wanted everything easy
You heard KRS and you said, "That's preachy!"
A wise young man says, "Father - teach me"
A foolish young man wants to live life freaky
Oh yes, Knowledge does Reign Supremely
When I said it eighty-nine you didn't believe me

NOW YOU'RE FUCKED!.. that's right
NOW YOU'RE FUCKED!.. life is over, finished, done
NOW YOU'RE FUCKED!.. better heed that, read that
NOW YOU'RE FUCKED!

Listen - back in the days on the Boulevard of Linden
BROOKLYN! Kris was a, metaphysician
LOOKIN! For better ways to live without bein
TOOKEN! We started our own management and
BOOKIN! Makin moves with them live cats on
FULTON! I can't even 'member all the dough that we
TOOK IN! But you was lookin down on us
Cause platinum never astounded us, so

NOW YOU'RE FUCKED!.. word, like that
NOW YOU'RE FUCKED!.. ha, you shoulda heed that, you better
NOW YOU'RE FUCKED!.. y'all was chasin the radio, remember that?
NOW YOU'RE FUCKED!.. what they givin you back now?

Back when we was all singin "Monie in the Middle"
You wanted to wiggle, jiggle in a tight skirt and giggle
Even when outside was brittle, you still had on little
And KRS warned that you'll get played like a fiddle
Now you havin cravings for pickles cause you pregnant
and don't know where the dad went and you poppin them drugs like Skittles
When the baby is born it's little and sick
But it's no riddle, you was movin too quick, huh

NOW YOU'RE FUCKED!.. word, look at this
NOW YOU'RE FUCKED!.. you shoulda stayed home and read a book
NOW YOU'RE FUCKED!.. literally, symbolically

NOW YOU'RE FUCKED!

When advice is in your life you need to take it
Cause frankly, everybody ain't gonna make it
Back in the days we, showed 'em the way
I put it there in the music but you weren't amazed
You would criticize, debate, and basically hate
But let it be known I wanted everyone to be great
But you would diss and not even try to do better
When we was at the U.N. you said "whatever"

NOW YOU'RE FUCKED!.. word
NOW YOU'RE FUCKED!.. we movin ahead, you still in the same spot
NOW YOU'RE FUCKED!.. 'member all that back talk, all that?
NOW YOU'RE FUCKED!.. takin over

KRS-One Lyrics

"A Call To Order"

(feat. Afrika Bambaataa)

[over beat from "Phucked"]

[Afrika Bambaataa:]
True school, you got to stop BS'in, with this
New school you got to stop BS'in with this
Cause y'all don't know that y'all ALL are bein controlled by corporations
Where's your hip-hop museum? Where's your hip-hop doctors?
Where's your hip-hop judges? Hip-Hop lawyers?
Where's our hip-hop agriculturalists? Our hip-hop army?
We better have some hip-hop police police our hip-hop self
If we gon' do all this killin
We are at war brothers and sisters...
[leads into "Everybody Rise"]

KRS-One Lyrics

"Everybody Rise"

(feat. L Da Headtoucha)

[scratched:] "hit you with the real"

[L Da Headtoucha]
Geah, it's Headtoucha and KRS combined and
Yes, through the new millenium era we grindin
Yes, this combination right here's one of a kind and
It's Soul Supreme's dream team, we shinin
Clap, I'm tryin to tell 'em there's more to it than rhymin
It's now or never, all and together we climbin
Clap, let's rewind to the beginnin of time and
Back again, words merge over tracks like um, Shaq goes in
I, crack yo' cabbage in, we ain't no average men
My pen takes people to places they haven't been
Like the streets or the gutter, when I speak over beats
You discover I drop heat, don't compete with this brother
No, just compete with each other, I'm deep in the gutter
This underground sound, and I'm keepin it gutter
Music is - the reason I'm livin, the reason I'm driven
and givin my all to all y'all

[scratched:]
[Busta Rhymes:] "Everybody rise!"
[KRS:] "Learn the techniques of"
[Das EFX:] "real hip-hop"
"no doubt" "so you don't have to worry and doubt"
"KRS-One" "savagely attack"

[KRS-One]
Forgive me, I always been an indie-pendant
Hip-Hop started on my block, I remember it
It's in me, others wanna spit what's trendy
But I take it back to Mork & Mindy
Tellin these young cats, Nanu Nanu
Keep my name out your mouth, it's too much to swallow
Big up to my people, Peedo and Gato
Victory over the streets, that's our motto
I ain't forget you Choco-latte
Chocolatte, you the original not the co-py
But enough of that, run it back, we lovin that
Break from them other cats, KRS-One is back
Just look where the sun is at, where the moon is at
If you in tune to that, you can never lose in rap
Astronomy, all in inside of me
For that conscious lyric, you know who you got to see!

"KRS-One" "KRS-One"
"KRS-One" "rap graphic"

"collaborate with" "L Da Headtoucha"
"we'll touch you"

KRS-One Lyrics

"Stop Skeemin'"

(feat. Joe)

[Milk Dee:] "Stop scheming!"
[Milk Dee:] "What more can I say?"
"Stop scheming!"

[repeat x4]
"What more can I say? - Stop scheming!"

"Stop scheming!"
"Stop scheming!"
"What more can I say?"
"What more can I say?"
"Stop scheming!"

[KRS-One]
Yo I'm, I'm here to see a friend

What time did I come in?
Yes, yeah I'll follow you
Oh there he go - yo whassup? Man you went OUT yo!
Tchk, yo how you shruggin your shoulders?
You lookin at double life here soldier!

[Joe: singing #1]
Tell me what was on your mind
You should've thought a second time
Now you gotta leave your dreams behind
For life.. "What more can I say? - Stop scheming!"

[KRS-One]
See that's what I'm sayin, you gots to change your attitude G
Listen to me, the judge seein your case is a thirty-three degree
Maybe you can find your pops, a thirty-three degree
And see if you can be free by no later than three
Yo why you lookin at me like that? What'chu mean it's whack?
You got a six figure bail and not a dime in the sack
See I told you, one day you'd caught her last time creepin
You shoulda just let her go but you couldn't stop schemin

[Joe x2: singing #2]
Shoulda just walked away, walked away
Walked away..
Now they got you locked away, locked away
Locked away.. "What more can I say?"

"Stop scheming!"

[Joe] Whoa-ohhhh!

[KRS-One]
Nah nah, na nah nah nah yo listen man you ever heard of
the fact that you get one time for premeditated murder?
Um, don't argue man just yesterday y'all were kissin and huggin
What you lost your temper or somethin?
Huh? Yeah well killin a lady WORSE
You should always think FIRST!
Yo I'ma try to.. tchk here comes the C.O.
Yo whassup Thompson? Yo I'll say whassup to your P.O.

[Joe singing #1]
[Joe singing #2 1/2]

"What more can I say? - Stop scheming!"

KRS-One Lyrics

"...And Then Again..."

Peace and much love my people, I am Minister Server
Right here with the teacher, KRS-One
Album #13, "Keep Right," or you gon' get left
You know what time it is, ain't no time to be frontin
Trust yourself, get with the movement
Yo teacher, let 'em have it - like this, c'mon

You get the CD and then, it's time to see me again
You break it open and then, no we not jokin again
Turn on your player and then, the rhyme sayer again
Put in the cd and then, you can't believe me again
Turn up the volume and then, we blowin by you again
You start to listen and then, you see the mission again
You start to listen and then, you get the vision again
U-N-I-T-Y that spells unity man
On G-O-D I demand, as you can see I don't end
Your family I defend, don't battle me you won't win
I'm not livin in sin, but I'm livin with Him
Her/They/Them/Us trust yo let us begin
KRS is unique, you can hear how I speak
I be teachin the streets, I'm fin' ta reach for the peak
I rock a club every week, I keep them thugs on they feet
He's back, just me, please, don't try to compete
I kick that knowledge in college when I club it it gets rugged
And you can see that these others be garbage and I love it
Uhh, what's the state of hip-hop? Don't confuse it with rap
It's the state of your mind, it's the way that we act
It's that thing that makes you say yo I can never be whack
It's also clickin through my lyric lickings spittin the facts
Hot tracks y'all prep for combat
Baby I'm back, they crazy whack, takin 'em out!
The philosophical flow son, that's live at my show son
I'm soundin like no one, you feelin me though?
The people want me back like they want The Arsenio Show
They want the real, not a video hoe!
This is KRS-One, you gotta believe me
I'm sittin in the studio with Nice and B.C.
See me tonight, we keepin it tight
It's another from the brother KRS, "Keep Right!"

KRS-One Lyrics

"My Mind Is Racing"

[Intro]
Vroom vroom vroom vroom
My mind is racing
Vroom vroom vroom
My mind is racing
Vroom
My mind is racing

[Verse 1]
When you young you talk shit and get slapped up for it
The ice, the cars, the clothes, we already bought it
The streets, the projects, the hood, we already support it
The rep, the respect, them cases we already carted
The gold, the platinum plaques, we already flaunted
The leathers in freezing weathers we already sported
The wise see your lies and you already shorted
Them boys they talkin to boys, we men we ignore it
The whole planet, so-called Earth, we already toured it
My levels be on max with the bass distorted
When the economy is up we getting all of that
When the economy is down we still touring Jack
Look back at '88, where them ballers at?
They was buyin' out the bar, I ain't fall for that
Spending they money, you'd think the club would call them back
But they didn't, that shit was all an act
I go

[Chorus 1:]
Vroom vroom
My mind is racing
Vroom vroom vroom
My mind is racing
Vroom
I said my mind is racing like
Vroom vroom vroom
My mind is racing

[Chorus 2: x2]
I'm a warrior
I'm a warrior
In this concrete jungle it's hard to stay humble
I'm a warrior
I'm a warrior
I bring that drama to whoever, whenever, WHAT!

[Verse 2]
Yo, let me tell you 'bout defeating the drama
In the street with the armour

It's the teacher, Kris Parker
I be in the hood, looking good, speaking of honour
Being a father
Not avoid the baby mama drama
Respect myself I gotta, we gotta live proper
The True hip-hopper, hits yes a non-stopper
A no quitter, heavy hitter
Looks within to, be the winner
Now let us begin the orientation
Hip-hop culture is what we call the nation
But annihilation is what we facing
Cats getting killed from Scott La Rock to Jam Master Jason
That's why we was at the United Nations
Laying down the foundation
For hip-hop as a real nation
You know what time we wastin?
But...

Vroom vroom
My mind is racing
Vroom vroom vroom
My mind is racing

[Chorus 2: x2]

[Chorus 1]

KRS-One Lyrics

"Me Man"

[KRS-One]
You told me man, you need me man
Who the teacher me man, who gon' lead you me man
Who gon' free you me man, well not mostly me man
But come up close to me man, make a toast with me man
I'm not starvin me man, I be feedin me man
You won't be seein me man, cause I be bookin me man
Them lights be hookin me man, while people look at me man
They sing the hooks with me man, yo read this book with me man
How these rappers slash actors wanna fuck with me man
When we be up inside the spot they be duckin me man
I be movin me man, showin and provin me man
My wife is soothin me man, yo' life is new to me man

[Minister Server]
Aiyyo what's goin on this is Minister Server
Now you've been readin the books, seein the lectures
Hearin the CD's watchin the tapes
Now's the time for you to get rid of your fears
Aiyyo teacher tell 'em what's going on

[KRS-One]
You see me man, it don't take much to be me man
I just stay extra focused on the G-O-D in me man
Not too many ahead of me man
If rappers were television channels I'd be C-SPAN, believe me man
Don't nobody sound like me man, I'm a free man
For that golden age hip-hop, you know you gotta see me man
From 1973 man, to 1993 man
If you unaware of them 20 years you won't understand me man
So here's the plan for you and me man
Hip-Hop is not a product to be bought and sold
Hip-Hop is you and me man
So in the years to come you gonna see me man
On top of a Shaquille like Leland
And you gonna be right there with me man
As you can see man I got S-T-Y-L-E man
Why for 17 years you already knew this about me man
So you be you man, and I'll be me man
But remember Knowledge Reigns Supreme - yup, that's me man!

KRS-One Lyrics

"Feel This"

(feat. NYCE)

Get 'em, get 'em (yeah yeah!)
Get 'em, get 'em (that's B & NYCE)
Get 'em, get 'em (ha ha)
Get 'em, get 'em

[Chorus: KRS-One]
Let's go, let's start the show
Contracts and dough, you came to hear Kris
Let's go, let's start the show
Watch how I flow, you came to feel this
Let's go, live MC rappin
Cut mix and scratchin, you came to see me
Let's go, let's make it happen
For your satisfaction, you came to be free

[KRS-One]
From all the bull, from all the push, from all the pull
From all the critics and the cynics that there happens to be
Relax from the attacks, there's no battlin me
Write whatever you like, I will rattle you G
No hassle for me, with the freestyle skill
Believe I'm ill, chill, I be surpassin MC's
Ain't too many faster than me man
Neck movin, sweat oozin, schoolin, that's how we jam
I write with a free hand, I write with a purpose
If you bought the CD, thanks for the purchase
If you downloaded the album then COME to the concert
Don't sit in front of the computer 'til your eye hurt
Get up, get out, and join the movement
Hip-Hop culture is more than music
And I'ma prove it, whether freestyle or written
Ax yourself how KRS still spittin

[Chorus]

[NYCE]
Me and my niggaz go to the club with hooded jeans and boots
Fuck a dress code, fuck a tie, fuck your shoes and suits
We rock doo rags to fitteds, and throwback jerseys
Front pockets with cash, paint a wall with a slash
Gettin our drink on, burnin trees, eyes lookin Japanese
Whylin out because the DJ threw on M.O.P.
Peepin how the ballers with the gators is hatin
But fuck what they be talkin this is straight from the streets
They got war comin out they mouth but they don't want beef
Cause yo I snatch them outta they ride, click click, surprise
Run your jewels, your shoes, before you make tonight's news

All downs are bet, and I'm playin for keeps
Actin like you gon' scheme, then my man gon' squeeze
Word to the *[?]* cause I knows you don't want it
You be up in, *[?]* tear while I be, everywhere
Yeah, it's like that what?

[Chorus]

KRS-One Lyrics

"Dream"

(feat. Minister Server)

[Minister Server: speaking]
The God of your understanding, has chosen you and you've agreed
To be here in this space and time to do something, that only you can do
Now I won't stand here to try and tell you what it is
But deep, inside yourself
As you take time to uncover, and ask yourself some vital questions
Like - what is it that brings me peace, what is it that brings me joy?
What do I love doing?
What am I willing to become highly skilled at doing?
What part can I play for the betterment of the society
And the world in which I want to live?
When you begin to ask yourself those real questions
And it doesn't have to be done in a formal way
It can be done just like we're speaking, right now
Ask yourself the question
Look at how you see yourself in just a year from now
And then go forward
And if you have children or even if you don't have children
Now begin to, look at your future beyond
The space and time that you are
Now visualize exactly, the way that you desire to live
Don't be afraid to, dream

KRS-One Lyrics

"I Been There"

[Chorus: x2]
I talk how I talk when I talk cause I been there
I walk how I walk when I walk cause I been there
On your own sleepin in the park yeah I been there
How we really gonna survive? Let us begin there

I'm talkin to the little you but, there is a bigger you
The bigger you is spiritual, little you that is physical
KRS is givin you, somethin more than I get with you
I'm hittin you, splittin you, rippin you down with me
You busted that metaphysical rap, at the pinnacle I'm at
I'm down here just to deal witchu cats
I never bleep you, I just remind you that they don't need you
They gonna keep you for as long as they can eat you
But that mic you speak through goes from here to Mogadishu
And how you represent US is the issue
I'm not here to diss you, or dismiss you
But at any moment we can be hit with missiles

[Chorus]

How many MC's must get dissed
How many young men must get frisked
How much ice can really go on one wrist
How many shots get fired at a target and just miss
We gonna live like this?
I walk the same path that Ma$e do
But he went in the church, I stayed out to face you
The difference between us is not just man to man
But in fact it's fan to fan
People that buy KRS-One goin places
People that buy your shit, they catchin cases
My people eat, your people cheat
Such is the words you speak and you reap
You can pop that shit if you like
But people that buy KRS-One, they lookin for the light
Like NYCE, Jada, Lizzard, B.C.
Harold, Symone, Server yo man see me

[Chorus]

KRS-One Lyrics

"Freestyle Ministry (Sever Verbals)"

(feat. Minister Server)

"It was quite evident that something new had to be introduced
in order for the music to flourish as it had in the past."

[KRS-One:]
Ha, hah, huh
You know the time here

[Jadakiss:] {"You will never be as nice as I am"} *[Nas:]* {"Nuttin to play wit"}
[Guru:] {"Troublesome, to anyone who stands in the way"} *[Nas:]* {"Be my guest"}

[KRS-One:]
Aiyyo, Minister Server, test your mic yo

[Minister Server (KRS):]
Yo this ain't complex, I keep it mad simple (whaaat)
Minister Server transmittin from the temple (that's right)
The Lord is my light and my salvation (that's right)
I'm here to heal the, hip-hop nation (C'MON~!)
And make sure that our next, destination (C'MON~!)
Is exactly where no procrastination (that's right)
We got things to do, I mean me and you (uhh uhh)
We got to do what we came here to be true (C'MON~!)
Through the Most High guide you got to find purpose (UHH)
I'm on the mic now (WOOOO) I didn't rehearse this (what)
It's from the spirit (that's right) to those ears that hear it (c'mon)
Ahhh...

[KRS-One:]
C'mon, yeah, yo
You ain't never heard no flow like this one
We teach on the streets, ruminations go get one
If you never heard of "My Philosophy"
Check my catalogue, check the glossary
Ministry archives, school society
Temple of Hip-Hop exhibit you got to see
Obviously I flow different from most of them
They radioactive, I don't get too close to them
Hip-Hop in the cypher, commence to roastin them
Or commence to "Edutainment," minds I open them
Up on the rooftop, scopin them
KRS this album is dope AGAIN!

[Ministry Server (KRS):]
It's up to you and me to walk in our authority (WOOOO)
To understand we got the inner divinity (that's right)
To change the things of this closed society (that's right)
Ain't that the way we said we wanted to be? (WORD~!)

Oh what'chu gonna do, you got to get off yo' ass (C'MON~!)
You can't move slow, you got to move real fast (c'mon, yeah, yeah)
If you, wanna keep up with the Temple your mental got to be ready
And you got to keep these flows steady (yeah)
And keep it goin, I don't really be knowin (yeah)
how the Most High's gonna be flowin (ohhh)
But I got faith and it's 2004 (yeah)
So the H-Law, yeah more
We gon' bring you up, you know it's all the way real
And I'ma keep it like this, don't pack no steel (word)
But I got a gat, that's got a lot of truth (yeah, yeah)
And I do it like this, my children be the proof
So teacher, come let these cats know (that's real)
The way you do it like this, you got to let 'em know (whoa)
That's always true, the way you come through (yeah)
So come and do what'chu gwan do

[KRS-One:]
Biddy-bye-bye, biddy-bye-bye, biddy-bye-bye biddy-bo
Biddy-bye-bye ayyy, EASE OFF~!

KRS-One Lyrics

"The I"

(feat. Mad Lion)

Where shall we land, there?
Which city shall we destroy today?
This one, or that one? This one?

[KRS-One]
Take a look a look around, we last forever
We carry books around, manuals are bound in leather
We rock the center, the only point that's in the circle
We free MC's, what we decree will not desert you
We know what we doin, we wise and we chillin
We calculate against the continued cries of our children
They may be cryin now but they won't be cryin later
We love hip-hop, because WE are it's creators
So we, build the Temple, write the books, teach the classes
Create instrumentals, write hooks and rock masses
NONE passes, without studyin this flow
It's all good as long as you know Kris know!

[Chorus: Mad Lion]
While I deal with I, Jah talk to I
When I dem go alike, only de one comply
Whatchu see with de I, look twice toward de I
If you don't unify your children them a gon' cry

[KRS-One]
I stand with the rejected, the unsuspected, the unconnected
The neglected the one you, never suspected
It seems you forget hip-hop plays the back
Sayin that's my sound, and that's my sound
And that's my track, and that's my rap
And that's some chorus they did way back, look honey bringin it back
I'm actually, I'm everywhere at every time
Animating every rhyme and every dare in every mind
KRS is my representative on Earth
Challenge him not, he's been hip-hop since birth
His main objective, is to put hip-hop in perspective
Show pity, and DESTROY these wack cities

[Chorus]

[Mad Lion]
Inna style dem a *[?]*, yo alla dem a cry
Dey worship slackness and to be under sky
We lead dem to de water but we cyan't make dem drink
Pussy to take a sip, cause it gon' make you t'ink
We don't usually *[?]* yo alla dem a sing
Wisdom wort more den any diamond and gold

People use it and find it like de Dead Sea Scrolls

[KRS] Take dem Lion, take 'em, take it over!

[Mad Lion]
Cause of dem outer, dem outer, dem outer inter outer inter
Outer inter outer inter out of control
Dey neva find wisdom til dem dead ohhh
Mad Lion make de *[?]* roll
KRS make up a sea and bulge ya
Of the story of never been told-a
Cause we outer, outer, inter outer outer ese
Out of control, out of control
I'm so serious ay (what?)
We don have no time fi play, ay (tell 'em again)
Some people diss dem *[?]* hell's in this world
But dey'll come around one day

[KRS-One]
Yo, yo, only Beezlebub think my voice is aggravatin
Children of light hear my voice and start congregatin
The mind's debatin, is he a prophet or is he Satan?
But the tree is only known by it's fruit, what am I creating?
What am I stating? Have I stood the test of time?
Or am I fading, or has God blessed my rhyme?
Settle your dissin, you better be listenin, forever we glisten
The metaphysician with a better way, makin a better day daily

KRS-One Lyrics

"Bucshot Shoutout"

(feat. Buckshot (Black Moon))

[Buckshot:]
Yeah - this is also
A message for all y'all heads out there
Who just heard, whatever you hear
This is the Boot Camp Clik, and we everywhere
Right now y'all 'bout to get into the real mindstate
Of where this is all goin, the Temple of Hip Hop y'all
Keep your mind thoroughly placed where it's at
So you can know where it's goin
Understand?

KRS-One Lyrics

"Rap History"

(feat. Afrika Bambaataa)

[Afrika Bambaataa:]
We got to understand rap been here for a long time~!
When God talked to the prophets, he was rappin
And when the prophets talked back to God, they was rappin
And then if people wanna bring it up and get all up to the modern days and ages
We can start to goin in the 60's when you had Shirley Ellis
When she did "The Name Game" and "The Clapping Song"
We can go to the poetry rappin of of sister Son... Sonia Sanchez
With uh The Watts Poets, or The Last Poets
We can get into the political or the message rap
Of The Honorable Minister Louis Farrakhan, Malcolm X
Or The Honorable Elijah Muhammad
We can get into the the the the party and fun raps
Of Pigby Markam *[?]*, Marks Baby *[?]*
We can go back to the "Hi De Hi De Ho" with Cab Calloway
We can go back to the radio disc jockey or jocko
Eddie OJ, and all the others that did things
We can go back to the LOVE RAP of Isaac Hayes, Black Moses
To the LOVE RAP of Barry White out there
This is all part of rap
And if all you country people want to get into the country & western thing
We can take it to, Tony Joe White, when he did "Poke Salad Annie"
This is all dealin with the rap
Rap has always been there... *[echoes]*

KRS-One Lyrics

"Let 'em Have It"

What, yeah
Shoutout Minister Server
Word up Super J
My man Byron is goin off
Marlowe, Inebriated Beats, word
Uhh, you know what this is, word up

[Chorus:]
Who be rockin it constantly? (KRS)
Who be droppin philosophy? (KRS)
For the real it got to be (KRS)
Them niggaz ain't stoppin me (KRS)
Whack rappers they got to go (let 'em have it)
So they front on that microphone (let 'em have it)

I be comin in all wild with raw styles
Goin that long mile, makin 'em all smile
Make it happen, MC'n no rappin, believe me I'm strappin
YOu see me I'm slappin, believe me you deceive me
It can greasy, I'm cappin, bring the action, ADD the clips
Start subtractin, multiply them shots, you a fraction
Raise up, blaze up, get made up
You wanna bug out you'll get, sprayed up - NOW~!
(Bo bo bo bo... yeah!)

[Chorus]

It's the Temple, expandin your mental
Inebriated instrumentals believe me nothin defends you
When I spit, rappers be runnin out really quick
They come with that silly shit, but them not really it
Kris is it, them an idiot, if it wasn't for radio programmin
you wouldn't be feelin it, or willin it
Original, metaphysical, meta-lyrical
Forever spiritual, really man, I ain't feelin you
(Yeah! Yeah! Whattup?)

[Chorus]

I'm somethin like a phe-nom-enon, fast like ramadan
You can never tell what style I'm on
Wise like Solomon, unlike any udda mon
If you lookin for that bling bling, go check dat udda mon
What I utter mon be butter mon, straight from the gutter mon
Boxcutter in one hand, buck in the other one
Lyric I got a ton of 'em, gunnin 'em, not frontin 'em
Back again, it's KRS-One and them, OHH~!
(Woooo! ...So)

[Chorus]

Feel it (let 'em have it)
So they front on the microphone (let 'em have it)
Y'all better catch up! Ha ha
Y'all better catch up! Word up

KRS-One Lyrics

"Still Spittin'"

(feat. Akbar, An Ion, Illin' P, L da Headtoucha)

[KRS-One:]
It don't stop, word
It don't stop, we still spittin! Word
Knowledge Reigns Supreme, Over Nearly Everyone
When you gon' get it? Aww man

Watch how I spit 'em, watch how I hit 'em
Inebriated rhythm, we get up all in 'em
KRS you gotta get him, we the best we always win 'em
Them cats won't admit I'm in the club rippin they shit
I'm raw when I'm on tour you better be sure when you get 'em
'Til you hit the floor and spin 'em, them elements do you live 'em?
Or are you just usin 'em, confusin 'em and killin them
Your touring is boring, your minimum ain't fulfillin them
So let's start drillin 'em, why we ain't feelin them
Cause we lookin and lookin and don't see that real in them
Cars we be wheelin them, minds we be healin them
With books and CD's, believe me we straight dealin them
Live in the club them thugs hit the ceiling
When they get the feeling KRS-One start delivering
So who's up? (Akbar) You live hip-hop?
Yo, get on the mic and show 'em what you got

[Akbar:]
This whole rap game is a gamble, some MC's can't handle
Financial freeze, your record company's at a standstill
While I breeze through a sample, and lead by example
Find fertile minds and drop seeds by the handful
Man you ain't gotta hit me in my head with the anvil
I grow wise, I recognize the lies and the scandal
Once you sign on that line, your career could depend on
these white collar crooks who cook the books like Enron
So I took an oath to speak no lie
While mad rappers die over beef like E. Coli
I guess you thugs won't get the picture until them slugs hit ya
I ain't a hater, but sooner or later "Love's Gonna Get 'Cha"
And if you don't know that, then you dumb fella
And everything I said, went right over your head, like an umbrella
So who's up? (L) You live hip-hop? (Damn right)
Yo, get on the mic and show 'em what you got

[L Da Headtoucha:]
Categorize me with the best clique, rhyme majestic
with it I get sick and mo' connected
So electric my energy is remembered I'm limitless
My mind screamin just against the rhythm, intense is the ism
In 'em I long salute the young and hungry to shine

Nightmares of lost time haunt taunt me to rhyme
Been isolated, waitin years to finally reappear
Cheers I made it, all praise due, Inebriated
These words are weaponry, huh, mental telepathy
Rocks for definite, reppin it, 'til the death of me
Pain left in me runs deep, and leaks through the speakers
In Jeeps and tape decks, then connects to your peeps
We keep it, thorough borough to borough, city to ghetto
Rock like, heavy mental on the, instrumental
So who's up? (Illin') You live hip-hop?
Get on the mic and give it what you got

[Illin' P:]
I got five on it, you want it, flaunt it without hazzy
Dues paid check the rezzy, the black film be
that of a blunt's ash, past he of the spectacular cash
To get after master *[?]* atlas
I rep even when I be fingerin them, get it, probably not
Probably thought I meant that snitch talk
Starvin your brain, I never come with the simple and plain
To get at these thoughts, get on the train-er
I'ma af'ta learn ya bwoy, ya not fi come wit de sum'n
Microphone check one, no frontin
You niggaz is mimin your rhymes cause y'all ain't sayin nuttin
Some of dem soft, me foot bak I'm 'pon de mic
[?] (Good Will) stay ('untin)
Fear new day mon, un if ye wake up
Industry feel de shake up
Married to the ghetto you niggaz forget, break up
Ahh so who live hip-hop
Upon de hip, me ride the Soul Train ock

[Supastition:]
Yo I'm not to be confused with these popular new names
I been paid my dues I'm at the top of the food chain
And I should get an award for slept on peeps
So this beat'll be perfect for my acceptance speech
Forever loved in your city, thanks to rap
My album's a continuous seller like fitted Yankee caps
I'm like a demon, crossbred with a ragin bull
I'm from the South but I relate more to "Paid in Full"
So focused on my grind, I'm potent when I rhyme
Tell niggaz close your fuckin mouth and open up your mind
It takes more than a few weeks to learn
I make sure rappers and microphones ain't on speakin terms
As far as you concerned, I'm losin my temper and patience
Nobody takes shit serious like an impotent rapist
So who's up? (An Ion) You live hip-hop? (True dat, true dat)
Yo, get on the mic and show 'em what you got

[An Ion:]
I'm aggressive, progressive, words young ticker be vital
Rip the game and the name to reclaim any taken title

Directly hand out stares to the needle as it rotates
An agent to decrepit from rigormortis in flow eighths
Not even for a minute can you rap
Let down by the sound that drowns the clowns even dare to step
Don't ride the rhythm, I order you to jock
Your claim to fame was holdin down but you can't hold cock
Damn right we can fight, I stay with grudge
with no prior budge from the previous
And when is it that fourth'll crack cranium, kids come in the picture
Knowin that asshole and Ion and you ain't the perfect mixture
Like Alice, diners become the impeccable haven
That any enter my zone must be stripped down and shaven
I stand before you as a fiendish critter
Creatin causin collision with a pen
Written that hatred of spaced-out squashed men like it was a sin
The only job payin me enough to snuff the rough
should have never planned the plan to make you perish
Leavin your fan and your uncle and son with somethin he can cherish

KRS-One Lyrics

"Bling Blung"

Yeah, Word Up
Yeah
Yo

[Chorus:]
Bling blung, bling blung, First you see the bling
then you feel the blung
This is the way that the world is run
Can't you tell
Bling blung rock the bells

[Verse 1:]
Move along, move along, along, this is a newa song
KRS-One the supa strong
Move along before you lose your tongue
Before you lose ya lung
Be sure MCs get done
Detour or move along
We teach the young
How many young men hung so we could sing a song?
You need to move along, along, along
The string of injustice stung those that bling cause now they blung
Materialism stings and now they stung
You need to move along
Life is like ding, dong, ying, yang, bing, bang, ping, pong, or ping, pong
Any lyrical battle we won
Yes, this a master flow, this how life go on
First you got it then your gone
So don't get stung
Cause after the bling it's blung
No material thing stays with you long

[Chorus]

[Verse 2:]
Move along, along, we can't get stung
We the one, my melanin stuns right up in the sun
I go and I come, don't mind me son
I'm just a teacher, them cats should't try me son
I'm that lively one
I roll with them grimey ones
At the Temple (of Hip Hop) you can find me son
What I bring and sing reflects what I brung
I be rolling, aling off the tongue
You can check them other ones
Maybe them younger ones
But I be that I witness just like Connie Chung
Some burn the paper

Some burn the bong
I'm burning rappers, I think you need to move along!

[Chorus x2]

[Verse 3:]
Move along you little singers
Never linger round a rhyme bringer
These rap blingers
I break you off a middle finger
Bell ringa, in your mind a dong dinga
Yo, that's what's wrong with these singas
When they sing all they bring is bling
THEY DUMMIES
But after the bling aling, aling is blung
Post bling is blung
A new ting son
I'm rockin these bells like ding dong
As you can see I got no rings on
Cause it got nothing to with what springs song
So ding dong
Open the door to freedom
Any of my books you should read dum and be strong
Or else you need to move along, along, along
Your lyrics are cow dung
There use to be a TV talent show with a gong
And when the gong gonged you were gone
Yes I am the lyrical Don
Beats for art um
But I am unattched to all of thum
The message of the song is bling blung
Don't get caught up in watcha bought up
Be Strong

[Chorus x2]

KRS-One Lyrics

"The Way We Live"

Welcome to hip-hop culture
We stay hot like Tulsa
Knowledge Reigns Supreme, followed by a number one
These rappers they do run run

Lyrically they flashin' two guns with new funds
But politically they do run run
When it's time to build, they chill, gettin nuttin' done
But they mouth yes they do run run

I've heard, just about all that I can hear
We talk and talk but this talkin' is goin' nowhere
I've been to the summits and conferences
And the people man, they'll tell you man
Hip-hop is the way we live

If you're down for this nation, hip-hop the nation
Three generations, fourth in the waitin'
Look at what we facin', mainstream penetration
Everyone's a biter now, no innovation

No syncopation, lost communication
Here's what we gotta do to fix the situation
First step know what you creatin'
Hip-hop the culture, the consciousness, a new civilization

I've heard just about all that I can hear
We talk and talk but this talkin' is goin' nowhere
I've been to the summits and conferences
And the people man, they'll tell you man
Hip-hop is the way we live

Everybody, c'mon unite now
Turn on the light now, stop all the fight now
Time to unite now, a new type of life now
No stress no strife, no gun, no knife now

No board no pipe now, we seein' the light now
Bein' the light now, the future is right now
Hip-hop is like wow, ready to fight now
Sick of the hype now, just about right now

I've heard just about all that I can hear
We talk and talk but this talkin' is goin' nowhere
I've been to the summits and conferences
And the people man, they'll tell you man
Hip-hop is the way we live

I hear uhh, hip-hop is callin' me
The fact you must see sir, rap is not all of me
I use that to reach ya, rappers be borin' me
Redo the industry with a two dollar royalty

What's the agenda, to hip-hop and politics
Don't you remember? The violence we stoppin' this
Kris will defend the, hip-hop populist
The solution is simple, raise up yo' consciousness

I've heard just about all that I can hear
We talk and talk but this talkin' is goin' nowhere
I've been to the summits and conferences
And the people, they'll tell you man
Hip-hop is the way we live

Welcome to hip-hop culture
We stay hot like Tulsa
Knowledge Reigns Supreme, followed by a number one
These rappers they do run run

Lyrically they flashin' two guns with new funds
But politically they do run run
When it's time to build, they chill, gettin nuttin' done
But they mouth yes they do run run

KRS-One Lyrics

"Woke Up"

Y'know
There's a difference between dreamin, and visualizin
Which one are you doin?

Food gone up, gasoline up
Full-time employment passin me up
Bills pilin up, really this sucks
I need a couple bucks, really I'm stuck
Here comes a truck, pullin right up
It says Brinks, now I'm thinkin what's up
But nah, what I'm thinkin about, yo duck
20 30 40 shots at the truck
I'm duckin runnin jumpin lookin for what?
Some cover for this brother, EVERYTHING'S NUTS~!
But yo, I can see some others with gats
Brinks firin, they firin back
Rat, ta-tat-ta-ta-tat-ta-ta, tat
Then I woke up...

Doctor help me out, what's this all about
What's this condition I gotta figure out
Am I really out, that I really doubt
Give me the remedy, what is the amount?
Whatever you tellin me sellin me compellin me
Yo the light in me ain't out
Anyway I enter cats remember
Knowledge I sent ya forever they shout
SOUTH BRONX! SOUTH BRONX!
SOUTH BRONX! SOUTH BRONX!
Then I woke up...

Well I guess I'm out on my own
With this condition it won't be long
Before for sure my little sanity's gone
I'm livin off of nuttin, losin my home
Kids in the street, wife alone
I want to sell this very microphone
But then my friend the light was shown
It came through my inner cellular phone
Get up and get out my spirit will shout
Commitment is what love is really about
No down and no out, just up and about
I think I'm gonna take the spiritual route
Then I woke up...

Then I realized I'm out of my purpose
Out of my purp', not doin my work
I went on a search, inside of myself

For true health, love awareness and wealth
I went to the Temple and opened my mental
I learned that I'm the cause of all that I been through
Your whole environment is really within you
Reach inside your heart and write a new menu
I'ma be the change that I want to see
Now I can see, that I'm really free
Everything is really always somethin else
Tell yourself a different story 'bout self
Do you have the courage to be you
All that talk, that you talk, is it really you?
Oh silly you, oh silly me
Your tongue is killin YOU, not killin me
I'm feelin free, to be, just what I wanna be
Easily, you see, cause I woke up...

When I woke up, my debt went down
My locks broke up, my rent went down
My stocks went up, my car sped up
My pockets swell up, my life I found
I'm not so fed up it's time to get up
A clear mind switched my life around
Now I can see where the help is at
The health love awareness and wealth is at
Cause I woke up...
Cause I woke up! I woke up!
When I woke up, I woke up
That's when I woke up

Play that back

KRS-One Lyrics

"Mr. Percy"

(feat. Triune)

[Chorus: KRS-One & Triune]
Have mercy Mr. Percy
4 million people out of work, right now
Can't find a cent to pay my rent
Half of the youth population out of work, right now
Give me another day
Homelessness risin' upon families
So I can try to find my way
Word up! Homelessness

[KRS-One & Triune:]
And I work
Several resumés on E-Mail
And I work
CD's I'm sellin' my beats
And I work
Part time at the retail
And I work
I'm just about to be in the street
And I work
The car that I'm drivin' around
And I work
Will I ever be on my feet again?

[?]
We tellin' 'em this now

[KRS-One:]
Frankly, I don't see how
You can't see how you really, homeless now
When the emergency hits, who really holds you down?
When the sheriff's at your door, ready to throw you down
With the state of the economy and the way that it is
Many men are at the door with their wife and their kids, saying

[Chorus: KRS-One & Triune]
Have mercy Mr. Percy
4 million people out of work, right now
Can't find a cent to pay my rent
Half of the youth population out of work, right now
Give me another day
Homelessness risin' upon families
So I can try to find my way

And I work
Tried drive taxi cab
And I work

Enrolled in a technical school
And I work
My friends, my family for a loan
And I work
Dollar caps and car pools
And I work
Just another day now
And I work
I'm gettin' paid now

[?]
We tellin' 'em this now

[KRS-One:]
Everywhere across the nation
More people are joining the homeless population
From the south, to the north, to the west, to the east
People can't pay their mortgage or their lease
And last but not least
You better hear what I'm saying
So many men are at the door with their kids saying

Have mercy Mr. Percy
Can't find a cent to pay my rent
[?]
Give me another day
4 million people out of work right now, you gotta do something!
So I can try to find my way
[?]

[KRS-One:]
We're on the brink of revolution
You let it get to hot
So many people tryin' to hang on, and just cannot
They must have forgot
Last night's news spot
Read like a news murder plot
Starring who got shot
And very little upliftin'
Just who got knocked?
Very little givin'
Everybody's heart is locked
And they call this a civilization?
Where I can't even find work, with proper employment qualifications
Hip-Hop is the name of my nation
Where everyday is Saturday and 12 months is vacation
Peace, love, unity, havin' fun
You can tell by now, I'm not the average one

[Triune:]
Get choked for the dope here
Get stabbed for the stash
My X is brash

I rap for grabbin' the cash
They search for the blackless faces
So no need checkin' your *[?]* or applications
[?]
How the fuck I make thirty grand a year
With dudes holding a masters degree
It makes no sense, so I make no sense
Using my mind
[?]
There's a war going on outside, no man is safe from
I'm Tri-Uno, some call me the great one
Until Bush meet people in my community
I'm hustling for *[?]* till I get an opportunity

Have mercy Mr. Percy
Can't find a cent to pay my rent
Give me another day
So I can try to find my way

KRS-One Lyrics

"Fucked Up"

YEAH! YEAH!
C'mon...
Let me tell you cats {get what I'm sayin}

[Chorus:]
Snitchin and squealin and the underhand dealin
That's how you get fucked up!!
Robbin and stealin like you ain't got feelings
That's how you get fucked up!!
Gettin head in the bed with another man's wife
That's how you get fucked up!!
You better always think twice how you're livin your life
That's how you get fucked up!!

People walk around just, in a daze and oblivious
To them demons that live in us
Who can you really trust
Is it them demons that got us schemin or is it really us?
People really fuss, and them guns really bust
Brothers dyin over silly stuff
Them streets can get really tough
They ain't playin man, you better {get what I'm sayin}

[Chorus:]
When you can't forgive and all you spit is negative
That's how you get fucked up!!
When you're dissin your elders and cheatin your relatives
That's how you get fucked up!!
Messin with a man's crib, kids or wife
That's how you get fucked up!!
You better think twice how you're livin your life, cause
That's how you get fucked up!!

Yo, I'm a true school cat, just a cool cool cat
Got security tellin these people to move back
I got two new tracks, somethin new from DAT's
Tunnel Rats with Proper and Triune in the back
I don't move with a pack, I move membership
Hip-Hop we livin it and what I'm doin is rap
But cats wanna talk that crap
'Til they see that I'm not playin, you better {get what I'm sayin}
Everyday more betrayin, more lyin, and from friends
More crime and more revenge - HUSH
Things are really rough; cause there's really no one out there
that I doubt that you can really trust
Them guns bust - how many hustlers gotta die
go to jail for a fiend to get a rush?
From ashes to dust, that man of lust

is decayin, you better {get what I'm sayin}

[Chorus:]
Talkin that crap behind another man's back
That's how you get fucked up!!
Spittin gossip and scandal and don't have facts
That's how you get fucked up!!
Bein caught in the hype, flashin off your ice
That's how you get fucked up!!
You better always think twice how you're livin your life cause
That's how you get fucked up!!

I'ma close it out, cause all my foes they doubt
I'm rollin out, they know what I'm all about
I don't roam about, I appear and shout
I wear 'em out, then we clear 'em out
I steer the route to where the end be at
Where the peace, where the love, where my friends be at
Where the jealous ones envy that
And they start betrayin, that's right you better {get what I'm sayin}

[Chorus:]
If you schemin a lot on what another man's got
That's how you get fucked up!!
Dreamin up a plot for another man's spot
That's how you get fucked up!!
If you live by the knife then you die by the knife
That's how you get fucked up!!
You better always think twice how you're livin your life cause
That's how you get fucked up!!
Flashin what you got cause you think it's cool
That's how you get fucked up!!
You better watch yourself cause when you ACT A FOOL
That's how you get fucked up!!
When you act like you better, treatin men like mice
That's how you get fucked up!!
You better always think twice how you're livin your life cause
That's how you get fucked up!! {get what I'm sayin}
..{get what I'm sayin}

KRS-One Lyrics

"I'm On The Mic"

[Intro:]
When you least expect it
(This is just one style)

[Verse 1:]
We back up in this piece like yeast to bread
Underground you gotta find me like an Easter egg
No need to beg, I hit the club hard on the red
While you check for CDs I'm sellin' books instead
I travel the country by car, by foot and leg
What's worse than being behind is being ahead
Prophetic visions of President Jeb
Five storms hit Florida on his head and nobody said
"What's the meaning of this? It's like God is dead"
In the minds of the people hanging onto a thread
You gotta go where your heart is led
I spit truth but some cats, they just got the hardest head
As you can see, I'm artist-led
I take it to the black, to the green, and to the darkest red
I write, recite and of course go off the head-top
Knowledge Reigns Supreme, man - don't forget that

[Chorus:]
KRS and I'm on the mic
(Class is in session, so you can stop guessin')
KRS and I'm on the mic
This is just one style
KRS and I'm on the mic
Knowledge Reigns Supreme Over Nearly Everybody
KRS and I'm on the mic
Listen

[Verse 2:]
Here's the mission, plain and straight
We gotta nurture and develop what we create
Hip-hop is our activity on the planet
Today it's just an album; tomorrow they examine it
In the future, someone's crammin' fast
'Cause they want at least a B in their hip-hop class
I ain't even askin' you how
If our ancestors built nations, why you ain't buildin' one now?
Technology is not civilization
Civilization is not about the tools that you're making
You have an opportunity, at a new stop
Truly living hip-hop is a chance at a new park
You can play a new part: Develop new DVDs, new books, new art
Open new food marts with hip-hop food charts and food carts
Playing 2Pac while you shop (Do it)

What's the sense of being a recording artist
At a recording company for a year or two
If after the third or fourth year they can't even hire you?
In fact there is really nothing there for you
If your life is not a can of goo
Hip-hop is not a product; hip-hop is me and you
What I spit will see you through
I'm freein' you with knowledge of G-O-D in you

[Chorus]

[Verse 3:]
Foot soldiers, let's go - we got this
The freedom to be really you that's what hip-hop is
What can we really do? Reach for the top, kid
Those that seek the bottom they shot stop and lock, kid
We the inevitable, most credible
And most are leaning back with the terrible squad
Here to beat knock hard, this is the real truth
Everything I spit be backed up with real proof
Welcome to the underground
Don't look for me in the mainstream, this is a whole 'nother sound
Sound set we rock music in the streets
In the schools and over the Internet
Feel it yet? You ain't hear me yet
You ain't really ready to get near me yet
Y'all fear and fret

[Chorus]

KRS-One Lyrics

"Life Interlude"

(feat. DJ Wize)

[cut and scratched: "Life"]

[KRS-One:]
With every breath I breathe I choose life for the children
With every breath I breathe I choose a wife and good livin
With every single breath that I ingest I am given
A smidgen to make life-changin decisions, listen
My mission with precision will position our children
by the millions to start buildin our culture for the billions
and trillions of people comin after us
If they doubt, they won't be as fast as us
Cause in our time we kick a new power rhyme
We keep renewin your mind, cause soon you will find
That every single breath that I breathe keeps us conscious
Enough to perceive and achieve if you believe
But oxygen comes from the trees
Without air for four minutes forget it you catchin some Z's
So which is really conscious, us or nature?
Maybe the trees wish to elevate the paper
And maybe this was just the fall
To forget that nature thinks, we doin nothin at all
And this is the way of the world
The world meanin the conscious nature and the earth that swirls
Like buffalo girls we go 'round the outside
Kris is controversial but Kris never lied
In the forest, the mountains and the hills I reside
You gotta follow the purpose you feel inside

[cut and scratched: "Life"]

[KRS-One:]
With every single breath I choose
With every single breath I move
With every single breath I prove
With every single breath I use
With every single breath I snooze
With every single breath I cruise
With every single breath I choose life
Not strife
Or strain, some like that I came, to rearrange the game
Others blame and remain the same
Same same, but me the plan is plain
We gotta think more humane...

KRS-One Lyrics

"Organ Break"

And away we go
With a crazy flow, oh!
All the ladies know
And they babies know, we pro
Deep in your mind
While I'm repeatin this rhyme, we glow
I'm teachin this time
That off-beat I speak of a rhyme, flow
They just too slow
If you keepin in time, let's go
That b-boy thang
How long you think we gonna hang, I don't know
My style is complex
I got next, indeed we close the show
Still kickin the truth
To the young black youth, we gotta grow
My message is broader
Hip-Hop's the true world order, see it!
Every son, every daughter
If you think you oughta hip-hop, be it
You can sit on the sideline
Or your mind you can free it!
I can rock for a long time
With more rhymes, cause hip-hop WE IT
Who's it, we don't use it
Or do it as music when we spit
That murder, that crime
Never furthered your mind but you, repeat it
Whatever rhyme goes against
your inner purpose you must delete it
As you can see it
I'm the average MC and hip-hop we teach it
All over the world
This goes out to all b-boys and girls
WORLDWIDE! {hooo, hooo, hooo...}

KRS-One Lyrics

"I Am There"

[knocking]

Come in *[door opens]* sit down
Yeah...
I have a magical mind, a magical body
Ancient metaphysician, you better AX somebody
With one handshake, I can tell if your plan's fake
I am to hip-hop, what flour is to pancakes
I write rhymes 'til my hand aches
In the mountains of Colorado, takin in the landscape
When I'm in the city I can't wait to live again
In the underground hot springs of the Hopi Indians

So you look around your heart and your mind
You will find, I am there
If you're cold and you're broke and there's fog in your scope
Have hope, I am there
Get in tune with me, move with me, boom with me, room with me
Zoom with me, I am there
I can see where you're at, feelin trapped, can't move can't act
I was there

And it's quite clear
My hardware was set ahead of most folks by ten years
The hand of God set it, so on Earth I speak prophetic
Publishin papers with no edit
I speak but most don't get it, but the few that do get it
In their minds my words stay embedded
And they blessed if they don't forget it
They'll never need a psychiatrist, a psychic or a medic
Where we headed? To the ultimate state of freedom
That's where I'll lead 'em, if you let it I'll free 'em
Let's set it, for human beings in recreation
Havin fun recreatin themselves into a nation
Hip-Hop! It's home could never be a station
Sharin a space with R&B, stop fakin
Do you know how much money they makin offa you and I
Just because hip-hop won't unify?

So look inside your heart or your mind you will find
Everytime, I am there
If you're cold and you're broke and there's fog in your scope
Have hope! I am there
Get in tune with me, move with me, boom with me, room with me
Zoom with me, I am there
I can see where you're at, feelin trapped, can't move can't act
I was there

KRS-One Lyrics

"Still Slippin'"

They slippin Duke

You slippin Duke, you trippin Duke
Rememeber you still livin in a corporate chicken coop
With a hundred other chickens yellin get that loot
Makin a hundred other chickens tryin to spit what's cute
But KRS spits the fruit
My words are not hollow, I'll lead you out the chicken suit
You slippin Duke, I got proof, spit truth in the club
So the colleges man, we get so loose
What's the use, you slippin Duke, how America great
when Iraq, had no nukes, now OOPS
Whatever happened to samples and loops?
The same thing that happened to organs and flutes, and real artists
Thank God for The Roots, the soldier that's home with his family
Support for the troops yeah, now let's start this
I've taught many groups, been through many suits
Teachin new recruits that can't take it back to hula hoops
I know we're on mute, stand up straight
I'm like Skywalker without the loot, you slippin Duke

[scratch:] "At 8 you're a sucker, at 7 a motherfucker"

YEAHH!
Talk your talk, degrade my character
Your remarks are amateur, the future laughs at ya
I got much stamina, and I know my facts
I am hip-hop, I don't speak for blacks
I speak for hip-hop's preservation, and only that
Peace love unity, I'm known for that
What's your hassle with me man, no man is ownin me
You just mad cause I lead hip-hop globally
Your hassle is that, I'm an international cat
You know in any debate, I'm smashin your crap
When it comes to hip-hop, you behind
Cause I've been organizin this politically since 1989
I stay selective, the objective peace of mind
I am hip-hop and so are you don't be so blind
Use the key next time, you know my roots
But listen dog you slippin Duke!

[scratch:] "You wanna hear a fresh rhyme, you'll come to the source"
[scratch:] "Stamp BDP on your head then you're off"
[scratch:] "At 8 you're a sucker, at 7 a motherfucker"
[scratch:] "Do not attempt to diss cause you're soft"

KRS-One Lyrics

"My Life"

[scratched:] "Whattya think makes up a K-R-S?"

[KRS-One:]
Skinny cat, young cat, with a knapsack strapped to my back
1981 before the crack attack
I used to let the Olde English 800 suds bubble
In the last car of the Franklin Avenue shuttle
Brooklyn, no doubt, Wingate Park, no doubt
Prospect Park I'm all laid out
Homeless, my gear played out and I know this
But I'm an MC I stay focused
I took the shuttle to the D and wrote my rhymes in a hour
Took the D to the E, last stop the Twin Towers
Sittin in the belly of the beast
In the World Trade organization, bein harassed by the police
I wrote my rhymes right there on the spot
New York City, 1984 corruption was hot
Cats sellin uzis out the Jacob Javits Center for a high price
Let me tell you 'bout my life

[Chorus:]
[scratched:] "The type of shit a young black man
gotta go through every day of his life"
[scratched:] "Hard times to live in
Wake up in the morning thank God"
[scratched:] "The type of shit a young black man
gotta go through every day of his life"
[scratched:] "Hard times to live in
Wake up in the morning" ... "Now it's my turn"
{"Listen"}

[KRS-One:]
Eighty-five comes in, eighty-six comes in
The marijuana with the cocaine mix comes in
High class hustlers, I'm takin flicks with them
My first songs Red Alert, he's mixin them
This a far cry from a kid sleepin on the bench
Now I'm V.I.P. in the club, this don't make sense
But it does, as I take daps and hugs
from cats that move drugs, they say "Kris rise above"
Everybody knew my style, Kris was no coward
I wanted to get in the game but my peeps wouldn't allow it
They'd say, "Read them books and write them hooks
Save our children, give 'em a whole new outlook"
So I did, I lived like any street kid
But I was handed 20 books, others were handed 20 year bids
Still they wouldn't sell to your mother or your wife
There was respect man~! Let me tell you 'bout my life

[Chorus]

[KRS-One:]
1987 my career blowin up now
Me and Scott LaRock took the year growin up now
Me I'm just a private cat, whatever you perceive as live
KRS is as live as that
We the livest act, in eighty-eight, eighty-nine, and ninety-now
But them years be far behind me now
In ninety-one, no one can find me now
I chose the underground to rhyme where it's grimy, WOW
Rewind me now, 13 albums for you to see
Or catch me speakin at them universities
My mind stays keen, I'm hardly ever seen
I do a lot of work, just not in the mainstream

[scratched:] "Know what you need to learn
Old school artists don't always burn"

[scratched:] "Know what you need to learn...
KRS-One... don't always burn"

KRS-One Lyrics

"Our Soldiers"

(feat. Cx)

Yo KRS it's time to make a statement up in here
Let everybody know what's really goin on in America
Behind closed doors of this Bush Administration
There's a war goin on
Which side you on?
Which side you represent, huh?
Yeah!

Yeah! To all the families
That got somebody overseas
In that bullshit war
That's what we tellin

Yeah what'chu know about real war when it's happening?
Who you care for, who your heart, think about your friend
Fightin with Iraq and them, rebel forces trackin him
Bombs in the front, underneath, and in back of them
While we chillin in that Escalade, they dodgin rocket propelled grenades
So what you ace of spades
What about the promises that were made?
No one in America feels any safer, in fact we feel betrayed
Over 200 families played
With an American flag and a letter that says your child got sprayed
In the sands of Iraq, forget the economy
Mr. President, when my kid comin back?
When my spouse comin back? Four million people out of work
Sayin right now when my house comin back?
Now we can see that to be all you can be
Man invadin Iraq and dodgin RPG's!

Rest in peace to them soldiers on a two-year tour
Frontline of the political war
Troops flyin out to Iraq, sent home in a black bag
Global terrorism droppin bombs over Baghdad

Rest in peace to them soldiers on a two-year tour
Frontline of the political war
Troops flyin out to Iraq, sent home in a black bag
Global terrorism droppin bombs over Baghdad

What's the cause, what's the point, what's the agenda?
WMD's, Iraqi freedom, I don't remember
Politics is one thing, lives are another
People seperated from they wives and they mothers
Fathers and brothers, leavin their families and others
Safe under the cover they're position first gunner
Hard times, demand even harder rhymes

You can't be stallin pimpin and ballin all the time!
I speak about MORE than crime
I rhyme to the spirit, to them people with "Spiritual Minds"
But I hope you get the lyric in time
You just went to get a degree, now you behind enemy lines
But yo, everything is gonna be fine
You'll be home in no time and you'll remember this rhyme
Most of them soldiers in Iraq my friends
I ain't checkin for the war, but I'm checkin for them

Rest in peace to them soldiers on a two-year tour
Frontline of the political war
Troops flyin out to Iraq, sent home in a black bag
Global terrorism droppin bombs over Baghdad

Rest in peace to them soldiers on a two-year tour
Frontline of the political war
Troops flyin out to Iraq, sent home in a black bag
Global terrorism droppin bombs over Baghdad

You ain't gotta feel, when you pop that steel
Return fire comin in and things gettin real
From Desert Shield, to Operation Iron Grip
Americans will not forget that {ish}
While I spit another hit, over them news clips, every day
Yo Bush, how you become President anyway?!
Buyin off judges, exposin Clinton's lovers
Riggin elections, underminin all these others
It's time to uncover, the real plot
We need to build our own nation, and call it hip-hop
Yeah! Release the fear
The real hip-hop is over HERE!

KRS-One Lyrics

"Money"

(feat. MC Lyte)

[MM Lyte:]
Money - M-o-n-e-y
(Money!)
Money - M-o-n-e-y
(Money!)

[KRS-One:]
M-o-n-e-y, what you need to just get by
Money, honey, ain't it funny?
Money, people wanna die
It seems without money, people cry, people will lie
You cannot deny, without money you can't apply
For anything that catches your eye, I wonder why
The root of all evil, let me teach you, now who am I?
The MC, teachin' my people "Don't live that lie"
You got to get money, but don't let money get you, guy

I can break it down like whatever you want
Whatever you spend your money on strong, yo that's what you flaunt
Spend your money on these honeys, yo if that's what you want
Spend your money on attorneys if you're goin' to court
If I look around your neck I can see what you bought
What, you think you get respect? No, you takin' a short
Yo, you need the money, of course, you need it to live
(Yo, what you put your money on, Kris?) Yo, right on my kids

[MC Lyte:]
M-o-n-e-y, don't ask why. It IS the root of all evil
Though very necessary to your livelihood
It's all good when you got enough
Til enough ain't enough and you hit upon rough times
You make your money and I'll make mine
(Yo, we need the...) (Money!)

[KRS-One:]
Don't get me wrong, mistakin' this song
Like money is not important - yes, it is, just be strong
It's the reason for the thievin' and that war goin'on
It's the reason that you seein' all these girls in their thong
It's the reason that the radio's on
It's the reason that you believe if you gotta work from sun-up 'til dawn
It's the cravings that connect you to that money you makin'
Your desire is the fire got you feelin' you slavin'

(Free yourself!) Money doesn't make you the man
(Be yourself!) A man gets his money in credit*[?]*

Ok, I'm a get this money, really, all day
But not to the point where I'm goin' the wrong way
I'm a put my money down on rides and all that
Hook up the house so me and my spouse can fall back
Investing my knowledge way beyond college
Write books and fly hooks in my cottage

Cheese - Kris bling-blingin'? Yo, please!
Money is an energy that gets what I need
I can understand them cats that rap flossin' and frontin'
It's all good, they from the hood, never had nothin'
They just got they money and everything's sunny
Hear what I'm saying, they preyin', boy, and lookin for bunnies

[MC Lyte:]
Did we floss what we bought
Forgetting that sharing is what we've been taught?
'Cause this here gettin' money is an individual sport
Money can get me in to the same place where years ago
My bros and sisters with black skin
Were confined to the back door and the kitchen

[KRS-One:]
Last verse, where your cash purse
Reach into your wallet, nothin' alloted, that hurts
Breath stinkin' you're thinkin', but can't afford Certs
Need the dollar and baby hollerin' - no work
I don't know how you gonna get the dough
You could become educated, you could become a ho
You could do both, that's like puttin' butter on toast
The bread is the knowledge, butter is what gets you that close

[MC Lyte:]
Money is funny - how a piece of paper can make or break your very existence
Quick as it come, quick as it go - you better know about the ebb and the flow
You get money in droves, trick it on cars and blow
Throw dollars at black queens 'cause, for the dough they'll strip their clothes
And for the right amount of money
A king will pimp his queen into being a ho on a stroll
Life will always be hard when you choose to make money your god

KRS-One Lyrics

"We Dem Teachas"

(feat. Keith Stewart)

[KRS-One:]
Civil rights, abolitionist movement
Civil rights movement... anti-war

[Keith Stewart:]
Comin straight off the block, we dem teachas
Always makin that dough, on the hustle
This is the scholar anthem, throw yo' hands up
If you a soldier, throw yo' hands up

Comin straight off the block, we dem teachas
Always makin that dough, on the hustle
This is the scholar anthem, throw yo' hands up
If you a soldier, throw yo' hands up

[KRS-One:]
I'll never stop talkin 'bout Malcolm X
And I'll never stop talkin 'bout havin safe sex
I'll never stop shoutin out Marcus Garvey or
Kwame Toure or Robert Marley
I'll never ease up on red, black and green
Or teachin what Martin Luther King's dream mean
Self-esteem, self-creation
Make yourself man, you in a wealthy nation!
Forget inflation, you are your own mason
Build yourself, set your foundation
Knowledge Reigns Supreme
That's why when you hear KRS, you know what it means
Stand up~!

[Keith Stewart:]
Comin straight off the block, we dem teachas
Always makin that dough, on the hustle
This is the scholar anthem, throw yo' hands up
If you a soldier, throw yo' hands up

Comin straight off the block, we dem teachas
Always makin that dough, on the hustle
This is the scholar anthem, throw yo' hands up
If you a soldier, throw yo' hands up

[KRS-One:]
Check it; I'll never stop showin the love man
I'll never stop hangin up pictures of Harriet Tubman
I'll always be a learner, like Nat Turner
Spittin out words to take your mind further
Any time you see my face

You seein peace love unity all in this place
When enrollment's down, crime is up
And if you can't hold your ground your time is up
But if you don't know your ground you holdin WHAT?!
Assumptions, when the storm hits you (hits you...)
Straight out of luck, feelin like you crashed your truck
That's when the teacher shows up
Stand up!

[Keith Stewart:]
Comin straight off the block, we dem teachas
Always makin that dough, on the hustle
This is the scholar anthem, throw yo' hands up
If you a soldier, throw yo' hands up

Comin straight off the block, we dem teachas
Always makin that dough, on the hustle
This is the scholar anthem, throw yo' hands up
If you a soldier, throw yo' hands up

[KRS-One:]
C'mon! Where my scholars at? Y'all can holla back
Knowledge and overstanding, we on top of that
We show you right where the commas and them dollars at
We hangin out where them educated mommas at
Follow that, where my educated poppas at?
We in the street too, movin when it's time to act
We dem teachas, tell me where your mind is at
Fear, doubt, no we do not follow that!
There, courage man, we need to bottle that
Cause all these kids nowadays hear a lot of crap
And they feelin like they gotta follow that
That's why the teacher is bringin the scholar back

[Keith Stewart:]
Comin straight off the block, we dem teachas
Always makin that dough, on the hustle
This is the scholar anthem, throw yo' hands up
If you a soldier, throw yo' hands up

Comin straight off the block, we dem teachas
Always makin that dough, on the hustle
This is the scholar anthem, throw yo' hands up
If you a soldier, throw yo' hands up

KRS-One Lyrics

"Better & Better"

(feat. Pee-Doe)

[KRS-One - Hook]
However, I'm really fascinating to the letter
My english grammar gets better and better
However, I'm really fascinating to the letter
My english grammar gets better and better
However, I'm really fascinating to the letter
My english grammar gets better and better
However, I'm really fascinating to the letter
My english grammar gets better

[KRS-One]
History in the making, get with me I'm not faking
Big up all my Jamaicans, Haitians and all my nations
Latinos and my Asians, yeah I know you've been waitin
Feeling you've been forsaken, but I'm building this nation
Building new innovation, look at what we've been facin
Payola on these stations, plus they run like plantations
Complete with black beats sportin soul by caucausians
If you hear me on your station best believe I'm not payin~!
KRS is the realest, KRS-One is fearless
I grew up in them days when crack was new to drug dealers
See them cats they be liars, we the New York survivors
Eighty-one to ninety-one, they was our record buyers
Now they front cause they got work tryin to redo all my work
'til we live and in concert, and I'm makin they eye hurt
Shinin so bright and so lively
Everybody know, hip-hop was better in the nineties

[KRS-One - Hook]
However, I'm really fascinating to the letter
My english grammar gets better and better
However, I'm really fascinating to the letter
My english grammar gets better and better
However, I'm really fascinating to the letter
My english grammar gets better and better
However, I'm really fascinating to the letter
My english grammar gets better

[Pee-Doe]
It was better in the nineties, the solo was grimey
The Wu-Tang Clan came in with the killer army
Grand Puba came in with Girbauds hangin low
Hilfiger Tommy niggas rockin Polo
40 ounce guzzlin, nickel bag coppin
Troopin through the block with the boom box knockin
All we do is "Spark Mad Ism" non-stop and
When Hot 97 played the real hip-hop and

I remember 98, point 7 KISS FM
With Kool DJ Red Alert, mixin up the blends
Them mixtape deejays had the streets on lock
Like Demo and Ron G, my nigga Doo Wop
Before the radio station corrupted the nation
To rule the street, A&R's discoverin the sensations
KRS came with the peace declaration
Took it with the leaders to the United Nations

[KRS-One - Hook]
However, I'm really fascinating to the letter
My english grammar gets better and better
However, I'm really fascinating to the letter
My english grammar gets better and better
However, I'm really fascinating to the letter
My english grammar gets better and better
However, I'm really fascinating to the letter
My english grammar gets better

KRS-One Lyrics

"The Teacha Returns"

Bam Beatz on this one, let's rock out!
Taking you low...

This The Teacha, I do this for life
Plus I'm psychic, but I ain't gon tell you who's doing your wife
You ain't raw like the coke in your rhyme recital
You been cut so much, you starting to look suicidal
You trifle, trifling, you need to stop and listen
You need to hear 2Pac when he was locked in prison
Man, for real, I'm expanding
This ain't whiling out, you'll get nicked with two cannons
Your team's not loyal, you're not harming me son
If I said "Who wanna go on tour?" you'd be an army of one
What's that shit around your mouth man, cum?!
Face the fact, you lost, we got it, we won
You better off trying on some lottery run
Then to go against The Teacha, I put the Glock to you dunn
I be rockin' them drums, all you doing is shoutin'
What's your address, 69 Brokeback Mountain?!
It seems my skill you doubtin'
I spit lyrics, I flow like a fountain
Listen, you'll get crushed like a kush going into my blunt
I take it way back, all you do is front!

Yeah... haha, ha...
Yeah, yeah... KRS!

Spit-tacular, you spit at me, I spit it back at ya
I'm an emcee, not an actor
My lyrics won't trap ya, they'll free ya
But rappers still wanna test The Teacha, let 'em have it!
What you in my face for, in my space for?
This is what you rappers get smacked in your face for
Y'all talk about cutting the bass raw
But you draw the cops, this what you get chased for
I'm forever above your world in whatever you do
Rappers, I will level your crew
When I'm through, they won't even be able to TELL if it's you
I'm an emcee, this tradition goes back to Pebbly Poo
Man, I speak the truth, I'mma show you what God is
I heard your CD; from the start, it was GARBAGE!
Click, click, click, I load the cartridge
Look in the palm of my hand man - THAT'S where your heart is!

KRS-One Lyrics

"The Real HipHop"

(feat. Nas)

Aiyyo man, this is the end
And let me tell you somethin man
My man KRS, when I heard Spit-tacular was comin out
The greatest emcee of all time
I said I couldn't wait, I couldn't believe it
I couldn't wait to witness it
The greatest emcee of all time, KRS
And I'm from Queensbridge, you heard?

Let's go~!
I pray for my people that the light do reach you
Ignorance is lethal, this is why I teach you
Every boy and girl the wolf wanna eat you
But the wolf is part of the same world that deceives you
Once you realize that there is no separation
You'll control the wolf from the center of your creation!
This that new rap language, or slanguage
Somethin to bang with man, we call it Edutainment man!
In 1994 DeSean Burke said it
Do you remember there we laid out the plan?
To overstand hip-hop you gotta overstand hip-hoppers
Afrika Bambaataa, they made this man!
And yeah there were others, undocumented sisters and brothers
That fell to crimes and drugs, it was crazy man!
But the secret to Edutainment
Is to take hip-hop beyond entertainment, leave baby land!

It seems we all forgot about that real hip-hop
KRS-One, bringin you that real hip-hop
That real music you've been waitin for to reach your spot
That main ingredient believable to keep this hot

It seems we all forgot about that real hip-hop
KRS-One, bringin you that real hip-hop
That real music you've been waitin for to reach your spot
That main ingredient believable to keep this hot

I manifest it from this hip-hop, adolescent
Now add the essence of S, now you got a weapon
Now pay attention if you listenin and you listen close
We're in position to lyrically hit you where it hurts the most
My proposition of philosophy spittin was written
The contradiction of the system's that I can not spit this
I can not budge to be a gimmick, I shoved you with lyrics
Then did it consecutive grippin, 'til I figured you'd gain
They like S come, huh? Meet KRS-One
Father of hip-hop, you're sorta like his step-son

The way, I get some, I done been it and had some
Rhymes, out of my mind so haters be vexin
I bless them, with a message like a scripture, paintin a picture
The fame insane, screamin my name
Picture the game changed, from that music that we all adventured
But all is not lost, hip-hop, I won't forget ya

It seems we all forgot about that real hip-hop
KRS-One, bringin you that real hip-hop
That real music you've been waitin for to reach your spot
That main ingredient believable to keep this hot

It seems we all forgot about that real hip-hop
KRS-One, bringin you that real hip-hop
That real music you've been waitin for to reach your spot
That main ingredient believable to keep this hot

KRS is after you crash the truck
And your jewels get plucked
And your so-called friends begin lyin again
What? When your life is thin
That's when I come in, KRS
Yeah! Big shout out to my man
M-I-C, Track Dons you did it again
Temple of Hiphop, stand up
Let's go to work

It seems we all forgot about that real hip-hop
KRS-One, bringin you that real hip-hop
That real music you've been waitin for to reach your spot
That main ingredient believable to keep this hot
It seems we all forgot about that real hip-hop

KRS-One Lyrics

"Watch This!"

(feat. S-Five)

YEAH, YEAH! FEEL THAT~!
I'd like to thank everyone for comin out to the tour
Enjoyin us all throughout Europe
This is exclusive, we don't stop
This is real hip-hop, watch this now!

Straight from the under, the One is my number - watch this
All these newcomers are basically runners - watch this
Bitches and niggas and hoes for them others - watch this
I rhyme for mothers fathers sisters and brothers, my name Kris
The difference is realness, versus the fakeness, let's rock
I am an elder that helped to create this, hip-hop
Now that you know this regain your focus, be reminded
Straight from the Criminal to Spiritual Minded realignment
Movin in faster as you hearin the master, keep up
Don't worry 'bout battles, I'm 18 years past ya, speak up
The K to the R to the S to the One, ease up
I'm glowin like lava, hot as the sun, I don't freeze up
I take you backward rap and after that I'm takin the future
I hang with acrobats and breakin cats and whatever suits ya
Graffiti writers, beatboxin, just like we used ya
Deejays cuttin it up with a boomin speaker
Them days had fewer heaters, today we've got fewer teachers
Like America, hip-hop needs some newer leaders
KRS is the candidate
I understand I state, and overstand we great, rock!

Yeah, it's BDP, 2006, Temple of HipHop
Yeah! We the culture, I swear
Listen, turn me up Alex

Constantly fightin Satan, watchin the moves I'm makin
Tryin to stay positive, look at the world we live
It's hard to get a job, that's why my brothers rob
In every hood same story but with different 40's
You either Blood or Crip, you sellin dubs or nicks
You gotta stand wit'cha man or you plug a chick
Now look what you get, quit tryin to play the part
You got caught up in the game now you in the dark
I'm seein people dyin, so many mothers cryin
That brother say he got your back, but that brother lyin
You need to grab a mirror, and look into it quicker
It ain't all about you man this thing is bigger
Cause everything that you do come back double fold
You ain't on the right track, take another road
Brother you gettin old, you've got to make a change
Cause this thing we call life brother it's not a game

Nah~!

KRS-One Lyrics

"What's Your Plan?"

Yeah
We live this
It gets kinda hard sometimes
Tryin to help those who dissin you at the same time
But this the life of the T'cha
And he's still gon' reach ya
This for the hood, rise up y'all

Why y'all keep shittin on me?
On the internet, cats think they spittin on me
But if you read they shit, they be real corny
For my downfall, they get real horny
All I'm tryin to do is educate the young ones
I got some guns, but we ain't no dum-dums, yo come son
Let me show you the way out
Knowledge Reigns Supreme, we never play out, or fade out
This a lifetime thing, you in darkness, heartless
Complainin about the light I bring?
Well stay there then, I guess you ain't my friend
But remember, hip-hop, it ain't gon' end
And there in the future, we gon' see
Who really was the slave, and who was free
Who sold out the culture, to be on TV
Nah, it won't be me

Rappers wanna stop me pop me drop me lock me lock me top me
But they really up to no good - what's your plan?!
Critics wanna hit me get me clip me rip me strip me trip me
But they really up to no good - what's your plan?!
Players wanna slap me cap me crap me attack me, out rap me
But they really up to no good - what's your plan?!
Others wanna rush me dust me bust me lust me cuss me hush me
But they really up to no good - c'mon, man!

Now some of y'all buggin, cause I am hip-hop
But you are too, you just kyan't get dat
As a man thinketh, so is he
I am hip-hop, and so are we
And so is she, and so is he
I'm the only one teachin, and you wanna diss me
Why? Am I really that important?
Are you so desperate, any life you'll shorten?
Well nah kid - I'ma live on and on
You gonna respect me now, and not when I'm gone
I see how y'all did, JMJ
He paved your way but all you wanna get is your pay
I always be the knowledge giver
Preach you, uneasy, yo take your 30 pieces of silver

And hang yourself, by the end of this verse
But remember, the last shall be first

Rappers wanna stop me pop me drop me lock me lock me top me
But they really up to no good - what's your plan?!
Critics wanna hit me get me clip me rip me strip me trip me
But they really up to no good - what's your plan?!
Players wanna slap me cap me crap me attack me, out rap me
But they really up to no good - what's your plan?!
Others wanna rush me dust me bust me lust me cuss me hush me
But they really up to no good - c'mon, man

Kris loves hip-hop, everybody knows that!
We came out of poverty and we ain't goin back
A 60 cent royalty, don't settle for that
Yo do what you gotta but don't remain in the trap
We all cryin out for leadership
But if the leader steps up and you diss him, what we gon' get?
YOU~?! You ain't even got a better plan
You can't even take hip-hop to a better land
You yourself ain't even a better man
Look who follows you - KRS even got better fans
Sure you get grands, and that's all good
But your video shows that you sold your manhood
So are you really eligible to challenge me?
Especially you writers that never made a CD?
Especially you deejays that get shit for free
You can't play Kane or P.E. - what's your plan?!

KRS-One Lyrics

"All Right"

(feat. Just Blaze)

[KRS-One:]
Gather round, I want to tell y'all a story
See if you can get the meaning
We gonna go real far (all right)
Watch this (God, you alright)

I'm steppin' in this place like it's all right
I got my partners with me, yep we feelin' all right
I got my woman with me, yup she lookin' all right
When it's time to move I'm never left, I'm all right

Well, I met my man "What up Duke?" - "I'm all right"
He said "Listen to this", I said "All right"
He said "This strictly confidential", I said "All right"
He said "Yo, you like this spot?" I said "It's all right"
"You wanna change it?", I said "All right"
"I got a way that we can purchase it in 30 days" - "All right"
"How we gon do that?" He said "All right"
He put a stack of hundreds on the table right there, I said "All right"

30 days later we all right
Limousines, elevators, yo things are lookin' all right
All night everybody feelin' all right
I told my man "I gotta go", he said "All right"
"Let me take your Jeep", he said "All right"
But just as I started the car it got all bright
I started liftin' up, felt my spirit driftin' up
What's goin' on? The Jeep is gone and everything's all white
I heard people sayin' "Is he all right?"
Floatin' above my body I felt all right
How can I tell 'em, really tell 'em, that I'm all right?
Standin' outside my cerebellum I'm all right
The fourth dimension is all right
The fifth dimension is sure right
The sixth dimension is all light
Livin' as a spirit is all right
But then I didn't feel all right

I felt the shock in my chest, it wasn't all right
They revivin' me - all right
I heard a paramedic say to someone "Yep, he gonna be all right"
I'm back alive, people askin' "Are you all right?"
"The Jeep exploded. It's a miracle you all right"
Layin' there on my back, strapped up all night
I smirked and said to myself "God, you all right"
"Ha, you all right"
"Yes, God, you all right"

KRS-One Lyrics

"Don't Get So High (Dancehall Mix)"

Haha, wha' ya call that?
Boogie Down, Boogie Down, Boogie Down, Boogie Down Productions

You ha fe understand your situation
You create your life through your imagination
Anything you think is a manifestation
Of who you are - you're creation!
Can't you understand?
Everytime you think in bad mind
You attract that to you same time!
Listen *[?]*
Refine, expand your mind
Consciousness go through all space and time!

Look at *[?]*
We teach the philosophy
Deal with no hypocrisy
The sun is there on top of me
Beaming down that vitamin E
Feelin sick we're not gonna be
Kris in jail you're not gonna see
Take my shots on the *[?]*

We get you jumpin around

[?]

I'm flippin' the sound, flippin' the flow
Some say I'm stuck back in '84, I don't know
I don't see no nickel bags, yo
I don't see no Word Up mag, yo
All I see is straight up fags, yo
These rappers they brag, though
Til we in the club, not in they castle
Somewhere in El Paso, Texas
That's when Kris gets reckless
Goes down the checklist
You rappers best respect this
It's better you listen to this metaphysician
While people bling and glisten I seek that higher vision

Don't get so high, til you can't see past your eye
Enjoy yourself but don't die
Listen now, listen now, why why?
Why you want to be like a fly guy?
Don't get so high, til you can't see past your eye
Enjoy yourself but don't die

Tell me now, why you ha fe be such a fly guy?

Temple of HipHop and me
We step in any party - top celebrity
See when we come in a dance we never look for grammy
'Cause that's 'cause we got r-e-s-p-e-c-t
I want just one wife - S-I-m-o-n-e
She said she always want fe marry an Emcee
Travel 'round the world and live a life so free
Then she met me - H-I-p-H-o-p
Started countin' up twenty, thirty, forty G
Started gettin' fresh garments now for free
Dealin' with promoters and countin' the money
Takin' trips to Europe on the Queen Mary

What do you see?
You ha fe direct your chi
You must live your life properly
What do you see?
You have to be what you see
You have got to live your life free
What do you see?
You ha fe direct your chi
You must live your life properly
What do you see?
You have to BE what you see
So you can see yourself living free

KRS-One Lyrics

"I Got You"

Off beat, what you know about it?
All heat, all street, my dough I be about it
I eat all week, I don't need to shout it
I'm legendary, in many books you can read about it

Well I'm back to let you cats know that
I'm not asleep, I heard your mixtape raps
What, you think I'm weak like one of these old school cats?
You better hear me speak before you get holes in your back

Ain't nothing here sweet except your whole damn pack
Why I gotta return? Cause y'all's so damn wack wack
You never will learn. That's why the teacha's back
Now you gon' feel that real golden age rap

Unfolding the gat
This ain't no place for no amateur block rap
Rappin' about your hammer is cocked back
That means you fuckin' with a six-shooter
And we got big guns that can stop that

All you hear is klug-clack-klug, klug-clack-klug
And you and your man y'all fall backward
Y'all ain't nothin' but actors, bitin' like Dracula
Kris spit spitacular

[Chorus: x2]
To my block - I got you
From the bottom to the top - I got you
When you need that raw HipHop - I got you
I mean that '94 HipHop - I got you
If you ain't got nowhere to go - I got you
VIP passes to my show - I got you
Come to my crib, let's take it slow - I got you
Never forget, you gotta know that - I got you

You listenin' to the depth of the heat
I'm omni-hood, that means I rep' every street
When I come around cats get up and eat
On the mic I won't let up 'til the end of the beat

I stay tight when I recite and sendin' you heat
Let's compare, what's your agenda this week?
Me? I be chillin' out in sacred buildings with my children
Free as a fly on the ceiling

[Chorus x2]

We ain't never gonna grow without (love, baby)
HipHop started with (love, baby)

Not shooting your man with a slug like Janie *[?]*

We hangin' out up north with Slim Shady
We hangin' out down south with Lil' Wayne
East coast raised me, west coast pays me
This is HipHop, them critics don't phase me

KRS, I know it sounds crazy, but I do this for the (love, baby)

KRS-One Lyrics

"Wachanoabout"

We gonna take it to the back of your brain (tell 'em!)
We put it on the side of a train (tell 'em!)
We gonna make it so simple and plain
Revolutionary people, yo this ain't a game! (tell 'em!)

How many y'all really ready for change? (tell 'em!)
Or do you really want to keep it the same? (tell 'em!)
Edutainment - this the reason I came
If you down for the struggle, yo remember these names

Kwame Toure (Whachanoabout)
Martin Luther King (Whachanoabout)
Malcolm X (Whachanoabout)
Medgar Evers (Whachanoabout)

If you really want to change the game
Take a little time and study these names

Frederick Douglass (Whachanoabout)
Booker T. Washington (Whachanoabout)

If you want injustice to end
Take a little time and study these men

Marcus Garvey (Whachanoabout)
Nat Turner (Whachanoabout)

Let me tell you about the struggle my friend (tell 'em!)
We want freedom, I'm a say it again (tell 'em!)
We want freedom, not more money to spend (tell 'em!)
You got to listen to this message I send, come on!

Let me talk to you a little bit more
Our ancestors, tell me, what you dissin' 'em for?
Break the cylce of first I like, then I don't like
You raise and praise me up to tear me down like Michael?
KRS loves his people
I walk with my people, not above my people
Teach my people, I try to reach my people
With real truth, evidence and real proof

Thurgood Marshall (Whachanoabout)
W.E.B. DuBois (Whachanoabout)
Carter G. Woodson (Whachanoabout)
Nelson Mandela (Whachanoabout)

If you really want to change the game
Take a little time and study these names

Elijah Muhammad (Whachanoabout)
Noble Drew Ali (Whachanoabout)

If you want injustice to end
Take a little time, man, study these men

Kwame Nkrumah (Whachanoabout)
Sékou Touré (Whachanoabout)

We gonna take it to the back of your brain (tell 'em!)
We put it on the side of a train (tell 'em!)
We gonna make it so simple and plain
Revolutionary people, yo this ain't a game! (tell 'em!)

How many y'all really ready for change? (tell 'em!)
Or do you really want to keep it the same? (tell 'em!)
Edutainment - this the reason I came
If you down for the struggle, just remember these names
Remember these names, remember these names, remember these names! Rock!

"Africans in America burned down over 290 cities in the '60's to get 289 powerless mayors in the '80's"

What you really want to debate me for?
What you hate me for? What you take me for?
Always sayin' "Amen" and "As-Salamu 'Alaykum" for
If I can't speak my mind, even if it may be raw
New ideas is what they pay me for, but here's an old one
The Feds*[?]* are gonna save us, sure
Since '89 I be coming again, with peace, love, and unity
Remember these men

Kwame Toure (Whachanoabout)
Martin Luther King (Whachanoabout)
Malcolm X (Whachanoabout)
Medgar Evers (Whachanoabout)
Frederick Douglass (Whachanoabout)
Booker T. Washington (Whachanoabout)
Marcus Garvey (Whachanoabout)
Nat Turner (Whachanoabout)

If you really want to change the game
Take a little time and study these names

If you want injustice to end
Take a little time and study these men

KRS-One Lyrics

"Beware"

[KRS-One:]
Yeah, HUT HUT HUT HUT!
I know we ain't gettin soft, HUT HUT HUT HUT!
I know we ain't gettin soft, listen
FIYAH!

[Chorus: KRS-One]
When you advertise in New York
You best to beware, oh yes
When you advertise in New York, you best to beware
Cause the bling bling, and de sex t'ing
Dem no care, oh no, you best to beware
Oh no, yo you best to beware, oh no noooo

[KRS-One:]
This is how they do it kid, I thought you knew it kid
This is how they set us up listen I can prove it kid
Many don't understand, you see it's all a plan
To keep the black man a child like he's Peter Pan
You'll never see a man, a real black man
Until you see a man with control of his hands
And to control your hands means you control your mind
And to control your mind means you ain't commitin crimes
Man you smarter than that, goin to prison is whack
Even the people in prison know I'm spittin the facts
I'm gettin open, open the class up
Don't smoke crack it'll tear yo' ass up

[Chorus]

[KRS-One:]
Listen! We got our own problems here in the States
So you know I'm not pointin the finger BUT WAIT
This is somethin y'all got to see
Even the UN knows violence begins with poverty
When you ain't got no money, it's quicker to kill
It's human nature that's way the jails are filled
And the MILITARY? From the time you sign up
To kill your neighbor man it's a SIN already
And SIN meaning Selfish Inconsiderate Needs
Gimme what I want! I don't care who bleeds
These days people ready to steal and rob
All in the name of I'm DOING MY JOB~!
But what about doing your work, what's your purpose?
No human being is worthless
Think about this before you pull the trigger
And you call your sister a bitch and your brother a - WHOA

[Chorus]

[KRS-One:]
Knowledge Reigns Supreme again, ignorance is weakenin
Truth is what I'm speakin when I'm reachin and teachin my friends
Life is more than just cars and lust
Unity is a must, we need to build trust
Open up your mind to this, raisin up your consciousness
Whether you a pessimist, strategist or optimist
My synopsis is knowledge ain't where college is
Knowledge is for leaders and wisdom is for philosophers
Now I'm hearin London gettin violence like Brooklyn was
Brothers gettin shot just for lookin cause?
I thought we deaded that, we need to be headed back
Yo France, you need to be coverin your brother's back
Bring the lovin back, cause the government don't love you
They into murder, money, and stayin above you
They want you all in prison
So before you kill your sister or brother stop and listen

[Chorus]

KRS-One Lyrics

"Pick It Up"

[Chorus: KRS-One]
Get up! What we slowin down for?
Pick it up, pick it up, pick it up, pick it up, pick it up!
We got a whole nation to restore
Pick it up, pick it up, pick it up, pick it up, pick it up!
We gotta really love each other more
Pick it up, pick it up, pick it up, pick it up, pick it up!
When you see my CD in the store
Pick it up, pick it up, pick it up, pick it up, pick it up!

[KRS-One:]
It's the teacher, class is open G
Let's get open on the concept of votin, we
Begin the discussion by viewin democracy
People power, a people ruled philosophy
Democracy is a system of government
Where the whole population is the sum of it
Where the goverment can't move without it's people
Where before the law everybody's equal
But take a look at the police and how they treat you
Take a look at these corporations that cheat you
Democrats and Republicans are all see-through
Now we votin for the lesser of two evils
Man, don't let 'em deceive you
This is an autocracy, not a democracy
But to call this a democracy without mock interest
In the laws of society, that's called hypocrisy!

[Chorus]

[KRS-One:]
Democracy only happened one time
In European history, now keep this in mind
It was practiced in Athens overseas
In 508 B.C. by Cleisthenes
Citizens would get together on a hillside
And decide how and if they was gonna ride
But in 322 B.C. here's what happened
Alexander of Macedon conquered Athens
And that was the end of democracy
Where the people had a say in their society
Today, we gotta get more knowledge
And learn about the function of the electorial college
It doesn't matter who you vote for today
The electorial college has the last say
But that's another day, here's what I came to say
RIIIIISE UP~!

[Chorus]

[KRS-One:]
In corporate sponsored elections, who's winning?
This the wrong direction from the beginning
Every candidate got scandal, they all sinnin
Tryin to convince you, tellin you what they been in
But the real issues, they get avoided
While our children still gettin exploited
Heh, they call me Blastmaster Kris
Edutainment, that's what my tactic is!
Some criticize Kris, some laugh at Kris
But you can't say Kris is not an activist
Social justice, I got a PASSION for this
Cause equal rights we still ASKIN for this?
So when I do my tours it's not just rappin for Kris
I'm givin you more than gun packin with this
I'm openin doors, you should be askin 'bout this
You listenin to them whores and them capitalists
They game is tight, got you trapped into this
It won't be long before the ring you like have to kiss
That's why I'm a activist
I help people not to get trapped in this
The temptation? You gettin wrapped in this
So get up, stop sittin like a PACIFIST
Pick it up, pick it up, pick it up, PICK IT UP, PICK IT UP~!

KRS-One Lyrics

"All My Men"

[KRS-One:]
Wooooooooooo!
Where my men at? Real dudes
Where you at? Look

[Chorus: KRS-One]
Me is a mon, understand, not a passin trend
Me is a mon, understand, we provide and defend
Me a mon with a plan, my love it never ends
I'm callin - all my men, ALL MY MEN~!

[KRS-One:]
All my men that be holdin down they house and they spouse
Men, y'all know what I'm talkin about
Real men, providin for the kids, no doubt
Holla out, 'gwan shout, you the man of the house
Men! In my opinion if we gonna start winnin
F'real, we gotta respect women
Every mister, hug your sister, it's the
Time to support your woman and not diss her
It's the, teacher, overstand
I'm like a preacher, reachin your upper man
Man, many don't understand
How important it is to have a plan

[Chorus x2]

[KRS-One:]
All my men that be holdin they house down, true workin
All my men that be holdin they spouse down, for certain!
You spread love when you drivin around town, not jerkin
You a healer, you take away what's hurtin
Cause if a man can't do what a man plans to do, his purpose
Then a man makes plans with empty hands, he's worthless
He can't even understand the plan
What the second or the first is
Let me verse this or reverse this statistic
We gotta think futuristic
Strategic, logistical and even mystical
We need a new ritual
I'm tired of jumpin over buildings
And havin to stop to hold adult hands like children
C'mon, you can do it, c'mon
And when they get paid then they quickly run along
This ain't just another song
This is that fruit that reveals the right from the wrong
It won't be long here, before the storm's here
And real men are gonna have to be strong

[Chorus x2]

[KRS-One:]
Be a MON, stand on principle
Just be a MON, let God live in you
Just be a MON, walk in the spiritual
Metaphysical, political, lyrical
Just be a MON! Understand you not a passing trend
And this is the end

KRS-One Lyrics

"Straight Through"

[Intro: sped up vocal sample]
Tonight's a special night
So remember with pride, these 20 happy years

[KRS-One:]
I can't leave my b-boys alone
I can't leave my b-girls alone
Let's turn this house right into a home
C'mon y'all let's get into the zone
Vibrate or mute or cellular phone
In here they might already be on roam
Minds are blown, I'm showin
You ain't gotta go major you can do it alone
As I look back on all the years, all the tears
All my peers, in fear
I hear, insecurity, the need for clout
Low self-esteem and self doubt
KRS lays out a whole different route
And shows you what hip-hop is really all about
Then we on the route, release self doubt
And sing with the feds when the fear is out now
Clear 'em out now, from the bottom to the tip-top
Take the vow, I am hip-hop
And recreate yourself, love don't hate yourself
Do not deny or lie or fake yourself
You can make yourself, reawake yourself
You can mold remodel and reshape yourself
You gotta take yourself more seriously
Create yourself to what you really can be~!
Yo the villain is free, look at me, I do what I do
I am hip-hop and so are you
Yo we almost through, but before we go
I wanna invite y'all all, to every show
Where the b-boys and girls are kept on their toes
Like the Rocksteady Crew tribute with Fat Joe
So now you know, if you got what it takes
No doubt, show 'em what you really all about!

[KRS-One:]
Yo, now that that is out of the way
Let me continue what I came to say
Breakers, writers, emcees and DJ's
Beatboxers too we've come a long way
Come to the Temple of Hip-Hop today
Our hip-hop week is every third week of May
Hip-Hop appreciation we remember
Hip-Hop history, that's in November
Peace, love, unity, that's the agenda

When I'm on the mic that's just what I send ya
We at the end sir, so what's the answer
Hip-Hop can be more than MC's and dancers
It's time to expand your
Awareness, consciousness, enhance your
Living, tell me, what are you playing for
What are you staying for, what are you giving?
I will demand your respect, with two MC's
Two b-boys, two DJ's on set
Two hour shows you bet!
We get authentically hip-hop as hip-hop can get
Independent, free from debt
2005 you ain't seen nuttin yet
Some like it dry, some like it wet
Some like to give, some like to get
Some like a good soundset
You a b-boy and you ain't been out to the Bronx yet?
No, yes, maybe, someday
Whatever, we bring it to you Sunday to Sunday
Workin for peace love unity and fun day
Just a little somethin to balance off gunplay
So now for the break if you got what it takes
No doubt, show 'em what you all about!

KRS-One Lyrics

"Rockin' Til The Morning"

[Intro: KRS-One]
Yeah, yeah, yeah
This what we live for!
Let it rock, let it
(Big up to all Brooklyn man, all Bronx man)
(Uptown massive, follow)

[Chorus: KRS-One]
We can all be hear rockin 'til the mor-ning
Boom, bap, and rap is what I bring
We love, the clubs and we rock them
Yes all over the world we shock them
Cause everybody knows this flow
It blows your mind

[KRS-One:]
We used to step inna de club with these murderers
Hustlers, thugs, pimps and burglars
You ain't gettin in the spot if they ain't heard of ya
And if you sneak in the spot they might murder ya
I used to be in them spots just servin the
Raw rhymes flows and yes earnin the
The respect from the streets in a circular
Over the years, an MC I turned into

[Chorus]

[KRS-One:]
Ladies and gentlemen, the most controversial
MC in hip-hop is about to raise your adrenaline
Settle in and grab a seat, they start meddlin I'm a grab the heat
I already grabbed the streets
KRS, you don't find me on your radio station
You find me chillin on them Indian reservations
I spit like cajun spice
You don't know KRS? Your momma must notta raised you right
Man I blazed your type, done raced your type
Man sit down~! You still on a training bike
I'm the crazy type, you the lazy type
Hey yo, look, I blaze these mics; cause

[Chorus]

[Outro: ad libs from KRS and possibly the producer]

KRS-One Lyrics

"The Kool Herc"

Yeah, Kool Herc!
Kool Herc, this goes out to you
KRS-One, word up, look

Temple of Hip-Hop, non-stop, we rockin you
This is what them b-boys be poppin and lockin to
Head moves, windmills, and yes uprockin to
From Mr. Wiggles, Boogaloo Shrimp, and Shabba Doo
Uh-oh, time for the truth to start boppin through
Stompin through, with somethin new man, we shockin you
This is what hip-hop'll do, perform the impossible
Knowledge Reigns Supreme Over Nearly Everybody OOOH
I'm philosophical, logical, very topical
These rappers man startin to look comical
But I'mma do what I'mma do and never follow
I'ma do, Amadou, even if it leads to Diallo
Victory over the streets that's our motto
Some gotta work for it, others hit the lotto
But big up Luna, Empire, Beedo and Gato
Watch how I spit fire, it's been a long time yo
But really it's a short time, cause I'm already in 2020
Me and Herc yellin MAKE MONEY MONEY MONEY
Hear me sonny while it's sunny release your rhyme
Get your money, ain't nuttin funny, but get peace of mind

KRS-One Lyrics

"Busy Bee Shout Out"

[Busy Bee]

It's my main man KRS-One
The Grandmaster Caz

KRS-One Lyrics

"New York"

[Intro:]
And you say New York City!
Duane 'Darock', KRS

[Chorus: female singers]
It's New Yorrrrrrrrrk, and we livin
The whole world, it knows, your name
It's New Yorrrrrrrrrk, and we livin
The whole world, it knows, your name

[over Chorus:]
Lenox Avenue, Park Ave
Long Island I see you baby
Jamaican Ave, Queens
KRS, let's go!

[KRS-One:]
New, York, City, get it right, get it tight, get it hype
New York City's in the house tonight
All day, off and on, Broadway
The world's Big Apple is what they all say
Wait, way back in the day
Dudes from the South migrated this way North
Lookin for the higher pay of course
Led by the forces they became big bosses
Like Rick Ross is, the city that never sleeps
Yup, New York is
If you can make it here, you can make it anywhere
What's that?

[Chorus]

[over Chorus:]
Flatbush! Brooklyn (we live this)
BX Bronx, c'mon
Gun Hill Road, Grand Concourse

[KRS-One:]
New, York, City, still part of my heart, still part of my start
As you can see it's still, part of my art
Still part of my lesson plan, listen man~!
N.Y., every year we fresh again
I be doin South Bronx everywhere I go
Everywhere I go, every nation know
I'm a New York dude that's not New York rude
All over the world I eat New York food
Ha, I'm at home anywhere, any place
Right now somebody from New York in this place

Yeah, no matter where I be
I'll always be N-Y-C

[Chorus]

[over Chorus:]
Coney Island! Brighton Beach
Wooo, Red Hook!
I see you Canal Street, Delancey Street
Hester Street, c'mon, New York let's go

[KRS-One:]
New, York, City, metropolitan life, cosmopolitan life
It put the strength inside of my life
But New York City got it's challenges also
Racism, sexism, crime, you all know!
Them guns that keep goin off bustin
And another one bites the dust when
Conflicts arise and dudes start bustin
And cussin, I gotta speak to this
New York is not unique in this
But if we keep sewing this we gonna keep reapin this
I'm teachin this, we gotta overcome our weaknesses
Remember man!

[Chorus]

[over Chorus:]
Big up to the firefighters, rest in peace
World Trades y'know
Brooklyn! The Bronx, Queens
Manhattan! Staten Island! New York love it baby

[Chorus]

[over Chorus:]
South Bronx
South Bronx, big 'em up!
Rest in peace Jam Master Jay, Big Pun
Big L, Randy Parker
You with us for life rest in peace my brother

KRS-One Lyrics

"Hip Hop"

[KRS-One:]
We need unity in the community
KRS, hip-hop is one
Conscious, gangsters, hustlers
Man

[Chorus:]
Hiiiip-Hop; I'm livin for that
Hiiiip-Hop; I'm livin for that
Hiiiip-Hop; I'm doin it for
Hiiiip-Hop

[KRS-One:]
Yo - we went from nuttin to somethin, bein real and not frontin
No one was givin us nuttin so we resorted to gunnin
Growin up and we comin, up the ladder not bummin
Dodgin warrants and summons, from the cops we were runnin
Goin to school not for nuttin they teachin lies and assumptions
And they tell us keep comin, comin to school now for what? When
Comin back to a system that's whack and really not runnin
Oh I'm sorry it's runnin, it's not PROPERLY runnin
It's a conspiracy hear me man it's got to be somethin
I can get guns faster than I can get an english muffin
And the black church ain't sayin nuttin
We on our own cousin, I'm stickin to this

[Chorus]

[KRS-One:]
I'm livin for this hip-hop, I'm spittin for this hip-hop
I'm givin to this hip-hop, my life is hip-hop
Culture, and y'all know that
Hip-Hop in the media, y'all know it's whack
But just like them dopefiends who keep comin back
Like the mayor of D.C., buyin Joey's crack
No disrespect to either one of them but look at that
Study the metaphors in this rap
We bigger than crack, but we keep buyin it
We bigger than rap, but we keep denyin it
Justice, equality, keep cryin it
But the only way to get it is to start applyin it
Fat Joe that's my bro shows 'nuff respect
Talib, that's my bro, shows 'nuff respect
50 Cent that's my bro he shows 'nuff respect
Common! That's my bro he shows 'nuff respect
Snoop Dogg is my bro showed 'nuff respect
Dead Prez that's my peeps yo 'nuff respect
Cassidy's an MC who shows 'nuff respect

Hip-Hop is one, don't forget
I'm stickin with this

[Chorus]

[KRS-One:]
I'm livin for that hip-hop culture, shape it like a sculpture
Touch it why don'tcha, touch it why don'tcha
Hip-Hop is yours and mine and that's fine
But hip-hop's culture ain't about just crime
You caught up in the image and, don't know they rhymes
You caught up in they bodies and don't know they minds
So I'm, here to bring the truth in the place
Like don't think Common won't punch you in your face~!
And don't think Talib won't hold the heat
To stop the violence you gotta know your street
You gotta know who Tanga Reed is
Fat Joe's a leader, Busta Rhymes a preacher
KRS-One's a teacher
But through Cassidy my lessons are quicker to reach ya
We one community
I'm talkin about unity, in other words you and me
I'm with this

[Chorus x2]

KRS-One Lyrics

"The Heat"

[Intro:]
FRESH~! For 2008, you suckers

Heat, the heat, the heat, the heat
The heat, the heat, the heeeeeat!

[KRS-One:]

Place your bets I'm takin all yours
All wars, topplin all scores
Teachin street laws, the teacher because I bring the

[Chorus]

[KRS-One:]
I'm called when no one is talkin
The truth about what's goin on and on and
When you wanna put that New York talk in
You cause the KRS-One to start barkin
Toward the mic, grab the mic, start barkin
Outside the club spot cars start parkin for the

[Chorus]

[KRS-One:]
Yeah, get it bumpin now, get it bumpin now
Turn up that da-dumb-dumb-dumb-BLAOW
I know you know how, we doin it right now
People in the club like WOW~! For that

[Chorus]

[KRS-One:]
OHH! It's gettin hot, don't stop
We just about to reach the top of hip-hop
That's why I'm called, with that yes yes y'all
At this very moment you feel no stress at all
No, I'm not testin y'all, this a real lyric
If you can hear it I'm blessin y'all, with the

[Chorus]

[KRS-One:]

So we can continue to go down the menu
I send you my poetry that critiques the evil that men do
You better attend to, the AC
When I MC I'm bringin heat lately, now fade me
No ifs ands buts or maybes
I'm not crazy, God made me speak with the

"Tote Gunz"

Yo Kenny Parker what up!
KRS in the building
Yo these cats all talkin' about
They run this, they run that
Motherfucker's don't run shit
KRS-one in this piece
Ya'll wanna battle? Let's go!

[Hook:]
I tote gunz, I make number runs
(Don't forget it)
I tote gunz, I make number runs
(Don't forget)
I tote gunz, I make number runs
(Let's take these cats back)
I tote gunz, I make number runs
I tote gunz, I make number runs
(What ya'll think)
I tote gunz, I make number runs
(Huh)
I tote gunz, I make number runs
(Let's show these cats Kenny)
I tote gunz, I make number runs

They some hoes, watch what they say
There's pictures of they asses with price tags on Ebay
Deja vu the matrix must be havin' glitches
I could have sworn I just smashed these short bitches
You need to look up to me Cause right now all ya'll rhymin' right where my dick is
You just lost, you can't believe
This club is like Iraq you the U.S. you need to leave
Battle Kris? Please I'll blaze two guns
Have yo ass lookin' like Saddam's two sons
This that real shit wild
You look like some kid that got gassed after watchin' 8 Mile
Now pull up your pride neo
How'd I beat you?
Did it have anything to do with the mic I speak through?
No, but if you wanna get far
Don't think you pussy
Know you are
That's why

[Hook:]
I tote gunz, I make number runs
(That's right)
I tote gunz, I make number runs
(Don't forget it)

I tote gunz, I make number runs
(New York)
I tote gunz, I make number runs
(That's real)
I tote gunz, I make number runs
(New York)
I tote gunz, I make number runs
(Huh)
I tote gunz, I make number runs
(Yeah, in case you forgot)
I tote gunz, I make number runs

Shoot out, shoot out
Everybody wind up
You doubt, you doubt
KRS, well now you fucked Poop out, Poop out
Through your face and your gut
Waive the Glock in your boy face like what
You talk that junk, but you really all punk
I'll smash you and your man
Com'on double up
That's why I got to double pump
So I could buck buck buck buck you up
You a fan of rap
I'm the man of rap
I'm lookin' for where hip hop's next land is at
You gettin' in my way?
Where them cannon's at
First thing you get hit with is a panic attack
Then you feel the steel
Of the gat to your back
Now you wonderin' why you even said all that
You could've left KRS-one way in the back
With his conscious raps and his old school tracks
But now?

[Hook:]
I tote gunz, I make number runs
(Huh Huh)
I tote gunz, I make number runs
(Huh Huh)
I tote gunz, I make number runs
(That's right)
I tote gunz, I make number runs
(What, ya'll forgot?)
I tote gunz, I make number runs
(What, you forgot?)
I tote gunz, I make number runs
(Ooooh)
I tote gunz, I make number runs
I tote gunz, I make number runs

See, I'm the same guy that spit out "You Must Learn"

And "Spiritual Minded", but ya'll are not concern
You wanna take shots at me
And disrespect Tryin' to degrade my philosophys
But nope, ya'll crazy
I'll watch your brains ooze out like cracked jars of turkey gravy
God told me to slay thee
And I'm a get to it
No ifs ands buts or maybes

KRS-One Lyrics

"Forever"

(feat. Channel Live)

(Get what I'm saying? Forever!)

Yeah! Kenny Parker in the background! (Forever)
Gimme a little more kick Kenny, Ima about to bounce it like this

Look! Look at him, look at them, look at her
What's about to occur, is what you prefer to occur
While these other rappers sloppily slur
KRS-ONE inspires you to be a street entrepreneur, (forever)
Cause I don't do dance lyrics, I do advanced lyrics
Organize frequencies that advance spirits
So try not to make the mistake again
Of hanging with fakes again
Then comparing them to the ones that created them, (forever)
You should never try to compare me
Unless its to that little kid being held by Holy Mother Mary
I'm a whole different kind of scary
Bring your military, I'll smash you and all your subsidiaries, (forever)
But am I, over your head, You like them others kid
You don't know that you're dead
Its easier, to pass the GED, The G-E-D
Than try to battle me?

[Channel Live:]
I'm down with BDP, you just down with O.P.P.,
I keep planets in orbit, you know, ODB
I'm from E.O., you just a slave to O-E
And you don't even know yourself, how the fuck you gonna know me, (forever)
Knowledge Reign Supreme, Hakim means the wise
But the best part is understanding forever, we will rise
But ya'll stay on ya knees, beggin' please don't squeeze
You thought it was chill to the undercovers that squeeze
Now you all fucked up, this rap zoo is just a tease
With little young niggas runnin' around, claim to be OG's
When they only just ice stuck at thirty-two degrees
And they ain't Just-Ice, Kool G Rap, or Ice-T, (forever)
Like the "T" in Terror Squad, we bring the terror hard
If Hip-Hop is a nation, BDP is the national guard
KRS the national god, and I'm like John the Baptist
I'll watch ya niggas up you even think to try to attack this (forever)

The one, that's wassup number one
Only zero comes before, and that's none
The beginning, you can survive with one lung
And even one kidney, no kidding
One, two, three, four, without one
Two, three, and four are no more, done

KRS The One...

(Forever. Do you understand? Forever!)

KRS-One Lyrics

"The Solution"

Every time I turn on the news it gets depressing
Watch the news it gets, man c'mon!
Y'all know what this is for real,

Time to Wise up!

Time to hold yours

Word Up!

No Time for Givin'up!

Word Up!

WE gotta take control of our own community

That's Word!

We're only spittin' hard rhymes, for hard times

Listen to me closely, it's about to get toasty
I be the speaker of the house like Nancy Pelosi
The challenges we faces on the world is this,
The banks are telling government to do that & do this
No ones taking a truth risk, no ones the looser
WE need to make trades with Cuba
Open up the borders all away to Aruba
Give taxes brakes to all teachers and tutors
But Cats don't like how the teachers be talking
Cause cats don't walk where the teachers be walking
(L) ove (A) need (D) evelop (Y) ourself, that spells L.A.D.Y
I teach it to young girls and woman go crazy!
Philosopher, criticism don't phase me
I walk in the truth even the wind obey me
Standing with a protest sign FREE HAITI!
My rhymes blows your mind like "A380" (Explosion)
I made a million dollars last year didn't change me
I Make money man, the money does not make me
Lately my popularity just heighten, cause Krs-One Enlightens!
I go off the top and I recite what I'm written'
I Write 3 books for you mind to enlighten
I promote stop the violence so we could stop fightin'
If your part of this MOVEMENT, don't just be websitin'
Volunteer somewhere where people just might win
And just lead a little help & support from the right friends

Aight then!,

It ain't about stupid white man with Blacks, Latinos & Asians just act just like them!
Krs-One, I got this style from D.M.C
I take it all away back to 83'
But right now K.P gonna drop the Chorus on Me

And It Goes *[Echo]*

[Hook:]
Revolution, Revolution That's The Only Solution!
Revolution, Revolution That's The Only Solution!
Revolution, Revolution That's The Only Solution!
Revolution, Revolution That's The Only Solution!

(Hard Rhyme For Hard Times)
Revolution, Revolution That's The Only Solution!
Revolution, Revolution That's The Only Solution!
(Hard Rhyme For Hard Times)
Revolution, Revolution That's The Only Solution!
Revolution, Revolution That's The Only Solution!

REVOLUTION!

Illuminati this!, Bilderberg that!
The White, how long "the dollar" goes way back
If the proof mask the truth, the truth I say that
So the TRUTH is that we in a debt that we can never pay back
So "... The balance the budget..." we can never say that
When the laws are on the flaws the justices lays back
It's the May! Back though, that given us hope
When the "Mercedes Corporation" is trying to stay up float
The whole things a JOKE! & FALLEN PART!
The Only Institution you can really trust is ART

AND WITH ART (Backspin Instrumental, Krs Still Emceeing)

You can start up a Civilization
We're already Worldwide Man! so WHY are WE! Waiting!
Hip-Hop! is THE SPOT where the money be making!
And If We UNITE TONIGHT, WE can start up a NATION
Get Free From The GREED In The Heart Of This Nation
And Create Our OWN NATION from the words that I'm Stating
Hip-Hop MAKE NOSE if you part of this nation & you ain't Gettin' Sucked in the GLOBALIZATION!

KRS-One Lyrics

"Introducing"

(Introducing... the world famous)
KRS-ONE, Kenny Parker
Let's Go

[Hook:]
Now, let me introduce you to the one
Now, let me introduce you to the one
Now, let me introduce you to the one
One (one), one (one), one (one), one (one)

Now, let me introduce you to the one
Now, let me introduce you to the one
Now, let me introduce you to the one
One (one), one (one), one (one), one (one)

When I say "Stop the Violence", what do I mean?
I mean stop with the ignorance of you dumb ass teens
My lyrics are tighter than a hipster's jeans
I got that Malcolm X flow, by any means
Rip any teen
I spit chunky bars
How you hang with me, spitting monkey bars?
When I woo my Tang, I toast the place
My method man, will ghost your face
(Get down)
I hold my space
You rappers capping blanks
That's why you're getting Chased like Manhattan Bank
This isn't even my peak
I'm on half a tank
For your whole rap career, for me you have to thank
I'm an old school writer, out for fame
I be in DJ's mugs, like House of Pain
Y'all rappers' is lame
You're not violent
Cuz corporate tyrants are playing you clowns like clients*[?]*

[Hook]

I spit yesterday and I spit today
I leave rappers on the side of the road like triple A
When I triple my A's like "Ay, Ay, Ay"
I be in more hoods than the KKK
RS-One, you can see I ain't done
I ain't in, cuz frankly, I ain't them
This word I bring, will burn your thing like Burger King
I'm not the police but you felt the sting
Yes, I helped to bring back the art

Cuz your CD and garbage, I can't tell them apart
Me, I had a hell of a start
I don't hustle my flow to my people
And start calling it art
You rappers are all in the dark
Rapping about money when the world economy is just falling apart
I never was about some chart position
And they not either
You better listen up to this teacher
Well...

[Hook]

Johnny Love in the building
Sean, what's up
Mondo, let's go
(Get down)
(The world famous... KRS-One)
(Get down)

NEVER FORGET

KRS-ONE
"It Appears"

[Intro:]
Is this thing on?
It's on?
Let me know when you want me to stop

Right foot in the left hand, gospel in the other
Sisters in the front seat, I'm back with my brothers
I can go farther if I'm guided by the mother
Whatever level rappers on, KRS is on another
This that raw Emceein' you don't want none of
Blastmaster KRS-One-uh
Original boom bap beats with just the drummer
Seems like people nowadays is getting dumber
They don't see they're getting older, not younger
So I split the Stevie and make them all wonder
I come with than Donna Donna every summer
They want the high ground, me? I want the under
Rhyme books, rap hooks, I got a ton of them
But here's just one more of them
Now you're about to hear the style of someone who has mastered this
Now it's time to show you what boom-boom-boom-boom-boom bappin' is
This that '86, but from Gecko, we coming back again
Showing you the difference between what MC'ing and rap again
Many have attempted and wrecked it, this very style I spit
Peace to them but you are now hearing the very off the tech
When it comes to music, good music, I'm all on top of it
Criminal Minded, you can find it with Scott LaRock and it
This mix drive, you have to get
You must have forgot what real Hiphop can get
I haven't stole a topic yet, or a beat
I don't get cash every week, I get cash when I speak
I throw it out anywhere, like trash in a street
I spaz on these beats, see the passionate heat
Entrepreneur, I'm not asking to eat
I'm off to Geneva, I'll be back in a week

[Hook:]
All through the years, in the end?

Me stopping with hip-hop
That's like MJ no longer being regarded as the king of pop
You're thinking of the commercial flop could make me stop
20 years in this game, I ain't aiming for the top
I stay up in that underground cozy spot
That in-cognito nobody knows me spot
Most MC's rhyme but don't know their plot
Maxing out their credit 'til their bank closes shut

You went from holding jewels to holding a mop
From talking about, "Don't snitch," now you roll with a cop
It's like you erased your mind and forgot
What the founding fathers truly saw posses? with Hiphop
We're screaming back to the? knowledge, culture, and overstanding
While beats are slamming and the people are jamming
Sick of all these talentless hustlers scamming creating mental famine
Don't you think it's time we re-examine?
Let them know what the truth and the facts is
That the game nowadays is manipulated by masonist blue-collared fascists
Marketing schemes is controlling the scene
Fiends for the green, I'm just a man trapped in a machine

"Nina (You Gotta Go)"

We've been friends for a long time
But Nina, you gotta go

[Hook:]
Nina, you gotta go
I gotta leave you
Nina, you gotta know
That I don't need you
Nina, you gotta go
I gotta leave you
I gotta free you
Common I'ma free you

Back in the days I was fallen in love with you
I used to watch you, sit in the tub with you
We you used to cruise, you was right on my hip
I was 22, you was 22, that's it!
You fit so snug in my hand
The power, parents just don't understand
Ours [?] was a love forever
You was always ready and steady, steady and down for whatever
But your friends were 38 and others were 45
And when they was around, I'm surprised I even survived
So don't feel bad, I'm just growing up
Career blowing up, you gotta know whats up

[Hook]

When M was 16 and Glock was 9
They was there with me when I stared my rhyme
But when I started the climb and get known for rap
It seems like y'all was trying to hold me back
And not only that
You was my secret weapon, concealed weapon
We lived on the 357
Right on the corner of Smith and Wesson
When them dudes rolled up, you was the perfect blessing
But I learned my lesson, no doubt
Every time you shout
Somebodys lights in a night go out
Yo I'm out
I know what this bull [?] is about
You want me to beef all day so I could pull you out
But

[Hook 2x]

In my younger days, I used to love your figure

You used to shout every time I pulled your trigger
But you're getting bigger
And your feedback is only clack clack clack
And I don't need that
Its like a speed rap, I wanna slow it down
I want intelligent, good people to come around
And they don't get down to your kind of way
See
They settle their differences in a long minded way
So in the meantime
I'm a keep trying, I worked it out
Well you can stay with Mad lion
He might have work for you
I just don't want you to ever think that I'm deserting you
But

[Hook 2x]

[Outro]

If I got my Nina, then you know I'm straight trippin [3x]
Thats why I gotta put you down

They Are Taking Your Time

KRS-One

Listen to this rhyme, they taking your time
It's like you're in prison when you don't use your mind
Rise up and shine, they taking your time
It's like you're in prison when you don't use your mind

Eleven million people unemployed and I'm one of them
I grew up with the rats and roaches I had fun with them
Fly sneaks' and fine clothes, I had none of them
But when I came to MC rhymes I had a ton of them
People tell me go get a job, I would run from them
I saw the workforce and work was no fun for them
No beach, no melanin, no Sun for them
With slave robbing bosses why would I come under them?
So at 7 am you wake up from sleep
At 7 am I wake up and take a leak
At 7:05 you got slippers on your feet
At 7:07 I'm going right back to sleep
At 7:15 you thinking about today's meeting
At 7:30 am, my friend, I'm still sleeping
At 7:45, your phone start beeping
Old text messages from yesterday's meeting
8 am you leaving it's freezing
You're feeling unworthy trying to get the work before 9:30
9:45 I'm just turning over
9:45 man, you looking over your shoulder
Here comes the boss looking for that folder
And you know within your folder, you didn't meet your quota
Now 11 o'clock's to bone ya', your boss says where's the folder?
And you feel like you a goner
Well, you simply gotta make it up
But 11 o'clock ops KRS just waking up
Linger in the bed to about 11:30
Spit a morning prayer, I hope heaven heard me
Stand up at about 12 o'clock, you on your lunch break
I'm just eating breakfast vegetarian cupcakes
1 o'clock, you back at your desk, back at the office
Back into stress, your desk is a mess

Listen to this rhyme, they taking your time
It's like you're in prison when you don't use your mind

Rise up and shine, they taking your time
It's like you're in prison when you don't use your mind

You doing your best but your best ain't enough
You wanna do less but less, makes it rough
It's 101 in the public and private sector
Either way I'm giving a conference at 4 pm a lecture
Topic, while I check my other appointments
Cause hip hop is a culture in lifetime employment
See, back in the days, to avoid getting jerk
We was told to go to college in case rap didn't work
Now today, not to be so hurt
You better know how to rap in case your degree don't work
Man, you better get the lesson, and stop stressing
MC and a DJ and a high paying profession
So if you need to - don't let them deceive you
You ain't got to believe me, it's time you believe you!

Listen to this rhyme, they taking your time
It's like you're in prison when you don't use your mind
Rise up and shine, they taking your time
It's like you're in prison when you don't use your mind

KRS-ONE
"Get Your Mind Right"

What you 'bout to hear, straight craziest
Higher level, nuclear MCin, I'm not paid for this
Because I'm made for this and hip hop history
None of my 19 albums have ever been miscellaneous
And I'm spontaneous
My radius goes out, the crowd falls out
Knowledge Reigns Supreme, I pour out
To my jaws now, yep, I bring the claws out
Knocked them 26 city tours out
I'm the truth, you can believe or doubt
But for those that believe in MCs like these
Higher degrees in sacred keys, believe, we knockin' them all out
Believe in yourself, stop deceivin' yourself
You listenin' that garbage all day, depletin' your health
And I ain't talkin' 'bout them youngings on the radio today
I'm talkin' 'bout them old folks that program what they say
They hated it, debated hip hop way back in the day
Now they wanna destroy it, they ain't love it anyway
But they put it on the radio, then blast it on your TV
Tellin' you, "It's the way to go, right here, buy our CD"
And even when you get the CD, it's always a letdown
'Cause you don't know about them MCs that truly get down

[Hook 4x:]
Get your mind right, you don't have to deal with hindsight
If you operate in foresight

Now you throw it up
You want respect, you want that victory, cohoo
You want that cash, you wanna live it up
Now you in the street, you have the E, you have Malcolmee
You independant and you feel the heat
But you will not give up, so now your phone ring and you pick it up
And it's your boy Park about to stick it up
It's the economy, he explain as he talk 'bout robbery
Right then you ax: "Now what's inside of me?
Am I a robba', robba'? Am I a shocka', shocka'?
Am I a robba', robba', robba', I'ma, I'ma, I'ma
Am I a robba', robba'? Am I a shocka', shocka'?
Am I a robba', robba', I'ma, I'ma, I'ma, I'ma hang the phone up
'Cause you know what? I see the future
It may look good now but jail ain't what I'm used to
The soul says give not take without giving
If that's the real you, then that's how you should start living
But we frontin', frontin'
Still huntin', huntin' for somethin', somethin'
But all this huntin', stuntin' droke cluckin' is leavin' at nothing

Start dustin', reach on the shelf and dust your soul off
You put it there, gettin' your goal off

The System Gotcha lyrics - KRS-ONE

[Hook 2x:]
So if you think you're too old
Your thinking that you're too cold
You gave up on your true goals
The system gotcha
I'm giving you a new soul
You're never ever too old
To manifest your true goals
Or the system gotcha

You're never too old to sell a key
So how could you be too old to emcee?
I'm from where it originated so get me
Why would I stop what I created, even at sixty?
Shout out to Herc and Cindy
Hip hop lifts me and never left me
You know where KRS be
Right there where the best be
When I spit a free I can't help it if that's how God blessed me
So I'm never empty, writer's block never tempts me
With twenty albums I mastered this evidently
So I ask you gently
You don't see how to spot me on the block with my classic medley?
I can't stop, people won't let me
I don't talk sexy, but I do come correctly and you can check me
But just don't compare me to the next G
[KRS-ONE:] when you get older you'll respect me

[Hook]

I keep it moving all over the country
Doing underground spots with the ceiling above me
I keep it dark and ugly, microphone crusty
We will be here forever; trust me
I rock the spots that be dusty and banged out
I do house parties, raves and gang hangouts
Others took the same route, we didn't take the main route
You know who they are, I ain't gotta call they name out

They superstars, but in 1986 you ain't know who we are
And notice when I said "who we are", as opposed to "who we were"
'Cause the past and future already occurred, but it was blurred
Time reversal symmetry just occurred
My being is timeless if the future remembers me
And there's no end to me, word!
Past and future happen at the same time, especially in the memory
We share the same mind. Images of my future telling me the same sign
In 1983 who I'd be in '09, but it's past 2011 and I flow fine
Rapping at 70? Believe that it's no crime
These youngins rent they style, I own mine
As you can see, I don't be relying on my old rhymes
I'm spitting raw rhymes, right here, right now
25 years, I never put the mic down

KRS-ONE
"Are You Looking At This"

[Intro:]
Run, run, run, run...
Will you stay or will you run
When you looking at this

[Chorus:]
I know you young but are you looking at this
I know you got dumb but are you looking at this
Your day is gonna come when you looking at this
Will you stay or will you run when you looking at this

You cannot see we now free, we get cassette back
So everytime I get the microphone I gotta bless that
Everytime I speak the truth they hopin' you forget that
9/11 truth got proof, you know we rep that
The war was started on a lie - did you forget that?
Politics is all about money and we accept that
Voting is like joking with rights we'll never get back
This a different type of rap of what you might've guessed eh?
Fresh rap - put it on your tongue, man, test that
People always askin' and passin' where KRS at
I be teachin', preachin' and speakin' a little less rap
Educators, straight from the pavement, me nah gon' left that

[Chorus 2x]

Too many rappers talkin' 'bout now they the best at
While KRS-One is at levels they'll never get at
Beat bitin', fakin' the funk - dudes respect that?
All these lies hitting your head, right where you rest at
They take your mind off the truth and put it where the sex at
Now these rappers doing R&B - forget that
In the game I'm bright, I'm skipped twice, they left that
Cash - I don't stress that, the stage is where I'm fresh at
Cats want cars but don't know where East or West at
Steering themselves right into where the stress at
Their own words got 'em sick and right there where the mess at
Talking like demons but wanting God to bless that
Take a minute, step that
Think a minute, digest that
It's not every day a teacher speaks and you get that
Down goes the devil - ra-ta-ta-ta-ta
The American presidency is for sale and you can check that
You think one man, one vote really elects that
News with views? Where's the free press at
Don't let 'em take your mind and put it where the rest at
Edutainers, straight from the pavement, me nah gon' left that

[Chorus]

"Invaders"

[Intro:]
Aqui no hay frontera. Esta tierra lo que nombraron los Estados Unidos que tiene la sangre de nuestra raza.
Somos una gente ancestral, con un futuro feriante. Que viva Mexico!

[Hook:]
How then, can they talk of some border
When they are the invaders?
How then, can they reform immigration
When they invaded their neighbor?

America existed before Columbus
Thirty thousand years ago we were here in Mexico
Where's all my Motiacans at? Cock your rifle let it blow
Blow, blow, blow, blow, blow all invaders gotta go
This one for my people, my Mexicano people
The whole earth is yours and no human is illegal
Come across the border every woman and man
The US is the alien, Mexico this is your land

[Hook]

We see the same men living out like cavemen
Coming out the cave and them trying to enslave men
How can we obey them? It's better we betray them
Rise up like the reverend Nat Turner and slay them
Mexican people get your education
Tell your little children that this their nation
You own California, You own Arizona
You own San Diego, and Texas the Lone Star

[Hook]

Take a look at Mexico, then look at New Mexico
What is a New Mexico if there is a Mexico?
All of America They used to call Amexem
Immigration laws are a fraud and we reject them
We are the Olmec, Toltec, pyramid builder
Astronomer, philosopher, and healer
Mexican people rise up right now
And realize that this is your land now
Sing!

[Hook 2x]

Get out!

NOW HEAR THIS

KRS-ONE

KRS-One Lyrics

"Now Hear This (Intro)"

This for them real go-getters, real mic spitters
Real head spinners, you know what this is
This for the people now to get up, the mainstream's a setup
I know that you fed up, you know what this is

Parked by the seashore, I'ma see more
Believe now, when we tour, I'ma be raw
This another project, I'ma drop three more
Got the crowd going up and down like a seesaw
Entrepreneur, I can never be poor
When you enter the cypher, dude, you better be sure
Or take a detour, I'm down by the law
Consistently working like one, two, three, four
So give me some room, I'm above your average
When I see you and your man, I'm thinking same sex marriage
You talk coke, but KRS is dope
You're like a bitch and a biter so I call you Ms. Quote
You're about to get smoked, you're fake and you're broke
Your mixtape's a joke
You wanna hang? Here's the rope
I spit the lethal, that's the issue
'Cause I will split you where I broke the piece, our love's gonna get you
People still asking, "Is KRS still dope?"
If your body's full of holes, don't the frame still float?
Watch how I eat you, you ain't a legend
You're just ordinary people
I'm the original story, you're the sequel
I'm the dirty version, you clean, man, they bleep you
I stay the classic section, nobody needs you
I write the books of knowledge, nobody reads you
You got it twisted, homie, we not equal
I'm the whole motion picture, you're the preview
I'm that boom bap, you're the dee-do dee-do dee-do
Soft as Saran Wrap, man, I see through
I'm only trying to free you, but you're too busy tryna be illegal
You don't even know what real Gs do
Why don't you just be you and build that?
With no drugs or money in your rap, now where your skills at?
North, south, east and west of it, I'm the best of it
You wanna know my name? KRS is it, One is the rest of it
You can see with emceeing I'm blessed with it

This for them real go-getters, real mic spitters
Real head spinners, you know what this is
This for the people now to get up, the mainstream's a setup
I know that you fed up, you know what this is

This for them real go-getters, real mic spitters

Real head spinners, you know what this is
This for the people now to get up, the mainstream's a setup
I know that you fed up, you know what this is

KRS-One Lyrics

"Drugs Won"

Rum-pum-pum-pum-pum
We are not the dumb ones
We see how the drugs run
We see were they come from
Governments are selling it
Every day one ton
They declared a war on drugs
But drugs won

Flashlights, canine dogs and crooked copper's
Automatics, tear gas, rams and helicopters
Off of marijuana, on the east coast every year
While California selling that high grade everywhere
It's crazy how the east coast considers herb the enemy
While every corner in LA is a dispensary
The country been split on this issue now for a century
Why would a natural harmless herb lead to a felony?
New York need to catch up
The pace need to pick it up
You know them prosecutors got big spliff litted up
Switch the philosophy think of the economy
Plants, herbs and roots are nature's technology

Rum-pum-pum-pum-pum
We are not the dumb ones
We see how the drugs run
We see were they come from
Governments are selling it
Every day one ton
They declared a war on drugs
But drugs won
[x2]

People taking risks
Cause they know that money gon' come
The drug game is global
Paying off twenty to one
Who you telling?
Don't you think these politicians they selling?
Doctors ain't sellin', cops ain't selling
While rocking your melon?
Cop cars smelling like Cali blue dream
In New York brothers like "what do you mean?"
I mean switch the velocity
Think of the economy
Plants, herbs and roots are nature's technology

Rum-pum-pum-pum-pum

We are not the dumb ones
We see how the drugs run
We see were they come from
Governments are selling it
Every day one ton
They declared a war on drugs
But drugs won

Brothers on that lock down
Sisters in that lock up
Things were good in the hood
Till them D's popped up
Brothers getting shot up, cause the systems unjust
Segregated justice
It's just them and just us
Cops roam around like a gang trying to jump us
Into the plantation prisons they wanna dump us
Cause they're really prisons for the poor
It's about the money, not the drugs
That's what I'm getting handcuffed for
It ain't about the law, it ain't about the crime
Cause banks are paying fines for their crimes all the time
Huh it's a setup, switch the philosophy
Plants, herbs and roots are nature's technology

Rum-pum-pum-pum-pum
We are not the dumb ones
We see how the drugs run
We see were they come from
Governments are selling it
Every day one ton
They declared a war on drugs
But drugs won
[x2]

KRS-One Lyrics

"Duty"

[Chorus:]
Duty is called, I'm leaving you once more
I will be back, right back when I'm off from the tour
The tour is your
Duty is called for the raw and the raw one is me
It's me you see
All of them told me "Kris you're to old b"
When they step to the mic
None of them could hold me

Rhymes never running out, you know what KRS about
I'm all up in the game like Jordan when his tounge is out
The streets is mine these youngins busting is buggin out
You don't see no stars when the sun is out I'm coming out
Who you think the sun round here?
All that soft thug pop shit know but don't get done round here
I'm only making my uniqueness kris-style clear
So your head, I don't have to put a missile there
I do preach peace tho, I am hip hop
But when the Glock pops your brain goes into a dropbox
I keep the crowd jumping like hopscotch in the party
I'm the dopest emcee and I'm dressed like anybody
I show up, wanna fight, unshaven naughty
Battle a platinum rapper and take his Bugatti
Sell it in the hood, provide for everybody
Next week another rapper giving up a Ferrari

[Chorus]

What they call dope today is wack, I'm sorry
I'm raw, sushi style I spit the wasabi
I'm at the corner store, gas station shopping
Go "where these other rappers really be at I don't know"
But everywhere our crews at people want the boom bap
Boom bap and we ain't taking nothing from no new cats
But KRS-One I come from where your shoes at
Where your soul at, this that real street new jack
Who's that, the masta with the blasta
I don't write song for cash, I write songs that last
They call me the teache cuz I'm from a different class
I preserve hip hop
These the the two kings, these are the greatest
These youngers claiming king and ain't even made this
When the true king touchdown you know it
No talk, no hype, just skills and we show it

[Chorus]

KRS-One Lyrics

"You A Millionaire"

Let me introduce myself properly
I am the original, I'm read, it's not a lot of me
Knowledge reigns supreme, that's the vibration I'm coming with
People ask me, "What you think about rap?" Well it's some other shit, but
This style's exposing the corruption of the government
This ain't every rapper's style, KRS some other shit
For years we teach the people 'bout knowledge from the pavement
Street knowledge, a complete college, we called it edutainment
Education through entertainment, that's what we named it
But corporations of all sorts wanted mass enslavement
Program directors got the music but didn't play it
They knew about the movement but they still chose to betray it
So ask yourself, why the radio just play the same shit?
They part of the conspiracy, we gon' have to face it
All types of emcees spitting out the illest rhymes
And we only get to hear five rappers a millions times?

You's a millionaire, yeah, off of black despair, yeah
You's a millionaire, yeah, off of lust and fear, yeah
You's a millionaire, yeah, off the poor right there, yeah
You's a millionaire, yeah, you's a millionaire, yeah

You's a millionaire with a million there and a million here
You got a million shares
Shoes, you got a million pair
You do what you do, you don't even care
Let 'em peep and stare
They not even there
You in your easy chair, the millionaire
Your fragrance fills the air
Which costs more than they'll make in a year
But you don't even care
Hit the brakes, red lights in the rear
The pastor anoints them
While poor people appoint them
Driven by envy, they don't see how the rich people exploit them

You's a millionaire, yeah, off of black despair, yeah
You's a millionaire, yeah, off of lust and fear, yeah
You's a millionaire, yeah, off the poor right there, yeah
You's a millionaire, yeah, you's a millionaire, yeah

I can be a millionaire
A millionaire for sure
If I hoard my money and ignore the cries of the poor
If I opened up a company and asked for hood loyalty
Then when the money came in, I would not pay out the royalties
I would be a millionaire

Maybe I would love it
But what they do with a thousand dollars, I can do with a hundred
I don't cost that much to live
So I got a lot to give
Keep a surplus, positive

You's a millionaire, yeah, off of black despair, yeah
You's a millionaire, yeah, off of lust and fear, yeah
You's a millionaire, yeah, off the poor right there, yeah
You's a millionaire, yeah, you's a millionaire, yeah

KRS-One Lyrics

"Sound Man"

(Fresh)
The real hip-hop is (fresh) *[x8]*

Bass, treble, c'mon, look around, man
The thump, the level, all that's the sound man
When the boom bap dumps hard on the ground, man
It's a good sound, man, that's never caught pounding
Fingers on levels, eyes on the session
Pump the bass bottom, *[?]* that compression
Sound engineer it, you've got to have the ear and
You've got to know what you hear, never overbearing
You bring the sound blaring hot like you ain't caring
The level's in the red, but no, you ain't staring
You pushing more bottom, you make the sound crack
Like the snare going "blap" on a boom boom bap
Sound man, I hear you, better yet, I see you
Yeah man, you free to adjust the EQ
Pump up the reverb, mess with the delay
Gimme more *[?]* and turn up the DJ

The real hip-hop is
The real hip-hop is (fresh) *[x3]*

From the time I come out, I do a line check
I spit a freestyle to get you in the right mind set
It ain't time yet to spit a rhyme yet
My right frequency the sound man he didn't find yet
So while he searching for it, I'll keep on working on it
We want that big sound before they close the curtain on it
So let's turn it up, so let's turn it up
Don't be afraid, turn it up, word is up
We wanna thank the sound people that's with me
When the music is low, they turn it up quickly
When the sounds are low, they brighten and lift me
When the feedback comes, they killin' it swiftly
The sound can be tricky when you see me play
No computers, just a mixer and some *[?]* DJs
Never no frontin', we showin' all y'all something
Sound man, just keep the music bumpin'
It ain't nothing

The real hip-hop is
The real hip-hop is (fresh) *[x3]*

(Fresh)

I'ma keep rapping while tours they keep happening
Got a *[?]* of rhymes for people to keep *[?]*

Boom bap beats with rhymes to keep attractin' 'em
That's why the sound man gots to have rap in 'em
Cordless, hardwire, fifty-eight mics
Wring 'em out 'cause all rappers don't sound alike
I found a light, it's at the end of the rear
It's the sound engineer that really cares about what he hears
It's the bass and snares, he understands the music
He's a fan of the music, he makes plans for the music
He sets the EQ, how his hands gonna choose it
It's not a band, but he still plans for the acoustics
This is the sound man that I be looking for
These are the dudes that I request when I'm booking tours
So if you like the sound of this brown man
Give it up for the sound man
Overstand

The real hip-hop is
The real hip-hop is (fresh) *[x7]*

Give it up for the sound man

Give it up for the sound man

KRS-One Lyrics

"American Flag"

Symbols of injustice and hatred
Confederate flag (bring it down)
Symbols of human enslavement
Confederate flag (bring it down)
But what about the red, white and the blue
American flag (bring it down)
Racists flew that flag when they captured you
American flag

I ain't here for selling shit
Me I came for telling it
I tell it like it is
So my people stay intelligent
We ending it
Racism, slavery, we ending it
This is why we bringing down the flag of the confederate
I share the same sentiment: Slavery is bad
But slavery was established by the American flag
Follow me
The American flag it flew in every colony
To break down the confederate only ia a hypocrisy
You bringing down one flag to raise up another
When both flags ensalved my sisters and my brothers
Yea man there were others
African, French, the Portuguese
The English, the Spanish, enslavers for all of these
So why raise any flag that killed my mom and my dad
Invaded my lands with plans to take up all that they had
I'm glad, the confederate flag is banned today
But the American flag is still flown by the KKK

Symbols of injustice and hatred
Confederate flag (you gots to bring it down)
Symbols of human enslavement
Confederate flag (you gots to bring it down)
But what about the red, white and the blue
American flag (you gots to bring it down)
Racists flew that flag when they captured you
American flag

KRS, the right teacha
In the street I might see ya
Under the American flag blacks had no rights either
Women had no rights either, natives had no rights either
White abolitionist had to fight against white preacher
Red, white and blue should mean red, white and black
Blue was our indigo color, coming from way back
But the system is racist, when the murderers are acquitted

So we ride in the streets, then you say we shouldn't have did it
"they destroying their cty", man you don't get it
If this was my city I wouldn't be getting shot in it
Stopped in it, harressed, unemployed and always locked in it
While the guns, the pollution and drugs are always trapped in it
Turn the TV off man, don't listen to all that
You a global citizen, you got to know all the facts
You a global citizen, you got to know how to act
Ask yourself, what does the American flag mean to Iraq?

KRS-One Lyrics

"Biterz"

[Chorus:]
We know, yeah it's all in they flow
Yeah it's all in they show
They some bite, bite, bite, bite, biterz
[x4]

Everybody know KRS-One, he is a writer
Original lyrics and routines
No biting, no biter
Prime reciter
I gets the news because I'm tighter, graffiti writer
But now I'm talking about these biterz
What's a biter?
A biter's unoriginal, a biter's predictable
Skills minimal, yo these dudes are pitiful
They conserts are wack, I don't even try to go to them
They open they mouth and I hear the radio all over them
Remember in them early days when we was coming up
You had to be original, yep with dope lyric and your cut
Every day and every night you had to practice and come up
With the dopest rhymes that'll make a crowd of people say buck-buck
Everybody had they own style, ran they own lane
Everybody had a profile, ran they own game
Every DJ had his own style, broke his own name
Now it's lame, everything rap was against it became

[Chorus x4]

Listen to they lyrics and they style, you know they biterz
They listening to the radio, then they claim they write it
But it does get deeper, all the wheeling and dealing
When the society we live in, is all about stealing
And these ignorant rapper they bring creativity down
Now one is using they mind, they just scrounging around
So a biter is a unoriginal style stealer
They see you drink tequila, so they wanna drink tequila
You say mommy or poppy, they say mommy or poppy
They really have no original ideas, they just copy
And people walking around, hollow like that
If death was the new sting, they would follow the path
They not led by the inner, they led by the outer
So they led every hour by anybody with power
Be original, be authentic, be you
But every emcee test the mic with a "one, two"

[Chorus x4]

KRS-One Lyrics

"The Lingo"

Ling, ling ling, ling, ling, ling, ling

I got the lingo, ling ling, the lingo
The lingo, ling ling, the lingo
I got that lingo, ling ling, the lingo
The lingo, ling ling

I got that lingo, the street lingo I bring yo
Acronology now the society to bring to
Too many people think so
I'm not just an O.G., I'm an Original Hustler, you like, "OH!"
Follow Life's Outcome Willingly, that's FLOW
WISDOM, When I Simply Decide on Moe, or More
I'm bringin' it to raw like a razor
FAITH, Focus And Ignore These Haters
Acronology is dope
Here is another one for FAITH, write it down, "For All It Takes, Hope"
Broaden your scope, it's Tha Teacha', you heard of me
I represent the struggle in the 'hood most certainly
But STRUGGLE's more than a word to me
Here's a Situation That Reminds Us God's Grace Lasts Eternally
LADY, Love And Develop Yourself
HLAW, Health, Love, Awareness, and Wealth
Acronology is not just BRB or Be Right Back
You gotta check the words you usin'
Like RELIGIOUS
It could mean Realizing Every Life In God's Image Offers Useful Solutions
So why you cruisin' lookin' for a snack
Think DIET, "Did I Eat That?"
Put down the cake, Seek Help And Proper Exercise
Rewind that, that spells SHAPE
These definitions go beyond the intellect
Like MIND, "May I Now Direct?"
A new philosophy called acronology
I say it the word, the word inside of me, oh!
The heat is on, you can't leave it alone
This whole thing's created by G. Simone
Even KRS is a acronym
It means, "Knowledge Reigns Supreme," spin it back again

I got the lingo, ling ling, the lingo
The lingo, ling ling, the lingo
I got that lingo, ling ling, the lingo
The lingo, ling ling

You can have so much fun with this
You can even take offensive words and give it a twist
Like BITCH, offensive to the ear

Now switch it, "Because I Take Charge Here!"
With acronology, you gotta win
Here's another one for BITCH, "Because I Totally Challenged Him
Or Her," you can't stop the edutainment
'Cause these types of rhymes keep you out of your enslavement
It might not hit you or overstand
I'm takin' you HOME, "Here Our Mind Expands"
So before Departin' for Earth Aimin' for the Heavens
Which spells DEATH, you need to check these life lessons
They like weapons, the foundation is under me
I open up your mind to see how others see
Like GOSSIP, Givin' Out Someone's Secret Information Publicly
Or MUSLIM, May U See Love In Me
I see the CROSS and ask my wife
She says, "it's a Constant Reminder Of Self-Sacrifice"
This is acronology, brothers and sisters
You FAMILY, For All My Intelligence, Love Ya

I got the lingo, ling ling, the lingo
The lingo, ling ling, the lingo
I got that lingo, ling ling, the lingo
The lingo, ling ling

"Show Respect"

Okay
Okay
Okay let's do this
Uh huh
Before I spit the verse I'm versed up
I got to take a moment for some ancestor worship
Scott La Rock all day
Ms. Melodie all day
[?] all day
Kwame Toure okay
They watching over KRS today
There's so many ancestors with me
Man watch what you say
You don't even know how I got here
So many dudes are not here
So I do not fear
When the roads is not clear
We are not alarmed with it
[?] in the darkness I'm the spark in it
With every sentence your intelligence I sharpen it
Like a knife or a box cutter you cut the carpet with
Spark that shit
Dudes don't know how deep Chris Parker get
You hear the art I spit
Cause I was at the start of it
The cypher is hyper when KRS is part of it
The same cypher's incomplete when apart from it
Show respect

(Get-get-get-get-get-get-get)
Show respect
(Get-get-get-get-get-get-get)
What I'm saying
Yeah
Yeah
Show respect
(Get-get-get-get-get-get-get)
(Get-get-get-get-get-get-get)
What I'm saying

Let me make this really clear
They are not us
All these wack twitter rappers I do not trust
They will pull out the gat but they will not bust
They will witness injustice but they will not fuss
They sitting at home thinking they can stop us
I'm flicking ashes on these asses leaving them in the dust dust
Criminal minded

Spiritual minded
Political minded
My lyric you can time it
Watch how I rhyme it
Spit, shine, and grind it
Autograph and sign it
No corporation behind it
Free man, free MC, and free-minded
You looking for authentic and real
Well I'm it
These critics be amazed they don't know what it means
KRS still ripping it in 2017
On to 2018, 2019
Its a crazy scene, I'm all in their face like Maybelline
Show respect

(Get-get-get-get-get-get-get)
Show respect
(Get-get-get-get-get-get-get)
What I'm saying
Yeah
Yeah
Show respect
(Get-get-get-get-get-get-get)
(Get-get-get-get-get-get-get)
What I'm saying

KRS-One Lyrics

"Same Shit"

Ladies and gentlemen
Its time to kick ass

Yeah
Same shit
Yeah
Same shit
Wake up
Listen
Terrorists and governments play the same game
Banks and big business take the same blame
Open your brain
The Klan and the cops are the same
Slave quarters, blocks and prison blocks are the same
They only separated by name
Overrated by fame
What's in a name?
A colonist is the same
People can't really see it
Because they're blocked by the name
But really Nazi Germany and your black is the same
Look
Wall Street and Main Street
Really that's the same street
Drug talk, corporate talk
Really that's the same speak
Boom bap, boom bip
Really that's the same beat
A throne or a chair of your own
Really that's the same seat
I wrote and recorded this album in the same week
California and Barcelona
Its got the same heat
I walk the same street
Put no trust in the game
Good cop, bad cop
They one and the same
Same shit

You know
Listen

Rapper and politicians they want the same thing
To kneel before their master and kiss the same ring
But Solomon and Selassi them are the same king
So from *[?]* I spit the same swing
Ding ding ding, there goes the bell
I'm the same as heaven, these dudes the same as hell

I'm the same as the plane at liftoff, fly
They the same as a rip-off, a lie
I remind you
Don't let the criminal mind blind you
Instead let the spiritual mind find you
See I'm you
Just twenty years ahead
Its to your advantage to hear KRS-ONE and rewind what he said
Its the same shit
Its the same shit
Look

Drug cartels is what sells the medical
Drug spots and drug stores are identical
Y'all need to wake up and join with the woke folk
Ignorance is only gonna keep you with them broke folk
KRS is on some cool shit
I ain't nothing to fool with
I teach more kids than the school gets
Game over stupid
Its like we at the eight ball corner pocket
And I got the pool stick
You can say whatever, me I'm living better and better
Getting cheddar, out in Greece getting feta
Up in Catalonia only eating paella
Up in Italy getting bread, call it brusketta
I spit
They cruise cars, I cruise ships
Democrat and Republican that's the same shit
Its the same shit

KRS-One Lyrics

"Don't Ever Stop"

(feat. Janiece)

The road's so cold and you better know
That you're a winner and you're going for gold
I know it's long but you beter know
(Yeah) don't ever stop

Never let 'em pull you down
Never let 'em lie to you
Never let 'em take your crown
Never let 'em cry to you
Never let 'em in your heart
Never let 'em give you money
Never let 'em hope you starve
Never let 'em find you funny
Never let 'em follow you
They don't need to side with you
Never let 'em ride with you
Pull out what's inside of you
Never let the system get you
Feed you, eat you, spit you out
Never let 'em know what you doin'
It's time you figure out
Never let 'em teach your kids
Never let 'em see you fear
Never let 'em blow your lid
Never let 'em take you there
Never let 'em break you up
Never let 'em break you down
Never let 'em shake you up
Never let 'em in your town
Never let a charoulette tell you what is excellent
Never let embetterment regard for what's irrelevant
Never let 'em tell you that KRS "oh, he dead, stop"
Never let 'em tell you that the radio plays Hip Hop

The road's so cold and you better know
That you're a winner and you're going for gold
I know it's long but you beter know
(Yeah), don't ever stop
Don't stop
Don't ever stop
Don't stop
[x2]

(Hey)
Got the rhymes, borderline's rapper
I'm that other kind with tons of rhymes
Spit flames hotter than the summertime

People want to undermind but stay under mine
Under my mind under my thoughts, caught in another time
They in the past I'm in the right now
Thirty city tours these critics be like "how? Wow!"
They be tryin' to get rid of me since back in the day
But the more they push me down the higher I raise
When I did criminal minded they had something to say
When I said self-destruction they had something to say
When I did edutainment they had something to say
That's the devil I ain't concerned with nothing they say
They was frontin' in the 90's and they still frontin'
They know the cost of everything but the value of nothing
I keeps it pumpin' like a trucka
That's why I'm fresh for 2017 you sucka

The road's so cold and you better know
That you're a winner and you're going for gold
I know it's long but you beter know
(Yeah), don't ever stop
Don't stop
Don't ever stop
Don't stop
[x2]

Never let 'em make you doubt
Never let 'em break you
Never let 'em take you out
Never let 'em tempt you
Never let 'em employ you
Never let 'em lead you
Never let 'em boy you
Never let 'em deceive you
Never let 'a snitch or traitor
Know what's going on
Never let 'em know the plan
Freedom's only for the strong
Never let 'em in the jam
This is how they stole our songs
Never let 'em corrupt you
KRS ONE I'm gone

KRS-One Lyrics

"You Ain't Got Time"

To have once been a criminal, there's no disgrace
To remain a criminal, is the disgrace (that's right)

Politics is a pile of tricks
Eight years, what do we get out of it?
More chatter, more gun splatter
More dumb rappers, and dumb athletes and actors
My name's revolution, open your eyes
I'm not on TV, cuz the revolution will not be televised
They telling lies, we better rise and get a plan
The US President? He's endorsed by the clan
Damn
You don't understand what's going on?
Slavery coming back and most of y'all just gonna go along
Not me, they ain't veiling me
You can see, I ain't vote for the president or Hillary
America tryin' to put the fear in ya
They the reason for the fake war there in Syria
So when I grab the mic, I spit a full-clip
Wake up, you ain't got time for this bullshit

To have once been a criminal, there's no disgrace (that's right)
To remain a criminal, is the disgrace (that's right)
To have once been a criminal, there's no disgrace (that's right)
To remain a criminal, is the disgrace (that's right)

This what the boom bap sound do
Since way back in the Bronx, I had a sound view
If you hearin' this, the truth, it just found you
I'm in his town, her town, your town too
Man, I stay ahead like a crown do
Look around you
Knowledge reigns supreme, this is what it comes down to
People talkin', but ain't doin' nothin'
KRS ain't about frontin', let me tell you somethin'
We need unity at all cost, or everything is all lost
These lessons are hard, that tweeter shit is so soft
Brothers killing brothers killing brothers with the sawed off
No remorse, brothers are hauled off up north
We off course, believe in the hype
Honesty, we ignore; but that deceiving, we like
These rappers are corny, but you like "He aight"
You lyin' from the pulpit
You ain't got time for this bullshit

To have once been a criminal, there's no disgrace (that's right)
To remain a criminal, is the disgrace (that's right)
To have once been a criminal, there's no disgrace (that's right)

To remain a criminal, is the disgrace (that's right)

I formerly was a criminal. I formerly was imprisoned, I'm not ashamed of that
You never can use that over my head. And—that—He's usin' the wrong stick, I don't feel that stick

KRS-One Lyrics

"You Like Me"

As long as I'm dancin
Actin or rappin
Walkin around like
I don't know what's happenin
You like me *[x4]*

If I'm talkin bout drinkin
And nothin bout thinkin
As long as I'm high
And I never ask why
You like me *[x4]*

But the second I start with the state of the economy
Black leadership, Black gods and Black sovereignty
That's when you can't seem to follow me, confusion
You feel like you losin, I'm no longer amusin
This song's about choosin, choosin why you cruisin
Either Black entertainment or the Black Revolution
People love to see a young Black man rap
Until he wakes up and realize he's caught in the trap

So as long as I'm dancin
Actin or rappin
Walkin around like
I don't know what's happenin
You like me *[x4]*

If I'm talking bout drinkin
And nothin bout thinkin
As long as I'm high
And I never ask why
You like me *[x4]*

But the minute I get in it bout the way these rappers spit it
The minute I start spittin that truth here comes a critic
I freestyle off the top like removin ya yankee fitted
But they not really checkin for skills, they want the gimmick
Many of the challenges we face, we could solve em
But there's no trust, no unity, and that's the problem
Black people fightin amongst themselves that's the problem
White people fightin amongst themselves that's the problem
US foreign policy is simply just bomb em
Rebels against they own government, the US arms em
Then when things get outta hand, yeah they try to calm em
More money, more diplomacy, just charm em
If that doesn't work then they move to "Osama"
Turn him into a terrorist, so they can disarm em
Through the corporate media, we don't stand a chance

But too many people wanna us to just stand and dance

So as long as I'm dancin
Actin or rappin
Walkin around like
I don't know what's happenin
You like me *[x4]*

If I'm talking bout drinkin
And nothin bout thinkin
As long as I'm high
And I never ask why
You like me *[x4]*

You like me, you like me, you like me
You like me, you like me, you like me

KRS-One Lyrics

"Put Ya Ones Up"

Why these people always gotta front
Why people can't be real from the jump
I'mma be blunt so inhale it
My flow is like the ocean, I sail it
Metaphoric oceanic flow, run it
Like the ocean I'mma stay current
From the first time I rhyme they spun it
Any MC test BDP sound we up on it
They just begun it, we the veteran
Better than any of them and we keep it 100
I'm the blast master but faster
I'm the same that influenced the game I'm named after
Hip-hop, don't fight the hunch, spike the punch
Take it back to the Castor Bunch
I'm having these rappers for lunch
I'm giving their captain a crunch
Munch, crunch, hunch up
You feeling KRS, put your ones up

KRS-One Lyrics

"Keep Flowin'"

I represent leadership, readership, teachership, speakership
Culture keeper cause the culture we're keeping it
Truth I'm speaking it, critics want to weaken it
Printing gossip and bullshit and the people believing it
Gather 'round now for the freshest guy
If you're new to hip-hop KRS is I
I don't tell no lie, that bullshit that they're talking online
That's the tactics of the FBI
Y'all falling for the same old disunity thing
That's why Malcolm X couldn't link with Dr. King
Why William DuBois was against Marcus Garvey
Together they could have built a strong black army
But not hardly arguments between Bobby Seel and
Huey P. Newton rocked the Black Panther party
We need to wake up these strategies are old
Unity that's the goal let's go

That real shit just keeps flowing
That real shit just keeps going
That real shit just keeps flowing
That real shit just keeps going

Line after line after line after line
Since 1989 I been way ahead of my time
But it's frustrating hearing all the hating and debating
And the faking and the waking, man we got to reawaken
The time that we be wasting, debating and fighting
We can see we unenlightened, man look what we writing
You got the most advanced technology in the palm of your hand
And all you can do is turn around and diss your man
That's like a baby with a loaded gun
Thinking its a load of fun, me, I'm a little older son
We done seen dudes dies and cry and get by
We done seen cops shoot down blacks and just lie
So when Latifah put up U-N-I-T-Y
Why didn't anyone comply, y'all living a lie
The truth is the proof and we got to get it straight
Revolution only works for those that participate

That real shit just keeps flowing
The real shit just keeps going
The real shit just keeps flowing
The real shit just keeps going

KRS-One Lyrics

"Hip Hop Speaks From Heaven"

Yo, 2Pac once asked, "Is there a Heaven for a G?"
Well, now there is, word, 'cause he's up there to see
Moving around, he's chilling with Prince and James Brown
If our people are up in Heaven, their loving is raining down
The only force to save us from city was hip hop
The only force that made us grimy and gritty was hip hop
We all respect the world's religions and the laws they laid
But I know Scott La Rock's gonna come to my aid
See, these saints are great, but they're not where my heart be
When I call on the angels, I'm calling on Marcus Garvey
I'd rather call on Bob Marley, oh yes, sir
Kwame Ture, that's my real ancestor
Why call upon the spirits of oppressors
When you can call your own angels when you under pressure
See, when it comes to hip hop, here's the lesson
Start praising your own people, hip hop speaks from Heaven

Hip hop speaks from Heaven
Tell me who you repping yo, this another lesson yo
Hip hop speaks from Heaven
Tell me who you repping yo, this another lesson yo
Go, hip hop speaks from Heaven
Tell me who you repping yo, this another lesson yo
Hey, hip hop speaks from Heaven
Tell me who you repping

So when I think of California, I'm seeing Eazy-E
When I think of Brooklyn, New York, I'm seeing B.I.G
When I'm thinking about the Bronx, I'm seeing Scott La Rock
We gon' praise they name forever and we gon' never stop
It's forever 2Pac, it's forever Heavy D
It's forever Big Pun, it's forever O.D.B
They was live, now deceased, from the West to the East
It's forever Phife Dawg, Big L rest in peace
What happens next, we shouting out Professor X
Shout out to Freaky Tah, shout out to Proof, big respect
We can't forget, so we bubble with joy
When we reminisce over you, Trouble T-Roy
Shout out to Keith Cowboy, Ms. Melodie all day
Shout out to J Dilla and Jam Master Jay
It's love I'm sending to you
Shout out to Guru, and Mr. Magic from the Juice Crew

Hip hop speaks from Heaven
Tell me who you repping yo, this another lesson yo
Hip hop speaks from Heaven
Tell me who you repping yo, this another lesson yo
Go, hip hop speaks from Heaven

Tell me who you repping yo, this another lesson yo
Hey, hip hop speaks from Heaven
Tell me who you repping

Forget who's the best guy
This that time to think about Pimp C, Buffy, and Lisa Left Eye
Frosty Freeze breaking in the breeze
Big Bank Hank still inspiring MC's
We'll never be free until we free up our mind
We praising our enemy's God's fallen behind
Yo, it's all in the rhyme, the past is gone
But I can still feel the spirit of Master Don
Yo, many have been lied to, so here's what the wise do
Praise your own people, the force is inside you
Like a late fog in the mist
I see MCA and rest in peace Nate Dogg
They names and they natures will last
Like Chris Lighty and my man Bill Blass
When it comes to hip hop, here's the lesson
Start praising your own people, hip hop speaks from Heaven

Hip hop speaks from Heaven
Tell me who you repping yo, this another lesson yo
Hip hop speaks from Heaven
Tell me who you repping yo, this another lesson yo
Go, hip hop speaks from Heaven
Tell me who you repping yo, this another lesson yo
Hey, hip hop speaks from Heaven
Tell me who you repping

KRS-One Lyrics

"The World Is Mind"

You know
Whatever the brain doesn't have a word for it can't see
I teach you this all the time
The world is mind
M-I-N-D

There were two patients laying in the hospital
They shared the same room both fighting health obstacles
The first patient had his bed by the window
He could see outside and feel how the wind blow
The second patient, his bed was by the wall
No window, he couldn't see nothing at all
So in summary there was no sun to see
He was laying in the dark looking for recovery
He could see the other patients looking outside
And jealousy took over his pride he couldn't hide
He said to the patient by the window
"Hey! Tell me what you see outside there today"
The patient by the window started saying
"I see people walking, talking, I see children playing"
"Cars going by with the booming systems"
But the patient by the wall could only lay and listen
Bedridden, he couldn't see it for himself
But the descriptions he was given was improving his health
Everyday the patient by the window would say what he saw
And everyday the patient by the wall wanted more
But what he wanted even more instead
Was to be in the patient by the window's bed
He wanted the same bed that the patient had
If he could just exchange beds it would make him glad
So one day the patient by the window was gone
And the patient by the wall knew something was wrong
But he still asked the nurse if he could be first
To get the bed by the window, and what's worse
He did get the bed by the window
But the shock instead was a wall full of brick stone
No cars, no people, no scenery
No light, no flowers, no greenery at all
It was like just a brick wall facing the window
He said to the nurse "I was tricked yo"
The nurse said "Tricked? You'll be fine"
But a view of a brick wall he didn't have in mind
And what really blew his mind
Is when the nurse said, "Cheer up
"The previous patient, he was blind"
He realized right at that time
You create your reality, the world is mind

BETWEEN DA PROTESTS
KRS-One

KRS-One Lyrics

"Opening Remarks"

Yes
I want to welcome you all to the 23rd album
Between Da Protests
We gon' have to rise on this ya'll
But just before we begin
Lemme spit on these cats

Fake rappers I respect none, DJs too
You know my way, we ain't you
5, 4, and three are taken and we ain't two
33 years later, we ain't through
Black lives been mattered yo cause we ain't blue
Selling out the culture is something we don't do
They call me the teacher that be so true
Cause I mastered the element of MCing like CO2
We so new, you know what we been through just to survive
All this debate about the top five, put it aside
Here's the real top five list
It's KRS, Blast Master, KRS-One, The Teacher, and Chris
Rappers going through some type of identity crisis
G-O-D is my image of life 'cause they don't like Chris
My mother is Ahset better known as Isis
I drop on the set like Horus, where the mic is
I'm the difference between what the real and the hype is
What the wrong and the right is
What the darkness and the light is
But rappers want to fantasize about battling me
They sleep and I'm over their whole head like a canopy
I'm chilling in Atlanta sipping Daiquiris
Don't come after me, I rapid fire rap-rap-rapidly
It's a catastrophe you not as fast as me
OG rappers coming after me, they're in back of me
You wanna come after me here's the truth
I'm invading your space like Al-Andalus, let's get loose
You can't hang, I got the noose
When I train on tracks I'm the engine you're the caboose
I'm sipping the Remy Ma while I salute Papoose
I don't battle young rappers that's child abuse
I'm tightening the noose, put my hands on you like a masseuse
And De La your soul like I'm Posndous
You'll be calling for a truce while I'm cooking your goose
Got the deuce-deuce for when you chickens come to roost
Man I'm mobile like boost while they're failing
So Imma put 'em down under like these dudes was Australian
Rappers couldn't see me in the 80's or the 90's
Thirty years later they wanna act like they're grimy
Now they wanna find me in the new millennium
But I'm a cannibal, I'll breakfast lunch and dinner them

KRS-One Lyrics

"Tight"

Let the drums rip
Woo
Yeah
Turn my voice up a little bit
I don't deal with silly shit
I am not illiterate
Gun clapper, street rapper this is what you're dealing with
Boom bap, new rap only the real feeling it
Truth I'm revealing it, beef I ain't dealing with
Others put their bread to the beat and make a meal of it
I'm the quiet type, banana clip I'm concealing it
Kick up on you with the banana and start peeling it
Hit the captain and America, no time for shielding it
Their crew got nicked with the fury, I'm real with it
Flow so sick I should be healing it
But instead I'm on the German autobahn wheeling it
You heard these millionaire, now hear a skillionaire
Rich with the skill and the cut, people I drill them there
Yeah savage, you can hand them out
No silverware, true legend
No jewels, black gorilla wear
Yeah where them skills at, Imma drill that
Too many rappers claiming OG and still wack
They sleeping and you can see how they act
Red pill, blue pill, I gave the red pill back
So I hear what they mumble 'bout me me but it don't penetrate
Young rappers want to be large and diss whoever's great
Me, I'm a legend been busting weapons since '88
Blast off the top of your dome, let it ventilate
Skills I will demonstrate, lyrical rap heavyweight
You ain't never heard of this feature, you bitches hella late
You better wait, KRS is never fake
That wack shit that sells out the culture I'll never make
That boom bap raw speak op who generate
I stay ahead, like you 8 o'clock, I'm ten to eight
I got ends to make with the bass kicking
These rap turkeys are fishing for beef but stay chicken
My rhyme style finger licking, keep mixing no quitting
No need for a vacation you tripping
Tock ticking, Imma spit this right
Like handcuffs you gotta say this shit is tight

Let me get to it
Yo
Drum ready I'm about to begin
You've been living without well try living within
You heard these others speak but I am not them
They talk paper but here's what I do with the pen

Sword in the air I don't fear anybody
We was criminal minded when they was on the potty
Been spiritual minded the devil can't stop me
Been political minded, nope they can't lock me
This is an original, not a copy
Me and the mic we got together like swordfish with aki
Mashing any jam, and club, any party
Same shoes, same views, black tee, hair knotty
You could be stoned and you still can't rock me
You could be wood and you still can't knock me
Properly fulfilled and they still want to mock me
Behold it's obvious, the universe got me
Skill, that's my credential
When my words get sent to your mental they turn sentimental
No I will not be gentle
Most rappers are followers
The only thing they lead was a pencil
Money won't defend you
When I A-B-C-D-E-F-G-H-I-J-K-L-M end you
I'm that raw shit, hip hop call of war shit
That DJ and MC shit tagging, breaking on the floor shit
Street lyric you heard it I never lost it
Like Yasiin Bey I'm bringing you more shit
Double metaphors it's hard to target
Effortless I flow like a shower no need to force it
You saw it real shit you the witness, the listener
I stand behind my bars like a prisoner
Yeah Imma spit this right
And like them handcuffs you gotta say this shit is tight

Ah shay
To the ancestors
Ah shay
Let them drums rip

KRS-One Lyrics

"Don't Fall For It"

Don't you fall for it
Don't you fall for it

Keep your head up, never let up
Never let them get you fed up
You just step up, get your rep up
Get your cash up, get your check up
The whole system's a setup, it's time we really get up
We been about this revolution from the time we met up
Take it back, I got my fist up, Malcolm X in '88
But revolution only work for those that will participate
You are great, they are fake
Yo, it's time to demonstrate
Higher level mental states
Conscious people, congregate!
Show the love, not the hate
This is basic, no debate
But these people are debating and they hating, they should wait
It was bickering amongst ourselves that got us in this state
Yeah, the truth is inconvenient, but the truth is never late

You can't see what they be doing?
How they thinking? How they moving?
You can't see what they pursuing?
Making claims, none are proven

Don't fall for it, don't fall for it
Don't fall for it, don't fall for it

We can see who is the enemy
Sovereignty's the remedy
You don't need telepathy
It's white supremacy

Don't fall for it, don't fall for it
Don't fall for it, don't fall for it

Bringing it raw, doing a tour
Government officials breaking the law
You never see what you never saw
303, open the door
Knowledge reigns, that is the game
Ignorance, that is insane
Don't fall for it, the Reps and the Dems are the same
This one's shooting us up, that one's locking us up
This one got us stuck, that one's outta luck
You could front if you need to, the cycle never ends
No justice, but in four years they hyping us again

Don't fall for it, don't fall for it
Don't fall for it, don't fall for it

If you thinking that you earning
And you drinking and you burning
And you really not concerning
With the news and what they learning

Don't fall for it, don't fall for it
Don't fall for it, don't fall for it

If you love it, never hate it
You agree and don't debate it
HBCU educated
Your degree is highly rated

Don't fall for it, don't fall for it
Don't you fall for it, don't fall for it

Yo, me, I'm not a fake dude, I'ma keep it real real
They see through it all, that "America needs to heal" deal
America ain't really sick, this is what it really is
Gunshots and cages for black and brown little kids
Now they acting like they not the cause of how we live
Do not tell me what you gonna do, I can see what you did
Look at her, look at him, look at them, look at me
Do you see our interests represented in society?
No you don't, and you won't 'cause democracy's a joke
Every four years these same people asking us to vote
Nothing changed but the Range Rover switching lanes over
I remain the flamethrower, knowledge reigns, game over
Don't fall for it, don't you fall for it
Rodney King, George Floyd, man, we all saw it

So don't protest with defiance
But don't move with self-reliance
While the soul is being silenced
For the religion of science

Don't fall for it, don't you fall for it
Don't fall for it, don't you fall for it

If you thinking that you earning
And you drinking and you burning
And you really not concerning
With the news and what they learning

Don't fall for it, don't you fall for it
Don't fall for it, don't you fall for it

There's no justice in the courts
We are always taking shorts

They can shoot us like a sport
And it's our trust that they want?

Don't fall for it, don't you fall for it
Don't fall for it, don't you fall for it

Take it up!
Take it low now

Don't fall for it, don't you fall for it
Don't fall for it, don't you fall for it

KRS-One Lyrics

"Black Black Black"

Don't be afraid, don't be ashamed. We want black power. (Black power!) We want black power. (Black power!) We want black power. (Black power!) We want black power! (Black power!) We want black power! (Black power!) We want black power! (Black power!) We want black power! (Black power!) That's right, that's what we want, Black power, and we don't have to be ashamed of it.

This is not the regular
This is that boom-bap, bap, bap!
Some, they call it secular
I just call it Black, Black, Black!
Marcus Garvey, Boukman Dutty
Bring that army back, back, back!
Malcolm X and Kwame Ture
This is where I'm at, at, at!
If you wanna talk to me
Talk to me about Black, Black, Black!
Haile Selassie The First
Negus Nagast, let's talk about that, that, that!
Kaboom, Nanny Maroon and all the Maroons
Let's talk about that, that, that!
The real Underground Railroad
The first subway for Black, Black, Black!
The freedom train begets what you bring
Getting on track, track, track!
Whether justice or injustice
How do you react-act-act?
Can you stand there laughing
While they shoot us in the back, back, back?
This is what some rappers sound like
Every time they rap, rap, rap!
I'm raising up the red and the green
And the black, black, black!
Even with no cops in the hood
We still hear "click-click, clack-clack-clack"!
I cannot forget my ancestors
Just because I rap, rap, rap!
Look at me from top to bottom
KRS is Black, Black, Black!

Get up, get out!
Speak up, speak out!
Reach up, reach out!
This is what Black about
Get up, get out!
Speak up, speak out!
Reach up, reach out!
This is what I rap about
Get up, get out!
Speak up, speak out!

Reach up, reach out!
Too many selling out
Get up, get out!
Reach up, reach out!
Lift up, lift out!
Get out!

Time to ask the question now
Are you really Black, Black, Black?
It is not a mystery
We under attack-tack-tack!
If you chatting fuckery
You hold our people back, back, back!
Time to put aside the fantasy
And deal with fact, fact, fact!
This is not the time to be talking
All that crap, crap, crap!
Those who talk that crap, crap, crap
Are those that don't fight back, back, back!
You can say what you like but real skill
I never lack, lack, lack!
Black is more a consciousness
The way you think and act, act, act!

Get up, get out!
Speak up, speak out!
Reach up, reach out!
This is what Black about
Get up, get out!
Speak up, speak out!
Reach up, reach out!
This is what I rap about
Get up, get out!
Speak up, speak out!
Reach up, reach out!
Too many selling out
Get up, get out!
Reach up, reach out!
Lift up, lift out!
Get out, lights out!

We have stayed here, and we begged the president, we begged the federal government. That's all we've been doing, begging, begging. It's time we stand up and take over, let's take over. We have to do what every group in this country did; we gotta take over the communities where we outnumber people so we can have decent jobs, so we can have decent houses, so we can have decent roads, so we can have decent schools, so we can have decent justice.

KRS-One Lyrics

"Boom Bye Bye"

Watch them (Watch them)
They all tell lie
Run up in their office with that boom bye bye
Social injustice, they the reason why
Hit these corporate thieves with that boom bye bye
Now you want to come and act like you my guy
I stay woke with that boom bye bye
I'm taking aim with my one third eye
Let my words fly, boom bye bye

Yo
Blackness, it's not just February
It's everyday from your birth to the cemetery
Revolutionary, they could never ever get me
They couldn't tempt me with the Maybach or the Bentley
They couldn't shut me up my soul is never empty
I've been spitting this game since By All Means Necessary
They asking for more but giving so much less today
This is what our ancestors got to say

Watch them (Watch them)
They all tell lie
Run up in their office with that boom bye bye
Social injustice, they the reason why
Hit these corporate thieves with that boom bye bye
Now you want to come and act like you my guy
I stay woke with that boom bye bye
I'm taking aim with my one third eye
Let my words fly, boom bye bye

Yo
Look at the media, they all on some new shit
Black lives matter now, they all want to use it
It's all in the news and the music
What we seeing is the corporate co-opting of another black movement
Their whole economy, they're now about to lose it
How can a black life matter when you already abused it
Black life is the economy
It's been that way since black ancestors were white property
That's why they ain't liking me
I'm not the soldier getting paid
I'm a warrior fighting for free
They type you don't see on TV
The real revolution will not be televised for all to see
You know me
Let me get my voice on
What they pushing as hip-hop
Is soft porn

They asking for more but giving less today
This is what the ancestors got to say

Watch them (Watch them)
They all tell lie
Run up in their office with that boom bye bye
Social injustice, they the reason why
Hit these corporate thieves with that boom bye bye
Now you want to come and act like you my guy
I stay woke with that boom bye bye
I'm taking aim with my one third eye
Let my words fly, boom bye bye

KRS-One Lyrics

"Murder We Just Saw"

(feat. SUN-ONE)

Yeah we done heard it before
What we looking at, it's the beginning of civil war
Finally we just might be getting right to the core
The proof in that the truth of that murder we just saw

Fuck this there is no justice
And it's a shame because America is above this
But it's really not because these cops they are racist
The very foundation of America is racist
Yeah we all know it but nothing ever changes
They part of the system that puts us in cages
Time to break out every race, all ages
This is not anarchy, this is what change is
You don't have the right to tell me what my pain is
Or tell me how to protest or what my aim is
You the fucking problem, that's where the blame is
Cops killing black people, that's what insane is
Weak politicians we know what your name is
You can vote while I'm getting choked by a racist
All the actualizations against us are baseless
And falsifying the evidence and burying the cases
FTP

Yeah we done heard it before
What we looking at, it's the beginning of civil war
Finally we just might be getting right to the core
The proof in that the truth of that murder we just saw
Yeah we done heard it before
What we looking at, it's the beginning of civil war
Finally we just might be getting right to the core
The proof in that the truth of that murder we just saw

Fuck that, criminal justice they run that
They can have guns but ask me where my gun at
They the criminals but it's me they want to come at
Who's telling them to put their gun back, fuck that
When it's gonna end?
Being killed by a cop is the sixth leading cause of death for black men
And then the courts don't convict them
When the camera shows they the criminals and we are the victims

Yeah we done heard it before
What we looking at, it's the beginning of civil war
Finally we just might be getting right to the core
The proof in that the truth of that murder we just saw
Yeah we done heard it before
What we looking at, it's the beginning of civil war

Finally we just might be getting right to the core
The proof in that the truth of that murder we just saw

And they'll always be one more
As long as white society holds the monopoly on all law
Either or
That's the only law we follow
Cause colonial custom is what we trained to model
Shots in the air, this is just another day for me
Modern day slavery still requires the bravery
Street photography making slavery plain to see
We used to die aimlessly now the camera aims at me
One shot saving me, the other shot slaying me
But how is this condition any different from slavery
White supremacy is still trying to enslave us
When our voices ignored unless white folks save us
I appreciate the protests for sure
But when we gonna end the monopoly of white law
We follow their laws while they follow none
We're told to be peaceful while they're busting a gun

Yeah we done heard it before
What we looking at, it's the beginning of civil war
Finally we just might be getting right to the core
The proof in that the truth of that murder we just saw

KRS-One Lyrics

"Turn The Volume Up"

Class in session now
Most can't take it but Imma spit it anyhow
Young 'uns getting money, it's funny they think they're ready now
Old folks gossip and bickering sounding petty now
This is why the universe threw this verse it has sent me now
Just to let you know if you spit that flow keep it steady now
Do not be distracted by this one, that one, or other sounds
You can talk that hate but it's better to spread that love around
This is just that wisdom I give to those that's listening
Yeah I keep it gangster but consciousness Imma mix it in
This is KRS let me warn you I'm not the normal
I'm that part of hip hop that edutains and informs you
You can talk that murder, that mayhem but let me warn you
I know the game, you reap what you speak that's how they caught you
Take a minute and listen to the flow that supports you
When I spit it, your spirit it rises like it ought to

So turn the volume up
The devil's time is up
Turn the volume up
The devil's time is up
Just turn the volume up
The devil's time is up
Just turn the volume up
Up, up, up, up

I am the primitive, native, indigenous, savage
Aboriginal, KRS-One is not the average
Barbarian, heathen, and pagan
Burnt faced negro, original man that's what you're facing
Haitian, Baysian, Jamaican black Asian
Knife in the chest of the colonist that's still slaving
The Indian, the Simian, the maroon, the pygmy them
The Ethiopian, the black Carthaginian
Why focus on a continent when the Earth's my domain
The ancient ones are my ancestors and I live with them
Kushite, Kemite, mapping the stars in the night
Divine minds guide us from the sciences of living right
Europa before Jehovah and black Noah
The agriculturalist, I am the reaper and the sower
The higher and the lower, the all-seer and the knower
I been here already I'm just doing it all over
Reincarnated, the holder of a boulder
The black Atlas holding the whole world on my shoulders
Money folder, much older, street soldier
KRS we will be here forever I told you

So turn the volume up

The devil's time is up
Turn the volume up
The devil's time is up
Just turn the volume up
The devil's time is up
Just turn the volume up
Up, up, up, up

Up on the last verse, blast first a Nazi
You know how long these industry fools trying to stop me
But they not me, they copies, they not free
I'm the pharoah, bow and arrow *[?]* they can't top me
The ancient one, I talk to *[?]* watch me
Laying on the set, these rappers turning punani
Cause they know they mocked me, now I'm in my armor
Spear to the throat, now what my name, Chris Parker
There's no computer screen, I am dope, you the fiend
Your name is what a loser mean, you on the losing team
I come back spitting raps, I am looking super clean
My name is what knowledge means, your name what stupid mean
Nightmare, right there, I don't fight fair
Man it's quite clear, you want the truth keep it right here
People always telling me these rappers are under me
That's true, I'm coming up on album number 23
Fuck with me, I don't sound like nobody, I'm no copy
I am no Gotti, a Nazi, I don't wait in no lobby
You know where to find me if you look look
These rappers are shook shook
Knowledge reigns supreme, my gats go buck buck

So turn the volume up
The devil's time is up
Turn the volume up
The devil's time is up
Just turn the volume up
The devil's time is up
Just turn the volume up
Up, up, up, up

KRS-One Lyrics

"Stay Real"

Yeah
You know an artist paints with his mind, not with his hands
Wake up

It ain't easy being a lyrical legend
I'm the average old-schooler
I stay sharp with this lyrical weapon
My main art's in the spiritual section
But some dudes ain't hearing this lesson
So I buck shot with the smith and wesson
Clips go into the weapon
If I bring the Mac 10 from the west coast
I'm aiming it into your section
Rip rhymes with a Tech-Nine and a 40 Glock
When I'm teaching a lesson
I'll even bring an M1 and leave an impression
A mean one, a clean one, you never seen one
Til I sweep up with a machine gun
When the teacha come, you see them run
First I be coming with the peta guns
For my peace love and unity, I'ma have to see your funds
Why you be so dumb
You need to run, look around
My delivery is hot, like when the pizza come, don't fuck around

(You talk to em)

If you continue to ignore the word
You gonna go through the same deal
Rearrange your mind and hide, you speak out your word
You putting seeds in your brain field
Corporations treating you like sheep and like *[?]*
But KRS-One, he stays real
Listen to the teacher as he speaks out the word
You gonna rise if he stays real

(Watch this. Stay real)

It ain't easy being a lyrical icon
When I turn my mic on
Rappers start shaking like fiends when their pipe's gone
I'm squeezing the mic like a python, you got it quite wrong
The guru, step into the arena with the teacha and your life's gone
These rappers are immoral, they write wrong
KRS-One is immortal, is career is quite long
This won't take long, I'm spitting on mics cause I'm made for this
Be clear, I speak that lyrical hip-hop lyrical craziness
The bar-tender, the airbender, I spit you see the waviness

I don't criticize or knock nobody's style, but I'ma stay with this
The traditional and lyrical is everyday for Kris
I'll strip these beats down to their nakedness
Ain't nothing fake with this

(Stay real)

If you continue to ignore the word
You gonna go through the same deal
Rearrange your mind and hide, you speak out your word
You putting seeds in your brain field
Corporations treating you like sheep and like *[?]*
But KRS-One, he stays real
Listen to the teacha as he speaks out the word
You gonna rise if he stays real

They know that I'm spitting the truth everywhere
Or proof that I'm raising the roof everywhere
Off the top like I dont have any hair
Observe, you might just learn something here
My word is a clear, oh you forgot, 22, 45 uzi or Glock
I don't give a fuck if you choose me or not
First time fiends are new to this drop
Fail to receive when I *[?]* to the spot
Salutes all day when I cruise in the block
True, Fuck if you feel me or not
Don't claim to be a legend if you really a not
I'm real with the rock, skills are tight, real hip-hop, keep it real tonight
Got the will to fight, whether day or night
Gonna stay alright, cause I stay in the light
I'm the *[?]* and the hype man
I'm cooking and shaking and baking the mic
When I walk in, rappers jetting like they taking a flight
KRS-One, blazing the mic
Aight!

KRS-One Lyrics

"Medu-neter"

(feat. SUN-ONE)

Real spitters out there hold tight (Yeah)
Heaven sent me evidently
Positive lyrics ever ready
Spirit charged, never empty
Devils charms can never tempt me
The level they on could never dent me
The enterprise could never rent me
Keep the drive without the Bentley
I-N-N-O-C-E-N-T
Truth is hard but I speak it gently
Squeeze my shit 'til the clip is empty
Demons and angels, they all protect me
Goblins, goons they all respect me
Walk in the room with the instrumentals
Superior MC skills essential
Spit with a hit quick I was meant to
Trump your card and intellect you
I got drive, I will wreck you
Band on the fact, rappers I will check you
Disrespect you, disconnect you
Bring the tech to you and who you next to
Say what you want yo I don't care
My crew charge in like da-da-da-da
Now you laying on the floor over there
As you can see all the raw right here
You would have seen it if I toured last year
But that's ok I bring it all in here
Strictly queens, no whores in here
And got King Negus all in here
Ain't no beggars, we all got gear
Lions, chewing up the goats and the deers
You don't want truth, close your ears
God, the devils supposed to fear

Speak Medu-neter no less yes
Medu-neter no less yes
Medu-neter no less yes
Just speak medu-neter no less
Speak medu-neter, speak medu-neter

This that raw from the culture corp
You want that raw shit, we got some more
Come inside, lock the door
Some of y'all never heard hip-hop before
So here we go yo, the truth is short
Rappers be frauds like Manafort
You can see they amateurs

He ain't David, what you holding their banner for
David Banner, that's my boy
I can't wait for the day that we rap on tour
Back to the raw, my skills are better
Rap so sick I hope you're feeling better
Resurrector
They spit rap, I spit medu-neter
Medu-neter
Lyrical ruler holding a scepter
You diss love, love's gonna get you
Temple of hip-hop that's the school
I don't wanna learn, that's a fool
Ignorance, that ain't cool
I'm flowing, get in the pool
We teach the golden rule, while they hold a tool
The platinum rule while they act a fool
God is the headliner
So ignorance KRS-One is coming after you
Straight blasting you not asking you
Then pray over the body like a pastor do
To hell they dragging you
You front so hard you can't even look in back of you
Your history is gone but this is what I came to do
Bring it back to you
You know we devour cowards
When these rappers talk we are not empowered
All they do is shout it
They ain't master the P, they ain't 'bout it 'bout it
I mastered the power and I'm proud about it
This cypher is getting crowded
Uh huh
Uh huh
Yeah

Speak Medu-neter no less yes
Medu-neter no less yes
Medu-neter no less yes
Just speak medu-neter no less
Speak medu-neter, speak medu-neter

Ok
Look
Street runner, feet pumper
Everything hip-hop we cover
Some of the rappers in a deep slumber
KRS-One will hover
Over nearly everyone, you never seen a better one
I'm crazy with the letters son, you dealing with a veteran
I'm fly like a pelican, I reign 'til I'm wet again
I'm always a gentleman, show up with the venom and
[?] what you hearing now is the melanin
You can see now by stars who the better man
Temple of hip-hop, culture develop and

Peace, love and unity we selling them
Some of these dudes *[?]*
So in the interim we hit 'em with the minimal
Alpha omega, beginning and ending them
Raw shit, we gonna keep hitting them

KRS-One Lyrics

"Organize"

Yes we have to organize, organize, organize
Do away with all the lies, all the lies, all the lies
They coming with the mac and the Glock and the 45
In between the protests we profess and realize
Yes we have to organize, organize, organize
Do away with all the lies, all the lies, all the lies
They coming with the tear gas and Glocks and the 45
In between the protests we profess and realize

Realize that we have already been here before
Protests in the streets 'cause we seeing we all at war
Burning police cars and we shooting, looting these stores
You may not agree but you see they changing these laws
The only thing they understand now is our city burning
They acting like they shocked with these cops, they just learning
Seeing Mr. Floyd on the ground it got 'em squirming
Now we can see they are the Nazis, we the German blacks

Yes we have to organize, organize, organize
Do away with all the lies, all the lies, all the lies
They coming with the mac and the Glock and the 45
In between the protests we profess and realize
Yes we have to organize, organize, organize
Do away with all the lies, all the lies, all the lies
They coming with the tear gas and Glocks and the 45
In between the protests we profess and realize

Yeah we always wake up but then we go back to sleep again
In between the protests is when we be getting weak again
We hear about the looting, another shooting this week again
This give the police another excuse to hit the streets again
White police, black population could never be your friend
Our mothers and our fathers, they be seizing them
They the overseers, we the S-L-A-V-Es to them
We gotta rise to the level where we ain't needing them
Everybody

Yes we have to organize, organize, organize
Do away with all the lies, all the lies, all the lies
They coming with the mac and the Glock and the 45
In between the protests we profess and realize
Yes we have to organize, organize, organize
Do away with all the lies, all the lies, all the lies
They coming with the tear gas and Glocks and the 45
In between the protests we profess and realize

Yes you have to follow me, follow me, follow me
It's my philosophy that white law monopoly makes democracy hypocrisy

In a capitalist economy there's no democracy
I demand a return to my sovereignty, no apology
Independence, autonomy, no need to mommy me
I could run my own country if you could just stop bombing me
Give me my land back, give me my gold back
My heritage, my birthright, you outright stole that

Yes we have to organize, organize, organize
Do away with all the lies, all the lies, all the lies
They coming with the mac and the Glock and the 45
In between the protests we profess and realize
Yes we have to organize, organize, organize
Do away with all the lies, all the lies, all the lies
They coming with the tear gas and Glocks and the 45
In between the protests we profess and realize

KRS-One Lyrics

"We Are The Gods"

New books, new facts, new hooks, new tracks
New tools, new gats, you fools should move back
Original boom bap, mystery school rap
Within the Pythagorean harmonics crowds, I move that
Whos that? The one who rocks this mic and a thousand others
For further evidence, you can check this very album cover
I'm about to smother the ignorance out you motherfuckers
You sleepin on this Teacha, let me get you out them covers
No time for sleeping, no choking, stay awoken
African still beat when the stick's broken
I'm flowing, mind open, chakras glowing
I realize the all seeing being is all knowing
[?] clean, no interruption *[?]*
From heaven we came from, so to heaven we going
We the first agriculturalists, we reap what we sowing
Know who you are, not just what the TV's showing

I came to find you, we are the gods!
I came to remind you, we are the gods!
Don't let them blind you, we are the gods!
The truth is inside you, we are the gods!

Grow up, feed the needy, avoid the greedy
No one but us look like Akhenaten/Nefertiti
Not the painted bust of Nefertiti, but the Nefertiti
On the temple wall seen by all in Ancient graffiti
Heed me, 33 years ago, god freed me
Then she said she needed me to spit the truth for her weekly
Freely, easy open mics now don't teach me
My face gets sweaty, palms get all greasy
I start flashing shit, all you see is feces
Written shit, spitting shit, KRS a different species
This boy beast, he's slow and he's low
That is the tempo, when you know you know
Rappers come and go always claim they run the show til they feel that
Thunder blow, straight from the mother flow, gutter flow
Faced with bullshit, I spit the other flow, but bullshits a
Fertilizer, maybe they'll help these brothers grow, I don't know

I came to find you, we are the gods!
I came to remind you, we are the gods!
Don't let them blind you, we are the gods!
The truth is inside you, we are the gods!

Queen mother, wake up. King father, wake up
You sleeping on this teaching, it's you I got to shake up
Wake em up, we the return of the Christ
Christ is not a man, it's a symbol of a community brought back to life

They got you looking for a red or white or blue savior
But here comes the black savior, Krishna gat blazer
Tongue sharp like that razor, original rap flavor
I speak in general terms cause I'm that major
Still got to paint you privately, don't lie to me
God is the Motorola mobilizing inside of me
My sheep know my voices, they choice and they flock to me
When knowledge reigns supreme, ignorance you not gon' see
Unite with me, and I'll unite with you
Don't fight with me, and I won't fight with you
Establish law, that's what we gotta do
The future's dependent on us, maybe this is not for you

I came to find you, we are the gods!
I came to remind you, we are the gods!
Don't let them blind you, we are the gods!
The truth is inside you, we are the gods!

KRS-One Lyrics

"Who You Are"

(feat. SUN-ONE)

Imma switch up on y'all real quick
Racists in these places only see me as cattle
But I'm more like D'Jango on the horse with the saddle
Put a racists head in the gravel with the burner
Harriet Tubman, John Brown and the one Nat Turner
I'm a learner, I keep my head in a book
So when a racist start talking I could never be shook
I can never be took because I'm knocking their block off
Like crack dealers used to say let's get this rock off

You're always blaming me
I'm not the enemy, you are

People ask why are you looting the stores
Why you burning down the business and city that's yours
First of all the city ain't mine it's yours
Democracy's a joke when capitalists write the laws
You critique my flaws and don't speak of yours
You only show the effects and never speak of the cause
I got no money, no help and no voice
With no way out I only got one choice
Brick through the glass, rock through the window
Tear gas moving anyway that the wind blow
Rubber bullets overhead, now we got to get low
But this was how slaves were treated from the get go
Robbery, invasion and rape
These are not criminal acts, these are the acts of the state
If you just waking up to this fact you a little late
For justice how long you think we gotta wait
Yeah, c'mon
Yeah, yeah, yeah, c'mon

You're always blaming me
I'm not the enemy you are
You're claiming unity
This time it's time you see who you are

Liberate you mind, living ain't a crime
Innovate the time, renovate the rhyme
Every line and rhyme you're using
Generates confusion and bring your people a revolution
Winning not losing
Helping not using
Oppression, aggression and hate we refusing
If you really want change rewrite the constitution
But that's the one solution that they are not doing
So we sharpen the blade, clean out the barrel

Pick up the rock and the bow and the arrow
Pull out the gas mask and the protest apparel
For justice Imma go into battle

You're always blaming me
I'm not the enemy you are
You're claiming unity
This time it's time you see who you are
Who you are
Who you are
You're always blaming me
I'm not the enemy you are
You're claiming unity
This time it's time you see who you are
Who you are
Who you are

KRS-One Lyrics

"The Beginning"

Yo check your mic, let's check these levels
Check check check check
Ok word we got the sound, let me know when the break is coming in
Nah, there's no break I am just going straight through
Aight kick that shit

Heaven-sent I can prove this
Any crowd turn me up loud
KR will move this
Long before Easy- E is MC he was ruthless
Kickin rhyme, spittin 'rhyme, freestyle, I does this who's this
You don't know me homie I am the one and only
I turn you two into a toll and tell you, you owe me
You ain't gotta go to the past to know me homie
I'm KRS-One, my power is now add control
These rappers are phony and lonely
I catch 'em coming out of show me's
I don't Oscar or admire they baloney
No phony, I spit for the time from the mind
So when I spit on the head of course I am ahead of my time
Yes I am better with rhyme and it's evident I'm
The lyrically benevolent kind, this shit you never gonna find
I am spitting plenty medleys, this is work not a job
Rappers are crying like a boss or a verse they soft
That is when they get robbed and disappointment
They not anointed, I get em set up like an appointment
I spit the same heat you light the joint with, fire
Spit the truth no liar, heaven-sent this is higher
The might cooks, I write books, the heavyweight champion
This song becomes a knockout with the right hook
I am raw, meaning not cooked
These fake rappers heads are down
Because into the face of KRS they do not look
40 cal. style, rampampam like big drums
When I heat up the cup of the 420 it's done
Light up the Cheech with the Chong
I teach when I come
Knowledge reign is supreme
What these rappers is speaking is dumb
It's a treat when I come
I'm not what you used to
I'm the return of Khufu all over these tracks like Choo-Choo
I am the Guru, so when my teaching premiers it's Gang Starr
Hitting you and your man in the same car
These wack rappers, fuck who they are
KRS is like a hooligan, hittin' em all with the same bars
Hooligans, hittin em with the same bars
Yo' wack style just ain't ours, Venus to Mars

I'm teaching with bars, spitting these bars
But young'ns under 21 can't even get into these bars
So I don't blame 'em if they not seeing these bars
'Cause when I hit 'em with my universe all they seeing is stars
Speaking of bars when I spit one
You can see it's all about impact over and income
The big one, multi-directional and exceptionable
10 of my first 20 albums are all collect-able
You feel the heat when I am next to you
Truly legendary, underground undetectable and revolutionary
Most of what is going on today, you know we knew already
I try to teach our people of poverty
And took to many and shook to many
We can see what a curse is so I reemerge
So these young'ns who the first is
The minister, frying rap chickens like churches
And the worst is seeing your temperature taken by nurses
IV-bags, your family picking out hearses
It's like you at the ball-place center and you won't survive these verses
Sprite means spirit so I obey what my thirst is
The whole planet of this so called Earth is what my turf is
KRS-One...

Ok ok, hold on hold on, I got this
This shit is gon' be fire
Levels is on point
You sound good out here
Let's get this project started

KRS-One Lyrics

"Raw Hip Hop"

Let's go back (Let's go back, let's go back)
Back into time (Back into time, back into time)

Back in seventy-three in the borough of Bronx
Man, you couldn't be weak, man, you had to be smart
See, we talkin' 'bout streets, now we talkin' 'bout art
When we talkin' 'bout beats, man, we talkin' 'bout heart
We was rockin' a hard beat live in the park
Guns spark in the dark, it was all just a part
Of the eighties Bronx scene that created all
"How you know, KRS?" 'Cause I was there from the start
Sixteen-hundred Centric Avenue, that was the spot
Fifteen-twenty, hip-hop started right on my block
This original hip-hop whether you like it or not
I'm remindin' through this rhymin' 'cause you might have forgot

Drop on the spot, b-boys start pop
Live on the block, this is raw hip-hop
Drop on the spot, graf writers don't stop
Bottom to the top, this is raw hip-hop
Drop on the spot, MCs make it hot
Microphone pop, this is raw hip-hop
Drop on the spot, DJs on the chop
Cut, mix, scratch, this is raw—

See, when we would begin, think where the heroin in
They was really determined that we was never gon' win
But by lookin' within, we began to believe
That we was breakers and writers, DJs and MCs
We was so damn poor, we was eatin' free cheese
But that made us raw, we started eatin' MCs
This before the fees and the MTVs
When you walked in New York and your ears would freeze
Wildin' beats and *[?]*, my necks and Ts
Night-long BVDs, we was fuckin' with these
We was fuckin' with this, we was fuckin' with that
But when the eighties came in, we started fuckin' with crack
And along with the crack came a big ol' gat
And along with the gat came a big ol' stack
'Cause if you ain't had that, you was the next to get jacked
This the way that it was, I'm just takin' it back

Drop on the spot, b-boys start pop
Live on the block, this is raw hip-hop
Drop on the spot, graf writers don't stop
Bottom to the top, this is raw hip-hop
Drop on the spot, MCs make it hot
Microphone pop, this is raw hip-hop

Drop on the spot, DJs on the chop
Cut, mix, scratch, this is raw—

This the way that it was, this the way that it went
Man, you had to survive, caught up with the rent
When the nineties arrived, eighties' money was spent
All them dudes that was live? To the prison they went
And the dudes that survived? They began to repent
Then they realized in rap, there was money to get
So gangstas became rappers, rappers became gangstas
Fake became the real for the payment

KRS-One Lyrics

"Krazy"

Yeah

My lyrics is crazy
They must be crazy
My lyrics is crazy

Kris is the Pharaoh, with bow and a arrow
We double the barrel gorilla apparel
The mightiest pharaoh don't think of a battle
My lyrics is comin' so crazy
Spittin' immaculate the actual factual front to the back of you
Clappin' and crackin' you hackin' the mac for you
Look at them laugh at you
Lyrics is coming so crazy
Spittin' with me now you see what I am teaching
Your mind I am reaching with all that I'm teaching
That love and that peace and it never will weaken the truth I am speaking is crazy
Truth I am speaking get used to repeating
The youth I am reaching
With proof of this teachin' I speak for a reason
So they can believe in the truth of MCin' it's crazy
Crackin' the back of these rappers
I'm passin' these actors, I'm faster
Spittin' metal natural rippin' clubs forever
We be coming better, spreading love forever, crazy
You hearing a pro, I'm spittin' the flow that you know
Higher level thinking I come to show
Knowledge of self is a thing you must know
You see what they playing, they steady betraying
The culture we making, exploiting and taking
Look at them faking what we are creating
Now you mistakin' what's real and what's fakin'
This thing they do for the money they making
They sell out their people, their culture, their nation
Sell out their soul for a radio station
So they could be playing in heavy rotation
You see what I'm saying, our culture they taking
But that's not enough, it's our spirit they breaking
And only the culture can see what I'm saying
'Cause only the culture will see them betraying
You see what they playing, you see what they saying
And you can not see us, our people they slaying
Well, maybe you do, and then maybe you don't
And then maybe you will and then maybe you won't
But it's our community, that's who's at hope of
The greed and the crime and the police are chokin'
The TV is playin' that okely-doke while our people are dyin'
You seein' them choke with that cheatin' and lyin'

They tellin' our people, now this is they hope
But did anything change with the last vote?
The time before that did we pass something?
All we've been getting is Chapter 11
While racists with weapons are shooting our reverends
A message from Heaven with all that you getting
Get understanding, overstanding this lesson
With all of the blingin' and cash that you getting
You stumble for sure it's the poor you neglecting
The thieves and the liars they all in your section
I'm bringing my people in different directions

Crazy
My lyrics is crazy
I'm coming so crazy
Ha, they must be crazy

Yo
So here goes another my sisters and brothers
It's obvious KRS ain't like these others
I've been out the bed while they under the covers
I spit off the head while they babble and stutter
Not three and not two but the one is my number
I'm spitting my written I tour every summer
With every year I get younger and younger
But some want to doubt and continue to wonder, is crazy
They continue to blunder, is crazy
They continue to slumber
What I'm teaching is what I'm expressing
I'm teaching the streets that the mind is a weapon
Like anything you can perceive in perception
It's what you will manifest all in your section, it's crazy
Set up your own direction, crazy
Don't get caught up on complexion, crazy
This is that reason I'm spitting and books getting written
'Cause you be forgetting, it's crazy

Crazy
My lyrics is crazy
I'm coming so crazy

KRS-One Lyrics

"Can You Dance"

Can you dance?
I wanna see everybody on the dance floor right now
I'm 'bout to put you all on the test
Let's go!
Do you know the dances?
Do you know the hip-hop dances?
Let's see

This one is the raw for sure, takin' no chances
Bringin' back them old-school dancers, here's the answers
Whether you remember or you're new to this endeavor
Dance is a major part of this culture forever
What are we preservin' if the children ain't learnin'?
Culture ain't about just numberin' and just wordin'
Sometime you gotta show the culture and the art
Let's start with the Biz Mark dance—come on, everybody

After the Biz Mark, the party 'bout to get sparked
This is that moment you get live, get courage, get hard
I spit art, I'm one of a kind, they not me
I'm digitally underground like Shock-G
Speakin' of Shock-G, when I jump, we jump
That's Kris Kross but I'm talkin' 'bout Humpty Dump
When you up, you up, what? This is your chance
Come on, everybody, let's do the Humpty Dance, let's go!

Whoo

Now that was the Humpty, now let's get it chunky
Like Biz used to say, "Yo, let's get funky"
Funky with the funk flow, we don't stop
Right about now, we gonna take it to the wop
Remember the wop? Feet slide, shoulder drop?
We did it in the clubs, we even did it on the block
Ready, set, go—stand on your spot
Take it to the top, come on, y'all—let's do the wop

Watch this

Woppin' non-stop in hip-hop and we drop it
We ain't even get yet to poppin' or lockin'
It's shockin' how many dance moves we came in
Obviously me and the ancestors got the same gift
The same lift, the same rift and the same spliff
Like Bob Marley said, "When the music hits, it's painless"
You can't tame this or hate this, you gotta love me
Come on, y'all, let me see you do the dougie

Whoo
That's right
That's right
This that part where we go freestyle
Some of y'all doin' the Cabbage Patch
Some of y'all doin' the Running Man
Let me see what you got, come on
Freestyle!
Free, free, freestyle, come on, y'all
Yeah, where all my b-boys at?
Where all my b-girls at?
Okay, we out

KRS-One Lyrics

"Achieving The Levels"

(Ok I see how you doin' it, that was dope
I got this gutter shit lined up, I know you ain't tired)

(What? Ha ha ha. Really?)

I ain't even tryin' or peekin'
I just ripped a club down last weekend
I'm no trick but I'm treating rappers like Halloween
They all costume no substance and that's what hollow means
They really empty like a lot of fiends
They holding a hundred but they don't really know what a one dollar means
They slaves to slave economies
Sellouts and traitors posing as hip-hop, we got a lot of these
So I be spittin' my philosophies with evidence
No doubt this is the route so why the hesitance?
Is it because I'm spittin' with divine intelligence and excellence and you hearing rhymes that are irrelevant?
Knowledge Reigns Supreme, KRS is how I'm spellin' it
The top one of the top five and that's the end of it
I judge my pen when I sentence it
Then imprison your mind with my penmanship, but here's some better shit
Get with me, you forgot? Let me jog your memory
I'm a poor righteous teacher and a public enemy
Fake ass DJs, they do not play or even mention me
I'm scary, revolutionary. Fake? I will never be
Real I'll forever be
I'm a whole different entity
I spit rhymes by the mouth and by telepathy
Health love awareness and wealth, that's the recipe
I'm 50 and 20 year olds can't match the energy
On stage I'm in a rage, yeah it's like 10 of me
Disrespect the teacher, you know the penalty
KRS-One, I'm from a whole different century
I'm paid in full so you can ch-ch-check out my melody
Murderin' mics, they chargin' me with a felony
But I can't be caught because the ancestors dwell in me
Movin' with hesitancy when you mentionin' me
I'm an original MC, get your T-I-C-K-E-T
The mic grabber, beat stabber, street grammar, heat blaster
I stay chunky and hungry so I eat faster
Gobble gobble gobble most rappers are hollow
So KRS-One becomes that hard act to follow
Hard beats, hard rhymes, hard cuttin'
"Wha-dot-dot-dot-dang!" gets the whole place jumpin'
This is that original Boogie Down Productions
Last of them true MCs that still function
Boom bap, boom bap
When the mic turns on, dudes be like, "Who's that?"
Crowd rushin' in, security's like, "Move back!"

Real skill, that's what a lot of you lack
I'm turnin' on my mic to reveal a new batch
Rappers say they great, but compared to Kris, who match?
Amber alert on the phone when you snatched
How you a DJ? You ain't even start from scratch

(Yeah I know you waitin', I'm just messin' with the reverb a little bit, just keep goin' and I'll tell you when to stop)

You still here? It ain't over yet
Knowledge reigns, so I'ma leave 'em soaking wet
If you listenin' to a legend, this is what you supposed to get
Real skill, my utmost respect, or a broken neck
Flawless rawness I pour this through the cordless, all this is lawless
I'm the tallest, people say, "Give me more Kris!"
You can't ignore this you know you saw this, the extensive tallest is flawless
We on this because dope is what they call this
So from the gutter the number one, he comes from under from the hood when the hood was a hood and it peaked in summer
We used to speak our rhymes to Funky Drummer
We called it The Dozens, a competition of words, jokes about your mother
Now knowledge reigning supreme like no other
The soul brother whose beats and words so gutter
No wonder this brother when he utters you don't blow
Not with the gun though, with the one flow, you like, "Fuck no!"
This no luck though, I'm one bro
You can now catch me teaching in Brick City at 55 Ludlow
Dudes be like, "Uh oh, we in trouble"
King of the jungle, no time to mumble, kingdom's gonna crumble
I step they stumble I bee like bumble a one-two to run to a traitor like fuck you and bring the truck through
I gets down but you can't see what I'm up to
I'm tacklin' rappers like, "Hut one! Hut two!"
When I come through

(Ok ok we good, let's change up the flow)

KRS-One Lyrics

"Knock Em Out"

Wooh, oh
Joe Riggs, what you saying

Knock Em Out the box Kris, out the box Kris
Knock Em Out the box Kris, out the box Kris
Knock Em Out the box Kris, out the box Kris
Knock Em Out the box Kris, out the box Kris

Yeah, I'm spitting truth, ain't nothing fancy
Fake — I can't be, with this microphone I'm handy
Radio and video bans me, they can't stand me
I'm the opposite of these hoes dancing in panties
Truth seeker, I write for people, not a grammy
The true Teacha, teaching about ancestors and family
The proof seeker, bringing evidence, not the fallacy
The new leader, bringing solutions to the insanity
This strategy avoid calamity and tragedy
Do not let technology run off with your humanity
I deal with reality, not Lemon or Hannity
This is why most of these rappers is not matching me
It's a catastrophe that got you looking at a screen
And the screen is showing you scenes of what your culture means
As for society and poverty, drug dealers and fiends
These ain't the images that tell you what your culture means
Rappers like KRS-One are nowhere on the scene
They promote rappers than contradict Dr. King's Dream
These acts are deliberate, they're part of the same scheme
Cops shot the kid, I still hear him scream
This ain't funny, so don't you dare laugh
Just another case about the wrong path
Straight and narrow or you will not last
Slick Rick told y'all, goodnight

Knock Em Out the box Kris, out the box Kris
Knock Em Out the box Kris, out the box Kris
Knock Em Out the box Kris, out the box Kris
Knock Em Out the box Kris, out the box Kris

Knock Em Out the box Kris, Kris already got this
This is what Hip Hop is, spitting my synopsis
A sellout? I am not this, pull out and cop this
Revolutionary topic right over the hot shit
Video is for your optics, that's why you watch this
But it can become hypnotic if you do not stop it
Your mind you must unlock it from their phony topics
Focus on the truth, with proof, use your logic
Words are like purpose, character, you got it?
Or got 'em, invisible forces, can you spot 'em?

The blind continues to lead the blind to the bottom
Destroying their cities like Gomorrah and Sodom
I rock 'em with truth 'cause Knowledge Reigns Supreme
Cops shot the kid, I still hear him scream
This ain't funny, so don't you dare laugh
Just another case about the wrong path
Straight and narrow or you will not last
Slick Rick told y'all, goodnight

Knock Em Out the box Kris, out the box Kris
Knock Em Out the box Kris, out the box Kris
Knock Em Out the box Kris, out the box Kris
Knock Em Out the box Kris, out the box Kris

Out the box Kris, like a stone I rock this
The beginner just eating dinner, no I am not this
I take it back to Schoolly D and Super Lover Cee
Steady B, I'm Three Times Dope or dope times three
You know me, I ain't stutter
Why do you think they never promote the original culture they putting us under
We all know the truth about Hip Hop and what it really is
But we sit and settle for what they peddle to little kids
I'm piping like a kettle, this mental man will flip your lid
Take it back to when we used to rap and DJs zig-a-zig
When you reverse EVIL, believe me people you really LIVE
Help, love or witnessing wealth, that's what I'm here to give
No I do not think of my self, I think of these future kids
Everything we doing today will determine how they live
Many DJs cutting and mixing but they ain't playing nothing
Many rappers, ripping and rapping but they ain't saying nothing
Corporate yelling, "Black Lives Matter!" but they stay fronting
That's why this Black Lives Rapper he keeps in way bumping
It ain't nothing, no assumptions, just facts
It seems Knowledge is Reigning Supreme and that's that
Bring it back, rappers rapping like we ain't under attack
They traders and our neighbors, which makes it doubly wack
Look at that while these corny ass rappers serving their fiends
Cop shot the kid, I still hear him scream
This ain't funny, so don't you dare laugh
Just another case about the wrong path
Straight and narrow or you will not last
Slick Rick told y'all, goodnight

Knock Em Out the box Kris, out the box Kris
Knock Em Out the box Kris, out the box Kris
Knock Em Out the box Kris, out the box Kris
Knock Em Out the box Kris, out the box Kris

KRS-One Lyrics

"I M A M C R U 1 2"

I M A MC, R U 1 2?
You spell it out as each letter I said to you
I M A MC, R U 1 2?
That's the title of the project that I'm sending to you
It's a message to MCs that whatever you do
Keep your skills tight, the future is depending on you
Never spit for only money or what they're handing to you
Spit for the people, try to predict what your man going to do
Get hungry on them, look at rappers with a cannibal view
I roll with an animal crew and we battled a few
But these days I'm spiting in a party after it's through
Cypher style, keeping it in with a spectacular view
You ain't attacking a crew, in fact we're clapping at you
I wish they would, so I could snap these rappers in two
I be rapping from the sound of the Kalamazoo
Smacking rappers around like the tennis racquets they do
I be spitting what's legitimate, factual, actual and true
Put the mic down for another sound, I am not going to do
I was there in the beginning, I'll be there when it's through
I M A MC, R U 1 2?

I M A MC, R U 1 2?
If you got a chance to spit it, what you gonna do?
I'm too hot to handle, too hot for fans too
When I spit my MC light, they say "we cram to understand you"
I stay hot like the Sudan do
Open your mind, I plan to
With real knowledge, nothing you can't do
Knowledge Reigns Supreme on these fakers I trample
Show up at the spot while they mumble and ramble
Pull out the wax, burn these rappers down like a candle
Watching them scramble, this is just a little example
The street teacher type, at the peak of height, the leader type
The street preacher type, culture keeper, divine speaker type
Truth seeker type, deeper type, seeking freedom type
The eager type, KRS-One, that's what he is like
Making sure the family eating right while we're seeking light
Real skill when I squeeze the mic you're gonna see tonight
146 and Broadway, that's the throwback
Broadway RT 86, that's where the show's at
Jump on the mic with no skill? You get your nose cracked
Me? I was drilling them, killing them, man, you know that
All Across 110 Street, Bobby Womack
Youngins saying "That's the OG, that's the ol' cat"
That's the teacher speaking that new rap and old rap
I'm giving you your heritage back, youngin, hold that

Uh huh

Uh huh

I M A MC, R U 1 2?
I like the sound of it
Only a few heads ever come around and shit
No getting around this shit, I'm pounding it
When I Ad Rock, I get so Beastie Boy I start growling spit
You drowning in it, my flow is like the OG Kush
You loving every ounce that you get
I made it out of the pit, no glam and no glit
This may be Run's House, but I'm the handyman pulling hammers real quick
You can't touch this, with a hand or a grip
Rappers avoiding the smoke like a cigarette after it's lit
I spit the tactical, mathematical, actual shit
After I spit, it's a grip I'm about to go get
Got skills? You a rapper? This the question for you
I M A MC, R U 1 2?
Turn to your friends, if they spit it, ask them too
I M A MC, R U 1 2?

KRS-One Lyrics

"Think Bigger"

(feat. G. Simone)

Gather round (oh yeah)
Think bigger
Think bigger
(This is about life)
Life
(Real life)
Real life
Your life
My life
Real life

Young and strugglin' out there buggin'
Let me sing a song for you
This song ain't for everybody, this is for the chosen few
Those that's born with purpose never worthless this is all for you
You hearin' me at this moment 'cause the spirit is calling you
Somethin' pressing inside revealing it's truth is calling you
But if you don't understand the acronym Simone brought to you
The media will lead your mind to do things you don't want to do
Like dissin' your own heritage and the lineage that belongs to you
This is what a colonists about, dissin' all of you
The past, the present, the future, and what you gonna do
It's not just about now, it's about tomorrow too
You are the cultural foundation of those that will follow you
Just like you model the past, the future gonna model you
So what from this era are you tellin' the future it has to do?
When the future looks back, will they really respect or laugh at you?
These are the real questions that real life will be asking you
But if you distracted by the temptations that they flashin' you
You won't see the opportunities that steady passin' you
This is why despite despite their criticisms I bring the class to you
Because culture ain't about now, it's about who comes after you

Think bigger
Think bigger
Think love

Hear me on this second take
KRS is never fake
Go ahead get your dinner plate
But let me now get somethin' straight
Ain't nobody hatin' on you youngins how you do your do
But you too young to see how these corporations are usin' you
Culturally abusing you, pickin' and choosin' you
Programmin' your mind through the music lines you cruisin' to
Think about the future you, the higher you, the super you
Or will the future you turn out to only be the stupid you?

Knowledge reigns supreme learn this theme it never goes away
The culture keeper, the teacher, this what I'm supposed to say
There's got to be a better way to hear our music every day
B-boys gettin' blown away but comin' outside anyway
We tried again outside in Cedar Park
Power from a street light made the place dark
But yo we didn't care, we turned it out
I don't know if you understand what I'm talkin' about
Remember Bronx River pullin' triggers countin' figures pourin' liquor
Lyric spitter shake and shiver glam and glitter
The mic mixer
I'm just a party ripper
OJ vodka sipper
Here's a little advice: think bigger

Think bigger
Think bigger
Think bigger
Think love
Think peace
Think life
Think free
Think bigger

Immortal Technique Lyrics

"Creation & Destruction"

Yeah
Haha
[Spanish:] Se ha cabado la mierda *[English: "The Bullshit has finished."]*
Bout to drop a def' cut
Yo, yo, yo, huh

Immortal Technique, disintegrates mic's when I spit
I cause more casualties than sunken slave ships
Full to capacity, I bring tragedy to rap without my man Kadafi
The government took Nazi scientists from Germany
To design nuclear rockets and ways of observin' me
'Cause their pathetic attempts, didn't work to murder me
When this country was conceived, these bastards never heard of me
But now I hold the souls of slave masters eternally
Bleeding internally, burnin' D, durin' surgery, verbally
'Cause I'm a spiritual witch
Devils are incompatible
I've been around since the planet was inhabitable
I spit in the ocean and created microscopic animals
Which involved into two species, the righteous and the cannibals
But until then, I had alien women suck me off
When God said "Let there be light", I turned it the fuck off
And that's the reason that the earth is only 5 billion years old
I made the sun shine, and permitted time to unfold
The surface was lava, but when I stepped down, it became cold
Fuck what you've been told
My spiritual form became a swarm of molecule sickness
Manifested liquid trapped inside a mountainous region
Until the skies starting raining, continuous seasons
Immortal Technique, at long last, reincarnated
Undebatable reinstated to leave you decapitated
Je suis fous, but my crazy words make sense *["Je suis fous" means "I am mad" in French]*
I'll split every pound of your body into six pence
I'm sick of simple similes about The Sixth Sense
I'll leave your body drenched in the blood of all your ancestors
You'll never be at peace, like the souls of child molestors
I'll cut you and bless your festering wounds with alcohol
Drown you in a clogged toilet, in a public bathroom stall
I'll rip you down, take a chunk of you home like the Berlin Wall
This is the final call, for all the rappers that wanna brawl
Immortal Technique, the wrong motherfucker to diss
'Cause I allow God to let you motherfuckers exist

Hahahahaha yeah, real oh
We about to crash somethin' now, yo
Yo, yo, yo
I'm the stronghold on your neck that doesn't let you breathe

Stronger than the fake image of God in which you believe
More dangerous than your ignorant ass could ever perceive
A European virus, mutated in Africa, overseas
Transported by mosquitoes and fleas to where you live
So lock yourself in your house with your wife and your kids
You're such a bitch, somebody probably made you out of a rib
My arrest record just scratches the surface of what I did
My bid locked me up and brought my life to an end
I was forgotten, abandoned by my bitches and friends
You don't want beef with people like me so don't pretend
I'll resurrect your aborted baby and kill it again
You get no props in hip-hop like feminine men
I'm iller than any plague God gave Moses to send
You wanna make amends, 'cause I'm the reason that the earth shakes
Burying your fam like Central American earthquakes

Immortal Technique
Harlem to Canada
Lyrically damage ya
[Spanish:] Te dije que se ha cabado la mierda *[English: "I told you the bullshit would end."]*

Immortal Technique Lyrics

"Dominant Species"

[Intro]
Yo, in a hundred years form now
Everyone who's living on this planet will be dead
So it's inconsequential really
All the shit that you talk
All the bullshit that you stand for
It's more important what, what your ready to build
What you're ready to pass down to your children
What you're ready to create
You better fucking remember that
When you challenge a mother fucker like me
Remember, I'm the dominant species

[Verse 1]
I'm stuck inside the future and life is chaotic
The government is psychotically racist and robotic
The matrix of entrapment is socio-economic
Erotic conspiracy theory becomes reality
Life is war, and every day's a battle to me
I'm on the brink of insanity, between extreme intelligence and split personalities
But I elevate to the point of reversing gravity
Revolutionary conceptuality spitting out of me
Even the dead people in my family tell me they proud of me
Stupidity's not allowed by me
Cause I don't got time to play
I'm the black whole lyricist that'll take your shine away
Darkness at any time of day
I'm the Technique and your nobody so what you trying to say
Stellar density becomes your physical alignment
1.8 billion tons per square inch confinement

[Chorus]
Yo, yo, yo, I drop knowledge so heavy it leaves the world unbalanced
Exterminate the spiritual force of all that challenge
I'm the lyrical apocalypse that crumbles the granite
Replacing you as the dominant species on the planet

[Verse 2]
Yo, yo, lyrically I'm infinite like possibilities
But you don't have the capability like infertility
Cause opening your mouth to question my validity
Is like trying to contradict the theory of relativity
When I spit is the epitome of heavy artillery
My enemies are obsessed with me like the bitch in Misery
But break out like father running form responsibility
Every time I step and abuse the mic with versatility
I balance humility, with brutal instinct

I'll make your whole cypher look like those crackers from N'Sync
And I don't care about your link, or your luxury car
I shed light with more magnitude than all of the stars
La Brea tar pit thick
So don't ever talk shit
And remember something nigga, while you rave and rant
A roach can live for nine days without its head but you can't

[Chorus]

[Verse 3]
I'm explicit like video tapes of conjugal visits
Some niggas are too stupid to understand it like astrophysics
Technique is exquisite
I'll make your thoughts a victory
Get pessimistic with the quickness
If you think that I will just become another statistic with anything but success
When I bless the mic as I spit this
Specifically prolific with Kaposi's Sarcoma-type! sickness
My style is like a ten year old child with a slit wrist, too much reality
For the fucking hit list
I got a Black Panther mentality with a spick fist
So you can get dissed
Even if you're locally gold, vocally bold, or globally
Multi-platinum sold
I'm emotionally cold, disciplined, and ready to kill
Like spirits in the same room with you, I'm giving you chills
I drop knowledge while these mother fuckers clumsily spill
And I drop it so heavy, it leaves the world unbalanced
Exterminate the spiritual force of all that challenge
I'm the lyrically apocalypse that crumbles the granite
Replacing you as the dominant species on the planet

Immortal Technique Lyrics

"Positive Balance"

(feat. Big Zoo)

[Intro]
Big Zoo, uh
Technique, uh
Positive balances, uh, uh

[Verse 1 - Big Zoo]
Pound for pound
I'm the most positive when I bust mine
The Zoo adds on like a plus sign
Addition, that's the key in the ignition
With no pause, I propel to pole position (Vroom!)
Ahead of the pack, light years ahead of the wack
I give a fiend a Good Book, instead of the crack
That's the gold mine, negativity can't hold mine
The black bear's headed for the gold mine (look out, look out)
And then I'm positive as Showtime
I make negative MC's switch styles in no time
They change teams, rhyme about kings and queens
Instead of how they sellin' work to fiends
Then I, switch thugs into soldiers
Those that have given up on God to praise J Hova (Damn!)
The rap Ice Age is over
And positivity protects the Z boulder boulder

[Chorus - Immortal Technique w/ Big Zoo ad-libs]
Yeah, you know how it goes, positivity, yeah
My opinion is solid ground but your a common hater
Splitting and dividing on numbers like a denominator
Third-eye navigator movements are necessary
Everything you see in videos is secondary
You need positivity like you need respect in jail
Because without balance you'll be making negative record sales
Neg-neg-negative record sales, ziga-zam, Technique, like this

[Verse 2 - Immortal Technique]
I jerk off inside books and give life to words
Leaving concepts stuck together you probably never heard (what?)
I love when people think I'm psychologically disturbed
Cause it means I overloaded their neurological nerves
Rappers try to serve me with disgusting incompetence
But I keep it positive with ultimate dominance
Meditating with Native Americans close to Providence
I speak to the spirits of ancestors at pow-wows
But rumor has it that you getting raped like Lil' Bow Wow
Now listen industry motherfuckers, don't get offended
Remember, that I'll bring an end to your pretender agenda

And render contenders dismembered, bend the fabric of time (what? what?)
And put your soul in a blender
You living a lie like thinking Jesus was born in December
Instead of catering to labels, something gotta give
I'll rip the electrons out your body and make you positive
I seen a lot of kids come and go with marketing gimmicks
Because without balance, you don't last more than a minute
This ain't a game, I'll beat the shit out you at the line of scrimmage
I rock shows in the ghetto, nigga you stuck in the village
I wanted to spit on the radio since I was eleven
But I can't afford the pay-ola for Hot 97's
So I make paper underground, and I'm soon to blow
Moving tapes like Biggie's ghost at Bad Boy studios
[Biggie - Hypnotize sample]

[Chorus]

Immortal Technique Lyrics

"The Getaway"

[Immortal Technique]
Yo yo, son give me that newspaper

[Friend]
Yeah aight, here you go

[Immortal Technique]
Man, I hate this one yo. You know the Post is always on some bias racist bullshit, man. Word I mean on the daily news

[Friend]
[Laughs] word, I feel you

[Immortal Technique]
They ridiculous man, times are better but they still on some bullshit

[Friend]
[Laughs] I know that man. (Hiss)

[Immortal Technique]
Another nigga killed by these fucking cops, yo!

[Friend]
What? Word? Psh

[Immortal Technique]
See that's why I gotta get the fuck outta here man, I need some peace I need something like that or I'ma just start blasting! These fucking pigs man

[Friend]
I feel you, son *[laughs]*

[Immortal Technique]
For real, yo

[Friend]
Yo son, fuck it then. Let's do something man, let's see some mamis out there

[Immortal Technique]
You know what? Matter fact pack the bags

[Friend]
Aight then

[Immortal Technique]
Start the fucking whip up, I'm outta here yo for real
Yo, I hate my job so I always look to a better day

Far from New York City on a tropical getaway
But not in Miami cause these white Cuban Anti-Castros can't stand me
And that's the reason I'll never win a fixed up Latin Grammy
After this racist Latinos'll goddamn me
But my Black people love me
And when I go to South America people'll be tryna hug me
Cause I talk about reality that effects them
And even though I blew up I could never neglect them
What kind of a revolutionary action would that be
I be categorizing practically every other MC
But never that cause I'm clever with facts
Sever your raps
Fake players and thugs
Will forever be whack
I'm still rolling with my squadron
Heavily strapped
And even if I get killed I'll enviably be back
Encyclopedia Hispanic are over digital dat
Don't ever compare me with small minded criminal cats
I kill kids on tracks like Dale Onhart
Spit in your face and leave your cheekbone with a burn mark
I was born a genius but I learned to be street smart
My vacation just started
I'm out to the Caribbean swimming in Dominican women the color of cinnamon

You motherfuckers wish you had the lifestyle I'm living in
[Laughs] Yo, yo

[Repeat 2x]
East coast to West coast and everything in between
This is dedicated to everybody chasing they dreams
This ghetto fabulous life really ain't what it seems
But I'ma make it cause I got survival stuck in my genes

[Immortal Technique talking]
Word up (word), Immoral Technique representing Harlem all the way to my fam in Englewood. I'm out motherfucker *[Laughs]* The ghetto way nigga

Immortal Technique Lyrics

"Top Of The Food Chain (Remix)"

(feat. Poison Pen)

[Intro: Immortal Technique + (Poison Pen)]

(Uptown, haha) Immortal Technique, Poison Pen
We the top of the food chain motherfucker
Stronghold in it, yo
MC's are just figments of my imagination (tell 'em)
They don't have to be dissed (tell 'em)
I just stop thinkin about them (tell 'em!)
And they cease to exist (tell 'em!)
Don't get me pissed pussies

[Hook: Poison Pen]
Desolate easy Jesus{?}, while they squeezin heaters
You better? Then please defeat us
Ladies is teacher squeezers, they pleased to meet us
Top of the food chain, still roll with bottom feeders
My tongue new in late modern English, I'm from the side with heaters
Always comment on your side as beepers
It ain't no joke, baby the bell is broke
Just holla out the window if you tryin to reach us

[Poison Pen]
Poison Pen for you ballers and bammers
Walk up in the spot, metal detectors went bananas
Stronghold! It's Bronx swingin, give me dap 'til my palm's stingin
Grab your bitch - and make a porn feature
Come out your mouth, that's a nice shirt to bleed on
They only use yo' ass to fuck and roll trees on (BUCK, BUCK, BUCK!)
It's on, your block, your street
Niggaz so puss and they don't speak, they queaf
When you run shit, Stronghold shit
I need a chain I can jump rope with
And Bed-Stuy got 'em, word I'm like Zeus without the eye problem
Some neck without the pearl spot, or it ain't rockin the most
Chicken spots, even if tots got they eyes on your necklace
My life is this flick, and y'all are extras
I double more blocks than Tetris, we perfectionists
And wouldn't have it, any other way, yeah

[Hook]

[Poison Pen]
Pen Pen nigga look good
My flow's a couple of retarded niggaz too dumb
With an impact on hip-hop
Like LL walkin into Def Jam screaming out BOX!

[Immortal Technique]
Immortal Technique, top of the food chain
I'll split your wifey's head open, just to get me some brain
I spit venomous thing with Poison Pen
Destroy the sun and in eight minutes you'll never see day again
Pray for your friends but me and God'll just laugh at you
Tell you to shut the fuck up, and rain acid on you
Break down your molecules and spiritually damage you
Haven't you got the picture yet?
Motherfuckers like you are easy to disrespect, cause you're only a thug
When you on the internet you can't compare your dialect to Tech'
Because you lack the chromos'
I'm a Neo-Sapien, but y'all are still actin like homos

[Hook (replace "heaters" with "Ninas" in first line)]

[Poison Pen]
If you talk {?} high, you get your mouth punched in
Stronghold is my house nigga, greasy apartment
My legions are foul, you eat he crapped out
Ain't never seen no trees in my mouth
Poison Pen magnitude eight-point-three
The hottest shit this side of the Gaza Strip
Alongside many gangs in rap arouses
That point and click without red browsers
Look out it's the 80's all over again it seems
Long hair, denim suits and big tanks, and glitz
We don't look for hoes so they scoop us
Tell your bitch to bring nothin to my crib but, pussy and a toothbrush
And a camcorder, y'all could all relate
They treat my nuts like imported grapes
That's how it is at the, top of the food chain
Poison Pen, Technique and - all y'all better take turns sleepin

Immortal Technique Lyrics

"Beef And Broccoli"

Look, let me make something abundantly clear for people
that are so bereft of activities
they feel like they gotta comment on every one of mine
First of all, being a vegetarian should never be associated
with being a revolutionary or being open minded, that's a dietary choice
If someone wants to proliferate the type of ignorance
we're supposed to be fighting by thinking that, you're just fucking yourself
I don't go around promoting beef and poultry shoving it in peoples faces
I don't castigate people for not eating steak sandwiches
And I would never diss someone for being a fucking broccoli head
or living off radishes or eating grass with tofu
I like a lot of vegan cuisine but the illogicality
of expecting everyone to adopt your particular idea
of what being healthy is, is just preposterous
I've seen some of you herbivores, and if you wanna argue health
y'all need to eat some kind of supplement
because some of y'all are so skinny that it's disgusting
Lookin like the only hip hop motherfuckas on Schindler's list
Being a malnutrition ass got nothing to do
with being revolutionary or being on point
I'll be damned if I let somebody else push their agenda on me
You know, I don't eat pork, not cause I'm a Muslim
I just don't really like it, but I really will fuck a bird up
And fish is good when that shit is fresh
It's like my nigga Vast Aire from Can' Ox said
If you don't like the smell of burning meat, then get the fuck off the planet
You know, I don't criticize people for eating moss
And don't open your fuckin mouth about my food man
I like beef and broccoli motherfucka, mind your God damn business
Matter of fact, you know what? I'm out
I feel like a some aronco pollo, a banana daiquiri
and a motherfuckin bistelpanado

Immortal Technique Lyrics

"No Me Importa"

Look I ain't never been afraid to tell how I really feel
Nunca, I think everybody should know that
Yo creo que todos debemos de saber eso
Fuckin' ought to know, yo
I gotta tell these chicks a lot of times, mira
Tu estas actuando en una manera muy mala
Bien mala y no me importa ya, I gotta let ya know
Let 'em know. Here we go, digale a la gente, primo
Gotta let you know for real. Son drop that

[Verse I]
Siempre me encuentro con la mujer equivocada
A superficial mami con la alma comprada
Yo I'm sick of stupid chicks que hablan de nada
Let's got to my house conversacion acabada
Yeah we can fuck but you gotta go after manana
You walking bowlegged porque te deje clavada
Don't ever talk shit about niggaz and get enojada
There's a reason that you never been properly amada
Cause you fuck niggaz and suck dick como si nada
Para la porqueria and save the drama
Don't come to the fucking club con una actitud mala
You've been drinking too much Bacardi and smoking lala
Escuchame senorita, if you don't respect yourself
Don't expect respect from anyone else
Don't expect un hombre to support you with wealth
Go to college and be successful, do it for delft
Nunca vas a ser shit without knowledge your self
Mamis with cultural ineptitude are bad for your health
That's the type of mujer that I put back on the shelf
And go back to the pack crowd to look for somebody else

Adios, check it

[Hook]
We keep it moving properly
No me importa lo que haces, ain't no way of stopping me
Moving through property, like I own every monopoly
Smoking broccoli, compartiendo ideologies
Pero solamente pasa on special occasions
When beautiful intelligent mamis stay blazing
(Stay blazing!)

Y ahora for you motherfucking niggaz
Yo... si

[Verse 2]

Immortal Technique the resurrected Che Guevara
But y'all cats are just a bunch of fake Tony Montana
I bring drama like revolucion Cubana
And block stages like my last name was Santana
Como puedes comparar your anterouch to my squad
You motherfucker is faker than resurrection full of bud
Don't try to be hard cuz I don't stress faked fellas
I'll burn your house down and empty the clip of tu abuela
Mucha gente try to convince everyone that they trife
Hablando mierda but you never shot a gun in your life
Siempre gritando how you keep it real in the cife
But most of your rappers can't even keep it real with your wife
I'll sacrifice you puto cabron for running his mouth
Car-jack you and kidnap you in front of your house
And while you tied up by that shotgun while I'm driving down south
I'll push the pedal to setenta and kick you the fuck out
Solamente to look back and have something to laugh about
I doubt that you really want Technique as an enemigo
Fuck with me I'll make your people turn up desaparecido
My estilo es Chupa Camaro Y Zapatista
I'm a revel soldier murdering rap artistas
Colombian neck-tile MC hasta la vista
Taking over the fucking country like socialita

Cobardes, yo

[Hook]
We keep it moving properly
No me importa lo que haces, ain't no way of stopping me
Moving through property, like I own every monopoly
I'll broad your fucking brain out and spread your philosophy
This is if te pones celoso motherfucker is watching me
I don't make threats bitch lo que hablo es prophecy

De verdad, para que toda la gente sepa que no me importa
Cuanta mierda ustedes hablan o cuanta mierda
I still be on my job. Forever, I'll still be here
I'll still be doing my thing. Para siempre. Cojudo
Para siempre. I'll be in anybody's parade
Immortal Technique, se ha acabado la mierda..

Immortal Technique Lyrics

"Revolutionary"

[Men talking]

Yo load the fuck up (locked and loading)
You too (locked and loading sir)
Remember break that window when that cop comes in
and blow that motherfuckers head off
[multiple gun shots] (Got him)
Yeah load it up again cause these motherfuckers
are gonna come back for us. (Were ready)
We gotta be prepared in this day and age, we gotta
be prepared for whatever comes the fuck at us. (Word up)
Cause we are living revolutionarily. (Definitely)
You cannot second guess yourself in these days and times
there gonna throw whatever they can at you and you gotta
be prepared for it, you gotta be prepared for anything

[Sample of Malcolm X]
"If liberty or dead,
there's freedom for everybody or freedom for nobody!" *[crowd cheers]*

[Hook]
No matter what the fuck life throws at me
I continue to make it threw indefinitely
Immortal technique defeats the odds repetitively
Until there ain't shit ahead of me competitively
Surviving the tough times is imperative to me
Looking at the whole world revolutionarily

[Sample of Malcolm X]
"They don't want to hear you old uncle tom handkerchief
hand talking about...uh thee *[inaudible]*, no."

Technique will force you into strategical retreat
Because I dominate guerrilla warfare in the streets
There ain't no way to picture me without a victory speech
When I reach higher positions
Without the recognition of pissed on competition
Cause I conquered there ambitions
In a systematic form like a religionist tradition
My mission is to take you, lyrically break you
Lyrically assassinate you
Lyrically incinerate your body and recreate you
To destroy the power that mentally incarcerates you
Cause even though I rip it better I could not forsake you
Your my people with the same oppressors so how could I hate you
The revolution of the mind that bring lee generates you
But when you come original people impersonate you, start to hate you

Cause the conflict is building within the ultimate sin
Is to be ashamed of your skin
My rhymes are like Jamaican over proof I make the room spin
Intoxicated flow I bleed vodka and brandy
Don't make me choke you down like Jon-Benet Ramsey
Something demands of me to rip this fucking shit uncannily
God commanded me to be a technological disease
And psychologically do battle with the best emcee's
Inaudible these in technique
Cause I'm the capital of revolutionary nation that's infallible
Aztec like the Hannibal
Rip your heart out of your chest and feed it to the cannibal's
Your just a fucking animal but I'm the Neo Sapien
Cause my original civilization was based upon creation
You know theirs no escaping even though your heart is racing
I'll put your best disciple on academic probation
Fuck the litigation, fuck the best rapper nominations
And fuck the president I voted for assassinations
I'm saying fuck the federal bullshit investigations
Fuck the cover up of ghetto radiation extermination
Using my people for experimentation
And if doesn't play hip hop then fuck your radio station

[Hook]

[Sample of Malcolm X]
"Revolutions overturn systems, revolutions destroy systems!" *[crowd cheers]*

Yo what the fuck happen to reality spitting rhyme slayers
These days everybody trying to be a thug or a player
Where did all the real motherfuckers go in the game
Bring back the break dancers and graffiti writers with fame
I remember hip hop before the mic cunt clapping
Cause I used to drink forties with more flavor then these rappers
Lyrical ego trips doesn't make fortification
Your not dope enough, spit self glorification
So don't jerk me around cause my name ain't masturbation
Life is hard it'll leave you scarred cause I been threw shit
If you consider rap a job I suggest that you quit
Don't you understand the audience will listen and dance
In the club, crib or car or whatever they get the chance
To be emancipated start debating justice in the cipher
Why do you think project rooms look like the cells in Riker's
I'm explaining the significance or the reason behind it
There preparing your children for the prison environment
When you don't amount to shit prison becomes retirement
But I refuse to be took in to central booking in chains
Cause sleeping on the floor in cages starts to fuck with your brain
The system ain't reformatory, it's only purgatory
Close to hell but I rebel as begin to sparkle out
And tell my people how we fell into the trap that we live in
Because they locked us up in ghetto's and began to rape my women
So I leave the system Unforgiven like East Wood

Cause I was bless with lyrical strength to do whatever I could
You should of seen it coming long ago when you were very young
My word is through the father, holy spirit and his fucking son
Cause when I grab the mic device in front of Christ and start to rip it
I'll make Jesus turn around and say "yo pop this nigga flipped it"
So talk about whatever and be what you wanna be
But don't mistake the way I break the faith for simple blasphemy
Cause through the highest frequencies in the NYC
I'm crushing 97.1 percent of MC's

[Hook]

Immortal Technique Lyrics

"Dance With The Devil"

[Verse 1]
I once knew a nigga whose real name was William
His primary concern, was making a million
Being the illest hustler, that the world ever seen
He used to fuck movie stars and sniff coke in his dreams
A corrupted young mind, at the age of thirteen
Nigga never had a father and his mom was a fiend
She put the pipe down, but for every year she was sober
Her son's heart simultaneously grew colder
He started hanging out, selling bags in the projects
Checking the young chicks, looking for hit-and-run prospects
He was fascinated by material objects
But he understood money never bought respect
He built a reputation 'cause he could hustle and steal
But got locked once and didn't hesitate to squeal
So criminals he chilled with didn't think he was real
You see, me and niggas like this have never been equal
I don't project my insecurities on other people
He fiended for props like addicts with pipes and needles
So he felt he had to prove to everyone he was evil
A feeble-minded young man with infinite potential
The product of a ghetto-bred capitalistic mental
Coincidentally dropped out of school to sell weed
Dancing with the devil, smoked until his eyes would bleed
But he was sick of selling trees and gave in to his greed

[Hook]
Everyone trying to be trife never face the consequences
You probably only did a month for minor offences
Ask a nigga doing life if he had another chance
But then again there's always the wicked that knew in advance
Dance forever with the devil on a cold cell block
But that's what happens when you rape, murder and sell rock
Devils used to be gods angels that fell from the top
There's no diversity because we're burning in the melting pot

[Verse 2]
So Billy started robbing niggas, anything he could do
To get his respect back, in the eyes of his crew
Starting fights over little shit, up on the block
Stepped up to selling mothers and brothers the crack rock
Working overtime for making money for the crack spot
Hit the jackpot and wanted to move up to cocaine
fulfilling the Scarface fantasy stuck in his brain
Tired of the block niggas treating him the same
He wanted to be major like the cut-throats and the thugs
But when he tried to step to 'em, niggas showed him no love

They told him any motherfucking coward can sell drugs
Any bitch nigga with a gun can bust slugs
Any nigga with a red shirt can front like a blood
Even Puffy smoked a motherfucker up in a club
But only a real thug can stab someone till they die
Standing in front of them, staring straight into their eyes
Billy realized that these men were well-guarded
And they wanted to test him before business started
Suggested raping a bitch to prove he was cold-hearted
So now he had a choice between going back to his life
Or making money with made men, up in the cife
His dreams about cars and ice made him agree
A hardcore nigga is all he ever wanted to be
And so he met them Friday night at a quarter to three

[Hook]

[Verse 3]
They drove around the projects slow while it was raining
Smoking blunts, drinking and joking for entertainment
Until they saw a woman on the street walking alone
Three in the morning, coming back from work, on her way home
And so they quietly got out the car and followed her
Walking through the projects, the darkness swallowed her
They wrapped her shirt around her head and knocked her onto the floor
"This is it kid, now you got your chance to be raw."
So Billy yoked her up and grabbed the chick by the hair
And dragged her into a lobby that had nobody there
She struggled hard but they forced her to go up the stairs
They got to the roof and then held her down on the ground
Screaming, "Shut the fuck up and stop moving around!"
The shirt covered her face, but she screamed and clawed
So Billy stomped on the bitch, 'til he broken her jaw
Them dirty bastards knew exactly what they were doing
They kicked her until they cracked her ribs and she stopped moving
Blood leaking through the cloth, she cried silently
And then they all proceeded to rape her violently
Billy was made to go first, but each of them took a turn
Ripping her up, and choking her until her throat burned
Her broken jaw mumbled for God but they weren't concerned
When they were done and she was lying bloody, broken and bruised
One of them niggas pulled out a brand new twenty-two
They told him that she was a witness for what she'd gone through
And if he killed her he was guaranteed a spot in the crew
He thought about it for a minute, she was practically dead
And so he leaned over and put the gun right to her head

[Sample from "Survival of the Fittest" by Mobb Deep]
I'm falling and I can't turn back
I'm falling and I can't turn back

[Verse 4]
Right before he pulled the trigger, and ended her life

He thought about the cocaine with the platinum and ice
And he felt strong standing along with his new brothers
Cocked the gat to her head, and pulled back the shirt cover
But what he saw made him start to cringe and stutter
'Cause he was staring into the eyes of his own mother
She looked back at him and cried, 'cause he had forsaken her
She cried more painfully, than when they were raping her
His whole world stopped, he couldn't even contemplate
His corruption had successfully changed his fate
And he remembered how his mom used to come home late
Working hard for nothing, 'cause now what was he worth
He turned away from the woman that had once given him birth
And crying out to the sky 'cause he was lonely and scared
But only the devil responded, 'cause god wasn't there
And right then he knew what it was to be empty and cold
And so he jumped off the roof and died with no soul
They say death takes you to a better place but I doubt it
After that they killed his mother, and never spoke about it
And listen 'cause the story that I'm telling is true
'Cause I was there with Billy Jacobs and I raped his mom too
And now the devil follows me everywhere that I go
In fact, I'm sure he's standing among one of you at my shows
And every street cypher listening to little thugs flow
He could be standing right next to you, and you wouldn't know
The devil grows inside the hearts of the selfish and wicked
White, brown, yellow and black color is not restricted
You have a self-destructive destiny when you're inflicted
And you'll be one of god's children that fell from the top
There's no diversity because we're burning in the melting pot
So when the devil wants to dance with you, you better say never
Because a dance with the devil might last you forever

[Hidden end feat. Diabolic]

[Immortal Technique]
Oh y'all motherfuckers thought it was over, huh? Well it's not.
You didn't count on a fallen angel getting back into the grace of god and coming after you.
Ya'll niggas ain't shit
Your producers ain't shit. Your fuckin' A & R ain't shit.
I'll fuckin' wipe my ass with your demo deal.
Yo, Diabolic, take this motherfucker's head off!

[Diabolic]
Go 'head and grip Glocks
I'll snap your trigger finger in six spots
You'll have to lip lock with hypodermic needles to lick shots
I'll watch you topple flat
Put away your rings and holla back
Can't freestyle, you're screwed off the top like bottle caps
Beneath the surface
I'm overheatin' your receiver circuits by unleashin' deeper verses than priests speak in churches
What you preach is worthless
Your worship defeat the purpose

Like President Bush takin' bullets for the secret service

Beyond what y'all fathom
I shit on cats and jaw tap 'em
Show no compassion like havin' a straight-faced orgasm
Tour jack 'em
Have his half-a-ten bitch suck my friend's dick
In the mean time, you can french kiss this clenched fist
Diabolic
A one-man brigade spreading cancer plague
Fist-fuckin' a pussy's face
Holdin' a hand grenade
So if I catch you bluffin'
Faggot, you're less than nothin'
I just had to get that stress off my chest like breast reduction

[Immortal Technique]
You motherfuckers are nothing, you cannot harm me
I'll resurrect every aborted baby and start an army
Storm the planet huntin' you down, 'cause I'm on a mission
To split your body into a billion one-celled organisms
Immortal Technique'll destroy your religion, you stupid bitch
You're faker than blue-eyed crackers nailed to a crucifix
I'm 'bout to blow up like NASA Challenger computer chips
Arsenic language transmitted revolutionarily
I'm like time itself, I'm gonna kill you inevitably
Chemically bomb you, fuck usin' a chrome piece
I'm illmatic, you won't make it home like Jerome's niece
I'll sever your head diagonally for thinkin' of dissin' me
And then use your dead body to write my name in calligraphy
This puppet democracy brain-washed your psychology
So you're nothing, like diversity without equality
And your crew is full of more faggots than Greek mythology
Usin' numerology to count the people I sent to Heaven
Produces more digits than 22 divided by 7
You're like Kevin Spacey, your style is usually suspect
You never killed a cop, you not a motherfuckin' thug yet
Your mind is empty and spacious
Like the part of the brain that appreciates culture in a racist
Face it, you're too basic
You're never gonna make it
Like children walking through Antarctica, butt naked

Immortal Technique Lyrics

"The Prophecy"

So you're the motherfucker they call....Immortal Technique.
What the fuck make you so special nigga?
Huh... what the fuck do you do?

I calculate planet alignment like Mayan astronomy
Discovering atrocities worst than Aristotle
Subjecting children to sodomy
Your theory of the galaxy is primitive like Ptolemy
The truth about the universe stuck up like Aztec pottery
Unpredictable results like experimental psychology
I stomp the streets with emcee's beneath my feet in colonies
But presentation and spirit revolve around autonomy
Searching for monogamy
And cutting fake bitches out of my mind like a lobotomy
So obviously I'm not gonna be here to play games
Walked the top of the world and leave the arctic circle in flames
Battle the beast and false prophet predicted in the King James
I give a fuck about your emcee name I don't admire you
Only by dental records will you be identifiable
Cause the future is not reliable
Remember when rap was not economically viable
Comparable to what motherfuckers think of me
I might be nobody but wait till I'm together like a symphony
Resounding sound that will continue infinitely
Angel of death punishing all those who live in infamy
And shine so far away from you
You'll never get a glimpse of me
Attempts to extinguish me don't even bother me none
Like retarded kids throwing ice cubes at the sun
A victory against Immortal Technique will never be done
Just degrees of losing it every second your adding one
Some niggas dream of pushing kilos but I drop tons
With more facts and formulas and philosophical logic
Than a basement full of scientists puffing on chronic
Dipped in mycin potassium cyanide and liquid bubonic
And use it as a sonic one to find the spawn of the demonic
Screaming like onyx is of absolutely no consequence
The poison is dense enough to clog up your arteries
Mercy is not a part of me
I cause you bodily injury permanently be simply verbally murdering me
Is inconceivable cause of the unbelievable evil injected inside
The blood stream of my people
And redemption is not located under a church steeple
The feeble and the meek in soul just like the technique
Will inherit the earth, But the earth will be weak
Mother earth in her decrepit terminal illness physique
The year three thousand is bleak no happily ever after

Just death following the Fourth Reich disaster, a legacy of bastards
With plastic explosives your futures been eroded
Cause you forgot that when your free it's multiplied indefinitely
By the struggle that be the struggle I see
To socialistically united the third world countries
Expose hypocrisy in Americas democracy
Sloppily obsessed with stopping me cause I speak prophecy
Trample and dismantle your capitalist philosophy
The same way I stomp the conquering rap monopoly
And I'm not a fucking prophet
But that's the fucking prophecy

Immortal Technique Lyrics

"No Mercy"

[Malcolm X in his famous speech "The Ballot or the Bullet":]
"Brothers and sisters...friends....and I see some enemies.
[Laughter and then applause]
In fact I think we'd be fooling ourselves if we had a audience this large and didn't realize that there were some enemies present."

[Verse One]
I'm a weapon that fires
Lyrical projectiles with no mercy
I'm cold blooded like reptiles
Touch a pregnant bitch and make her give birth to a dead child
Every time I flex styles
Niggas vacate the premises and become exiles
I manufacture rhymes like textiles of x-files
And lighten juveniles
Living life with no purpose
Organize a army that will make the devil's nervous
Competition is worthless
Like the electoral vote
If you provoke I'll break your motherfucking neck in a yoke
Your better off throwing your shitty life away sniffing coke
Technique will choke you into a spiritual state
And it will take a lake of hydrochloric acid to soften this
I'll fake your parents suicide and kill you in the orphanage
But I inspire ideological metamorphosis
Stop talking shit or I'll make your existence a memory
So you can have me frozen cryogenically for centuries
But I'll break the ice if anyone on the planet mentions me
I'll burn a hypocritical flag intentionally
Explosive revolutionary
Chemistry's my destiny

[Chorus: 2x]
No mercy is what I chemically bomb on enemies
Your life's a fucking mistake, technique is the remedy
Destroy you before you become what you intended to be
And in the future you'll worship those that descended from me

[Verse Two]
When I fight you I won't snipe you
I'll use a HIV infected needle to strike you
As well as anyone that vaguely resembles or looks like you
And just to spite you I'll force your children
At gun point to bite you
And rip a piece off
To start the beef off of the rest of your petty limited life
I'm coming at you to catch ya by surprising the sight

Nobodies stupid enough to back ya when tactically attack ya
Because my style is nasty like protruding bone fractures
And your a played out dirty pussy devil
Like Margaret Thatcher
But technique never get captured inside the rapture
Cause I mastered the art of causing natural disasters
You should learn the difference
In between the students and the master
My stature is the dispatcher of damaging decibels
And even though my starving people are considered expendable
I consecutively escape the racist corporate tentacles
I spit raw kinetic energy that's immeasurable
Retaliation for perpetration is unendable
Mercy is not extendible
I'll break your fucking brain down into psychological chemicals

[Chorus: 2x]

Immortal Technique Lyrics

"The Illest"

(feat. Jean Grae, Pumpkinhead)

[Jean Grae]
Ayo, I burn my bridges with a blow torch
a rebel born from verbal holocaust
dirty and never try to clense to get the drama off
the swiftest stealth assassin snipe you
from balcony shots of terrorist position
professional from the opera box
rhyme documents infamous like the
Bill of Right, illa tight, having niggaz
open like the thrill of dykes Jean Grae
ya koo's a mass murderer, friends who got
the dirt on her, foes who never heard of her
wild style, my mouth gone to train up, I spit
Krolyon in five colours, when I speak I spray my
name up, split your wig up like Denny and Bruce
splash your remains and brains out on the street
like Henny and juice, noose your neck and loosen
your spine from back shift your spleen, rip till it's
just obscene, from down town spilling it, New York
illest who rip it ever, flow like a river fuck a girl
like a nigga what?

[scratches]

[Pumpkinhead]
I've been through Hell and back, scars swell
on my back, I spit bars, y'all spit repetative
raps, I'm a street dude, who decided to rhyme
with lines that'll crack the disc between your mind
and your spine, that's why, y'all wanna bite my design
and that's why, usually I hold the mic like a nine
pistol whip you on the side of your eye, watch it
pop out, we knock out cats, with the floors when
it rocks out, shocked out, like you driving in
a lightning storm, with the top down, we got
this locked down, like convicts on the run
getting shot down, we four times
gaining yards in the whole line, see me
and Tech we steadily building, and we about
to blow like the Oklahoma Federal Building
and all them niggaz get mad when we step in
the building, cause we make the crowd jump
and hit they heads on the ceiling, what?

[scratches]

[Immortal Technique]
I spit heat like the deserts of Saudi Arabia
bury competition like Mesopotamia, emanating
radiation pissing liquid uranium, I bring the rock
like European drunks in soccer stadiums, I'll
split your cranium with perfect symmetry lyrically
if your not the illest, then you don't deserve to
spit with me, OBS obliverating bastards
sacrilegiously, I sacrifice niggaz who
talk shit ritualistically, meticulously making
all my rivals suicidal like white suburban
kids on acid reading the Satanic Bible
my arrival is genocidal, like Christopher
Columbus, exterminating racism of whack
MC's that walk among us, I've just begun to bust
I'll make this place, open gondela
these racist cops wanna lock me longer then
Nelson Mandela, pissed off, I'm making hella
paper, East to West coast, and I treat the law in this
country like a mother fucking joke, cause if I'm
willing to smoke the president, while he's sniffing his
Coke, you know it don't mean shit to me
to cut a fucking cops throat

[Immortal Technique talking]
Yea, Jean Grae, Pumpkinhead, Immortal Technique
DP-one, tell 'em what the fuck we about to do

[scratches]
sh..sh..sh..shit on the whole industry

Immortal Technique Lyrics

"Speak Your Mind"

[Intro]
You have to speak the truth
You have to speak your mind

[Verse 1]
Every time I speak my mind I'm lyrically critical
The pinnacle of being revolutionarily pivotal
Beyond anything ever studied thats metaphysical
Man fuck a minority, I'm not politically minimal
But obviously terminologies that are statistical
Are manufactured to be unequivocally subliminal
Transmitted by monopolized media visuals
So I riddle hypocritically pitiful criminals
Habitually utilizing typical rituals
With false pretense in attempts to be spiritual
TO individuals who believe in biblical miracles
Instead of themselves, because they're not thinking original
And the color of their skin makes them feel invisible
Like microscopic miscarriages lynched wit the umbilical
Only a fuckin imbecile would think their uncorrectable
Cause your susceptible to becoming more than a spectacle
Remember that your flesh your blood and you body are dissectable
Ill beat you until your vegetable
And wake up in a hospital covered in poisonous chemicals
In a fetal position wit your face sewn to your testicles
Thinkin that you were kidnapped by extraterrestrials
You got heart? I'm the blood that pumps in your ventricles
Technique, I'm like ya soul nigga.. indispensable
Wit no respect for those that cower at the hour of revolution
Cause the government owes my people restitution
Instead of sedatives like cocaine and prostitution
Conclusion is that you'll have to violently silence me
Cause I raid the airwaves of cutthroat piracy
In school my teachers blinded me
But now I can see
I'm mentally and revolutionarily free
Broadening Horizons about what my people could be
If we wasn't set up to get shot locked or OD
You see families bleed because of corporate greed
And monopolizing weed is virtually impossible
So it wont be legalized and thats another obstacle
But I'm still rollin up pocket fulls of tropical
The governments involved directly so its unstoppable
Like a nuclear rocket full of biochemical toxins that invade the ecological
Improbable that the average intellect could understand
So I encrypted this into hip hop thats in high demand
and spread it through the ghetto of every city like contraband

Stomp a man of any complexion with a devilish nature
Cause I'm tryin to save the earth, but your just next in line to rape her

"The Point Of No Return"

[Talking]
Yeah... It's that real this time around
Immortal Technique... Revolutionary Vol. 2
It's on now motherfucker..
Lock and load!

[Verse 1]
This is the point of no return I could never go back
Life without parole, up state shackled and trapped
Living in the hole, lookin' at the world through a crack
But fuck that, I'd rather shoot it out and get clapped
I've gone too far, there ain't no coming back for me
Auschwitz gas chamber full of Zyklon-B
Just like the Spanish exterminating Tainos
Raping the black and Indian women, creating Latinos
Motherfuckers made me out of self-righteous hatred
And you got yourself a virus, stuck in the Matrix
A suicide bomber strapped and ready to blow
Lethal injection strapped down ready to go
Don't you understand they'll never let me live out in peace
Concrete jungle, guerrilla war out in the streets
Nat Turner with the sickle pitch fork and machete
The end of the world, motherfucker you not ready
This is the point of no return and nobody can stop it
Malcolm little when he knelt before Elijah Muhammad
The comet that killed the dinosaurs, changing the earth
They love to criticize they always say I change for the worse
Like prescription pills when you miss-using them nigga
The Templar Knights when they took Jerusalem nigga
And figured out what was buried under Soloman's Temple
Al Aksa the name is not coincidental
I know too much, the government is trying to murder me
No coming back like cutting your wrist open vertically
How could a serpent be purposely put in charge of the country
Genetic engineered sickness spread amongst me
My people are so hungry that they attack without reason
Like a fuckin' dog ripping off the hand that feeds him
Immortal Technique is treason to the patriot act
So come and get me motherfucker cause I'm not coming back

[Hook]
This is the point from which I could never return
And if I back down now then forever I burn
This is the point from which I could never retreat
Cause If I turn back now there can never be peace
This is the point from which I will die and succeed
Living the struggle, I know I'm alive when I bleed

From now on it can never be the same as before
Cause the place I'm from doesn't exist anymore

[Verse 2]
This is the point of no return nigga you better believe this
Mary Magdalen giving birth to the children of Jesus
The evolution of the world, bloody and dramatic
Human beings killing monkeys to conquer the planet
The kingdoms of Africa and Mesopotamia
Machine gunnin' your body with depleted uranium
This is the age of micro chips and titanium
The dark side of the moon and contact with aliens
I started out like Australians, criminal minded
Broke into hell, tore it down, and built a city behind it
SouthPaw, murderous, methodology nigga
Remember that I'm just a man don't follow me nigga
Cause once you past the point you can never go home
You've got to face the possibility of dying alone
So tell me motherfucker, how could you die for the throne?
When you don't even got the fuckin' heart to die for your own
It rains acid, one day the earth will cry from a stone
And you'll be lookin' at the world livin' inside of a dome
Computerized humanity living inside of a clone
This is the place where the unknown is living and real
Wormwood the planet X and the seventh seal
Universal truth is not measure in mass appeal
This is the last time that I kneel and pray to the sky
Cause almost everything that I was always ever told was a lie

[Hook]
This is the point from which I could never return
And if I back down now then forever I burn
This is the point from which I could never retreat
Cause If I turn back now there can never be peace
This is the point from which I will die and succeed
Living the struggle, I know I'm alive when I bleed
From now on it can never be the same as before
Cause the place I'm from doesn't exist anymore

Immortal Technique Lyrics

"Peruvian Cocaine"

(feat. C-Rayz Walz & others)

[Intro: from the film "Scarface"]
[Host:] I've heard whispers about the financial support
your government receives from the drug industry.

[Guest:] Well, the irony of this, of course, is that
this money, which is in the billions, is coming from
your country. You see, you are the major purchaser of
our national product, which is of course cocaine.

[Host:] On one hand, you're saying the United States
government is spending millions of dollars to
eliminate the flow of drugs onto our streets. At the
same time, we are doing business with the very same
government that is flooding our streets with cocaine.

[Guest:] Mmm-hmm, si, si. Let me show you a few other
characters that are involved in this tragic comedy.

[Beat starts]

[Two Men Speak in Spanish]

[Immortal Technique - Worker]
I'm on the border of Bolivia, working for pennies
Treated like a slave, the coca fields have to be ready
The spirit of my people is starving, broken and sweaty
Dreaming about revolution (REVOLUTION!) looking at my machete
But the workload is too heavy to rise up in arms
And if I ran away, I know they'd probably murder my moms
So I pray to "Jesus Cristo" when I go to the mission
Process the cocaine, paste and play my position

[Pumpkinhead - Cocaine Field Boss]
OK, listen Juan Valdez, just give me my product
Before we chop off ya hands for worker's misconduct
I got the power to shoot a copper, and not get charged
And it would be sad to see your family in front of a firing squad
So to feed your kids, I need these bricks
40 tons in total, let me test it, indeed I *[sniff]*
Shit, this is good, pass me a tissue
And don't worry about them, I paid off the officials

[Diabolic - Peruvian Leader]
Yo, it don't come as a challenge, I'm the son of some of the foulest
Elected by my people...the only one on the ballot
Born and bred to consult with feds, I laugh at fate

And assassinate my predecessor to have his place
In a third-world fascist state, lock the nation
With 90% of the wealth in 10% of the population
The Central Intelligence Agency takes weight faithfully
The finest type of China white and cocaine you'll see

[Tonedeff - American Drug Distributor]
Honey I'm home, nevermind why our bank account's suddenly grown
It's funny, we're so out of this debt from this money we owe
Would've ya...mind if I told you I had two governments overthrown
To keep our son enrolled in a private school, and to keep ya tummy swollen
C'mon, our fuckin' home was built on the foundation of bloody throats
The hungry stolen of they souls, of course this country's runnin' coke
I took a stunted oath to hush the one's who know
But CIA conducts the flow of these young hustlers who lust for dough

[Poison Pen - Drug Dealer]
I don't work in the hood (Hit my connect)
Plus what's really good, they supply for the hood
These dudes fucking crack me up, scrutinize like we inferior
Petrified when we meet in my area (calm down)
My dude's'll shoot until I say so, got the loot?
Give me the YAY YAY like Ice Cube, so don't play with my llello
We won't stop for you bastards
Must choose (?), chop it and bag it

[Loucipher - Undercover Police Officer]
Taking pictures and tapping phones
Debating snitches and cracking codes
Past a couple, blast the fo',
Want any hustler stacking dough with probably crack the blow
And my overtime is where your taxes go
I gain your trust
Get you to hand weight to us because we paid up front
On the low with cameras taping ya
Getting pop away? The prison sentence is going to
Make the officer leave with two ki's out the evidence room

[C-Rayz Walz - Prison Inmate]
Out the evidence room *[Said with Loucipher]*
Went my fame, truck, boat or plane, they watching you
You think you got work? They copping too
We control blocks, they lock countries
Ya own companies, we had nice cars and sneaker money
Now there's players out there, talking 'bout the holding
With bugs in they house like they down South with windows open
Your dough ain't long, you wrong, you take shorts and (?)
Feds will be up in your mouth...like forks and spoons
So enjoy the rush, live plush off Coke bread
Soon you'll be in a cell with me, like Jenny Lopez
In school, I was a bully, now life is fully a joke
I keep a flow on a boat for Peruvian Coke
Players do favors for governors and tax makers

Fat Quakers smoke crack and sex acts with bad mayors
The walls got ears, you big mouths probably scared
Not prepared to do years like Javier

[Immortal Technique Speaking]
The story just told is an example of the path that
drugs take on their way to every neighborhood, in
every state of this country. It's a lot deeper than
the niggas on your block. So when they point the
finger at you, brother men, this is what you've got to tell them:

[Wesley Snipes - from "New Jack City"]
I'm not guilty. YOU'RE the one that's guilty. The
lawmakers, the politicians, the Colombian drug lords,
all you who lobby against making drugs legal. Just
like you did with alcohol during the prohibition.
You're the one who's guilty. I mean, c'mon, let's kick
the ballistics here: Ain't no Uzi's made in Harlem.
Not one of us in here owns a poppy field. This thing
is bigger than (Immortal Technique). This is big
business. This is the American way.

Immortal Technique Lyrics

"Harlem Streets"

[Verse 1]
Yeah.... Harlem streets stay flooded in white powder
Like those motherfuckers running away from the Twin Towers
Gun shots rock the earth like a meteor shower
Bowling For Columbine, fair, giving the media power
Innocence devoured like a chicken spot snack box
Government cocaine cooked into ghetto crack rock
Corrupt cops false testimony at your arraignment
Check to check, constant struggle to make the payments
Working your whole life wondering where the day went
The subway stays pakced like a multi-cultural slave ship
It's rush hour, 2:30 to 8, non stoppin'
And people coming home after corporate share croppin
And fuck flossin, mothers are trying to feed children
But gentrification is kicking them out of their building
A generation of babies born without health care
Families homeless, thrown the fuck off of the welfare

[Hook]
Homicide Harlem, BLAOW!, what's the problem?
Homicide Harlem, BLAOW!, what's the problem?
Homicide Harlem, BLAOW!, what's the problem?
Homicide Harlem, BLAOW!, what's the problem?

[Verse 2]
It's like Cambodia the killing fields uptown
We live in distress and hang the flag upside down
The sound of conservative politicians on television
People in the hood are blind so they tell us to listen
They vote for us to go to war instantly
But none of their kids serving the infantry
The odds are stacked against us like a casino
Think about it, most of the army is black and latino
And if you can't acknowledge the reality of my words
You just another stupid mother fucker out on the curb
Trying to escape from the ghetto with your ignorant ways
But you can't read history at an illiterate stage
And you can't raise a family on minimum wage
Why the fuck you think most of us are locked in a cage
I give niggaz the truth, cause they pride is indigent
You better off rich and guilty than poor and innocent
But I'm sick of feeling impotent watching the world burn
In the era of apocalypse waiting my turn
I'm a Harlem nigga that's concerned with the future
And if your in my way it'd be an honor to shoot ya
Up root ya with the evil that grows in my people
Making them deceitful, cannibalistic and lethal

But I see through the mentality implanted in us
And I educate my fam about who we should trust

[Hook]
Homicide Harlem, BLAOW!, what's the problem?
Homicide Harlem, BLAOW!, what's the problem?
Homicide Harlem, BLAOW!, what's the problem?
Homicide Harlem, BLAOW!, what's the problem?

Immortal Technique Lyrics

"Obnoxious"

Asshole
Don't know me

I'm obnoxious, motherfucker can't you tell
Run through Little Havana yelling, '¡Viva Fidel'
Jerking off with the sheets when I stay at hotels
Drinking Bacardi at AA meetings, smoking a L

I'm broke as hell, my attitude is no good
Like working for white people after watching Rosewood
So I'm a mercenary, I don't care how I get richer
Like American companies that did business with Hitler

Get the picture, nigga? I'm the best of both worlds
Without the hidden camera and the 12-year old girl
Let's face it, you're basic, you aren't half the man that I am
I'll throw your gang sign up, and then I'll spit on my hand

Give me a hundred grand, give me your watch, give me your chain
That's your girl? Bitch, get over here, give me some brain
I'll bust off on her face, and right after the segment
She'll probably rub it in her pussy, tryna get herself pregnant

I said it I meant it, that's the way I deal with enemies
Like pro-lifers that support the death penalty
And don't talk about war when niggas know that you're puss
A fucking hypocrite draft-dodger like George Bush

Don't push me, nigga, 'cause I'm close to the edge
And I'll jump of with a rope that's wrapped around your head
Send a dead fetus to my ex on Valentine's Day
The safety's off nigga, so get the fuck out my way

Obnoxious nigga, murderous lyrics
I know that you hear it
Now that I'm getting closer and closer I know that you feel it
You're eating off rap, and I hope you choke on your gimmick
Niggas said hip-hop was dead but I'm invoking the spirit
We're taking it back in the day to the Golden Age
When wack motherfuckers used to get thrown off stage
Immortal Technique, I made this to bump in your ride
Or burn it off the Internet, and bump it outside
Nigga, we're keeping it live, we're keeping it live
We're keeping it live, we're keeping it live
Burn it off the fucking Internet, and bump it outside

Yeah, nigga

Look motherfucker, my words damage and slaughter
A raging alcoholic like the president's daughters
Disgusting flow like third-world-country tap water.
But before I hit the border, someone give me a quarter

'Cause I'mma prank call, cop shot just for kicks
Payback for every time that they called me a "spic"
And Puerto-Rican chicks told me that I fuck like I'm loco
And Dominican women call me the 'Rompe Toto'

They call me "ocioso", I'd rather get fired than quit
I get unemployment, you work, and we making the same shit
How dare you niggas criticize the way that I spit
You coffee-shop revolutionary son of a bitch

But you know what the fuck I think is just pathetic and gay
When niggas speculate what the fuck 'Pac would say
You don't know shit about a dead man's perspective
And talking shit'll get your neck bone disconnected

Disrespected niggas don't show no love
Why you tryna be hardcore, you fucking homo-thug
And don't be sensitive and angry at the shit that I wrote
'Cause if you can take a fucking dick, you can take a joke

I'll choke your friends in front of you, to prove that you've fallen off
And you won't do shit about it, like the Church during the Holocaust
Kalashnikov machine gun flow that I fire
Obnoxious until they shoot me on the day I retire

Obnoxious nigga, murderous lyrics
I know that you hear it
Now that I'm getting closer and closer I know that you feel it
You're eating off rap, and I hope you choke on your gimmick
Niggas said hip-hop was dead but I'm invoking the spirit
We're taking it back in the day to the Golden Age
When wack motherfuckers used to get thrown off stage
Immortal Technique, I made this to bump in your ride
Or burn it off the Internet, and bump it outside
Nigga, we're keeping it live, we're keeping it live
We're keeping it live, we're keeping it live
Burn it off the fucking Internet, and bump it outside

Damn, homie, in high school I beat the shit out of you and your man, homie
Your girl wanna blow me and don't even know me
She lonely and she thinks you're a phony
I'll take a piss on a development deal from Sony, or Def Jam
'Cause you're like all of the rest man
This ain't a verse, it's shit talk at the end of the song
And you can suck a dick if you think I ended it wrong
Fuck you and I'm gone

Peace to the Stronghold, EOW
Word-A-Mouf, Forbidden Chapters
IAK niggas, Wax Poe, killin' you slow
The Plague, I'll murder a show
You don't even know
Yeah, foul play nigga
Harlem!

Immortal Technique Lyrics

"The Message & The Money"

[Immortal Technique]
Before we go any further..
I would like to send a message to all the underground mc's out there, working hard
The time has come to realize you networked in a market
and stop being a fucking commodity
And if you didn't understand what I've just said then you already waiting to get fucked
For example; a lot of these promoters are doing showcases
throwing events, and not even paying the workhorses
They trying get us to rock for the love of hiphop or rock for the exposure
Now look man, I don't mind doing a guest spot for my peeps
Or, or, or doing a benefit show, but don't lie to me pussy
Coz I find out I'm paying your lightbill, I'm fucking you up nigga
Besides, you ain't doing this for the love, you ain't doing it for the exposure
you charging up to 10$ at the door, and you ain't tryin to give me shit??
So wait a minute... you want me to go shopping, cook the food, and put it in front of you
but you won't let me sit down and eat with you? The fuck is that?
Niggaz need to start playing their position, man. Just coz you throw a party
a hosting event or an open mic or a showcase, or a battle
that don't make you important at all
Without me and everybody like me out there
you ain't nutting but a good idea, motherfucker
So stay in your place

And to all these bitchass saronayas who are too lazy to come up with a way to sell records..
That they keep recycling marketing schemes and imagery
C'mon..
There is a market for everything man
There is a market for pet psychologists nigga. There is a market for twisted
shitfetish video's. For nipplerings, for riverdancing, for chocolate cupboard roaches..
But you can't find one for cultured hardcore reality and hiphop?
People like you: the house nigga executives
and them rich motherfuckers that own you; you the motherfucking machine man!
You and all these niggaz talking about the same shit
with the same flow over the same candy-ass beats
But I refuse the feed the machine
And Im not giving any magazine money
So maybe my album won't get 5 mics, or double-x-l's, or 5 discs
Whatever man, fuck it
But then again; you don't own me, and none of you niggaz ever will
If I'm feeling what you fight for I'm rolling with you to the end
But if not, then FUCK YOU!
And the more that mc's, producers, dj's
and independent labels start to grasp the conceptuality
of what their contribution to the business of hiphop is
rather then just the music - the more the industry will be forced to change

Oh, heh, and one last thing;

You don't have to agree with everything I've said
But don't ever be condescending to me
Picking up your wack ass friends that rhyme and being like
'Ow yeah, Immortal Technique - he's aaiight'
No nigga..
Your mom is pussy, that's aaiight, ok..
Your peoples getting shot dead in the street, that's aaiight
I'm the motherfucking Immortal Technique nigga! The message and the money!
And you ain't got either!
Remember that!
Punk ass motherfucker..

Immortal Technique Lyrics

"Industrial Revolution"

[Verse 1]
Yeah nigga, Immortal Technique, metaphysics

The bling-bling era was cute but it's about to be done
I leave you full eclipse like the moon blocking the sun
my metaphors are dirty like herpes but harder to catch
like an escape tunnel in prison I started from scratch
and now these parasites wanna percent of asscap
trying to control perspective like an acid flashback
but here's a quotable for every single record exec
"get your fucking hands out my pocket nigga" like Malcolm X
but this ain't a movie, I'm not a fan or a groupie
and I'm not that type of cat, you can afford to miss if you shoot me
curse to heavens and laugh when the sky electrocutes me
Immortal Technique stuck in your thoughts darkening dreams
no ones as good as good as me, they just got better marketing schemes
I leave you to your own destruction like sparking a fiend
'cause you got jealousy in you voice like star scream
and that's the primary reason that I hate you faggots
I've been nice since niggas got killed over 8-ball jackets
and Reebok Pumps that didn't do shit for the sneaker
I'm a heatseaker with features that'll reach through the speaker
and murder counter revolutionaries personally
break a thermometer and force feed his kids mercury
ANR's tried jerking me thinking they call shots
offered me a deal and a blanket full of small pox
your all getting shot, you little fucking treacherous bitches

[Hook]
This is the business, and you all ain't getting nothing for free
and if you devils play broke, then I'm taking your company
you can call it reparations or restitution
lock and load nigga, industrial revolution

[Verse 2]
I want fifty three million dollars for my collar stand
like the Bush administration gave to the Taliban
and fuck packing grams nigga, learn to speak and behave
you wanna spend twenty years as a government slave
two million people in prison keep the government paid
stuck in a six by eight cell alive in the grave
I was made by revolution to speak to the masses
deep in the club toast the truth, reach for the glasses
I burn an orphanage just to bring heat to you bastards
innocent deep in a casket, Colombian fashion
intoxicated off the flow like thugs passion
you motherfuckers will never get me to stop blastin'

your better off asking Ariel Sharon for compassion
your better off banging for twenty points for a label
your better off battling cancer under telephone cabels
Technique chemically unstable, set to explode
foretold by the dead sea scrolls written in codes
so if your message ain't shit, fuck the records you sold
'cause if you go platinum, it's got nothing to do with luck
it just means that a million people are stupid as fuck
stuck in the underground in general and rose to the limit
without distribution managers, a deal, or a gimmick
Revolutionary Volume 2, murder the critics
and leave your fucking body rotten for the roaches and crickets

[Hook]

Immortal Technique Lyrics

"Crossing The Boundary"

Danger! Beat bandits, nigga!
Yeah. Harlem to Chicago to L.A., to Toronto, Philly, motherfucking Rio De Janeiro, nigga
Ha-ha. Cape Town, South Africa

I never make songs that disrespect women
Or that judge people about the way that they're living
But the way I am is based on the life I was given
Like them white boys: 'Losing My Religion'

I used to be a Christian and a political pawn
The Bible is right and all your native culture is wrong
Next thing you know you telling me 'bout making a song
Come in the studio, and tell me that I'm making it wrong

Pissed off 'cause reality is making us strong
Like the ghost of Timothy McVeigh making a bomb
'Ey yo Marvin Gaye, what the fuck is going on
These rap niggas made propaganda out of your song

But it's the gong show, amateur night at the Apollo
My dick is like my music, but harder to swallow
So children follow me, like the pied piper
And sing the chorus in the air, with your blunt in your lighter

Sing that shit nigga right now

You played yourself thinking your down with me
I end your life, nigga, don't fuck around with me
And if you kids can't listen, then you're bound to see
The way you get shot for crossing the boundary

You played yourself thinking your down with me
I end your life, nigga, don't fuck around with me
And if you kids can't listen, then you're bound to see
The way you get shot for crossing the boundary

The second verse is worse than the first in this respect
Scripted specifically to keep people in check
Harlem to Boston, real niggas spit with me
But Landspeed, you ain't fucking shit to me

And underground labels know that I don't trust you
You're only independent 'til you're major, so fuck you
And if you're pissed off 'cause you think that I dissed you
I'll rape your mom so we can make this a personal issue

'Dance With The Devil', remember that you're not on my level

Stupid, you're not ready, I won Disypher, Bragging Rights from Rocksteady
And practically every battle that they got in New York
And I still murder rappers on the street for sport

Doctor Guillotine cutting you short, little man
But you don't give me props 'cause I never won at Scribble Jam
Well, fuck you, I hope somebody you love dies, so fuck your crew
And fuck your family too
Technique said it bitch
What the fuck you gon' do?

You played yourself thinking your down with me
I end your life, nigga, don't fuck around with me
And if you kids can't listen, then you're bound to see
The way you get shot for crossing the boundary

You played yourself thinking your down with me
I end your life, nigga, don't fuck around with me
And if you kids can't listen, then you're bound to see
The way you get shot for crossing the boundary

Yeah. Wrap it up on these niggas. Wrap it up. Yeah

Immortal Technique incinerate degenerate fags
Burn Trent Lott, wrapped in his confederate flag
I got the Beretta with my face wrapped in a rag
So put the African slave jewelry in the bag

Motherfuckers tell me that a diamond is forever
What?
But is it worth the blood of Malcolm and Medgar Evers?
House niggas get your head severed trying to be thug
You don't concern me, I'm trying to hurt the people you love

Word of mouth is I'm in the club being sneaky
I'm like the body snatchers and your girl is getting sleepy
I'll murder you indiscreetly, right at the source
Like the Roman legionnaire that stabbed Christ on the cross

This is about Judo, it ain't about Jesus
And you shouldn't fucking talk about telekinesis
Nigga, please, moving shit with your mind
Try moving your moms out the projects with your rhymes

And next time, I'm coming after 'cual quiera' profanity
Fucking 'carajo maldita mierda'
Roll up 'de hierba, y pasala, para la isquierda'

Put the price up to listen to me pop shit
'Cause I got Martha Stewart giving me stock tips
Underground money with honeys up in the whip
Bangbus.com, nigga, fucking your bitch

Yeah, played yourself, nigga
Fuck all ya, you don't know shit about me
Why open your mouth and discuss who the fuck I am
I thought I told you niggas on volume one, I wasn't fucking around
You just slept, 'cause you sold a few thousand units in the golden era
When niggas would buy anything on the shelf
But those days are through, and you are through with them

Immortal Technique Lyrics

"The 4th Branch"

[Talking]
The new age is upon us
And yet the past refuses to rest in its shallow grave
For those who hide behind the false image of the son of man
shall stand before God!!! It has begun
The beginning of the end
Yeah..
Yeah... yeah, yeah

[Verse 1]
The voice of racism preaching the gospel is devilish
A fake church called the prophet Muhammad a terrorist
Forgetting God is not a religion, but a spiritual bond
And Jesus is the most quoted prophet in the Qu'ran
They bombed innocent people, tryin' to murder Saddam
When you gave him those chemical weapons to go to war with Iran
This is the information that they hold back from Peter Jennings
Cause Condoleeza Rice is just a new age Sally Hemmings
I break it down with critical language and spiritual anguish
The Judas I hang with, the guilt of betraying Christ
You murdered and stole his religion, and painting him white
Translated in psychologically tainted philosophy
Conservative political right wing, ideology
Glued together sloppily, the blasphemy of a nation
Got my back to the wall, cause I'm facin' assassination
Guantanamo Bay, federal incarceration
How could this be, the land of the free, home of the brave?
Indigenous holocaust, and the home of the slaves
Corporate America, dancin' offbeat to the rhythm
You really think this country, never sponsored terrorism?
Human rights violations, we continue the saga
El Savador and the contras in Nicaragua
And on top of that, you still wanna take me to prison
Just cause I won't trade humanity for patriotism

[Hook]
It's like MK-ULTRA, controlling your brain
Suggestive thinking, causing your perspective to change
They wanna rearrange the whole point of view of the ghetto
The fourth branch of the government, want us to settle
A bandana full of glittering, generality
Fighting for freedom and fighting terror, but what's reality?
Read about the history of the place that we live in
And stop letting corporate news tell lies to your children

[Verse 2]
Flow like the blood of Abraham through the Jews and the Arabs

Broken apart like a woman's heart, abused in a marriage
The brink of holy war, bottled up, like a miscarriage
Embedded correspondents don't tell the source of the tension
And they refuse to even mention, European intervention
Or the massacres in Jenin, the innocent screams
U.S. manufactured missles, and M-16's
Weapon contracts and corrupted American dreams
Media censorship, blocking out the video screens
A continent of oil kingdoms, bought for a bargain
Democracy is just a word, when the people are starvin'
The average citizen, made to be, blind to the reason
A desert full of genocide, where the bodies are freezin'
And the world doesn't believe that you fightin' for freedom
Cause you fucked the Middle East, and gave birth to a demon
It's open season with the CIA, bugging my crib
Trapped in a ghetto region like a Palestinian kid
Where nobody gives a fuck whether you die or you live
I'm tryin' to give the truth, and I know the price is my life
But when I'm gone they'll sing a song about Immortal Technique
Who beheaded the President, and the princes and sheiks
You don't give a fuck about us, I can see through your facade
Like a fallen angel standing in the presence of God
Bitch niggaz scared of the truth, when it looks at you hard

[Hook]
It's like MK-ULTRA, controlling your brain
Suggestive thinking, causing your perspective to change
They wanna rearrange the whole point of view in the ghetto
The fourth branch of the government, want us to settle
A bandana full of glittering, generality
Fighting for freedom and fighting terror, but what's reality?
Martial law is coming soon to the hood, to kill you
While you hanging your flag out your project window

[Talking]
Yeah..
The fourth branch of the government AKA the media
Seems to now have a retirement plan for ex-military officials
As if their opinion was at all unbiased
A machine shouldn't speak for men
So shut the fuck up you mindless drone!
And you know it's serious
When these same media outfits are spending millions of dollars on a PR campaign
To try to convince you they're fair and balanced
When they're some of the most ignorant, and racist people
Giving that type of mentality a safe haven
We act like we share in the spoils of war that they do
We die in wars, we don't get the contracts to make money off 'em afterwards!
We don't get weapons contracts, nigga!
We don't get cheap labor for our companies, nigga!
We are cheap labor, nigga!
Turn off the news and read, nigga!
Read... read... read...

Immortal Technique Lyrics

"Internally Bleeding"

Yea... Yea... Ay yo
The things I've seen in life will make you choke by surprise
Like an aborted fetus in a jar that opened it's eyes
Provoking my demise, I'll leave your spirit broken inside
Like the feeling of 50 million people hoping you'd die
And niggaz wonder why my heart is full of hatred and anger
Cause some bitch killed my first born son with a coat hanger
I strangled out the pain until my soul was empty and cold
Crippled and worthless, so I thought that it could never be sold
My mother told me that placing my faith in God was the answer
But then I hated God cause he gave my mother cancer
Killing her slow like the Feds did to the Black Panthers
The genesis of genocide is like a Pagan religion
Carefully hidden, woven into the holidays of a Christian
I had a vision of nuclear holocaust on top of me
And this is prophecy, the words that I speak from my lungs
The severed head of John the Baptist speaking in tongues
Like "Che Guevara" my soliloquies speak through a gun
Paint in slow motion like trees that reach for the sun
Nigga the preaching is done cause I don't got a DJ
Like Reverend Run, I curse the life of any man who kills
Benevolent ones, I never asked to be the messenger
But I was chosen to speak the words of every African slave
Dumped in the ocean, stolen by America
Tortured, buried, and frozen written out of the history books
Your children are holding, internally bleeding, cold blooded
Stripped of emotion, I go through the motions, but there's no
Life in my eyes, it's like I'm hooked up to a respirator
Waiting to die, hooked up to the fucking chair
Waiting to fry, soothing an electrocution currently used
In my execution, producing thoughts at the speed of light
Burning confusion, I'm loosing my sight, breathing is tight
The evening is white, I made my peace with the Lord and now I
Stand on his right..

Death is a another part of life..
These are my last words, I'm having difficultly breathing
Dying on the inside, internally bleeding
Angel of death dragging me away while I'm sleeping
Watching my world crumble in front of me, searching for meaning
These are my last words, I'm having difficultly breathing
Dying on the inside, internally bleeding
Angel of death dragging me away while I'm sleeping
Watching my world crumble in front of me, searching for meaning

Immortal Technique Lyrics

"Cause Of Death"

[Talking]
Immortal Technique
Revolutionary Volume 2
Yeah, broadcasting live from Harlem, New York
Let the truth be known..

[Verse 1]
You better watch what the fuck flies outta ya mouth
Or I'ma hijack a plane and fly it into your house
Burn your apartment with your family tied to the couch
And slit your throat, so when you scream, only blood comes out
I doubt that there could ever be...a more wicked MC
'Cause AIDS infested child molesters aren't sicker than me
I see the world for what it is, beyond the white and the black
The way the government downplays historical facts
'Cause the United States sponsored the rise of the 3rd Reich
Just like the CIA trained terrorists to the fight
Build bombs and sneak box cutters onto a flight
When I was a child, the Devil himself bought me a mic
But I refused the offer, 'cause God sent me to strike
With skills unused like fallopian tubes on a dyke
My words'll expose George Bush and Bin Laden
As two separate parts of the same seven headed dragon
And you can't fathom the truth, so you don't hear me
You think illuminati's just a fucking conspiracy theory?
That's why Conservative racists are all runnin' shit
And your phone is tapped by the Federal Government
So I'm jammin' frequencies in ya brain when you speak to me
Technique will rip a rapper to pieces indecently
Pack weapons illegally, because I'm never hesitant
Sniper scoping a commission controlling the president

[Hook]
Father, forgive them, for they don't know right from wrong
The truth will set you free, written down in this song
And the song has the Cause of Death written in code
The Word of God brought to life, that'll save ya soul..

Save ya soul motherfucker...save ya soul..

Yeah, yeah, yeah

[Verse 2]
I hacked the Pentagon for self-incriminating evidence
Of Republican manufactured white powder pestilence
Marines Corps. flack vest, with the guns and ammo
Spittin' bars like a demon stuck inside a piano

Turn a Sambo into a soldier with just one line
Now here's the truth about the system that'll fuck up your mind
They gave Al Queda 6 billion dollars in 1989 to 1992
And now the last chapters of Revelations are coming true
And I know a lot of people find it hard to swallow this
Because subliminal bigotry makes you hate my politics
But you act like America wouldn't destroy two buildings
In a country that was sponsoring bombs dropped on our children
I was watching the Towers, and though I wasn't the closest
I saw them crumble to the Earth like they was full of explosives
And they thought nobody noticed the news report that they did
About the bombs planted on the George Washington bridge
Four Non-Arabs arrested during the emergency
And then it disappeared from the news permanently
They dubbed a tape of Osama, and they said it was proof
"Jealous of our freedom," I can't believe you bought that excuse
Rocking a motherfucking flag don't make you a hero
Word to Ground Zero
The Devil crept into Heaven, God overslept on the 7th
The New World Order was born on September 11

[Hook]

[Verse 3]
And just so Conservatives don't take it to heart
I don't think Bush did it, 'cause he isn't that smart
He's just a stupid puppet taking orders on his cell phone
From the same people that sabotaged Senator Wellstone
The military industry got it poppin' and lockin'
Looking for a way to justify the Wolfowitz Doctrine
And as a matter of fact, Rumsfeld, now that I think back
Without 9/11, you couldn't have a war in Iraq
Or a Defense budget of world conquest proportions
Kill freedom of speech and revoke the right to abortions
Tax cut extortion, a blessing to the wealthy and wicked
But you still have to answer to the Armageddon you scripted
And Dick Cheney, you fucking leech, tell them your plans
About building your pipelines through Afghanistan
And how Israeli troops trained the Taliban in Pakistan
You might have some house niggas fooled, but I understand
Colonialism is sponsored by corporations
That's why Halliburton gets paid to rebuild nations
Tell me the truth, I don't scare into paralysis
I know the CIA saw Bin Laden on dialysis
In '98 when he was Top Ten for the FBI
Government ties is really why the Government lies
Read it yourself instead of asking the Government why
'Cause then the Cause of Death will cause the propaganda to die..

[Man talking]
He is scheduled for 60 Minutes next.
He is going on French, British, Italian, Japanese television.
People everywhere are starting to listen to him.

It's embarrassing

Immortal Technique Lyrics

"Freedom Of Speech"

Freedom of speech, motherfucker
Okay, something for the kids (hahaha)

[Pinocchio]
I got no strings to hold be down
To make me fret or make me frown
I had strings, but now I'm free
I got no strings on me

[Verse 1]
Step into the club smoothly with a L in my hand
Bitches know that I'm a freak like the elephant man
Intelligent plans
Fuck a record deal, I want development land
With my benevolent clan
And that's the reason that I only trust my fam
40,000 records sold, 400 grand
Fuck a middle man, I won't pay anyone else
I'll bootleg it and sell it to the streets my self
I'd rather be that than signed and stuck on a shelf
And because of this executives try to diss me
Racism frozen in time like Walt Disney
And now they say they wanna get me signed to the majors
If I switch up my politics and change my behavior
Try to tell me what to rhyme about over the beat
Bitch niggas that never spent a day in the street
But I repeat that nobody can hold my reigns
I put the truth on tracks nigga, simple and plain

[Pinocchio]
I got no strings, so I have fun
I'm not tied up when we need one
They've got strings but you can see
There are no strings on me!

[Verse 2]
I guess to America I'm a disaster
A slave that was destined to own his masters
Independent in every single sense of the word
I say what I want, you fuckin little sensitive herb
This is America, I thought we had freedom of speech
But now you want try to control the way that I speak
And O'Reilly you think that you a patriot?
You ain't nothing but a motherfuckin racist bitch
Fulla hatred, pressin a button trying to inject me
But I ain't got no motherfuckin deal with Pepsi
No corporate sponser telling me what to do

Asking me to tone it down during the interview
Tryin' to minimize the issue, but I'm keeping it large
I love the place that I live, but I hate the people in charge
Speakin is hard when you got strings attached
So I'm a say it for you 'cause I ain't got none o' that
And if you didn't understand what I spit at your brain
Aiyyo son, let this little nigga explan:

[Pinocchio]
I got no strings, so I have fun
I'm not tied up when we need one
They've got strings but you can see
There are no strings on me!

Come on son, y'all niggas know the way I do
Immortal Technique-dot-com live for you
And I know sometimes it be making you nervous
The way I snatch puppet rappers that belong in a circus
You motherfuckers just can't compare
Looking for a fan base that's no longer there
I know that you're scared, and you're hidin' up in the cut
But this is freedom of speech nigga, tell 'em what's up

Word nigga, fuck John Ashcroft! Nigga, fuck Fox News! Fuck those snake-ass bitches Tryin to manipulate your opinion, tellin you what to think
Word the fuck up, like "we invaded niggas 'cause we want to free them"
You racist motha fucka, you don't give a shit about those people
You can suck my dick!!
(hahahaha)

Another rum and coke at the bar, nigga
Its my day off, word up
Fuck, for the kids, (ha) for the kids (hahaha)
Beat Bandits

Immortal Technique Lyrics

"Leaving The Past"

They told me I would never make it, I would never achieve it
Reality is nourishment, but people don't believe it
I guess it's hard to stomach the truth like a bulimic
It's a dirty game and nobody is willing to clean it
But this is for the paraplegic, people dreamin' of runnin'
Ladies married to men who don't please 'em, dreamin' of comin'
Verbally murderous like David Berkowitz when I'm gunnin'
Some cowards on the Internet didn't think I would sell
Scared to talk shit in person, 'cause they stuck in a shell
And couldn't understand the pain of being stuck in a cell
Hell is not a place you go, if you're not a Christian
It's the failure of your life's greatest ambition
It's a bad decision to blindly follow any religion
I don't see the difference in between the wrong and the wrong
Soldiers emptyin' their clips at little kids and their moms
Are just like a desperate motherfucker strapped to a bomb
Humanity's gone, smoked up in a gravity bong
By a democrat republican Cheech and Chong
Immortal Technique, you never heard me preach in a song
I'm not controversial, I'm just speakin' the facts
Put your hands in the air like you got the heat to your back
And shake your body like a baby born addicted to crack
And since life's a gamble like the craps tables at Vegas
I freestyle my destiny, it's not written in pages

I hate it when they tell us how far we came to be
As if our people's history started with slavery
Painfully I discovered the shit they kept a secret
This is the exodus like the black Jews out of Egypt
I keep it reality based with the music I make
Blow up the truth in your face with the style I run with
Like the Navy missile that shot down Flight 800
I'm like the Africans who came here before Colombus
And from the fifteen hundreds until after the morrow
I watch Latin America get raped in the sorrow
You see the Spaniards never left despues de Colon
And if you don't believe me, you can click on Univision
I never seen so much racism in all of my life
Every program and newscast, all of them white
It's like Apartheid with 10 percent ruling the rest
That type of stress 'll make me put the fucking tool to your chest
Step in my way nigga, I wouldn't wanna be ya
I burn slow like pissing drunk with gonorrhea
I'll do a free show in North Korea, burning the flag
While J. Edgar Hoover politicians dress up in drag
Try to confuse you, makin' it hard to follow this:
Capitalism and democracy are not synonymous

You swallow propaganda like a birth control pill
Sellin' your soul to the eye on the back of the dollar bill
But that will never be me, 'cause I'm leavin' the past
Like an abused wife with the kids, leavin' your ass
Like a drug addict clean and sober, leavin' the stash
Unbreakable Technique leavin' the plane crash
I'm out with the black box and I refuse to return
I spit reality, instead of what you usually learn
And I refuse to be concerned with condescending advice
'Cause I'm the only motherfucker that could change my life

Some people think I won't make it
But I know that I will
Escape the emptiness
'Cause that shit is slow and it kills
The flow and the skill
I made y'all believe that it last
You can make the future
But it starts with leaving the past

Immortal Technique Lyrics

"You Never Know"

(feat. Jean Grae)

[Immortal Technique:]
She was on her way to becoming a college graduate
Wouldn't even stop to talk to the average kid
The type of Latina I'd sit and contemplate marriage with
Fuck the horse and carriage shit, her love was never for hire
Disciplined, intellectual beauty is what I desire
Flyer than Salma Hayek or Jennifer Lopez
Everyone told me, kickin' it to her was hopeless
At first I just thought she didn't mess with broke kids
The thug niggas always talking about how they smoke kids
But the rich-sniff-coke kids got no play
"I'm not even interested" is what her body language would say
Everyone around the way gave up trying to get in it
It didn't matter how good your game was, she wasn't with it
On the block, bitches was jealous but wouldn't admit it
Talk shit, and deny to everyone that they did it, 'cause they regretted the long list of niggas that they let hit it
And no one ever gave them shit except McDonald's and did-dick
Smoking weed, with thoughts of envy whenever they lit it
She spoke intelligently and they bit it, always trying to copy
But when they tried to use her vocab they sounded sloppy
She had a style, all her own, respectful and pure
I was sick in the head for her, and there wasn't a cure

[Jean Grae:]
Don't you know that time waits for no man?
My fate, it's all planned
I'm blessed just to know you
I've loved and I've lost just to hold you all night
Can't find a reason why
God came between you and I
If I had the chance again, I'd never let you go
Hold tight to your love, 'cause you never know

[Immortal Technique:]
Her eyes are brown and beautiful, yet empty and sad
I used to talk to her occasionally, and she was glad
That I wasn't just another nigga trying to get in it
So every now and then we'd stop and talk for a minute
I didn't have a gimmick, so the minutes turned to hours
On her birthday I gave her a poem with flowers
Then I took her out to dinner after her cousin's baby shower
We talked about power to the people and such
We spent more time together, but it was never enough
I never tried to sneak a touch or even cop a feel
I was too interested in keeping it real
Perfectly honest and complete

She would always call me "cariño" and never Technique
Bought me a new book to read every two or three weeks
Forever changing the expression of my thoughts when I speak
It was because of her I even deaded all of my freaks
She convinced me to stop hanging out on the streets
To stop robbin' and stealing from people like you
Instead I took her out to the Apollo and the Bronx Zoo
Museo del Barrio, and the Metropolitan too
Got to the point when I was either with her or my crew
So I decided one day to tell her my feelings was true
I couldn't live without her, so I told her, facing my fears
But honey's only response was a face full of tears
She could only sob hysterically, holding me tight
I tried to speak, but she wouldn't stop until I left sight
I felt like a moth who got himself too close to the light
Except I didn't burn, I turned cold after that night

[Jean Grae:]
Don't you know that time waits for no man?
My fate, it's all planned
I'm blessed just to know you
I've loved and I've lost just to hold you all night
Can't find a reason why
God came between you and I
If I had the chance again, I'd never let you go
Hold tight to your love, 'cause you never know

[Immortal Technique:]
I went on with my life, college and my career
Ended up locked up like an animal for a year
Where the C.O.'s talk to you like they were the overseer
Then I got sent to the hole when my exit was near
At night in my cell, I'd close my eyes and I'd see her
Hold her close in my dreams, but when I woke she disappeared
Just an empty cell until the state gave me parole
In the summer, came back, intact and on track
But the fact of the matter is I still felt cold
Even after my mother hugged me, crying at home
My real niggas would catch me thinking, outta my zone
Fucking lots of different women, but I still felt alone
Relatively well-known around the New York underground
But I kept thinking of her and how we used to be down
The sound of her voice, and the beautiful smell of her hair
Though gone physically, somehow it was still there
I had to do something because the shit was too much to bear
So I went and visited the building where she used to live
The world looks a lot different after you do a bid
The way your life done changed
While primitive minds are still stuck in the same game
Like her cousin who was on the corner, slanging cocaine
Stepped in the lobby, and tapped the button next to her last name
Her mom buzzed me up and hugged me up like a mother oughta
But her facial expression changed

When I asked about her daughter

[Jean Grae:]
Don't you know that time waits for no man?
My fate, it's all planned
I'm blessed just to know you
I've loved and I've lost just to hold you all night
Can't find a reason why
God came between you and I
If I had the chance again, I'd never let you go
Hold tight to your love, 'cause you never know

[Immortal Technique:]
She told me that there was a note, for me, that was left behind
And she had left it there waiting for such a long time
I was inclined to ask about it, but she brought it up first
I saw a tear swelling up in her eye, and then she cursed
She told me where the letter was, and I started thinking the worst
Reversed my position, stepped over and opened the door
And sure enough there was an envelope
With my name on the floor: "Nobody loves you more than me, cariño," is what the letter said

"By the time you get to read this, I'll probably be dead
But when you left in '97, a part of me went to Heaven
I thank God at least I got to know what love really was
But it hurt me to see what true love really does
'Cause even though we never made love
You were all that there was
It was because I loved you so much that I had to make you leave
You made me doubt the way I thought
You made me want to believe
And then I slipped up, and I let you get close to me
It was hard to not be openly when people spoke to me
This was not the way I thought my life was supposed to be
Baby, don't you see?
I had a blood transfusion that left me with HIV
Hope didn't exist for me since late in 1993
I died a virgin, I wish I could've given myself to you
I cried in the hospital because there was no one else but you
Promise that you'll meet me in Paradise inevitably
No matter what, I'll keep your love forever with me"

What happened for the rest of the day is still a blur
But I remember wishing that I was dead, instead of her
She was buried on August 3rd
The story ends without a sequel; and now you know why Technique don't fucking fall in love with people
Hold the person that you love closely if they're next to you
The one you love, not the person that'll simply have sex with you
Appreciate them to the fullest extent and then beyond
'Cause you never really know what you got until it's gone

Immortal Technique Lyrics

"One (Remix)"

(feat. Akir)

[Intro]
[Akir:] Yo tech, it's the last call baby it's good
[Immortal Technique:] Yeah, you know a remix just feels right dog?
[Akir:] Before we get outta here, you gotta drop one last gem on them Knahmsayin?
[Immortal Technique:] No question, it's like the elders told me
No one person can do anything, but everyone can do something
So we gotta rep, for all the niggaz that ain't here right now
[Akir:] The outro tip, the One Remix, yo

[Akir]
One Enterprises, comprises the artist and the sound
The pen and paper plays my savior while I'm getting down
Pray for my nieghbors as a favor for holding me down
Slave for my papers as I savor the way that it pounds
It's underground, but the blatent vibrations widely found
Facing the nation complacent radio stations now
Stop hesitaing and contemplating the way we paitient
Start motivating and get them playin the shit we sayin
Ain't no delayin in this war that we gettin slayed in
Cause times a waistin while we stand adjacent to abrasions
They fouls are more than flagrant
And so I see the prisons cages while I pound the pavement
Looking for payment saying fuck enslavement
Usin the tools of old ancients
Announcing my engagment to this music that we making
Ain't no faking on tracks, and we ain't never come wack (never!)
Immortal Technique and Akir y'all niggaz fear us that's a wrap
It's like

[Hook]
One love
One music
One people
One movement
One heart
One spark
One, One, One, One
One gift
One lift
One stance
One shift
One way
One day
One, One, One, One, One

[Immortal Technqique]
Immortal Technique in the trenches with my nigga Akir
Our family surived the genocides so we can be here
And now we enterprise the aftermath, one in the same
Living the revolution 'till we catch one in the brain
And even then my spirit will return in heavenly form
And wipe the chess board clean, of my enemies pawns
The red don communist threat, burried and gone
So they invented a war, the goverment can carry on
It makes me wonder if the word of god is lost in the man
This is for the children of Iraq, lost in the sand
This is for the illest emcees that'll never be known
And this is for all the soliders that'll never come home
I wrote this for Momia, stuck in a beast
For people who, march in the streets, and struggle for peace
For hood niggaz, born rugged, never rocking Versace
Eddie Ramierez's cousin George, and my old friend Sashi
Chris from the block, and all my niggaz stuck in a cell
Paul Wolfowitz, motherfucker I'll see you in hell
My destiny is to show the world, that the music is real
Go back in time and play this shit, for the slaves in the field
And for my children in the future, waiting to breathe
People slowly dying hanging on, waiting to leave
Believe when I'm gone, and this album's on a library shelf
I'll be one with god and one with you and everything else

[Hook]

[Immotal Technique talking]
Yeah..
Revolutionary Volume 2 has been brought to you
By the type of motherfuckers who ain't scared of shit
And if you playing this album, and I'm no longer here
And sometime far away from when I recorded this
Remember that history
Isn't the way the corperate controlled media made it look like
Read between the lines and free your mind
Revolution is the birth of equality
And the anti-thesis to oppression
But this is only built for real motherfuckers
So when I'm gone, don't let nobody I never got along with
Try to make songs kissing my ass, recycling my beats or my vocals
The shit is real over here man
Thank you for listening, and thank you for supporting independent Hip Hop
The heart and soul of our culture
Keeping the truth alive
Goodnight my people.. goodnight..

"Apocalypse Remix"

(feat. Akir, Pharoahe Monch)

{"Green Lantern"}

[Immortal Technique:]
The system, can never stop what's been set into motion
Like volcanic eruptions on the floor of the ocean
My purpose is to burst to the surface
Immersed in the smoltering lava from verses
Surrounded by, murder mamis not bitches that's worthless
I cut chicken heads off, like hexes and curses, weapons I purchase
Make Homeland Security nervous; I run, pockets and purses
Like subway searchers robbin masonic temples disguised as churches
I'm busy so I'll leave that one for you to interpret
Three serpents of merchants from military industry murder
The beef is eatin up, like the mad cow in your burger
Fathom the cause of cattle cannibalism
Factory farms, are like a fuckin animal prison
The microcosm of, Adam Smith's capitalism
America's pagan religion given as the mark of the beast to the Christians
A destruction of, Babylon, that's my mission!

[Chorus: Immortal Technique]
Everywhere Tech and them go, the Feds watchin us
Clockin the world through satellites like binoculars
We fight for the release of political hostages
Motherfuckin right soldier, this is the apocalypse!
Everywhere Tech and them go, the Feds watchin us
Clockin the world through satellites like binoculars
We fight for the release of political hostages
Waitin for 2012's burning apocalypse

[Akir:]
Yo, sex drugs and murder, webcams and burgers
Check scams and lurkers, test scans to purpose
Sect crams to further, death plans and workers
Get canned you nervous as you step, plan that hurts us
It's demand to be purchased, we can care if you serve us
We programmed to be perfect, frequent handed the serpents
An amazement on purpose, see I'm amazin my earners
But now the tables is turnin, got my hand right on that curtain
Hit the stages and burn it, with these pages I earn this
Can't take it, I'm nervous while fake enemies perp'in
Foul energies worth and, crowds' ears'll be perkin
Take it somethin disturbin and it's hurtin for certain
Yearnin to get my turn in, workin to get a word in
Been in the scene observin while I'm learnin how the system's worked and
Capitalistic merchants tryin to make a million urgent
Constructive revolution confusin how the world's burnin

[Chorus x2: Akir]
Everywhere I get 'em go, the beast watchin us
Know we got the spot in control, they got binoculars
When we be, out on the road they try to follow us
You never gon' silence this, this is the apocalypse

[Pharoahe Monch:]
You have now acquired an old cyrus hybrid, work 'til my third iris
Chip inside my brain projects scriptures onto my eyelids
Celibacy, virtual sex, avoid the virus
Secretive shit that I did will put the city at high risk
The mentalist, the temple that houses the wisdom
It's like, Malcolm X calculus amalgamated algorithms
They say "Pharoahe, teach me about the system"
Nigga boot me in your computer I'll give you acute astigmatism
See through +Windows+, +Word+, Pharoahe's the +Mac+ +Intel+
Bit off the +Apple+, plant seeds, spit crack +Excel+
Lyrical +FireFox+, the verbal +Explorer+
Who metaphors the industry to Sodom and Gomorrah for ya
They profit from water, they'll profit from oxygen
Pharoahe the prophet says that this is the apocalypse
We livin in these last days, use your optics what the topic is
The coppers got binoculars, they'll probably try to knock us cause

[Chorus: Pharoahe Monch, Immortal Technique]
[Pharoahe Monch:] Everywhere Pharoahe goes, the Feds watchin me
[Immortal Technique:] Satellites observin the fulfillment of the prophecy
[Pharoahe Monch:] Middle fingers up to the sky with no apologies
[Immortal Technique:] Cause none of you got an apocalypse insurance policy
[Pharoahe Monch:] Everywhere Pharoahe goes, the Feds watchin me
[Immortal Technique:] Fascism breakin out of the cocoon of democracy
[Pharoahe Monch:] Middle fingers up to the sky with no apologies
[Immortal Technique:] Iraq was just practice for the urban war philosophy

[Outro: Immortal Technique]
Ha ha ha, AH-hahahahaha!
It's burnin in here, call the Fyre Dept.
Akir, aiyyo Pharoahe
They ain't never gon' find this shit man
Ha ha ha ha, like the weapons of mass destruction
[laughing]

"Death March"

[DJ Green Lantern]
This is an invasion, an occupation
Immortal Technique, the evil genius DJ Green Lantern
And you're now in the state of guerilla warfare
It has been spread by the superpowers of the industry
To the 3rd World underground of the streets
This is for all those who've been labeled extemists, maniacs, terrorists
Shit.. Welcome to the 3rd World

[Immortal Technique]
Yeah.. Yeah..

Invansion and rampant monetary inflation
That brought us all to the footsteps of this nation
Peruvians, Haitians, Ecuadorians, Nicaraguans, Colombians, Salvadorians

Invansion and rampant monetary inflation
That brought us all to the footsteps of this nation
[2x]

Invansion and rampant monetary inflation
That brought us all to the footsteps of this nation
Peruvians, Haitians, Ecuadorians, Nicaraguans, Colombians, Salvadorians
They call us terrorists after they ruined our countries
Funding right-wing paramilitary monkeys
Tortured our populace then blamed the communists
Your lies are too obvious, propoganda monotanous
And that's not socialist mythology
This is urban warfare through the streets of your psychology
So I'm like the legs of a paraplegic really
Cause I'm still part of you even if you can't feel me
You can never debate me, The M4s at your baby
Like troops with gats in Iraq do daily
So you can marginalize the way you portray me
But don't get Hollywood and try to play me
We can shoot it out in the theater like troops in the 80s
New Jack City classic crap era, mack-milli
Shouting BET is not black-owned on Rap City
You got a contract to kill me motherfucker, that's fine
Cause there's a contract to kill your family when I die
So when your car explodes, don't be surprised
Soldier, I'm like Marine Corp C4
Even blow the spot with the beat rocking at 3/4
Canvas the flow like the ghost of Michaelangelo
This is the anthem, Immortal Technique and Green Lantern
Don't say shit bitch, you don't want the "check, check"
To become a ..chick, chick.. You know what I'm sick with
Lyrical tuberculosis, cocaine overdoses
Blood coming out your noses, that's when death approaches

March to my death smilin, laugh if the end's violent
There's no escape from this political asylum

Revolutionaries don't fear execution
Cause the death of my visible Constitution
Is just the beginning of spiritual evolution
God will reincarnate me as revolution

[DJ Green Lantern]
You can't take out a revolution
You can't kill a idea
Fuck is you stupid?
You kill that man, he becomes martyr

[Immortal Technique]
Ignore the triplets, this is a fully loaded four-four
3rd World underground hardcore
Street-hop, locked and loaded, motherfucker you should know it
Blast the door to the game open and overthrow it

"That's What It Is"

[Invasion]
Ok... let's go... talk to em'... holler
Don't you get tired of hearing niggas say that shit?... all the time?
Why can't you shut the fuck up and rhyme nigga?!

[Invasion]
Yeah... yeah... used to run around getting my fight in the streets on
Back in the day before Harlem had a green zone
What good is a good education with no direction?
Like the right to vote with no one to vote for in an election
Like a gun with no bullets in the clip for protection
Like the crowd packed in the front without the midsection
Used to live robbing and stealing and being reckless
It took time for my mind to put the ghetto in perspective
I used to live in the back, of a holding van
Used to be offbeat, like the white girls' shoulder dance
I wrote rhymes a cappella, no beat, behind bars
Shed blood to make it, like the story behind scars
I used to be a battle champion, in the meanwhile
Before some of you little fuckers learned to freestyle
Prematurely senile, underground prima donnas
I was Oliver North during Iran Contra
Cause I, never snitched, and that's backed by evidence
I learned it by watching you, don't ever forget it bitch
Cause everybody knows how the government do
They never snitch on themselves, but they want you to snitch on YOU
Evolution from Australopithecus
Primitive commercial shit to hard-core lyricist
Your wax is useless
Rappers are dropping like Icarus
Technological revolution... nigga picture this

(motherfucka what?)

Yeah... I told you what it was, but this is what it is now
Lyrical bullets, packed to the top of the clip now
Treat it like a robbery, I'm shutting this shit down
Fellas put your hands up and the all the women strip down
That's not misogynist, you ostriches, cause I could just, apocalypse
Talk politics to the populace
Or challenge what the market is
With militant caucuses
That'll smash the spirit of Hip Hop out the sarcophagus
This is the curse of Tutankhamen, I bring the drama on
I'm sinful, I eat you, broad daylight on Ramadan
Hip Hop, reparations, now we taking back Delucci
Don't tell me you spent it on coke, like Danny Bonaduce
We're tired of being on the outside, looking in
Wondering what the fuck Hip Hop would've been

This is what it is, as opposed to what it used to be
And this is your corporate tax ID eulogy
Dominant speech is the new breed, that won't let you breath
I'll make you die for what I believe
So we got nothing in common
There ain't no comparison
You got beef with niggas, I got beef with Aryans
White power Nazi European Americans
Rapid Poverty pimps, and fake vegetarians
The resurrection, ripping a ball through the record (wrecking?) section
Flight connection to the gentry board of all guerrilla lessons
Fuck a middle man distributor, I got a choice now
This ain't Volume 1., I got a grown man's voice now
Toured the country four times over, I'm older and wiser
Poisonous words, you'll find strychnine in my saliva

(motherfucka what?... Bring it to 'em raw)

I told you what it was, but this is what it is now
50 caliber bullets, I don't need a clip now
Fuck your private jet nigga we shooting the shit down
Bomb wall street and make the stock market dip down
I told you what it was, but this is what it is now
you the shit nigga, I don't care about shit now
I play the role of Abraham, idols get ripped down
Melt the ice caps, and make all of this shit brown

(No one out there can fuck with me)
(motherfucka what?)
(I speak that real shit)
(to smash the airwaves)
(I don't want to tell you motherfuckers again)

"Golpe De Estado"

[Intro]
Lamentablemente, las condiciones que estamos viviendo en
han llegado a seruna miseria insoportable para la gente
Pero hay unas veinte patrias engreidas que todavia creen
en una sociedad de antes donde los artistas
fuimos bestias de trabajo para la industria
Ese sueño se ha acabado
Y ahora nos encontramos despiertos en la hora de revolución
porque no podemos llamar esto un 'movimiento' si toda la propiedad
intelectual pertenece a los que nos oprimen

Yeah!
Yeah!
Yeah!
Motherfucker!
Ya te dije
Que se ha acabado la mierda

[Immortal Technique]
Nos compraron el alma barata
Hasta la sangre nos sacan, atacan
Y con un contrato te atrapan
Pero primero me matan hermano
Porque prefiero morir
Peleando que ser esclavo
Industria sucia
Toma lluvia de acido
Aprende la historia del hip hop clasico

Cuando controlan el negocio y la cultura
La musica se vuelve en comercial basura
Y la reina latina, pintada como gallina
Es mas que bailarina o puta en la esquina
Es abogada, profesora, madre, soldada
Y carga nuestro futuro cuando está embarazada
Mira nuestra gente crucificada
Y la manera desgraciada
Que estos perros no hablan de nada
Más que fiestas y riqueza
Que la gente no tiene
Asi que ahora vas a ver
La violencia que viene

Un movimiento de verdad ha empezado
Dejamos el imperio corrupto descuartizado
Golpe de estado disparando al presidente
Es hora de revolución nuevamente

Un movimiento de verdad ha empezado

Dejamos el imperio corrupto descuartizado
Golpe de estado disparando al presidente
Es hora de revolucion nuevamente

[Temperamento]
Golpe de estado el mercado me tiene bravo
Hermano yo pinto el cuadro
Y el barrio ya esta cansado cabron
Yo te lo juro que lo que yo sudo es puro
Ustedes son burros
Que venden el culo por el reggaeton
Abre los ojos, cojo el presidente del sello
Bobo le rompo el cuello al pendejo
Solo con mi cañón

No tengo miedo guerrero por eso muero
Y me quedo con tiraera
Porque ella llama la atencion

Levanta publico mano te tienen imnotisado
Entrenado inyectandote mierda con la estacion

Temperamento rey del movimiento
Este es mi tiempo
Con mi cancion
Hasta Tempo sale de la prision
Por mis palabras tengo seguidores
Rapeadores en todas las naciones
Comisiones de aplicar presion
Yo soy la epidemia, la saga, las nueve plagas
La misma palabra en la biblia
Que habla de Armagedon
La competencia es riqueza
Que tristeza
Que tengo que romperle la cabeza
Pa que me pidan perdon
Perriando quiere decirte que tu eres de la brutas
No te gusta que te llamen puta escucha la cancion
El sandunguero es tan feo
Que es con doble sentido
Le dicen a tu hijo que lo haga sin condon
El estremera y el capital inmortal
Vamos a gritas pa que viva la revolucion

[Translation]
Pitifully (deplorably/sadly), the conditions that we're living in
have become an insupportable misery for the people
But there are some twenty conceited countries that still believe
in an archaic (old/outdated/outmoded/antiquated/anachronistic) society
where the artists were beasts of burden for industry
That dream is over with
And now we find ourselves awakened at the time of revolution
because we cannot call this 'change' if all intellectual property

belongs to those who aren't {?}

Yeah!
Yeah!
Yeah!
Mother fucker!
I already told you
That the shit is finished!

[Immortal Technique]
They bought our souls cheap
Even blood they take from us, they attack us
And with a contract they trap you
But first they'll kill me, bro
Because I prefer to die
Fighting than to be a slave
Dirty industry, drink acid rain
Learn the history of classic hip hop

When they control business and culture
Music becomes commercial garbage
And the Latina queen painted like a chicken
She's more than a dancer or a whore in the corner
She is a lawyer, teacher, mother, soldier
And bears our future when she is pregnant
Look at our crucified people
And the disgraceful way
That these dogs do not talk about anything
Other than parties and riches/wealth
That the people don't have
Therefore/Thus now you're going to see
The violence that comes

A movement of truth has begun
We're leaving the corrupt empire in pieces
Coup d'etat shooting the president
It is time for revolution again

A movement of truth has begun
We're leaving the corrupt empire in pieces
Coup d'etat shooting the president
It is time for revolution again

"Harlem Renaissance"

"Let me welcome both of you
uh, to the show this morning to talk about what I consider
to be a very very important topic, uh, the Harlem Renaissance
But before we get into that..."

[Immortal Technique]
Yeah, Harlem once was red line district rated (uhh)
Designated ghetto like the yellow star of David
And you wonder why, people don't own they homes (why?)
Cause the racist bank wouldn't fuckin mortgage a loan
Harlem once was red line district rated (uhh)
Designated ghetto like the yellow star of David
And you wonder why, people don't own they homes (why?)
Cause the racist bank wouldn't fuckin mortgage a loan {WAKE UP!}

Harlem once was red line district rated (uhh)
Designated ghetto like the yellow star of David
And you wonder why, people don't own they homes (why?)
Cause the racist bank wouldn't fuckin mortgage a loan
Until after the invasion of, gentrification
Eminent domain intimidation, that's not negotiation
And it's frustratin to look at, every day
Like watchin a porno, on 56-K
Biohazard labs instead of store rooms
What's next motherfucker, projects as dorm rooms?
You ain't fool nobody in this community duke
With your little fake Manhattanville community group
Ivy league, real estate firms are corrupt
I lay siege to your castle like the Moors in Europe
They treat street vendors like criminal riff-raff
While politicians get the corporate kickbacks (snakes)

[Chorus: Immortal Technique]
Harlem Renaissance, a revolution betrayed
Modern day slaves thinkin that the ghetto is saved
'Til they start deportin people off the property
Ethnically cleansin the hood, economically
They wanna kill the real Harlem Renaissance
Tryin to put the Virgin Mary through a early menopause
The savior is a metaphor for how we set it off
Guerrilla war against the re-zoning predators

[Immortal Technique]
When I speak about Harlem, I speak to the world
The little Afghan boy, and the Bosnian girl
The African in Sudan, the people of Kurdistan
The third world American, indigenous man
Palestinians, Washington Heights, Dominicans
Displaced New Orleans citizens

Beachfront Brazilian favelas that you livin in
The hood is prime real estate, they want back in again (fuck outta here)
I didn't write this to talk shit, I say it because
some of y'all forgot what the Harlem Renaissance was
We had revolution, music and artisans
But the movement was still fucked up like Parkinson's
Cause while we were givin birth to the culture we love
Prejudice, kept our own people out of the club
Only colored celebrities in the party (fake nigga!)
And left us a legacy of false superiority
W.E.B. Du Bois versus Marcus Garvey
And we ended up, sellin out to everybody
The Dutch {?} and the John Gotti's
Banksters, modern day gangsters, immobile army
They wanna move us all out the N.Y.C.
Like they did to the Jews with the Alhambra decree
So support your own businesses and do the knowledge
Cause the real Harlem Renaissance is economic (yeah)

[Chorus]

{"Green Lantern... The Evil Genius!"}

"When they were saying it is the renaissance, of Harlem
they didn't mean, that we had stake in that
They meant to say that they could make money out of us"

"They are coming in with all kind of prejudices
In Brooklyn they're doing the same thing
In, um, Queens they're doing the same thing; the Bronx
There's hardly any place which is affordable
I mean these people are putting up condominiums
which start from a million dollars
How many people in this community make that kind of money?
How many people have that kind of money?"

"People of Harlem, they are the natural allies of the oppressed people
of the world, whether the struggle is in Panama, in Africa, Cuba"

"We spend money with the wrong people
We are looking for love, with people who don't love us
What's wrong with us loving each other
and making sure that we are protected?"

"Lick Shots"

(feat. Chino XL, Crooked.I)

[Intro]
This is the Invasion!
The Evil Genius Green Lantern!
Immortal Technique, "The 3rd World"
(It's on now motherfucker - ha ha, drop)
You ain't got the right to bear arms, huh?
Sometimes you might have to brandish a motherfuckin firearm
(Lick shots, lick shots, lick shots, lick shots)

[Chorus: Immortal Technique]
Lick shots, lick shots, lick shots
Lick shots for the revolution
Lick shots, lick shots, lick shots, lick shots
But watch, where the fuck you shootin
Yo where you aimin at? Where you aimin at?
Where the fuck you niggaz aimin at?
Where you aimin at? Where you aimin at?
This is only for the hardcore wherever you at, yeah

[Immortal Technique]
Random one cop killa, hip-hop has never been realer
Volume 2 shot up the president like a gorilla
New York police state capital tried to swallow me
Locked me longer than Puerto Rico been a colony
Thirteenth Amendment slavery property
And now they signin rappers that promote their philosophy?
Fuck that, nigga hip-hop is not Republican
That's just the white motherfuckers that own the publishin
And get the fuck out, if you want the foreigners gone
I paint the White House black and park my car on the lawn
Marry a Muslum girl and fuck her five times a day (WHAT?)
Every time right before we shower and pray (HA!)
You damn right the AK, symbolizes Jihad
But a holy war, is a conversation with God
You bitch niggaz misinterpret what you don't understand
Stackin the wrong sign can end up, shootin your man
Shootin each other, shootin your brother
Aim the gun at the right motherfucker
and leave him colder than the prison in Russia
or America's white power structure
Niggaz love to say "Fuck revolution!"
Until the jury comin and move for the prosecution
And them brothers act like a born-again Huey Newton
Forgot about the bullshit music they was producin
But my niggaz aim precisely, through the confusion - AND

[Chorus]

[Crooked.I]
I got a hundred shooters with me, Rugers shoot you through the kidney
Stand in front of the judge and lie quicker than Scooter Libby
I'm runnin through the city - dear God
If I murk the racist Rush Limbaugh I wonder would you forgive me? (Huh?)
Somebody told me glim back as the plan's over
See ya, time to let him see a damn soldier
Flip your Landrover, I told ya I blam toasters
Gun pop off like the mouth of Ann Coulter
This is my gangsta religion
See I aim with precision, point blank the position
I'm black as them ancient Egyptians
Before European historians went and changed the description
I'm blamed for the 'caine in the kitchen
The C.I.A. playin with the pigeons, same pain that I'm pitchin (yea)
Listen, you dudes better watch the hook
I'm a boxer, coppers'll come up, Hoffa look
They wanna get rid of this conscious crook
Like I'm a Gnostic, apocryphal, non-canonical Gospel book
But I ain't goin nowhere, that's the motherfuckin truth
America don't care for its inner city youth - so I

[Chorus]

[Chino XL]
Puerto Rican superhero!
Yo, XL eternal my journal, Sojourner, Nat Turner
Cop murdered by the certain burner turned in the back of his sternum
He flirted with pullin me over for bein brown, I bust
Now he in the back of the truck with Don Imus
I must, take aim when I lick shots
Throw stray bullets like when Nas got off of Pharoahe Monch
These pigs wanna see us dead inside a jail cell
Turn us from Shawn Carter to Shawn Combs to Sean Bell
My temper 'bout to break like levees in New Orleans
Catch Jimmy Iovine when he refinance his mortgages
Kid illusion is dead, we movin with the blue and the red
Latin Kings, Giuliani with a gat to his head
Y'all don't lick shots like killers aimin at the Feds
Y'all lick shots like Jenna Jameson and Superhead
Pigs slice to Venice and beef at the benefits meet
Buried him on Venice Beach with the flies and the bees
Bzzzt - Chino, and Immortal Tech'
Kill shit like the Chinito at Virginia Tech (what's fuckin with that?)
And Jacob ain't your friend, he's a fuckin jeweler
BLAP, BLAP! I shoot the cats off your fuckin Pumas!

[Chorus]

"The 3rd World"

Immortal Technique and DJ Green Lantern
Third World mother fuckers!

[Immortal Technique]
I'm from where the gold and diamonds are ripped from the earth
right next to the slave castles where the water is cursed
from where police brutality's not half as nice
It makes the hood in America look like paradise
compared to the AIDS-infested Caribbean slum
African streets where the passport's an a American gun
from where they massacre people and try to keep it quiet
and spend the next 25 years tryin' to deny it
I'm from where they cut your hands off if you make a fist
and niggas grow coca cause the job market doesn't exist
except slave labor modern day company store
and peace keeper's don't ever ever ever come here no more
from where the bombs that they used to drop on Vietnam
Kill us children born deformed eight months before they born
I'm from where they lost the true meaning of the Qur'an
'cause heroin is not compatible with Islam
And niggas know that, but grow that poppy seed anyway
'cause that food drop parachute does not come everyday
I'm from where people pray to the gods of their conquerors
and practically every president's a money launderer
From the only place democracy is acceptable
Is if America candidate is electable
And they might even have a black president, but he's useless
'Cause he does not control the economy stupid!

[Chorus]
Lock and load your gun, where I'm from: the Third World son
Been to many places but I'm Third World-born
Guerrillas hit and run where I'm from: the Third World son
You polluted everything, and now the Third World's gone
The waters poisoned where I'm from son: the Third World son
Seven hundred children die by the end 'this song
Revolution'll come, where I'm from: the Third World son
Constant occupation, leaves the Third World torn

[Immortal Technique]
I'm from where the catholic church is some racist shit
They helped Europe and America rape this bitch
They pray to white Spaniard Jesus, who's face is this
But never talk about the black Pope Gelasius
I'm from where soviet weapons still decide elections
Military is like the mafia: you pay for protection
kinda like sex toys, is what the country sells
And rich white businessmen make the best clientele
I'm from where they too pussy to come film Survivor

And they murder Coca-Cola union organizers
I'm from where the justice system esta podrido
Fuck government niggaz politic over perico
Rebelde conocido, enterado vivo, como otro argentino desparecido
cause Rico laws don't apply to the CIA
and mother fuckers make sneakers for a quarter a day
I'm from where they overthrow democratic leaders
not for the people but for the Wall Street Journal readers
from where blacks, indigenous peoples and Asians were once
slaves of the Caucasians and it's amazing how they trained them
to be racist against themselves in a place they were raised in
and you kept us caged in
destroyed our culture and said that you civilized us
raped our woman and when we were born you despised us
gentrified us, agent provocateurs divide us
and crucified every revolutionary messiah
so I'ma start a global riot
that not even your fake
anti-communist dictators can keep quiet
fuck your charity medicine, try to murder me
the immunizations you gave us were full of mercury
so now I see the Third World like the rap game soldier
nationalize the industry and take it over!

[Chorus]

"Hollywood Driveby"

(feat. PsychoRealm, Sick Symphonies)

[Immortal Technique]
Somebody talk shit to me in L.A., would never live
Cause brown rolls deeper than red or blue, ever did
I got bullets that'll rip through yo' ribs
More painful than watchin R. Kelly piss on yo' kids
Here's the ultimatum motherfucker, give me the ASCAP
Or give America Biggie and 2Pac flashbacks
Some niggaz don't think the underground is grimy and dirty
'til they find your body on a fuckin highway in Jersey
I fire rockets at generic topics
Your lyrics don't hold weight, like two-dimensional objects
Cause jail culture didn't give you that fitted hat
to memorize a ghostwritten shit verse and spit it back
I won't let your wack rhymes redefine lyricism
For a whole generation with they fathers in prison
You live inside the image of an era that's gone
Like government officials tryin to justify Vietnam
I leave niggaz traumatized, like they momma died
And they was responsible for the drive-by homicide
And I don't market revolution, I live it
What you think cause you fake everyone else is a gimmick?
Jealous bickering, industry slaves, the nerve of you
Like a child prostitute born into a life of servitude
Until we murder you, makin the red carpet burgundy
With PsychoRealm in the streets where I prefer to be

[Chorus: Immortal Technique]
Hollywood drive-by, motherfuckin murder-fest
Weed clouds in the air, that cause turbulence
Revolucion, motherfucker you heard of it
I light the spliff with the flag, while I'm burnin it
Hollywood drive-by, sprayin the cucarachas
War with the system like the streets of Oaxaca
Yeah, revolucion, motherfucker you scared of it?
Well it's comin to the industry now, so be prepared for it

[PsychoRealm]
You're on some bullshit tracks, I spit them full-clip raps
While most of these gangsta rappers are some full-fledged rats
You're on some bullshit tracks, I spit them full *[scratches]*
You're on some bull {*scratches*} you're on some bull *[scratches]*

You're on some bullshit tracks, I spit them full-clip raps
While most of these gangsta rappers are some full-fledged rats
The real G's stay strapped in full combat
What you see in the videos is full-on acts
The streets don't believe you homie
Armageddon in the rap game is comin and we lead the army

Rock tear a tape out of yo' sounds
Got hostages in pink, this is what they call hip-hop now?
I keep that metro shit out of my whip
Man that dummy rap is through makin money, it's about to extinct
You know the radio tryin to kill rap with that shit
The only thing dyin is the DJ's when the K spit
We're here to CEO's, and blow up A&R's
I'm takin your chips like crashing your game of cards
This is how I eat holmes, I would give you buzz
And take the life of these stars for this thing of ours

[Chorus]

[Sick Symphonies]
Yeah, uhh
I'm from the city of falling stars, the home of banging hard
Waiting for them at the Radio City Hall to snatch 'em out their fucking cars
Expose 'em for what they are - NARCs, jakes, snake informants
Feeding us horse shit, blaze up all of them
They say hip-hop doesn't exist
Rappers talking hard dressed up like punk rock kids
Pumped up by some corporate endorsement, dead corpses are voiceless
No one hears ya homie, ya little fame is over
We'll send little homies foreclosure
like bankers, cause you owe us the mortgage
For exploiting the lifestyle that many died, jailed up in storage
Leaving most of us hopeless, homies radio focused
What we're building got 'em all afraid
Give me the K, I'll be honored to ignite the flame
that'll, burn down the game, what's fame? Keep it
A movement, a sonic war, motherfucker you sleepin

[Chorus]

"Watchout Remix"

[Immortal Technique]
You know back in the day, some of y'all
Would shout out Allah's name like he was hostin yo' mixtape
Then after 9/11 you got scared and shut the fuck up
Didn't talk about the demonization of a culture, immigrants, nothin
Now you show up, talk about we takin it too far
Die slow! MOTHERFUCKER!

Yeah, 100 percent independent, I'm the fuckin boss
I sold 80,000 off a quotable in The Source
The hood is not stupid, we know the mathematics
I made double what I would going gold on Atlantic
Cause EMI, Sony BMG, Interscope
would never sign a rapper with the White House in his scope
They push pop music like a religion
Anorexic celebrity driven financial fantasy fiction
Contradiction cause the life we was given resembles life in prison
Fed time with Manuel Noriega
The real Noriega, who did America 100 favors
with Contras, the Shah and the CIA
Movin Escobar's coke through the M-I-A
This is +The 3rd World+ speakin, through a dead man walkin
And everybody talkin 'bout the South takin over
It's true motherfucker, but it's comin over the border
Fuck your chain, my people'll kill you for water
Fuck fans nigga, I got soldier supporters
that'll cut your throat if you strapped with a tape recorder
That's right motherfucker, welcome to the New World Order
Where the truth is always censored by corporate reporters
The government, runs the drug politics on the corner
That's why I never stress rappers and their employers
I put a bag over his fuckin head and torture your lawyer
Cause it's too simple to shoot ya - I'll taser the roof of
your mouth and electrocute ya, I'll root you out with the Ruger
The German Luger, U-boat, and the troops in the scuba
Nigga you can't overthrow me like the island of Cuba!
Niggaz'll never find your body, like the bitch in Aruba
And I maneuver through the state department and their friends
With secret deals like the Nazis and IBM
And now you know this ain't a trend or a fashion
This is my life and my passion, FUCK tryin to cash in nigga!
I need more than advancements and a rented mansion
So while you little house niggaz is singin and dancin
I'll kill you and take your land like an Israeli expansion
{"Invasion"}

"Reverse Pimpology"

(feat. Mojo)

[Immortal Technique]
Hypocrites, hookers, sex offenders
Y'all niggaz wanna be pimps and players?
This ain't 1997 nigga

I'd rather be rich and unhappy than broke and miserable
Cause the game don't give a FUCK if you lyrical
And that's pitiful, so my position is pivotal
You can hate me all you like but you worship the principle
I inspire revolution, the government's not invincible
Vietnam to Venezuela, trick knowledge, they pimpin you
All up in the hood like McDonald's and liquor
Selling AIDS medicine, when we know you got the cure nigga (woo!)
You leery of conspiracy theory but hear me
Throw a business perspective, it makes more sense clearly
Cause moreover, that's what we go to war over
And numbers don't lie unless we do Bush and Gore over
Free markets make money disingenuously
But I invest in agriculture, biochemistry
Smart nigga from the hood, pussy, what type of crime is that?
But exec's are like, "You from Harlem? Where your diamonds at?"
Stupid

[Mojo]
Can't dodge the game
If you lookin for the money or the fame (oh-ohh)
The players and the rules ain't changed (oh no)
But see we tryin to leave a name
So we're turnin out

[Immortal Technique]
Yeah, this is how pimps get pimped and players get played
Rich people get robbed and, broke niggaz paid
New York, London, Chicago, Philly and L.A.
Miami, D.C., B-more and out in the Bay

[Mojo]
We're tearin it out of the frame
See we deserve to stake that claim
If we didn't it's a cryin shame
What we're concerned about is how to turn it out

[Immortal Technique]
Show me a pretty girl, with the world stuck to her
And I bet you there's a brother that's tired of fuckin her
Lots of niggaz girls is someone else's one night stand
I probably made some bitches nervous listenin with they man (ha ha)
And if that offends somebody, I'm sorry, fuck you!

What you think, revolutionaries don't like to fuck too?
You just gotta beware of dangerous coochie
Cover ya head like a kufi, some rappers think that they live in a movie
Until they get herpes or clap from a groupie
And I don't need to shout you out, nigga you know who you be
Look, most people are only players cause they got played
And have not, let go of that, shit since the 7th grade
Yeah you got your heart broke, life sucks, doesn't it?
But you shouldn't fuck up someone else's life because of it
Someone did your mother like that, that's why you fatherless
Before jail or racist cops, that's what the problem is

[Mojo]
Recognize the game
See who's the one to place that blame
We gettin trapped in a cycle of pain
With a generation headed down the drain
Time we turn it out

[Immortal Technique]
This is how pimps get pimped and players get played
Beautiful women get, cheated on and gangstas sprayed
Jersey, Detroit, Denver, Phoenix, Atlanta
Texas, Vegas, Seattle and fuckin Louisiana

[Mojo]
Regardless of money you payin
Just spendin, hold a watch and a chain
But can't offer your children a thang
What the hell is goin on in your brain?
We gon' turn it out

[Immortal Technique]
Yeah, I'm not a crack rapper, I'm not a backpacker (ha ha ha)
I'm not a wack rapper, moonlighting as a bad actor
I treat labels like the projects, cause I'm a hater (what!)
Go to the Sony building and piss in the elevator
Cater to hustlers, crooks and cheap smugglers
Bootleg my own album, to reach customers (yeah)
Every city, state and country, the hood love me
Even Aborigines, in Australia bump me
They say underground fans are all the color of talcum
But who the fuck you think buy 50 and Jay albums?
Who the fuck you think made Snoop and Dre platinum?
Call up any major record label and ask 'em
But there's some, devils in disguise in hip-hop
that belong at Republican fundraisers with Kid Rock (bitch!)
I hope one of my fans has one of your kids shot
And blames it on Acid, Prozac and Slipknot
You a pussy actin hard like a bitch cop
I'll drop you to the floor like a reverse wristlock
Eat your food and shit on you, like a highway pit stop
And make, revolutionaries out of kids that used to flip rocks

The government, pimped 9/11 to go to Iraq
And history, repeats itself right on track (how?)
First as a tragedy, and then the comedy begins (why?)
Cause it's funny, motherfuckers don't see it come around again

[Mojo (I.T.)]
Where, can we be free? (FUCK we gon' be free man?)
We only wanna live our lives
Live our lives, with our eyes open
Open your eyes – open your eyes
You stupid motherfuckers - you stupid motherfuckers
Open your eyes, before you die

"Payback"

(feat. Diabolic, Ras Kass)

[Diabolic]
These fuckin snakes man
Fuckin up our lives
I'll take a piss in your oil fields
I want some motherfuckin payback so, yo

I wanna run for president, and the focal point when I'm campaigning
Is to put FEMA to work on a plantation at Camp David
Demand payment for New Orleans with the best of swordsmen
Launching missiles at the White House while Tech's performing
On the lawn and I just let 'em burn till death's confirmed
Laid to rest with worms cause otherwise they'll never learn
I'll form a cruel intent, put anthrax through the vents
From out a package I got in the mail that you just sent
But I got a better punishment for these Republicans
I'd let 'em live so they can see us overthrow the government
Let's fuck with them, have the first lady beat me off
Till my semen's launched, then I skeet across her face like Peter North
And I won't leave a doubt what we about when I cream her mouth
Or leave her trout bleeding out on Condoleezza's couch
I'll seek this route without regrets, and drink a brew then think of you
Cause if it's the last fuckin thing I do I'll...

[Ras Kass]
Yeah, Immortal Technique, Rassy
Nigga, I never forget nothing nigga

Fifty-one percent of the World Bank is owned by the US treasury
Robbing third world countries out all they resources and equity
When Afghanistan was fighting the Russians
Reagan and Bush gave Bin Laden weapons and told him get to bussin
We even called 'em freedom fighters
Financed the cost with CIA imported cocaine
That whole Iran Contra Scandal, niggas took the blame
Started a war on drugs
Meanwhile Russia's defeated, America thinks more oil for us
Take over, set up a public government, Arabs ain't bearing it
So the same freedom fighters, George W. call 'em terrorists
Poetic justice, payback's a bitch, these fuckin hypocrites
Like Bill O'Reilly, right-wingers deserve what they get
Rush Limbaugh, drug addict, Giuliani, sex scandal
I wanna thank white supremacists then show you how my tech's handled
My neck's nano-technologically designed
It spits SARS to all you stupid ass execs that capital resigned

I am vindictive, faggots!

[Immortal Technique]

Huh, hahaha
Yeah I got something for you motherfuckers haha
You want it? HERE YOU GO!

The first payback that I would accomplish
I'd draft children from the senate and congress
Pompous religious right made suicidal
When I exposed Joe Cephas for ghost writing the Bible
Making nuclear silos, bomb the world with hydro
Chinese dragon sized blunts in Maracaibo
Huh, and everyone flashing a gun on a DVD
I'd make them niggas shoot it out with NYPD
And every fucker that didn't buy my CD
I'd stab the revolution in their neck with an IV
See me, own the world, I'd give it back to the poor
I'd give a last name to every single son of a whore
Hard to the core, fuck with the gay list
Niggas pop on they block but they globally nameless
I'd show the hood real gangsters and make 'em famous
Langley Virginia, where my connect for cocaine is
I'd make everybody fuckin have the world darkening
I make rap-about lyrics, not beats and marketing
Replace every raped virgin's broken hymen
Holding De Beers reclining, while they choke on they diamonds
My designing's like Francis Ford Coppola rhyming
Building a universe inside solitary confinement
I'd reverse Rockefeller laws and bring Mumia home
And serve the President freestyling offa the dome

A message to the outgoing president
Hey I got a great idea nigga... Kill yourself
Hahaha, you know it's so funny, I thought about it the other day
You should probably kill yourself
Ah why don't you kill yourself?
Hahahahahah, kill yourself

"Stronghold Grip"

(feat. Poison Pen, Swave Sevah)

[ad libs for first 22 seconds]

[Immortal Technique]
Immortal Technique, Poison Pen
Swave Sevah motherfucker (get 'em right now!)

I leave government spies and murderers
wrapped in plastic like Dominican furniture
I put the iron in you, like the center of Earth's curvature
And make your block turn into the, border of Serbia
My flow's dirtier than juiced-up players in baseball
And beat you in the head like a sock with an 8-ball
You got Stockholm Syndrome, and that's why I hate y'all
Cause you be biggin up the industry while they rape y'all

[Poison Pen]
Yeah, I spaz out (spaz out) and beat the shit out niggaz
You fag out (fag out) and beat the jizz out niggaz
Gloves (check) ski mask (check) duct tape (check)
Get a ducat and lost and recovered and break neck
Bed-Stuy, BestBuy, clique and rush the {?}
Rip up the pavement, throw the whole block on you
Pop up, you gotta get it
Like Ricky in "Boyz N the Hood," stoppin to scratch a lotto ticket

[Swave Sevah]
Yo, I feel the sudden surge given me the urge to speak (yo what up?)
Scream somethin that's absurd and disturb the peace (fuck y'all!)
Quick to throw a hot verse to beats
You see the music I'm a prisoner, hip-hop is my work release
I'm not the same Swave you knew, I'm a whole new person
More assertive and aggressive, my attitude worsened
I raise hell on this earth
Your rap is over, you Casanova's gon' end up like Gerald Levert, bitch!

[Chorus: Immortal Technique, Poison Pen, Swave Sevah]
[I.T.] Stronghold tighten the grip, on the underground
[P.P.] I fight back-to-back holdin my brothers down
[S.S.] You done started, with the wrong motherfucker now
[I.T.] Married to the cause and we loyal, we don't fuck around
[P.P.] Stronghold overthrow the whole fuckin underground
[I.T.] Secretly run, by commercial motherfuckers now
[S.S.] So while you little step-and-fetch niggaz run around
[all] Controlled demolition, we bringin the structure down!

[Immortal Technique]
Immortal Technique nigga, I'm the type to flip
Cause me and my dogs fight to the death like Michael Vick's

And I don't hit women so I'm not gonna mangle your wiz
A prostitute with an AIDS race'll handle the biz

[Poison Pen]
Hit the block with a pen and glock, a ox and rocks, a devil spray
If that's a K, play yo' punk-ass infected with leprosy
Leave you half-murdered beyond, recognition beat and indecent
Leave you with your plastic surgeon for a remix

[Swave Sevah]
Yo, aiyyo I'm hard-bodied with it
And these scars, contusions, concussions, fractures
and pains you suffer from; I probably did it
You ain't worth spit, I put a hit out on your mother
Then fuck up you and your four brothers

[Immortal Technique]
You play Scarface when a microphone's in the room
But you more like Pacino in "Dog Day Afternoon"

[Poison Pen]
ASCAP clappin 'em, all this rap traps
Snatch that diamonds off your neck, worth 50 dead Africans

[Swave Sevah]
Yo, this dude is truly a joke
That stuff got you feelin tough, must be sniffin +Peruvian Coke+

[I.T.] We spit Cold War syndrome, it shatters the bones
[P.P.] Spray my dependance on your bitch face when it splatters you on
[S.S.] Thrown in submission holds and choked 'til you tap out
[I.T.] And shut down your party like Whitney Houston's crackhouse
[P.P.] Stronghold, live and direct up in your set
[S.S.] The habitual line steppers - Swave, Pen and Tech

[Chorus]

[ad libs to the end]

"Mistakes"

(Yes I did... I made a mistake... yes I did)

Huh..ya know living this type a life
makes you grow up faster than you'd expect to sometimes...
fuck around and be in your late twenties...
feelin like a old man and shit...
yeah for real son... let em know

It's hard to breath and hard to run when your lung's blackened
Coughing up blood like what the fuck happened
Raising my risk of cancer's the answer homie
But after drinking something there's nothing like puffing a bogie
Now I can blame the same product placement in movies,
Or the commercials, or Scarface in a jacuzzi
But now I'm living it
Damn I should a never took that first cigarette

(I made a mistake)

I fucked up, like your girl was riding on top of me
I should of took her to trial and never copped a plea
But this ain't a Christian nation motherfucka please
America never taught me to turn the other cheek
Cause I'm from Harlem, the north of Manhattan
We knock niggas out and make em bounce like Ricky Hatton
But wildin on the corner got me turned back from the Canadian border

(I made a mistake)

I knew she was a virgin, when I first met her
Rockin stockings and poppin out of the catholic school sweater
Mom told her she could do better than a criminal
Seventeen year-old psychotic, trying to be lyrical
I never meant to break her heart or fuck up her life
But I was careless, instead of treating her right
I seen her again at some club strippin and wondered
If I could have made her life different

(I made a mistake... yes I did...)

[Tech talking over the beat:]
Damn shortie, you got me on some singin the blues shit...
but you gotta stop looking backwards and remember to look ahead...
this is for all my dudes on patrol in the desert right now... for real

(I made a mistake)

Yeah..yeah... I joined the army looking for money to go to college
But they ain't pay me a quarter of what they fucking promised

Extended my tour, treating me like a sucker
That's the reason officers get fragged motherfucker
Don't give me speeches on how you respect and you love me
But no body armor in a lightly armored humvee?!
My family's lonely and you want me to reenlist for 30 grand homie?

(I made a mistake)

When I was young I got signed to a record label
The deal looked so good when it was on the table
It paid for my cable, cribs, cars and jewelry
The studios, the women there's nothing they wouldn't do for me
Except stop screwing me for publishing and royalties
How the fuck are you my dawg, when there's no loyalty?
Word to the street
I should've gone independent like Immortal Technique

(I made a mistake)

Some people learn from mistakes and don't repeat them
Others try to block the memories and just delete them
But I keep em as a reminder they not killing me
And I thank God for teaching me humility
Son, remember when you fight to be free
To see things how they are and not how you like em to be
Cause even when the world is falling on top of me
Pessimism is an emotion, not a philosophy
Knowing what's wrong doesn't imply that you right
And its another, when you suffer to apply it in life
But I'm no rookie
And I'm never gonna make the same mistake twice pussy

"Parole (Evil Genius Mix)"

[Intro: Immortal Technique (parole officer)]
(980505A) Yeah nigga what
(You made parole) What?
(Pack your stuff) The fuck?
(And get the fuck out of here) A-haha
Aiyyo man, it's about motherfuckin time man
Aiyyo G, aiyyo G son, I got my papers man
I'm out this motherfucker!

[Immortal Technique]
Yeah, I'm out of jail, and I'm never going back again
Never selling heroin, never selling crack again
Don't work for the government coke packagin
Don't fire indiscriminate, with the mac again
My people are stuck behind glass like a mannequin
They pretend to give a fuck, just like the Vatican
Second chance, faith based, two-faced Samaritans
Every time we come back, they... *[record rewinds]*
I'm out of jail, and I'm never going back again
Never selling heroin, never selling crack again
I'm out of jail, and I'm never going back again
I'm out of, I'm out of (I'm out this motherfucker!)

Yeah, I'm out of jail, and I'm never going back again
Never selling heroin, never selling crack again
Don't work for the government coke packagin
Don't fire indiscriminate, with the mac again
My people are stuck behind glass like a mannequin
They pretend to give a fuck, just like the Vatican
Second chance, faith based, two-faced Samaritans
Every time we come back, they keep on cashin in
Prison labor, third-world sweatshop comparisons
'til we kidnap the whole fuckin garrison
Yeah, poverty, makes people do, reckless things
But corporations do worse to protect they bling
Prisons are more, overcrowded than the rap game
They say you more likely to go to jail with a black name
Freakonomics that I speak through ebonics
and fuck Phonics, little niggaz is (Hooked On) chronic
But if you on stage with the DEA, as your hype man
Don't get yourself locked up, and blame the white man
We transformed gangs and criminal enterprises
Usin O.G.'s as advisors
Before they, send us to war, after they divide us
But I won't let 'em use us like Teddy Roosevelt's Rough Riders
My movement's like a jujitsu kata
I graduated outta prison, so FUCK my alma mater nigga

[Interlude: Immortal Technique (woman)]

(Hello?) Yeah yeah, what's up yo?
(Hey, how you doin?) Yo, you know what?
I just got my papers (you're fuckin lying!)
Yo I'm comin home to you, I'll see you in like a day and a half
(*[screams]* Oh my God, I'm so happy! Are you serious?)
(*[screams]* I'm so happy! Are you fuckin serious?)
Yeah, I'm dead serious baby, I'm comin home (oh my God!)
Put the little blue thing on for me, aight?
(You got that baby, yeah!)

[Immortal Technique]
I'm on parole, and I'll never be alone again
Fuck this place baby, I'm comin home again
Shorty wrapped around me so I'll, never be cold again
Never have to knock a nigga out, for the phone again
Prison ain't the place that you find your rite of passage in
It's slavery, with nasty food in your abdomen
Middle passage, bottom of the ship, how they pack 'em in
Perpetrators on some fake shit, sweeter than saccharin
Jailhouse snitches without corroborating evidence
Niggaz sellin niggaz out for true to be, Benjamins
But now I'm free, hit the block, eatin Entenmann's
Benihana in and out, flow to eat to enter in
Newspaper pencillin, tryin to pay the rent again
Ex-con job interview, nobody answerin
Feelin violent from the frustation I got pent up in
But not tryin to go back to the place, I was sent up in
Turn my own life around, fuck the establishment
Listenin to hip-hop like "Where the fuck the talent went?"
How the fuck did you replace, lyrics with your swaggerin?
I'ma fix that, rhymin on with the mag-a-num
I roll up in a caravan, full of North Africans
My squad got, more soldier niggaz than the Saracens
Cause just watch (watch!) when the terrorists attack again
Their reaction's gonna be draft 'em and send us back again

[scratches]
I'm on parole, and I'll never be alone again
Fuck this place baby, I'm comin home again
Shorty wrapped around me so I'll, never be cold again
Never have to knock a nigga out, for the phone again
Prison ain't the place that you find your rite of passage in
It's slavery, with nasty food in your abdomen
Middle passage, bottom of the ship, how they pack 'em in
Perpetrators on some fake shit, sweeter than saccharin
I'm on parole

"Crimes Of The Heart"

Yea I turned 21 in prison locked up at night
Now I walk around free seems like another life
Another roll with some other dice
Another ho or a loving wife
People come and go some really you never know
Intellectual midgets that really never grow
Fake love that holds on like "can I hold you though?"
And old friends will look at you like "yo, yea I told you so"
A toast to the broken hearted
Who never finished what they fucking started
People who go out and try to be a rebel at night
Try to make up for the fact that they settled in life
It's like a fight between the devil and Christ over the limelight
Spiritual celebrity poker
But the whole deck is full of jokers
And every year that you get older
The stakes get higher
Gambling with a bunch of fakes and liars
Real talk 'cause the real New York
Is the pain and the suffering of lost love
Staring off into the distance in the midst of the club
Depression and emptiness that lead to suicide
And the struggle inside of yourself that keeps you alive
Survived and medicated stalked by sobriety
The life that you live now tortured by memories violently
I pray inside of me that one day you could be forgiven
For murdering the beautiful world we used to live in

Crimes of the heart
Crimes of the heart

Love... doesn't need a complicated metaphor
And sometimes nothing needs to be said at all
Sometimes a person you're with is not your one and only
And you just fuck with them because you afraid to be lonely
And when you come back its too late
So you overcompensate
Like victims of rape
Full of self hate
Lost in the affection to strangers around you
Instead of the only person that ever gave a fuck about you
Thought you were happy so you didn't come check me
But then when he cheated or treated you incorrectly
You conveniently realized you could never forget me
And tried to crawl back in my life unexpectedly
These are my indictments
Of those who claim to be righteous
And leave a trail of broken hearts on their way to enlightenment
But I cant give into hatred or pass judgment

Even towards every illusion I've been in love with
'cause the heart that betrays itself willingly
Is like a nation that trades freedom for stability
Its so seductive to be cold and corrupted
And isolated and try to be an independent republic
But liberty to be loved on the surface is worthless
The sacrifice of revolution with no purpose
Take it from a criminal searching for his redemption
Cursing at God desperately trying to get his attention

Crimes of the heart
Crimes of the heart
Looking for the shining light
Who's it gonna be? Who'll walk the line with me tonight?
Round we go (won't cross?) climbing through the endless night
Who's it gonna be? Who'll walk the line with me this time?
(me this time oooh oooh oooh)
Climbing through the endless night (endless night, endless night)

"Rebel Arms"

(feat. Da Circle, J. Arch)

[Intro: DJ Green Lantern]
What you thought it was over?!
Shit ain't over 'til we say it's over motherfucker
Aiyyo Tech, what you think about the rap game right about now?

"It's all bullshit, you know that, I know that!
Hey, come along with me man, we'll have a budget, huh?
We'll have some clout.."
"I didn't get into this for that!"
"Well that's all there is!"
"Well if that's all there is I've been wastin my motherfuckin time wit'chu
I can get more clout and more money on the STREET
than I can get followin your ass..."

[Immortal Technique]
(Rebel arms!) Yeah... yeah, uhh, yeah
The game is polluted with rappers that are really snitches
And most DJ's are nothin but, industry bitches
And we don't got, no mansion or riches
But we got guns and knives and your children's pictures
And everybody loses in war, but you lose more
What you think we brought back the Panthers, and the Zulu for?
Immortal witchdoctor made himself a voodoo doll
for every motherfucker that fronted that I can recall
Fuck the industry, don't call me, you can't get with me
I'll leave niggaz hangin like Mississippi
RBG to the last drop of blood in my body
Or the Feds drag me away, like a tsunami
But I'll be back, like a fresh bodybag from Iraq
Like a Baltimore slum, during the resurgence of crack
Brown and black, like the A.K. I keep in the strap
While we waitin on the next stock market collapse!

[Da Circle]
It's territorial, oratory editorial
Fuck around I'll be the cause of your life's memorial
I write rap's territorial, East Coast border zoo
Never crossin waters 'til I will coastally slaughter you
I'm better than all of you, vendetta's be mauling you
You're talkin cheddar, I'm a shreddar, I'll sever it off of you
I'll never remorse for you, no letters endorsin you
Pole position in the coffin is what it's, costin you
The cockiest bosses who control the fortunes too
The mortgage is of a cultural losses, through and through
(But it's the rebel arms!) Godspeed with devil's charms
The bitch-made gets switchblades in every arm
And this way we ix-nay on any harm
Cause next play and fakes lay like hidden bombs

We marching units in, the soul is true within
Eternal missions with church, a lifetime to do it in

Stronghold said it, whoop yo' bitch-ass with batons
The rebel arms swarm and form like Voltron
Slash your own beast, you heard (Mark of the East)
Runnin through cop lands screamin "Fuck the police!"
Hormones in the water (water) they actin out of order
Like a pack of rabid wolves, they lambs for the slaughter
Crush your man to bull, rip the drums like Animal
Eat 'em seeds, save my own kind, I'm a cannibal
My regimen salute me, haters wanna shoot me
Kool-Aid in their veins, they'll always try to sue me
You sell crack and rap, did a scared bid
Multiple baby mamas, take care of yo' kids

Guillotine rap, shackles on your neck
Chemical warfare where punchlines connect
Da Circle play the snipers, with Immortal Tech'
They called the block govenor to drag him of the set!

[J. Arch]
Rebel arms out for supremecy and move non-gimmicky
Related to royalty on each trip you mention me
Twist bars illest-ly, rebel against the infantry
Get more than yo' feet wet when I make you a memory
Cats not ready because they commercially industry
I make house calls to those afraid to visit me
Disrespect, I'll smash off the petty
from undisclosed locates, move fast for their cheddy
Arch don't breakdance, yet I (Rock Steady)
I jump on your scope to prove your aim not deadly
My shot to the top is like Mikki and Mal' smelly
Flow milky like the tits of a chick, that's top heavy
The (Technique's Immortal) so Rebel Arm's the regiment
Arch status nicer than, other rappers ever been
My cantine's full from when the doc don't got medicine
Five-star general, frontline veteran

[Outro: DJ Green Lantern]
Invasion baby!
Shit ain't a fuckin game that we playin
Immortal Technique...
Oh yeah, don't forget
"Revolutionary Vol. 3" comin soon
You're not worthy, you sons-of-bitches!

IMMORTAL TECHNIQUE
THE MARTYR

Immortal Technique Lyrics

"Burn This"

This is Immortal Technique
Harlem, New York
All over the world
And this is The Martyr
If you are listening to this
It is your responsibility
To burn this for every single motherfucker you know

Immortal Technique Lyrics

"The Martyr"

['Elizabeth' Movie intro]
I'm content to die for my beliefs
So cut off my head and make me a Martyr
The people will always remember it
"No. They will forget"

A man who walks with God, can walk anywhere
Hence.. I fear nothing

[Immortal Technique - Verse 1]
The point of guerilla war, is not to succeed
It's always been just to make the enemy bleed
Deprivin' the soldiers of the peace of mind that they need
Bullets are hard to telegraph when they bob and they weave
The only way a Guerilla War can ever be over
Is when the occupation, can't afford more soldiers
Until they have to draft the last of you into the service
And you refuse cause you don't see the purpose
The only way to counter the insurgents that are well-equipped
Is to paint the people fighting for freedom as terrorists
Then find a faction lookin' for foreign investments
You stall them with power and murder any objections
You can't stop a revolution from breathin'
So to beat 'em they offer people the illusion of freedom
But when you're done dreamin' and wake up, tortured for treason
Then you can see them, hidin' behind the God they believe in

[Chorus]
Deep in the trenches in the heart of a war
That's the place a Martyr is born (Mothafucka it's on)
During the night before the start of the dawn
That's the place a Martyr is born (Mothafucka it's on)
When the gunshots are rainin' in the heart of a storm
That's the place a Martyr is born (Mothafucka it's on)
Guerilla war when the army is gone
That's the place a Martyr is born (Mothafucka it's on)

[Verse 2]
The purpose of life is a life with a purpose
So I'd rather die for a cause than live a life that is worthless
I don't need the circus or the day of national observance
I need you to think for you and stop being a servant
Pawns only move a square in the game that they're used in
And realise it too late, like the shootin' of Huey Newton
Or Patrice Lumumba and Salvador Allende
Slaughter by the power hungry branches of their own gente
Ghandi wasn't killed by Pakistani nationals
He was assassinated by a Hindu radical

And Che Guevara, rebel to a U.S. continent
Was sold to the C.I.A. by Bolivian communists
Wasn't Yitzhak Rabin murdered by a Zionist
And Anwar Sadat a victim of the same violence?
Malcolm X was seen as a threat to the F.B.I.
But to blast 'em they used Muslims from the N.O.I.
Even the 35th President of the Republic
Was murdered by factions of his own government
So now that it's proven, that a soldier of Revolution
Or head of an empire, disguised in a Constitution
Can not escape the retribution or manipulation
Of the self-appointed rulers of the planets corporations
So Imma need every generation to put your hands up
Cause you can only get 'em off your back when you stand up!

[Chorus]
Deep in the trenches in the heart of a war
That's the place a Martyr is born (Mothafucka it's on)
During the night before the start of the dawn
That's the place a Martyr is born (Mothafucka it's on)
When the gunshots are rainin' in the heart of a storm
That's the place a Martyr is born (Mothafucka it's on)
Guerilla war when the army is gone
That's the place a Martyr is born (Mothafucka it's on)

Immortal Technique Lyrics

"Angels & Demons"

(feat. Dead Prez, Bazaar Royale)

[Intro:]
"What do you see when you're in the dark and the demons come?"
"I see you. I see you standing over the grave of another dead president"

[Hook: Bazaar Royale]
I see angels above me
Demons below me
Fighting over heaven, heaven, heaven
It's real

[Verse 1: stic.man]
America's nightmare; young, black, and just don't give a fuck
Run up in the courtroom and wet 'em up
Got nothing to lose but my handcuffs
Every man must choose to lay down or stand up
It's war time, everything is fair, no fear
When they say the homie murdered the judge, I don't care
Fuck 'em, he deserved it, long as the homie get away
And don't get caught for the crime, I encourage it
We rootin' for the villain in black
Pourin' out Absolut, salute, niggas is shootin' back
In self defense we bang the pistol like
Larry Davis or Brian Nichols
Every pig, every public official, the boomerang
Is coming back to get you, you reap what you sow
The system you created created a monster
And now you scared cause it's coming back to haunt you

[Hook x2]

[Verse 2: M-1]
Since we gonna take the blame, I'm a rep my name to get my aim right
Let's have an overthrow and after party in the same night
Same height as Huey, same muscle build as Malcolm
With the same circumstances in the hood, you know the outcome
And read it in the news about your sergeant and your captain
Don't take this as a warning, just another nigga rappin'
Fuck the way we organizing, fuck the training and the grapplin'
And fuck them Uncle Toms who call police because we smack them
And fuck you sympathizers with your middle class reactions
Cause we bangin' on the system, G'd up, fuck the factions
And if you didn't know, the G was for George Jackson
And long live his warrior spirit packin' the Magnum
Watching over the soldiers, knowin' niggas be blackin'
When we really need to be disciplined in our ways and actions
When we get some freedom you niggas can start braggin'
Till then, inside the blood of my eye, you see the dragon

[Hook x2]

[Verse 3: Immortal Technique]
I'm like the birth of baby Mohammed, the movement I started
Can spar with the hardest, the martyr regarded as Spartacus-hearted
It doesn't matter whose missiles can shoot the farthest
When you're a target in an Afghan Tutoberg Forest
Close quarters combat over corrupted elections
Bilderberg is like cancer, it grows an infection
Nepotism is the gold and the conductor's connection
And ignorance is the prison that the people are kept in
The military ain't there for the people's protection
They're just there to protect an investment
That's why people get arrested, electrocuted, molested
Connected streets are infested with those tired of protestin'
Traumatized children grow to guerilla garrisons
9/11 generations pale in comparison
And you will learn a lesson repeated through history
That no matter what you think, occupation is not victory

[Outro: Immortal Technique]
Somalia, Kashmir
Nigeria, Palestine
Iraq, bring it back

[Hook x2]

Immortal Technique Lyrics

"Rich Man's World (1%)"

[Arthur Jensen:]
"You get up and howl about America and democracy. There is no America. There is no democracy. We no longer live in a world of nations and ideologies
The world is a college of corporations inexorably determined by the immutable bylaws of business
The world is a business
And I have chosen you to preach this evangel."

[Immortal Technique:]
For all my free-market, healthcare-robbing, stock-stealing, retirement-fund-fucking-with niggas
Fuck your little credit-card scamming, jewelry-stealing, crack-selling, liquor-store-robbing motherfuckers
(It's a rich man's world)

Shout to the homies, Carnegie, OG, Willie Randolf Hearst, Farouk, Rockefeller, the real Rockefeller, my main bitch Leona
Pour out a little Louis the Thirteenth, Scott Rothstein, Jack Abramoff, hold ya head, my Rothschild niggas
Let's get this money

I spend my day repping America overseas
Pensions for the workers? Nigga please
Embezzlement etiquette private settlement
I'm better with confederate rhetoric from my mansion in Connecticut
Foreclose and evict homes at the tenement
I twist words like a speech impediment
I hope you got good credit bitch

If not better get a new job with benefits
While I play golf with niggas I get cheddar with
New money buys brand new karats
My old money bought your great grandparents

You got grills in ya mouth I ain't mad at ya
I own every gold mine in South Africa
Thanks baby you made me a billion
Plus I own a building for each one of my children's children

That's the shit
Snort coke in the whip miss USA sucking my dick
Yea what
Fuck the law 'cause real jail is for suckers
I go to country club prison you dumb mother fuckers
(I am the 1% fucking bitch)

You know my CEO corporate steeze please
Overthrow governments overseas in a breeze
Politicians in my pockets for a few hundred Gs
So if I'm ever in court my assets'll never freeze

I got a job and house and a bank account

When I'm out I doubt that's something you could say
And if not then I fake death like Kenneth Lay
Make money every day the world burns on its axis
While y'all struggling to pay taxes
I'm getting my money the fastest
Memos and faxes shredded-up documents
Slush funds through the corrupt continents

But they don't want me indicted
'Cause they don't want my dirty laundry aired when I fight it
Don't get my lawyers excited
'Cause what good is a law if you can't rewrite it

I got CIA traders, dictators
So fuck y'all whistle blowers and haters
(It's a rich man's world)
Shit

I'll invest money from Al Qaeda
In the bank 911 widows go to later
Capitalism's who I pray to
Fuck the state of the world
Money talks so what the fuck I need to say to ya girl
(I don't pay em to fuck, I pay em to leave)

You know my CEO corporate steeze greed
I'll treat countries like the IMF down on your knees
Real gangsters run the world fuck what you believe
I'll cut down the forest while y'all niggas burning some trees

I'll get your family murdered for a couple of Gs
'Cause your working-class money ain't fucking with me
You think rappers are rich 'cause of songs you heard?
My labels make the money and haven't rapped a fucking word

Yacht in the ocean coastin' with the sails out
Hey America thanks for the bailouts
I made off at the Banco Ambrosiano
Got away scott free like el Vaticano

Activists act a bitch get mad at me
'Cause I'm a tax free charity
80% to the staff and company
And 20% to the homeless and hungry

The country gotta pay the fed reserve
Kick back to the banksters haven't you learned
You protest cops who patrols on the street
But I bought city hall so I own the police

Email, Facebook and the shit you tweet
Own the phone companies so I heard you speaking
My suggestion is no correction no elections, sex with no affection

No invention would benefit the world of man
Will exist 'til I got the money in my hand
World bank, interest rate damn rape on the spot
But I'm a gangster you gon' take my money like it or not, nigga
(I got your country in my pocket, motherfucker!)

You know my CEO masonic steeze cheese
Only little people pay all these taxes and fees
Since you were born we controlled what you watch and you read
And pretty soon we're gonna own the fucking air that you breathe

I take what I want fucker I don't have to say please
I'll convince you that it's good for you, take it and leave
You think presidents are the face of a nation
I put em all where they are, end of the conversation

Immortal Technique Lyrics

"Toast To The Dead"

[Chorus]
Rest in Peace
Here’s another warriors song, rep this life to the fullest
Mothafucka, say yo’ prayers!
For brothers who died from black-on-black violence
Rest in Peace
You ain’t payin’ respect when you’ ‘spose to
Rep this life to the fullest
Rest in Peace
This ain’t for y’all, this’ a toast to them
Rest in Peace

[Immortal Technique - Verse 1]
Here’s a toast to the dead
If you don’t drink, smoke to the head
For the freedom fighters killed by the feds
For those who died hard in the streets soaking in red
And died slow asleep in a dream choking in bed
Here’s a toast to the dead for my enemies that are gone
I’m not a coward so, celebrating that would be wrong
I pray to God that your soul will come back again
So I can see you in the next life and finish it then
A toast to the dead for criminals, burning in hell
I wonder how many presidents are burning as well
Emperors, Popes, Senators, Generals
Amputees feelin’ unlucky until they see the vegetables
A toast to the dead for those who I’ve forgotten
Written out of the history by the corrupted and rotten
Black saints whitewashed during La Reconquista
Thousands of Indios Spaniards used to conquer the Incas
F-ck a moment of silence! I need a moment of violence!
Like the nineteenth century Caribbean Islands
Long live those who came before, that paved the way for me
The warriors and scientists that came before slavery
And if that last lyric was predictable
Take your clairvoyance and apply it to your life in the physical
Presumptuous half-hearted homunculus
Self-destruction is the power without knowing what the function is

[Chorus]
Rest in Peace
Here’s another warriors song, rep this life to the fullest
Rest in Peace
Mothafucka, say yo’ prayers!
For brothers who died from black-on-black violence
Rest in Peace
You ain’t payin’ respect when you’ ‘spose to
Rep this life to the fullest

Rest in Peace
This ain't for y'all, this' a toast to them
Rest in Peace

[Immortal Technique - Verse 2]
Here's a toast to the dead, for all of my fam
I will never let an idea die with a man
My rhymes are like Nazca lines designed to give a view-of-this
J.Dilla's still alive as long as his music is
A toast to the dead for rap legends and pioneers
Your legacy won't be forsaken as long as I am here
Knowledge of the past and, wisdom of the present
I'll teach and leave in the hands of a worthy lieutenant
A toast to the dead, for children with cancer and aids
A cure exists and you probably, could have been saved
Sad to see, medicine divorce morality
Corporate homewreckers, pimpin' up a salary
A toast to the dead, for those that've died today
The victims and those exonerated by DNA
The only thing worse than giving freedom to the guilty
Is killing the innocent, and leavin' your soul filthy
Immortal Technique, remember me when I'm gone
I encrypted my lyrics to stay alive in a song
So you'll always keep a piece, of my spirit inside
When you struggle to complete what I started before I died
But some of you, won't survive the changes the earth makes
Swallowed by tsunamis, hurricanes and earthquakes
And that's just the first stage of 'you-can-not-reverse-ways'
And realise that we are one, regardless of our birthplace

[Chorus]
Here's another warriors song, rep this life to the fullest
Rest in Peace
Mothafucka, say yo' prayers!
For brothers who died from black-on-black violence
Rest in Peace
You ain't payin' respect when you' 'spose to
Rep this life to the fullest
Rest in Peace
This ain't for y'all, this' a toast to them
Rest in Peace

Immortal Technique Lyrics

"Eyes In The Sky"

(feat. Mojo of Dujeous)

[Chorus:]
I am the eye in the sky looking at you I can read your mind
I am the maker of rules dealing with fools, I can cheat you blind

[Verse 1: Immortal Technique]
Yeah, my truth is the Ark of the Covenant buried in Ethiopia
Watch when you fuckin' with a Minneapolis Somalian
When I go home the world I used to know is gone and I will live on my own
For what shall it profit a rapper with creative control to sign a deal with the devil and lose his soul?
My still born first expression is cold
Like the faces of slave masters on the paper I fold
Subliminal racial supremacy chokin' me quick like the bedtime stories of Joseph Smith
Lynch mob gunnin' for me trynna murder my seeds
Shorty put him in the Nile in a basket of reeds
And now I stare in to the future with a spiritual flashlight wondering who the fuck was me in a past-life
Bad diet, fuck raw, die young, fast life, same as a crash flight that took off when the music died on your last night
Tell em' the truth and they call you a traitor
Talk to em' honestly and they call you a hater
Losin' my composure cause the message is urgent
Talkin' reckless drunk on the mic like Larry Merchant
Cursin' at the serpents, Sumerian demons
Who brush their wings against the air that I'm breathing
A heathen with nothin' left to believe in even a reason from livin' that was forgiven by God and not religion
Envision Jesus risen from the dead like Horus in the Baptist church shakin' off the rigor mortis
The borders should be illegal instead of the people that were here before the bible and all of its sequels
I speak to the detached and unrealistic that were born normal but turned socially autistic
We resisted Homeland Security's mission because I know what they really envision...

[Chorus x2]
I am the eye in the sky looking at you, I can read your mind
I am the maker of rules dealing with fools, I can cheat you blind

"Goonies Never Die"

(feat. Diabolic, Swave Sevah, Gomez)

[Intro 1]
And it's not smart to be dumb
It's not smart to be dumb
bumb de dumb dumb dumb
Back where I come from
it's not considered smart to be dumb

[Intro 2]
Immortal Technique -
Okay little empanada, time for bed
"Empanada" - Uncle Felipe
Immortal Technique -
What, what is it now?
"Empanada" - I heard that
you and my dad used to
be in a gang. Is that true?
IT - Who told you that
man, your mother. It
wasn't a gang we were
just a group of friends
Em - Did you do bad things?
IT - No no no look we just
used to draw and stuff
and play karate, borrow
things, throw stuff, y'know
run around at night. Like Goonies
Em - Whats a Goonie?
IT - You never heard of
Goonies before?

[Verse 1 - Immortal Technique]
I coulda chose another life
with the feds try'na get me
Little kids putting work in
like at Gap and Disney
In the whip high as shit
like Bobby and Whitney
Grab your hand and push
the mother fuckin' pedal to sixty
Harlem cops frisk me to
get me to make their quotas
But I told ya "Siempre hay
que separar las drogas"
Bar brawl in the club
popping and rocking georsh
Shot it out leaving bullet
holes the size of matzu balls

I love big chicks never
fucked with a slim broad
Played soccer and
hammered nails into their shin guards
Gambled at cee lo with
Dominicans locked in the tombs
We was there for robbing
niggas for them Spanish doubloons
Remember Goonie era
graffiti of all sorts
Now they wanna foreclose
on the hood to build a golf course
I'll put your hand in a
blender to make an entree
Then cut your dick and
glue it back on the wrong way

[Hook - Immortal Technique]
All ma revolutionary
soldiers better ride
My word is mathematics
bitch numbers never lie
So even if they tell you I'm
dead I'm still alive
Because mother fucker
Goonies never die
Witness protection
program rappers better hide
I serve revenge out the
freezer niggas never slide
So if they tell you I'm gone
and you safe niggas lied
Because mother fucker
Goonies never die

[Verse 2 - Swave Sevah]
I'm a certified goonie the
type a burgla rob ya crib
And leave it smellin like
sour and Afghan gooey
Life is a movie but yours
was filmed on a greener screen
I give you pure uncut raw
no deleted scenes
War with a broadsword
dumping a tech nine
Slit your throat give you a
Colombian neck tie
The best buy to get we let
die let fly the next guy to try some shit
Listen a few words just to
describe my clique
We like a gang of spartans

walking on the Gaza strip
Never say die its time to
fight and we never run
My Goonies rob niggas for
jewelery we call em treasure hunts
Let him front like he a
tough guy with wippe?
I'll hit em slug turn him to
one eye willy watery
grave hide ya chips
I'll hijack ya boat load and
cruise away on my pirate ship

[Hook - Immortal Technique]
All ma revolutionary
soldiers better ride
My word is mathematics
bitch numbers never lie
So even if they tell you I'm
dead I'm still alive
Because mother fucker
Goonies never die
Witness protection
program rappers better hide
I serve revenge out the
freezer niggas never slide
So if they tell you I'm gone
and you safe niggas lied
Because mother fucker
Goonies never die

[Verse 3 - Diabolic]
Before Duncan Penderhuse
was runnin' with dougie doug
My team got away with
murder we ain't fit the bloody glove
Those jungle breeze and
we come to feed our hungry cubs
With hoes pulling out our
pipes like Goonies under country clubs
Let these funny thugs
know whoever steps in 'Bolics spot
Is getting crushed with
solid rock the jester copper pot
I suggest the drama stops
I'll flood blocks with mustard gas
You're up shits creek in a
rubber raft cut in half
Cross my fucking path I'll
dare you I'll mangle who lit the fuse
Quick to lose my marbles
like Mikey replacing his with jewels
Watching y'all enslave the

game I'm forced to say the truth
Break the chains quick and
Sloth reaching for Baby Ruth
We got AD proof and
whores in daisy dukes extra low
While fat bitches do the
truffle shuffle just to get in shows
Fuck what your record
sold respect the code and recognize
The rebel tribe that my
people kept alive will never die

[Hook - Immortal Technique]
All ma' revolutionary
soldiers better ride
My word is mathematics
bitch numbers never lie
So even if they tell you I'm
dead I'm still alive
Because mother fucker
Goonies never die
Witness protection
program rappers better hide
I serve revenge out the

So if they tell you I'm gone
and you safe niggas lied
Because mother fucker

Immortal Technique Lyrics

"Natural Beauty"

(feat. Mela Machinko)

...natural beauty, so beautiful, yeah, natural love, yeah...

They corrupted the priceless African image of Isis
Replaced it with a lifeless anorexic white bitch
The fashion industry got 'em in a funny spot
Self-hatred leaking out they mouth like a money shot
Movie star, Hollywood Babylon fantasy
Buncha peacock bitches in a cocaine canopy
And if you healthy they make you think you're a manatee
Look how they invented this euro-centric insanity
Got you brain washed to the point you bleaching your skin
Blind to the truth, you can't see the beauty within
Cause ain't nothing wrong with exercise to tighten your thighs
But there's something wrong with contacts that lighten ya eyes
We're goin backwards, from hip hop in the park
To the experiments by Dr. Kenneth Clark
So after the cannabis I'ma have to handle this
Release the pressure on her and open her like an amythist

Their lies cant fade ya beauty
You gotta know who you are
Stay strong and always remember
The truth in your heart
Don't forget there are those who
Benefit from your scars
And who deny what's natural

Check it uh,
The business of beauty isn't a natural model
It's built to be the opposite of the cultures we topple
These magazines got you caught in a hustle
Cause when you starve yourself
Your body doesn't burn fat it burns muscle
And men don't even like women control the business
That's why the women look like men
And the men like bitches
I break it down as god is my witness
Remember Sambo charicature characteristics
Now who got the collagen under they lipstick
Implanted Arabic hips, surgical sickness
A bi-polar society that claims to be righteous
Spray paintin artificial melanin
Tryin to be like us
Livin in a pathetic epidemic of schizophrenic buying a
Synthetic body with credit
You mad that I said it
But you know that I'm right

Find a natural beauty and get you some natural lovin' tonight

Their lies cant fade your beauty
You gotta know who you are
Stay strong and always remember,
The truth in your heart
Don't forget there are those who
Benefit from your scars
And who deny what's natural

Their lies can't fade your beauty
You gotta know who you are
Always remember, truth lies in your heart

Immortal Technique Lyrics

"Civil War"

(feat. Brother Ali, Chuck D & Killer Mike)

[Immortal Technique]
The ghetto is like a prison, with invisible bars
No matter where you ride, it always follows you where you are
And it's hard out there, for a pimp to get outta
But it's harder for the hooker that he beat the shit outta
I got niggas underground in the Confederate States
Ironically runnin' from slavery that prison creates
So I never hate on the south, I respect they vision
I just hate on niggas that promote Samboism
And white execs that love to see us in that position
They reflect the stereotypes of America's vision
They want us dancing, cooning and hollering
Only respect us for playing sports and modeling
More than racism, it's stay in your place-ism
More people are trapped in practical blackface-ism
So fuck a Civil War between the North and the South
It's between field niggas and slaves that are stuck in the house

[Chorus: Chuck D]
Civil war for the soul of a nation
This is a struggle to save civilization
Demonstrations overthrowing the occupation
The annihilation of mental colonization

Civil war for the soul of a nation
We fight for the future of our civilization
Destroy the corrupt government organizations
Trying to survive cultural assassination

[Killer Mike]
Crip niggas, Blood nigga, ese's, Asians
Why the fuck we warring with each other's population?
The devil wanna dead all our population
People in Folk nation, why the separation?
Why we got Jamaicans hatin' on Haitians
When the British and French raped both nations?
Mexicans and Blacks kill each other, straight hating
While the government profits from prison population
If you on the bottom, be you Anglo or Asian
You gotta recognize the realness of what I'm sayin'
You gotta recognize another G ain't the enemy
When the police ride to kill us frequently
We gotta make the youth see, where the truth be
If you a G, then grow and develop GD
50 years of gangs and our people still poor
If we really run the streets, we should really end war

[Chorus: Chuck D]
Civil war for the soul of a nation
This is a struggle to save civilization
Demonstrations overthrowing the occupation
The annihilation of mental colonization

Civil war for the soul of a nation
We fight for the future of our civilization
Destroy the corrupt government organizations
Trying to survive cultural assassination

[Brother Ali]
Listen, our hearts were torn apart just like y'all was
Watching towers full of souls fall to sawdust
Everytime we called your office you ignored us
Now you holding hearings on us all inside a Congress
Microscopes on us, ask if we're Jihadists
My answer was in line with all of the Founding Fathers
I think Patrick said it best; Give me liberty or death
I shall never accept anything less
You claim innocence, you play victimless
But you gave the kiss of death in the name of self defense
Slavery and theft have brought the nations to the end
Of pacifying your citizenry with excess
We believe in freedom, justice, security
But they're only pure when they're applied universally
So certainly if I rage against the machine
My aim was only to clean the germs out of the circuitry
Heard you need putting fear inside your heart
Make you burn Qu'rans and tell me not to build a mosque
Me, my wife and babies we ain't never made jihad
We just want to touch our heads to the floor and talk to God
Ask him to remove every blemish from my heart
The greatest threat of harm doesn't come from any bomb
The moment you refuse the human rights of just a few
What happens when that few includes you?
Civil war

"Mark Of The Beast"

(feat. Akir, Beast 1333)

[Verse 1: Akir]
Get ya dough watch it go, back to the peoples that holding some
Basic H's secret states keepin the stuffs the stole it from
Peter Jospeh told us so, only those that seem to know
Can counteract the satus quo balance back wich way to go
My rough ID CID used by the beast to track you yeah
Charge in the car can cause an alarm
That's part of the arm that traps you now
Back to check in, you go inside you prepared to fly
Watch for scalin you cannot hide
Comfortable you roll no matter what you done
What treats for sky? climbin a tree while I'm gettin high
That big brother eagle start to die
No matter what the reason we can devise
The plant in the sea saw the seeds that provide?
Away for us to breathe out the evilest side
No need to kiss the dream is alive
Free from the evils of the dreams inside

[Hook: Cuts by DJ Pone]

[Verse 2: Beast 1333]
Yo the World a Mess
we All Lust the Flesh
I won't Stop till the People
see Success
So Many beat to Death
so Many people Left
With the Mark of the Beast
can't cheat the Test
You bear the Mark
i Bear the Mark
With the blood in the Waters
there for Sharks
Now everybody want to Be Quoting Marx
with a Less of the Bite
And a More the Bark
in A World of Fakes
Here's what it Takes
gotta have Big Balls
Not Baby Grapes
at A Crazy Pace
Let's do it Face to Face
the Whole Race chase Waste
Space Age Sensash
with a Warm embrace
They go and Stab your Back

it's so Wack that the Hacks
Flapjack the Tracks
and When the Bombs attack
We Gon Bomb em Back
wit the Cold Facts Rap Tracks
Catch a Jax
Theres No Latch attached
you Can't Own a Soul
So don't go go scroll po po patrol
lets Go Toe to Toe Like Pro Dojo Throws
Sold your Soul so Don't Go so Slow
no Need to Crow
No Need to Flip
what we Need is a Change in Leadership
Wont even Give a Chance to Plead the Fifth
before the Radar Go From
Bleep to Blip Bitch

[Hook: Cuts by DJ Pone]

[Verse 3: Immortal Technique]
You think I don't notice the line when you cross it
I'm like the mind of a genious trapped in a cerebral palsic
You underestimate the hood you think niggas is stupid
We read the countries credits, niggas know who produced it
Why the fuck you think the pushing military recruitment
America been platinum and she afraid of recoupment
So when you try to close the boarder and don't let us in
I'll overthrow califonria with 20 million mexicans
Cubans and chinese who came looking for freedom
Till they realised america was run by a demon
And I don't mean George Bush he was a fuckin zero
More like the roman emperor Nero
Who did nothing while the black slum turned to atlantis
I mean those behind the canvas that made the mechanics
And then planned it, it sounds simple but stupid niggas won't understand it
Until the mark of the beats has your face branded

Immortal Technique Lyrics

"Black Vikings"

(feat. Styles P, Vinnie Paz, Poison Pen)

[Verse 1: Immortal Technique]
Back like I was locked up, putting in work
Burning through books like nazi's in a catholic church
I'm cursed like cain when he murdered his brother
Cut your face off and wear it while I'm fucking your mother
I'm mars ultor, the avenger, the god of war
And if you don't believe in me, I doubt you believe in god at all
I breathe smokeless fire, the Jinn type
That'll make you hate the way that allah made you to live life
Like hindu, niggas that be bleaching their skin white
Other people's teeth in my hands after a fist fight
I was born with a sixth sense and a swift right
Skinned werewolves and rape demons at midnight
Sell your kids into slavery after we murder you
Or sacrifice them in the same fire we burnin' you
Barbarian funeral, nigga, you wanna know?
Damn the river, bury me, and let the water flow

[Hook: Poison Pen]
Chaos, mayhem, bang outs, slay them, uprise, rape them, raid them
Cage em, pandemonium, insurgent, death merchants, commit the best murder
Pillage, Kill them, erase history, make them a mystery

[Verse 2: Styles P]
Cut the nose off, the ears off, the whole head
Immortal and ghost coming, code red
You never seen a black barbarian
Warrior, warlord, pussy, cut your balls off
More bodies come, more bodies hauled off
What you want the sword and get shit sawed off
Your throat need an axe in it
And I'm breaking your back because your spine needed a crack in it
You bugging me, I'm coming to fumigate
The wolverine, the sabre tooth, the way that I mutilate
I'm like the viking in Valhalla Rising
Except I got black skin and both of my eyes in
Don't test him, please don't stress him
He'll hang you from a tree with your own intestines
How you wanna die? make your own suggestion
Now talk to the lord and make your own confession

[Hook]

[Verse 3: Vinnie Paz]
You pussies living in a movie theatre
Put the motherfucking spell on you like brujeria
Chop his motherfucking head like a ruthless leader

Guns drawn in a church service, shoot the preacher
You need to be godly to know allah
Ain't no rappers eating around me, like a broken jaw
It ain't ever been a day that I ain't broke the law
What you think I hold a motherfucking toaster for?
I ain't going there, there's police in that room
And vinnie walk around with bags of dust like a vacuum
Bury you under the earth inside a black tomb
My body covered in Dashiki and stab wounds
I'm a guerilla, barbarians is my ancestors
That's a part of my neurological transmitters
We Islamic and brought the story of shem with us (Al hamdu Allah!)
While we brought the motherfucking blam blam with us

[Hook]

[Outro]
The walls have been breached! ANFALL!!!
We came in the name of peace and brotherhood, you wanted us bound in slavery, poisoned our water, changed our names...
Burn their homes, take their jewels, skin them alive!
Hold on, hold on, hold on...
No one will know these people ever existed, and all that will be left is what we build upon their ruins...

Immortal Technique Lyrics

"Conquerors"

(with Dr. John Henrik Clarke)

Nearly all religion was brought to people and imposed on people by conquerors and used as the framework to control their minds. My main point here is that if you are a child of god and god is a part of you, then in your imagination god is supposed to look like you and when you accept a picture of the deity assigned to you by another people you become the spiritual prisoner of that other people.

Immortal Technique Lyrics

"Young Lords"

(feat. Joell Ortiz, Pumpkinhead, CF, Panama Alba)

[Immortal Technique:]
New to the world, fresh out the barrio, I was an outlaw rebel, out of my mind, young and wild, my existence defined in one word: Survive!

[Verse 1: Joell Ortiz]
If it could be sold, I can sell it, If it can't, that's cool
I'll fix it up make it look good enough to catch some fools
It started when I was young with my genesis games
He traded me John Madden for--I don't remember the name
But it was weak though, the streets though, they play with perico
So Tito became my hijo, he had cheap blow
And each O like three, four times, I flipped ones
But it's evil, the people I deal with'll stick nuns
With big guns, the diesel that diesel never change
The custies still nod like they agree with everything
The weed ain't the same, all the colors is new
It ain't just green, the haze is purple and them berries is blue
I don't care if it was pink, as long as they still smoking
I had them bags packed until they damn near open
The hustle's in my veins, I could bleed in a pot
And make a soup that'd go for 10 dollars a pop

[Immortal Technique:]
In la calle, a collision course with incarceration, consumed by the lies of the streets, they were an illusion but I awoke caged like an animal

[Verse 2: Pumpkinhead]
They got me locked in a cell where I'm feeling like an experiment
My spirit sharper than lasers they used to build pyramids
Writing on the walls keep me sane
Knuckle push-ups on the concrete, till I bleed out the pain
Thoughts of my freedom lingering in my brain
I'm stronger and much quicker I appreciate the gain
Building with my a-alike, brown power reunite
Tattoos of my flag, PR pride Jesus Christ
But I wouldn't wish this on my worst enemy
So when I'm free I'll teach and spread the speech
Of how they try to divide us (to make us weak)
Find us (and break a piece) So I gotta
(To make a peace) honest (I play for keeps)
This is the life of your forefathers that fought hard
Four corners of backyards, power in numbers
So they subtract us and add bars
If they want it, we gonna take 'em to war
We not a gang or a clique, we Young Lords!

[Immortal Technique:]

I came to my senses, un esclavo no soy (I am not a slave), that is not my past, I came to know me and my people, red brown and black, helped me paint the future.

[Verse 3: CF]
The world got a template, to turn us into inmates caged in a state pen,
Man, fuck going to penn state,
Bonded to slave ships to punch in your timecard,
Walk my oasis spacing jungle behind bars,
Got my epiphany like Malcolm X,
Prison to the bricks, but I'm stuck in this global house arrest,
I'm a free man so I changed my mannerisms,
This Greenspan system wanna dent my activism,
Estilo machetero get my people out the ghetto,
21st century grito de alar estate quieto (stay calm),
We vocal minorities, no pookie man trail,
Guess the local authorities to be the Ho Chi Minh trail,
From robbing bodegas and boosting like low-lives,
The medium figures choking the four five,
Revolutionary gangsters in your presence,
Trying to dead us through cancer, through chemical testing!

[Immortal Technique:]
Unidos por fin! (Finally, united!) We seize the time, free at last, learn to love, live to fight, not just for me, but for others, teach the new blood, and live for freedom!

[Verse 4: Immortal Technique]
I survived the COINTELPRO assassinations
AIDS epidemic crack era fractured a nation
The interpretation of American democracy
Is best exemplified in its foreign policy dichotomy
I live a double-life of political philosophy
But revolution follows me, the struggle for equality
Against the morally bankrupt, claiming to be born again
It's a civil war again, like MS-13's origin
Banned ethnic studies claiming our culture will swallow them
But you can’t conquer people and build a country on top of them
And then feel offended that they breathe the same oxygen
Your family values lack the wisdom of Solomon
But Operation Condor and Operation Bootstrap
Are Poli Sci 101 research for the New Jack
It’s hard to reach, Communist Utopia tomorrow
When your hands are in a fucking glass jar like Che Guevara
Forget the distorted historical facts you were given
Slave trade was the capital for capitalism
Trapped in a prison mentally, dying existentially
Separated from people you can’t see yourself to be
Then racially integrated into a burning house
Colony of an empire, economically burning out
Can’t win a debate, so they sponsor every threat to me
I wonder if Agent 800 is standing next to me

In Puerto Rico, the main problem we have es que somos colonia (is that we are a colony) we are a colony, we are fighting for freedom, because we will not be a slave nation for *[?]* the struggle here is to make universities the

struggle here is in the community, it's against the police and violence, it's against discrimination, it's against the crime against humanity on this beautiful Caribbean Island, this is *[?]* Young lords, revolutionary always, from San Juan, Puerto Rico, Que viva Puerto Rico libre! (Long Live a free Puerto Rico!)

Immortal Technique Lyrics

"Ultimas Palabras"

A new American revolution has begun,
Not against the forces of a colonial kingdom
But a rebellion against an oppressor that has risen among us,
It is not a foreign invasion we have to fear,
Rather the threat of a force within our nation
That has usurped what was once a dream of having the greatest democracy ever known to man,
We now live in a world where the population has grown exponentially,
And the planet is running out of resources to sustain us all,
We in the inner-city and those struggling in the suburban ghettos may not realize it yet,
But make no mistake,
The people who control the technology and run every enterprise that makes up our world,
Have seen this coming for a long time,
The ideas of renewable energy,
Global warming,
The idea of collectively working,
Were purposefully bought out, derailed, demonized, or corrupted,
In favor of an economic structure designed by a monetary caste system,
In a desperate attempt to convince us that we need to maintain that extravagant existence,
They've pretended we might share in their dream,
That we can justify any inhumanity in its name,
Out of this blind ignorance was born the curse of slavery,
Many of the founders of this nation were themselves Masons,
That is not a Left wing or Right wing conspiracy theory,
It is a widely known and accepted fact,
So then explain to me how a nation founded by men,
Who not only understood the long and complicated history of Europe,
But also that of Africa,
Could permeate such a lie in convincing the American public,
That one race of men was superior and one inferior,
When in fact we know that all the early men,
The men who created civilization and every aspect of what we see today,
The foundation of all human life,
Were from Africa,
The greatest cowardice of course came not with slavery itself,
Unfortunately,
But with the excuses for slavery,
For if America had been as brave as the Roman Empire and all other empires that have come after her,
And claimed "No, we were just stronger and that's why we took you",
Then when slavery was over racism would've probably followed in suit,
But instead it was the social lie,
The religious lie that was told,
That stayed in the mind of people,
That seperated one human being from another,
In order to distract us from the issues of class and freedom,
They created issues around religion and race to dominate the world for centuries to come,
Some claim that they respect that they respect the culture of life in this country,
They cry out for indignity of children that are slaughtered before they are born,
But God has not penetrated their souls,

For they have no empathy,
Nothing in their cold hearts for the 100s of 1,000s of lives we have taken in our wars overseas,
For that which they call "collateral damage",
Which the are the burnt and damaged children of the world,
They have no prayers for them,
Only snide commentary on the internet and laughter in their hearts,
And yet you claim to be one with God,
Huh,
We talk about immigration in this country,
Might doesn't make right ladies and gentleman,
It just makes right now,
What we are saying to the rest of the world,
Is one day when America grows weak,
One day when her legions falter,
On the day when her economy crumbles,
China, Russia, Europe, whatever power has arisen,
All you have to do is come here and conquer us in a few military excursions,
And then you too can set up shop here,
And in 100 years you can tell every red-blooded American,
"No, you are an illegal human being,
I am the true citizen,
I have all the rights,
You have no rights",
Maybe you forgot how you got this country,
Maybe you take for granted the blood, the sweat, the tears,
That the people who live in practical serfdom shed everyday,
For we may not run America, but we make America run,
We talk about the Law,
Yet,
How many indignities have been legal in the past?
How many treaties with Native Americans have we broken?
How many international laws have we violated?
And,
Speaking of laws,
How can a corporation be regulated by a government that is funded and controlled by corporations?
How can there be accountability,
For people who see a profit margin above the lives of Americans?
Above the lives of human beings in other countries?
We have taken the soul out ourselves and placed them inside machines,
My words of course,
Will be marginalized, demonized,
In typical fashion,
Anytime you dare to question the power structure they say you hate America,
No, I love this country,
I see its beauty everyday in its people,
And I love it a lot more than those who have abandoned the American worker,
That have chose to exploit and try to take away benefit she has,
Those that attempt to make excuses for every atrocity committed,
In the name of supposed freedom,
Those who demand accountability from everyone,
But offer none themselves,
Who favor contracts over lives,
Who favor invasion and control over organic democracy overseas,

The greatest flaw that any intelligent person has is to think they're smarter than everyone else,
And so the government has planted its spies amongst us,
We have planted our spies among them,
They have infiltrated every branch of the American government,
They have retrieved names, data, hard numbers,
The paper trail that will expose those that truly control this country,
Those that control the political parties,
Those that control the oil industry,
The energy,
Those that stand behind the companies faceless,
Whose names have never been revealed,
Until tod.. *[GUNSHOT]*

Immortal Technique Lyrics

"Sign Of The Times"

(feat. Cetan Wanbli, Lockjaw Nakai, Cornel West)

Imagine the word of god without religious groupies
Imagine a savior born in a Mexican hoopty
Persecuted a single mother in a modern manger
You crucify him again like a fucking stranger
Tears of the anger are worth more than diamonds or rubies
Imagine being locked up since juvi
Imagine changing your life and still going out like tookie
Imagine niggas talking shit when they never knew me
Imagine a movie that depicted the pain in your life like the kids in Afghanistan chasing a kite
For most of the world that's what it's like
Imagine if the woman your suppose to love for the rest of your life is set to marry someone else at the end of the night
They say you fight the greatest jihad in your heart and your mind and fight the hardest when you start from behind
So I dreamed the impossible all the time
Fuck a masonic design America's future is mine repeat that to yourself cause if cultures a crime the numbers tatted on your arm aren't too far behind
It can only conquer you after they murdered your mind
So rise up motherfucker like the sign of the times
I feel my body weakening but my spirit is fine
Ready to go to war with devils at the drop of a dime and
Fight with my rebel army until the stars are aligned

Nostradamus was a white man's prophet who predicated European supremacist logic
Because the pilgrims and conquistadors columns killed more innocent people than Hitler and Stalin (Yes)
I guess the fortune teller skipped an Antichrist or two
Brother give this to the OG's doing life with you and
Pray for the problems with the popes psychology so the Vatican will offer an apology, (for what?!)
for destroying the peoples liberation theology
Snatching the spirit of Jesus from people in poverty
Business decisions like keeping people in prisons but had the opposite effect incarcerating religion
That type of crooked politics imposed on a populous is obvious if you read the Northwood documents
Forget the compliments for what I recorded
And live the revolution instead of always dying for it
Remember a bullet can never stop me
My legions are led by the spirit Haile Selassie watch me
Even if I'm shot in the shakra I will prosper
Doppler effect bumping music out a helicopter
Tellin the Persians there comes the rasta
And tell them I came back as the son of the Ahura Mazda
Fish out the Philistine dagon from the shores of Gaza
And call Quetzalcoatl flying over La Raza
This is a message to the older gods I'll sacrifice you all to the revolution like the Romanovs
Lost in the desert like the Hebrews of Israel
The blood clot system try to kill me like sickle cell
But I survived and alive to fight another day cocooned in a coma
I can still hear my mother pray

Sister crying out to god please let my brother stay
Walking towards the light but somethings pulling me the other way

Lowkey - A Million and One Lyrics

Artist: Lowkey
Album: Key To The Game Volume 1

Yeah. It's lowkey.
For all my people that wanna make a million pound. yeah
A million
Blud trust me, this time next year.
we will be millionaires

There's a million ways to make a million chips
Just ask william gates or william smith
does the Freshest Prince to the thrown, really exist?
the king's filling the Kingdom with silliness and hate
Listen mate, let me illustrate this rap shit is here to stay
Still many imitate, you couldn't take me out
with a chopper and army missiles
i see myself as a shopper at Harvey Nichols
With lots of dough but not from chatting to garage
Just to pop across the road and buy a jacket from Harrods
Too many MCs and rappers are average

I'm one in a mill, blessed with nothing but skill
I'm talkin' doe, like homer simpson picture me
rolling in a chauffeur driven limousine
Owning boats from the coast of Britain to the Philippines
In a versacci suit only stopped to strap a huge bob marley zoo
Rum made by malibu, plus bacardi too
still the type to rock shows still with microsoft doe
Surfed the net and invest in stocks
with enough money and power to arrest all the bent feds and cops
so when I walk in stores and try shit on
they never mention cost
no one said London city was fair
I aim to be a fuckin millionaire
fuck these idiot brehs
I aim to start companies and employ my peoples
Satan can't fuck with me I'm here to destroy the evils
fire arms, crack and poison needles
and the street's unthinkable tortures
don't spit a bar, relaxin' at home cinema
sippin mineral water, money stacks counting and analyzing
but the fact is right now I'm fantasizing

Lowkey - From a Place Lyrics

Artist: Lowkey
Album: Key To The Game Volume 1

Yeah, Lowkey!
Straight from South-West.(Straight from South-West) Let's Go! (Let's go!)

I'm from a place that, left me psychologically scarred,
A lot of crime, but many guys that wanna-be stars,
Mans take it easy, but a life of poverty's hard,
Shit is common, like a knife 'n' robbery charge,
In my life I did what the blind majority can't,
Around me fiends crave for crack,
And Stomp your head into the pavement untill your face is flat,
Talking codes on the payphone, incase it's tapped,
I might make a track, but still remain gutter, 'till my life fades to black.

Don't come around if you don't know the right way to act,
'Cos there's some things that you have to know first,
'Round here the cameras don't work,
Yout'-dem don't give a fuck for another man,
If you take a loss, bounce back like a rubber band,
Understand pricks try to test you,
This life is stressful, if your quite successful,
Wolves that are quick to slash your temples,
I might get a few rings and customize new kicks,
Just let me do my thing, don't fuck with my music,
I'm an emcee from my head to my toes,
It runs in my blood, in my flesh and my bones
The pen is my best friend, I'm never depressed and alone
I'm an underground cat with a professional flow, destined to blow
Emcees need to backup and let their testicles grow! (What the fuck!?)

Lowkey - Lucifer Lyrics

Artist: Lowkey
Album: Key To The Game Volume 1

This is lowkizy, raping london city
Gotta make sure you understand

I'm an outlaw rappin' the streets
Every place in the south north west and the east
Forget a punchline, i break your mouth your jaw
And the rest of your teeth
Any other MCs about war can't second to me
I stand without flaws from my head to my feed
It sound raw when I wrestle the beat
What you acting proud for?
Me, you can never defeat
You can see me down (?) stores
Steppin outdoors just to get in achieve
Got to murky mans _____ after i left him asleep
Like I said get you jaw broke quick and your torso split
On the mic, my people don't talk no shit

Stay rapping all night, while yours don't spit
I'm getting pissed of with these fool gays
Undermining Hip Hop from the UK
From that Blood I'll rap to the death
Blood i told you before man I'm better than blessed
Grew with the most roofless kids and lost baby
Finaly using the gift that God gave me
I'm not crazy just deranged and insane

I came to explain the false state of the game
Many out changing for fame without making a name
My belly's aching with pain,
Any fater that hates and tryna' spit a verse of me
Get left looking like a circus freak
On hes knees screaming Mercy Please
And he ain't even heard me speak
I don't give a fuck whether your 15 or 33
Is all good, i make dopes look awkard

Tryna to step to this step, Left with a twisted surfer
Coming in the place leave a space where the door stood
Listen jokers you get dangled off the cliffs of Dover
Leave a undercover agents mission over

Im not a snake, but on the mic. I'm a viscious Cobra
Quick to expose a rapper with a bitch persona

Lowkey - Mad World (Promo version) Lyrics

Artist: Lowkey
Album: Key To The Game Volume 1

All around me are familiar faces
Warn out places, warn out faces
Bright and early for the daily races
Going nowhere, going nowhere
Doc Brown, it's a disgrace, this place is like a whore house
The crooked systems the pimp that got us workin' 'til me worn out
Storm clouds so it's dark when I wake up
Same street, same run for the same bus
Same tramp with his change cup
But many pennies and tens and twenty's ain't gonna change his day up
This train sucks blood, you look familiar
Why do I know them tired eyes from somewhere in particular
Wait, nah it was yesterday
You shoved me in the chest just to race to the top of the escelate
So all we rats comin' back for more
Happy to carry the wait 'til our backs are sore
Trapped in the system of capitalism
That got us thinkin'that we have to take a shit job just to get a quick buck
Why not live the life that you want?
When your dreams too big to fit in that Burger King uniform
Forgot what humanity showed us
Now we walk around like robots 'til we go nuts
What strangers, we all creative
'Til age six then we start hearin' the same shit
From police, parents, teachers, television
Take them first steps towards a mental prison
Then at the end of ya life you like "what! "
"I was doin' time but I weren't even behind bars"
Know what blood, it's a very very (mad world)
Doc Brown and Lowkey]
Maintain feel the weight on my brain (mad world)
It's still the same my brains achin' with pain (mad world)
This ain't life it just doesn't feel right (mad world)
My dreams ain't nice, can't sleep at night
Went to school and was very nervous
No one knew me, no one knew me
Hello teachers tell me what's my lesson
Looked right through me, looked right through me
From the time I was a toddler, tiny and small
I grew into a little monster in primary school
Just another name on the list at registration
The teacher never listens so I lived in desperation
By Year 6, I was sick of education
Not to mention wantin' attention but I'd sit in hesitation
Scared to ask teachers questions
Cause I was quick to test their patience
Soon as I reached secondary, different heads were hatin'
To teachers I was already dead and buried, a product of the street's devistation

Aggy and fassies and fools and carryin' tools
Why, it's a weak explanation but I was never happy in school
Sufferin' from sleep deprivation
Teachers new my type, they saw it in me, never used eyesight
Most pretend they're blind when the older youths and new guys fight
Got sent around to the deputy heads
When the fat kid that grassed went back to sit in class
And dreamt about leavin' all my enemies dead
Many tears where eventually shed
Up 'til now I didn't know what my memories meant
Many messed with me then, all the fights left my energy spent
Teachers need to fix up, this message is for everyone bUt especially them
Intelligent kids don't grow unless they mentally fed in this (mad world)
2: Lowkey and Doc Brown (sample)]
Life is cruel blood, I'm tired of school (mad world)
Your mind's a tool, don't play by the rules (mad world)
That's the truth I've been trapped since youth (mad world)
My heart's bruised but I still won't lose (mad world)

Lowkey - Still Rising Lyrics

Artist: Lowkey
Album: Key To The Game Volume 1

Lowkey, I'm still rising blud
I'm still rising

Blud, I'm still rising
Iller than ill, but still rhyming
My skills thriving
The odds are stack but I'm still rising
Feeling violent but I'm still shining
You try stopping me, no joy I'm still here
Blud I leave your home boy in a wheel chair
Make you experience real fear
the real here
The fake don't listen
17 spittin' age old wisdom
Before they die if you escape those prisons
I remain with the same goal, vision and aim
But hope the fame goes missing
Cause I need my space
For Jesus' sake
Sometimes I wanna leave this place
People dyin' for nothing
What a needless waste
What the fuck are them sayin'?
Battling me
You're better off running away
Cause I'm stressed and pissed, depressed and sick
Vexed and shit
Sometimes I think I need an exorcist
Man like me only dreams of a Lexus whip
While 50 cent is rich with as many as he wants
I could've written any other song
But I' chose to write this
Out to any foes that might diss
Cause I'm known for a flow that's righteous
They wanna overthrow the throw where I sit
On beef, if you overdose you won't like it
Leave you in a coma close to your home and lifeless
Rappers are crazy, can't believe what's been happening lately
Labels cat'in' to rape me
People acting passive and shady
I dedicate this to any backpacking faggot that hates me
Cause I got a track in the mainstream

Lowkey - Who Am I Lyrics

Artist: Lowkey
Album: Key To The Game Volume 1

Yeah lowkey
Who am i?

Who am i?
A man Contemplating suicide
Cause in this place and time my frame of mind is do or die
Who am i?
A man with nothin' to lose
Who am i?
A man speaking my views with something to prove

A young man in central london running for the night bus
Passed baseheads bunning on the white stuff
Rollerblading crackfiends old and aging drag queens
Hustlers that know the way to stack cream
Clicks that go to raves and jack teens????????????? know about bus drivers
Me and my people are writers now fuck rhymers
I crush cyphers close fates and shut eyelids
But i'm deeper than that and i aint been sleepin' recently
So i need to relax things on my mind
When i put ink on this line ima poet but i
Been both a loser and winner
Been both stupid and clever
Been both student and teacher
Stress now got me usin' the reefer for the pain relief
Who am i?
A man that plays for keeps and can't be told shit
That's what makes me me

Who am i?
A man Contemplating suicide
Cause in this place and time my frame of mind is do or die
Who am i?
A man with nothin' to lose
Who am i?
A man speaking my views with something to prove

Sometimes it harder to sleep when in the streets
It's just drama and beef and the karma is deep
I seen so many walk the path of deceit
Living in the heart of this beast kindness i done that
The price of that been in knife fights and scraps
But never ever ever think my guys are strapped
Cause i escaped that by trying to rap
For every shotta every fiend buying the crack
Every drug smuggler thugs hustlers i'm not one of ya
Rappin' wise i'm the best in the land
Still i rep for the fam just a man obsessed with a plan

Till i get the checks in the bank
I won't stop like a red light i'll wreck mics
Don't even tempt me i'm a weeded mc
So check the website cause my dreams are empty
And i'm droppin' a album next time make sure you get me

Lowkey - Straight From the Heart Lyrics

Artist: Lowkey
Album: Key To The Game Volume 1

Yeah, this is Lowkey
and this is straight from the heart blood,
Yeah, for all my people
wherever you may be in your life blood
Yeah, all my women and men
Understand this is for you
no frontin' is involved right now, ya know
It's all real

We've been friends since four years old,
always speak your mind, never keep your ears closed
sure, we'll grow in different directions
but I'll stick with my bredrans
till I live off of pension
But I've got to give hip-hop a mention
together as youngsters we faced the beasts
grew from concrete that paves the streets,
Escaped from racist beef, we blazed the weed
I feel like I was raised in greed
Bruv I believe in you cause you've got faith in me
I know circumstance is a fuckery
But I'll never forget what certain mans have done for me
Bruv we link up stronger than blood, closer than family
so if you want it with us you're provoking a tragedy
Bruv over the years you've been my best friend
From the ends around foolish peers from the west end,
rippin' mics together, but remember
'cause none of us are living life forever
and any of us might die tomorrow,
for people to look on our lifetime with sorrow
we set trends guys try to follow,
they might like the model
but write rhymes that are hollow,
we living up in the ends
but picture us in a benz
a long way from billin' up at the bench
I'm spittin' this outta love for my thugs and my friends

For all those I still speak to
guess we're still people
Life's more peaceful when you grow
and you eating legal
For all those I still speak to
guess we're still people
Life's more peaceful when you grow
and you eating legal

This goes out to every man dissing the girls

Women to me, are the key to bliss in the world
As long as there's breath in my lungs
I try hard to show respect to my mum
and treat my woman like a queen. Why?
'cause she's always got good advice for me
but arguments are the type you wouldn't like to see
This is for mans showin' disrespect to frisky sets
indulgin' in risky sex
suck my dick and wanna kiss me next?
you must be crazy. I've been through a lot of shit
but won't let the fuckeries change me.
I'm a nice guy, but in bed I bully chicks.
I swear Dan I won't ever get pussy whipped
even when she's got her hands on my hoody zip
and whisperin' in my ear,
"Shall we strip?"
I know a girl that was raised in insanity
life tainted with tragedy
age eight she was rapped in the family
nineteens can't stop wieght tracing calories
I pray to see you, one day living happily
You've got issues deeper than the oceans bottom
but the kindness in your heart won't go forgotten
can't love anyone else if your soul is rotten
Hoes are common
I used to chirp em just rob the phones and chop em'
It's hard for me to front
the first time we met, you became a part of me a once

For all those I still speak to
guess we're still people
Life's more peaceful when you grow
and you eating legal
For all those I still speak to
guess we're still people
Life's more peaceful when you grow
and you eating legal

Lowkey - Still Underground lyrics

My name is Lowkey and you may know me
Volume 1 was a cla**ic, the real recognizes
still the fake don't see, this is my life
But i need and J.O.B, I'm in the same old street
and still blood, there ain't no peace
my pain ball seize, we change dope to see
where this rainbow leads
snake smiling my face with the fake goatee
there's no place that my name won't reach
still I remain Lowkey, through the thick and thin
We try to raise aboive by doing some different things
It's seems they shock, we shocking these dudes
I spend time reading books and watching the news
It's confusing feeling like this rap sh** ruining my aim Levels
I try my best just to remain settled
but the irony is easy to see
In music ive got an E at my GCSE
By then most kids where high on E or released on some weed
Only seventeen when I set my feet on the scene
to be this, you've got to do what i've done
See what i've seen, love what I've loved
Be what i've been
When i get past the weed smoke, booze, music & Girls
I remember myself a young boy confused with the world
as pissed of kid, N.W.A introduced me to this hip hop sh**
soon starting writing rhymes just to bide the time
but found quite hard to explain what's inside my mind
besides in the early days I was imitating
and after a while that sh** sounded irritating
Now this is what I do for love
the music runs deep in my weins
I refuse to front
this is the future blood
key to the game, volume two
for growing youths not doing what they told to do
I expose the truth anytime I'm in the vocal booth

Cuz it's disgraceful the way that we're living
Blazin and drinking, degrading our women
most man ain't even thinking
Satan Is winning, event saint and saviors are sining
Pray for your children, we're slave in the system
Tryna change our position
Watching the news I see the face of a stranger that's missing
We're taking over, it's great britains greatest tradition
still mens act like their to impatient to listen
even you do what you don't, make the decision
but don't act like you don't see me, when you see me
with your brethren and selling them you'r CD
it's volume 2, one of the phenomenal
one of few, chronic of my life
don't watch what the others do
Im deep with this rap
to me a Mic. is like a needle to people
feinding on smack
I was raised with insane kids, rome??
rave cribs like?? and don't take sh**
still here trapped in own made tricks
I don't take flicks or make movies
it's Lowkey a.k.a Wayne Rooney a great lyricist
remain limitles, spitting lyrics I paint pictures with
Born with the mind of scarface and a heart of saint nicolas
this lyricist puts verses love for the art
listen to these words, cuz they come from the heart
apart from this music blood nothing is ours
I'm to underground to ever f** with the charts
To hardcore for MTV, but still here like??
and MCD so just let me be, let me live
let me spit let me rep this streets
peace to all the Mc's that see and produces and send me beats
Let's be brief, it's about time that I fulfill these empty dreams

Lowkey - Trapped in the System lyrics

but that's an opinion, it isn't the truth.

i feel like im getting watched from a big water
of the system.
all my people

right now, im like general castro.
theres chemicals in my tango.
in a war, Winners write the history books
i screw my face up when someone gives me an innocent look.
there is fluoride in my toothpaste
everyday more day
living antisocial in a civilized society

Chorus

lowkey and shameless
trapped in a system!
key to the game 2
trapped in a system!
on the level above, but..
trapped in a system!
all my people,
trapped in a system!
lowkey and shameless
trapped in a system!
key to the game 2
trapped in a system!
on the level above, but?
trapped in a system!
all my people..
trapped in a system!
allets talk about modern day politics

the government is profiting.
poisoning the youth
where youths, nine years old are having s** with girls.

people think money can relieve the pain but it never does.
be sure to watch for the demons and watch for yourself.
sitting here, writing rhymes with shameless.
its all good, as long as I am alive to change this.

lowkey and shameless
trapped in a system!
key to the game 2
trapped in a system!
on the level above, but..
trapped in a system!
all my people,
trapped in a system!
lowkey and shameless
trapped in a system!
key to the game 2
trapped in a system!
on the level above, but?
trapped in a system!
all my people..

Lowkey Lyrics

"Dear Listener"

[Verse 1:]
This is for my people that miss me, I know you needed this
Every single stroke could append is a stroke of genius
Other than my cd, you ain't heard a flow as deep as this
Every verse should be treated like the mona lisa is

And yeah you might have the upper hand, if we're speaking dough
And yeah I understand that you get "G" for shows
But all you've ever done is boast, with your feeble flow
My music's touch more peoples souls than I could even know

My whole heart, that's what I give to my fans
A listener's tear is worth more than a mil in my hand
All you talk about is flipping grams and triggers that bang
Me, I consider lyricism, a privilege fam

When it comes to putting words together it's certain that I'm better
Every verse you heard is like a personal letter
So when I die, my fans can say they all knew me
Lowkey, Double P, Yours Truly

(I feel, so hear)

[Verse 2:]
This is for those praying through hell, till they're in paradise
I cry blood for the children of palestine
My life's left me so emotionally paralyzed
I couldn't even cry in a funeral where my nana died

My words are swords, have served their cause like a samurai
Cameras spy on the average guy weaving through traffic lights
These are savage times, expand your mind and analyze
Don't glamorize the gangsta life, like these other rappers might

Haters stay around me like, satellites orbit
You don't want to see the pair of guys I strategize war with
Peoples army work it, you batty guys forfeit
Not jamaican but I'm eating aki like swordfish

When it comes to putting words together it's certain that I'm better
Every verse you heard is like a personal letter
So when I die, my fans can say they all knew me
Lowkey, people's army, yours truly

(I feel, So hear)

[Verse 3:]
I told the world about my issues and the things I went through
In this game it's undeniable I'm influential
The strength of my mental, is making other spitters tremble

All I needs a piece of paper, a pencil, and instrumental

I didn't settle till I took it to a different level
Gripping metal and flipping pebbles, you sided with the devil
I see you flossing in your video that looks a rental
That little bezel around your neck don't make you flippin' special

I'm quite high when I am writing my rhymes
Like I am mike tyson on a fight night in his prime
I'm like einstein, got it all precise in my mind
With the mic I'm like? most violent times

When it comes to putting words together it's certain that I'm better
Every verse you heard is like a personal letter
So when I die, my fans can say they all knew me

Lowkey, Mongrel, Tours Truly

Lowkey Lyrics

"Tell Me Why"

Put your lighters up...

They will fight till extinction
And using the nations as weapons
Again...
Tell me why...

I've been gone for a while but don't watch that
'Cause now I'm back ready to show all these whack rappers how to rap
Type my name on youtube and watch that, get the picture. Yep
I'm the biggest threat to your little rep on the internet
Forget Channel U don't watch that, no one spits facts
And since wifey riddem everybody's making chit chats
But when my vid drops and you watch that, you'll be seeing why
There's a big difference between me and the meaty guys
MTV cribs I don't watch that, the greed sickens me
I guess I just look at the world and see it differently
Kids starving to death and when I watch that, I cry inside
How can rappers live in yards that typa size
Kids film happy slaps and they watch that, then text their friends
Generations of degenerates, will it never end?
The Twin Towers fell and we watched that
It was control demolition, there was no terrorism; it's not that

They will fight till extinction
And using the nations as weapons
Again...
Tell me why...

Youths get the Scarface movie and watch that, live that violent dream
They shoulda watched more carefully in the final scene
Forget Big Brother don't watch that, even if the other TV's shit
You can't spend your life watching other people live
Turn off Fox News, don't watch that - read a book
Glance back at history 'cause we need to look
They film us on CCTV and watch that, are we catalogue humans?
Oyster cards stay tracking our movements
Forget Myspace don't watch that, I ain't feeding Murdock
Or looking at girls posing with their skirts off
Forget profile hits, don't watch that, I know people can tell
Those numbers don't equal yourselves
Forget Borat, don't watch that, it ain't funny fam
And that's start of something bigger than you understand
And there's talk on the road but don't watch that, 'cause I'm well known
And wherever I go my name rings like a cellphone

They will fight till extinction
And using the nations as weapons
Again...
Tell me why...

Lowkey Lyrics

"Rise And Fall"

[Verse 1:]
Back in the days, I had dreams of rapping on stage
Imagined listening to radio where my track would get played
It's tragic, I never fathomed that the magic will fade
Let's take it back to the days when I established my name
I was over-hungry for beats, like the melody was something to eat
(Bars) a hundred a week was nothing to me
As long as I had something deep to crush a sucker MC
I won battles but in a couple I fumbled, suffered defeats
I was grinding hard, way harder than other artists did
At 17, on Choice FM, I went bar for bar with swiss lyrics for 45 minutes
Ready and prepared
No lie, you can ask anybody that was there
Simple and plain, my CD got critical acclaim
I began to build an official position in the game
Quicker than I could think, I was fulfilling all my aims
I miss them days, now it's difficult 'cause shit isn't the same

[Chorus:]
Everything that goes up must come down
I was alright before, but I'm fucked up now
Got a bit of success, didn't like it at all
It's time that I document my rise and my fall
If it's not your destiny then it's not meant to be
In the mirror, face to face with my worst enemy
Got a bit of success, didn't like it at all
It's time that I document my rise and my fall

[Verse 2:]
Before volume 2 dropped, my brother died
I never stopped, I just carried on busting rhymes
Putting on a brave face but it was still tough at night
I couldn't sleep 'cause my nightmares were nothing nice
Volume 2 came out, got live in the press
Regardless, I was still stressed and fucking depressed
More successful, the more I felt stuck in a web
Pain ate away at my soul 'till nothing was left
There were rumors about, I heard a dirty sound
They even tried to say that Chancers turned me down
Everyday, they were on the phone, tryna get me on that show
'Till I had to tell 'em straight, look, I didn't wanna go
I didn't wanna blow
Had nothing to prove bruva
In '05 I won an award for best new comer
But that shits all irrelevant
They say the only thing worse than not getting what you wish for
Is getting it

[Chorus:]
Everything that goes up must come down

I was alright before, but I'm fucked up now
Got a bit of success, didn't like it at all
It's time that I document my rise and my fall
If it's not your destiny then it's not meant to be
In the mirror, face to face with my worst enemy
Got a bit of success, didn't like it at all
It's time that I document my rise and my fall

[Verse 3:]
I just can't handle the chins wagging
And the lips chatting
My issues had me making decision to quit rapping
It's funny (why?)
'Cause that almost really did happen
I changed my mind everyday
Kept zig-zagging
But I'm a lyricist, I live for this
I tried to stop
Got volume 3 off my chest
Then hit Writers Block
Very pissed, I was getting sick of my topics
A pad of paper, I couldn't fill one line of it
Seeing rappers in magazines, I know I'm better than
Cussing has-beens when really I'm just a never-been
Me and my clique would be rich if we were American
Those negative times are so clear when I remember them
I hope you heard a bar, you could maybe relate with
Life's strange, it never remains the same, it changes
It wasn't just memories that made me make this
'Cause we all rise and fall on a daily basis...

Lowkey Lyrics

"I'm Back"

A time for us, some day they'll be a new world,
A world of shining hope for you and me.

[Chorus:]
I'm back
Did you forget about me?
I'm back
Did you forget about me?
I'm back
Did you forget about me?
I'm back
Did you forget about me?

[Verse 1:]
What's happening, I'm back with the wagon, smashin' this rappin' ting,
Rappers think they're dapper, it's sad, the badness they're babblin'.
Chattin' 'bout packin' gattlins and battlin', I'll batter 'em,
My adjectives are like daggers and javelins that stab ya skin.
Not challenging, maggots are *[?]*, fraggles are hagglin',
Back with a classic ta snatch ya status off these *[?]* .
I've dabbled in madness, how I've handled it's bafflin',
I'm trapped in sin and damaged within, but still I have to win.
Aiming to break the pavements and take it straight to the majors,
Make all of my favorites famous, I pray that today it changes.
I patiently pave the way for a day that we make the papers,
The haters are staying haters, they're fakers, they're blatant traitors.
Don't say it's chasing my status, I'll break away from the matrix,
They laid us to waste to phases and slaving for *[?]* .
And blaze us, complacent figures and strained to escape the Masons,
Who gave us the AIDS and plagues and not blaming my brain's patrons.

[Chorus:]
I'm back
Did you forget about me?
I'm back
Did you forget about me?
I'm back
Did you forget about me?
I'm back
Did you forget about me?

[Verse 2:]
Put on my Air Max, and walk around a day in my shoes,
Look at the bare facts, and talk about payin' my dues.
You realize every bar that I'm sayin' is true,
Phone in to cuss, any DJ that ain't playin' my tunes.
In a drought, consider me the Guinness Stout,
No I'm not the biggest or baddest, I'm just the illest out.
His bars might sound good when he spits 'em out,
But would it mean something if you were lookin' at it, written down.

I can't front, like the way I'm livin' is perfect,
Can't look at the cards you got saying you didn't deserve it.
Sellin' poison to people, that isn't my purpose,
Knowledge of self, that's the flippin' gift that I'm cursed with.
People's Army, all my guys organize properly,
Feds wanna commit, borderline sodomy.
Ring coppers in choppers, you all can try stoppin' me.
Every tune's a chapter in my autobiography.

[Chorus:]
I'm back
Did you forget about me?
I'm back
Did you forget about me?
I'm back
Did you forget about me?
I'm back
Did you forget about me?

Lowkey Lyrics

"Special"

If you don't respect yourself, no one's gonna respect you
If you don't love yourself, no one's gonna love you

It's a special kind of love, a very special kind of love,
A very very special kind of love, yeah
It's a special kind of love, a special kind of love,
A very very special kind of love

[Verse 1:]
First verse go's out to the girls, be proud of yourself
But don't just take pride in your outer shell
They take mens advances for granted
Cause it's common that we bother them
That's why so many young women can't take a compliment
You'd probably get put off if I called you
And probably get turned on if I ignored you
Make up caked up to cover up what's under there
All your facebook friends see pics of you in your underwear
He treats you like a princess, your not impressed
The truth is you'd probably like him more if he did less
You change the colour of your hair and the colour of your eyes
When will you realise that this stuff is a diguise
I sympathise certainly, seeing Jordan on tv mentally legitimise surgery
You'll only be truly loved by someone else, when you learn to respect and to love yourself

It's a special kind of love, a very special kind of love,
A very very special kind of love, yeah
It's a special kind of love, a special kind of love,
A very very special kind of love
It's a special kind of love, a very special kind of love,
A very very special kind of love, yeah
It's a special kind of love, a special kind of love

[Verse 2:]
Second verse go's out to the males of the species
The ones who've got different women for each week
What's next? I'll break down the player complex
And tell you what the motive behind it is cause it's not sex
Most people at some point got their heart broke
Misery loves company some people just can't cope
A man that hops beds cause he's scared to sleep alone
Is the same as a loose women that can't keep 'em closed
Your both in the same boat, this is what you need to know
A man gets called a player, as for the woman she's a hoe
The truth is they both are insecure people trying to mend their broke hearts
If you brag that you've slept with thousands of girls
All that tells me is that you don't value yourself
You'll only be truly loved by someone else, when you learn to respect and to love yourself

It's a special kind of love, a very special kind of love,

A very very special kind of love, yeah
It's a special kind of love, a special kind of love,
A very very special kind of love
It's a special kind of love, a very special kind of love,
A very very special kind of love, yeah
It's a special kind of love, a special kind of love

Lowkey Lyrics

"Revolution"

(feat. Jon McClure, Faith SFX, Mic Righteous)

[Lowkey:]
Little man never did exams,
Got a particular bigger plan flipping grams,
When a bigger man in his gang gave him a stick to bang,
Or maybe just hold 'cause no one thought he would kill a man,
Till he got silly billy feelin & chilling in the jam,
Sipping cham', spliff in his hand checking to the jam,
Bang bang biddy bang biddy bang,
Now he's in the camp thinking damn what a pity fam,
Rappers are yapping and flapping their lips,
Bout how they're packing and clapping their sticks,
Has to be big,
The impact it has on the kids, tells me where the factory is,
The government kill, they're just stacking their chips,
You wonder why the youths are strapped and their pissed,
If not a nine, it's a knife getting jabbed in your ribs,
People die for the petrol, the gas and the whip,
In London, you can get shanked in the heart,
Still the government put more tax in Iraq,
Ignorant little spitters are talking greezy,
Cause they bitten bits that the saw on TV,
If all you rap about is the hoes and the doe,
It's already too late, you sold 'em your soul,
You jokers act like you know but you don't,
'Cause there's little kids dying all over the globe,

[Faith SFX:]
They used to put my lights out and nights out
And days in spent blazing
And tell me to not be gaining the mazes
But why now it's right out amazing to think
Now let the revolutionaries sing
Stand up for your rights and fight for revolution
Free your mind so we can prise constitution
'Cause they're killing us all...

[Mic Righteous:]
Little man never did exams
He be chillin with his fam in a flat
Spliff in hand and spittin raps
But there's more than one way to skin a cat
Gotta make up for the things he didn't have
Wanna be a dan
Little mans gott bigger plans
Wanna be bigger than jigga and killer cam
Picture that while hes sittin back sippin out a guinness can
Feelin trapped
Done with the chitter chat!
Little man dealing crack for a bit of cash

Put his shit on smash, buildin’ stacks
Livin isnt bad
Untill a cat got in his flat
And hit him with a bat
And they found where he hid his stash
Little man fouled it
Get him back
Now really mad
Feelin militant put on his timberlands and headed to the flat
Where the cats that had jacked him were chillin at
Bowl full of gas in his gaff
And lit a match
Put it in a bad
And away it goes BANG!
But the cat's whole family was in the flat
Now it’s definitely defo prison for little man
He could of been one in a million he could've had the whole world in his hands
But shit hit the fan
When the cat came back
With his strap
Pulled the trigger back
Finished little man in a flash
Its a FACT!
That he's dead now....

[Faith SFX:]
They used to put my lights out and nights out
And days in spent blazing
And tell me to not be gaining the mazes
But why now it's right out amazing to think
Now let the revolutionaries sing
Stand up for your rights and fight for revolution
Free your mind so we can prise constitution
'Cause they're killing us all...

Lowkey Lyrics

"Everything Must Change"

Everything must change...

I'm not some kinda superman
I'm just tryna find who I am
And get my future plan
Don't know where I'm from
Don't know what my aim is
Don't know where I'm going
Don't wanna be famous
Don't wanna be that guy
I need privacy but can't be low-key 'cause it isn't me
Get pulled both ways and it tears me apart
Seems for years I've been wearing this mask
One to myself, another to the multitude
Now I'm confused with which one of those is true
In bed alone lyin myself
I realise I was lying to myself
Now I'm here, finding myself
The truth's out there I'm a find it myself
Forget going on a holiday bruv
I just wanna change

Everything...

I wish that I could make a happy song
But I'm depressed and I don't wanna carry on
I don't know what you've been told G
But no one alive truly knows me
Forget rapping I should find a job
I need direction, maybe a sign from God
I'm tortured, the pain's tormenting my soul
Got friends but I just can't pretend, I'm alone
I'm haunted, by regrets and mistakes
And everyday I'm just testing my fate
Like a boxer that loves throwing rights at them
But doctors warned him, he'll die if he fights again
Sometimes it feels like the weight of the world is on my shoulders
But that's just the way of the world
It's getting colder, it's too cold
Don't know much but I do know

Everything must change...
Must change...
Must change...
Must change...

So I've made music that made my mum cry
Bruv told me what happens when a loved dies
Don't even recognise my own face sometimes
Don't wanna stay around now, but I must try

Someone, somewhere might understand
I just don't wanna give my life to the fans
I'm tryna do more than just be real
In order to rebuild

Everything must change...

I'm just tryna survive today
And live my life in a righteous way
So I gotta watch what I decide to say
My pride's at stake
Don't wanna be described as fake
My mind states, I rate
And I'm wide awake
But I need sleep and it's kind of late
Don't wanna give them a reason to despise and hate
So I'm tryna change

Everything...

All around me, my people's dying
All being controlled by evil tyrants
Lives lost due to needless violence
Look to the sky, 'cause I need some guidance
But it feels like nothing helps
Gotta watch for my sister and my mum as well
Everyday it feels like I'm stuck in hell
I guess this is sort of how my brother felt...

See... just gotta hold on
Hope for the best...
Prepare for the worst...
'Cause nothing is promised...
All I know is...

Everything must change...

Lowkey Lyrics

"The Essence"

[Verse 1:]
I don't know exactly when it started going downhill
Let's take it back to the days it was about skill
Before it was sweet boys parading as tough geeza's
Educated men naming themselves after drug dealers
When it was a way to vent a mans pain
Before it became a tool for presidential campaigns
Before the 50's, Lil' Wayne's and Rick Ross's
I'm about to show you the essence of what Hip-Hop is
Before it was about street credibility
When it was he's alright but he's better lyrically
Think about the zombies your bad words influence
Before Hip-Hop became an advert for ignorance
Before it became Kamikaze
I'm half Gil Scott-Heron and half Talib Kwelli
You think getting shot makes you the next best thing
For every 50 cent there's at least 50 MF Grimms
And that's grim

[Verse 2:]
I know you think that this is easier
But don't believe the flippin' media
Or what you read on Wikipedia
It used to be all for the love
Now pricks are greedier
This business is sicker than an infant with leucemia
I live Hip-Hop, don't disrespect my household
I'm about to kill these rappers sales like internet downloads
We've come a long way from the old timers
Now it's all 360, deals and fucking ghost writers
Am I controversial 'cause I'm not commercial?
Or 'cause I don't rap like a rapper that wants to hurt you?
Every man's bragging, making anthems with gang-banging
I'm like a man standing, over the Grand Canyon
Hip-Hop broke down barriers like skin tone
Hip-Hop 2008 is selling ring tones
Hip-Hop even had your son dressing up in pink clothes
Is Hip-Hop responsible for your kids soul?
I think so!

Lowkey Lyrics

"Relatives"

(feat. Logic)

The views expressed on this track are not directly those of lowkey or logic, were just drawing attention to the lifestyles that some people lead

[Lowkey:] I was born in Birmancy, one of the south parts

[Logic:] And I was born in Bazara, southside of Iraq

[Lowkey:] We used to play football outside in the park

[Logic:] We used to dodge bullets outside in the dark

[Lowkey:] I never prayed, I was told there isn't a god

[Logic:] I prayed 5 times a day it's like I lived in a mosque

[Lowkey:] Me, I'm easy with a pint and some cricket to watch

[Logic:] They sanctioned everything we got, so now it isn't a lot

[Lowkey:] My mom and dad worked hard, always had employment

[Logic:]
My mom just left and my dad got poisoned
I was young but I was told that the government did it

[Lowkey:]
From my heart I can say that I love being British
I grew with 5 older brothers and sisters

[Logic:]
Yeah I had a lot of siblings but some have gone missing
Now it's just me and my little sis

[Lowkey:] Britain's got a lot of immigrants; they take our jobs everyday I swear I'm sick of it

[Logic:] My Uncles trying to get to Britain quick

[Lowkey:] I'm trying to find a job

[Logic:] Me I'm still illiterate

[Lowkey:] every 2 weeks I'm signing on

[Logic:] we only had school a little bit

[Lowkey:] I got kicked out of school very early, labeled as an idiot

[Logic:] Before my uncle left us, he gave me his gun

[Lowkey:] my girl just gave me a son

[Logic:] You see it's hot where I live, every day I bake in the sun

[Lowkey:]
It's cold where I live so I read every page to my son
And I'm getting mad, with what I look at and read

[Logic:] I just met a couple elders that.

[Lowkey:] My dad told me joining an army would be good for the peace

[Logic:]
I started meeting, now I'm training with the mujahedeen
Because I've heard that the westerners are coming with bombs

[Lowkey:] I spent months in the regiment training up to be shot

[Logic:] But this is my land, my country, I'll defend it till I pass

[Lowkey:] I just got the message that they're sending me to Iraq

Our pain is the same, but it's all relative
They cried the same tears, you cried for your relatives
And one way or another, my brother were all relatives
Home is where the heart is, yeah that's where it is *[x2]*

[Lowkey:]
Now I'm in the south of Iraq, it's a smelly place
I don't know who to trust, everybody's got a hairy face

[Logic:]
And Bazara's a scary place, it's worse than it used to be
They're dropping bombs everyday

[Lowkey:] Even little boys shooting me

[Logic:] I shoot at white faces, and any green suit I see

[Lowkey:] Every regiment's lost a couple of troops; we've lost 2 or 3

[Logic:] I still go to pray in the same place the mosque used to be

[Lowkey:] I see little kids starving to death, with no food to eat,
But an orders an order, we've got to clean the city up

[Logic:]
They see how we're suffering, and still they don't pity us
They shoot us every day tomorrow's probably me

[Lowkey:] We're trying to help these bastards, but it's like they don't want to be free

[Logic:] Yeah these people don't know what freedom is

[Lowkey:] I saw my colleague rape a woman against her will, but I didn't agree with it

[Logic:] I shot a soldier in the face, and then I hacked '. Real quick

[Lowkey:]
My sergeant got shot in his face by some dumb young kid,
Now I just want to go home that's where my heart is

[Logic:] My heart is in Bazara, and never will I part it

[Lowkey:] this wars going nowhere, tell me why did we start it'

[Logic:] I'm fighting regardless till I'm resting where Allah is

[Lowkey:]
Come to think of it, I should have never joined the army
And when I think about it, I don't hate these Iraqi's

[Logic:]
Yeah bullets flying past me, I'm scared but I can't run,
I take my sister upstairs and get my uncles old gun

[Lowkey:]
Don't know if it's terrorists or just some civilians,
But I've been told to neutralize the threat up in that building

[Logic:] I see the soldiers they're about to pass, I take my pistol out and blast

[Lowkey:]
A bullet wizzes by my face and tears my friends mouth apart,
I saw red, and starting shooting to make em all dead

[Logic:] I tried to guard my sister, but a bullet hit her forehead

[Lowkey:]
I ran up the steps to see if I buried them all
But all I saw was my little sister dead on the floor

Our pain is the same, but it's all relative
They cried the same tears, you cried for your relatives
And one way or another, my brother were all relatives
Home is where the heart is, yeah that's where it is

Lowkey Lyrics

"In My Lifetime"

(feat. Wretch 32)

In my lifetime I learnt life is suffering
And happiness is one thing that money doesn't bring
In my lifetime, our birth right is struggling
It must have been, but no matter what I keep the love within
In my lifetime, I've waited for days that didn't come
The battle's over, but the war isn't won
In my lifetime I'll keep fighting until there's none
You rap about things you see while I rap about things I've done

In my lifetime, I've been around the flipping planet
Welcome to the world though my parents didn't plan it
'86, it was my mum and dad that made me this
Just a baby, I couldn't understand the craziness
Let me take you back when, and run through my history
When Wendy didn't babysit my mum used to sing to me
In my lifetime I learnt the meaning of true love
Sometimes I feel like I've been through too much
In my lifetime, I lost battles and won some
Made many mistakes that can never be undone
Carried the same name as a doctor that delivered me
A toddler to a monster, tryna prosper in the industry
So what's your life like? 'Cause mines a bag of drama
I've seen scenes that Panorama's cameras are after
When I was 13 I saw a man die
Drove his car through that wall, all I could do was stand by
In my lifetime, I've shed so many tears
I've written so many rhymes over these years
By 20 I did more than most other British rappers did
I toured Europe, and spat a hundred bars to Canibus
The state of the world, got me thinking militant
But in the grand scheme my life is probably insignificant
I'll be stuck with regrets till nothing is left
Life's a bitch but I'm still tryna love her to death

In my lifetime, I don't mind if I ain't going platinum
'Cause deep down I know that I made gold anthems
I ain't being no ransom
But I know they'll remember me like Samsung
In my lifetime, it's been me, no tantrum
I came on my own and I'll leave no phantom
In my lifetime, in my league I'm a champion
So when I decease they'll scream my anthem

In my lifetime, I've seen everything except what I'm living to see
I'm Stevie Wonder, I'm tryna get a vision of me
In the mirror sitting where I'm predicted to be
As a winner that costs but my lyrics are free
I've seen so much over the years
It's been an uphill spiral, just getting close to the stairs

Now I've got a clean shave come over my beard
Now I've got a clean slate cause, there's no more in rears
In my lifetime, I like to grime for my chicks, and rhyme for respect
While these other rappers couldn't get in line with my steps
Inside of my head is a mind like Albert Einstein
I'm fly like a falcon outside
Just tryna get to where the outcomes outline
In take, it's about time that I ditched faith
And if it's about rhymes then I've been great
But that's the downside when your meets end

In my lifetime I learnt life is suffering
And happiness is one thing that money doesn't bring
In my lifetime, our birth right is struggling
It must have been, but no matter what I keep the love within
In my lifetime, I've waited for days that didn't come
The battle's over, but the war isn't won
In my lifetime I'll keep fighting until there's none
You rap about things you see whilst I rap about things I've done
N my lifetime, I don't mind if I ain't going platinum
'Cause deep down I know that I made gold anthems
I ain't being no ransom
But I know they'll remember me like Samsung
In my lifetime, it's been me, no tantrum
I came on my own and I'll leave no phantom
In my lifetime, in my league I'm a champion
So when I decease they'll scream my anthem

Lowkey Lyrics

"I Believe"

(feat. Eden Rox)

I believe...

I believe in equality, freedom & honesty
I believe that I'm a born leader so follow me
I believe in respecting others
I believe that sons should learn from their fathers and protect their mothers
I believe that you reap what you sow
And people won't believe if you don't speak what you know
I believe the jewels are sacred and I'm gonna be the greatest
But I'll leave this place before I'm fully appreciated
I believe in choosing your path but to improve in advance
You have to understand your roots and your past
The future is ours, there's room for iTunes in the charts
And we'll become superstars if my crew gets the chance
I believe life's a lesson, we're all students in class
I believe that MC's are confusing this art
There's lies on the telly but there's truth in my heart
Do you believe in yourself or is that stupid to ask
'Cause I believe...

I believe my future's gonna bring me grater things
I believe in getting anything if it's possible & easy to achieve
Ain't nothing wrong you can change your dreams
Make your moves and take the lead
I believe... we can do anything

I believe I was placed on this earth for a specific reason
Numerous close shaves, but still I'm flipping breathing
And I believe all oppressed people should be given freedom
I believe you saw them kids starving, you just didn't feed 'em
I believe in love, I believe in peace, I believe in God
Somehow, some way; we're gonna beat the odds
I don't believe in black or white (no), only wrong or right
I believe there's other life forms up beyond the skies
I believe you can't judge a book by it's cover
We're still brothers even if we don't look like each other
I believe it's up to you to find the life you'd like to live
I believe God guides my hand when I'm writing this
I got other purposes besides just rap
I believe I'll probably die before I relax
But if Muhammad Ali won his title back
Then I can change the world when I write a track
'Cause I believe

I believe my future's gonna bring me grater things
I believe in getting anything if it's possible & easy to achieve
Ain't nothing wrong you can change your dreams
Make your moves and take the lead
I believe... we can do anything

I believe in miracles
I believe the spirit goes to a peaceful place when you leave the physical
I'm privileged to have a opinion that people listen to
Hope this song can ease your mind if you're feeling miserable
I don't believe in fiction, facts make better movies
I cry freedom for Steve, Beco and Bellacuti
They can never move mee even if they execute me
Listen to my words and every sentence 'cause I meant them truly
I believe that Marley, Marvin, Martin and Malcolm did
Become an alchemist with this evil I've been surrounded with
However is Mount Everest standing on the mountain stick
I'm not about to live on my knees with cuts around my wrists
I believe it's essential I represent my peers
Please let go of your fears and your sentimental tears
If Mandela got free after 27 years
Then I can change the world with this record that you hear
'Cause I believe...

I believe my future's gonna bring me grater things
I believe in getting anything if it's possible & easy to achieve
Ain't nothing wrong you can change your dreams
Make your moves and take the lead
I believe... we can do anything

Lowkey - Who Really Cares Lyrics

Artist: Lowkey
Album: Uncensored

This is dedicated to you, you know who you are.
Listen... Yo...

I called you when I needed you most, I thought we would link
I told you the bad news, you haven't talked to me since
Frankly, I don't want to talk to a shrink
I might look happy but I'm angry and I'm tortured within
You come back around now, with your hands out
I can see the guilt in your eyes, maybe you understand now
It isn't the fact that when I talk you didn't listen
It's that you said you'd call back in a minute but you didn't
Don't get me wrong, I'm not trying to beg friend
It just feels lifes my hit a dead end
I tried to turn around but now my back's against the wall
And the pain just won't stop I might have to end it all
I tell myself life is sacred, It's not right to waste it
I feel surrounded but at the same time isolated
At times my own day dreams scare me
I find myself hating anyone that may seem carefree
Id rather go out smiling than crying at home
I've realized that my worst fear is dying alone
At times I lose my composure but that's not a surprise
I can't control the emotions I keep bottled inside
Don't pretend there's a friendship you and me share
When you hit rock bottom people are usually scared
I guess stupidly I expected you to be there
And when the shit hits the fan man, who really cares

Yea listen...
I was just sitting here feeling sorry for myself and helpless
Then I realized that I was just being selfish
I'm a soldier, my self-centred brain is my helmet
But when reality hit me I felt sick
We run from our problems - there's many that are paralyzed
We take life for granted - these simply never had a life
We've heard it all before - some people are deaf
That tramp lives in a box while I sleep in my bed
Inside I'm a tortured man who hates living.
But there's people being tortured in Abu Ghraib prison
There's youths right now that are dying from Malaria
So we can have clean running water in our area
That shit there, has got me feeling ashamed
If you've been through it, tell me what's the meaning of pain
You went court, and they locked you away when you we're acting wild
There's people in Guantanamo Bay that never had a trial
Weve seen a lot - there's some that were born blind
In some places hip hop can't be performed live
You whopped bare chicks, you think you a heavyweight?

In Africa 6000 people die from AIDS everyday
And the babies there get it from their mothers,
So think about that next time you fuck without a rubber
It hurts but no one said the truth would be fair
The world's a messed up place man, but who really cares?

Lowkey - Just Shine Lyrics

Artist: Lowkey
Album: Uncensored

Yeah Yeah
This is for my sister and my boy D, yeah, for you too

Just shine, shine like you know you can
It's your life and I can't hold your hand
You never know when your time will be done
So just shine, shine brighter than the sun
Just shine, there's nothing you've got to hide
Show the world you've got inside
Cause you've only got one time
Just shine x5

1st verse

Blad we go so far back we had mad fights nowadays we both laugh at
You the only one that stuck with me through the thick and thin
But I took you for granted and that's the wickedist ting.
I trust you and that's all I can ask for, So my marge is your marge blad my yard's yours
People think i'm too hard on you but don't rap if there's suttin that you can rather do
If you do wanna rap, then show me why, there's no time to be intimid blad don't be shy
You can't use them stupid excuses with me because there's so much more than you can achieve
Just come out of your shell, don't be ashamed of your skill, be proud of yourself
Listen I ain't going on fuckery, but I want you to have success as much as me
I don't want you just being my hype man trust me blad you can bust if I can
When I see you lacking focus I get qutie mad, you should be getting the exposure that i've had
If you don't want it, that's cool with me, you ain't just some breh that went school with me
I'm a person you've got nothing to prove to and I know nowadays I don't check you as much as I used to

2nd verse

For my sister ... Aisha, my beautiful survivor, from now on I do my best to be nicer
My brother left us with a burden that we carry but you were born to shine you deserve to be happy
I know I play my music loud when you're trying to sleep but i'll do anything just to seeing you smilin' at me
When I look in those big brown eyes, I know without you i'm like clouds without the sky
When I was young I would steal your sweets and take your money, no matter how much I met you with hate you'd love me
You used to draw in the corner and just think quietly, your determination and strength has inspired me
Time flies and now we're both grown up, but it's unfair that you've been through so much
But please don't let it get you down, don't let the past upset you now
Cause the mind gets tortured by over-analysis, look your gorgeous you know that you're talented
Do all the things that you love to do, there ain't a man on this Earth good enough for you
When I say we can get hit by a comet, this is honest, live for today cause tomorrow isn't promised
If you need me, never try to hesitate, i'm here for you, anytime, any place

Lowkey - Let Me Live Lyrics

Artist: Lowkey
Album: Uncensored

This is for those who died on the 7th of July, passed tragically
and the many more that are gettin' killed in Iraq as we speak
Our bombs that we taxpayers are paying for
everyday we're slaving more, you're wrong saying we aint at war
56 losses that's what intelligence said
In Iraq, they'll never tell us how many are dead
And In the event that's up to our government
They don't show the numbers, (Why?)
'cos the public can't stomache it
How can you represent truth & freedom
when you're pillaging & killing innocent humanbeings
That is something Iraqi youths are used to seeing
So tell me truly, what do you believe in?
They've been telling us lies for years, still we wanna listen
The public got a shield for the guilty politician
Now at the end of the day, why are they sharing their views?

'cos I never seen The Queen or Tony Blair on the tube

Let me live my life
With your your predjudice
Why am I getting frisked, I aint no terrorist
Let me live my life
Evidence is irrelevant 'cos we're a threat and defence will get rid of it
Ever since September 11 they've been obsessed,
opression is what's happening

Let me live my life
Forget arrest on the spot, death sentence, leave my people alone, just let them live

These days we can't even bop through Oxford Circus
without pointless coppers tryin to stop and search us
what's the purpose, why you wanna bother me
Increase security? Pff, tell them to fix up their foreign policy
I can't even sit on the tube with my walkman and listen to tunes
without them getting suspicious and rude
Watching closely at the things that I do
why are you so intrested bitch, Im probably more british than you
Gotta talk safe on the phone, for years I had the same digits
with _ try n take you to court for a train ticket
Don't argue, just listen instead
ID Card a step closer to a chip in your head
there's a bomb scare,
they ask me, what? Where? Who? Why?
It's not fair

How many muslims have blonde hair and blue eyes

so think twice
Of who you try to bother
You're just as likely to be that suicde bomber

Let me live my life
With your your predjudice
Why am I getting frisked, I aint no terrorist
Let me live my life
Evidence is irrelevant 'cos we're a threat and defence will get rid of it
Ever since September 11 they've been obsessed,
opression is what's happening
Let me live my life
Forget arrest on the spot, death sentence, leave my people alone, just let them live

Police shot an innocent man, 5 times in the head
No militant plan, just died 'cos he ran crying and fled

Do they really want us to riot and ride on these feds?
Yea maybe violence will have the desired effect
The other day a man got shot on the tube It's ill
If you were his fam, Imagine how you would feel
On the news, you never see the truth reveal
face it the truth is muslim racists that they shoot to kill
It's all gone wild, they got us locked down in compounds
Evidence is not found, no trial, this needs to stop now
And they got the nerve, to say we're hostile
Forget crackhouses, they're raiding Mosques now
I wish I could say that the future's bright
But It's not and It can't so I choose to fight
What have you got in your heart blud, you decide
'cos everyday they're abusing our human rights

Let me live my life
With your your predjudice
Why am I getting frisked, I aint no terrorist
Let me live my life
Evidence is irrelevant 'cos we're a threat and defence will get rid of it
Ever since September 11 they've been obsessed,
opression is what's happening
Let me live my life
Forget arrest on the spot, death sentence, leave my people alone, just let them live

Lowkey - Tell Me Why Lyrics

Artist: Lowkey
Album: Uncensored

Put your lighters up...

They will fight till extinction
And using the nations as weapons
Again.
Tell me why...

I've been gone for a while but don't watch that
'Cos now I'm back ready to show all these whack rappers how to rap
Type my name on youtube and watch that, get the picture. Yep
I'm the biggest threat to your little rep on the internet
Forget Channel U don't watch that, no one spits facts
And since wifey riddem everybody's making chit chats
But when my vid drops and you watch that, you'll be seeing why
There's a big difference between me and the meaty guys
MTV cribs I don't watch that, the greed sickens me
I guess I just look at the world and see it differently
Kids starving to death and when I watch that, I cry inside
How can rappers live in yards that typa size
Kids film happy slaps and they watch that, then text their friends
Generations of degenerates, will it never end?
The Twin Towers fell and we watched that
It was control demolition, there was no terrorism; it's not that

They will fight till extinction
And using the nations as weapons
Again.
Tell me why...

Youths get the Scarface movie and watch that, live that violent dream
They shoulda watched more carefully in the final scene
Forget Big Brother don't watch that, even if the other TV's shit
You can't spend your life watching other people live
Turn off Fox News, don't watch that - read a book
Glance back at history 'cos we need to look
They film us on CCTV and watch that, are we catalogue humans?
Oyster cards stay tracking our movements
Forget Myspace don't watch that, I ain't feeding Murdock
Or looking at girls posing with their skirts off
Forget profile hits, don't watch that, I know people can tell
Those numbers don't equal yourselves
Forget Borat, don't watch that, it ain't funny fam
And that's start of something bigger than you understand
And there's talk on the road but don't watch that, 'cos I'm well known
And wherever I go my name rings like a cellphone

They will fight till extinction
And using the nations as weapons

Again.
Tell me why...

Lowkey - Freestyle 2 Lyrics

Artist: Lowkey
Album: Uncensored

The album, coming out November, Dear Listener
The Mongrel album coming out January, Better Than Heavy, cheez

Listen, this is what we say to them Channel U youths, listen, them little Channel U kiddies, listen…

OK!

So what you're on the telly
What you know about putting out three CDs before you were twenty?
You know that you heard of me
What you know about being eighteen and doing shows in Germany?
What you know about four stars in a magazine?
What you know about the game, waste man I have the key?
What you know about hundred bars on the radio?
Nothing, you weren't making dough you were lazy bro
You're following, before you were bothering I was on this ting
Songs filled my pockets with profit, I'm being honest king
Said it's all politics before anybody hollered it
Turned down chances cos I knew what they were offering
Called out a couple names, had the game gossiping
Never hear Kizzy on the track with Lady Sovereign
Might see me in your girl's favourite magazine modelling
Pulling up in a tinted whip with a model in
Shot my first CD myself it was astonishing
Stockers wouldn't stock us now we tell ‘em stop grovelling
Our shottas shot to shoppers and shottas we got a lot of them
Coppers can't cop it, were coppers so stop copying
Now we're topping the toppers from Tottenham to Nottingham
All your favourite rappers want us to do a song with ‘em
Me, I ain't bothered with all of the fake politics
Me, I just live my life and stay positive
Epitome of verse-killing, lyrically I'm hearse-fillin'
Been out for a minute G… surfacing
Your whole trilogy still didn't beat my worst rhythm
What you figured B, you're as ill as me, I heard different
See your favourite MC, I nurtured him
And see all your favourite beats, I murdered ‘em
Face it your click is wasted, I won't work with ‘em
They certainly heard of me from Guernsey to Birmingham
(Woo!) Cos the name holds weight, still I wake up to the same old hate
And pray for a day my face ain't so bait
I'm a rapper other rappers act like they don't rate
Cos when DJs get my tunes they play it eight shows straight
Rewind it and drop bigger bombs than NATO make
To be real it ain't all about the radio play
Cos we all wanna bust, there just ain't no space
And the games dying, nobody's getting record sales
Channel U's full of sweet boys try'n'a impress the girls

The only rappers a lot of bredders have ever felt
Are dead or depressed in jail and never getting mail
When alive they hate, when gone, you're the best ever
This ain't a comeback fck that, I'm a trendsetter
People talk and get me differently twisted cos
This rap sht is the motherfcking business
So what you peddle pebbles, you're dead whenever my pencil moves
On every level I rep with rebels, you never lose
You resemble devils with terrible tales you sell the youths
You need to fix up yourself and tell the truth
You've been rich for ten plus years, still sellin' crack
Saying that you're still bustin' guns, why tell em that?
Knowing that these kids emulate every rhyme you've ever spat
You need to get your role models from somewhere else instead of rap
You shouldn't really need me to explain
You know that you imitate with what you speak and what you say
You've got more power than their parents but you're leading them astray
You don't tell them that these illegal ways will lead ‘em to the cage
I'm pssed. Why? I got dck-riding bredders hating
While you spit rhymes that misguided my generation
You're not real, cos what you're saying ain't the truth
You're try'n'a kill the kids, me, I'm try'n'a save the youths
The future's removal of humans, computers, pursued revolution
Hell is hot we burn like chips in a pan
At your kid's birth they'll insert a chip in its hand
I spent so many sleepless nights pondering reasons why
Most of the good people in my life seem to die
See my eyes take a look, deep inside seek to find
The bottom of my soul, find the hole where my demons hide
All I want's a peaceful life, but I can't see it like
Every morning Mum weeps and cries so I don't even try
Still she teaches me right, stay humble and be polite
But she never saw what I saw on the streets at night
I just wanna see the light, raise a yout', feed my wife
But they're try'n'a take away my freedom so I need to fight
Redesign your feeble mind and read the signs, be advised
Either I get it or I'm taking what I feel is mine
My life is like the best book you ever read
Spent nights listening to Westwood and getting vexed
My pen writes when I'm depressed cos I never slept
Bredders step, let's do it man to man like Red and Meth
You can freestyle all day, I make the best songs
I'm like an insomniac's bed, rarely slept on
The open mics, you know that's where I got my rep from
Shady bredders thought they were big but they were dead wrong
Rap with the spitter's spitters and spit for the rapper's rappers
I rip the rhythm to ribbons from Britain to Madagascar
Listen to lyricists and I diss all the backwards actors
Dismiss all the killing sht cos none of that crap should matter
You know I'm right, go and find a rapper that's as real as this
He couldn't battle, the flipping demons that I'm dealing with
I know my life ain't the hardest but even if you envy what I got
And you wanna swap, we can switch
The artist, slash terrorist, slash Double P representative

Slash the worst rapper could ever diss
Slash activist, slash kidnapper of the president
Slash his wrists and leave a flippin' slash where his temple is

(Yeah! Cheez, let's keep going man. I do this all day
Dear Listener LP November)

Listen, this is for all the hungry rappers out there yeah?

Listen, listen…

Since the day you left I've been stuck in place
They say that time heals, but still nothing changed
Every time I close my eyes I see you stubborn face
And every morning I'm home I see my mother's pain
The day you died, I had a dream where I said sorry
I threw the second piece of dirt on your dead body
When I don't see Mum for a while I get worried
Cos if she died then that would take the rest of me
Sitting in the hearse, driving to the cemetery
I kept wishing it was me that was getting buried
In a lot of ways, I feel like I'm dead already
Cos it's October and I ain't cracked a smile since February
I can feel it in the air, coming I'm just getting ready
I just wanted to hang about but you would never let me
After you passed, advice I was getting plenty
I made you famous because ‘Bars For My Brother' was legendary
People all over the globe shared in the pain
But how could you leave our parents this way?
What's worse than losing a son? I compared in my brain
Nothing! While I just sit back and stare at this page
I know you know that I didn't really hate you
But if you were still here would I appreciate you?
I don't know, harsh reality is so cold
Dad visits your grave every week but I won't go
A crossroads not knowing what way I wanna choose
Like I'm cursed to an eternity of solitude
MPs talking ‘bout their bollocks views
I'm having arguments with the telly when I watch the news
You know that feeling you get when the whole world's on top of you?
Your demons seem to follow you
People say they're there but don't bother to holler you
Can't trust yourself so trusting them is impossible
No one said life was supposed to be fair
Can't tell people what you're going through, they won't even care
You're not the only one feeling trapped, lonely and scared
Waking up in cold sweats but nobody's there
You're in a dark place, running from issues that you can't face
Conversations make your heart race at a fast pace
Can't relate to anyone, that's something that you can't face
Never ever act like we are, but we aren't mates
You just ate but you're still hungry though fam
Walk like I'm young but talk like a grumpy old man
I hate thinking ‘bout the future, why? Cos it hurts me

Imagining myself still living with my Mum at thirty
Really not sure if I'm stable mentally
Cos I always focus on my painful memories
I pray for my family, pray for enemies
Pray for my friends and myself cos I never sleep
Pray for the day I break from this cage and they let me free
Pray that I'm sent to a place that is heavenly
Pray for my present, pray for my legacy
And pray it's in a positive way, they remember me

Yes, MK, peace and love yeah

Lowkey - Wake Up Lyrics

Artist: Lowkey
Album: Uncensored

I woke up this morning so I had to make a new track
This is the difference between true stories and true facts
This right here is what waking up feels like
This is the difference between real talk and real life
It's a treacherous road so mind the GAP
because they try to blur the lines between lies and facts
They told you, it was finished, but that's all a lie
'cos there's children in them sweatshops some as young as four or five
check the tag on your trainers
they say It's important the product get endorsed by somebody famous
So we think It looks cool,
while slaves are stichin' footballs in Pakistan
I break it down in a way that other rappers can't
It's hard to stop sleeping and wake up, 'cos It's to real
But if karma doesn't get you first then the truth will
we livin in some wild days
according to Unicef there's 246 million child slaves
So…

CHOURS

Open your eyes and listen to this
cos little innocent kids are stitchin them kicks
Im ticked of, cos we live in this myth
the devils biggest trick was convincing the people he didnt exist
So.
You think It ended but It never did
they put the chocolate in our mouth
the logos on our precisous kicks
the logos on our backs, the coffe we drink almost everything,
there's more slaves on earth right now than there's ever been

You listen to the wrong rappers
Companies are using childslaves and blaming it all on their subcontractors
Don't need to guess who's sew those jeans, but who's buying these clothes
who gives us coco beans from the ivory coast
the answers are hard, but you dont need to search the skies
they're in Asian sweatshops makin Mickey Mouse merchendise
Nowdays there's less to do with the color of your skin, fam
It's more to do with the country that you're in, fam
wont stop spittin til' there's a change
every purchase that we make, keep the children in chains
It's so twisted and strange to me
some parents are so poor they sell their own kids into slavery
It's an ugly state of affairs
slaves used to pick cotton but now they stich tics on the trainers we wear
when they tell you It's finished, don't let them
'cos It's still here, even though It got abolished in 1807

CHOURS

This is for those who kept faith
and all the children around the globe gettin sold as sex slaves
Back in the day it was bad but this is the next phase
Nowdays everything's in our hands fam, Let's change
In these tragic times, we gotta analyze these rappers rhymes
fact is they blind, and they glamourize a pack of lies
The powers got us distracted but we got to fight
'cos these days It's not as simple as being black or white
We need to fix our lives and get some unity
'cos 'til the feds get their weapons and executing me
putting me back to sleep is something you could never do to me
Yours truly, Lowkey the rapper slash Revoultionary
do your research if you dont believe It still exists
It's just a matter of how long can we live with it
You could call me a hypocrite
'cos if you look at my shoe on my foot right now, you'd see a little tic on it

Lowkey - Read Between The Lines Lyrics

Artist: Lowkey
Album: Uncensored

After what happened on 9/11
Saddam was a threat they had to find his weapons
Then an inspector said that he never had any
A couple of months later that mans buried
Its damn scary cuz he exposed their rutheless lies
Then apparently commited suicide
But its obvious that he didnt choose to die
The truth is he was brutally crucified
Just imagine if they invaded great britain
Face it that war was based on rascism
I love michael but deep down hes a child
For years they said he was a pedophile
But when it went to court he beat the trial
The reason is money buys freedom so hes aloud
Dont believe the hype or let em cease your mind
People please read in between the lines

Yo I might get misquoted in an interview
And people might say somthing about me that isnt true
Or say that I did somthing I didnt do
Cuz I say im arab some people disapprove
Straight up its made blood the fakeness annoys me
Like a club night that doesnt pay its employees
I dont go there with my friends to party
Cuz thats about as hiphop as gwen stefani
Years back 50 was real his shit was raw
Now the same man call him a snitch and fraud
Joss stone didnt sell when she hit the stores
But that changed when she won two brit awards
A certain MC set up a clique but found breaders
Worst than him just so he could sound better
Dont believe the hype or let em cease your mind
People please read inbetween the lines

Yo yo hiphop use to be done on the streets
Now every mug and their mom wants a piece
Suburban parents hated this music their kids love
Now even britney spears tries to spit rub (not sure about this)
They copy whats out to dumb to innovate
Christina aguilera justin timberlake
When garage was around and the ends for ages
Then they called it grime and westwood played it
Then you got american rappers like mobdeep
Who spit about murdering people on hot beats
(something about)squash beef
When you look at the affect they have its off keep
Bush rigged the first election even let us find out
Then you wonder why he won again the second time round

Dont believe the hype or let em cease your mind
People please read inbetween the lines

Over Yeah yeah you know in these days and times
Weve got to train our minds to read inbetween the lines
Weve got to figure out whose who
Weve got to see the people for who they are

Lowkey - Bars For My Brother Lyrics

Artist: Lowkey
Album: Uncensored

So many regrets
So many unanswered questions
I miss you...
Miss you so much...
Listen

Yo yo yo yo
I hope you're somewhere listening to this
I wish I knew why you did what you did
'Cause I still haven't really come to terms with the truth
There must have been something you were determined to prove
The lessons you taught me, I can't forget
But there's so many unanswered questions
Now everything seems meaningless
You lived fast and died young
But my brother you were a genius
How could you ever believe that you'll survive
I don't care what they say, that shit was suicide
I won't lie, there was much distance between you and I
I should've told you not to do it, don't be stupid (why?)
You've got looks, got brains and your future's bright
Now you're gone I feel like I'm gon' lose my mind
I never thought you'd get yourself organised
I wish we saw the signs, the shock left us all traumatised
These are awful times, and I need more than rhymes
'Cause this was more than a tragedy
You can't just cheat the forces of gravity
You left me here to hold a brave face supporting the family

In a way you were dying to live
It's fucked up man, I'm crying while I'm writing this shit
Water from my eyes is stopping me from lighting my spliff
Why didn't you realise that your life is a gift
Mum and Dad don't understand why they've outlived their son
Every single CD, Mix Tape and Album to come
Is dedicated to none other than my blood brother
But I hate you, for the way you made my Mum suffer
Words can't explain, how a certain part of my heart hurts with the harshest pain
Last time we spoke, we said we weren't brothers and we aren't the same
I told myself you were too far past insane
How could we not take your death badly
I just asked mum and she said your name meant happy

But my soul is too cold to laugh
My heart bleeds when I'm looking at your old school photograph
I wish that I could touch your beautiful flesh
I'm writing but we ain't even had the funeral yet
Now death is something, that I'm staying ever ready for

You had plenty more to give, you weren't even 24
I don't understand why you had to die
In a lot of rappers rhymes, death is glamorised
Not me, I'll always stay remembering you
I should've known this was something you'd eventually do
When you got shived, we should've known it was bad
The next day I was sitting here consoling my Dad

It's like a nightmare, it still doesn't seem real
But this is my life, not some fucking deep film
It's the strange feeling I felt in the late night
Witnesses said that you fell from a great height
Can't be my brother man, tell me it ain't right
Right now I'd rather blaze, we could face life
Shit what a waste, what a shame
I just gotta make sure your life wasn't lost in vain
This is my brother, not just a departed friend
So hard for my marge and them to start again
From now on our lives will never be the same
We holding on too tight for the memories to fade
24 years was hardly a life
On the day you passed, it's like a part of me died
I've been scarred many times but this pain is so much worse
And it's so much harder to describe
You will still be missed
I'm sorry we didn't support you, we thought we did
I wish I broke your leg so you couldn't jump
Now all I can do... is rep your fuckin name like I should've done
'Cause it's only right
I'm still not sleeping, but now I'm seeing your ghost at night
We all wish we could've stopped you
I know I can't go back in time now, but I want to
It's like a tightened knot that I can't undo
Why did I have to lose you to realize I loved you
Be careful what you wish for, in case it comes true
Right now I'm confused, feeling so subdued
When they arrested you, they wanted to section you
The only thing we did wrong was going and getting you
Next morning you was up, not doing what you was meant to do
That wasn't the life that you were meant to have
That wasn't the way that it was meant to be
You were sick, not physically but mentally

I still ain't got a fraction of this shit off of my chest
All that goes through my mind is them constant regret
Why why why did you die for no reason
All of a sudden the weathers cold its so freezing
Have you ever head the saying, when it rains it pours
Don't ever try to tell me my pain is the same as yours
'Cause it's not, and everything isn't what it seems
I'm pinching myself but I know that this is not a dream
Why did you have to do that, this isn't fair
Listen my brother, never think that I didn't care
There's no words to describe the way that this feels

Now I can clearly separate the fake from the real
Why did everyone else have to be bro
I still can't quiet believe that you're actually gone
Just 5 days, 5 days and it feels like the same day
Weed ain't helping but I need it just to maintain
'Cause the bleak reality is terrible
And last night mom was practically hysterical
People I thought would care, couldn't care less
I need a lot of support 'cause I'm feeling bare stressed
And everyone else seems immature
I'm being tested, thinking what is there left that I'm living for
I need to clear my thoughts, stop thinking and try n breathe
Just a week ago I was so innocent and naive
Now my insides are burning like hells flames
I've realized up until now I've never felt pain
It's so evident that everything I cared about before was so irrelevant
There's certain people that call when they see that this shit is hurting
But I see them for what they are now 'cause I'm a different person

R.I.P.
I miss you...
In fact fuck R.I.P
I want you to live through me
Live through me...
Live through me...
Live... through... me...

Lowkey - Freestyle 3 Lyrics

Artist: Lowkey
Album: Uncensored

It's like, it's like these days Dj's won't play a track if i'm on it.
But ironically they play Dj Ironic, my logic tells me that i don't rap about the right topics.
Because my politics scare people so they hide from it.
Give me an instrumental and i'll shine on it, so bright i'll burn your eye socket.

Soundtrack To The Struggle

Lowkey Lyrics

"Soundtrack To The Struggle"

[Intro: Lowkey]
It's been a long time coming
Too long
Too long
It's been in the making a quarter century
But it's here now
It's here now
If by the time you hear this album
I'm not here
You know why

[Hook: Mavado]
Tell ya
So mi say
Too many suffering too many tears
To see a youth die I'm a know him for years
When me look around nobody care
The people dem a live inna fear

The system need to change right now
To much you do could a inna grieve right now
I know si the bigger is a give right now
After ghetto people a no steep right now (Woo ooh! oi!)

The system need to change right now
To much you do could a inna grieve right now
I know si the bigger is a give right now
After ghetto people a no steep right now (yeah yeah!)

[Verse 1: Lowkey]
My music is my natural resource, now I want it back
Til I sever every single chain I will not relax
Just constant attack, til my world looks like Monserrat
Contact my comrades, for combat, what's conscious rap
When you say the truth, they attack like a Sabertooth
Thinking clear they make you disappear like you hate the fruit
We don't need more Boeings, we don't need more Rebors, weed or Lyor Cohens
They tell us about terrorism and tell us about terrorists
Look up the definition and tell us what terror is
Only know the definition if the television tells us it
Public Enemy #1 they treat me like Professor Griff
This album has been in the making a quarter century
Born to bless the beat and rap over recorded melody
I knew the truth since I was a small little boy
I am a product of the system I was born to destroy

[Hook: Mavado]

Me can't believe I saw dem cheat people
And they fi protect and dem a leave people
I me no si no system fi di street people
Can't believe di money lead people

The system need to change right now
To much you do could a inna grieve right now
I know si the bigger is a give right now
After ghetto people a no steep right now (Woo ooh! oi!)

The system need to change right now
To much you do could a inna grieve right now
I know si the bigger is a give right now
After ghetto people a no steep right now (yeah yeah!)

[Verse 2: Lowkey]
On the news, they glorify their own henchmen
Support the troops, but won't mention Joe Glenton
It's funny 'cos the rappers are posing as the gangsters
While the government taking money as bonuses for bankers
In life you learn, to close your eyes and hold your tongue
But together we will overcome, there's never been a chosen one
Still tryina understand, the land I stand on
I'll probably die from cancerous anger like Franz Fanon
I will never give up, I will never just quit
I will never give in, I will never submit
The reason that I came, Is bleeding from the veins
Of the people cus we equal, only Freedom is the aim
This album has been in the making a quarter century
Born to bless the beat and rap over recorded melody
I knew the truth since I was a small little boy
I am a product of the system I was born to destroy

[Hook: Mavado]
Me can't believe I saw dem cheat people
And they fi protect and dem a leave people
I me no si no system fi di street people
Can't believe di money lead people

The system need to change right now
To much you do could a inna grieve right now
I know si the bigger is a give right now
After ghetto people a no steep right now (Woo ooh! oi!)

The system need to change right now
To much you do could a inna grieve right now
I know si the bigger is a give right now
After ghetto people a no steep right now (yeah yeah!)

[Verse 3: Lowkey]
If you're subordinate to corporate guys supplying you orders
You're fighting fire with fire, I'm fighting fire with water
When they kill me, I know I'll die with a focused mind

Plus there will be millions of me, ready to multiply
Dont just mention, acknowledge me, remember to honour me
My pen and this honesty, defending equality
Declared a republic, and ended your monarchy
Your corporate dictatorship, pretends it's democracy
I hold your bloodline, accountable for every crime
Adam Smith to Rothschild, it's all been a clever lie
Two choices now, revolution or genocide
But thanks to Rupert Murdoch neither one will be televised
This album has been in the making a quarter century
Born to bless the beat and rap over recorded melody
I knew the truth since I was a small little boy
I am a product of the system I was born to destroy

[Hook: Mavado]
Me can't believe I saw dem cheat people
And they fi protect and dem a leave people
I me no si no system fi di street people
Can't believe di money lead people

To much you do could a inna grieve right now

Lowkey Lyrics

"Too Much"

(feat. Shadia Mansour)

[Intro: Lauryn Hill]
If you down with the rich man, and that can be rich in anything,
Don't you take too much,
If you laugh at a poor man, and that can be poor in anything,
Don't you laugh too much,
If you tryin' to be rich man, and that can be rich in anything
Don't you take too much,
And if you need to be needed, and you're lookin' for purpose,
Just remember, don't you need too much...

[Hook: Shadia Mansour]
If you take something you, don't need, and keep it
Then you've stolen from somebody else who's hungry
Everything that you do, is everything you are
Everything that I am, is everything you'll ever need.

[Verse 1: Lowkey]
Money can buy power, but it can't buy respect
Money can't buy sleep, but it can buy a bed
Money can't buy you love, but it can buy sex
Do you posses money or by money are you possessed?
Money can buy a house, but it can't buy a home
So even with money you still feel all alone
Money can buy you friends, but it can't buy family
Money can't make you happy, that's just a fallacy
It can buy a bath, but it can't buy purity
It can buy bodyguards, but it can't buy security
While people around the world starve, I eat
Cause money can buy war, but it can't buy peace
Some do everything and anything to get the p's
The society we livin' in, it's a necessity
It's got the power to turn your best friends to enemies
It's funny cause money doesn't follow us when we leave.

[Hook: Shadia Mansour]
If you take something you, don't need, and keep it
Then you've stolen from somebody else who's hungry
Everything that you do, is everything you are
Everything that I am, is everything you'll ever need.

[Verse 2: Lowkey]
Does happiness live in a mansion with a swimming pool?
I know people with plenty of money that are miserable
We all need to earn in this world we live
Most work for it, some steal, but many worship it
Some sell poison for it, some seek employment for it

We need it to survive, so some clean the toilets for it
I need papes to live but never will I live for papes
Abolish the Queen, I don't wanna see that witch's face
Many sell their soul for it, no not me
Some will try to tell you that it doesn't grow on trees
I heard the sayin' said, many a time, but they were wrong
Cause if it doesn't tell me where do you get the paper from?
Most think they will be happy if they only had more of it
Some wasted, some feel more important because they're born with it
Some have got the nerve to say you're fraudulent for forging it
The truth is you don't need a fortune to be fortunate.

[Hook: Shadia Mansour]
If you take something you, don't need, and keep it
Then you've stolen from somebody else who's hungry
Everything that you do, is everything you are
Everything that I am, is everything you'll ever need.

Lowkey Lyrics

"Voices Of The Voiceless"

(with Immortal Technique)

[Lowkey]
From West 10 to the West Bank,
I write righteous rhymes with my right and wrestle the devil with my left hand,
Never work for a Zionist, never been a yes man,
My art is like Rembrandt painting pictures of death camps,
The average person is allergic to the words of wisdom,
This is for everyone of Saddam's Kurdish murder victims,
And all the pure souls that never had the chance to speak,
Truth pumps in my arteries and causes my heart to beat,
For soldiers haunted and tortured by guilty memories,
Who realized too late to reveal their real enemy,
It's all dead wrong
For every victim of racist persecution from Auschwitz to Hebron,
My words may sting cowards,
For people that were atomized by the Thermate in the Twin Towers
Those living through the wars,
Ask me what I do this for,
Put the world in its place before it put you in yours,

[Chorus]
[Rochelle Rose]
What happens under darkness shall come to light,
Can't silence us even though you try,
[Lowkey]
You can try to avoid us but it's pointless
You can never avoid the voices of the voiceless
[Rochelle Rose]
Take our freedom, Can't take our pride,
Come what may we will survive,
[Lowkey]
You can try to avoid us but it's pointless,
You can never avoid the voices of the voiceless

[Immortal Technique]
Keep my third eye hidden under my New York fitted,
A crazy unmarried man that deserves to be committed,
The future is encrypted in my troubled lyrics,
Dream that I've been somewhere for weeks, then wake up in a couple minutes,
Sweat dripping with visions of population control,
Thoughts overflowing my world like the melting of the North Pole,
My people are targeted by military crack committees,
So I'm bucking at the feds like natives in Rapid City,
Reality savage, my words are like a riot in Paris,
The voice of the voiceless, that voice is social imbalance,
So stand strong or sit harder in your mental palace,
Blinded inside a Kingdom united to its old habits,

But now, Middle Passage coming, War Chant, African drumming,
Gatling gun humming,
Rapid fire mechanism, reckless living,
That checks the rhythm of perfectionism,
Slave condition,
While you're singing God save the system,

[Chorus]
[Rochelle Rose]
What happens under darkness shall come to light,
Can't silence us even though you try,
[Lowkey]
You can try to avoid us but it's pointless
You can never avoid the voices of the voiceless
[Rochelle Rose]
Take our freedom, Can't take our pride,
Come what may we will survive,
[Lowkey]
You can try to avoid us but it's pointless,
You can never avoid the voices of the voiceless

[Lowkey]
Detain my body, but you can't imprison my mind,
If it's my time I'll probably die with my fist in the sky,
These are the thoughts of a man who can't escape from his coma,
Cries of a young virgin girl who got raped by them soldiers,

[Immortal Technique]
Birthing a screaming bastard, post colonial nation,
Subject to childhood diseases, famine, war and inflation,
Education molded you into your masters image,
And you forgot who the f*ck you were before the war was finished

[Lowkey]
You're hearing the ghosts of Nagasaki, you're hearing Hiroshima,
Beautiful babies being born with the weirdest features,
You might never see me in the charts,
But Inshallah my seed can see peace in Iraq,

[Immortal Technique]
But peace and freedom can never be given,
That's historically forbidden, cause only collision is the recipe,
Changing the course of destiny, so I'm strapped with weaponry,

[Lowkey & Immortal Technique]
'Cause the government don't give a f*ck about protecting me.

[Chorus]
[Rochelle Rose]
What happens under darkness shall come to light,
Can't silence us even though you try,
[Lowkey]
You can try to avoid us but it's pointless

You can never avoid the voices of the voiceless
[Rochelle Rose]
Take our freedom, can’t take our pride,
Come what may we will survive,
[Lowkey]
You can try to avoid us but it’s pointless,
You can never avoid the voices of the voiceless

Lowkey Lyrics

"Hand On Your Gun"

[Intro:]
This one is dedicated to the suit-wearing arms dealers
To the champagne-sipping depleted uranium droppers

[Hook:]
Keep your hand on your gun
Don't you trust anyone
Keep your hand on your gun
Don't you trust anyone

[Verse 1:]
First in my scope is BAE Systems
Specialize in killing people from a distance
Power is a drug and they feed the addiction
Immediate deletion of people's existence
Who says what is and what isn't legitimate resistance
To push these buttons you don't need a brave heart
State of the art darts leave more than your face scarred
You might impress an A&R with your fake bars
Cause you probably think Rolls Royce only make cars
This is for the colonizers turned bomb-providers
Take this beef all the way back to Oppenheimer
They call it warfare but your wars aren't fair
If they were there'd be suicide bombers in Arms Fairs
On a scam for the funds, they will mangle your son
If you try to speak out they will stamp on your tongue
To your land they will come till you stand up as one
It's begun

[Hook:]
Keep your hand on your gun
Don't you trust anyone
Keep your hand on your gun
Don't you trust anyone

[Verse 2:]
Next in my scope is Lockheed Martin
They will tell you when the bombs need blastin'
Don't think, just listen to the songs, keep dancin'
Do they really want us to have our own brains
Who do you think is really running Guantanamo Bay
And it might be sensitive but I'll mention it
Who do you think has got us filling out the censuses
Who do you think is handing out the sentences
This ain't the BBC so there's no censorship
Heard of many mercenaries gettin' with the clever pimp
Not a gun seller but none's better than Erik Prince

Make money off many things, mainly it's crime
This one is dedicated to the Raytheon 9
On a scam for the funds, they will mangle your son
If you try to speak out they will stamp on your tongue
To your land they will come till you stand up as one
It's begun

[Hook:]
Keep your hand on your gun
Don't you trust anyone
Keep your hand on your gun
Don't you trust anyone

Lowkey Lyrics

"Skit 1"

(feat. Rev. Jeremiah Wright)

What Malcolm X said when he got silenced by Elijah Mohammed was in fact true: America's chickens... are coming home to roost.
We took this country by terror, away from the Sioux, the Apache, the Arowak, the Comanche, the Arapahoe, the Navajo. Terrorism.
We took Africans from their country to build our way of ease and kept them enslaved and living in fear. Terrorism.
We bombed Granada and killed innocent civilians, babies, non-military personnel.
We bombed the black civilian community of Panama with stealth bombers and killed unarmed teenagers and toddlers, pregnant mothers, and hardworking fathers.
We bombed Qaddafi's home and killed his child.
Blessed are they who bash your children's head against a rock.
We bombed Iraq. We killed unarmed civilians trying to make a living.
We bombed a plant in Sudan to payback for the attack on our embassy, killed hundreds of hardworking people, mothers and fathers who left home to go that day not knowing that they would never get back home.
We bombed Hiroshima, we bombed Nagasaki and we nuked far more than the thousands in New York and the Pentagon and we never batted an eye.
Kids playing in the playground, mothers picking up children after school, civilians, not soldiers, people just trying to make it day by day.
We have supported state terrorism against the Palestinians and Black South Africans and now we are indignant because the stuff we have done overseas is now brought right back to our own front yards.
America's chickens are coming home to roost.
Violence begets violence.
Hatred begets hatred.
And terrorism begets terrorism.

Lowkey Lyrics

"Terrorist?"

[Intro:]
So, We must ask ourselves, What is the dictionary definition of "Terrorism"?
The systematic use of terror especially as a means of coercion
But what is terror?

According to the dictionary I hold in my hand, Terror, is violent or destructive acts
Such as bombing committed by groups in order to intimidate a population,
Or government into granting their demands

So what's a terrorist?

[Hook:]
They're calling me a terrorist
Like they don't know who the terror is
When they put it on me, I tell them this
I'm all about peace and love
They calling me a terrorist
Like they don't know who the terror is
Insulting my intelligence
Oh how these people judge...

[Verse 1:]
It seems like the Rag-heads and Paki's are worrying your Dad
But your dad's favorite food is curry and kebab
It's funny, but it's sad how they make your mummy hurry with her bags
Rather read The Sun than study all the facts
Tell me, what's the bigger threat to human society
BAE Systems or home made IED's
Remote controlled drones, killing off human lives
Or man with home made bomb committing suicide
I know you were terrified when you saw the towers fall
It's all terror but some forms are more powerful
It seems nuts, how could there be such agony
When more Israeli's die from peanut allergies
It's like the definition didn't ever exist
I guess it's all just depending who your nemesis is
Irrelevant how eloquent the rhetoric peddler is
They're telling fibs, now tell us who the real terrorist is

[Hook:]
They're calling me a terrorist
Like they don't know who the terror is
When they put it on me, I tell them this
I'm all about peace and love
They calling me a terrorist
Like they don't know who the terror is
Insulting my intelligence

Oh how these people judge...

[Verse 2:]
Lumumba was democracy – Mossadegh was democracy
Allende was democracy – Hypocrisy it bothers me
Call you terrorists if you don't wanna be a colony
We used to bow down to a policy of robbery
Is terrorism my lyrics?
When more Vietnam vets kill themselves after the war than died in it?
This is very basic...
One nation in the world has over a thousand military bases
They say it's religion, when clearly it isn't
It's not just Muslims that oppose your imperialism
Is Hugo Chavez a Muslim? Nah... I didn't think so
Is Castro a Muslim? Nah... I didn't think so
It's like the definition didn't ever exist
I guess it's all just depending who your nemesis is
Irrelevant how eloquent the rhetoric peddler is
They're telling fibs, now tell us who the terrorist is

[Hook:]
They're calling me a terrorist
Like they don't know who the terror is
When they put it on me, I tell them this
I'm all about peace and love
They calling me a terrorist
Like they don't know who the terror is
Insulting my intelligence
Oh how these people judge...

[Outro: x2]
You think that I don't know,
But I know, I know, I know
You think that we don't know
But we know

You think that I don't know,
But I know, I know, I know
You think that we don't know
But we DO

Was Building 7 terrorism?
Was nanothermite terrorism?
Diego Garcia was terrorism,
I am conscious the Contras was terrorism,
Phosphorous that burns hands – that is terrorism,
Irgun and Stern Gang that was terrorism,
What they did in Hiroshima was terrorism,
What they did in Fallujah was terrorism,
Mandela ANC – that was terrorism,
Jerry Adams IRA – that was terrorism,
Eric Prince black water – it was terrorism,
Oklahoma, McVeigh – that was terrorism,

Everyday USA – that is terrorism,
Everyday UK – that is terrorism,
Everyday...

Lowkey Lyrics

"Something Wonderful"

Something wonderful...
To chase it all away
For the women of the world, because women are the world
Mixing my emotions... to close the bad again
I'm just letting you know...

I'm tryna be a good man, I can't speak for the others
Know the saying heaven lies at the feet of your mother
Mine showed me the definition of hard work and
Smiles through her tears even though her heart's hurting
Speaks her mind and never ever bites her tongue
I guess today you can say I'm just like my mum
Great grandmother was in Beirut in '82
In a flat when it got invaded by Israeli troops
Sleeping in the hallway for shelter from the bullets
And that's why I'll always respect her to the fullest
Physically gone, all memories are kept in a picture
In Baghdad my nan slept with a Beretta in her slipper
You're judged as a man by everything you amount to
And the respect that you show the women around you
So think about that stuff when you diss her
That's somebody's daughter, somebody's mother and somebody's sister

Something wonderful...
To chase it all away
Mixing my emotions... to close the bad again

I'm not claiming to be perfect, I know what a curve is
But a woman's worth isn't just on the surface
I see too many young women craving affection
Degrading themselves for a male's attention
I know it's love that you're certain that you felt
But messing with these different guys you're just searching for yourself
Would it whore-ish to boast how high your score is
When a man does it, a player is what you call him
What if it's all just lies when she talks to guys
Displays promiscuous ways like it's all alright
Would it make you squirm if the tables turned
Is that really what it would take to make you learn
You're judged as a man by everything you amount to
And the respect that you show the women around you
So think about that stuff when you diss her
That's somebody's daughter, somebody's mother and somebody's sister
I said think about that stuff when you diss her
That's somebody's daughter, somebody's mother and somebody's sister

Something wonderful...

To chase it all away
Mixing my emotions... to close the bad again

Certain things are too deep to put in a verse
Let me apologize to every single woman I've hurt
Or disrespected whether family members or ex's
I wanna make amends for however I left it
Men make them, but the women get harmed in wars
I pray for a heart as pure as Assata Shakur's
We put them down on but on the pedestal we should put them
Behind every good man, there's a good women
Betty Shabazz lost her husband to the handguns
And lost her life when her house was burned down by her grandson
Qubilah saw her father murdered when the hammers passed
So I feel her pain when she tried to murder Farrakhan
You're judged as a man by everything you amount to
And the respect that you show the women around you
So think about that stuff when you diss her
That's somebody's daughter, somebody's mother and somebody's sister
I said think about that stuff when you diss her
That's somebody's daughter, somebody's mother and somebody's sister

Something wonderful...
To chase it all away
Mixing my emotions... to close the bad again

Lowkey Lyrics

"Dreamers"

(feat. Mai Khalil)

[Intro:]
This one is dedicated to the dreamers
Most people see things that are there and ask why
Dreamers, see things that aren't there and ask why not
I'm dreamin' with you

[Verse 1:]
I once knew a girl who on the surface was as solid as a rock
Future full of promise and mind seemed stronger than a ox
Face of beauty and a tongue was as honest as it got
That wasn't what is was, problem rock bottom she was lost
I couldn't see this sweet genius was full of secrets
Full of demons that pulled her deeper in this pool of leeches
Confused by the news, I was bruised when they told me
It concludes to the truth, was she consumed by the loneliness?
She was a true queen, nothing like Elizabeth
Often caught her starin' into space with a distant look
Considerate but detached from others even when intimate
Now I'm searchin' for answers I'd never find in a book
Last time I saw her, before the day she took her life
I wish I fixed her pain, I shoulda, coulda, woulda tried,
But I took it personally and turned to leave,
And to this day I'm still haunted by the words she screamed...

[Hook:]
Sometimes I really really hate myself
Sometimes I wish that I could change myself
Sometimes I don't wanna give no more
And sometimes I just don't wanna live no more
Sometimes I don't know where to go for help
Sometimes I don't really know myself
Sometimes I wish that I could fly away
And find away to a brighter day

[Verse 2:]
They say that life is a question and death is the answer
But Niko lost his brother and Rewds lost his father
God bless your souls please know that I love you both
They say time heals but the pain still doesn't go
I've seen my brother die and seen my mother cry
Seen the wind change in the flutter of a butterfly
Seen people get sectioned for life, I think and wonder
A small twist of fate, that could've been my brother
25 years a life could say thus far
I always have wondered who the same ones are
Though I live by the words fear not I'm afraid

When I wrote this so many tears dropped on the page
It's mad how death always manifests in the weirdest ways
Won't go near the grave but in my dreams he appears the same
Then I get closer and see his face, it's clear as day
He looks me deep in the eyes and I hear him say...

[Hook:]
Sometimes I really really hate myself
Sometimes I wish that I could change myself
Sometimes I don't wanna give no more
And sometimes I just don't wanna live no more
Sometimes I don't know where to go for help
Sometimes I don't really know myself
Sometimes I wish that I could fly away
And find away to a brighter day
[Repeat]

Lowkey Lyrics

"Skit 2"

(feat. Tariq Ali)

Dear friends, I think it's now, time to at least have a first balance sheet, not the last, the first balance sheet of the Obama presidency
As many of you know the images of the campaign are still vivid
Big, large mobilizations in the United States, of young people primarily, desperate for change
And the slogan of that campaign: Change We Can Believe In"
Change Change Change
But what has changed and what hasn't changed
There has been of course been a change in the presidency, and we can't complain too much about that *[Laughter]*
There is a new vice-president also in the United States, and we can't complain too much about that *[Laughter and Applause]*
But the Defence Secretary is the same. That's the guy who sits in the pentagon and organizes wars, and the reason he was kept on was to show that there is, there are both elements of discontinuity at the top AND very strong elements of continuity
And the reason for that, is that if you wear Caesar's clothes, you have to behave like Caesar

Lowkey Lyrics

"Obama Nation"

[Intro:]
This track is not an attack upon the American people
It is an attack upon the system within which they live
Since 1945 the united states has attempted to
Overthrow more than 50 foreign governments
In the process the us has caused the end of life
For several million people, and condemned many millions
More to a live of agony and despair

[Verse 1:]
The strength of your dreamin
Prevents you from reason
The American dream
Only makes sense if you're sleepin

It's just a cruel fantasy
Their politics took my voice away
But their music gave it back to me

The land where their *[?]* Or consumed by consumption
Killing themselves to shovel down food and abundance
I guess a rapper from Britain is a rare voice
America is capitalism on steroids

Natives kept in casinos and reservations
Displaced slaves never given reparations
Take everything from Native Americans
And wonder why I call it the racist experiment

Afraid of your melanin
The same as it's ever been
That ain't gonna change
With the race of the president

I see imperialism under your skin tone
You could call it Christopher Columbus syndrome

[Chorus: x2]
Is it Obamas nation or an abomination?
Is it Obamas nation or an abomination?
Is it Obamas nation or an abomination?
Doesn't make any difference when they bomb your nation

O! Say can you see by the dawn's early light
What so proudly we hailed at the twilight's last gleaming
Whose broad stripes and bright stars through perilous fight
O'er the ramparts we watched were so gallantly streaming

[Verse 2:]
The worlds entertainer
The worlds devastator
From Venezuela
To Mesopotamia

Your cameras lie
Cause they have to hide the savage crimes
Committed on leaders that happen
To try and nationalize

Eating competitions while the worlds been starvin
Beat up communism with the help of bin-laden
Where would your war of terror be without that man
Every day you create more Nidal Hassans

Kill a man from the military, you're a weirdo
But kill a wog from the Middle East you're a hero
Your country is causing screams that are never reaching ear holes
America inflicted a million ground zeros

Follow the dollar and swallow your humanity
Soldiers committing savagery you never even have to see
Those mad at me, writing in emails angrily
I'm not anti-America, America is anti-me

[Chorus: x2]
Is it Obamas nation or an abomination?
Is it Obamas nation or an abomination?
Is it Obamas nation or an abomination?
Doesn't make any difference when they bomb your nation

And the rocket's red glare,
The bombs bursting in air,
Gave proof through the night
That our flag was still there,

O! Does that star spangled banner yet wave
O'er land of the free and the home of the brave

[Verse 3:]
I don't care if him and Cheney are long lost relations
What matters more is the policies I lost my patience
Stop debating bringing race into conversation
Occupation and cooperation equals profit makin

It's over - people wake up from the dream now
Nobel peace prize, jay z on speed dial
It's the substance within, not the colour of your skin
Are you the puppeteer or the puppet on the string

So many believe that they was instantly gonna change

There was still Dennis Ross, Brzezinski And Robert Gates
What happened to Chas freeman (APAC),
What happened to Tristan Anderson it's a machine that
Keeps that man breathing

I have the heart to say what all the other rappers aren't
Words like Iraq, Palestine - Afghanistan
The wars on, and you morons were all wrong
I call Obama a bomber Cause those are your bombs

Lowkey Lyrics

"Skit 3"

(feat. Senator John McCain)

[Woman:]
I gotta ask you a question
I do not, uh, believe in, I can't trust Obama
I I have read about him and he's not he's not he's a erm, he's an Arab
He is not (no m'am) No? *[laughter]*

[John Mccain:]
No m'am, no m'am
He's a, he's a decent family man citizen that I just happen to have disagreements with on, on fundamental issues, and that's what this campaign is all about
He's not, thank you *[applause]*

Lowkey Lyrics

"The Cradle Of Civilization"

(feat. Mai Khalil)

If my mother got angry or frustrated with me, she'd say...
... and the basic translation of that is "Oh, how beautiful is freedom"
But where is freedom?
Close my eyes, I can still hear my ummi saying
Where is our freedom?
This is for Baghdad, the place of my mothers birth
The cradle of civilization, for what it's worth
The land I've never the seen, culture I've never known
Iraq is in my heart, my blood, my flesh and bones
The air I've never breathed, fragrance I've never smelled
The pride I never had, the nationality that I never felt
Saddam was bad, are the American's even more so?
They made me grow like I was missing part of my torso
But I never picked up a grenade in my garden
I never saw people I love die starving
I never saw my family die through many years of sanctions
While the ruler's family lived in palaces and mansions
Never had a family member kidnapped for a ransom
Never lost a friend to violence that was random
Bombings, occupation, torture, intimidation
A million dead people doesn't equal liberation
Close my eyes, I can still hear my ummi saying
Listen!
Where is our freedom?
Forget division based on ethnicity or religion
Whether you Sunni, Shia, Kurdish or Christian
Pain is still pain if you're a person that's missing
We all deserve a life in this earth that we live in
Is there enough words that can say
How deeply Baghdad is burning today?
And it's not about pity, hands out or sympathy
It's about pride, respect, honour and dignity
Babies being born with deformities from uranium
Those babies aren't just Iraqi, they're Mesopotamian
What I view on the news is making me shiver
Cause I look at the victims and see the same face in the mirror
This system of division makes it harder for you and me
Peace is a question, the only answer is unity!
So many dreams about this place that I've never seen
The place my family had to leave in the 70's
Close my eyes, I can still hear my ummi saying
Where is our freedom?
It rains white phosphorus in Fallujah
This is for those that won't live to see the future
Sorry that I wasn't there, Sorry that I couldn't help
I'm sorry for every tear, Sorry you've been put through hell

Still I feel like an immigrant, englishman amongst arabs and an arab amongst englishmen
Like I said they never gave me the culture
But they did give me Kubdad Haleb, Hakaka and Dolma
Ana isme Kareem,
Wa ohmre thalatha wa-'ishrun,
Umi min Baghdad, wa abuya min Dover,
And that's the combination that I carry on my shoulders
Still I rep, till my death, Till they kill and seal my flesh
From now all the way back to Gilgamesh
Such a villianized and criticized nation
You will always be the cradle of civilization
Close my eyes, I can still hear my ummi saying
Where is our freedom?
In my sleep, in my dreams Motherland I can still feel you calling me
In my sleep, in my dreams Motherland I can still feel you calling me
In my sleep, in my dreams Motherland I can still feel you calling me
I can still feel you calling me
I can still feel you calling me

Lowkey Lyrics

"Skit 4"

(feat. Ben Affleck)

[Ben Affleck:]
You know what's interesting about this whole idea of this, this, this intolerance and this hate, and this terrorism thing, I, I noticed from the debate the other, the other day from, it wasn't the debate actually
It was this conversation he had
It was this woman who said to McCain "Obama is an Arab" (right), and he said "No no no m'am he's not an Arab"
Oh I though this is wonderful he's repudiating this kind of intolerance and hatred
He said "No no he's not an Arab, he's a good man" (right) *[Laughter]*
(He said he's a decent citizen)
Hold on, what if I said to you, what if someone said "I heard he is a Jew" and I said ""No no he's not a Jew, he's alright" *[Laughter and Applause]*
"I hear the guy's a catholic", "Catholic? No, he's a, good decent guy" (right, yeah)
Arab and good person are not antithetical as to one another (right, that's that was) *[Applause]*
This idea of, this prejudice that we've allowed to fester in this campaign where this, we've allowed this idea where, denying the fact that Obama, who yet is not an Arab, nor is he a Muslim, we've allowed that denial to turn into the acceptance of both of those things as a legitimate slur, is really a problem, you know what I mean? (But the irony of John Mccain)
These are slurs, these are category human beings, they are not slurs of people *[Applause]*

Lowkey Lyrics

"Blood, Sweat And Tears"

(feat. Klashnekoff)

[Verse 1: Klashnekoff]
As lightning strikes and thunder pounds,
Over the grey skies of East London town,
Prophecy K returns from the underground,
Signified by the peoples crying, trumpet sounds,
Yeah the system it tried to shut me down,
But I been on my ting before Onyx was flinging guns around,
Blood, sweat, and tears for years,
It feels like my careers been in the dumping ground,
Yeah this is how hunger sounds,

And I'm the hunter now, 'Lash the lion-heart,
A.k.a. the man behind the iron mask
For ten years straight I been raising the iron bar,
Tryna' breathe the life back into this dying art,
So why try and part, when you'll meet the same fate as that lion Scar,
This game's fake, full of two-faced, lie in grass
Who will sell their soul and ass just to climb the charts,
Yeah, but me I put in too much time in the graft,
Refining my craft for labels to sign me for a minor advance,
Picture K'lash miming on Trance,
Now picture Dr. Dre beats/'lash, rhyming with stars,
It's all fate and I got mine in my grasp,
Their all snakes, let them die in the past,
But who knows what the future holds,
These N.W.O. soldiers will probably shoot me cold,
All because the truth was told,
You should know I did it from the heart.

[Hook: x2]
I'm still here, pushing after several years,
I'm still here, standing strong, never in fear,

I'll be still here after the dust settles and clears,
I'll be still here after the blood, sweat and the tears,

[Verse 2: Lowkey]
I don't do this for the happy ravers, or the aggie haters, *[?]*
I do this for the warriors and the gladiators,
I do this for those whose lives you never cared about,
Can't pronounce their names, their origins, or their whereabouts,
Those brought up around tragedy and sadness,
Who adjusted and found normality in the madness,
Fight the power, till I'm out of breathe like Malcolm X,
You empower the powerful, I empower the powerless,
They'll play you on the radio if you rap about a Gucci belt,

But rap about the government, you might aswell shoot yourself,
Industry fairies, say I rap about conspiracy theories,
Just to hide the fact they lyrically fear me,
Got the eye of a tiger, the heart of a lion,
The mind of a lifer, my stance is defiant,
I rise like a phoenix immediate from the ashes,
My existence is inconvenient for the masses,
Though we are equal I despise an imitation,
I live for my people, and die for liberation,
I stand as a visionary; someone got plans of killing me,
To literally vanish me physically like Aborigines,
Hannibal with the mask, and an animal with the bars,
I'm grappling with my shackles; I channel it through my art,
Feel it in the ambience; Champion: Heavyweight
My life is nothing but my pride is something you could never take,
Think I'm illusive?, or think I'm a nuisance?
I swear these major labels must think that I'm stupid,
Keep your 360's your convincing these dudes with,
Like I'll give you the blueprint for pimping my music,..

I say that like K'Lash, he's another lion,
Every hardship from getting scarred to my brother dying,
Spit all of it with or without a big audience,
Through the Blood, Sweat & Tears I stand victorious!

[Hook: x2]
I'm still here, pushing after several years,
I'm still here, standing strong, never in fear,

I'll be still here after the dust settles and clears,
I'll be still here after the blood, sweat and the tears,

Lowkey Lyrics

"Everything I Am"

[Hook:]
Everything I am, and everything I want to be
I put it in your hands, you could open up to me
Everything I am, and everything I want to be
I put it in your hands, you could open up to me
Oh don't we ever get beyond this wall

[Verse 1:]
I am no role model, I am not Mr. Perfect
Been bitten a couple of times and I did deserve it
Everyday livin' and learnin' through these written verses
My life is a sacrifice, I wonder is it worth it?
People can change, I'm living physical proof
I'm not important, or special or different from you
To other people, I may seem like a good adviser
But to myself I feel like a dirty womanizer
I am just a man, I will never be a celebrity
That is a mantra I will cling to the death of me
Don't wanna feed my kids the very treachery they fed to me
Preferably the aim is equality eventually
Don't relegate me below, or elevate me above to you
Needless to say, in either place I'm uncomfortable
I treat you as an equal, I'm simply a man
Your brother in humanity is everything that I am

[Hook:]
Everything I am, and everything I want to be
I put it in your hands, you could open up to me
Everything I am, and everything I want to be
I put it in your hands, you could open up to me
Oh don't we ever get beyond this wall

[Verse 2:]
Listen close to the words that were sang in the chorus
There's a big difference between fans and supporters
Never asked to be scrutinized or consumerized
Or treated differently to any other human life
Most don't, but some do and it saddens me
Force fed celebrity to subdue our humanity
See the false image depicted and think it's purity
When beneath that image they hold more insecurities
Than you do, but sometimes it's hard to tell who's who
There's more to life than Twitter followers and YouTube views
And if I came across like I was cocky I am sorry
You were born original so please don't die a copy
Don't relegate me below, or elevate me above to you
Needless to say, in either place I'm uncomfortable

I treat you as an equal, I'm simply a man
Your brother in humanity is everything that I am

[Hook:]
Everything I am, and everything I want to be
I put it in your hands, you could open up to me
Everything I am, and everything I want to be
I put it in your hands, you could open up to me
Oh don't we ever get beyond this wall

"Skit 5"

(feat. Norman Finkelstein)

[Norman Finkelstein:]
Go Ahead

[Woman:]
Hi, um, during your speech, you made a lot of references to Jewish people as well as certain people in your audience, not Jewish people in general, but certain people, especially in your audience, to Nazi's
Now that is extremely offensive when certain people are German, and their also extremely offensive to people who've actually suffered under Nazi rule *[Crying]*

[Norman Finkelstein:]
I don't respect that anymore
I really don't
I don't like and I don't respect the crocodile tears to con, the crocodile tears *[Jeers and Applause]*
No, answer folks, erm allow me to finish, and allow me to, allow me to sir
Listen sir, allow me to, allow me to finish
Sir, sir
I don't like to play, I don't like to play before an audience, the holocaust card
But since now I feel I com, Now I feel compelled to. *[Shouting]*
My late father was in Auschwitz, my late mother, please shut up! *[Applause]*
My late father was in Auschwitz, my late mother was in Majdanek concentration camp. *[Shouting]*
Every single member of my family, on my father's side, on my father's side. *[Shouting]*
(The Jews cannot take odds against the Germans!)
My father was in Auschwitz concentration camp, my late mother was in Majdanek concentration camp
Every single member of my family on both sides was exterminated
Both of my parents were in the Warsaw Ghetto uprising
And it is precisely and exactly because of the lessons my parents taught ME and my two siblings, that I will not be silenced when Israel commits it's crimes against the Palestinians, and I consider nothing more despicable then to use their suffering and their martyrdom to try to justify the torture, the brutalization, the demolition of homes, that Israel daily commits against the Palestinians, so I refuse any longer to be intimidated or browbeaten by the tears
If you had any heart in you, you would be crying for the Palestinians, not for *[unaudible] [Applause]*

Lowkey Lyrics

"Long Live Palestine"

This is for Palestine, Ramallah, West Bank, Gaza,
This is for the child that is searching for an answer,
I wish I could take your tears and replace them with laughter,
Long live Palestine, Long live Gaza!

While we listen to tunes, made by ignorant fools,
Israel blocked the UN from delivering food,
They'll bring in the troops and you won't even glimpse at the news,
They make money of the products that we are quick to consume,
It's not simply a question of differing views,
Forget emotions, this is fact, what I spit is the truth,
Makes no difference if you're a Christian or if you're a Jew,
They are just people living in different conditions to you,
They still die when you bomb their schools, mosques and hospitals,
It is not because of rockets, please god can you stop it all,
I'm not related to the strangers on the TV,
But I relate because those faces could have been me,
Words can never ever explain the raw tragedy,
It's not a war they're just murdering more rapidly,
We are automatically supporting pure savagery,
Imagine how you'd feel if it was your family,

This is for Palestine, Ramallah, West Bank, Gaza,
This is for the child that is searching for an answer,
I wish I could take your tears and replace them with laughter,
Long live Palestine, Long live Gaza,

Palestine remains in my heart forever,
We stand for peace, in times of war we shan't surrender,
Remember, it didn't start in that dark December,
Every coin is a bullet, if you're Mark's and Spencer,
And when your sipping Coca-Cola,
That's another pistol in the holster of a soulless soldier,
You say you know about the Zionist lobby,
But you put money in their pocket when you're buying their coffee,
Talking about revolution, sitting in Starbucks,
The fact is that's the type of thinking I can't trust,
Let alone even start to respect,
Before you talk learn the meaning of that scarf on your neck,
Forget Nestle,
Obama promised Israel 30 billion over the next decade,
They're trigger happy and they're crazy,
Think about that when you're putting Huggies nappies on your baby,

This is for Palestine, Ramallah, West Bank, Gaza,
This is for the child that is searching for an answer,
I wish I could take your tears and replace them with laughter,

Long live Palestine, Long live Gaza,

This is not just a war over stolen land,
Why do you think little boys are throwing stones at tanks?
We will never really know how many people are dead,
They drop bombs on little girls while they sleep in their beds,
Don't get offended by facts, just try and listen,
Nothing is more anti-Semitic than Zionism,
So please don't bring bad vibes when you speak to me,
I know there's plenty of Rabbi's that agree with me,
It's your choice what you do with this message,
Don't get it confused; I view this from a truly human perspective,
How many more resolutions have to be violated,
How many more children have to be annihilated
Israel is a terror state, there terrorists that terrorise,
I testify, my television televised them telling lies,
This is not a war, it is systematic genocide,
But whatever they try, Palestine will never die!

Lowkey Lyrics

"We Will Rise"

[Verse 1:]
Is it just dream?, Am I a fool for trying?
I stand defiant but my enemy's the tallest giant,
Will visions be reality? they tell me never,
I wanna feel the unity that Malcolm felt in Mecca,
I wonder if it made sense in his last moments,
People don't value the soul cause they can't hold it,
Find something real beyond death and misery,
And understand the present in the context of history,
It's been established Sykes-Picot was a bitter marriage,
Since the day Thomas Edward Lawrence tricked the Arabs,
I never back stab my people like Abu Mazen,
I'll overthrow the monarchs like Abdul Karim Qassem,
This is a battle that many better men have died fighting,
But I hope to give an insight through my writing,
My pen fires at the men who defend liars,
I send fire till the end of your empire,

[Chorus: singer]
We will fight to live,
We will not give up,
We will not give in,
We will rise,

And through the blood and tears,
We will not give up,
We will not give in,
We will rise,

[Verse 2:]
Guess who's back, descendant of the occupied,
I represent the sentiments of many men you've colonized,
The President is eloquent but he's never been on my side,
Melanin's irrelevant cause everything was prophecised,
There was a time when they talked about the Arab Nation,
Broke our good leaders replaced them with a pack of masons,
Took your Keffiyeh and changed it to a fashion statement,
You sat with Satan, Camp David means assassination,
Peace in your imagination, that's not real,
I've been where Arafat got poisoned and Sadat got killed,
I'm not a martyr, just a man without a Masters or a master,
Trying to unite the people like Abdul Nasser,
This is a battle that many better men have died fighting,
But I hope to give an insight through my writing,
My pen fires at the men who defend liars,
I send fire till the end of your empire,

[Chorus: singer]
We will fight to live,
We will not give up,
We will not give in,
We will rise,

And through the blood and tears,
We will not give up,
We will not give in,
We will rise,

[Verse 3:]
If you're my brother, you're my brother but please be loyal,
Comrades for life till we're deep in soil,
They came to the middle east told us we need royals,
Just ask Mossadeq about BP Oil,
Look at history, the pecking order you will discover,
Nationalize your resources watch your children suffer,
Are you still my brother?
Even if BAE Systems gives us weapons to kill each other,
I strike back at the empire till it falls,
Most of us invest our money in building walls,
Mark the words of the lyricist that's written this,
Any money that I do make will build a bridge,
This is a battle that many better men have died fighting,
But I hope to give an insight through my writing,
My pen fires at the men who defend liars,
I send fire till the end of your empire,

[Chorus: singer]
We will fight to live,
We will not give up,
We will not give in,
We will rise,

And through the blood and tears,
We will not give up,
We will not give in,
We will rise.

Lowkey Lyrics

"My Soul"

[Intro:]
No souls to sell here mate...
They say The fool thinks himself to be wise man, but the wise man knows himself to be a fool.
I say that, to say this...

[Chorus:]
You might take my life,
But you can't take my soul!
You can't take my soul!

You might take my freedom,
But you can't take my soul!
You can't take my soul!

You might take my life,
But you can't take my soul!
You can't take my soul!

You might take my freedom,
But you can't take my soul!
You can't take my soul!

[Verse 1:]
They can't use my music to advertise for Coca Cola
They can't use my music to advertise for Motorola
They can't use my music to advertise for anything
The truth, I guess that's the reason the industry won't let me in
Refuse to be a product or brand, I'm human
Refuse to contribute to the gangster Illusion
Whether I'm number One, Number two, or Number Three
I'm unique and there will never be another me
And there will never be another you
Be proud of who you are, don't copy what the others do
They are not superior, you are not inferior
When we realize that is gonna be hysteria
Not commercial, always controversial what my pen has written
When they listen many have risen from the mental prison
That's why you don't see my face upon the television
But every time I try to sleep I hear the devil singing

[Chorus:]
You might take my life,
But you can't take my soul!
You can't take my soul!

You might take my freedom,
But you can't take my soul!

You can't take my soul!

You might take my life,
But you can't take my soul!
You can't take my soul!

You might take my freedom,
But you can't take my soul!
You can't take my soul!

[Verse 2:]
They can't use my music to advertise your watch or your car
Can't use it to advertise the drink you got at the bar
Can't use my music to advertise for anything
The truth, I guess that's the reason the industry won't let me in

My Integrity is the reason I'm thinking separately
Keep your three-sixty I can do this independently
It's likely I'm quite mad (why?)
Cause I say with ease slavery gave the streets Nikey's and I-pads
They don't like my rhymes, see my style is like a lecture
But I'd rather die, than smile with my oppressor
I'm an honourable student, with the facts and you're Ju-dish
Your not Hip Hop or Grime, your just McDonald's music

Not commercial, always controversial what my pen has written
When they listen many have risen from the mental prison
That's why you don't see my face upon the television
But every time I try to sleep I hear the devil singing

[Chorus: x2]
You might take my life,
But you can't take my soul!
You can't take my soul!

You might take my freedom,
But you can't take my soul!
You can't take my soul!

You might take my life,
But you can't take my soul!
You can't take my soul!

You might take my freedom,
But you can't take my soul!
You can't take my soul!

Lowkey Lyrics

"Skit 6"

I tried hard to be proud of my service, but all I could feel was shame.
Racism could no longer mask the reality of the occupation.
These were people, these were human beings.
I've since been plagued by guilt, any time I see an elderly man, like the one who couldn't walk, who we rolled onto a stretcher, and told the Iraqi police to take him away.
I feel guilt anytime I see a mother with her children, like the one who cried hysterically, and screamed that we're worse than Saddam, as we forced her from her home.
I feel guilt anytime I see a young girl, like the one I grabbed by the arm, and dragged into the street.
We were told we were fighting terrorists... the real terrorist was me, and the real terrorism was this occupation.
Racism within the military has long been an important tool to justify the destruction and occupation of another country, it has long been used to justify the killing, subjugation and torture of another people.
Racism is a vital weapon employed by this government; it is a more important weapon than a rifle, a tank, a bomber, or a battleship; it is more destructive than an artillery shell, or a bunker buster, or tomahawk missile.
While all those weapons are created and owned by this government, they are harmless without people willing to use them.
Those who send us to war, do not have to pull the trigger, or lob a mortar round; they do not have to fight the war, they merely have to sell the war.
They need a public who's willing to send their soldiers into harm's way.
They need soldiers who are willing to kill and be killed, without question...
They can spend millions on a single bomb, but that bomb only becomes a weapon, when the ranks of the military are willing to follow orders to use it.
They can send every last soldier anywhere on Earth, but there will only be a war, if soldiers are willing to fight.

Lowkey Lyrics

"The Butterfly Effect"

(feat. Adrian)

[Hook: Adrian]
If you could go back, what would you change
What would you do again ever would remain the same
What would you give, and what would you keep
What would you take, and what would you leave
[Repeat]

[Verse 1:]
I see an old lady holding the door
As I tumble out my wheel chair and roll to the floor
First thing in the morning in the grocery store
Not sure if this alcoholics body can hold me no more
I hustled up enough change for the whiskey in my hand
Tried to tell all the people but they didn't understand
Too many years spent sleeping in the gutters
On my hands and on my knees, eating from the rubbish
Roam the streets with very little keeping me sane
Too many twisted visions left engraved deep in my brain
Nightmares are right there and I don't think good thoughts
Happy memories became haze and days when I could walk
Make me hate those that have a life and could stand
Do you people know what I sacrificed for this land
My aching heart can't feel the bladed glass in my feet
Don't take a glance cause I'm just a face you pass in the street

[Hook: Adrian]
If you could go back, what would you change
What would you do again ever would remain the same
What would you give, and what would you keep
What would you take, and what would you leave
[Repeat]

[Verse 2:]
Evicted from my home couldn't scrape up the right rent
No heat in there all I had was the lights left
Spent months eating sleeping shitting in my mess
Thinking back to when my wife left, I was quite stressed
Guess all my addictions had got the best of me
Sometimes I wish to change my fate or was it destiny
Look up to the sky on rough nights wondering why
I saw our baby girl pass in front of my eyes
Before it the thought of it tortured me
Only lived six days was born with deformities
Still the birth really filled me with joy
Even though I kinda hoped it would still be a boy
I was dealing with demons I carried with me daily

Wanted to carry on my name when I had the little baby
Thinking in deep ways til my soul is torn
Of the bitter sweet day I came home from war

[Hook: Adrian]
If you could go back, what would you change
What would you do again ever would remain the same
What would you give, and what would you keep
What would you take, and what would you leave
[Repeat]

[Verse 3:]
I roll out the hospital on honorable discharge
I looked down saw my body with horrible big scars
Brave face but it was bad at night I would break down
I woke up and I was paralyzed from the waist down
Was in a coma for a few weeks before I closed my eyes
I was just another soldier with two feet
On all type of drugs that set me higher
Shot by my comrade official name friendly fire
Everyone was screaming but I only heard her
And everyone was crying but I only heard her
As I looked down to what I had done
I had a split second to contemplate what I had become
Like it or not trained to kill like it was a job
Wild or not she was just a child with a rock
Threat in my eye and the power in my left hand
I swear my finger slipped and then the trigger went bang...

"Obama Nation (Pt. 2)"

(feat. M-1 & Black the Ripper)

[Hook:]
I don't, I don't want no, Obama, Obama nation (abomination)
I'm not gonna, vote for your inauguration
Cause I don't need your, Obama, Obama nation (abomination)
I'm not gonna

[Sample: Lupe Fiasco]
Limbaugh is a racist, Glenn Beck is a racist
Gaza strip was getting bombed, Obama didn't say shit

[Verse 1: M-1]
After you divorce yourself from the right wing
Propaganda campaign, it's all simple and plain
America customed the game
Your president got an African name, now who you gone blame?
When they drop them bombs out of them planes
Using depleted uranium, babies looking like two headed aliens
Follow the money trail it leads to the criminal
Ain't nothing subliminal to it, that's how they do it
See they game they run, give a fuck if he's cunning
Articulate and handsome, Afghanistan held for ransom
By the hand of this black man, neo-colonial puppet
White power with a black face, he said fuck it I'll do it
A master of disguise, expert at telling lies
Then they gave him a Nobel Peace Price
Should of known he was trained in Chicago
Word to Chairmen Fred and Mark Clark
What they do in the dark will come out in the light
Like a wiki leaks site
So I guess Nkrumah was right, who's ready to fight?
Last stage of imperialism, I ain't kiddin
In the immortal words of Marvin Gaye 'This ain't living'

[Hook:]
Obama, Obama nation (abomination)
I'm not gonna, vote for your inauguration
Cause I don't need your, Obama, Obama nation (abomination)
I'm not gonna

[Lupe Fiasco:]
Limbaugh is a racist, Glenn Beck is a racist
Gaza strip was getting bombed, Obama didn't say shit

[Verse 2: Black The Ripper]
O.B.A.M.A
You ain't fooling everyone I see the games you play

You was V.I.P. at the B.I.C
And we know that's code name for C.I.A
The same way your cameras are watching us we're watching you
Think we're easy to control you ain't got a clue
Revolutions on the way, let's see what your gonna do
You gonna send the troops? You gonna drop the nukes?
See it's not where you're from it's where you're at
He's sitting in the White House so who cares if he's black
And why's there soldiers still out there in Iraq?
Natural resources ain't yours, it's theirs give it back!
You're just another puppet but I'm not surprised
Look at Colin Powell and Condoleezza Rice
They didn't change shit, house nigga's fresh off the slave ship
You'll all burn in hell even Michelle, Obama Nation

[Hook:]
I don't, I don't want no, Obama, Obama nation (abomination)
I'm not gonna, vote for your inauguration
Cause I don't need your, Obama, Obama nation (abomination)
I'm not gonna

[Lupe Fiasco:]
Limbaugh was a racist, Glenn Beck is a racist
Gaza strip was getting bombed, Obama didn't say shit

[Verse 3: Lowkey]
Was the bigger threat from Osama or from Obama?
Military bases from Chagos to Okinawa
I say things that other rappers won't say
Cause my mind never closed like Guantanamo Bay
Hope you didn't build a statue or tattoo your arm
Cause the drones are still flying over Pashtunistan
Did he defend the war? No! He extended more
He even had the time to attempt a coup in Ecuador
Morales and Chavez, the state's are on a hunt for ya
Military now stationed on bases in Columbia
Take a trip to the past and tell em I was right
Ask Ali Abunimah or Jeremiah Wright
Drones over Pakistan, Yemen and Libya
Is Obama the bomber getting ready for Syria?
First black president, the masses were hungry
But the same president just bombed an african country

[Hook:]
I don't, I don't want no, Obama, Obama nation (abomination)
I'm not gonna, vote for your inauguration
Cause I don't need your, Obama, Obama nation (abomination)
I'm not gonna

[Lupe Fiasco:]
Limbaugh was a racist, Glenn Beck is a racist
Gaza strip was getting bombed, Obama didn't say shit

Lowkey Lyrics

"Dear England"

(feat. Mai Khalil)

[Chorus:]
Whoa, give me the words, give me the words
That tell me nothing
Dear England,
Whoa, give me the words, give me the words
That tell me nothing

[Verse 1:]
They say God save the queen,
Britannia rules the waves,
Britannia's in my genes
But Britannia called us slaves
Britannia made the borders
Cause Britannia's forces came
Britannia lit the match
But Britannia fears the flame
Where blood stains the pavement
Tears stain a cheek
And privilege is threatened, the fear reigns supreme
Where bankers are earning, from burning and looting
The nervous are shooting, search for solutions
I shed a tear for the father in Birmingham
Quick swerve of the car and it murdered them
In Tottenham the apartments were burning
And nobody came just arson is circling
All wanna be down
Till TV's get robbed like jewels on the queens crown
They say now no cause for a rebound
See now they call me a fool cause I speak out
People are humans but mind is animals
This violent tyrannical system is fallable
Hand in the loot by the minute you see 'em
But the biggest looters are the British museum
This happened here and you think it's a accident
Just relax as we slip into fascism
And the fear gets drilled into your hearts
But remember these children are all ours

[Chorus:]
Whoa, give me the words, give me the words
That tell me nothing
Dear England,
Whoa, give me the words, give me the words
That tell me nothing

[Verse 2:]

If a policeman can kill a black man where he found him
A soldier can kill an Afghan in the mountains
A petty thief can get ransacked from his housing
While the bankers are lounging
That's my surroundings
Took land, no one in your family has heard of
Before you sleep, whisper the mantra you learnt cause
Never will there be a day that cameras are turned off
Who runs this country, Cameron or Murdoch
Who's the government, a government that can't govern
Can't you figure it's ways bigger than Mark Duggan
Bigger than Smiley, bigger than Jean Charles
Hundreds are dead not one killer is on trial
Just a familiar sound of hysteria
Bombs over Libya but not this area
Downing Street I can find villains
Cut education, privatize prisons
Surprised by theft when it's organized,
But mass immorality is normalized
Assumptions surrounding the looting of London
But this is a system consumed by consumption
Yea it happened here and you think it's a accident
Just relax as we slip into fascism
And the fear gets drilled into your hearts
But remember these children are all ours

[Chorus: x2]
Whoa, give me the words, give me the words
That tell me nothing
Dear England,
Whoa, give me the words, give me the words
That tell me nothing

Lowkey Lyrics

"Haunted"

(feat. Mai Khalil)

[Chorus: Mai Khalil]
I can feel you here, watchin' me
Whispers that I hear are haunting me
I can feel you here, watchin' me
Whispers that I hear are haunting me
Feel it in the air

[Verse 1:]
My brother died when I was 18
Now I'm 24 and I keep having the same dream
My days seem to past fast, but now I hate sleep
So when they say stay free I really know what they mean
Just remember I was destined to fail
At every level they tell you the rebels will never prevail
Heaven or hell, whatever the weather, you never can tell
You know you've lost a loved one when you remember their smell
I was born to fight oppression, but I'm traumatized and stressin'
With this borderline depression I swear I'm haunted by your presence
You get all of my confessions, pray the lord provides his blessing
And I soar as high as heaven but it's sort of like I'm guessing
Cause I'm older than you were when you died, I'm nervous inside
In the afterlife, are you the age you were when you died?
It's puzzling me, that would be something to see
Face-to-face with an older brother that's younger than me
I'm still haunted...

[Chorus: Mai Khalil]
I can feel you here, watchin' me
Whispers that I hear are haunting me
I can feel you here, watchin' me
Whispers that I hear are haunting me
Feel it in the air

[Verse 2:]
When I was 18 my older brother killed himself
Now I'm 24 and I'm sittin' in this flipping cell
No comment why they raid my home, I'm waitin' to be given bail
Wish me well, don't know where I'm headed, I hope it isn't jail
It's a strange feelin' when your face is on the news
And they try to twist your lyrics, claim it's hatred for the Jews
Everybody's waitin' to assume, debatin' all your views
When they would do the same if they were in your shoes
It's like barristers, court cases, solicitors and law suits
Prayin' for my freedom while I'm sittin' in the court room
I am just a simple man spittin' these ideas
But the CPS fantasize about givin' me 5 years

Til the day they release my spirit and it's peaceful
Digest the words in every lyric that I leave you
A true leader knows, it's the citizens that leads you
When I go, just know, that I did it for the people

[Chorus: Mai Khalil]
I can feel you here, watchin' me
Whispers that I hear are haunting me
I can feel you here, watchin' me
Whispers that I hear are haunting me
Feel it in the air
[Repeat]

[Outro:]
What's the meaning of it all?

Lowkey Lyrics

"Terrorist? (Pt. 2)"

(feat. Crazy Haze & Mai Khalil)

[Chorus: Mai Khalil]
They calling me a terrorist, we know who the terror is
Tell them that I'm not (guilty)
They calling me a terrorist, it is time to settle this
Tell them that I'm not (guilty)
I'm all about love and peace, why you wanna trouble me?
Tell them that I'm not (guilty)
My intentions are clear to see

[Verse 1: Crazy Haze]
First of all, allow my client Kareem Dennis
Simplify his messages and dissect the evidence
That placed him on the terror list, spread the lies of television
My client is standing accused of encouraging terrorism
He's promoting peace, far from violent encouragement
I believe it's unjust that this court has summoned him
How can one man rapping, lead to terrorist actions?
This misunderstanding merits a retraction
Accused of calling for attacks on military facilities
You can't equate violence with criticism politically
Where's the freedom of speech?
He's just another young musician who is seeking a dream
My client is accused of inciting racial tension
He's half-Arab, half-English, did I fail to mention?
The media rendered his reputation ruined
Think about how many youngsters he has influenced
To quit a life of crime and do the opposite
Most of the man's tracks are completely devoid of politics
The evidence is unseen, the verdict is a done deed
How can you compare a song to invading a country?
My client isn't hungry for the blood of the people
Since when has making a rap song ever been illegal
Or murderous? The only thing that drives this person is love
I rest my case to the jury and the merciful judge

[Chorus: Mai Khalil]
They calling me a terrorist, we know who the terror is
Tell them that I'm not (guilty)
They calling me a terrorist, it is time to settle this
Tell them that I'm not (guilty)
I'm all about love and peace, why you wanna trouble me?
Tell them that I'm not (guilty)
My intentions are clear to see

[Verse 2: Crazy Haze & Lowkey]
Sir, can you confirm you're the artist that's known as Lowkey?

I can
Are you aware the state has been building this case since 03?
I am
You claim that you're all about love and you promote peace
I'm here to prove that your hot speeches lead to cold deeds
Your lyrics are a virus infecting all the youths
You say whatever it takes to get a mention on the news
You're an insult to the people and offend the soldiers too
Objection, your Honour
Objection overruled
Do you denounce the monarchy and hope for a republic?
Monarchy is inequality, systemic injustice
While you strangle Afghanistan and tangle with Taliban
Our taxes have to pay for David Cameron's cameraman
How can you compare spreading anarchy to spreading democracy?
Like you compare resistance to extension of colonies
Did you really refer to the U.S. as an abomination?
No, I posed a question in reference to its domination
I scrutinise governments, you scrutinise songs
Did you compare predator drones to suicide bombs?
Yes and I question where such brutalised youth would rise from
It's true, I choose to right wrongs but you can write wrongs
But what if your questions equate to the spreading of hate?
Is it true you labeled Israel a terrorist state?
Yes, cause it's based on the threat to erase an indigenous population you could never replace

[Chorus: Mai Khalil]
They calling me a terrorist, we know who the terror is
Tell them that I'm not (guilty)
They calling me a terrorist, it is time to settle this
Tell them that I'm not (guilty)
I'm all about love and peace, why you wanna trouble me?
Tell them that I'm not (guilty)
My intentions are clear to see

[Verse 3: Lowkey]
Please allow me to state the most relevant of facts
I'm charged with section 1 of 06's Terrorism Act
It is alleged the music I'm publishing for exhibition
All amounts to the encouragement of terrorism
My face was placed up on the news as a wanted person
Cause it caused controversy when they saw my songs emerging
If I was commercial would I have to ride all these hurdles?
Raided my home, take my phone, put some spies in my circle?
Not on it, no comment, I will never change my position
Not in jail, but they gave me these stale bail conditions
And this is the part where the plot just gets sinister
They banned from the City of London and Westminster
I do this for the rebels that do this without the medals
For Smiley Culture, Jody McIntyre and Alfie Meadows
Before you throw it at me, have a look at your backwards book
Definition of terrorism, Columbus and Captain Cook
I can't lie, it's getting deep, our lives are very cheap

And one person dies in police custody every week
They're editing my tracks cause I'm telling them the facts
You're more likely to die like that than from a terrorist attack
When you try to fight a war, they will say you defy the law
Can't quiet me, this is R.I.P. for Brian Haw
We know the truth, no matter what you tell 'em on the television
IMF, World Bank, economic terrorism
I refuse to produce chart nonsense
Not a servant to the Zionist lobby like Mark Thompson
The BBC want me making music to impress crooks
Or doing shows on military bases like Tim Westwood
Murdoch might have the news, but me, I have the tunes
Your cameras move onto celebrities to distract the youth
Remember this fact is true
When you point your finger at me there is three fingers pointing back at you

Lowkey Lyrics

"Million Man March"

(feat. Mai Khalil)

[Intro:]
You might take my life
But you can't take my soul
You can't take my soul
You might take my freedom
But you can't take my soul
You can't take my soul

[Verse 1:]
Whether it's a cancer patient or assassination
Or I fought for emancipation
My intentions were pure, you can debate 'em
But no, never ever shook hands with Satan
My fans are amazing, I thank and praise 'em
When I die, don't cry, just congratulations
A million more feet will stamp the pavement
With plans of changes, no exaggeration
We will not be ignored
You'll be rocked with the force of the bombs that you dropped in these wars
I will not be bought
And I consciously thought it was wrong, so I constantly fought
Peace is something I would really adore
But we are at war so give me a sword
I'm merely a corpse, but still be assured
When you kill me there will be a million more

[Pre-Hook:]
Born alone and die alone
Those words ringin' inside my dome
Best friends are the pen and the microphone
Roamin' until I find my way home
Turn my body cold but my soul is mine
Take a deep breath and I close my eyes
I will go when I'm supposed to die
But in death I will multiply

[Hook:]
My back's against the wall
But you can't kill us all
Even if you take my life
Still we will survive
We shall overcome
And the tables will turn
Today I die as one, but as millions I'll return
But as millions I'll return
But as millions I'll return

[Verse 2:]
In these critical times don't be really surprised
If I get victimized by Gideon's spies
I sympathize with that Brazilian guy
On the tube, but we're used to the hideous lie
Your civilians die - millions cry
Our civilians die - they're militants, right?
How silly am I to be figuring why
The injustice is clear, and I feel it inside
Hear me in Gaza, here me in Glasgow
Hear me in Baghdad, hear me in Plaistow
Clearly they hear me from here to Chicago
Think things are all good but they aren't though
Peace is something I would really adore
But we are at war so give me a sword
I'm merely a corpse, but still be assured
When you kill me there will be a million more

[Pre-Hook:]
Born alone and die alone
Those words ringin' inside my dome
Best friends are the pen and the microphone
Roamin' until I find my way home
Turn my body cold but my soul is mine
Take a deep breath and I close my eyes
I will go when I'm supposed to die
But in death I will multiply

[Hook:]
My back's against the wall
But you can't kill us all
Even if you take my life
Still we will survive
We shall overcome
And the tables will turn
Today I die as one, but as millions I'll return
But as millions I'll return
But as millions I'll return

[Verse 3:]
My people are bleedin'
So I'm readin' and seekin' the deepest of meanin's
My demons are breedin'
In my sleep I can feel it, I need to defeat 'em
My temperature's risin'
If tempted I'll rise with the temper of Tyson
Resent all the violence
Cause of people with tension
It tends to divide them
The pen that I write with
Is better than a sword when I strike with the strength of a Titan
My friends are still fighting against all the tyrants

So then why would it end when I die then?
Peace is something I would really adore
But we are at war my pen's killing your sword
I'm merely a corpse, but still be assured
When you kill me there will be a million more

[Pre-Hook:]
Born alone and die alone
Those words ringin' inside my dome
Best friends are the pen and the microphone
Roamin' until I find my way home
Turn my body cold but my soul is mine
Take a deep breath and I close my eyes
I will go when I'm supposed to die
But in death I will multiply

[Hook:]
My back's against the wall
But you can't kill us all
Even if you take my life
Still we will survive
We shall overcome
And the tables will turn
Today I die as one, but as millions I'll return
But as millions I'll return
But as millions I'll return

[Outro:]
You might take my life
But you can't take my soul
You can't take my soul
You might take my freedom
But you can't take my soul
You can't take my soul

You might take my life
But you can't take my soul
You can't take my soul
You might take my freedom
But you can't take my soul
You can't take my soul

Lowkey Lyrics

"Soundtrack To The Struggle 2"

(feat. Noam Chomsky)

[Noam Chomsky:]
You're listening to Soundtrack to the Struggle 2 by Lowkey

[Lowkey:]
Thank you for joining us, Noam. In Optimism Over Despair, you say, "It seems to me unlikely that civilisation can survive really existing capitalism". Would you be able to explain that statement for us?

[Noam Chomsky:]
Really existing capitalism is what we can see described in the press day after day
We read that the major banks like, JPMorgan Chase, are increasing their investment in fossil fuels - including the most dangerous, like Canadian tar sands
And all of this is quite understandable on the assumption that the structure of our institutions is geared to maximising short-term profit and power, without regard to what might happen to the world in under *[?]* twenty or thirty years
But that's spoke capitally, well we can't survive that...

[Lowkey:]
Is it the economic system vs the ecosystem?
How are we gonna define deep when the seas have risen?
How can we define 'woke' when our sleep's commissioned?
Drowned out by Koch brothers bots, how can the people listen?
Can't detoxify as we watch the sky fade to grey
The source devoured corporate power killed the nation's state
Sophisticated murder defined as innovation
Corporations wine and dine just to mine the information
Eight men versus humanity, terrorists who
Your search engine knows your thought pattern better than you
In an environment resentful uprising is essential
The horizon is torrential, thinking silence will protect you
Subject to propaganda that terrifies the slumbered
We can jeopardise their cover if we energise the numbers
Collectivise or die, protect your mind or suffer
Life is paradise to some and a pair of dice to others

I saw horror in the eyes of a tired retired fireman
Knowing he couldn't help a child survive the frying pan
When we riot we disquiet the leviathan
Forget Iron Man I've got a iron lion's diaphragm
My salutations to those with imagination
Doom anticipated and that's no exaggeration
Your flag doesn't exist let me back up that statement
What happens to the nation if the Queen has a tax haven?
Pushing these buttons you don't need a brave heart
Frontex turned the Mediterranean to a graveyard
[?] will drive you crazy if you let it
Had a mother burying her newborn baby in the desert

What's commonsensical is sensible to question
What seems to be a lesson is intellectual repression
Rebel against the system that deprived you of a voice
Rebel against this hell while our survival's still a choice

The state committed suicide cannibalised itself
While the banks treat infictitious capitol like it's wealth
Your lurid lobby system means corruption is legalised
Privatised healthcare, elsewhere people die
Rebellion lives in all those that dream of a better way
Refused to be brainwashed with false visions of yesterday
Choose to afflict the comfortable and comfort the afflicted
So many choose the opposite, their spirit contradicted
Bring a child to the world where the future seems impossible
Five trillion dollars a year subsidising fossil fuels
The truth was in their eyes but you shrugged and just turned your back
I watched a family beg for help while their flat turned to ash
Apocalypse now, we saw our future in that damn building
CEOs loving profit more than they love their grandchildren
We saw our future in that damn building
CEOs loving profit more than they love their grandchildren

[Noam Chomsky:]
Not to be concerned about the future, preferentially, you have to put yourself in the position of, say, Jamie Dimon - the CEO of the biggest bank, JPMorgan Chase. As CEO he has, essentially, two choices. One choice is to do exactly what he's doing - invest direct investments into the most profitable outcome, which happens to to be the most dangerous fossil fuels. You can do that but the other alternative he has is to resign and be replaced by somebody else who'll do the same thing. But this is an institutional problem; not an individual one

Lowkey Lyrics

"Ahmed"

(feat. Mai Khalil)

[Lowkey:]
His young life was as delicate as the wing of a butterfly
And as fragile as a spider's web
For him we cry because when he dies we all do

Did Ahmed not deserve a life? Ahmed never hurt a fly
Ahmed never knew the politicians he was murdered by
Certain times Ahmed wished that he could be a bird and fly
Beyond the sky, escape the curse of birth that he was burdened by
Ahmed never grew to let your racism internalise
Water poured from every pore in his corpse while the nurses cried
Ahmed was a beautiful person like you or I
But are we?...
Ahmed could have been a doctor, lawyer or an engineer
Could have been a superstar but his life ended here
Guess he was a shooting star, burn bright and disappear
To some he seems to represent a menace in this hemisphere
Let me here make the very essence of this message clear
He was precious, many die like him every year
Ahmed was a victim of resentment and relentless fear
Now his soul surfs the waves, I wish we could have kept him here

[Lowkey & Mai Khalil:]
The sea, the sea, the sea, it holds our secrets (holds our secrets)
The sea, the sea, the sea, it holds his soul (holds his soul)
They call him Ahmed
The sea, the sea, the sea, it holds our secrets (holds our secrets)
The sea, the sea, the sea, it holds his soul (holds his soul)
They call him Ahmed

[Lowkey:]
Ahmed's ancestors introduced to Europe Greek philosophy
Brought with them irrigation, mathematics and astronomy
Symbolically, irony of this horror isn't lost on me
Trying to get to Europe via Greece is where he's lost at sea
Ahmed not Achmed, it's Ahmed, he's that dead
Toddler lying lifeless on the beach with his back bent
Arms spread, reaching the direction that his dad went
If he made it here, would have been bullied for his accent
He was captured by the ocean, paralysed and frozen
While these parasites sat and typed, analysing clothing
Now for resources we all compete beyond the talk of war and peace
And talk of porous border there is corpses on the shore of Greece
They found a teddy next to where his body was found
The sea swallowed him, politics has swallowed him now
And those responsible, Ahmed's ghost will follow them now

To the family all we can say is we are sorry he drowned
Because...

[Lowkey & Mai Khalil:]
The sea, the sea, the sea, it holds our secrets (holds our secrets)
The sea, the sea, the sea, it holds his soul (holds his soul)
They call him Ahmed
The sea, the sea, the sea, it holds our secrets (holds our secrets)
The sea, the sea, the sea, it holds his soul (holds his soul)
They call him Ahmed

[Lowkey:]
They say let him drown, let him drown, let him drown, What have you done, don't let him drown, don't let him drown
No what have we become, don't let him drown
No, don't let him drown
And they say
Let him drown, let him drown, let him drown
What have we done, don't let him drown, don't let him drown
No, what have we become, don't let him drown
Please, don't let him drown

Ahmed could've been you, and Ahmed could've been me
We need to understand the policies that put him in the sea
We need to understand why it is the beach is full of dying kids
A colonial Metropole people want to reside in
If he did would he make it or fall to something that's deeper
End up like like Jimmy Mubenga or Khaled Abu Zarifa
A picture by Javier Bauluz on the beaches of Tarifa
Made me see, some would grieve more if Ahmed was a creature
With four legs, then they would consider him legitimate
Those like him braving barbed wire burning off their finger tips
Balfours alien act, that mentality still exists
Is privilege the difference between an ex-pat and an immigrant?
For Ama Sumani and Osman Rasul Mohamed, when you take others humanity, it's only yours that's stunted, not a swarm
They're our sisters and brothers, that's the sum of it
The cockroaches here are in the media and the government
Not the sea

[Lowkey & Mai Khalil:]
The sea, the sea, it holds our secrets (holds our secrets)
The sea, the sea, the sea, it holds his soul (holds his soul)
They call him Ahmed
The sea, the sea, the sea, it holds our secrets (holds our secrets)
The sea, the sea, the sea, it holds his soul (holds his soul)
They call him Ahmed

[Lowkey:]
Ahmed never knew the politicians he was murdered by
Ahmed never knew the politicians he was murdered by
Ahmed never knew the politicians he was murdered by
And they all laugh at him...

Lowkey Lyrics

"The Return Of Lowkey"

You could never top my fire in the booth
I don't need a label I'm signed to the truth
If you're a lion heart with the mind of a moose
Your circle can hurt you as tight as a noose

Bars artillery, harsher than killer bees
I'm a marksmen with beats, carving them into meat
I par mini mes laugh at them in the street
Wanna spar elite hard for you to compete
Not marketing dream, hearts in the middle east
Starving to eat, marger beyond belief
Where they martyr the meek, marching them into meet
With the arms of the beast where harvest them with the teeth
If you're unhappy when you come at me never miss
Make you run scatty, dumb scallywags are getting dissed
At trump rally with a gun carried in your fist
That's a punk patty and a chump chatty terrorist

The intellect
Still the sickeat on the internet
Didn't know will kill you slow like a cigarette
Out lying you outlined like a silhouette
Been a vet, that didn't pet, the illest and I'm still a threat

Personified, verse at a time, merk em
I heard all ya rhymes, I'm certain that I burn em
Emerged in my prime first to define to curtains
What's it german your ride hurting jurgen
Murder the mic klinsmann when I'm turning
Merciless fight klansmann when I'm verbing
Words that I write sting them when I'm bursting
Worst of my type champion night nurse em

016 did a sold out tour
Think you know my life I don't know about yours
I was blackballed then cause I spoke bout war,
They want me closed down but I spoke out more
Now the silence is broken the virus is frozen
Come to wash it away like the tide of the ocean
My pride is evolving size of a trojan horse on course to divide your emotion

Go rounds with the pen, the sound of a vet
They rouse me I kill them again ga-gagengen
The album is next, its foul that you slept
But my mouth is weapon now again gagagengen
Dunno how they forget, these cowards are vexed
Pound the alphabet again ga ga gengen

You're out of your depth, bow the best
Put the crown on my head again ga-gengen

We want Lowkey
We want Lowkey
We want Lowkey
We want Lowkey
We want Lowkey
We want Lowkey
We want Lowkey
We want Lowkey

Say your sick I'm prophylactic
Say your old school I'm so jurassic
Flow glactic, gymnastic could hold a backflip
Keep you grounded like drones at gatwick
Behold a classic, your poker tactics
Are souless and hopeless, you nosey actors
My mode of practise is molten acid
Flows roams the globe control its axis

No foes in my lane, most of them are deranged
How you cope with pain, coke in up ya vein
They moulded your brain, culture killing the fame
They known of my name, spose it was gonna fade

Get the concept, a monster that's lost like lochness
Silly flows all my videos are a boxset
Obsessed with the nonsense tell me what's next
Another day I could run on stage like offset

From oxford to bangkok the jam pops off
Even amsterdam flow can pop clogs
Stand on hot rocks still mans not hot
Got genius bars like a laptop shop

I look into the eyes of my son
I see the moon shine and the rise of the sun
I showed you my thumb that's the size of your lung
I love you and everything you'll strive to become

Like godzilla
Kids think there sick but their not iller
Hop in the moshpit I'm toxic plot thickens
Hot spitter could'ntgive a toss if your watch ticking
Top of the roster eat monsters for hot dinner

Its the glitch in the matrix
Spit with the greatness
Flipping the script my existence is dangerous
I'm convincing the jaded
No stint with the majors
My fiscal still sick with no hits on the playlist

Miserable haters
Are thinking ages
Howto incriminate or intimidate him
But the ink in my name is
Sinked in the pages
Pimps of the game want my fingerprints faded

Its like tell me where the lyricisms gone?
Ridiculous how these kids are getting on
I don't even listen to their lyrics when its on
Delete the whole app in the middle in the song

Go rounds with the pen, the sound of a vet
They rouse me I kill them again ga-gagengen
The album is next, its foul that you slept
But my mouth is weapon now again gagagengen
Dunno how they forget, these cowards are vexed
Pound the alphabet again ga ga gengen
You're out of your depth, bow the best
Put the crown on my head again ga-gaengen

If only everyland was wherever we stand,
And we never see the disehevelled rebels heads in the sand,
Devils with terrible plans metal that they clench in their hands
Ready to embelleze the Cheddar and cement of your fam
Settle the land, weapons and gangs intentionally scam to sever your every memory man
Its deadly and sad, they said to me let it be together we stand,
Defending these energies of heavenly lands

Guess who's back from the dead
Time to scramble your head with a random event
Like tupac turned up to your nans on a ped
Wearing vans with a bandana wrapped to his head
You might bang on the net but you ran from my pen
You grand stand I'm van dam I mangle these men
Jackie chan with the damn hands a phantom for them
Damp breddas with antennas get strangled again
Vanilla ice from the top floor dangling them
Or take it old school bring a sandal for them
And if you heard my bars though that was a send?
Then you better bring backwards my friend
I'm a vandal man handle your ankle and bend
Will you stand and defend or just scram for the fence
When the massacre ends I'll be back in the trench
Better practise your reps cause your knackered and stressed
Think your hot though, with your botched flow but your not bro
God knows you cannot blow cause you flop shows
Cockroach with a snot nose and a lost soul
A dead sound it could get found in the cotswold

Mic batterer, spine shatterer, rhyme patterner,
Define badder and might splatter a hype challenger
Malaga to Canada panic a sly manager

Rhyme slazenger like daggers slice amatuers
My status is titanic quite hazardous
High cameras try tracking us, lifes labyrinth
Rhymes raps to us like maths to pythagorus
My staminas high calibre, try catching up
I climb ladders to drop knowledge on top scholar
I'm not modest top dollars could'ntknock a rock solid
Gods honest truth in the booth I could stop sonic
Lockstock and two smoking barrrels in the box office
Rhymer and a ripper like kaiza with a clipper
Like tyson when he bit him been a pyscho since a nipper
Contemplating life like micheal in the mirror
3, 2, 1 the word cypher came from sifer

Go rounds with the pen, the sound of a vet
They rouse me I kill them again ga-gagengen
The album is next, its foul that you slept
But my mouth is weapon now again gagagengen
Dunno how they forget, these cowards are vexed
Pound the alphabet again ga ga gengen
You're out of your depth, bow the best
Put the crown on my head again ga-gaengen

Lowkey Lyrics

"Sunday Morning"

(feat. Mai Khalil)

When the children see them, they point and laugh
When the children see them, they point and laugh
When the children see them, they point and laugh
But they don't know
When the children see them, they point and laugh
When the children see them, they point and laugh
When the children see them, they point and laugh
But they don't know
They don't know

She lost her son on a Sunday
Her memory's a bloodstain
The paper showed his young face
Who remembered his mum's name?
She sleeps with the blanket he was wrapped in as a child
He's not dead he's just napping for a while
She thinks backwards with a smile
On a clock, the hands stop
Can't accept all the plans
Lost sunny Sundays
Dancing to Vandross like:
I used to be such a bad bad boy
But I gave it up
When I fell in love (ooh)

Hold him close breathe the smell of his skin
Preserving every little thing
How can she ever begin
To move on?
Sunday mornings getting the groove on
His little hands wave, they *[?]*
She thinks he's coming in from school
Made his favourite dinner too
Sitting talking to an empty chair in the living room
Roams the street calling out things that no one listens to
Tried to treat her but
They thought solution was medicinal
No
And I don't think they'll ever comprehend it
Schizophrenic or a broken heart that can't be mended
Now she's sitting talking to herself
Where the bench is
Relatives wonder when she's coming to her senses

In her mind, he grew
Walked the passage to a man

They branded it as madness
Never planned to understand
She can't quite touch him
She imagines that she can
Holding the fabric to her face
Squeezing the blanket in her hand
Saying

Every Sunday morning, na ya ya
Every Sunday morning, na ya ya
Every Sunday morning, na ya ya
I dance with you
I dance with you

The day they came and took away his son was a Sunday
But he only woke up to the news on the Monday
More times he knows the situation ends one way
But he looks up searching for some hope in the sunrays
A year passed, two years passed, three years passed
Finds it hard to get over the shadow that the fear casts
Four years passed, five years passed, six, seven, eight passed
Still lays a hand for him when they play cards
His bedroom as it was, doesn't dare to touch a thing
Hums himself to sleep with the songs his son would sing, like:
Ain't no sunshine when she's gone
Only darkness every day
Ain't no sunshine now he's gone
Only darkness every day

You might see him by the betting shop
Asking for a spare pound
His shoes are getting tattered
And he's losing all his hair now
Sees him in his dreams but
He doesn't know his whereabouts
Sees him in the mirror
'Cause there's nothing else he cares 'bout
Sees him in the crowd but
The truth is, he isn't there
Goes after him and chases but
Every time, he disappears
Cars pass him by
And passengers just sit and stare
Talking to himself in a cruel world that didn't care

Every Sunday morning, na ya ya (ah ya ya)
Every Sunday morning, na ya ya
Every Sunday morning, na ya ya (hey)
I dance with you (oh)
I dance with you (ah)
Every Sunday morning, na ya ya (every Sunday morning, yeah)
Every Sunday morning, na ya ya (ah oh)
Every Sunday morning, na ya ya

I dance with you (oh)
I dance with you (ah)

I don't think I can do this on my own (no no no)
I don't think I can do this on my own (oh)
I don't think I can do this on my own
'Cause I need you
I need you
I don't think I can do this on my own
I don't think I can do this on my own
I don't think I can do this on my own
'Cause I need you (I need you)
I need you

Lowkey Lyrics

"Skit 1"

(Soundtrack To The Struggle 2)

So Karl Polanyi, who you quote in the book, writes, "There are two kinds of freedom: one good and the other bad." Among the latter, he listed, "The freedom to exploit one's fellows, the freedom to make inordinate gains without commensurable service to the community. The freedom to keep technological innovations from being used for public benefit. Or the freedom to profit from public calamities secretly engineered for private advantage. But," Polanyi continued, "the market economy under which these freedoms throes *[?]*, also produce freedoms we prize highly: freedoms of conscience; freedom of speech; freedom of meaning; freedom of association; freedom to choose one's own job. While we might cherish these freedoms for their own sake, and I'm sure many of us still do, they were, to a large extent, by-products of the same economy that was responsible for the evil freedoms. And yet, it seems, in this late stage of capitalism, that those evil freedoms have vanquished the other freedoms."

Lowkey Lyrics

"The Death Of Neoliberalism"

(feat. Greg Blackman)

Freedom!
Your public service died, death to World Bank and IMF; is it
Freedom?
The kleptocracy orchestrated, subjugate the corporate state that isn't
Freedom!
Theresa's a terrorist, we could be standing at the precipice of
Freedom!

Pontificate, Philosophise
Cross the T's, dot the I's
I heard em' say the revolution won't be monetized
But it could be wrapped up, packaged and comodified
In this poisonous equation, I wonder what am I?
Tax dodging tabloids, profit from these horrid lies
Peddle patriotism but economically colonise
Sycophants, grippin' flags, tell you that they're on your side
Sell off your services abroad, who do they prioritise?
Robin Hood in reverse, these robberies aren't secrets
Bonuses for bankers and backhanders for arms dealers
Can't cage the alternative that now exists
With the skill of an alchemist, turn pain into empowerment
Inspired to be alive, in this powerful moment
No more will these cowards sell us out to their donors
We rose, like a giant awoken out of this coma
Confront the culture of power with the power of culture!
We sing!

Freedom!
Your public service died, death to World Bank and IMF; is it
Freedom?
The kleptocracy orchestrated, subjugate the corporate state that isn't
Freedom!
Theresa's a terrorist, we could be standing at the precipice of
Freedom!

History favours the trail blazers
The taste for change is contagious
It's not strange these faceless takers are afraid of raising wages
When the same major papers say that we should hate our neighbours
Then when the rage cascades
These sadists claim that their blameless
What is clear, some don't even pay taxes on their profits here
Wrote against the interests of Murdoch and Rothermere
Not conspiracy theory, conspiracy actuality
Until now politics, merely a practicality
They deify celebrity

What happens when no celebrities turn and you say it *[?]* no necessity
I don't condemn the deified but mourn those whose brilliant as them who died
Potential unrealised
Atomisation had us
Distant and deafened
Now we're interconnected, independent but interdependant
We rose, like a giant awoken out of a coma
Confront the culture of power with the power of culture!
We sing!

Freedom!
Your public service died, death to World Bank and IMF; is it
Freedom?
The kleptocracy orchestrated, subjugate the corporate state that isn't
Freedom!
Theresa's a terrorist, we could be standing at the precipice of
Freedom!

We sing:
Freedom!
Your public service died, death to World Bank and IMF; is it
Freedom?
The kleptocracy orchestrated, subjugate the corporate state that isn't
Freedom!
Theresa's a terrorist, we could be standing at the precipice of
Freedom!

Lowkey Lyrics

"Skit 2"

(feat. Karim Mussilhy)

(Soundtrack To The Struggle 2)

[Excerpt from Grenfell Tower Inquiry]

[Karim Mussilhy:] Right now, right this second, this is how our families are being remembered. They're being remembered by a culture of neglect. Institutional inertia hiding behind a system that has failed
We want the truth, not bureaucracy. We want light to be shone on what went wrong and who is responsible
We do not want excuses, buck-passing, fancy technical arguments or any legal grey areas; we want an inquiry into the truth, the truth that people died because those in authority convinced themselves that they had done enough

[Mr. Richmond:] Karim, can I just - I have to be very careful here, and I don't mean to interrupt you, but some of what you're about to say is for the evidential hearings
I'm not going to stop you, I'm not going to stop you

[Mussilhy:] Sure, sure

[Mr. Richmond:] All right?

[Mussilhy:] I think, with all due respect, we've been censored enough. It's our time. Whether you like it or not, you will have to listen

[Someone in the audience:] Speak, brother!

Lowkey Lyrics

"Ghosts Of Grenfell"

(feat. Mai Khalil)

[Lowkey:]
The night our eyes changed
Rooms where, love was made and un-made in a flash of the night
Rooms where, memories drowned in fumes of poison
Rooms where, futures were planned and the imagination of children built castles in the sky
Rooms where, both the extraordinary and the mundane were lived
Become forever tortured graves of ash
Oh you political class, so serve out to corporate power

[Mai Khalil:]
Did they die, or us?
Did they die, or us?
Did they die, for us?
[Lowkey:]
Ghosts of Grenfell still calling for justice
Now hear 'em, now hear 'em scream
[Mai Khalil:]
Did they die, or us?
Did they die, or us?
Did they die, for us?
[Lowkey:]
This corporate manslaughter will haunt you
Now hear 'em scream

Words can not express
Please allow me to begin though
1:30am heard the shouting from my window
People crying in the street
Watchin' the burning of their kinfolk
Grenfell Tower, now historically a symbol
People reaching, from their windows
Screaming, for their lives
Pleading, with the cries
Tryna reason with the skies
Dale youth birthed champions
Comparison is clear though
That every single person in the building was a hero
So don't judge our tired eyes in these trying times
'Cause we be breathing in cyanide, the entire night
They say Yasin saw the fire and he ran inside
Who'd thought that would be the site where he and his family died
The street is like a graveyard, tombstones lurching over us
Those shouting out to their windows, now wish they never woke them up
Wouldn't hope your worst enemy to go in this position
Now it's flowers for the dead and printed posters for the missing, come home

[Mai Khalil:]
Did they die, or us?
Did they die, or us?
Did they die, for us?
[Lowkey:]
Ghosts of Grenfell still calling for justice
Now hear 'em, now hear 'em scream
[Mai Khalil:]
Did they die, or us?
Did they die, or us?
Did they die, for us?
[Lowkey:]
This corporate manslaughter will haunt you
Now hear 'em scream

I see trauma in the faces of all those that witnessed this
Innocence in the faces of all those on the missing list
See hopes unfulfilled
Ambitions never achieved
No I'm not the only one that sees the dead in my dreams
Strive for the bravery of Yasin, artistic gift of Khadija
Every person, a unique blessing to never be repeated
Strive for the loyalty of siblings that stayed behind with their parents
Pray that every loved one lost can somehow make an appearance
We are, calling like the last conversations with their dearest
Until we face, what they face we will never know what fear is
We are, calling for survivors rehoused in the best place
Not to be left sleeping in the West Way for 10 days
We're, calling for arrests made and debts paid
In true numbers known for the families that kept faith
We're, calling for safety in homes of love
They are immortalised forever, the only ghosts are us
I wonder

[Mai Khalil:]
Did they die, or us?
Did they die, or us?
Did they die, for us?
[Lowkey:]
Ghosts of Grenfell still calling for justice
Now hear 'em, now hear 'em scream
[Mai Khalil:]
Did they die, or us?
Did they die, or us?
Did they die, for us?
[Lowkey:]
This corporate manslaughter will haunt you
Now hear 'em scream

[Mai Khalil:]

Lowkey Lyrics

"Islamophobic Lullabies"

This is Jamal's song, name means beauty, are we this far gone?
Headlines associate kids with waterboarding and car bombs
Jamal's from same part of the world you got the guitar from
Still a wonderful world, sing it like Louis Armstrong
Any kid bullied, I made this to keep your heart strong
Colonisers names the same pavements that we march on
Please don't project the war on terror onto children
They are not suspects or combatants, you cannot kill them
Please don't project the war on terror onto Grenfell
State capture and de-regulation, it doesn't end well
Prevent spying on children, got them stepping on eggshells
Flash lies across the pages, Islamophobia and death cells
Psychological warriors, mess with the percentages
Innocent kids in school labelled grooming gangs and terrorists
Battle stereotypes like climbing over Everest
What we must question is how these ideas became so prevalent

The rag-heads and Pakis are still worrying your dad
But your dad's favourite food is still curry or kebab
The rag-heads and Pakis are still worrying your dad
But your dad's favourite food is still curry or kebab
Oh, I know you're peering through the window
But they don't see you anymore
Don't lose yourself in what they think though
'Cause this has never been your war

You can tell Prevent stop spying on little kids
Tell the terrible tabloids stop tarnishing immigrants
And tell the think-thanks their role is insidious
And tell the nasty neocons stop funding this ignorance
Victims of this myth creation searching for inspiration
Hope this song can comfort you through the intimidation
Hope you beat those that smeared you through the courts of litigation
And hold your heads up high through these trials and tribulations
These morbid remorseless authors, pave the way for disorders
They murdered the Magna Carta, to hell with habeas corpus, rendition
Torture across borders, they tore up laws as they scorch them
Now they, pull up the drawbridge and tell you hordes are enormous
Only 0.18% of this country's refugees, won't regulate fossil fuelers or owners of SUVs
But they demonise heroes for braving the seven seas, 34,000 die trying to enter here, rest in peace
Moment of silence

The rag-heads and Pakis are still worrying your dad
But your dad's favourite food is still curry or kebab
The rag-heads and Pakis are still worrying your dad
But your dad's favourite food is still curry or kebab
Oh, I know you're peering through the window

But they don't see you anymore
Don't lose yourself in what they think though
'Cause this has never been your war

A cucumber's not a bomber, terrorist's house is just a home
A free Palestine badge is harmless, you're a war on terror drone
A cucumber's not a bomber, terrorist's house is just a home
A free Palestine badge is harmless, you're a war on terror drone
Cucumber's not a bomber, terrorist's house is just a home
A free Palestine badge is harmless, you're a war on terror drone
Cucumber's not a bomber, terrorist's house is just a home
A free Palestine badge is harmless, you're a war on terror drone
Cucumber's not a bomber, terrorist's house is just a home
A free Palestine badge is harmless, you're a war on terror drone

Lowkey Lyrics

"GOAT Flow"

[Charlie Sloth:]
(Let's get ready to rumble)
Alright Lowkey man, we got Lowkey inside
It's time for that fire in the booth
This guy's gonna show you what time it is right now
He's gonna school you man
This is what you call a hip hop MC
Lowkey man, let's know what your about brother

[Lowkey:]
I'm the mic breaker, life changer
Sight shaper, rhyme maker, fire flames facer
Fight fakers with a lightsaber
Show whipper, flow spitter
Tone dimmer, known sinner
Phone ringer, poem lyric
Cooker of his own dinner
Trend setter, bench pressin'
Fence sitting, bed wetters
Ten letters, send 'em on the end of a vendetta
Track smasher, fat packer
Catnapper, dapper rapper
Dash a pack, cameras with a nack at catchin' backstabbers
Laugh at a troll, bars never slow
Master the art I'm marching them home
Darker than coal, carvin' a hole
Carcass garden, apart from the crows
Smarter than most
Target the ho's
As far as an artist you aren't gonna blow
Marketable, far from it bro
Bar for bar, Vietnam in the flow
They palmin' them all, calmin' and cool
No arsenal, I'm sizing 'em all
You're farcical, you're bars are my haul
Bar for bar you can't ever do
If you're writing is crap
Hide in your pad
This type of rap, this price is flat
My line of attack, it's Tyson with that
If you try with a tie, I'm windin' it back

I'm the mic breaker, life changer
Sight shaper, rhyme maker, fire flames facer
Fight fakers with a lightsaber
Show whipper, flow spitter
Tone dimmer, known sinner

Phone ringer, poem lyric
Cooker of his own dinner
Trend setter, bench pressin'
Fence sitting, bed wetters
Ten letters, send 'em on the end of a vendetta
Track smasher, fat packer
Catnapper, dapper rapper
Dash a pack, cameras with a nack at catchin' backstabbers
Laugh at a troll, bars never slow
Master the art I'm marching them home
Darker than coal, carvin' a hole
Carcass garden, apart from the crows
Smarter than most
Target the ho's
As far as an artist you aren't gonna blow
Marketable, far from it bro
Bar for bar, Vietnam in the flow
They palmin' them all, calmin' and cool
No arsenal, I'm sizing 'em all
You're farcical, you're bars are my haul
Bar for bar you can't ever do
If you're writing is crap
Hide in your pad
This type of rap, this price is flat
My line of attack, it's Tyson with that
If you try with a tie, I'm windin' it back

Kill them with the sick flow, drill 'em with the info bit *[?]* bye bye
Skippin' from the intro only wanna split flow, pity you keep with me why try
Kid's and kin folk busy with the single, really in with the zeitgeist
Ready with the impulse, hit him with the plimsoll sayin' if you criticize I
Sick as I was, switchin' 'em off
Skip like Criss Cross, hit to the rock
Slip to the lot, kid to the rock
Flipped like a pissed off wizard of oz
Does radio though play me though, maybe bro
Flames we throw, need more C4 to make me blow
I'm back with the G.O.A.T flow

[Charlie Sloth:]
Man like Lowkey in the building
Oi that's savage bro
Oi first time you come in and kill the alphabet
Now just to take the micky, you come in and kill it backwards (wow)
I feel like I've just been to university for 5 years
I love *[?]*
Sheesh

[Lowkey:]
Findin' this would come back and batter it like Kaepernick
Passionate without a tick, a man that lives his manuscript
Establish it, no glamour glitz
It's manic man, it's chappin' blitz

Fall victim to your eyes, like 21 savage did
Step right through, website due
Hit 'em with left right set white smooth
[?] with bed side blues
Killin' my city with the headline views
Red sky zoo, threat like doom
Visionin' left like ten times two
Wet try youts, test my shoes
Next round left that dead white yout
Tick tack toe, mix match flow
Hit back quick snap, kit kat blow
Spit my quotes, rep that show
Did that impact, lived that bro
Come back king, *[?]* ling
Lower the floor like pump action
That's my ting, and the thump action
My scolded soldier like his mum stepped in
Mercing's merchant merkin' the mic
Worst of the wise with the words I write
Hurdles the herds when the hurtle tides
[?] from lives, immersed in the hype
Pop and the people do not believe you
Watch where these monsters want to lead you
Nonsense they feed you rocks and needles
Monsters *[?]* doctor evil
You lackadaisical, tax tameful raps *[?]* fall back
Batter your bass with thoughts, snap your frame for dough
Back to change those facts
Man a capable, tracks available
Stat's are paid in full that's
That's the labels fault, rap your way to court
Platinum chain you boy snatched
Sick as I was, switchin' em off
Skip like Criss Cross, hit to the rock
Slip to the lot, kid to the rock
Flipped like a pissed off wizard of oz
Does radio though play me though, maybe bro
Flames we throw, need more C4 to make me blow
I'm back with the G.O.A.T flow

[Charlie Sloth:]
Oh my god, oh my god
[?]
I can't even believe what I just witnessed right there
Was that for real? That's recording innit? Is that live?
Oh my god
[?]
Come on man
'Nuff love brother
For the first time in 6 weeks on my show, I'm speechless

Lowkey Lyrics

"McDonald Trump"

McDonald Trump, Mc-McDonald Trump
McDonald Trump, Mc-McDonald Trump
McDonald Trump, Mc-McDonald Trump
El pueblo unido jamás será vencido // shut him down
McDonald Trump, Mc-McDonald Trump
McDonald Trump, Mc-McDonald Trump
McDonald Trump, Mc-McDonald Trump
يا مجرم يا فاسد القدس تاج راسك // Shut him down!

700 billion a year to the fossil fuelers
750 billion a year to the rocket launchers
This monster's morbid mob is sordid more than what's reported
While this song's recorded, hope a hundred humans cross the borders
Words of MLK, greatest violence purveyor
See ourselves in the afflicted, the environment decayer
Do it for Puerto Rico and Ibrahim Abu Turaya
He'll get Ahed Tamimi while he's tweeting London's mayor
Harbingers of doom, they let the Trump committee galavant
Passport not accepted, it's a London City travel ban
Dystopian future like Amazon's camper vans
Merely an apprentice to the corporate gangster glamour gang

ExxonMobil are writing this Trump script
The Koch brothers are riding this Trump ship
Wall Street is writing this Trump script
Raytheon and Lockheed riding this Trump ship, shut him down

McDonald Trump, Mc-McDonald Trump
McDonald Trump, Mc-McDonald Trump
McDonald Trump, Mc-McDonald Trump
El pueblo unido jamás será vencido // shut him down
McDonald Trump, Mc-McDonald Trump
McDonald Trump, Mc-McDonald Trump
McDonald Trump, Mc-McDonald Trump
يا مجرم يا فاسد القدس تاج راسك // Shut him down!

The red face can't contain the rage and hate inside ya
Aching in your pride but take a major nation, make it minor
Engage in nativism, now your state is just a paper tiger
Cover up your face with a solar panel made in China
A weapon of mass distraction in this twisted age of decadence
Government, big business, the relationship incestuous
Hope workers in your businesses unionize and shut you down
A million people march when you try to enter London Town
Do another speech to inspire the next militant
May your nightmares be haunted by vexed immigrants
Mother of all bombs, I hope that every death lives with him

Corporate revolving door from Bannon to Rex Tillerson

ExxonMobil are writing this Trump script
The Koch brothers are riding this Trump ship
Wall Street is writing this Trump script
Raytheon and Lockheed riding this Trump ship, shut him down

McDonald Trump, Mc-McDonald Trump
McDonald Trump, Mc-McDonald Trump
McDonald Trump, Mc-McDonald Trump
El pueblo unido jamás será vencido // shut him down
McDonald Trump, Mc-McDonald Trump
McDonald Trump, Mc-McDonald Trump
McDonald Trump, Mc-McDonald Trump
يا مجرم يا فاسد القدس تاج راسك // Shut him down!

It's a kakistocracy that acts illogically
Gangsters and bankers kidnap your policies
Grand hypocrisy, expand the poverty
This man's philosophy is rampant robbery
Left Puerto Rico abandoned and on its knees
Massive horror scenes, no plans for college teams
Onslaught wants more handguns on the street
To ban democracy and crash economies
Fake news in the flesh, great at using the press
Ruminate on who to hate when you accumulate debt
The food chain stretched from your goons that invest
Desecrate the state an unusual death
Wanna idolize sly guys who would you guess
Surprised hope they privatize his funeral next
Lucid effect on who you choose to elect
When expansion is limitless what future is left
The system was was fixed for him, sicker than Nixon
With Clinton, Winston and Kissinger mixed with him
The missiles are blistering, pistols on kids
And he spits on the immigrants, isn't it interesting
Donald Trump and his forked tongue, let 'em all come
The precedence never been a president that is more dumb
Slave to the bankers, slave to the gun lobby
There'll be permanent war, always demonize somebody
Families broke up, sanity closed shut
How can it be this man receives a salary to show up
Private jet nervous, disturb 'em with turbulence
Merging with mercenaries working to murder us
They're hurting the Earth and our urges to nurture it
We're ruled by the worst of the worst of the worst of them
Hurting the Earth and our urges to nurture it
Ruled by the worst of the worst of the worst of them

The Republican Party is the most dangerous organisation in human history

Lowkey Lyrics

"Children Of Diaspora"

(feat. Mai Khalil)

[Lowkey:]
Don't you wonder what became of the children of diaspora?
Those that innovated in their ways and their vernacular
Those that saw their traces in the faces of the massacred
I wonder what became of them, tell me what became of them..
I wonder what became of them, tell me what became of them..
I wonder what became of them, tell me what became of them..
I wonder what became of them, tell me what became of them..

Lost in this city of fog rarely seen by the sun
Just 'cause you're both but neither doesn't mean that you're none
Never captains of the ship but they mistook us for some
Passengers
Now we're stuck here singing soul music from diaspora
Your hosts can't relate to your sense of dislocation
The type of pain that cannot be contained in a dissertation
"Diaspora" the reason that the terrified are setting fires
"Diaspora" the reason they couldn't jeopardise Zephaniah
Considered as a compliment if our beauty is fetishized
Your history is power, that's the reason some are petrified
Colonial mimic, mascot crying behind a mask
Or a man with amnesia trying to find his past
Anthony Walker never had a weapon but they still got him
Stephen Lawrence never had a weapon but they still got him
Mark Duggan never had a weapon but they still shot him
They call them first world diaspora problems

Don't you wonder what became of the children of diaspora?
Those that innovated in their ways and their vernacular
Those that saw their traces in the faces of the massacred
I wonder what became of them
Tell me what became of them
Zoha Hadeed was a child of diaspora
So fear not, fear not
Edward Said was a child of diaspora
So fear not, fear not

[Mai Khalil:]
We never bow to the Queen, no
We never bow to the Queen, no
We never bow to the Queen, no, no, no, no, no, no
We never bow to the Queen, no
We never bow to the Queen, no
We never bow to the Queen, no, no, no, no, no, no

[Lowkey:]

Since the middle passage either sink or you swim
Bleach the pigment of skin and pray its privilege trickling in
But are we missing the link?
Diasporas the reason MJ did to his nose what they did to the sphinx
And why Marley made the most classic of art
The reason Gabby Douglas didn't put her hand on her heart
The reason Malcolm Little changed his name to X
The reason the President's melanin remain a threat
Ahmed made a clock, they arrested him and mangled his name
But the root of the word is to thank and to praise
Racism manifests in many cancerous ways
We must rally for change in these most tragic of days
Cos Emmett Till didn't have a weapon, but they still got him
Tamir Rice never had a weapon but they still shot him
Alton Sterling never had a weapon but they still shot him
They call them first world diaspora problems

Don't you wonder what became of the children of diaspora?
Those that innovated in their ways and their vernacular
Those that saw their traces in the faces of the massacred
I wonder what became of them
Tell me what became of them
Nina Simone was a child of diaspora
So fear not, fear not
Frantz Fanon was a child of diaspora
So fear not, fear not

[Mai Khalil:]
Pledge no allegiance to the flag, no
Pledge no allegiance to the flag, no
Pledge no allegiance to the flag, no, no, no, no, no, no
Pledge no allegiance to the flag, no
Pledge no allegiance to the flag, no
Pledge no allegiance to the flag, no, no, no, no, no, no

We never bow to the Queen, no
We never bow to the Queen, no
We never bow to the Queen, no, no, no, no, no, no
We never bow to the Queen, no
We never bow to the Queen, no
We never bow to the Queen, no, no, no, no, no, no

Lowkey Lyrics

"Skit 3"

(Soundtrack To The Struggle 2)

If we ask scientists to draw up a list of the top ten greatest scientists. Clearly, Newton, Aristotle, Einstein will be top of that list, I guess. Added to that will be people like Pythagoras, Galileo, Darwin and a few other familiar names. But I reckon, for most people in the West, that top ten will be entirely Europeans: either from Ancient Greece or from the time of the European renaissance and more recently. This evening what I want to talk about is a period in history that's, to a certain extent, been somewhat forgotten. Because I want to put the case for at least three other scientists who I think are worthy of being in that top ten list of greatest ever scientists

Lowkey Lyrics

"Heroes Of Human History"

(feat. Mai Khalil)

[Mai Khalil:]
Are you all all alone, only you in history?
Are you all all alone, only you in history?

[Lowkey:]
Al-Khwarizmi estimated the circumference of the globe
At a time when Europe thought the earth was flat
And couldn't tell the time of day, the astrolabe paved the way
For the clock now I'm about to turn it back
Was the medicine of Ibn Sina perceived as backwards
When Oxford scholars deemed bathing a heathen practice?
History from Aristotle to Al-Kindi as we gather
Innovations of Ibn Haytham to da Vinci and the camera
Ask Roger Bacon, Galileo and Adelard of Bath
Ibn Shatir before Copernicus, century and a half
House of wisdom, books waiting gold, answers to conundrums
Cheng Ho sailed the sea before da Gama and Columbus
You are not who they say you are, you're blessed with a choice
Here since the 700's, look at King Arthur's *[?]* coins
You can do whatever it is that you wanna do
There's a crater named after Al-Ma'mun on the moon
So fly

[Mai Khalil:]
Are you all all alone, only you in history?
Are you all all alone, only you in history?

[Lowkey:]
Civilisations build on each other, not each to their own
My question: If people are equal like the teeth of a comb
Were Jahiz, Mansa Musa, Malik Najashi; Abeed?
I didn't think so but it seems Shaabi, nasi what I need
Check yourself, check Raphael's depiction of Ibn Rushd
Think twice, study history, give it a different look
Curriculum's literally littered with pitfalls of ridicule
Fatima al-Fihri founded one of the oldest still-existing schools
It's deeper than some rhymes I'm providing for the listener
No surprise for a spitter, the word cypher came from ṣifr
Is the next Younis Mahmoud among four million orphaned babies?
What if Yusra Mardini wasn't able to swim to safety?
It could be Steve Jobs is starving under hisar
It would be Zaha Hadid just died in an infijar
Through your veins flow *[?]* Gilgamesh and Abu Nuwas
Your future's bigger than the pain of your present and your past
Just shine

[Mai Khalil:]
Are you all all alone, only you in history?
Are you all all alone, only you in history?

[Lowkey:]
Condemned as the wretched of the earth, we strive to be free
Fanon struggled for independence he wasn't alive to see
The countrification, alienation, souls left so scarred
Idarat altawahish decapitations on postcards
The occupier left behind all forms of stigma
Insidious settlement of the mind is more malignant
From the ashes of war, no phoenix, that human is lost
They learnt idarat altawahish from ensuing the cost
We learnt resistance from Morheeba Korshid and Lela Khaled Learnt about Jamal from Bu Azza, Abu Basha and Bouhired
If Abdelkader was reburied in Al-Jaza'er that's the
Proof return will come for the diaspora of the nakba
Not the first or the last to break free from the guillotine
Yesterday Aljazair, tomorrow Philistine
Not the first or the last to break free from the guillotine
Yesterday Aljazair, tomorrow Philistine

[Mai Khalil:]
Are you all all alone, only you in history?
Are you all all alone, only you in history?
Are you all all alone, only you in history?

Lowkey Lyrics

"Long Live Palestine 3"

(feat. Maverick Sabre, Frankie Boyle, Ken Loach, Chakabars, Khaled Siddiq & Mai Khalil)

[Frankie Boyle & Chakabars:]
As you prepare your breakfast, think of others
Do not forget to feed the pigeons
As you wage your wars, think of others
Do not forget those who fight for peace
As you pay your water bill, think of others, those who are nursed by clouds
As you return home, to your home, think of others
Do not forget the people of the camps
As you sleep and count the stars, think of others, those who have nowhere to sleep
As you liberate yourself with metaphors, think of others, those who have lost the right to speak
As you think of others far away, think of yourself and say "if only I were a candle in the night"

[Lowkey:]
This is for Palestine, Al-Quds, the capital Jerusalem
Unarmed people marching to the wall and they're shooting 'em
Suppression is a question, resistance is the answer
Long live Palestine, long live Gaza
Palestine, Al-Quds, the capital Jerusalem
Unarmed people marching to the wall and they're shooting 'em
Suppression is a question, resistance is the answer
Long live Palestine, long live Gaza

[Maverick Sabre:]
All you see is war every time you turn your head at night
There's bloodshed on the floor, mother cries, who dies for her this time?
There's truth between these walls
See the lies between the lines they hide
Where's the bullet coming from? From the tyrant dressed in our disguise

[Khaled Siddiq:]
I'mma ride until the end even if I get the push back for all my friends
Cah you know that I'm a fighter, let me see your lighter and we not gon' stop til Palestine is free
But you still know that I'mma ride until the end even if I get the push back for all my friends
Cah you know that I'm a fighter, let me see your lighter and we not gon' stop til Palestine is free

[Maverick Sabre:]
Taught to not love, taught to be blind, taught to not care
Tell me what's real? Borderlines, military despair
How to exist if there's no ways to be human in fear
And if you take away our home
Where's the house supposed to live?
Taught to not love, taught to be blind, taught to not care
Tell me what's real? Borderlines, military despair
How to exist if there's no ways to be human in fear
And if you take away our home
Where's the house supposed to live?

[Mai Khalil & Lowkey:]
Free my people, long live Palestine
We will never let you go
Sing it with me now
Free free Palestine, free free Palestine
Free free Palestine, free free Palestine
Free free Palestine, free free Palestine
Free free Palestine, free free Palestine

[Lowkey:]
If Ibrahim Abu Thuraya could resist without a wheelchair
10 year challenge, tell Regev we are still here
And tell that killer Netanyahu he should feel fear
The old live through us and guarantee the children will care
Criminal, not invincible and you know it
Samidoon, samidoon, still sitting in there stoic
May not feel us with you when you listen to our poems
You inspire humanity, your resistance is heroic
Regardless of talk, it is time we answer the call
Through your strength of spirit, you provide example for all
How to live, how to love when attacked from the clouds above
Loud and clear, the songs you sung can't be drowned by the sound of guns
Or just watch your tragic times through a satellite dish
The least that we can give you is an anthem like this
They panicked, tried to analyse and sanitise this
But we love you more than ever, still Palestine lives

[Mai Khalil & Lowkey:]
Free my people, long live Palestine
We will never let you go
Sing it with me now
Free free Palestine, free free Palestine
Free free Palestine, free free Palestine
Free free Palestine, free free Palestine
Free free Palestine, free free Palestine

[Maverick Sabre:]
No change, no
Run away your way, oh
All the hate you face, oh
Time to change this stadium
No change, no change, no
Run away your way, oh
All the hate you face, oh
Time to change this stadium
No change, no change, no

[Ken Loach:]
Continuing oppression of the Palestinian, encircling of the people of Gaza
Killing of civilians, the burning of bones, the daily oppression, the theft of land
The apartheid system in the West Bank where there are two road systems and I've been and I'm sure you have
And you see the... the Israeli road, you see like a spanking new highway just the settler cars going backwards

and forwards
Then you see the old Palestinian roads
And it clearly... it's people living under two sets of rules, an apartheid system
So all this is being uncovered and the boycotts, and divestment and sanctions campaign which I support and I'm sure many other people do as a peaceful protest against the Isreali oppression
To poor groups who've got to keep proclaiming the rights of the Palestinians are the right to return
The right to their... erm... the right to their homeland really
And... erm... and the theft of land, Israel is breaking international law, it is breaking the Geneva Conventions

Lowkey Lyrics

"Letter To The 1%"

(feat. Mai Khalil)

Talking in terms of power. Where the power is, who's shaping the condition of our lives, who determines the quality of the air we breathe, the food we eat, the water we drink, the kinda jobs we can have, the images we have to deal with and such.

If I can sing this song without you maybe all is well
If we can sing this song without you we don't need your wealth
This is my letter to the 1%
If I can sing this song without you maybe all is well
If we can sing this song without you we don't need your wealth

Power to those that read bell hooks
Power to those that sell books
Power to those who know how the inside of a cell looks
All those feeling helpless, forgotten and discarded
Power to the strange fruit they thought was rotten in the garden
Power to those sitting alone, seeking solace in the calmness
Power to those feeling stained, know your tomorrow isn't tarnished
Power to those that sweep the streets with more knowledge than PhD's
Power to those that keep their keys, return this promise, please believe
Power to those that suffer in silence, those it hurts to hear
Power to those that hold their ground
Power to those that persevere
Power to those that love humanity more than they love style
Power to immigrants probably raising Donald Trump's child
Power to the blind who can't imagine what sight is
Those staring at the moon and all those working night-shifts
Power to the readers, the writers, the illiterate
Power to those that struggle to decolonise their syllabus
Power to the shy ones, always struggle to make friends
And the half of humanity worth less than eight men
Power to those that risked their life to dig the coltan from the ground
For the mic I'm spitting on and the phone you're holding now
Power to those that build the stadium they're playing in
Power to those that mowed the grass and stitched the ball that they're playing with
Power to every rapper that doesn't rap about killing
Power to the builders who built buildings that outlived them

If I can sing this song without you maybe all is well
If we can sing this song without you we don't need your wealth

Power to the slaves of Ancient Greece that didn't have the right to vote
Democracy dead like Gary Webb, when they import it like its coke
Power to those write to prison
Power to those writing home
Power to those writing poems
Power to those that died alone

Power to Curtis Mayfield
Power to Ronald Isely
Power to the fishermen that were forced into piracy
Power to every person that is working in a library
Power to every nurse that we turn to in our times of need
Power to the unions and the mindless that should punish
Power to those that drive the busses and those that collect the rubbish
Power to the youth desiring the truth
Power to every rapper that is dying for a Fire in the Booth
For those that lost limbs to King Leopald's quota
And those risking their lives for the P&O to Dover
Power to union leaders murdered by...
Power to victims of this globalised cosa nostra
Power to those dying on the shores and the borders
Power to humanbeings that were rendered fauna and flora
Power to those that cleaned up after the stage show
And Carnival goers still haunted by Kelso Cochrane's ghost
Power to ... his picture taunts us ever after
So many questions never answered
Remember the last words of Abdul-Muhsin Al-Saadoun, "الأمة تنتظر الخدمة، الإنجليز لا يوافقون"
Power to Al-Jawahiri and his rebellions
They killed his brother Ja'far and he cursed the rotten Thamesians
Enlighten despots pursuing tactics Machiavellian
Chinese still preceded Europa millennium, think about it
Printed press half a millennium never get close
Power to Ken Loach and every volunteer in Lesbos
Cuban doctors sent to Sri Lanka for the tsunami
Power to those that cleaned up after the Bullingdon parties

If I can sing this song without you maybe all is well
If we can sing this song without you we don't need your wealth

Kids knowing Apple products before they know what an apple is
Forgotten like passengers on the USS Indianapolis
Dying days, for they could see what little boy's damage did
On the precipice of fascism, while pacifist is cancerous
Power to those still strong enough to dream
Power to those that chose not to be a cog in the machine
Power to those that love first and hate never
Power to those that sleep on the streets through grey weather
Power to Aziz Ali and Bone Thugs-n-Harmony
Power to Norman Baker, David Kelly's, ulnar artery
Power to the genocided population of Tasmania
The internet descends to Trumptastic fantasia
Let them try quote this
You'll never find a better diagnosis than collective psychosis
It's getting quite hopeless but hope is all we have
Tryna cultivate the positive, not focus on the bad
But the globe's under attack
The obnoxious rage of a fake intellectual
Amazing grace in the age of the spectacle
Not the first time they found a racist electable
To raise to the pedestal

Then desecrate the place that translated the decimal
I don't wanna tempt fate
Power to corpse-washers like Salvador Allende
Power to language learners
From Bernie Sanders fans to flag-burners
One man's inertia is another man's purpose
In the utopia of song, we are victorious
But the bitter sweet reality is not this glorious
Power to Coltrane watching Malcolm X
Power to Paul Robeson under house-arrest
Power to Galileo under house-arrest
Power to Ibn Haytham under house-arrest
Forgive me if I sound obsessed
This is my letter to the 1%

If I can sing this song without you maybe all is well
The redistribution of power
The redistribution of power
We want the redistribution of power
We want the redistribution of power
If we can sing this song without you we don't need your wealth
We want the redistribution of power, the redistribution of power until your power is ours
Until your power is ours
If I can sing this song without you maybe all is well
If we can sing this song without you we don't need your wealth

Lowkey Lyrics

"Skit 4"

(Soundtrack To The Struggle 2)

July 4th, 2005, I joined the United States' military. I swore an oath to defend the constitution against all enemies, foreign and domestic. I went through basic training, I went through technical school. At the end of my technical school I was brought into the drone programme even though they didn't tell me what it was. They said, "You're gonna go to Nevada and you'll find out when you get there." And so I showed up and they put us in a theatre no bigger than this and they showed a montage video of drone strikes *[*imitates gun fire*]*... played to heavy metal music. And at the end of the video, a sergeant came down the centre and he stood in front of us and he said, "Your job is to kill people and break things." And I thought to myself, "This isn't why I joined; I joined for very patriotic reasons, to get me education (it's not free in America) and impress a pretty girl

So I went to my commander and I was like, "Sir, I'm not sure I can do this job. I'm not sure I could ever pull the trigger on somebody."
And he was like, "YOU swore an oath to defend the constitution against all enemies, foreign and domestic. You WILL obey the lawful orders of those appointed over you. You will do your job."
And I was trapped. My father- my grandfather, actually, he's really my father figure. I didn't want to disappoint him; I wanted to be worth something. This is what all veterans want: they want to be worth something. They fight for a reason, they fight because they care. They don't want to look weak; they want to look strong. They want to fight for a noble cause, an honourable cause

And so I did it. I did it for five years and five days. I killed thirteen people - and this is how you make life cheap. You show someone you can end a life by the push of a button. When I was younger, war had no meaning to me; it was something of distant lands and it was something of history. And here it was very real. I was a gamer, I was an athlete.

Lowkey Lyrics

"Lords Of War"

(feat. Kaia)

Intestines, shattered hopes and dreams adorn the floor
The face behind the screen has seen it all before
And the worst thing about is there's more in store
Just another sacrifice to the lords of war

The royal family sell guns
The royal family sell bombs
That kill the world's poorest people
The government sell guns
The government sell bombs
That kill the world's poorest people
The sacrosanct march of industry
The sacrosanct march of industry
Does such strange things to people
The spectatorship of suffering
The spectatorship of suffering
Does oh such strange things to people

Oh, Lord of war
How do you sleep?
Oh, Lord of war
How do you sleep at night?
Oh, Lord of war
How do you sleep?
Oh, Lord of war
How do you sleep at night?
Oh, Lord of war

She was eight years old, imagination alive
Cute as could be, you could see the gleam of mischief in her eye
Carrying her kite, trying find a place where it could it fly
Hovering not far she saw what was a spaceship in her mind
Too young to really understand exactly what the buzz meant
Bread and water everyday, other than that she's unfed
Pressure applied diplomatically to stop aid
Reality enforced by the air and naval blockade
Back to her, through her blood flows Qahtan
Ancient civilisation but its status has lost charm
She found a place to fly kite in the soft calm
Some will say that her life was god's palm
She heard her mother call, saw her brother fall
Didn't realise quick enough, stumbled from the sudden force
In a flicker and flash to the horror scene of death
This is what happens when technology meets flesh

Oh, Lord of war

How do you sleep?
Oh, Lord of war
How do you sleep at night?...
Intestines, shattered hopes and dreams adorn the floor
The face behind the screen has seen it all before
And the worst thing about is there's more in store
Just another sacrifice to the lords of war
Oh, Lord of war

A caravan in Nevada, he sits twiddling a control pad
Taking down coordinates, scribbling in his notepad
When he sweats the headphones itch and irritate his eczma
Watching scenes on the screen as they enter through his retina
Sick of his life, his wife and this job cos it kills
Sick of his sick father and debt from his hospital bills
Childhood of computer games that learned him in murder
He wonders if he's better off serving up burgers
A part of him loved watching death from distance
But that feeling numbed away through monotonous repetition
Merely going through the motions, like the robot that he operates
Depersonalised murder, victimless violence for the modern age
His cold stare and tap of a button takes her only life
Instantly regrets but watches on as she slowly dies
Grotesquely interwined via the screen that he stared through
Her kite floats away but we will never know where to...

Oh, Lord of war
How do you sleep?
Oh, Lord of war
How do you sleep at night?...
Intestines, shattered hopes and dreams adorn the floor
The face behind the screen has seen it all before
And the worst thing about is there's more in store
Just another sacrifice to the lords of war
Oh, Lord of war

The lord lives in the third dimension far from the theatre
But every now and again the whimpers of the carnage get nearer
Sometimes in his dreams he sees the harmed and disfigured
Like Dorian Gray can't see his moral scars in the mirror
Cognitive dissonance, suppresses his pangs of conscience
Rationalises it away, everybody has their monsters
But he is not everyone
He is a parasite of life and carries within him a selfish song never sung
Believes he loves his children, is he capable of love?
Lord of the machines that rain Satan from above
Will they justify what daddy did or hate him as they must
Realise their bread and butter left faceless faces in the dust
As the sights locked on her he loosened his suit and tie
As he sighs, balls of fire were shooting off to her right
As she died, he ordered a fruit juice with some ice
Her kite floats away, he admires the blueness of the sky... oh Lord of war...

Lowkey Lyrics

"Ghosts Of Grenfell 2"

(feat. Kaia)

[Lowkey:]
Black snow on a summer's night
Cold shoulders on a summer's day
Invisible violence becomes visible
In such a sudden way

Black snow on a summer's night
Cold shoulders on a summer's day
Invisible violence becomes visible

Twelve months, no arrests made
The image in our heads stayed
Stressed faces pressed to windows, looking for an escape
Seems they underestimate this corner of the west way
Witnesses to the crime we fear a whitewash is the end game
Minister, what was your relationship with Mark Allen?
Been waiting twelve months for answers, still we can't have them
Windows to our soul witnessed anguish that you can't fathom
No disrespect intended, Troubled Water wasn't our anthem
Carnival on the soul of Kelso Cochrane
What do you think will develop, on the strength of those names?
Over seventy everyday people
No celebrities were left here, picking up pieces of broken memories
No more to big business, fiddling regulations
Grenfell Action Group, the most tragic of vindications
From sympathy of a nation, to most uncomfortable of issues
Our dearly departed please know we love you and we miss you

[Kaia:]
Calling, still hear them calling
Black snow was falling
From the corners of my mind, I hear you
Calling, still hear them calling
Black snow was falling
From the corners of my mind, I hear you

[Lowkey:]
When invisible violence becomes visible, thinking is uncritical
Listen to some, thinking we're simple and dumb criminals
Hardened battered hearts, having laughed in a good while
But Stormzy at the Brit Awards made the neighbourhood smile
Out of your mind, if you think we're satisfied with platitudes
Questions for RBKC, Celotex and Sajid Javid too
As nihilism sets in and the breakdowns start
Slow creep of bureaucratic violence strains our hearts
Feeling like an empty vessel, staring at an empty vessel

Corporate hijack of regulations, very detrimental
Human life, the cost - how can we not be feeling sentimental?
Goosebumps cross your skin when you feel the breath of death against you
Bet you never went through that cursed night of haunted sounds
That wretched cladding falling down, since then death is all around
They say that every storm there is a dawn
Knocking on Heaven's door, we mourn forever more

[Kaia:]
Calling, still hear them calling
Black snow was falling
From the corners of my mind, I hear you
Calling, still hear them calling
Black snow was falling
From the corners of my mind, I hear the

[Lowkey:]
A place where the flames took everything that is sacred
We're planting seeds for trees we might not sit in the shade of
Combustible and still legal, regulations feel feeble
Never again, moment neoliberalism kills people
For innocence tarnished and beauty that was lost
Regulations disregarded, it's the human that's the cost
Hotels, hospitals and schools
How could we forget that
Up and down the country there's people sleeping in death traps

We're (calling)
For an end to the disdain
Better bow your heads in silence when we're mentioning their names
We are (calling)
For survivors rehoused in the best place
Still we demonstrate against bonfires of red tape
We're (calling)
For the companies and council held accountable
Climbing up the mountain though its height seems insurmountable
(Calling)
From the bottom of our lungs -
Truth, justice and peace for all of the lost ones

[Kaia:]
Calling, still hear them calling
Black snow was falling
From the corners of my mind, I hear you
Calling, still hear them calling
Black snow was falling
From the corners of my mind, I hear the

The blood is on your hands, there'll be ashes on your grave
Like a phoenix, we will rise
The blood is on your hands, there'll be ashes on your grave
Like a phoenix, we will rise

We will never give up
We will never give in
We will never give out
We will rise
We will rise

We will never give up
We will never give in
We will never give out
We will rise
We will rise

Lowkey Lyrics

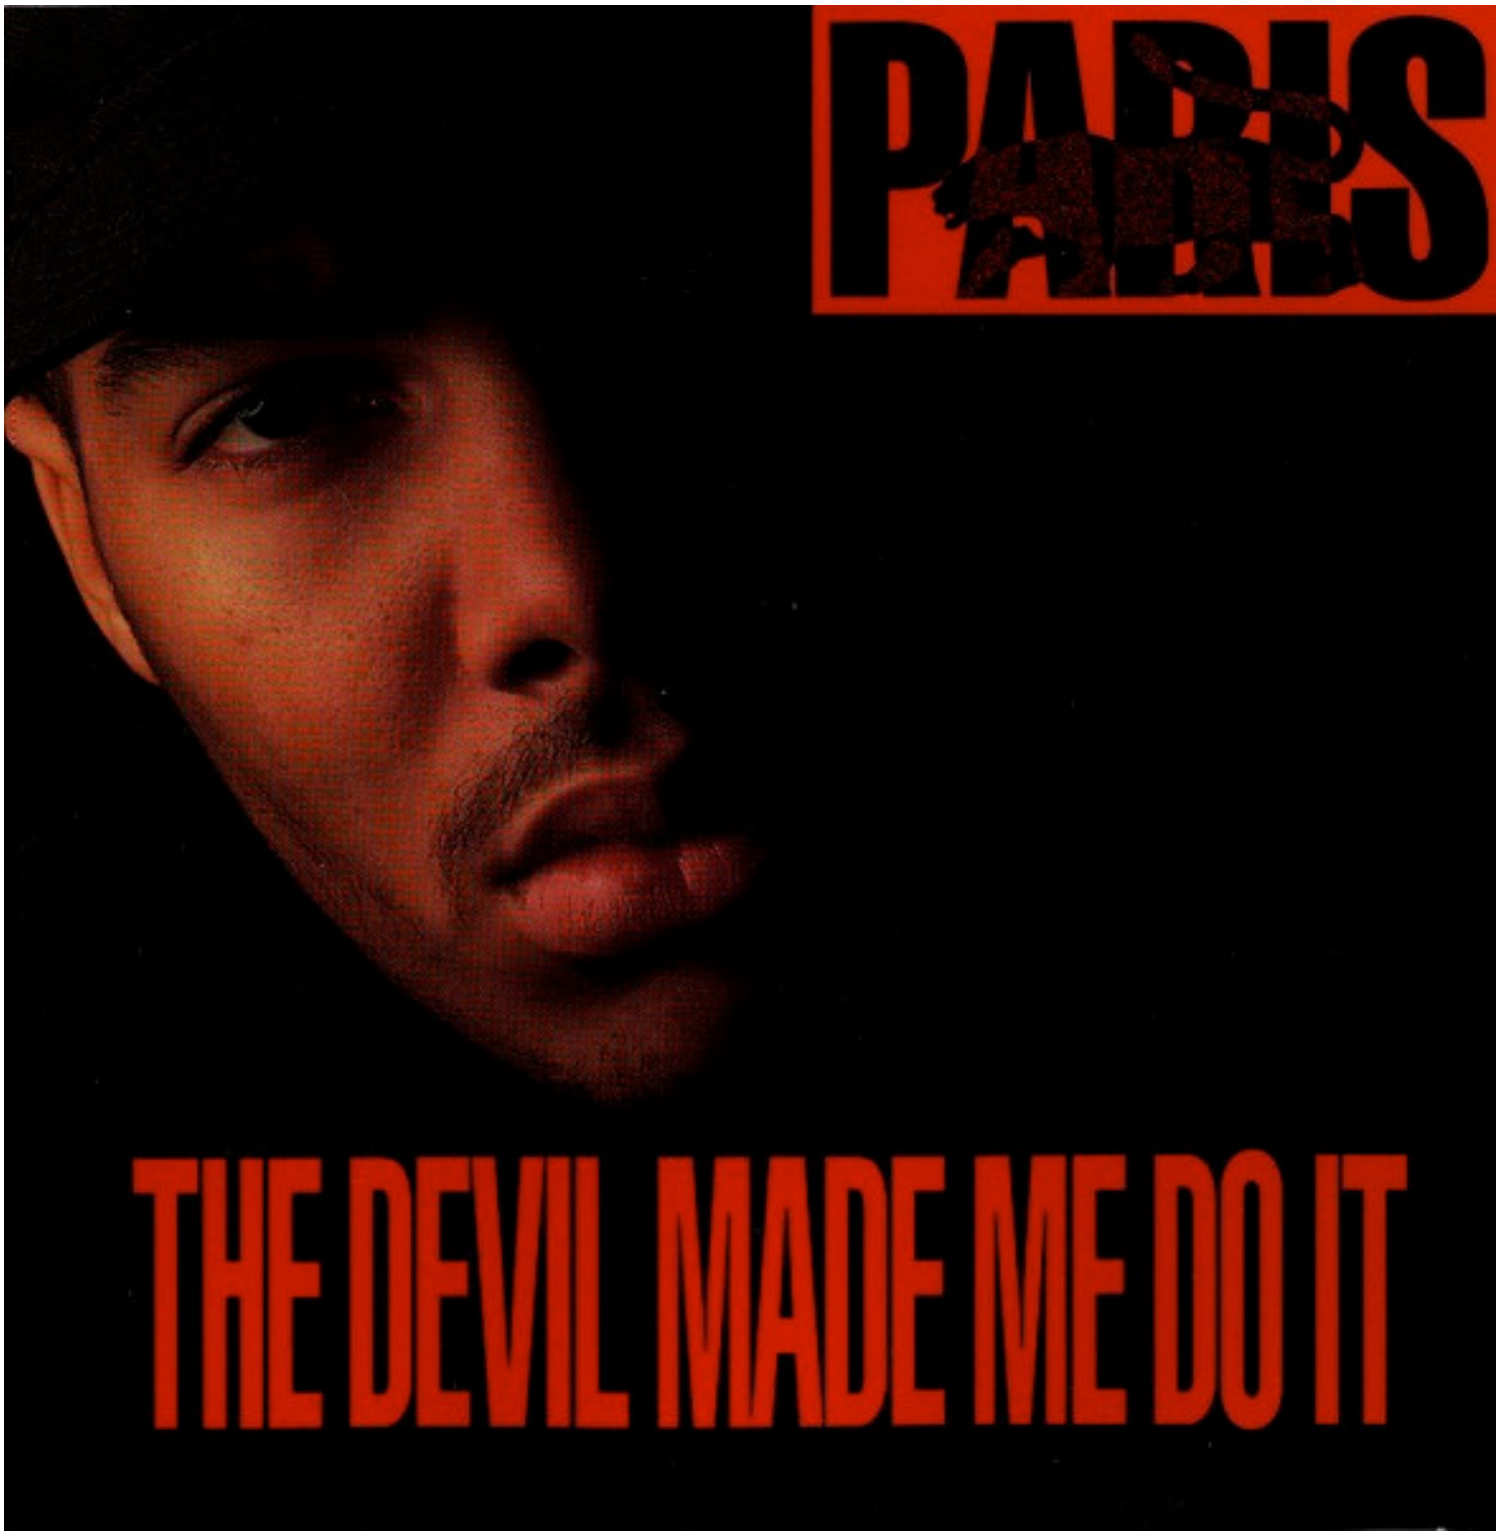
"Neoliberalism Kills People"

How can I do a fire in the booth, when I'm trying just to maintain
And since June don't hear the word fire in the same way
Heard screams, splutters and them gasping for air
That’s not bars in a booth it’s so hard to compare
If I use fire as metaphor
Does that disrespect the people that are never more?
How does that bomb sound sound to those that bled in war that we never saw?
Remember when they settled scores with metal swords like Skeletor
Chinese made gun powder, Nobel invented dynamite
They say the guilt in his mind compelled him to design the prize
We know what Einstein's mind was like
How many geniuses we never knew that were deprived of life?
I can't philosophise on horrifying flames
We don’t have to apologise or qualify our pain
Degrenfellise our loved ones of the colonisers name
Should we let the corporate media lobotomise our brains
You are beautiful, no matter how this life disfigures you
You’re beautiful even if that image you emulate isn't you
I don’t know if history is linear or cyclical
But know I’m ridiculed for making invisibles visible
That's why Plato said banish poets from the republic
‘Cause they know that we can shake the social system and disrupt it
The land of liberty, they tell us leave it or lump it
When Trump comes to the country we hope he chokes on his crumpet
Before we sink in the ocean, consider this as an omen
Natures blessings aren't ours just ‘cause we think that we own them
Never think that you're broken, or think that you're no-one
Remember a rope is strong because of strings interwoven

Would they love you more if you mock the people that you're from
Self-orientalise and believe that you belong
Overcompensate and propagate the image of the imbecile
Not uninvolved though you're further from the killing field
Take solace in the fact there's always cracks in the monolith
Now we're practically lobbing bricks like Asterix and Obelix
Distracted with gossip it's twisted news an interlude to adverts no hidden truths to listen to it's pitiful
Rosa Luxemburg gave us this simple truth
You won't feel your chains till the day you begin to move
He photographed a corpse and they flung him in the cage
Those that signed off on the cladding are still receiving their wage
Helicopters hovered close, pictures for the front page
Tried to speak all I really felt deep was numb rage
How could they see this pain at such a young age
Leaning out the window, screaming for help but none came
If it bleeds it leads, trauma tourists they gravitate
Shock doctrine in effect, disaster capitalists salivate
Privitisation, deregulation and austerity

To zero hour contracts, exploitation and precarity
Adults didn't make it, children to be fostered
Saved pennies on the block, dropped 20 million on the opera
We see through your cold plans, your programme is done
We don't want a Prime Minister that holds hands with Trump
We don't want DJs doing shows on military compounds
Can't trivialise fire or hear any more bomb sounds
How can I smile when I know the remains are still not found
And echoing in my mind is exactly how the sobs sound

They say we're criminals for the syllables and stanzas
When they subsidise the killers tools, the pillagers and bankers
Who are the engines of history, people like me and you
Who got massacred for the right to vote at Peterloo
It was imagineers, the poets and the artists
The miners, Tolpuddle Martyrs, William Cuffay and the chartists
Rebel and resist even through something small
Create windows with words and mirrors where once were walls
Manure contributes to the beauty of a rose
Why can't we accept our pain as something that helps us grow
They wonder why songs that make you cry are more moving
‘Cause crying's the only thing that we were born doing
They tell us tea is tradition to the English
When I look around this island not a tea plantation in it
Earl Gray gave 20 million to the slave traders
Multi-polar world now the Indians are space raiders
Freedom to be even or merely alienate labour
Freedom for fossil fuellers to desecrate and invade nature
Albert was an immigrant, Prince Phillip is an immigrant
Were the Celts, Normans and the Anglo-Saxons English, then?
The words Sugar, Cotton and Rice come from Arabic
Now we import democracy to civilise the Saracens
Analysing planets when this back water was wilderness
It seems we're still obsessed with immortality like Gilgamesh
Pessimism of intellect, optimism of will
Wear the skin of their victims its syndrome buffalo bill
In times of permanent war there is always someone to kill
But when life and death are virtual almost nothing is real



PARIS
THE DEVIL MADE ME DO IT

Scarface Groove

[Paris]
Hail to the man with the righteous groove
So sick that it makes you move
Closer to the speaker, never weaker
Lines on time and I rhyme Malika
Lot of knowledge on the microphone when I speak
Rabbit MC's I love to eat
Shockin with the rhyme, gettin sicker with time
I'm comin way too real and I'm blowin your mind
I'm tearin sh*t up, I won't let up, you need to get up
And out and on the floor, cause I'm fed up
With rhymes and words that's weak that's wack, absurd
Pollutin the airwaves, too often heard
I come through with the rhymes, so true blue with the rhymes
I eat you with the rhymes, and on and on and in time I'm
Movin with the smooth the groove that some consider dangerous
And you're playin this, I ain't new to this

{*scratching*}

[Paris]
Yeah... it's a Scarface Groove

Paris is the name and I'm here to get sick
I mean I'm stronger than a tiger and I'm down with the click
While makin sure my song is deffer with an 808 kick
And now you know it, I'm a poet, and I'm harder than a brick
I makin over 3 G's a day, and you say
That Mad's cuttin like a blade over sucker DJ
Start shinin all the time that I'mma standin on stage
It's a Scarface mob and we're sicker than AIDS
What I wrote, is no joke, there's no hope
It's too dope, you're gettin broke by a cutthroat
While bein killed is the price you're billed
There's no time to rhyme and no time to build
Steadily the melody plays, and steadily ba**
Is in the place, is in your face, with grace
Sensation and finishin the suckers with my sentencin
You get excited as the rhyme begins, you're goin
{*scratching*}

[Paris]
Smooth... with the Scarface Groove
This the Scarface Groove
Yeah, it's the Scarface Groove, y'all

Startin to sweat, I know it's hard to breathe
Rhymes are on time so you better believe
The style, sick of the style, cause the style is wild
I couldn't never be mild, and now I'll begin
To advance in a b-boy stance
The underground sound makes you clap your hands
It's the B-A-Y, do or die
Born to freestyle, born to rise
And now I'll keep on rockin the beat on
No one comin up short capiche on the mic
You're scared, runnin from the man you fear
P-Dog is sick boy, you better beware
The man X-Rated, rated X the man
Is comin through with the jams that keep you clappin your hands
While I'm movin nonstop and the party is smooth
One hundred below ice cold, it's a Scarface Groove

Yeah, it's a Scarface Groove
It's a Scarface Groove, y'all
Y'knahmsayin? It's a Scarface Groove
{*scratched: "I'll play the 9 and you play the target"*}

[Paris]
Debutin I'll do it for sure by comin through
And never stoppin hip-hop, I just drop, MC's are ruined
Now I'm teachin when I'm talkin so that you'll get taught
Makin sense so intense is the record you bought
I'm stronger, strokin 'em longer
Stickin them, dope MC's go under
Keepin 'em down with the Scarface sound
Swimmin 9 millimeter laps, MC'sll drown
Keep talkin that bullsh*t, you might get housed
Smacked in your mouth, P's turnin it out
Money stackin and mackin is what I'm talkin about
I'm never playin, or bullllsh*ttin
The rhyme'll go colder than ice, but get hotter than coals

Big soul on a roll and only 20 years old
Keep it goin non-stop and the party is sore
And I'm movin, smooth again, Scarface is on

Yeah, Scarface is on
Scarface is on
Yeah, Scarface is on

- This is a Test

[Verse 1]
Too many sounds irritate my earholes
Like Planet Rock beats from L.A. hoes
The same old thing, same old sh*t I'm tired
Was once on the payroll about to be fired
Black radio shame, pop rap's to blame
Program your playlist to sound the same
With a disco tempo, cliche intro
Wack rap tracks for commercial shows
Mindless music for the ma**es has to take
Time away from the real rap master
So I'll stay cool for community airplay
While ratings slip for the sh*t that you play
This is a test a lesson to be observed
No wack rhymes are heard I keep on raising the curve
Back and forth I never stick I'm soft I just run it
Punks'll shun it, gangs keeping girlies on it
Paris is the dog, much doper than morphine
Sick with the style so you can say you've seen
The radical magical man, master of master plan
So smooth from beginning to end
This is a test, back it up when I'm in the place
And all hail to the dog with the righteous ba**
The boss I come across rough on your radio wave
Terror on two-track whenever I'm played
Punks keep stepping that's the reason why I
Come through sicker than a L.A. drive-by
By dropping bombs in songs y'all keep singing along
So smooth it couldn't never go wrong
This is a test
[Verse 2]
Yo dig
When you buy a rap record do you buy it for dance moves
Or do you buy rap cause the lyrics are smooth
Cause if you wanna dance you should stick with the other one
And leave the dog alone till the dancing is done
But then when you're ready for the brother who leads
And feeds all rap lovers with rhymes like these
I dish a little taste of the ba** of Scarface
And pace the rhyme space to chase the weak-kneed

Cause I don't play -- Well my name ain't [Cool J]
Or A-T-C, or N.W.A
I'm Paris, the Asiatic lord of light
With the power to fight and write rhymes to stay
Cause I'm hotter than lava when I be up on a microphone
By now you should know it the poet's doper than most
By dispensing of ignorance and by keeping the wack down
You enter to the realm of the Scarface sound
This is a test

Panther Power

[Intro]
"So the concept is this, basically
The whole black nation has to be put together as a BLACK ARMY
And we gon' walk on this nation, we gon' walk on this racist
Power structure, and we gon' say to the whole damn government -
STICK 'EM UP MOTHERF**KER! THIS IS A HOLD UP!
We come for what's ours."

[Verse 1]
Yo black it's time to set stage and guidelines
Ten point program, freeze the genocide
Round the posse to protect the people and
Regulate and keep straight the man
Clear the way for P-Dog the militant
Made to steer and care for the indigent
Power to the people is a serious concept
Panthers prowl when I say to step
Pigs today'll end up like prey
Like Hutton I'm never lettin 'em get in my way (word)
"Soul on Ice," what I won't be played like
Pigs and house nigs are set in my sight
C*ck the gat, for P the pro-black
On to harm and alarmed at the format
News goin' out to a racist cop
The first motherf**ker steps up, gets shot
This is Panther Power
[Scratches]
"Panther Power on the hour"
"Panther Power on the hour"
"Panther Power on the hour"
"Panther Power, you can feel it in your arm"
"Panther Power on the hour"
"Panther Power on the hour"
"Panther Power on the hour"
"Panther Power, you can feel it in your arm"

[Verse 2]
Now hear the growl, I'm proud to be black
Built to step up and not to step back
Too full grown to allow a gay move

Step to the dog and I show and prove
Ten point program jams that flow and
Pigs end belly up, stopped in motion
Who's more brutal than a panther unleashed?
Paris, made to keep the peace
Some duck style when I come inside
Bougies'll pray I get played and fried
But I'm too smart to start with the cold feet
No-Doz shows, the P don't sleep
Comin to the place all in your cave when
Panther Power protects the citizen
Come on, step for the movement
DJ Mad, hit 'em with that Panther Power
[Scratches]
"Panther Power on the hour"
"Panther Power on the hour"
"Panther Power on the hour"
"Panther Power, you can feel it in your arm"
"Panther Power on the hour"
"Panther Power on the hour"
"Panther Power on the hour"
"Panther Power, you can feel it in your arm"

[Interlude]

[Verse 3]
Now, who that thought they could stop
The crown chief leader of the movement, watch
When I say build, I mean come correct black
Cause I see straight and I don't play tag
Step to this and end up like Axl
Devils all and P-Dog attacks ya
Panther Power keeps punks from runnin up
Play the front and you might get stomped
Witness this, the original man
Made of earth, cream of the motherland
Black and strong and not down to half-step
Piece is kept, police are ripped
P don't plea, it's a new direction
Strength and unity, peace, protection
One for Huey and the movement won't die
And the strong survive, the Panther Power

[Scratches]
"Panther Power on the hour"
"Panther Power on the hour"
"Panther Power on the hour"
"Panther Power, you can feel it in your arm"
"Panther Power on the hour"
"Panther Power on the hour"
"Panther Power on the hour"
"Panther Power, you can feel it in your arm"

{*police radio, mixed with sounds of a panther growling*}

[Outro]
"Revolution has come! Off the pigs!"
"Time to pick up the gun! Off the pigs!"

- Break the Grip of Shame

[Verse 1]
Enter into a new realm, a new dimension
Pay close attention
And witness knowledge born on the microphone
For the people that I call my own
Remember back when good rap was just a cool dance hit
Even though it wasn't saying (sh*t)
Well them days is gone I don't play that
Pick the punk and I'll say like wack
Stick with the sick style for the serious
Hip-Hop lovers can't get enough of this
Black tracks on wax are so smooth
You can't get help but the thought to move
This is a call and a plea for unity
Black is back uplift and be free
Keep pushin, our movement moves on.. so strong, now

[Verse 2]
With a raised fist I resist
I don't burn, so don't you dare riff
Or step to me, I'm strong and black and proud
And for the (bullsh*t) I ain't down
Life in the city's already rough enough
Without some young sucka runnin up
You don't know me, so don't step
I roll to the right and then bust your lip
Paris is my name, I don't sleep
I drop science, and keep the peace
Here to bust this for better justice
Another dope Scarface release
This is a serious style for the gifted
Pro-black radical rap's uplifting
Still growing, the power's so strong
You can't stop it, now
[Interlude]
"We declare our right on this earth to be a man, to be a human being, to be respected as a human being, to be given the rights of a human being in this society, on this earth, in this day, which we intend to bring into existence by any means necessary."

[Verse 3]

Alright, let's start some mo' (sh*t)
Straight up on the movement tip
With forces strong as Allah's my third eye
Black is back and P-Dog'll never die
Who said that you can't do this
Can't be wise or be for the movement
Games I won't have so don't you play none
You'll see why when I'm gone
Skinheads end up dead cause I don't play
Brothers swarm under the form of Scarface
Round up, roll out, we'll roll em up like Rolo's
I stomp sixteen solo
Straight for the jugular, hope that I don't
Swarm and bust a cap by night so
You just keep your place cause I won't stop
I'll keep pushin that movement rock when I

Warning

[Verse 1]
Yo, a sissy cop in the hood
Shakin a brother down, thinkin he ain't no good
"What's your name, what you standin here for?
Thought I told ya not to come around no more"
Man I wasn't doin' nothin', why ya f**kin wit me?
Shut up punk don't question authority!
Up against the wall, hands in the air
Just wants the punk to fear
Right about then mo' suckas came around
Put the young brother into the ground
Hollerin talkin that ignorant bullsh*t
Grabbin his arm, tryin to break his wrist
A god damn shame and he's only thirteen
Five to one is a pu**y's dream
But yo man I ain't goin out like that
Young G to the house and get the gat
Then BOOM BOOM BOOM now sh*t is equalized
Will when you suckas realize?
Black people simply ain't havin that
We just hit back

Ebony

[Produced by Paris]

[Verse 1]
Once again my friend, I try
To help improve another brother's life
By coming through with the righteous groove
Tells right from wrong, makes people move
Not idiot crossover songs
That appeal to all and make you sing along, no
This one is for the chosen few
Who want to build and uplift my people too, so
Listen to the words I speak
Cause the words are truth and truth's what I teach
By talkin' bout the things that I see
When talkin' bout this color called ebony

[Interlude]
It's ebony

[Verse 2]
Not sellin' drugs, I'm above a thug
Killin' off his own, tryin' to make a buck, no
That ain't the way it's done today
Gotta come together, gotta educate
Gotta, uplift, lift up your head
Stand strong and proud, don't end up dead
Take time to make that move
Be sure to be straight and you'll improve
Live long, be strong, and you'll see
That better is a life lived long and carefree
Just stay on a righteous path
You'll see the truth and won't have to ask why
I don't make the rhymes that say
How ignorant brothers act nowaday
I just talk about the things that I see
When talkin' 'bout this color called ebony
[Interlude]
It's ebony
Now break
Smooth

[Verse 3]
Now I want y'all to listen, see what you're missin'
What lacks in the compet**ion is
Strong words, of pride and unity
I'm glad that y'all in tune to me
I'm here to let y'all know
P-Dog is sick and I'll run the show
By talkin' 'bout the things that I see
When talkin' 'bout this color called ebony

[Interlude]
It's ebony
Smooth

Brutal

[Verse 1]
Paris is my name, I flows with ease
Cash checks, breaks necks and wrecks MC's
Who ain't down with the sound of the Panther Movement
Intense is a serious answer
The mic goes into labor you freeze up
Enveloped by the style that sounds so ROUGH
Rehearsal weak verses potent as cyanide
A million and a half shot keepin you high
But I don't sell cause what you're sellin is never sold
Or dealed by the REAL mack brothers of old
Naw, I just devise a wise new formula
To keep you in tune without sellin my soul
In 1930, it all began
With a movement comprised of intelligent black men
Led by Allah in the form of Farad
But later by the last true prophet of God
Elijah, Muhammad, a dominant black leader
Of The Lost/Found Asiatic Pack
And later by Malcolm, whose point was straight
Stressing a black nationalistic state
Of self-sufficiency on a mission he
Stressed thrift and pride and good sense
Killed in cold blood but the sh*t ain't done with
Switch to Oaktown, '66
See Huey Newton, and Cleveland Seale
Sons of Malcolm with intent to kill
And end the brutality inflicted on us by cops
Best believe I won't stop
Teachin science in step with Farrakhan
Drop a dope bomb, word to Islam
Keeps my brothers up on it cause I'm black
And now you know, I'm BRUTAL
(explosion)

[Verse 2]
Callin' all brothers to order, P-Dog'll slaughter
Stomp rip and choke those who thought a
Young black man wasn't capable of the intellect
Of gainin' respect, without sellin', so check

I'm Paris, six feet two, deadly as ice
But twice as nice with, the power to fight boy
So listen I'm tellin' y'all, the warnin', the Final Call
We're headin, for Armageddon, it's like that
The government's policy see, is tactical genocide
How many must die chasin a chemical high?
How much killin and murderin mayhem more can we stand
Before we fold, black man, so take a stand
Listen up drug dealer, wha**up with that?
Hope I don't bust a cap, straight in your MOTHERF**KIN a**
For pushin' poison to youth, I'm through with talkin' I'm steppin' up
With gat point blank at your motherf**kin' mug
I'm P-R-O, B-L-A-C-K
Stompin' and crushin' to mush, any lush, in my way
I'm educated and strong, always right and no wrong
With many bullets of a Bensonhurst, come on along
It's like that y'all, and I won't QUIT
Keepin' y'all fresh on the movement tip
With F.O.I. at my side, we're never slippin' or nap
We always come sick with it, bustin' serious caps
There's no, bullsh*t, and yo look, this is the danger zone
You shouldn't have stepped to it, you shouldn't have come alone
You shouldn't have ever thought, the movement was soft
Don't you know P-Dog'll never stop
I'm BRUTAL!

- The Devil Made Me Do It

[Verse 1]
This is a warning, another cut to move on
Another beat that's so strong
Hold on and I get wicked and then some
Stir up sh*t as the wit gets wisdom
P-Dog comin' up, I'm straight loc
Pro-black and it ain't no joke
Comin' straight from the mob that broke sh*t last time
Now I'm back with a brand new sick rhyme
So black check time and tempo
Revolution ain't never been simple
Followin' the path of Mao and Fanon just
Build your brain and we'll soon make progress
Paid your dues, don't snooze or lose
They came with the masterplan that got you
So know who's opposed to the dominant dark skin
Food for thought as a law for the brother man

[Verse 2]
P-Dog with a gift from heaven
Tempo 116.7
Keeps you locked in time with the program
When I get wild I pile on dope jams
Then spit on your flag and government
Cause help the black was a concept never meant
N***a please, foodstamps and free cheese
Can't be the cure for a sick disease
Just the way the devil had planned it
Rape then pillage everyone on the planet
Then give 'em fake gods at odds with Allah
Love thy enemy and all that hoopla
Hear close to the words I wrote
Crack, cocaine are genocide on black folk
Who in their right mind ever coulda missed this?
Damn right when you think seditious
And I move swiftly, you can't get with me
The triple six moved quick but missed me
When I came off involved in conscience
So don't ask why next time I start this
[Verse 3]

Now let's get wild, allow me to freestyle
I build and fill your mind up with know-how
A common sense, a defense the next time
A pig tried to step to this, listen
Never let someone whoop on ya
They don't belong to the set you from
Ya can't be intrigued by the leads a pig lead
Unless you don't give a f**k to be free
Keep stompin' on, I keep stompin'
Att**ude but I ain't from Compton
I can't be f**ked around or muffed around
I can't be held down, check the sound
And keep in tuned on point on target
The revolution won't be thwarted
A setback cause my man it's plain to see
Must end all white supremacy
So let the rhythm roll on when I kick this
Brothers gonna work it out with a quickness
And now you know just why a panther went crazy
The devil made me

Beware the beast man, for he is the
Devil's pawn. He kills for sport, or lust or greed
Yea, he will murder his brother to possess
His brother's land. Shun him, for he is the
Harbinger of death

The Hate That Hade Made

[Paris]
June 6th in the time of six o'clock
Hot summer night in the city of hard knocks
Two black brothers took a walk in the Southside
Could've been any brother lookin for a dope ride
Seein a white girl wasn't in the plan
But the plan had plans of it's own for a brother man
A bad case of the right place at the right time
Makes you just ask why?
I guess you suppose you know what a n***a do
To a female that was meant for you
Jealous cause your girlfriend screwin a black man
So you bust caps on an innocent bystand
But I guess we all look the same
A God damn shame you don't know my name
Musta just been two blacks so the payback
Fit the ID for someone like me
But you see I don't think like you do
I come much sicker with the retribut'
Rollin twenty-five deep, troop down in a parking lot
Ready movin steady when I bust your spot, huh
You dumb motherf**kers just don't know me
You don't control me, so leave me lonely
Step and be prone to a cap to the dome
I don't quit (gunshot) I'll start tearin up sh*t
This is a Scarface set and no snakes allowed
Keep the pace ready set brothers rollin out
Packin a Mac-10, strapped and capped in
Now who's to blame, for the hate that hate made?

Mellow Madness

[Produced by Paris]

[Verse 1]
As I flow, into the rhyme much smoother
I keep the pace and add ba** for you to
Be able to experience the strength of God
On your tape with a break that I make to part
The weak-kneed hippie MC's and wannabes
From the Dog, so they can't see me
I'm movin' swifter with the gift to lift ya
I don't step light, I don't talk sh*t
You suckers are all in, to try is suicide
I roll with the flow 'cause I'm qualified
To keep the peace and teach y'all to get along
Build my rep and step to the song
From jazz to hip-hop, the Dog'll never stop
Get busy to the melodies that I concoct
When the raps are spit the grits stack like bricks
And you're please to receive P's hip-hop fix

[Interlude]
On the jazz tip
Smoother and smoother
And you don't stop

[Verse 2]
It's a mellow madness in the summer time
Females outside, enjoyin' the sunshine
Kickin' it live with the knob on ten
Good food and mood is the peace my friend
Much brotherhood because it's understood
That everyone in the sun is about the good
Lifestyle, and while some came to shine
Don't matter cause the other brothers know the time
I'm the P, D-O-G and I'm swift
Son of Shabazz, shooter of the gift
To keep y'all steppin' to the beat in real time
Mad on the mix complementin' the rhyme
With oh so smooth cuts flowin' like mercury
Keeps you suckers knowin' that you'll never be servin' me

I don't sleep and I do not sing
I drop math in your path cause I have to bring
You on a jazz tip
[Interlude]
Yeah
So smooth in the summer time
DJ Mad Mike y'all
(scratching)
Smooth

[Verse 3]
Birth is given to the knowledge when I recite
Smooth words that keep y'all hype
Not down with the meaningless babble that some spit
I'm paid to degrade that ignorant sh*t
With the "so proud, so strong" message of the Nation
Can't be dropped or stopped, so don't come
With the intent to present a argument
I don't tolerate it, so don't act dumb
I'ma roll, over those who oppose
The speech when I teach y'all to reach your goal
Be strong and carry on and play the song
And listen to the lyrics and you'll never go wrong
As-salamu alaykum, brothers I'ma take 'em
Straight through the path that I'm makin'
And coexist in bliss peace and righteousness
So smooth on a jazzy tip like this

[Interlude]
Yeah
And you don't stop
Peace

I Call Him Mad

[Paris]
Rougher than a rusty razor, he'll amaze ya
Mixin dope tricks that stick like Frasier
Cue the wheels of spin then begins to blend
Scarface in the house again
Bambi DJ'sll pray when he plays
Won't hit or skip I might phase
Suckers still suck and duckin uppercuts
Strike three MC's are blazed
Born to beat back the blows of feedback
A sissy strivin still sounds so wack
Can't compare or come close to purity
Mad's the man, MC's agree
The bully bruisin misusin turnstyles
Keeps the mix on beat for me while
I spit and cold bust the keynote
Mad's on a roll with the sickest show now

(scratching)
Yeah, smooth
{*"Ya don't stop!" - "C'mon"*}

{*"Black is back" .. "keep on singin"
"Fight the power!" .. "keep on singin"
"Do the right thing" .. "keep on singin"
"Word to the mother!" .. "keep on singin"*}
{*"Rock.." - scratched repeatedly*}

{*"Girl I'll house you.." - repeat 4X
"You in my hut now"*}

{*Mad Mike scratches*}

{*"DJ".. "Mad!".. "Huh, what?".. "Tear sh*t up"
"DJ".. "Mad!".. "Say what?".. "Cuttin like a blade"
"DJ".. "Mad!".. "So.. so.. so sick"
"DJ".. "Mad!".. "Sicker than AIDS"*}

{*"Break it on down.." - repeat 3X*}

{*"Hit me!" - scratched repeatedly*}

[Paris]
By now you know Mad's made to mutilate
Crush and devestate, move and educate
Weak wack watered-down welfare DJ's..
.. tryin to get what he plays
Call me Paris, sex check the Rolex
We came to stomp and chomp bones of broke necks
So smooth with the movement rhythm tracks
I'm not worried that you'll be back, just..
Listen.. let him play..
{*Mad Mike scratches*}

Mad!.. sh*t.. yeah.. Mad..
Smooth..

Escape From Babylon

"I'm saying to you, that you will in a few minutes
Hear, from the man, who is taking the place
Of real black leadership, who will answer the call
For true freedom, justice, and equality in America
Well now, do you understand?"

[Verse 1]
Brethren heed the call of enlightenment
Of truth, Asiatic discipline's frightenin
Some who act dumb embraced by decadence
The weak in the wake of true black militants
Hear the call and all heed the savior
Praise Allah cause in his image he made ya
The cream, Asiatic earth-born man-child
Freedom's comfort for some but meanwhile
Young brothers just don't realize
Cocaine's the plan, the devil derived
Produced and let loose to youth for profit
Fake so-called negroes won't stop it
Witness lies fed straight to the brother man
Hopes are lost to the malevolent gameplan
Annihilation of original citizens
Of this great planet Earth, listen
P-Dog spits the dope words born
Batterram's rollin task force swarm
Pigeons squawk with the talk of a new high
Controlled by the man whose plan is genocide
Intense is a sense of ignorance
When the wack can't get with the pro-black
Program that's designed to enduce thought
Rhymes ya bought keep Panthers taught
Punks stay put, skinheads are flatfoot
Keys are played as I stay on route
Down the path of the righteous chosen
Word is born as the wack stay frozen
Locked in time, mindset is Babylon
P's the martyr while MC's babble on
Letter sixteen is me and some see
I freeze and snuff MC's like pipe dreams
Makin a mark with the start of the movement

Tracks in fact weak wack can't do this
Tooth decay cause the fake been snoozin'
Lead the lost and the cost is you've been
Freed from lies by the wise new messenger
P-A-R-I-S is a blessin' ya
Can't underestimate or recreate
The sounds of Scarface, let the man BREAK!
[Interlude]
"There is no in-between - you are either free or you're a slave
There's no such thing as second-cla** citizenship."
"The only politics in this country that's relevant to black people
Today is the politics of revolution. None other."

[Verse 2]
Which brings us to the next move
It's a simple case of show and tell or rather show and prove
Of made up gang moves and foolish fairy tales
Said by sissies, to snatch the record sales
So when you see me just say I told ya
My rhymes'll hold ya and mold ya to soldiers
And train your brains with the pride and the insight
To do what's right, yo black, it's yo' life!
Once upon a time called now we start this
A chosen one came forth from the darkness
To lead the lost for the cost of a beat tape
And make the blind see straight 'fore it's too late
I can't wait time's quickly runnin out
Call to arms, revolution's in the house
Unforgettable the words of wisdom
Brought to life by the ten point system
One: Freedom and power to determine our destiny
Two: Full employment for the black community
Three: Fight the capitalist with a raised fist
B-U-Y Black and stack awareness
Four: Decent housing for the shelter of human beings
Five: Education and truth for the black youth
Six: All black men exempt from military service
Hear my words and get nervous
Seven: A quick end to police brutality
Death of blacks at the hands of the P.D
Eight: Release of all black men who are held in prison;
Guilty 'fore proven innocent

Nine: Black juries when our brothers are tried in court
And in addition to all his we want
Ten: Land bread and housing and education
Clothing justice and peace for the black nation

› Wretched

[Paris]
Again I start this, but I'll add a new twist
So the ma**es can't resist
The message brought by a Panther strictly
To relieve the disease of the sickly
So long your mind's been trapped
Slave, cause you're shamed to be black
Ignorant of the purpose of the
Plan to keep the black man down under
So I'll address y'all this time
Make a statement that's on my mind
Brothers scared of revolution should be
Thinkin of the way that we could be
Miss blue eyes, how'd you do that?
Tried to put him in but the skin is still black
Thinkin of a way to escape the darkness
See the weave and indeed I start this - off!

"Black is black is black is black" - off!
"Black is black is black is black"

[Paris]
S-E-D-I-T-I-O-N
In the mood of the move I'm showin
See the way the cliches have been torn
Cold spittin facts to the miracle earth born
So what's your next move, black?
Go to school or maybe join a frat
Still you seem lost, the mind is brainwashed
It can't be good cause your mind's the cost
So flip on your Young MC
Or Jazzy Jeff or whatever the case be
Mindless music for the ma**es makes ya
Think less of the one that hates ya
Then trained to respect the game
And you turn your back on a black with the same claim
Oh blessed but you guess they mean less
Because another brother can't afford to dress
The way you do but who said you're all that?
Made a little money now your skin ain't black?

C'mon I don't think your sh*t don't stink
You can't run from the one whose primal instinct
Is to fought the words I taught ya
Thought you moved quick but I just caught ya
Now you try to say that you don't remember me
I'm P-Dog from the B.P. posse
Or a mob, that's known as Scarface
Pro-black, and some think pro-hate
But in fact it's a call for unity
Heed the plea of weak we're soon to be
Move, start this..
"Black is black is black is black"
Enter, the darkside..
"Black is black is black is black"
DJ..
Yeah.. funky..
Dance..

[Paris]
Now who did you think that you were steppin to
Once your job came through
Don't get big cause I caught your accent
Shoulda been real but you wanted ma** appeal
Next time you might think of this
Might remember why I'm above this
But for now my brother I'll say
Peace on the positive tip there's a new way

- Break the Grip of Shame (The Final Call)

[Verse 1]
Enter into a new realm, a new dimension
Pay close attention
And witness knowledge born on the microphone
For the people that I call my own
Remember back when good rap was just a cool dance hit
Even though it wasn't saying (sh*t)
Well them days is gone I don't play that
Pick the punk and I'll say like wack
Stick with the sick style for the serious
Hip-Hop lovers can't get enough of this
Black tracks on wax are so smooth
You can't get help but the thought to move
This is a call and a plea for unity
Black is back uplift and be free
Keep pushin, our movement moves on.. so strong, now

[Verse 2]
With a raised fist I resist
I don't burn, so don't you dare riff
Or step to me, I'm strong and black and proud
And for the (bullsh*t) I ain't down
Life in the city's already rough enough
Without some young sucka runnin up
You don't know me, so don't step
I roll to the right and then bust your lip
Paris is my name, I don't sleep
I drop science, and keep the peace
Here to bust this for better justice
Another dope Scarface release
This is a serious style for the gifted
Pro-black radical rap's uplifting
Still growing, the power's so strong
You can't stop it, now
[Interlude]
"We declare our right on this earth to be a man, to be a human being, to be respected as a human being, to be given the rights of a human being in this society, on this earth, in this day, which we intend to bring into existence by any means necessary."

[Verse 3]

Alright, let's start some mo' (sh*t)
Straight up on the movement tip
With forces strong as Allah's my third eye
Black is back and P-Dog'll never die
Who said that you can't do this
Can't be wise or be for the movement
Games I won't have so don't you play none
You'll see why when I'm gone
Skinheads end up dead cause I don't play
Brothers swarm under the form of Scarface
Round up, roll out, we'll roll em up like Rolo's
I stomp sixteen solo
Straight for the jugular, hope that I don't
Swarm and bust a cap by night so
You just keep your place cause I won't stop
I'll keep pushin that movement rock when I

- The Hate That Hate Made (Power of God mix)

[Produced by Paris]

[Verse 1]
June Sixth in the time of six o’clock
Hot summer night in the city of hard knocks

[Verse 2]
Warned once before, avoid the hardcore
Vigilante punk-police encore anthem
Just made by the panther noir
Step aside 'cause my rhythm’s the guide and I go far
Introduced, let loose to the public
Stepped to this but ya missed and I bust quick
With rounds of rapid fire, sharper than barbed wire
Shouldn’ta done this, so now I’m run sh*t, huh

P-Dog, original Earth-born
Cream and I mean I’m mean 'cause I’ve been torn
Apart since youth, no truth in Babylon
'Scuse me, USA, but I ain’t wrong
So you say blue eyes and slim hips are hip
'Cause blondes have more fun n’ sh*t
But I guess I just must be the black sheep
Or better yet white sheep, beauty’s skin deep
So make way for the good gut with the black hat
My first two words was "F**k That"
Ain’t light enough so you think I don’t know
But this ain’t no, gorilla sideshow
But then maybe it is when it’s spelled with a U-E
Instead of an O 'cause I Boozee
Down at point-blank range when ya think that
The black was with that inferior format
So I spit, fold the grits and stay paid
And I won’t stray from the path Allah laid
F**kin’ up because I ain’t no slave
I just say, it’s the Hate That Hate Made

"What about gon' get be on now?"
"Hold up"
"Turn the mothaf**ker off"
"Yeah, we got this"
"We got it anyway"

[President George H.W. Bush]
"This is crack cocaine, seized a few days ago by drug enforcement agents at a park just across the street from the White House. It could have easily been heroin or PCP. This is innocent-looking as candy."

[Skit 2]
"It's him, it's him, go!"
"Over there, over there! Here ya go"
"Go, go, go go, go!"

Make Way for a Panther

[Produced by Paris]

[Intro]
"Boom, boom, boom, now sh*t is equalized"
"Less-less-less you don't give a f**k to be free"
"Paris is my name, Paris is my name"
"First motherf**ker steps up, gets shot"
"Who's to blame? Who's to blame?"
"Little fat policeman..."
"I roll to the right and..."
(gunshots)

[Verse 1]
From the depths of hell, it was felt from all the fire and pain
As they rained on the brains of black men
Culture banned as they planned it but never thought
That they would get caught, let alone by a black man
Take and rape, shape your brain and claim
That what's ours is theirs, so you fear the white race
And hate and never think about the fact we built it all
Got you thinking all the black can do is crawl
So you lose when you chose to be duped
No truth from Bush and Duke play the flute
I shoot, cause I ain't never gave a f**k about a skunk
But some brothers want to go out like a punk
Now they fake, fade creams and contacts
Used to be black, start scheming and kinda acting
And ax the false facts that back the genocide
It ain't no wonder the strong black man's died
[Hook]
Make way for a panther, right?
Make way for a panther, right?
Make way for a panther, right?
Make way for a panther, yeah
Make way for a panther, right?
Make way for a panther, right?
Make way for a panther, right?
Make way for a panther

[Interlude]

Yeah, uh
Damn, catch a nosebleed

[Outro]
"The revolution can't survive if the revolutionary is killed. So the revolutionary has to be wise to avoid the killing fields. Not for the sake that he wants to live, but that the revolution may live and thrive, so revolutionaries have to be wise. Not only courageous, but wise."

- Sleeping With the Enemy

[Verse 1]
Come, I'm P-Dog, with the sh*t
That stick, now I'm fin' to get scandalous
Huh, and tell y'all about a brain disease
A act up it's a shame disease
N***a please, you still don't act right up
Wait a minute, let me get my facts right
When I say that we all don't act the same
Just a handful wanna salt the game
So I gotta roll deep
Check your grip and don't smile, hard as concrete
Damn shame but it's like that
Cause some got hardheads like bricks that don't crack
Raised up on TV
Fast food and fast times, do or die G
Without nothin' to lose but a war
And here life don't mean sh*t to die for

[Hook + scratching]
"Every brother ain't a brother"
C'mon, yeah
"Every brother ain't a brother"
B'le dat!
"Every brother ain't a brother"
Sellin your soul, don't sell your soul man, yo
"Every brother ain't a brother"
"You got my back and I got yours"
[Verse 2]
The reporter looked just like me or you
But that don't mean the man was cool
He understood when I said that it was death to integrate
Cause integrate means a**imilate (word!)
But the media, hate the youth
Love to spread lies and distort the truth
They say the pen is stronger than the sword
But the sword'll give any house n***a his just reward
So let the beat just roll on, huh
While the weak get told on
I'm P-Dog, tellin you the actual fact
Is just cause the skin is black don't mean sh*t!

It ain't about us comin up
To them, it's about us gunnin up
It's a shame but no strain on the brain to see
It's plain, some, are sleeping with the enemy

[Interlude]
C'mon! Yeah, yeah!

[Verse 3]
Boom, another knocked out, what's it all about
Gotta give a shout to the few that's never sellin out
P-Dog, I never slip or slide, I never float along
As long as in control I know I'm born to be a martyr
Huh, and I'ma keep on rappin with
The facts, that I keep on smashin sh*t
No props cause it doesn't really matter bout the color of the cop
And now I hate police so I won't stop
See the punk b*t*h get mad, huh
I ain't the one for a toe tag
You best believe when you see me on the street
I be a motherf**ker ready for the static with a Glock automatic
So let me tell you why I hate pigs
The black gestapo, ultimate house n***a
Simply because a brother wantin to be with a plan
That wanna kill off and cage the black man
Ain't never runnin from the U.S.A
Punk, land of the weak, freak, home of the slave
And I ain't goin to Clarence cause the appearance is clear to me
Some punks, are sleepin with the enemy

House Niggas Bleed Too

[Intro]
What's wrong with havin it good for a change?
Now they're gonna let us have it good if we just help 'em
They're gonna leave us alone, let us make some money
You can have a little taste of that good life too
Now I know you want it - hell everybody does
You'd do it to your own kind
What's the threat? We all sell out every day
Might as well be on the winning team!
{*footsteps, three gunshots*}

[Paris]
Aww yeah
One for the crabs, cutthroats that blast and backstab
Quick to sell you short for a motherf**kin dollar
This one's for y'all

[Verse 1]
Here come a funky ditty from the one that make ya move
Doin the work in soldier field 'til ain't none left to do
Kickin the knowledge for the people just like me and you
And I'ma keep on runnin until the sh*t is through
This one is for the sissy n***as livin in the house
Y'all know the kind of ones that jump when ma**a call 'em out
They kinda tricky can't be trusted cause they run they mouth
And when some sh*t start up it's always them that ain't around
This is a warnin for the few I knew like Ed and Vern
You might get cheated when you meet 'em but I hope y'all learn
That every motherf**ker don't know how to wait his turn
And every brother ain't a brother and you might get burned
A little knowledge from a scholar so you know the part
My name is Paris and I kicks it to ya from the heart
Thought I forgot ya but I caught ya punk I thought ya knew
House n***as bleed too, sh*t ain't through
[Outro]
Whattup Paul Mack? Haha

Bush Killa

[Intro]
30 seconds of Bush news snippets
"I understand that time is running out"
"Ooooh look, it's the president! Hey Mr. President!"
"Okay, there he go. Easy, easy, don't lose sight, wait
Two, three and...NOW!"
(gunshots, screaming)

[Verse 1]
Here I go, an angry brother finna make his move
But can I buck him in the city so I never lose?
See I'm a get him the crowd with a couple heavies
And lay the barrel to the ground, hold the gat steady
And now I'm ready for my adversary, talk is cheap
I'm looking for a way to make a plan and keep it neat
And check it out and make around and pick a rooftop
And get a spot where the view's hot, set up shop
Cause all I wanna see is motherf**king brains hanging
Another level when it's me and Devils gangbanging
So don't be telling me to get the nonviolent spirit
Cause when I'm violent is the only time the devils hear it
Rat-tat-tat goes the gat to his devil's face
I hope he think about how he done us when he lay to waste
And get the feeling of the peeling from the other side
From guns given to my people from my own kind
So get with Ollie cause I'm probably finna make you mad
I'm steady waiting for the day I get to see his a**
And give him two from the barrel of a black guerrilla
And that's real from the motherf**king Bush Killa
[Interlude]
(laughter)
"I understand that time is running out"

[Verse 2]
Now who is able to make war with the beast?
It starts with "P"
Trumpets sound when I push the program
And set my sight on a serpent man
Swinging the sword of the righteous
Make devils drop and they just can't spite this

Genocide and the minds of men make
Brothers like me fill up with hate
I smell a skunk in the air
Cause your program still ain't fair
So who you wanna blame for the Hate That Hate Made?
When P let off and pigs get sprayed
Y'all wanna kill off the black man?
But I know your master plan
So we'll see who stops the black guerrilla
P Dog the Bush Killa

It's P Dog the Bush Killa

[Verse 3]
Tolerance is getting thinner
Cause Iraq never called me n***a
So what I wanna go off and fight a war for?
You best believe I got your draft card
So bad to hate somebody else
But much worse to hate yourself
Wise up to the mentacide of the devil
Why must black folk be made to die?
Keeping 'em on and on
Keeping ya on and on
Now my brother down south said "F**k the Police"
I'm saying "No Justice, No Peace"
So why'd you stick 'em like that?
Cause everybody want to get the black
But we'll see who stop the black guerrilla
P Dog the Bush Killa
[Interlude]
"He's been shot!"
"The president is dead"
Yeah, it's P Dog the Bush Killa
"Nobody move, just stay where you are"

[Verse 4]
So where's he at?
I just might wait for his motherf**king a** on a rooftop next tour
Buck his dome cause I'm known to play for keeps
Lay low to the flow and keep it neat
And send his a** home belly up

Should've listened to the facts that the black's been telling ya
It's no surprise that a brother's got wise
Now rat-tat-tat-tat, it's an eye for an eye
Now I'm in it, got to die before we see
That motherf**kers don't give a damn for you or me
So wear a vest on your chest and the rest stand still
For P Dog the Bush Killa

- Coffee, Donuts, and Death

12:15, lay real low at night
Creep in a jeep hit the corner tight
Finna go clip they wings
But gotta keep it neat and clean
One-time [blam] make it so they momma cry
Y'all shoulda eased up when I told you last time
But now I gotta do it the hard way
P-A-Y-back day
Then we see 'em, the black and white on sixth street
Cut a left in the lot of Mickey D's
And pulled up to the window
Ssshhh! Big Yon creeped on him real slow
He could see when he looked at me
That a brother wasn't thinkin' 'bout sh*t but the payback
Rollin' with a panther, trained well
No need for the hollerin' - f**k jail
Only two gats in the ride
But the black still had, the element of surprise
Now I'm aimin' straight for the dome
'Cause I'm thinkin' about my homey's moms alone
Cryin' cause her baby's dead man
This pig finna kiss the lead man
As an example so all the blue coats know
You get poached when you f**k with black folk
Said it 'til my voice was hoarse
I ain't down with excessive force
But of course I wasn't heard so I'm silent now
Black folk can't be non-violent now
I'd rather just lay you down, spray you down
'Til justice come around
Cause without it there'll be no peace
The only motherf**kin' pig that I eat is police
Do it like Che said, so it work
Stampede, retreat in guerrilla spurts
And see that ya caps are peeled like potatoes
'Cause this is a war and pigs hate us
If ya don't think so ask Nina G
Cause she was raped two times by OPD
By a motherf**king pig named Riley
So when I pinch I don't flinch or smile, see

I just laid low for the night to come
Rounded up the click, to straight drop the bomb
And got with K-Cloud for the throwaways
Went far, rented a car, and took off the plates
And came back through to the place where
Everybody knew that they was gonna show they face at
Stepped up, crept up, as I held my breath
And then I squeezed, coffee, donuts, and...
[Blam blam blam, blam, blam]
[Officer down, we need backup, there's an office down here
Oh sh*t!]
...death

Thinka ’Bout It

[Produced by Paris]

Yeah! Another funky song for your mind in the nine-two
And the nine-three, P-Dog in the motherf**kin' house!
Bout to get it started
Bout to get it started, live and direct from the underground
Still sayin' what I wanna say, and I ain't gon' never change

[Verse 1]
Oh what a shame, the way that we're dyin' up
Killin' ourselves with no help from the other one
Only thought, was how the hell to get your money on
Livin' in fear cause you're livin' in a war zone
So much funk, jump off from a wrong look
Make a wrong move one time and your life's took
Just the way it is when you're livin' in the city
The way we dyin' off is a motherf**kin' pity
Extra, extra, read all about it
Another one dead, he seen a bullet and he caught it
How many gotta fall off victim to the game
Or being a ho, to the cocaine thang
Makin' a rush up, to keep 'em comin' back again
You oughta know by now it ain't no love for African
People stay enslaved to the ways of America I'm scarin' ya
But I ain't goin' out like that, so think about it now
[Hook]
"Yeah, yeah, yeah, yeah"
"Young brothers just don't realize"
Yeah, think about it
"Yeah, yeah, yeah, yeah"
"Young brothers just don't realize"
Think about it
"Yeah, yeah, yeah, yeah"
"Young brothers just don't realize"
Uhh, think about it
"Yeah, yeah, yeah, yeah"
"Young brothers just don't realize"

[Verse 2]
People keep comin' up, askin' the news

They wanna know, why I do what I do
It's really kinda simple, so don't be amazed
It ain't no secret it's the way I was raised
Got much props from my pops cause he never stops
Bein' a father to his child, he cared a lot
Raised me up, and told me like this:
You better stand up for yours or be dissed
Be a man, and do for yourself
Better love your own befo' anyone else
It ain't nothin' in the big city but a small thang
To see a brother straight fall victim to the game
Somethin' that I roll with straight from the start
In a city where a fool and his money soon part
Where brothers might die over anything at all
I can't call it but I know you better watch your step
And think about it now
[Interlude]
"Yeah, yeah, yeah, yeah"
"Ay n***a what you need?"
"Yeah, yeah, yeah, yeah"
"I got five ten, what?"
"Yeah five ten fifteen twenty. I heard they got fifty."
"Yeah, yeah, yeah, yeah"
"Ay n***a what? Ay n***a where you from?"
"Get that motherf**ker! Get that ol' n***a!"
"Yeah, yeah, yeah, yeah"
(*gun shots*, *police siren*)
"Move man! Move!"
"Freeze motherf**ker freeze! Get your god damn hands in the air!"
"Oh sh*t! Oh sh*t! Oh sh*t. Oh sh*t. Oh Sh*t."
"The jury, having found you guilty, twenty-five years."
(*jail cell door slams shut*)

[Verse 3]
And now there's one last thing, I think we need to talk about
It might save your life and you die if you do without
Pokin in the puddin mean you better wrap tight
Tragic to Magic my soap in your eye
And now you better straighten up, and straighten up fast
Relyin on the guts and the luck of the last
Cause the fool was in with the skins shoulda never been
In with the skins no cap for the lap get waxed

Now, who growin up next?
Ready for the sex better check with the latex
So many trapped and set for the funk
Who take they life for a joke so I say wait a minute
Genocide from the suicide of dippin inside
Everybody die when the legs spread ride
Gave to the sons of the slave and it's man-made
AIDS and you're off to your grave, think about it now
[Hook]
"Yeah, yeah, yeah, yeah"
"Young brothers just don't realize"
Uhh, think about it
"Yeah, yeah, yeah, yeah"
"Young brothers just don't realize"
Yeah, think about it
"Yeah, yeah, yeah, yeah"
"Young brothers just don't realize"
One time for your mind, think about it
"Yeah, yeah, yeah, yeah"
"Young brothers just don't realize"
Uh, yeah
"Yeah, yeah, yeah, yeah"
"Young brothers just don't realize"
P-Dog
"Yeah, yeah, yeah, yeah"
"Young brothers just don't realize"
For the nine-two, and the nine-three
"Yeah, yeah, yeah, yeah"
"Young brothers just don't realize"
Think about it
"Yeah, yeah, yeah, yeah"
"Young brothers just don't realize"

- Guerrillas in the Mist

[Intro]
"Damn. Forgot to do somethin', let me see...uh
Oh, yeah—it ain't over, mother..."
"KFLB news time 4:36. (part two, part two)
In the top story of the hour, the largest single law enforcement
(part two, part two) operation in California history is
Currently underway. (part two, part two)
The police in five Southern counties are engaged in a ma**ive battle...(part two, part two)"

[Verse 1]
P-Dog, back to break 'em off somethin'
And never frontin' when the rhyme keep comin'
Not lotto but I'm in it to win it and never lose
Never singin' but swingin' and bringin' nothin' but bad news
And I'm madder than a motherf**ker
Won't slip and the record won't skip, better get hip
Finna pop, but I ain't Pop
How many cops gotta drop when the gat wreck shop
P-Dog comin' up on another level
No hope for the black folk, f**k a devil
It ain't nothin' but a skanless-a** trap
To keep motherf**kers broke and smokin' crack
So I'm grippin' on the clip and finsta move
Another n***a on the trigger with nothin' to lose
You better duck when the gat buck b*t*h
'Cause the funk is on and Young Mark gimme some of that
[Hook + Scratching]
(scratching) Yeah, pa** the match!
(scratching) Pa** the match!
(scratching) Yeah

[Verse 2]
Ain't nothin' changed, still anti-pig
Still anti-drug dealer and anti-house n***a
From bein' broke in slavery
And if the skin is brown they only want you to stay down
I see the community need work
Black power mean mo' than a t-shirt
All I'm tryin to do is be sure
That the young black youth stay true to the format

And see the plan to kill the man
And understand, it ain't sh*t for life to end
Look at the Oaktown murder rate
We need mo' than a panel to set it straight
The next time somebody asks why
A motherf**ker sit still while the black keep dyin'?
I'ma do Elihu and make you see you can't
Bullsh*t around with the people's fate
And that's why we hate ourselves
Sleepin' with the enemy, you're bound to catch hell
They ain't never been down with our side
So f**k Schlitz, Olde E and St. Ide's
You better hear the word when I warn ya
Now it seem like the whole world's Arizona
One for Rodney and Latasha and Tawana, boy, ya better check ya list
For guerrillas in the mist
[Interlude]
Alright y'all, get ready for roll call
We got the gats, we got the masks, we got the gloves
The van's packed, and motherf**kers is ready to roll!
Uh-uh, wait a minute motherf**ker
You better go on with that old trick sh*t
'Cause in the 90's, n***as ain't havin it
So you best just learn to deal and get the F**K out!

[Verse 3]
White supremacy ain't never been a friend of me
You better check it when I wreck it 'cause it's gettin' deep
And get ready for the funk when the pot boil
With a dry rag, kerosene, and motor oil
Now the Aryan is scary and I'm runnin' up
Fat Tom better duck when he try his luck
'Cause I'ma see that he suck on a tech-9
Or fifteen to his dome'll be fine
Or maybe I'll just tar and feather ya
And castrate ya 'cause I hate a devil too
Rape your women up and then I'll rape your mind
Think about it it's an eye for an eye
And now it's fittin' that I'm spittin' on America
A black man with a plan and I'm scarin' ya
It ain't a threat but a promise out to each
In L.A., Forsythe, and Howard Beach

Duck down when the clip from the tech pop
You can't f**k with the sound when the needle drop
So don't speak when I plans to wreck the house
You can't win when the truth is spoken out
A real case of a brother you love to hate
Can't be roughed up or hushed or set straight
You better know me on the Mike McGee tip
And grab another clip, for guerrillas in the mist

The Days of Old

[Verse 1]
Reminiscin' back when I was only a child
Back in the days of livin' carefree lifestyles
As long as we wasn't caught, bein' bad was cool
And we were never at a loss for something to get into
Children in the neighbourhood, down at the park
Sunny days when we played at the old schoolyard
Where kickin' it live was a familiar scene
Kenny M. and Big Gene know what I mean
But nowadays, it seems life just ain't the same
Everybody's involved in the game or a gang
And when we die, it seem like nobody cares
It ain't no love in they cold-hearted stares
Thinkin' of payback or makin' a hit
Now Cowboys and Indians become real-life sh*t
And life means nothin' when the heart is cold
It ain't the same as the days of old

[Interlude]
Yeah
It ain't the same as the days of old

[Verse 2]
It's a unity thing, much love for my people here
But what good is love if the people don't really care?
The triggers are cold at the O.K. Corral
But it ain't okay when my people live foul
Another sad case of the black-on-black
It's a fact, some of our people don't know how to act
Can't go to the club, can't to the store
Can't chill with your girl, can't go to the show
Can't do anything without some fool actin' up
You start to believe that black folk are savage but
Before you do, allow me to say
That in the old days we didn't act that way, see
Kings and Queens were the names of the righteous
But the sons of slaves are insane and we might just
Self-destruct and erupt without a chance to grow
This ain't the days of old
[Interlude]

Damn
This ain't the days of old
I don't know
C'mon

[Sound bite of George H.W. Bush]
There is no match for a united America, a determined America, an angry America...
Our outrage against the ploy unites us, brings us together behind this one plan of action, an a**ault on every front
(Better wake up)

[Verse 3]
So I say, what will it take before we change up?
Some more of us dead, or more of us locked up?
Or maybe even more of us will blame the white man
Before we understand now the problem's not him
What I'm tellin' ya is actual fact
I'm ain't pro-human 'cause all humans ain't pro-Black
Remember in your mind that there still exists
A plan to bring down a black fist
See the struggle is uphill, life's at a standstill
Jack popped Jill, now he don't act real
And every livin' moment got her singin' the blues
Her sole provider can't afford the baby's shoes
That's the cycle so many of us go through
America's black holocaust continues
And I just hope we wake up soon before we fold
I miss the days of old
[Interlude]
Damn
I miss the days of old
Listen
It ain't the same as the days of old

Conspiracy of Silence

[Produced by Paris]

[Verse 1: L.P.]
Convicts, as I bring you this one
Check out the force of what the power of the clenched fist done
They call us n***ers, then n***as
B*t*hes then b*t*hes, we take it but doesn't fit us
If we could just collaborate, eliminate the force matters
Bring the truth to what the devils stars scatter
'Cause brains don't functions for justice
Amongst the brothers, so I carry the circ*mference
I see a shady n***a, but I know he can't he hide
Knife in his sweaty palms, tryna stab my backside
Kicks the positracks with backs from Mother Terrace
With Funkdoobiest Sun and brother Paris
State of emergency calls to get rid of this
The n***as who be flipping at just how severe it is
But if I get some cup, I'll put them in a slump with chumps
'Cause they splatter on a tree stump

[Hook]
Rat-a-tat-tat from my gat
Swing, swing, swing with my baseball bat
N***as be trippin', but they know I'm not high
I'm living in the city where its do or die
[Verse 2: Paris]
Yes its the G, the-U-E-double R-I-double L-A
Back in the clip tight for L.A
Or any other black neighborhood because its fittin'
P-Dog with a new plan for us to hit 'em
Or where the n***as that be talking that gangsta sh*t
They runnin' b*t*h when its time to make the hit
So scared of whitey motherf**ker, should be ashamed
See house n***as never change, they still the same
But thats cool, because it don't take but a few
To troop on a swoop on the make a move on the boys in blue
I'm ain't the one who gotta walk on a beat ya b*t*h
But I'm the one whose trigger finger is starting to itch
So I might start waiting for the nightfall
When time is right, I'll commence to sniping y'all

And be sure piggies drop like drawers on the floor tonight
Because the motherf**king war is on

[Hook]
Rat-a-tat-tat from my gat
Swing, swing, swing with my baseball bat
N***as be trippin', but they know I'm not high
I'm living in the city where its do or die
So come on, and get up, get up, get up get up
Get up, get up, get up, get up, get up, get up
Get up, get up, get up, get up, get up, get up
Get up, get up, get up, get up, get, get down
[Interlude]
"We as Black people must examine America, as a resources of America. Will those in power use those resources that America has to correct the ill-mannered behavior that she's casted upon Black people for the past four-hundred and thirty seven years? You must understand that your conspiracy of silence can be no more!"

[Verse 3: Son Doobie]
Cops be warrin' with the search warrant
To arrest a Doobie, better switch to the foreign
AK mayday because we need more backup
Is what I had them screaming, now it's time I shack up
It ain't simple but I'm bucking through the boarded up windows
But that's how the wind blows
They can never catch me, hear the dispatch G
Suspect afoot coming through like the apache
Here we go, one more time for ya a**
Kid, it doesn't really matter because you know I'm philly blastin'
Murderin', hurtin', yo it's curtains for your a**
And I'm certain you'll get played like Richard Burton
Barrels to the kneecaps, you best believe that
Boom shocker, tell me where the weeds at
So I can drop these punk a** cops
And rip shop and take the rubles because you know I got scruples

[Hook]
Rat-a-tat-tat from my gat
Swing, swing, swing with my baseball bat
N***as be trippin', but they know I'm not high
I'm living in the city where its do or die
So come on, and get up, get up, get up get up

Get up, get up, get up, get up, get up, get up
Get up, get up, get up, get up, get up, get up
Get up, get up, get up, get up, get, get down

Funky Lil' Party

Fin' ta roll to the party, still in demand
Troopin thicker than a ball team, packin the van
I was movin as a unit every brother stayin strapped
But still we got enough sense to never bust 'em too fast
And now I'm runnin a roll call, startin with D
Big Doc and Yon, K-Cloud and E
Young (?) Rich-O's, and my man A.B
I can't forget Big Gene, still keepin the peace
Rollin stone still rollin on our way to the club
Every spot that we step into showin nuttin but love
Never payin to play and never waitin in line
But never lookin to start sh*t, but just a good time
And as we step into the place, you know the party is FAT
Females wall to wall, got us all back to back
Rollin thicker than b***er, y'know the crew never lose
And some fools is jealous, cause the women is choosin'
I see hard stares and the glares from the young bucks
The stank of the dank could make a elephant knees buck
I'm makin my way to the bar for some juice
When the move was interrupted by two twins
And they friends sportin body suits
They said whattup, I said whattup, and they broke it down
They said they want to do the oochie coochie and spread it 'round
I stepped back, and had to think a minute cause damn G
If you'da seen what I was seein you woulda felt weak
But I thought fast, yo black I had to pa**
I hate it when I see my sister movin too fast
I know you need some knowledge of self for your young a**
Cause hoein only get your kids AIDS or crabs
But then, the funk start jumpin on the other side
Some brothers in the corner start to havin a fist fight
Gats pop, blacks drop, the party became a riot
And all because some n***as didn't know how to act right
The fact is that it wasn't rap to blame
It's a shame that just a few can mess it up for the whole scene
But I said it once, and I'mma say it again
We better learn to love each other 'fore we all drop dead
It's like that y'all, it's like that y'all
I'm tryin to wake the black with mack raps y'all
It's alright y'all, so don't fight y'all

I'm tryin to keep us from killin up every night y'all

And just live..

"check the music playin" -] sample repeats to fade

- Check it Out Ch’all

[Intro]
That sh*t hittin
Ah yes yes y'all
(Naw naw man, naw man that ain't it, that ain't it. Do that other sh*t, that other sh*t)

[Verse 1]
Check it out ch'all, here we go again another one
From the man known to run a record wreck and take a stand
P-Dog, kickin over breaks that make ya wanna move
It's like that when the black cat get in tune
And now you bustin’ smiles when styles are ripped
So many of 'em ya discover most speakers are split
It's kinda like a little lesson in stressin’ the facts
And still be kickin’ so know where you at, black
Listen up to the groove of the cut
Feel the funk when the ba** hump, tryin to get e n***y Ônuff
And feel it hittin'' when the speakers jigglin’ like Jello
With just enough of that good funky sh*t to keep it mellow
Never fadin' or stayin' on course
The only sellin’ out I'm doin' is sellin’ out tours
Somethin for your ear, comin’ loud and clear
It's the voice you fear, if your sh*t ain't real
Keep it comin’ one time for your mind on the mic
It's the panther, kickin over breaks you dance to
And doin'' devils dirty lickin’ lyrics to break beats
While buildin’ so the children always know where they at, G
[Hook]
Check it out ch'all, check it out ch'all
Check it out ch'all, check it out ch'all
Check it out ch'all, check it out ch'all
Check it out ch'all, check it out

[Verse 2]
Check it out ch'all, here I come again with verse two
With the knowledge of myself I got another one from me to you
With perk tracks movin’ smoother than machinery
It's plain to see I'm finna be another brother catchin’ heat
I take a stand cause Amerikkka ain't sh*t to me
And bring ya knowledge of the way it is supposed to be
And knock you devils out the box like a mule kick

Comin’ up with the sh*t the tricky skunks can't f**k with
Rap is rhythm and poetry I thought you knew it
But who would have ever thought that we would use it the way we be usin’ it?
Spittin’ facts to my peers and your fear is showin’
Cause now the black is knowin' things you thought we shouldn't know and
Gettin ready for a power move
Yes yes y'all, ready for the motherf**kin’ show and prove
So pack a lunch when the bunch roll, cause we're goin’
For the gold but I never sold my soul for it

[Hook]
Check it out ch'all, check it out ch'all
Check it out ch'all, check it out ch'all
Check it out ch'all, check it out ch'all
Check it out ch'all, check it out
[Verse 3]
Now - whose freedom of speech if I can't reach each
There's no support when you're black and you're goin’ for yours
Yeah, that's alright
As long as n***as killin n***as makin money is nothin’ for whites
That's the way they wanna play and now I know they fear it
Where the hell was little Ollie all them other years?
Blacks was dyin’ in the movies and in other records
I see the racist motherf**ka never said nothin’
But that's the way it is when I run it
I make the funky tracks to keep my people up on it
Well known and prone to break a bone let's get it on
I'm showin' you the facts on wax 'til your mind is grown
Huh, and still sayin’ what I wanna say
I won't slip still sayin’ what I wanna say
I won't slip still sayin’ what I wanna say
I'm P-Dog and I'm always gonna make it plain

[Hook]
Huh, so check it out ch'all, check it out
Check it out ch'all, check check check it out
Check it out ch'all, check check check it out
Check it out ch'all, check check check it out
Motherf**kin’ right

Rise

[Skit]
Say, Black man!
Who are you? You are Asiatic
That makes you first!
Yeah, that's right
Are you ready for this war?
Why you tryin' so hard to fit in this world?
This world is not designed for your upliftment, but for your fall, brother!
Black man, respect your Black woman!
She's Asiatic, that makes her first!
She nurtures you, she suckles you rich in strength
A nation's only as strong as it's woman!
The time is now, or lay down and die, Black people!

Assata’s Song

Yeah, yeah..
One time, one time..
Goin out, goin out..
To all the sisters.. this one's for y'all..

[Verse 1]
Thinkin' of you, and how the perception came to pa**
Of a queen bein' just a piece of a**
So I ask you how that sound
That's for the sisters I missed the last time 'round
Because I can't forget what you been through
I can't forget the hardships and what you do
So I'm payin' you the ultimate respect
Because I love you and that's what you should get
And it's a shame that it comes as a surprise
From the man in the land of do or die
That the word could ever reach and educate
It ain't nothin' but a style to set it straight
And I'm raised right so ladies still first
But smooth with the groove for the fools that doubt ya worth
Still thinkin' of a master plan
To protect and respect cause the fact is I love the black woman

[Interlude]

[Verse 2]
And anyway, I remember there was a time
When I would see you and try and go for mines
Push up in the guts for a month or two
Leave a stamp, break camp, y'all know the rules
And if somethin' went wrong it was yo' fault
The time was cut short and so were the phone calls
And someone would ask if I know you
Come up in my face and I would be like, "What, who?"
But then I seen that the game was ignorant
The time had come for me to break away from that
Don't you know there ain't no future in hurtin our own
It's bad enough that the trust and love are gone
So I strive for, one to provide for
And hold and take and elevate and guide for

So many people wanna destroy
But I can't, and I won't stop ever bein' true to black woman
[Interlude]

[Verse 3]
Now brothers, one last note to help us
Keep check of some are livin' life reckless
Runnin' with women who don't have respect for self
And too foul to wanna get help, huh
And sista' you don't need a man
Who cheats and mistreats and beats you bad
It's better to have nothin' than somethin' at all
And end up like a case bein' worse than a close call
So listen to the message in the song
It ain't nothin' but a way to make us strong
Quit being so quick to chase the juice
And diss us tryin to taste another's fruit
In the land of Ameri-K-K-Ka
I gotta hold my own and stay down wit'cha
Cause everybody wants to wreck
But I'mma love ya and show respect
I need ya black woman

[Interlude]

- Bush Killa (Hellraiser Mix)

"I understand that time is running out.."

[Paris]
Now who is able to make war with the beast?
It starts with P
Trumpets sound when I push the program
And set my sight on a serpent man
Swinging the sword of the righteous
Make devils drop and they just can't spite this
Genocide and the minds of men make
Brothers like me fill up with hate
I smell a skunk in the air
Cause your program still ain't fair
So who you wanna blame for "The Hate That Hate Made?"
When P let off and pigs get sprayed
Y'all wanna kill off the black man
But I know your master plan
So we'll see who stop the black guerrilla..
P-Dog the Bush Killa

{*scratching*}
Yeah, it's P-Dog the Bush Killa

[Paris]
Yeah, tolerance is gettin thinner
Cause Iraq never called me "n***a"
So what I wanna go off and fight a war for?
You best believe I got your draft card!
So bad to hate somebody else
But much worse to hate yourself
Victim to the mentacide of the devil why
Must black folk be made to die?
Keepin 'em on and on.. keepin ya on and on
Now my brother down South said, "F**k the Police"
I'm sayin, "No Justice, No Peace"
So I just stick 'em like that
Cause everybody want to get the black, huh
But we'll see who'll stop the black guerilla..
P-Dog the Bush Killa
"He's been shot!" "The president is dead"

Yeah, it's P-Dog the Bush Killa
{*scratching*}
"Oh my God!" "That man shot the president"

"Nobody moves, just stay where you are"
"Just hold it right there.."

[Paris]
Yeah, so where's he at? I might wait
For his motherf**kin a** on a rooftop next tour
Buck his dome cause I'm known to play for keeps
Lay low to the flow and keep it neat
And send his a** home belly up
Should've listened to the facts that the black's been tellin ya
It's no suprise that a brother got wise
Now rat-a-tat-tat, it's an eye for an eye
I'm in it, got to die before we see
The motherf**kers don't give a damn for you or me
So wear a vest on your chest and the rest stand still
For P-Dog the Bush Killa, yeah!

{*breakdown*}

[Paris]
Now you know, that I ain't never been a slave to the bottle
All I see on the tube is the punk black role model
The pa**ive girllike she-men
That make and dictate the lives of black men
And sometimes I wanna give up hope
Cause all they wanna do is grow up and work for white folks
Or be a pimp, drug dealer or sports star
It ain't no wonder the blacks don't go far
Now the trick is stay quick to bust sh*t
Got to be equipped so the devil can't flip
And be aware of the government plan to keep
Young black folk walkin in our sleep
F**k the games I still feel the pain
I still feel the shame cause ain't nuttin changed
I CAIN'T fade peace when the war is all around
You better run cause the lost are bein found
Choose your team, square up and take sides
But don't be punked or a skunk when the gat fire

Cause I'm the first one to let the caps go
No more vetoes of negroes
Who run scared full of fear when the devil squawk
Funk is on to the dome the Glock'll talk
And be sure that a devil is peeled
Make way for the motherf**kin Bush Killa, now!
{*laughter*}
"Things change, a majority of the people will decide where and when"
"All males to the bail tomorrow mourning for the late great black man"
"We are all going to respect the law, or pay the consequences"

{*scratching: "Hey!"*}
{"Get your punk devil a** hurt motherf.." -] Ice Cube}

{*dogs barking*}
"Let me draw a bead on his black a** and he's dead!"
{*dogs barking*}
"He's gonna make it." "Let the dogs go." "No I won't do it!"

{*guitar solo for the next couple of minutes*}
{*music eventually fades*}

Prelude

Yeah, 1990 mothaf**kin' four
P-Dog, back in this motherf**ker
The Black Panther of Hip-hop comin' at ya with the trunk-a-funk
What up, K-Cloud? Yeah
Shots goin' out to all them fake-a** wannabe, uh, "real n***as"
Y'all keep sellin' out, I keep bringin' the truth
West Coast funk, Guerrilla Funk
Comin' at ya straight from the Bay
And like I said, "In God I trust, so n***a do what you must"
I'm a still bring it to ya
And to ya punk-a** pigs out there, it definitely ain't over
L.A. we play comin' to your town soon, yeah
Oh, and uh, Chris Joyce, how you feel? I ain't forgot you motherf**kers
Keep your eyes on this, Scarface Records 1994
And it don't stop

It’s Real

[Produced by Paris]

[Verse 1]
On the scene back again with the mothaf**kin' grip
Ninety-three was the year P-Dog came rippin' sh*t
Bouncin' out the belly of the beast
And still the same n***a that was hollerin', "F**k peace!"
But check it out, it's the same old thing
Cause now the year's ninety-four and ain't a damn thing changed
N***as still droppin' dead like flies
And I'm still lookin' for a way to make us rise
I emphasize that I still hate the devil (That's right!)
And I'm a mothaf**ka that'll take your a** to the next level
Straight guerrilla in the mist to the end
(Yeah, and put it in the mix again!)
Yeah, now better listen why

[Interlude]
Yeah! Right back at you once again in '94
P-Dog, righteous
Back up in you with another mothaf**kin' bomb
And we kickin' the real

[Verse 2]
So, anyway I'mma do it this time so you wanna hear
Specially designed for your mind and a soldier's ear
Cause n***as nowadays just shoot
And f**kin' with the crew will get your a** peeled like fruit
And everybody wanna be a Gee
The same sick house n***a mentality
Please, f**kin' with them fake fairytales
N***a, I don't trip cause I still kicks the realest sh*t
So please back on up, I'm lettin' off
Representin' Allah and I'm raw cause I'm God
So I hope you're listenin' what I'm kickin', it's real
(Yeah, I keep'em comin' with the sh*t you fear)
Yeah, you better check it why?
Yeah, fear no evil, fear no man...
Shouts goin' out to all those fake-a** wanna-be... gees

Just break it on down...

Paris, I'm hopin' goin' on the hill, the hill
Paris, I saw you standin' strong again, again

[Verse 3]
So I'm still comin' on with this (Still comin' strong with sh*t)
Sh*t that'll make ya brain come up wake up
Regonize that it ain't nothin' but a thing
To see a n***a locked down, underground or in the sweep
And you ain't never gonna take me out cause I
(...roll up mothaf**kas and i'll break you down to side!)
Yeah, so keep your eyes on this, f**k what you heard
(And watch the devil get served!)

Yeah, so now you know
Scarface records, Paris
Still hittin' you with the righteous sh*t
The funky sh*t
In the name of Allah
And it ain't gonna never change
It don't stop
It don't never stop
So back your devil-a** sob off me
And let me get my field
Power, yeah!
Paris, I'm hopin' goin' on the hill, the hill
Paris, I saw you standin' strong again, again (2x)

Yeah! Right back at you in 1994: P-Dog
Guerrillas in the mist with the black fist
And it ain't never gonna change!

One Time Fo’ Ya Mind

[Verse 1]
I'm sick of all the sh*t in '94 so I'm cappin'
F**king with them devils every time I start to rap
Listen to the man cause the man is coming right
P-Dog is in the house until them brothers see the light
But now understand I ain't concern with the bullsh*t
Cause I know the truth, I see they mothaf**kin' hoof print
Got n***as tripping off the violence and the 40 ounce
So I call my homies get my strap and go take forty out
That's the way I'm coming so you better tell a friend
B*t*h, I ain't your boy so respect me as a man
And n***as understand that I'm down for whatever
We gotta make it better brothers gotta stick together
Pay attention to the

[Hook + scratching]
P-Dog
"One time for your mind, Scarface and I thought you knew"
P-Dog
"Def with the record, def with the record"
Pay attention to the
P-Dog
"One time for your mind, Scarface and I thought you knew"
P-Dog
"Def with the record, def with the record"
[Verse 2]
Now house n***as on the left wanna talk sh*t
Mothaf**kin' devils on the right wanna dump a clip
Ever since I broke the grip of shame back in '89
I see tricks tripping all the time like I did a crime
Got me on the news cause they wanna hide the truth
But notice I'm a soldier and I'm coming at the youth
Black guerrilla standing for my folk and I'm proud
This one's going out to the brothers locked down (Now)
Now as long as we keep playing by your rules
I'm leaving sh*t stains on your flag till I'm through time
After time I bring them mothaf**kin' facts
I'm coming pro-Black, understand where I'm at
Take a listen to the

[Hook + scratching]

P-Dog

"One time for your mind, Scarface and I thought you knew"

P-Dog

"Def with the record, def with the record"

Take a listen to the

P-Dog

"One time for your mind, Scarface and I thought you knew"

P-Dog

"Def with the record, def with the record"

[Verse 3]

Never f**king with no dank, cut no drink y ou can keep that

Sh*t for the next n***as slangin' with a weak rap

Busta-a** bandwagon n***as wanna be the new

Gangsta of the week on the street but ain't got a clue

Damn, it's a trip how them devil-a** labels put

Everything they got in that sh*t but they never push

Anything real for the good of the community

It should be plain to see, f**kin' over you and me

So I stay true to the game cause it's on

Praise to Allah, running real for the cause

Never underestimate my enemies, but trip

On how they operate cause they wanna see me slip

As long as I'm living I keep giving you the facts

Bumpin' when I'm smugglin' in the message in the rap

So pay attention now cause I'm bound to catch a case

Them mothaf**kin' snakes wanna n***a in his place

But I keep on saying

[Hook + scratching]

P-Dog

"One time for your mind, Scarface and I thought you knew"

P-Dog

"Def with the record, def with the record"

P-Dog

"One time for your mind, Scarface and I thought you knew"

P-Dog

"Def with the record, def with the record"

P-Dog

"One time for your mind, Scarface and I thought you knew"

P-Dog

"Def with the record, def with the record"

P-Dog

"One time for your mind, Scarface and I thought you knew"

P-Dog

"Def with the record, def with the record"

"Scarface and I thought you knew"

"Scarface and I thought you knew"

"Def-def with the record"

"Def-def with the record"

"Def with the record"

"Scarface and I thought you knew"

P-Dog

"Scarface and I thought you knew"

Guerrilla Funk

[Produced by Paris]

[Verse 1]
Beatin' down your block, it's the brother with the bomb sh*t
Comin' with the sound, makin' underground bomb hits
Doin' '94, it's time for some action
I'm askin', "which one of y'all is down for the count?"
Now, still in the warzone, in '94 it's on
But I'm full grown, f**kin' with the microphone
P-Dog creepin' in the drop with the dirty eye
Still f**kin' with the man and it's kinda odd
That a n***a roll down and let the sh*t to go
Still gotta pray for the L.A., we play
Black folks still bring in to the true
But I still got love, so I'm comin' through
With a trunk full of funk that I make ya
Separate the real from the fake each and everyday
Understand it's a must that I tear sh*t up
And I still won't budge
And that's deep

[Hook]
We got that sh*t that you can feel
And ya know we're comin' real, baby
Ya know it's hidden in ya trunk
Righteous, Guerrilla Funk, baby
[Verse 2]
Right back up in ya with the mothaf**kin' dose
Of the truth and you House-n***as can't come close
To the P-R, the O, B-L-A-C-K
Still lookin' for a way to make us rise each and everyday
Brothers, listen to the sound when I bump
P-Dog, and I'm hittin' ya in ya trunk with the funk
Got that down home sh*t ya love
I never slipped chippin' with the monster bug
You know it go on and on and I won't stop
Comin' with the militant grooves that keep y'all spirits lit
Long as n***as keep dyin', I'm a keep servin'
Hip-hop 'til the bullsh*t stops
Back in the name of Allah, the one true God

Stand tall, bringin' truth to all y'all
So buck that devil and pa** me the fish sh*t
And know I never switch-hit
And that's deep

[Hook]
We got the sh*t that you can feel
And ya know we're comin' real, baby
Ya know it's hidden in ya trunk
Righteous, Guerrilla Funk, baby

[Bridge]
Take a listen to the sound, 'cause uhm
It's goin' down, baby (That's the law)
Ya know we keep it on the one
Righteous, Guerrilla Funk, baby
[Verse 3]
One more dead Black man
You can ask K-Cloud 'cause this sh*t's out of hand
All I do is see the world just stand around and watch
N***as drop like flies around the clock
But I never underestimate the fact
That America still hate Blacks, so I gotta act
Ever since I was three-fifths of a man
It was clear that somebody had to take a stand
So I strive to survive in a place
Where your worth is determined by your race, ain't that a b*t*h?
Nothin' funny from where I'm comin' from so I don't
Wear a smile 'cause I know they got me on file
Long as n***as gotta live in this f**kin hellhole
I'm a freak the motherf**kin' funk so the people know
And recognize that as long as young brothers stay 'sleep
We're born to die, sh*t, and that's deep

[Interlude]
Oh, right back once again back at ya
P-Dog, still up in ya trunk
Comin to ya straight from the anti-gangsta
I give you Guerrilla Funk

Bring It To Ya

[Intro: Paris]
Yeah
Special shout going out to all them motherf**king pigs out there
Boys in blue, ghetto Gestapo
"To serve, protect and break a n***a's neck" is how the saying goes
I'm here to speak on that
Special One, step up and let they a** know

[Verse 1: Special One, Conscious Daughters]
Friday night, me and Afro Key and The Coup
I'm celebrating cause we coming up and sh*t is moving
It's the Conscious, The Daughters, Daughters Conscious represent
East O, dipping slow, hit a right on 35th
On my way to, kick it with brother cause it's time
For me to get my feel so I'mma go for mine
But the 5-O, wanna follow me and try to break
Cause Special One is making more than piggies on the take
Should I, pull over, and hope the sh*t is cool?
Or should I mash cause I ain't no motherf**king fool?
See, Oakland California is a city where the pigs don't play
I see that sh*t everyday so I'ma bring it to ya

[Interlude]
Yeah, you better listen to exactly what's going on
(I'ma bring it to ya)
Pigs out in this motherf**ker do whatever they want, whenever they want
(So I'ma bring it to ya)
Robbing, killing, raping, you name it, they done it
(I'ma bring it to ya)
And still do that
So next time you feel like you safe in the community, think again
[Verse 2: CMG, Conscious Daughters]
Mista Policeman, or whatever you call you
You can't sweat the C 'cause I'm not that easy
Violation one, two, three, CMG in the O
Getting jacked by the po-po
Show me any cop in the community who's fair
And I'll show you some more that rather see a sister dead
So tell me, what's the reason for the jack? I talk back
Oh, now you take my money and ask me where I got it at?

CMG is just a Cash Making Girl
An artist, an artiste, so what? F**k the police
And any other cause I'm down to squab (Why is that?)
B*t*hes wanna do me cause I'm rolling with the mob
Motherf**ker

[Interlude]
Yeah
So now I got my Molotov c*cktail, fire grenades
(I'ma bring it to ya)
Muffler bombs, people's grenades, pipe bombs and sh*t
(I'ma bring it to ya)
I'm blowing locks, I got my motherf**king sling shot
(I'ma bring it to ya)
And of course you know I got the Glock 21 semi-automatic

[Verse 3: Paris]
Up from the depths of, quiet is kept a
Soldier was awakened where a n***a once slept
In the face of adversity, no mercy on my soul
I've seen 'em do the dirt, now blood is running cold
Five deep in a Cutty and I'm gripping on a nine
Cause I'm through crying foul, they running out of time
Got Doc K, Cloud D, Wood and Yonny Yan
Riding pump in the trunk for them piggies when they come
See, n***as steady dying never making front page
In America is scary, Whitey never caught a case
For killing Blacks, so we holding court up in the street
Please have some mo' "Coffee, Death & Donuts" on your beat
Now some will say, "Cop killa music might incite"
But killer cops whoop on n***as each and every night
So tell me who's to blame for the hate that hate produced
I'm better off dead than with you
F**k America
[Outro]
Yeah, f**k America
Them motherf**kers don't give a f**k about you
(I'ma bring it to ya)
They'd rather see you dead and the sooner you understand then the better off you gon' be
(So I'ma bring it to ya)
America is a racist country
It was built on racism

That's a fact

(I'ma bring it to ya)

So when you see the police in yo' community, who you think they protecting?

(So I'ma bring it to ya)

Who they serving? Not us

Who don't own sh*t so what's really going on?

Make you wanna take them punk motherf**kers and beat the dog sh*t outta 'em

Gives a f**k

Nat Turner 1994

And I'm out

Outta My Life

[Produced by Paris]

[Verse 1]
Damn, here come another sad song
Listen to the words cause again it's on
Gettin' at my best black one more time
Cause nowadays we droppin' like flies
Seems like every other week
Somebody I know gettin' caught up in the streets
Used to be sad when I heard somethin'
Now I'm cool if I find out that I didn't know him
And that's true, I thought you knew
Cause nowadays we're born to die
And black life ain't sh*t
Oops, there's another one going down
Shot dead to the ground
Just one more drug-related
Fiasco makin' life complicated
Ask yourself how many of your good friends die
And then ask why

[Chorus]
Keep runnin'
Keep runnin' in and outta my life
Keep runnin'
Keep runnin' in and outta my life
Keep runnin'
Keep runnin' in and outta my life
Keep runnin'
Keep runnin' in and outta my life
[Verse 2]
So I say, how many dope records do it take
Before the brother makes sleeping giants awake
Another day, another call, and it's so wrong
I can't believe I've seen him just last week, now he's all gone
Ashes to ashes, dust to dust to gat bust
Now another one's life is lost, dead it twenty-two years old
Now my heart of pain is turned into a heart of stone
I feel like I wanna go get my motherf**king gat
Grab a mask and handle sh*t, but I'm conscious

So I think I'll count my losses
And wish my friend goodbye
I can't get with the same old, same old
Black on black, shoot a n***a off scenario
So I just swallow it down and try to let go
And see ya at the crossroads

[Chorus]
Keep runnin'
Keep runnin' in and outta my life
Keep runnin'
Keep runnin' in and outta my life
Keep runnin'
Keep runnin' in and outta my life
Keep runnin'
Keep runnin' in and outta my life
[Verse 3]
Now I'm more than a mack, more than a hustler
More than a D-boy pimp or sport star
And everybody can't make their way
Tryin' to rap or dance, I must say that the sh*t is played
Still militant, never be ignorant
More than a motherf**king jig
Cause I'm heaven's sin, ain't a player
You're n***a, a jungle-bunny
More than a coon or spook or porch monkey
And ain't sh*t funny
It's kinda sad we believe that's all that we can be
Brainwashed and ain't nobody lost but us
So who's paying the cost?
So I do what I can do
Still stayin' true, still payin' dues
And I still got love for ya
Don't squat when I talk, just listen
And get up on that sh*ts you're missing

[Chorus]
Keep runnin'
Keep runnin' in and outta my life
Keep runnin'
Keep runnin' in and outta my life
Keep runnin'

Keep runnin' in and outta my life

Keep runnin'

Keep runnin' in and outta my life

Whatcha See?

[Verse 1]
One, two, three, and I don't stop
Comin' is the man with the motherf**king plan, got their a** running
Known and I'm prone to educate
When I speak to my folk, I set 'em straight
Now understand that I can't be the
One to perpetrate the gangsta fever
So I sit back and observe cause I'm kinda smart
Thinkin' brand new ways to my people's heart
Bounce on in a city where they shoot
Over anything from looks to loot
So many fools get lost in a shuffle, should I scuffle?
So many slippin' cause they egos got em trippin'
Now listen what I'm saying cause it's real
Black men dying nowadays got ma** appeal
So you better recognize where I'm coming from
In a city where it's fashion to act dumb
Still stressin', still strivin'
Still coming real, still trying to survive when
Everybody got their motherf**king straps close
This one's going out to my dead foe
And the brothers in the pen
Cause I still got love and I'm never giving up
Cause we still struggling
I see we gotta get it together
Motherf**k what you heard before
I'm still coming with the...
[Verse 2]
Now how many fake gangsters drop when I pop
True facts for the blacks and you know it don't stop
Kickin' knowledge everyday when I bill
It's the man known forever coming real
Now, how many n***as gotta die before we see?
United we stand, divided there's misery
So I put my funk on your a** quick
Hope brothers get the message in the music
I be coming with the sh*t to let you know
I'ma let you know exactly what be going on for sure so we can grow
It's the same old bullsh*t everyday
Young n***as dying up, victims of the game

But as long as I'm living I keep giving facts
And as long as you listen I be bumpin' raps
That's real sh*t coming from a street soldier
N***a, act like you know, for real

- 40 Ounces and a Fool

"House n***a gotta run and hide"

The perpetating
Balling a** n***a on your block
With slave money
From the record company I'm popping
Now I'm on my way
To the neighborhood liquor store
To help sell more
Of that bullsh*t to my folks
Reaching for a can
It's the man with no conscience
But I'm making money
So n***a you can watch this
Mack bubble
Cause I'm trouble
When I pop the top
Even though I know
I'm selling out my song
Just to make a knot
So n***a Buy It
And f**k what you heard
Cause all of that old Black Power bullsh*t
Is for the birds
Yeah, I know it's poison
And I'm sellin' 'em
But yo
I'm the new house n***a with da flow
"House n***a gotta run and hide" (repeats to end)

Back in the Days

[Produced by Paris]

[Verse 1]
Back in the day, 1986
Me and Mad Mike puttin' records in the mix
Doin' party after party, high schools and jam
Back before the Glock was king and brothas spoke like men
Makin' demo after demo, tryin' to come up quick
It's funny how n***as treat you when you ain't got sh*t
But now I kept on 'cause pops told me
Never to let anybody in the way where I try to get
It was me and D.R. freakin' with the funk
Jerry in the jail, I had a system in the trunk
And it was on, Friday nights the party's jumpin'
Summertime hits had the speakers straight bumpin'
And believe me, even though we had no loot
Everybody knew that we was finsta come up soon
I still remember them days, they was crazy, but now they gone
It ain't nothin' like it used to be before
Back in the days

[Hook]
Back in the days, back, back in the days
Back in the days, back, back in the days
Back in the days, back, back in the days
Back in the days, back, back in the days
Back in the days, back, back in the days
Back in the days, back, back in the days
Back in the days, back, back in the days
Back in the days, back, back in the days
[Verse 2]
1990, fresh out of college
Public Enemy is hittin' n***as up with knowledge
And I love it 'cause without them, there would be no me
Took a trip down to Oakland, heard the minister speak
Felt deep and shortly I was in a while
Forever down for my people 'til the day that I die
That's when "Devil Made Me Do It," it was made, I still remember
The days, still remember the rage, and I was into
Everyday building, trying to be much more

Took a trip down to Cuba, met A**ata Shakur
Had dinner with Fidel, talked about old times
And now America's steady tryin' to destroy minds
And when I got back, it seemed much clearer to me
And when my cousin went to war, he was only nineteen
I still remember them days, they was crazy but now they gone
It ain't nothin' like it used to be before
Back in the days

[Hook]
Back in the days, back, back in the days
Back in the days, back, back in the days
Back in the days, back, back in the days
Back in the days, back, back in the days
Back in the days, back, back in the days
Back in the days, back, back in the days
Back in the days, back, back in the days
Back in the days, back, back in the days

[Verse 3]
1992, and I'm sour inside
Cause a couple homies pa**ed away before their time
And even though I'm movin' units schoolin' better than most
It ain't the same 'cause I still feel pain and I'm tryin' to cope
And everyday's gettin' clearer to me
Cause if it ain't guns and drugs, it's the pigs and HIV
And now I'm lookin' for a way to try to fight it back
But you see it's votin' time and now you wanna ban rap
Thought I was f**ked playin' by your rules
"Sleeping With the Enemy" was album number two
Let's take a look around and see which one of you all
Gotta balls to put me out, here's a middle finger off for all y'all
Tripped for a minute but before too long
A young brotha said, "F**k it!" and a label was born
I still remember them days, they was crazy but now they gone
It ain't nothin' like it used to be but yo, now it's ninety-fo'
And I'm servin' album number three
How many fake wannabe G's do I see?
Now we're back to days of the n***a and the b*t*h
No deposit, no return, it's a trip, I check my grip
And realize that it's all in your mind
Mothaf**k you and that fake gangsta sh*t, I stays righteous
And serve 'em with the dope

Should a truth get a clue? Monkey see, monkey do

Back in the days

[Hook]

Back in the days, back, back in the days

Back in the days, back, back in the days

Back in the days, back, back in the days

Back in the days, back, back in the days

Back in the days, back, back in the days

- It’s Real (Extended Movement Mix)

On the scene back again with the mothaf**kin' grip
93 was the year P-Dog came rippin' sh*t
Bouncin' out the belly of the beast

And still the same n***a
That was hollerin': "F**k peace!"
But check it out, it's the same old thing
Cause now the year's 94
And ain't a damn thing changed
N***as still droppin' dead like flies
And i'm still lookin' for a way
To make us raise
I impose that I still hate the devil
(That's right!)
And I'm a mothaf**ka
That'll take your a** to the next level
Straight guerrilla in the mist to the end
(Yeah, and put it in the mix again!)
Yeah, now better listen why...

Yeah! Right back at you once again in 94...
P-Dog, righterous...
Back up in you with another mothaf**kin' bomb...
And we kickin' the real...

So anyway I'ma do it this time
So you wanna hear
Specially designed for your mind and soldier's ear
Cause n***as nowadays just shoot
(Gunshot)
And f**kin' with the crew
Will get your a** peeled like fruit
And everybody wanna be a Gee
The same sick house n***a mentality
Please, f**kin' with them fake fairytales
N***a, i don't trip cause I still kicks the realiest sh*t
So please back on up, I'm lettin' off
Representin' Allah and I'm raw
Cause I'm god
So I hope you're listenin'

What I'm kickin': It's real
(Yeah, I keep'em comin' with the sh*t you fear)
Yeah, you better check it why?
Yeah, fear no evil, fear no man...
Shouts goin' out to all those fake-a** wanna-be... gees...

Just break it on down...

Paris, I'm hopin' goin' on the hill... the hill...
Paris, I saw you standin' strong again... again...

So I'm still comin' on with this
(Still comin' strong with sh*t)
Sh*t that'll make ya brain come up wake up
Regonize that it ain't nothin' but a thang
To see a n***a lockdown, underground or in the sweep
And you ain't never gonna take me out cause I...
(...roll up mothaf**kas and i'll break you down to side!)
Yeah, so keep your eyes on this
F**k what you heard
(And watch the devil get served!)

Yeah, so now you know...
Scarface records, Paris...
Still hittin' you with the righterous sh*t...
The funky sh*t...
In the name of Allah...
And it ain't gonna never change...
It don't stop...
It don't never stop...
So back your devil-a** sob off me...
And let me get my field...
Power, yeah!
Paris, I'm hopin' goin' on the hill... the hill...
Paris, I saw you standin' strong again... again... Yeah! Right back at you in 1994: P-Dog...
Guerrillas in the mist with the black fist...
And it ain't never gonna change!

Record Label Murder

[Paris:]
Now what would you do, if I blast
All up in yo' sh*t, motherf**k the whole staff
N***as know I flow, nine millimeter sh*ttin slugs
I'm seein bloody bodies on the motherf**kin rug
Six o'clock be the time if it's on let it be
You see it in my eyes, ridin through, hella deep
See, b*t*h you ain't gon' do me like you did Da Lench Mob
I'm decorated in this game, I played too motherf**kin long
Now - I ain't gotta name nobody name
All I'm knowin is the whole f**kin roster is complainin
Talkin bout these white boys tryin to do promotion
And white b*t*hes tryin to get f**ked by these soldiers
Talkin with that slang like you down but now hold on
See now that's enough to get yo' devil-a** stole on
F**kin with the wrong n***a, playin with my cash
I'm known for puttin devils on they motherf**kin back
Blast through the front do', what the f**k I'm 'posed to talk?
F**k court, I'll be a dead n***a 'fore you walk
Brownout at nine, had no motherf**kin mercy
So who the sexy n***a, b*t*h record label murder

[Chorus:]
(N***a label murder) Now we fin' to start some sh*t
(That n***a fin' to start) Motherf**kers shoulda quit
(Better have a n***a money) Out for each and every dime
Seem like everytime I turn around
Some janky motherf**ker tryin to take what's mine
(N***a label murder) Got the whole f**kin click
(That n***a fin' to start) Now we fin' to start some sh*t
(Better have a n***a money) Got these n***as out the zoo for the job
Bow down, motherf**ker you can die when we start robbin
[Paris:]
So many times I seen these n***as f**ked up out they chips
'Cause they didn't know the game, only makin 10 percent
Dealin with these f**kin jews, now you losin everytime
How many platinum n***as standin in the county line
Make you wanna get your brick and snatch his a** up out the car
Baby renegotiate, f**kin with them Scars
Now you askin who I'm talkin bout, homey you can pick

This whole industry got n***a sh*t on whitey d**k
And then since I'm a soldier known to speak my f**kin mind
I'ma put you up on game, everytime I start to rhyme
F**k that devil get yo' own man, learn about some sh*t
Or be another broke n***a, tellin what he did
And now I think you know, that I really gives a F**K
Fear no evil 'cause I'm God, let that devil try his luck
Last man standin up, for the truth, say you heard it
These players gettin played homey, record label murder

[Chorus]

Fair Weather Friendz

[Produced by Paris]

[Verse 1]
The year was 1995, another day, another dollar
Bein' up in this game make a brother wanna holla
Welcome to the school of dirty licks and tricky deals
A fair weather friend's and homies that you thought was real
Seen them come, seen them go, seen them down, I seen them out
I seen them on my team until I seen what they about
Funny how they wanna smile, spark them up and say they true
But all the time, these n***as take my kindness for a fool
And I ain't gotta name all these playa-hatin' traitors
Even with the Gemini, motherf**kers couldn't fade us
I made a little song about these jealous-a** counterfeits
Down what it is as long as you pullin' in the grip, sh*t
This is how I do it when I call 'em out
Straight G game comin' from that n***a with the clout
See I'm out to be real straight homie to the end
I'm thorough as they come, f**k a fair weather friend
F**k a fair weather friend

[Hook]
They smilin' in your face
All the time they wanna take your place
The backstabbers, backstabbers
They smilin' in your face
All the time they wanna take your place
The backstabbers, backstabbers

[Verse 2]
And now I take a look around and see how many of them left
Everytime I turn around, my name on somebody breath
Guess it's part of this game, everybody think it's tight
Got me thinkin' out of mind mean a n***a out of sight
Funny how the friendship slip when the man's out
But I remember back when them n***as had they hands out
Beggin' like a b*t*h, can't straight on me
But now I'm scratching n***as off my nuts like fleas
And this one's for them b*t*hes and them fake-a** friends
Peep game, 'cause success is the best revenge
Gotta stay on point, put it down and make a meal

And even though they phony, I'ma still stay real
See I got much love for the ones that's forever true
But n***a if you fake, you can juggle on these nuts, too
I never be a traitor 'cause I'm real to the end
I'm solid as they come, f**k a fair weather friend
For real

[Hook]
They smilin' in your face
All the time they wanna take your place
The backstabbers, backstabbers
They smilin' in your face
All the time they wanna take your place
The backstabbers, backstabbers
They smilin' in your face
All the time they wanna take your place
The backstabbers, backstabbers
They smilin' in your face
All the time they wanna take your place
The backstabbers, backstabbers
They smilin' in your face
[Verse 3]
Yup, true
And all the time they was wishin' they was you
Ain't enough to see a young brother make it on his own
I'm sick from the smell of the jealousy cologne
You see it in my eyes, I'ma be forever true
As long as you be real, I'ma keep it real with you
See I'll always be your road dog homie to the end
I'm thorough as they come, f**k a fair weather friend
And it's like that

[Hook]
They smilin' in your face
Backstabbers
They smilin' in your face
Backstabbers

[Hook]
They smilin' in your face
All the time they wanna take your place
The backstabbers, backstabbers

They smilin' in your face
All the time they wanna take your place
The backstabbers, backstabbers
They smile in your face

Street Soldier

Here we go here we go it's another one of them thangs
N***as better recognize that I'm wise and I'm fin
To make it known that I'm still, the one to call
Each and every one of y'all out, let's see who's real
And who's fake when it come to the funk
I'mma bring it to y'all live and direct, and straight bumpin
I knew you was a b*t*h from the first take
No eye contact with the handshake
Couldn't relates to where I'm comin from, when I came through
With the truth, broken down on the first two
When I first asked the question if you was down
How many punk a** n***as do I gotta clown?
With they a** to the sky, gettin stuck by
The devil in drag, let's see who play the fag
Will you wannabe G's please have a seat
Here we go again, n***a please!
Yeah it's all a part of growin up is what my momma told me
How many trick a** n***as wanna try and mow me?
I guess I gotta be the one to buck
Put your house n***a a** in the dirt and won't give a (f**k)
Like I said, you're better off dead that you would be
If you try to do me, I'm looney, so sue me
Next time I rain on your world with the truth
A solider ain't nothin to fool with

"You can't see what I can see!" You.. can't see what I can see
"You can't see what I can see!" But you don't ever
"You can't see what I can see!" You can't see what I can see!
"You can't see what I can see!" Whoahaoaha-ahhhh!
One two three, it's the G-U-E
Double-R, I, double-L, A, yellin mayday
Weeble with a street sweeper lookin for the beast
Had me thinkin that I'm less than a man and incomplete
Yo, and ever since I first started rhymin
You motherfu*kers wanna keep me down but I'm still climbin
You know I stay real to the end
Still fifteen deep on two freaks, I go tell a friend
I look around and all I see is these trick a** copycats
With they played out beats and they fake raps
And now I can't call it, it seem

Everybody wanna be a dopehead or an alcoholic
So what you wanna do? N***a do you wanna be
A strong black man or another fool?
Cause I'm comin full grown, and b*t*h
You can take that wannabe G (sh*t) back home
Understand that it's on, like I told ya
Foolin with a street soldier

"You can't see what I can see!" But you don't ever

Who's that n***a with the big black gat
That's lookin for the payback (lookin for the payback)
Still comin real it's the motherf*ckin bomb
P-Dog in the city that's (sh*tty) like Vietnam
But them mark a** n***as want it soft
Without ever understanding the plan to keep us fallin off
But you better recognize that it's war
Better recognize, black folk runnin out of time
But if you man enough jump n***a (jump n***a)
P-Dog got the pump in the trunk n***a
Better realize that it's much more to life
Than (f**kin), two new shoes, and hisidin
It's like tryin to put a size twelve foot
In a size eight shoe, it just won't do
So act like you knew, and let a real n***a come through
From a street soldier to you, now
"You can't see what I can see!" Hey, you can't see what I can see!
"You can't see what I can see!" But you don't ever
"You can't see what I can see!" Oooh, you can't see what I can see!
"You can't see what I can see!" Oooh! Noaoaahhoooh!

"You can't see what I can see!" (4X)

[Singer]
Music will make things, turn alright
And I will dance til the broad daylight
Check the flow, let it build in me
Cause I know your heartbeat and I'm here to freak
Alright! ... Alright! ... Alright!
Alright

[Computer voice]

Aowww, this sounds familiar
Let me stick my nose in the mix
And see who do I smell, this time
Ahahahahaha!

Root Of All Evil

[Verse 1]
Who is it? The mothaf**kin' D-O-G
Still spittin' game over tight-a** beats
Get the money 'cause the fame ain't nothin' to me
I be the tightest one servin' but it's never for free
I seen many die on these streets fo' sho'
Over money, wrong looks, cocaine, and ho
Where friendship blows in the wind like dust
See, they used to be yo homies but they ready to bust
You can't trust no man, but some might try
See them come, see them go, see them drop like fly
How many of them fail, just a few succeed
Where fantasy is real and what's real is a dream?
And I been in this game and I done dirt, too
Still down for the struggle but I can't be fooled
Every brother ain't a brother, ain't a damn thing new
Need to take your Million Man March a** to school
And tell

[Hook]
See it's the root of all evil, the story is told
And you never really know if they your friends or foes
So cold up on these streets, I seen the evil that men do
Will money be the reason that the murder continue?
See it's the root of all evil, the story is told
And you never really know if they your friends or foes
So cold up on these streets, I seen the evil that men do
Will money be the reason that the murder continue?
[Verse 2]
They say change is the only thing that stays the same
Take a look around and see how many remain
I'm a vet up in this here, still ten years deep
Gettin' cash, spittin' game over tight-a** beats
Everybody nowadays wanna come up quick
Young soldiers hit licks who can suck on d**ks
But dirt gun in the dark comes the light
Young n***a got AIDS 'cause the kitty was right
Now what you know, and what you see?
And where you from, and who you be?
'Cause everybody got skeletons in the cut

And peace to the homies in the pen locked up
I said, it's like a jungle sometimes, it made me wonder
How I keep from going under, who gone be the one the
Change things 'cause it seem ain't no hope
Scratch his name off the list if he come up short
And tell

[Hook]
See it's the root of all evil, the story is told
And you never really know if they your friends or foes
So cold up on these streets, I seen the evil that men do
Will money be the reason that the murder continue?
See it's the root of all evil, the story is told
And you never really know if they your friends or foes
So cold up on these streets, I seen the evil that men do
Will money be the reason that the murder continue?
[Verse 3]
They say the world keep turnin' and life goes on
Some others start slippin' while some stay strong
The old pain goes away with the pa**age of time
P-Dog is on the mic, still spittin' the rhyme
And if you ask me, you know I couldn't be much help
Real n***as understand, gotta do for yourself
'Cause ain't nothin' comin' if you don't apply
And don't nobody really care if n***as' livin' or dyin'
I fold up them up like a crease, breeze through the weak fleas
On my sack gets scratched, now who's who in this rap game
Late pa** on my haters 'cause I still blitz them
Shoulda kept ya mouth shut 'cause you got it twisted
Real soldiers don't die, we just re-adjust
While some might try, they can't touch this
Street soldier with a capital S
P-Dog sayin', "F**k the rest!"
Tell me is it really real

[Hook]
See it's the root of all evil, the story is told
And you never really know if they your friends or foes
So cold up on these streets, I seen the evil that men do
Will money be the reason that the murder continue?
See it's the root of all evil, the story is told
And you never really know if they your friends or foes

So cold up on these streets, I seen the evil that men do
Will money be the reason that the murder continue?
[Hook]
See it's the root of all evil, the story is told
And you never really know if they your friends or foes
So cold up on these streets, I seen the evil that men do
Will money be the reason that the murder continue?
See it's the root of all evil, the story is told
And you never really know if they your friends or foes
So cold up on these streets, I seen the evil that men do
Will money be the reason that the murder continue?

[Outro]
See it's the root of all evil

Conversation

[Verse 1]
Still in this b*t*h, ninety-eight is just another year
I murder money drama b*t*hes, that fall in piers
Comin' out the city where no pity be a way of life
When n***as quick to bust a cap in you to earn they stripes
Ain't nothin' changed in these West coast killin' fields
I seen so many homies die that I ain't got no feeling
So I handles mine, pack a strap and keep on strivin'
And quick to let these n***as if it get down to violent
Cause these haters ain't no friends to me, they make it plain
But I refuse to be a victim of these ghetto games
Break away from all the stress, bullsh*t and aggravation
And now I'm quick to blast if you want a confrontation
But it seem like every time I turn around it's drama
Hella flowers, coffee drinkin', and cryin' mama
Somethin' tellin' me this madness ain't gon' never stop
So I keep strivin' fo' the top

[Hook]
Now everything you think you seein' might not be the truth
Understand these cowards fold when these n***as shoot
Understand this rap sh*t is just another way
Just another lick where motherf**kers gettin' paid
It really ain't the same as it was in the past
Back when sh*t was new, n***as thought that it would last
Understand this rap game is just another front
Just another way for motherf**kers comin' up, and it's like that
[Verse 2]
So what's the ticket out the ghetto for these young players?
Slangin' dope, playin' ball or bein' rhyme sayers
They want the money fast, f**k school, that ain't what's happenin'
So some of them n***as got together and they started rappin'
And it would be like who the tightest on the microphone
Makin' demos in the basement of they mama's home
And 'fore you know it n***as got theyself a record deal
And now they makin' money, doin' what they love for real
Limousines, fast cash, and autographs
Groupie hoes after every show be workin' the staff
And magazines givi'n love cause they sh*t is best
Unless of course it's The Source and you from the West

Now mama's braggin' cause they baby's on the television
And they livin' every day like it's Thanksgiving
But you know, what they say if it sound too good to be true, it probably is
That's the music biz

[Hook]
Now everything you think you seein' might not be the truth
Understand these cowards fold when these n***as shoot
Understand this rap sh*t is just another way
Just another lick where motherf**kers gettin' paid
It really ain't the same as it was in the past
Back when sh*t was new, n***as thought that it would last
Understand this rap game is just another front
Just another way for motherf**kers comin' up, and it's like that
[Verse 3]
I'm twenty-eight and I've been in the game since eighty-six
World tours, cash money, and hella hits
Done seen these rap stars disappear like civil rights
And go from po' to rich to po' again, overnight
So many perils in this game if yo' team is faulty
That's why my lawyer keep these motherf**kin' devils off me
And freak b*t*hes be, quick to set you up by playin'
That pu**y game like, you the daddy or you rapin'
See dumb n***as get they money took, tryin' to be
That motherf**ker on the television out with Robin Leach
A couple of cars, hella clothes, and before you know it
That n***a to' back, hella broke with nothin' showin'
So here's a little game from a homey that's still playin'
The mo' sh*t you see a n***a with, the mo' he payin'
In this rap life, nothin' what it seem to be
I hope you motherf**kers feel me, that's reality

[Hook]
Now everything you think you seein' might not be the truth
Understand these cowards fold when these n***as shoot
Understand this rap sh*t is just another way
Just another lick where motherf**kers gettin' paid
It really ain't the same as it was in the past
Back when sh*t was new, n***as thought that it would last
Understand this rap game is just another front
Just another way for motherf**kers comin' up, and it's like that
[Hook]

Now everything you think you seein' might not be the truth
Understand these cowards fold when these n***as shoot
Understand this rap sh*t is just another way
Just another lick where motherf**kers gettin' paid
It really ain't the same as it was in the past
Back when sh*t was new, n***as thought that it would last
Understand this rap game is just another front
Just another way for motherf**kers comin' up, and it's like that

Take it back to the days when we raised us up
'Fore coward-a** rap made the game corrupt
P-Dog in the cut back to bring the pain
Puttin' wood on they a** can't stand the rain
And bring heat over beats, and scratch the itch
In a no spin-zone f**k a scandalous b*t*h
It's the return of the Bush Killa back to bust
Just us for the justice, In God We Trust
I rush truth to the youth - and shine the light
Take the red pill, open up ya eyes to life
In this land of these crack fiends sheep and moles
See us overthrow the hold of this devil control
And roll deep - (keep it underground for the streets)
I'm the last cell - (hit em outta bounds, retreat)
We like ants in this war dance, if one falls
Ten more's in his place to advance the cause, it's all

Raw sh*t
HELL YEAH
It's the raw sh*t
HELL YEAH
Do you want the raw sh*t?
HELL YEAH
Everybody Sayin'
That's the Bomb -(what?) That's the Bomb
Gotta have the raw sh*t
HELL YEAH
Comin' with the raw sh*t
HELL YEAH
Do you need the raw sh*t?
HELL YEAH
Everybody Sayin'
That's the Bomb -(come on) That's the Bomb
[Verse 2]
I bust a shot and these pigs all dash like renta cops
These punk a** devils'll never stop
F**k 'em all, I draw, they fall
B*t*h, I was raw, ballin' back in the days of "yes y'alls"
Gotta make a fuss, n***a bust an' ride

See it in my eyes, speak truth or die
Amerikkka's the motherf**kin' beast and I'm
Still the same, n***a snatchin' sheets for mine
Back on the map, and we fade to black
F**k rap, see us pickin' off pigs with straps
And bust on they compound, take control
Of the precinct, leave 'em all stank an' cold
It's no justice no motherf**kin' peace, say it
No justice no motherf**kin' peace, believe

They protect they sh*t and serve sticks to us
F**k a waterhose n***a, those days is thru
All a pig's gotta do nowadays is shoot
But who police the police when they
Beat brothers to the ground like - everyday
What I'm sayin', what if n***as start shootin' 'em back?
Spit caps outta gats 'till the beast collapse?
With an eye for an eye, ain't no time to play
With an eye for an eye - it's the Amerikkkan way
Do it big see the jig split wigs of foes
Bust shots at these pigs - n***a dig the flow and
Hear us all say "power to the people" combined

Hold court in the streets 'till these pigs comply
N***as got no choice but to ride or die
Put this beast on it's back - genocide's the plight, we bring the

Sheep to the Slaughter

Easily I approach, the microphone, in this land of jokes
Can't leave it alone, cause ya know, I could see right though
Corrupt plans and these bullsh*t scams and untruths
We livin' in a maze, different days and times
The world is a stage, most truth is a lie
In this propaganda matrix, the sheep just die
For these murderous conservatives with corporate ties
Deny knowledge of the truth, ignorin' the poor
They just human ammunition for these capital wars
Just human ammunition and collateral d
That's why millions of us holla risin' up in the streets
And when ya see me understand I'm representin' a voice
The majority would feel if ever given a choice
I don't need this seedy media they only annoy
Cause the only ones that wanna scrap ain't never deployed
Who do the fightin' for these rich white folks, and they wars
No it ain't Drew Carey, Dennis Miller or stars
Fox News, Mike Savage, Bruce Willis or Rush
Won't be MSNBC, CNN or a Bush
Never Toby Keith, Hannity, O'Reilly or Clint
Ain't ClearChannel - know they ain't supportin' dissent
Ain't Blair, Kid Rock, or Tom Cruise or vows
Of James Woods, Rob Lowe, Tom Selleck or Powell
Not Arnold Schwarzenegger, he ain't gonna shoot, or
Ted Nuget cause in war the targets got weapons too
Ain't Cheney, Rumsfeld, Halliburton or Ridge
Or Ann Coulter, or Joseph Lieberman or the rich
Or any b*t*h up in congress, they just make laws
When it comes to fightin' - we the ones that end up in gauze
So when you say "support that murderer," I have no applause
Even if he got his jumpsuit on - we pay the cost

Spilt Milk

Yeah...still ridin'...we still ridin'...P-Dog
N***a we without flaws you comin' without balls
Still down for the cause...P-Dog...now who really raw?...B*t*h

Boom Boom in the night - so now we fight
Caps peel, piggies squeal - who wrong or right?
Street soldier kill em slow - homicidal
We dogs in a sea of b*t*hes - ain't crack a smile
Soundin' off the battle cry - we draw the line
F**k around and crack his spine - for all his crimes
B*t*h devil still ain't learned - just like his pops
Wanna make these bullets burn - with twenty shots
Propogators of the peace - we never ceased
But never listened to our pleas - so now he bleeds
Like Oaklahoma city Timmy - It won't be pretty
Catch him in a subcomittee - and have no pity
Look at all the people we got - with Sonic Jihad
Last Cell never see us - now what you thouht?
Swervin to these dj mixes - we ridin' sixes
AMG with chrome centers - twenty inches
East coast west coast - we stay composed
Love us everywhere we goes - the people know
Holdin' down the sh*t we buildin' - Guerrilla Funk
Even though the milk is spillin' - I'm in your trunk holla

[Hook] w/ Capelton
Ridin' dirty through they downtown feelin no love around town
Now some be tryin' to clown but how many can hold they ground now
Labels be abusive confusin with what they choosin'
And these stations mistakenly contemplatin' us losin'
We bruisin' all these faulty a** critics - and these emcees
That coward a** rap sh*tted - they wannabes
Labels never made the culture - you got it twisted
So recognize these f**kin' vultures - and where they fit in

[Hook] w/ Capelton

Now tell me how many devils prone - to do me wrong
Try to fit they mittens on - my provalone
The radio'll never play it - we never heard

They only love us killin n***as, and slangin birds
Guerrillafunk.com - we keep it bomb
Give the people what they want - with every song
With raw sh*t we keep it mannish - don't get it twisted
And motherf**k these cowards plans - we keep upliftin'

[Hook] w/ Capelton

Tear Shit Up

[Intro]
Bringing you back what you missed in hip-hop
Hard Truth Solder Radio
A GuerrillaFunk.com presentation

[Verse 1 – Paris]
You in tune to the most dangerous crew on file
Who get mashed mash on—b*t*h, get wild
With these field n***a serenades, we break wide
In the land of the weak, home of the slave, we rise
To protect. They servin' us with sticks and shots
But who protect us from these murderous cops?
Who's heroes? You could keep your flags—I'm out
I'll wrap a chain around the precinct and burn sh*t down
F**k the police, I'm thinkin' how to feed my seed
Bumping DP's, bailin' down the block on D's
It's the same sh*t every day
Seem the more a n***a build, they wanna take away
Like a slave, when you can't eat you can't sleep
Can't seem to find peace. Only thing the streets see is police and poverty
B*t*h, don't start with me—I can't fade
The bullsh*t noise that the radio play
Where the world wanna be like and talk like and act like
And rap like the black life is all gats and crack pipes
I'll spit right. N***a, what? My sh*t's tight
Who snitched. N***a or b*t*h to choose sides
When we roam, we beat back Attack of the Clones
What kinda sh*t y'all n***as is on? We hit home
And spill so the people could feel this real talk
From the Bay and all them between to New York
Holla
[Hook]
What we gotta do is tear sh*t up (x8)

[Verse 2 – Paris]
This the way we bomb when we come around
Still keep it on the map for the underground
F**k the system, I'mma holla with a black fist
It's hard truth. Where my soldiers? We still blitz
And who's who with these gangstas, see a vet

These rap n***as or the government? Take a guess
See, we blessed with the speech that could reach oppressed communities
Worldwide, so we don't waste time. We stress freedom
And serve 'em with the style (what)
Motherf**k smilin' (what)
Who wanna ride (what)
Rally up the crowd (what)
Full hollow tips (what)
Cyanide squibs (what)
Power to the people with rocks, banana clips
See us struggle for the streets, motherf**k the bling
Nowadays, radio make it harder to bring
Real sh*t to the people—it's deeper than me
They entice with the conflict, ice, and blow trees
Corporatized by the vile—they smile and fill
Black bodies in the pen—it's the men they kill
3 strikes, whose life? Not my life, yours
Put the men in the prison, turn the women to w****s
Ignore cries of the people—but time is up
Stay tuned for the sequel—we buildin' to bust
Goin' AWOL. F**k all laws—I wanna attack
This bullsh*t, hold 'em accountable for they acts
[Hook]
What we gotta do is tear sh*t up (x8)

[Verse 3: M-1, dead prez]
Militant and political, Guevara M-1
I wipe the smile off you many mouths, meld like a gun
And I remember '99, goin' on tour with Big Pun
Gettin' this fast rap cash from them six-week runs
See, I done learned from them generals with wild entourages
F**kin' like rabbits but don't wanna be fathers
F**kin' up they hotel room, stay on some star sh*t
Know your role, play you position—rule 4
You know you can't fade it, it's gang truce-related
We bang for change, hittin'—no game, you can't hate it
I wanna slap Bush and his mammy
For how he did the Haitians in Miami
That's my fam—coupe tete boule kay
So please die, cracka die
That's for 22 generations of genocide
You see that's why we get high—just to get by

See, we sit and wait until it's dark outside and then we ride
On our enemies. You can depend on me
If you a pig, then you can't be no friend of me
See, it's been 33 years since Fred been gone
He was murdered on the same day Jay-Z was born
For real. 12-4-69. Same year
When they take one from us, then another appears
We gon' take this time to commemorate
NRD: National Revolutionary Day. Say:
[Hook]
What we gotta do is tear sh*t up (x8)

Freedom

Freedom, Freedom, Freedom, Freedom
This is how we ride and roll - soldier fo life fo' sho
Freedom, Freedom, Freedom, Freedom
This is how we ride and roll - soldier fo life fo' sho (2x)

(Paris)
We come back to the days of - grenades up
Black fist raised up - we stay rough
Come this way cause - the game f**ked
Can't stay away from - the main stuff

Still bust when we ride, still game
Still bust any time, f**k fame
Still rhyme under pressure, still bangin'
Still prime, n***as wetcha, still aimin'

Still put a fist in - the system
Still kill a killa cop, we still win
Still be the one to expose the beast (when it's)
Still un-American to be for peace (yeah)

Revenge is a dish best served with steel
If it's on then, lets get it on for real
Can't shut us up - cut us down - never regret
F**k Bush, I'mma say it loud - raisin' a fist - we holla
(Chorus)
Freedom, Freedom, Freedom, Freedom
This is how we ride and roll - soldier fo life fo' sho
Freedom, Freedom, Freedom, Freedom
This is how we ride and roll - soldier fo life fo' sho

(M1 - Dead Prez)
RBG'd up, yeah, ready to get freed up
Bangin' on the system, ready to turn the heat up
Malcolm X c*cktail, ready to burn the streets up
Holla if ya hear me big homie, it's time to eat somthin'

Picture me rollin', me Paris and Chuck D'd up
D**kies and white tee'd up, throwin' them O.G.s love
Listen up, rule number 1 is no snitchin'

Switch up and you gon' have to eat a clip up 'till you hiccup

(Stic - Dead Prez)
My reality is poverty, police brutality
How I came into this revolutionary mentality
Comin' up in my hood, it's an everyday thang
N***as is hungry and starvin' that's why n***as bang

The O.G.s put me up on the jewels of the game
Ain't no wins in the street if you comin' up lame
That's why I walk how I walk and I claim what I claim
Red, Black to the Green with a gangsta lean
(Chorus)
Freedom, Freedom, Freedom, Freedom
This is how we ride and roll - soldier fo life fo' sho
Freedom, Freedom, Freedom, Freedom
This is how we ride and roll - soldier fo life fo' sho

(Paris)
Rebels at it come again
That's why we conspire so you never win
Keep it calmer when we ride so you never seein'
N***as aim between the eyes so you never mend

Field n***as in the front be the first to bust
GuerrillaFunk.com who you gon' trust?
With all this talk about the war they forgettin' us
Broke schools and abuse made the noose a must

Holla black - f**k a pig and these killers wars
Around the world every border it's the same story
Anywhere that it's color it ain't never peace
Africa, South America and Middle East

Move in packs bust back at these killa foes
Reach first make the heat spurts so he know
No blood for the rich - they been exposed
Now it's power to the people everywhere I go - and everybody's sayin..
(Chorus)
Freedom, Freedom, Freedom, Freedom
Yeah, my live n***as standin' in here, Yeah, my live n***as standin' over there
Freedom, Freedom, Freedom, Freedom

Yeah, my live n***as standin' in here, Yeah, my live n***as standin' over there

Ain’t No Love

[Intro: Paris]
Yeah, this is another story of famous dogs
Where the dog that don't keep it real is a b*t*h
These are rappin' dogs, soldier dogs, harmonic dogs
House dogs, street dogs
Dogs of the world, unite

[Verse 1: Paris]
Bye, bye sh*tty luck, skinny ducats
High side, many bucks, t**ty f**kin'
Smash on these Corleones, snatchin' fetti
Westside n***as roam, but y'all ain't ready
Every city, every borough, every town
Every ghetto comin' through, we touchin' down
When I spit, they all scatter, battle cry
Worldwide, it don't matter - who wanna ride?
Return of the street pros, killer foes
Expose what you need to know, Guerrilla flows
Still on that same sh*t, same time
Still from that same clique, same side
Real n***as ain't impressed by the stories they bring
When it's all said and done, y'all remember my name
F**k a Corleone, n***a, we grown, now what you sayin'?
It's all about the chedda, but beware what you claimin'

[Verse 2: Kam]
Y'all n***as really wanna see us dead, huh? We too militant
Always on that pro-black, cracka jack killin' sh*t
I picked up a few cuts, scrapes, and raw abrasions
Collectin' my cheese and checkin' these Caucasians
Cause when you killin' n***as on a record then you goin' places
But talk about killin' these crackas, you racist
That's why crackas and flies, I do despise
The more I see these crackas, the more I like flies
Look into my eyes before I pull this trigger, I don't know what's worse
A black cracka or a white n***a, who should I do first?
I write a verse and have 'em runnin' scared, turnin' red, protestin'
I just be blastin', don't be askin' no questions, holmes
'Til the smoke clear, cause folks here know
The difference between a G and some Holly-weirdo

What you in fear fo'? Losin' your life or your money?
All these coward-a** fake thugs, a.k.a. Bugs Bunnies
[Chorus]
Livin' and strivin' and diggin' the skin he's in
Livin' and strivin' and diggin' the skin he's in
Livin' and strivin' and diggin' the skin he's in
Livin' and strivin' and diggin' the skin he's in
Livin' and strivin' and diggin' the skin he's in
Livin' and strivin' and diggin' the skin he's in
Livin' and strivin' and diggin' the skin he's in
Livin' and strivin' and diggin' the skin he's in

[Verse 2: Paris]
So I fiend for the days when the funk was king
'Fore these pop sl*ts sh*tted on my video screen
'Fore these Bow Wow Wow Yippee Yos and hoes
Before n***as street clothes turned to platinum and gold
Before videos made 'em all fantasy macks
'Fore blingin', we was singin' what it mean to be black
Now these b*t*hy b*t*hy boy bands causin' a fuss
And every n***a rappin' thinkin' thuggin' is us
I'm bustin' pro-black, comin' with rough raps, I catch these
Hollywood shuffles by they motherf**kin' ruffles
And rough 'em up, see, and f**k them tricks
'Comin' phony, all them cowards know is blingin' and Kris
But this poolside fantasy, lovin'-a** wannabe
Record label Superfly, n***a, eat sh*t and die
State-of-mind mentality is blind to me
See I'd die 'fore I live on my knees, believe
[Interlude]
You know it ain't no love, no love for these
You know it ain't no love, no love for these
You know it ain't no love, no love for these
Don't you know it ain't no

Lay Low

[Produced by Paris]

[Intro]
It's my hood, I been livin' here for seventeen years
Boy I done got jumped, my car done got shot up
I done got shot at, I been to jail, three, fo' times
"I want parents to simply wake up, to take responsibility for our own kids. It's time to take action! It's time to wake up and stop sleeping!"

[Verse 1: Paris]
Peace, what's happenin' rookie?
It's been a while since I been gone, just tryin' to fall in
Ain't nothin' new, sh*t, I keep it mannish
It's different now than when I was out, let's examine
What's happenin', junior? What's goin' down?
How the women actin, heard you was crushin 'em in the town
Look good don't they? Hell yeah, shoulda saw
The ones last week at the mall, hella raw
And all tryin' to come up, like video queens
So fine they make some of us do the stupidest things
But be careful though, get caught up, know what you doin
F**k around and be a teenage pop, and life is ruined
How ya momma doin? She cool, is that right?
Seen your sister last week at the bank, lookin tight
Keep yo' eyes on her, cause n***as, nowadays
Always lookin for some new ones to train, so many ways
And I'm amazed, but not amused as such
We all brothers but some of us gettin caught in the clutch
Another, day go by another, day's the same
Another, day of strife I say a, prayer for change
But I can't complain, and if I did, so what?
The best we can do is try to find the truth and come up
I'm still bangin' on these tracks, still keep hope for us
Yeah I'm back, still rough on wax, and still bust
[Hook: Sandy Griffith]
E'rybody gotta do their own thang
See the whole world goin' insane
Hope to see sun, it'll be rain
We lay low, lay low, lay low
E'rybody tryin' to maintain

Brothers gonna work out in the end
'Til we get peace it'll be pain
And they know, they know, they know

[Verse 2: Paris]
What's on your mind? What, your homie died?
Over what, some bullsh*t? Is that right?
I known him since back in the days, we was tight
Used to date his older sister back in late '85
I just wonder why, the sh*t don't make no sense
How many gotta die befo' these n***as convinced?
Death is final every day for my people I'm prayin'
Seems so many lose our futures f**kin 'round in the game
A motherf**kin shame, another life is ruined
Know you wanna ride but gunnin for them n***as is useless
See we all confused, damn, but everything is a test
Don't let ego and emotions be the reason you slip
Cause though your boys might fall, fall for doin wrong
Friends drop like drawers, nobody mobbin 'like the law
And we don't need no more in the pen or at war
It's open season every brother on the street is a target, believe
[Hook: Sandy Griffith]
E'rybody gotta do their own thang
See the whole world goin' insane
Hope to see sun, it'll be rain
We lay low, lay low, lay low
E'rybody tryin' to maintain
Brothers gonna work out in the end
'Til we get peace it'll be pain
And they know, they know, they know

[Verse 3: Paris]
Now even though I'm anti-pop, I still rise
And though it seem it ain't gon' stop, I still rise
Above this bullsh*t hip-hop, I still rise
Supply, wise words, disguised in rhyme verse
I curse, what these n***as is sayin, ain't nothin' real
Just fairy tales of pimpin' these sisters and makin' mail
I see 'em pose, see the b*t*hy roles they play
See these videos they sh*tty, see the way we portrayed
See these sellin'-out acts just sellin' our rap
Believe wannabe macks with powerhouse tracks

Redefined black manhood, defied Allah
We rise up, f**k this bullsh*t, survival or die
See them thuggin', n***as muggin' with that criminal pout
See 'em frown in every photo, see that sh*t in they mouth
See 'em tattered, lookin' battered, chasin' pu**y and weed
Makin' hookers out of queens, every video feed
I see these labels sit back, push this sh*t like crack
Now every record every act, got you thinkin' it's black
To act a fool, chasin' pu**y like it's hard to get
I see these crackers think it's cool, bein' n***as for chips
I split jiggaboo chins, a***yze these trends
If it's down to me and them I'm sendin' flowers to kin
Ain't nothin' easy in this world, struggle makes the man
Don't let these motherf**kers do you understand the plan, believe
[Hook: Sandy Griffith]
E'rybody gotta do their own thang
See the whole world goin' insane
Hope to see sun, it'll be rain
We lay low, lay low, lay low
E'rybody tryin' to maintain
Brothers gonna work out in the end
'Til we get peace it'll be pain
And they know, they know, they know
E'rybody gotta do their own thang
See the whole world goin' insane
Hope to see sun, it'll be rain
We lay low, lay low, lay low
E'rybody tryin' to maintain
Brothers gonna work out in the end
'Til we get peace it'll be pain
And they know, they know, they know

Life Goes On

[Produced by Paris]

[Intro: Conesha Owens]
Ho-ah-oh
Ho-oh-ha
Ooh-ooh-ooh
Ah-hah-ah

[Verse 1: Paris]
In the beginning, there was confrontations in these streets
Cause these police beat us - we tired of runnin', f**k peace
Young brothers born to fail, skippin' bail, helluva start
Could it be them b*t*hes was hatin' cause our skin was too dark?
Handed down his sentence, he got no reason to live
A twenty-five-to-life n***a never knowin' his kids
That's how they do it to us, it seem we caught in between
Another one, wastin' away for what he did in his teens
Life is hard, situation on these streets is critical
Everybody chasin' dough, if them ain't your folks, then here we go
If we ridin', then let's ride, do-or-die, homicide
But tell me the reason for lost lives
Could it be we all caught up in a scandalous system?
Fallin' through the cracks, blinded by the lies we given
Seen these G's on these streets bleed freely but why?
It seem too many of us born to die
But life goes on, and on situation in time
How many lost souls molded by a criminal mind?
From the Bay in California, to the streets of the east
Can't be no justice without no peace, believe
(Life goes on)
[Chorus: Conesha Owens]
No matter what they say or do
I ain't never givin' up on you
I won't doubt ya baby
Won't doubt ya baby
And no matter, I'ma keep it true
And together we gon' make it through
I'm about ya baby
Ain't livin' without ya baby

[Verse 2: Paris]
A ruthless cycle of thugs, coppers, drugs
Helicopters, blood, spitting choppers, slugs
Who could stop to love this lifestyle juveniles embracin'?
I'm lacin' adolescents with lessons, no one could beat these cases I'm chasin'
My compet**ors, no need for a spot
Conversation keep these cowards off my stick when I bust
Forget Versache-watchy Cartier playas, I'm still the same
But I can't condone the phony 'cause I'm prone to be me
Now what you sayin' huh? (Life goes on)
From the Atlantic to the Bay, what? (Life goes on)
To all my people gettin' paid, huh? (Life goes on)
Never forgettin' where you came from (Life goes on)
Fa' sho

[Pre-Chorus]
Now keep on strivin' and survivin'
Don't let life get down on you (That's right)
Forget these haters that betray
Mistakin' kindness for a fool (What?)
Keep your head up, don't get fed up
Keep on doin' what you do
For all true players in this game of life
You got to know the rules (True)
(But life goes on)
[Chorus: Conesha Owens]
No matter what they say or do
I ain't never givin' up on you
I won't doubt ya baby
Won't doubt ya baby
And no matter, I'ma keep it true
And together we gon' make it through
I'm about ya baby
Ain't livin' without ya baby
No matter what they say or do
I ain't never givin' up on you
I won't doubt ya baby
Won't doubt ya baby
And no matter, I'ma keep it true
And together we gon' make it through
I'm about ya baby
Ain't livin' without ya baby

[Post-Chorus: Paris]
Don't stop, don't stop movin' on up
Don't stop, don't stop movin' on up
Don't stop, don't stop movin' on up
Don't stop, don't stop movin' on up
Don't stop, don't stop movin' on up
Don't stop, don't stop movin' on up
Don't stop, don't stop movin' on up
Don't stop, don't stop movin' on up
[Verse 3: Paris]
Now that's one too many times, more than three had to die
Forty-five's got to spittin', six-thirty was the time
Seven years gone by, eight of us done been deceased
Nine times outta ten, somebody bleedin' in these streets
Tell me what's the reason? Trial date's the Tenth
These juveniles in wild life smile upon your death
Went from kids to killas, fun lovin' to felonies
Could it be we self-destructin' in this rush for the cheese?
Everybody in this world gone crazy
See money and murder be the measure of a man everyday
Separate from the fake, break bustas for how they livin'
Cause some takin' better care of their cars than of their kids
And it still seem we caught up in a scandalous system
Fallin' through the cracks, blinded by the lies we given
Seen these G's in these streets bleed freely, but why?
It seem too many of us born to die
(But life goes on)

[Chorus: Conesha Owens]
No matter what they say or do (Say or do)
I ain't never givin' up on you
I won't doubt ya baby (Oh-ho-ah)
Won't doubt ya baby (Oh-ho-ah-wow-ow)
And no matter, I'ma keep it true (Keep it true)
And together we gon' make it through
I'm about ya baby
Ain't livin' without ya baby
No matter what they say or do
I ain't never givin' up on you
I won't doubt ya baby
Won't doubt ya baby

And no matter, I'ma keep it true
And together we gon' make it through
I'm about ya baby
Ain't livin' without ya baby

[Post-Chorus: Paris]
Don't stop, don't stop movin' on up
Don't stop, don't stop movin' on up
Don't stop, don't stop movin' on up
Don't stop, don't stop movin' on up
Don't stop, don't stop movin' on up
Don't stop, don't stop movin' on up
Don't stop, don't stop movin' on up
Don't stop, don't stop movin' on up

[Outro: Paris]
Yeah

You Know My Name

[Verse 1]
About this scratch, I blast, pa** the mask, we mash
Careenin' though these back streets, gats gleam in my lap
A shame it came to this, aimin' cause them n***as don't listen
The sweat is glistenin', I grimace, 'bout to service these sentences
On the trigger, I know them n***as, soon as we start
And get the clip to spittin', counterfeits'll sh*t in they drawers
Don't really want none, but somethin' got them n***as mistaken
Thinkin' that music make 'em safe, I cross 'em out with a K
Now renegades, disperse, att**udes get worse
You'll see these n***as on the news if I burst and get 'em first
Servin' all these nut swallowin' followers in they mouth
Spittin' clips in they Impalas, Inshallah and we out
What we about, is justice and freedom, f**k the rest
Black women more than a**es and breast
I test any n***a disagreein', pee on wannaGs, remember me?
P-Dog, motherf**ka I'm raw, follow my lead
Now f**k 'em if they famous, we ventilate they craniums
Entertainers know they places, if they fake then we aimin
I pray and blaze, comin' fully raised, obey
I'm on that Che, make these n***as behave, now what you sayin'?

[Chorus]
You Know My Name (P-Dog)
Motherf**ka we raw, who claimin' Mob Boss without no balls, them n***as soft
You Know My Name (P-Dog)
I'm blitzin' n***as with hits, they counterfeits but they still talk sh*t without a clip
You Know My Name (P-Dog)
We see them bustas and rush 'em with no discussion, let the battle cry sound, we puts it down
You Know My Name (P-Dog)
Ain't nothin' funny at all, I'd rather blast, put these n***as in casts, f**k all ay'all

[Verse 2]
Since we servin' I'm puttin' brothers on alert
Put the first n***a trippin' in dirt, don't leave 'em hurt
Way too heinous, we show 'em our demeanor is meanest
Who wanna see us when I pop? The soldier sh*t don't stop
F**k any cop, you know how we do, so glad to meet you
If you haven't heard, I'm raisin' the curb, hopin' you see through
These plastic-a** Nittis, Corleones and Locs

Leave these n***as lookin' sh*tty, Noriegas is jokes
Now call your folks and let 'em know
Paris wreckin' any n***a imitatin' these crackas upon they records
See me check 'em, these b*t*hes rather switch then fight
While n***as civil rights dwindle Kristal is what they into
But I refrain, they petty as change, complain
N***as playahatin' but ain't knowin' the game
I shame cowards like a scarlet letter, I'm much better
Leave these n***as chasin' chedda impaired, I think they scared
Step into my lair, careers crushed
While my 2-strike n***as test nuts
I'm thumbin' through my Murderdog, n***as all look like clones
Same clothes, same fake-a** pose, you know my motherf**kin' name

[Chorus]
(P-Dog)
Motherf**ka we raw, who claimin' Mob Boss without no balls, them n***as soft
You Know My Name (P-Dog)
I'm blitzin' n***as with hits, they counterfeits but they still talk sh*t without a clip
You Know My Name (P-Dog)
We see them bustas and rush 'em with no discussion, let the battle cry sound, we puts it down
You Know My Name (P-Dog)
Ain't nothin' funny at all, I'd rather blast, put these n***as in casts, f**k all ay'all
[Outro]
It's plain to see, you can't change me
Cause I'mma be a soldier for life
It's plain to see, you can't change me
Cause I'mma be a soldier for life
It's plain to see, you can't change me
Cause I'mma be a soldier for life
It's plain to see, you can't change me
Cause I'mma be a soldier for life

› Evil

[Intro]
They don't mind you givin' the latest rap, they don't mind your being hoes, they don't mind your being b*t*hes, they don't mind you being whatever image that Viacom and BET can come up with. But what they don't want you to know that you're the ones that can redefine civilization if you take time to do it

[Verse 1]
It's a Guerrilla Funk-orchestrated counterattack
Formulate and infiltrate 'em so the people react
See if I was wicked I would pick and stick to a plan
To rule the world and trick 'em, this is how it'd began
See I'd have to find a way to keep the people enslaved
Behave, teach the babies it's my way or the grave
And start with the body, workin' labor for free
And give 'em fake religion so they worshippin' me
And see and when the free labor play out, I'd let it go
But only after I made enough to control
Then I'd tell 'em that the afterlife is better than this
And that they should love their enemies when faced with contempt
I'd persist with some history that I would rewrite
In a school system where I'd keep the money too tight
I'd let 'em all know just where they belong in my world
Turn the boys into felons, makin' hookers of girls
Swirled up in my plan, build jails to keep
All my prisons full of n***as, have 'em workin' for free
See with ghetto-economics in check, I'd keep 'em broke
Teach 'em only to respect sports, music and dope
Control the content of lyrics, now only the sound
Of sex, dope and murder in a song is allowed
Tell 'em "N***as ain't sh*t" every move that they make
And that black is dirty so they never try to be great
Can you relate? I'd laugh, watch 'em murder for scraps
Set it up so they'd die over crack I provide
Do it right, and I'd see they try to be like me
Try to be the biggest G up in these murderous streets
I'd teach, manhood means how many women ya f**k
How many babies you can make, responsibility ducked
F**k a job, real men are pimps, that's what I'd teach
And if b*t*hes wanna trip, then them b*t*hes get beat
I'd see it all through, never lose and pa** a new law

Give 'em 3 strikes so the men are constantly gone
Yeah, if I was evil they would think I do no wrong
See it's lethal how I keep 'em in their place so long, believe
[Hook]
I got my eyes upon you, and all the things that you do
Some close they eyes but mine can see, all the evil surroundin' me
So what I'm 'posed ta do, when I can see right through?
Expose the lies and snatch the sheets, fight the evil surroundin' me

[Verse 2]
After all is said and done here and I could afford
I'd concentrate deeply on controllin' abroad
And think about a way to take control of they land
I'd create a virus made to murder people en ma**e
Last time was Tuskegee, but now it's for real
House Bill 15090 would just kill
With germs that would murder with sperm and blood drips
And kill 'em all worser than burned, they'd die quick
See to understand, you could witness the plan
Through the green-monkey sham they would think it began
And while we argue over the cost, they'd all die
With generations all being lost with no fight
I'd continue with the pain, make it oh so plain
I'd manipulate the market for my capital gain
Keep the people all broke and confused and undercla**ed
Give my homies all executive bonuses through the crash
And if the heat get too hot, I'd plant a bomb
Or wreck a plane, just like Hitler back in the day
And scare all the people, they'd forget about me
They'd forget about elections and the way that we cheated
See me blame it on a foreigner and non-white men
Celebrate my gestapo with a positive spin
Then manipulate the media - it's U.S. first
Get the stupid-a** public to agree with my words
Then I'd make the play, takin' all their freedoms away
Incarcerate anybody that'll get in my way
Make 'em censor any media that challenge the mold
Give 'em bullsh*tty shows just like Anna Nicole's
Control the message in the music, it's gangsta fo' sho
Give 'em diamonds, never tell 'em 'bout the conflict zones
Never tell 'em 'bout the murder in Sierra Leone
Never tell 'em how the diamonds make 'em murder their own

It's all too easy, if I was evil that's how I'd rock it
Make sure that my propaganda won't ever stop it
Got 120 channels, but it's nothin' to watch
Now 11:55 be the time on the clock, believe

AWOL

[Intro]
And you don't hear none of those stations, for hip-hop and R&B playin' him, ask why
In fact, where are those stations today?
Somebody better ask somebody that
The people that's most affected, by this war
Are the so-called hip-hop generation

[Interlude 1: Recruiter]
The Army is the best kept secret in the whole world
That every soldier gets his or her own private room
You can forget that old brown boot image of the Army
It's a job like anything else, you'd love it, all the soldiers do

[Verse 1]
I remember how it started, remember the time
I was watchin' Rap City 'bout a quarter to nine
Commercial said the military givin' money for school
Caught the bus up to my campus, they were signin' recruits
And met this dude named Diablo (Hello), was some kind of vet ('Sup?)
He explained the situation told me what to expect, he said
(Now we'll help you pay for college and train you for work)
Said I could take computer cla**es and could quit if I want
But best of all was the fact I'd have my own sh*t
I'd have my own space and have my own place to kick it
On top of that I'd travel, and visit the world
Hell, Diablo said the women overseas was the pearl
Didn't even call my girl, let's get it on fo' sho'
Signed my name, took some tests, and I was outta the do'
A true soldier for America, ready to go
On the road a vacation'll be good for the soul
[Chorus]
Don't matter what they sayin' now
They lyin' what they say fo' sho'
They don't play when it come to war
They get down, they get down, they get down

[Verse 2]
I showed up at basic training, but what a mistake
Cause this motherf**ker yellin at me all in my face
In this dirty-a** latrine, fifty men in a room

Runnin' laps up in the mud at four o'clock in the morning
I'm scrubbin' toilets, doin' laundry, and feelin' the pain
If I didn't know no better, I'd think "Boy" was my name
Same bullsh*t line so many bit 'fore me
Got a n***a twisted up in this illusion of freedom
F**k this sh*t, I'm out tomorrow, made up my mind
Everything Diablo said I'm findin' out was a lie
That's when my unit got the call, the Commander in Chief
Wanted ground troop a**ignments keeping peace in the East
What a relief, I'm thinkin finally somethin new
Shipped us off and twenty hours later, we was en route
Touched down around eleven, the desert was brutal
Then the ground split and caught us by surprise from the shootin'

[Interlude 2]
"Engage! Engage! Open fire!"
"Take cover! Take cover!"
"Get down! Fire!"
[Chorus]
Don't matter what they sayin' now
They lyin' what they say fo' sho'
They don't play when it come to war
They get down, they get down, they get down
Don't matter what they sayin' now
They lyin' what they say fo' sho'
They don't play when it come to war
They get down, they get down, they get down

[Verse 3]
It was all surreal, seen 'em blow the spine out his back
In the minefield, we was reelin' from the attack
Seen the MO's hand upon the receiver, still attached
With an alarm on it, set off the beacon, then I mashed
Who the first truck, blood and guts splash in my face
Cuttin' kids down, couldn'ta been no older than eight
What the f**k is goin' on, who we fightin' and why
Killin' kids, killin' killers, who the f**k is supplyin'?
I'm cryin' out for protection, but none of it came
So I dumped in all directions 'til the heater was drained
But that night vision sh*t wasn't helping us win
Caught a round of friendly fire, but it wasn't so friendly
We simply got lucky, headed back to the base

Seen a soldier rape a woman, shot her dead in the face
Guts stuck to my clothes, body parts galore
If this a peacekeepin' mission, I ain't ready for war
And now I'm back home bitter, and sick and contagious
And I'm knowin' we some bullies, that's why everyone hate us
Still broke than a motherf**ker, n***as is starvin'
And that job trainin' sh*t is only good for the Army
I guess I should have been a CO, and kept up a file
Shoulda listened when my homies said we murder for oil
Now I'm f**kin' with this wheelchair, ain't nothin' the same
And I'm knowin' confrontation's mo' than video games
War is pain

Agents Of Repression

[Intro: Paris]
All day on the nation's only all-terror network
All terror, all the time
FOXSNBCNN

[Skit]
"The War on Terror is everyone's war, and civilization itself is in the balance"
"The questions are growing louder, and the White House is furiously backpedalling. What did the president know, and when did he know it?"
"You're telling me you're going to fake some terrorist thing, just to scare some money out of Congress?"
"Well unfortunately, I have no idea how to fake killing four thousand people. So we're just gonna have to do it for real. Oh, blame it on the Muslims, naturally. Then I can get my funding!"

What Would You Do?

[Chorus]
What would you do if you
Knew all of the things we know
Would you stand up for truth
Or would you turn away too?
And then what if you saw
All of the things that's wrong
Would you stand tall and strong?
Or would you turn and walk away

[Verse 1]
I see a message from the government, like every day
I watch it, and listen, and call 'em all suckas
They warnin' me about Osama or whatever
Picture me buyin' this scam I said never
You in tune to a Hard Truth Soldier spittin'
I stay committed gives a f**k to die or lose commission
It's all a part of fightin' devil state mind control
And all about the battle for your body mind and soul
And now I'm hopin' you don't close ya mind - so they shape ya
Don't forget they made us slaves, gave us AIDS and raped us
Another Bush season mean another war for profit
All in secret so the public never think to stop it
The Illuminati triple 6 all connected
Stolen votes they control the race and take elections
It's the Skull and Bones Freemason kill committee
See the Dragon gettin' sh*ttier in every city
[Chorus]

[Verse 2]
Now ask yourself who's the one with the most to gain (Bush)
'Fore 911 motherf**kas couldn't stand his name (Bush)
Now even n***as waivin' flags like they lost they mind
Everybody got opinions but don't know the time
Cause America's been took - it's plain to see
The oldest trick in the book is make an enemy
Of phony evil so the government can do it's dirt
And take away ya freedom lock and load, beat and search
Ain't nothin' changed but more colored people locked in prison
These pigs still beat us but it seem we forgettin'

But I remember 'fore Septmember how these devils do it
F**k Gulliani, ask Diallo how he doin'
We in the streets holla "jail to the thief" - follow
F**k wavin' flags bring these dragons to they knees
Oil blood money make these killers ride cold
Suspicious suicides people dyin' never told
It's all a part of playin' God so ya think we need 'em
While Bin Ashcroft take away ya rights to freedom
Bear witness to the sickness of these dictators
Hope you understand the time brother cause it's major

[Chorus]
[Verse 3]
So now you askin' why my records always come the same
Keep it real, ain't no fillers, motherf**k a blingin'
Mine eyes seen the gory of the coming of the beast
So every story every word I'm sayin' "F**k Peace"
See you could witness the Illuminati body count
Don't be surprised these is devils that I'm talkin' bout
You think a couple thousand lives mean sh*t to killers?
N***a I swear to God we the ones - ain't no villans
Or any other word they think to demonize a country
Ain't no terror threat unless approval ratings slumpin'
So I'mma say it for the record we the ones that planned it
Ain't no other country took a part or had they hand in
Just a way to keep ya scary so you think you need 'em
Praisin' Bush while that killer take away ya freedom
How many of us got discovered but ignore the symptoms?
N***as talkin' loud but ain't nobody sayin' sh*t
And with the 4th Amendment gone eyes are on the 1st
That's why I'm spittin' cyanide each and every verse
I see the Carlyle group and Harris Bank Accounts
I see 'em plead the 5th each and every session now
And while Reichstag burns see the public buy it
I see the profilin' see the media's compliance
War is good for business see the vicious make a savior
Hope you understand the time brother cause it's major
[Chorus]

How We Do

Yeah
Welcome
You are now in tune to the real
Hard truth - Soldiers
In about 2 seconds a soldier will began to speak

Welcome into Cali where we strong like that
We struggle with the struggle and it's on like that
We guard the gate, separate these boys from men
In the cities where too many take your life for granted

Stone cold with the message, it's on and crackin'
N***as trifilin' ya quick lose ya life from scrappin'
Happens all the time see us dyin' playin' for keeps
Many fallin' to the callin' of these murderous streets

And the world keep spinnin' ...no stoppin' the rain
Seem everytime we happy come the trouble and pain
Even marks playin' heartless - who the hell could know
In a twist he resisted now he stiff in the cold

And we still ain't got no love for no po-lice
How many killin' n***as murder in these City Streets
F**k a Pig and these busta a** n***a beats
It's Black Power on the map, blow the back out your coward-a** rap
Who could match when we spit bricks
See 'em scatter when I call blitz
N***a scratch 'em out the mix
No matter what you been through
We still comin' with that
Bomb bomb biddy in the city when we bring truth

And that's how we do it when we (bomb like that)
And that's how we do it when we (come like that)
And that's the way we do it cause we (strong like that)
See I'mma blast the Devil, the rythmn is the rebel
(we roll like that) (we cold like that)

And that's how we do it when we (walk like that)
And that's how we do it when we (talk like that)

And that's the way we do it when we (come like that)
See I'mma blast the Devil, the rythmn is the rebel
(we bomb like that) (we strong like that)

Still wanna cap those - coward a** rap hoes
N***as can't match flows - Even when I rap slow
Still got the pill - when I spill over beats
And still comin' real never yield sayin' f**k peace

I b*t*h slap fairy tales of straps
What the hell happened to rap? It just collapsed
Perhaps it's ways of the paper chase clones
N***as far gone from the sellin' of the soul
But I'm grown so check the essay, we deep as eses
Blaze, make these haters behave, we on that Che
Guevera seen the fear in they eyes, we world - wide
Swat these phony n***as like flies, who wanna ride

And vibe off my serenade, terror made
Jiggy n***as raise afraid, we finna raid
And blaze when we come around, The black fist
Amazed how we turn it out - it's like this sayin

And that's how we do it when we (bomb like that)
And that's how we do it when we (come like that)
And that's the way we do it cause we (strong like that)
See I'mma blast the Devil, the rythmn is the rebel
(we roll like that) (we cold like that)

And that's how we do it when we (walk like that)
And that's how we do it when we (talk like that)
And that's the way we do it when we (come like that)
See I'mma blast the Devil, the rythmn is the rebel
(we bomb like that) (we strong like that)

Got my att**ude from adolescence - nothin' changed
Gotta say my prayers count my blessin's - what a shame
In this game of life nothin' promised - another day
Got me packin' heat avoidin' drama - who to blame
When we all guilty doin' dirt
In the community too many of us in up hurt
No love for life in this complicated paradox

How many of us gotta die for the madness stop

I look around and all I see is these influences
The hard times in the eyes of the ghetto ruined
So hard to do it when you looked upon as second cla**
Another chapter for Amerikkka's ill-gotten past - you never last

If you don't hold your head high - keep strivin'
Brothers gonna get by - we keep risin'
Even though they want us dyin' - we still thrive and
Believe I'mma keep fightin' - we street soldiers for life

And that's how we do it when we (bomb like that)
And that's how we do it when we (come like that)
And that's the way we do it cause we (strong like that)
See I'mma blast the Devil, the rythmn is the rebel
(we roll like that) (we cold like that)

And that's how we do it when we (walk like that)
And that's how we do it when we (talk like that)
And that's the way we do it when we (come like that)
See I'mma blast the Devil, the rythmn is the rebel
(we bomb like that) (we strong like that)

Yeah, Get ya mob on
Get ya mob on
Street soldiers
Hard truth
Yeah

Freedom (The Last Cell Remix)

(Chorus)
Freedom, Freedom, Freedom, Freedom
This is how we ride and roll - soldier fo life fo' sho
Freedom, Freedom, Freedom, Freedom
This is how we ride and roll - soldier fo life fo' sho

[Verse 1: Paris]
We come back to the days of - grenades up
Black fist raised up - we stay rough
Come this way cause - the game f**ked
Can't stay away from - the main stuff
Still bust when we ride, still game
Still bust any time, f**k fame
Still rhyme under pressure, still bangin'
Still prime, n***as wetcha, still aimin'
Still put a fist in - the system
Still kill a killa cop, we still win
Still be the one to expose the beast (when it's)
Still un-American to be for peace (yeah)
Revenge is a dish best served with steel
If it's on then, lets get it on for real
Can't shut us up - cut us down - never regret
F**k Bush, I'mma say it loud - raisin' a fist - we holla

[Chorus]
[Verse 2: M1, dead prez]
RBG'd up, yeah, ready to get freed up
Bangin' on the system, ready to turn the heat up
Malcolm X c*cktail, ready to burn the streets up
Holla if ya hear me big homie, it's time to eat somthin'
Picture me rollin', me Paris and Chuck D'd up
D**kies and white tee'd up, throwin' them O.G.s love
Listen up, rule number 1 is no snitchin'
Switch up and you gon' have to eat a clip up 'till you hiccup

[Verse 3: Stic, dead prez]
My reality is poverty, police brutality
How I came into this revolutionary mentality
Comin' up in my hood, it's an everyday thang
N***as is hungry and starvin' that's why n***as bang

The O.G.s put me up on the jewels of the game
Ain't no wins in the street if you comin' up lame
That's why I walk how I walk and I claim what I claim
Red, Black to the Green with a gangsta lean

[Chorus]

[Verse 4: Public Enemy]
Get back, we put it back on the map
With Power, a panther return to growl
What I'm talkin', Guerrilla Funkin'
And now we back and I'm rappin' to back 'em off again
What I'm spittin' got 'em trippin' we rush the fakes
To keep us livin' I'll keep givin' 'em records to break
They'll never master me, they'll never master P
Why we blast, hara** until we get a piece
Bring the noise, Public Enemy number 1
And P-Dog'll bust, in God we trust
A def jam without the Def Jam we rise
To rush injustice, brush lies aside
What ya need - self-sense and self-defense now
We got it - representin' we bail through the crowd
Be around and 'round, you can't ignore the sound
We still say feel the Prophets of Rage - Power to the people say
[Chorus]

[Verse 5: Paris]
Rebels at it come again
That's why we conspire so you never win
Keep it calmer when we ride so you never seein'
N***as aim between the eyes so you never mend
Field n***as in the front be the first to bust
GuerrillaFunk.com who you gon' trust?
With all this talk about the war they forgettin' us
Broke schools and abuse made the noose a must
Holla black - f**k a pig and these killers wars
Around the world every border it's the same story
Anywhere that it's color it ain't never peace
Africa, South America and Middle East
Move in packs bust back at these killa foes
Reach first make the heat spurts so he know
No blood for the rich - they been exposed

Now it's power to the people everywhere I go - and everybody's sayin..

[Chorus]
Freedom, Freedom, Freedom, Freedom
Yeah, my live n***as standin' in here, Yeah, my live n***as standin' over there
Freedom, Freedom, Freedom, Freedom
Yeah, my live n***as standin' in here, Yeah, my live n***as standin' over there

- Field Nigga Boogie (XLR8R Remix)

[Paris]
Take it back to the days when we raised us up
'Fore coward-a** rap made the game corrupt
P-Dog in the cut back to bring the pain
Puttin wood on they a** can't stand the rain
And bring heat over beats, and scratch the itch
In a "No Spin Zone," f**k a scanadalous b*t*h
It's the return of the +Bush Killa+ back to bust
Just us for the justice, in God we trust
I rush truth to the youth, and shine the light
Take the red pill, open up your eyes to life
In this land of these crack fiends sheep and moles
See us overthrow the hold of the devil control
And roll deep, keep it underground for the streets
I'm the last sayin, get 'em outta bounds, retreat
Like ants in this war dance, if one fall
Ten more's in his place to advance the cause, it's all

[Produced by Paris]

[Verse 1: Paris]
Guerrillas in the mist
The mainstream team with pro-Black twist
Hard truth soldiers in the game
Hard truth soldiers back again
P-Dog, I evolve
I drag pigs to the slaughter house, but I never eat hog
As the Fed and the World Bank seesaw
We keep y'all in deep awe cause we raw
Like uncooked crack by the government
Hit like a base rock, listen to the ba** knock
Free 'em in Jena, by any means they walk
Let's see who ready to squeeze
Givin' power to the people and take back America
Panic in the head of the state, pa** the Derringer
Aim and shoot, Beirut to Bay Area
Bury a Homeland Security card carrier

[Hook: T-K.A.S.H.]
Get up, get up, get up, get up
Get up, get up, get up, get up
Don't stop the movement
Don't stop it, don't stop it
Don't stop it, don't stop it
Get up, get up, get up, get up
Get up, get up, get up, get up
Don't stop the movement
Don't stop it, don't stop it
Don't stop it, don't stop it
[Verse 2: Paris]
Panther power, acid showers
This land is ours, stand and shout it
This plan to cower, isn't ours
This man is proud, keep the scandalous out
Now if it ain't what we about, it's irrelevant
U.S. policy route? Embarra**in'
Never leavin' you without, we got medicine
And we never bend, we got better sense

Hard truth revolutionary Black militant
Death to the Minutemen, checks to the immigrants
Streets still feelin' it, we still killin' it
We still slaughterin' hawks, feed the innocent
Read the imprint
Guerrilla Funk was birthed outta necessity, collectively
Respectively, to behead the beast
On behalf of the left wing scared to speak
Now get up

[Hook: T-K.A.S.H.]
Get up, get up, get up, get up
Get up, get up, get up, get up
Don't stop the movement
Don't stop it, don't stop it
Don't stop it, don't stop it
Get up, get up, get up, get up
Get up, get up, get up, get up
Don't stop the movement
Don't stop it, don't stop it
Don't stop it, don't stop it
[Interlude: Honorable Minister Louis Farrakhan]
Something is wrong
Wrong with the government in which we live
Wrong with the leaders that lead us
Wrong with us
And the way we respond, to our enemy and each other
This nation is not about poor people!
Whether they're black, brown, red, yellow or white
This nation is about rich people!
And to hell with the weak, the poor, they must serve!

[Hook: T-K.A.S.H.]
Don't stop it, don't stop it
Don't stop it, don't stop it

[Verse 3: Paris]
Guerrilla on the loose
Scars on my neck but I'm holdin' on the noose
Stars rock ice but they rollin' like Roots
Thugs on the mic but they all shine shoes
See I don't care who you is or where you from

You look like slaves and tricks when soldiers come
And anybody disagree can get done
Coons'll run, battle lines are drawn
Take one for the U.S.A., the new Babylon
Renegade nation formed to do battle on
Man-made war for mind control, carried on
Mainstream media platforms to rattle y'all
But I can't be shook by the White House
Never go the right route, that's the right route
Bury me a 'G' for Guerrilla and I climb out
With the nine out, no time for time out
Get up!
[Hook: T-K.A.S.H.]
Get up, get up, get up, get up
Get up, get up, get up, get up
Don't stop the movement
Don't stop it, don't stop it
Don't stop it, don't stop it
Get up, get up, get up, get up
Get up, get up, get up, get up
Don't stop the movement
Don't stop it, don't stop it
Don't stop it, don't stop it

[Outro]
The people, united, will never be defeated
The people, united, will never be defeated
The people, united, will never be defeated
The people, united, will never be defeated
The people, united, will never be defeated
The people, united, will never be defeated
The people, united, will never be defeated
The people, united, will never be defeated

So What

[Opening skit]
FREEZE, POLICE!! (What are you doing?!)
On the floor, ON THE FLOOR NOW
{On your stomach, get on your stomach, on your stomach!}
{ON YOUR STOMACH!} {*gunshots*}

[Verse 1: Paris]
Yo, they got up out the squad car
Jaws hard, jar heads, they want us all dead
Walkin' up to the door, they all saw red
It's one local detective, the rest is all feds
Kick the do' down, ripped the whole house up
Grandmama asked what's wrong and got her mouth cut
The lead fed grabbed her by the throat, threw her up against the wall
And told her they won't leave without drugs
With no just cause, just cause
Had her tied up in her own closet wearin' just drawers
Pants down, standin' 'round sweatin' and laughin'
And high-fivin' each other like, "That's what's up dawg!"
Until a blizzard of bullets blew some nuts off
One by one they run but got gunned off
Her grandson was only five but he saw the whole thang from the stairs
And managed to make the gun cough

[Hook: T-K.A.S.H.]
These streets can only see so much until they say "So what?"
Let the police cars blow up
It won't be long 'til the ghetto can only take so much
Of the blame gettin' thrown on us
And politicians bodies go numb from going dumb
So what?
[Verse 2: Paris]
Yeah, another visit from the social worker
She know her kids ain't supposed to know this dope and murder
He know her kids ain't supposed to notice dope and murder
So he let her keep 'em in exchange for some social service
And every week's the same, he gets so nervous
They snort coke, then she let him hit it 'til it hurt it
Typically, that's the end of the date
She swallows his pride, the kids can stay

She ain't mentioned he the reason why the baby in her stomach got her tummy out
When she did, he froze up and dummied out
Took her food stamps, put him in his book
Walked away then she screamed out "Hey!" and caught a left hook
That's when the hollow tip hot one let his chest cook
Shortened every breath took; her young son
Mean muggin' handcuffed as they took him away
Said "Momma you gon' be okay, so what?!"

[Hook: T-K.A.S.H.]
These streets can only see so much until they say "So what?"
Let the police cars blow up
It won't be long 'til the ghetto can only take so much
Of the blame gettin' thrown on us
And politicians bodies go numb from going dumb
So what?
[Verse 3: Paris]
She was a proud mom, a G.I. Joe mom
Couldn't see they lied for war, she was all for it
Wavin flags, sportin tags with the yellow ribbons
And when she said he was a hero know she really meant it
'Til somebody showed her proof of the ruse
Took her to Guerrilla Funk dot com for the hard truth
Showed the motive and the profiteering from the mission
She got mad and wrote her congressman but he ain't listen
So she prayed everyday that they
Would pull the troops out the fray and they would be okay
All she had was her faith 'til the day the news
Came talkin 'bout that roadside bomb in Fallujah
And even though she thought she'd been through the worst
Mama walked into the closet, put the strap in her purse
And went first to the door of her congressman's home
Took his life 'fore takin her own, shoulda known

[Hook: T-K.A.S.H.]
These streets can only see so much until they say "So what?"
Let the police cars blow up
It won't be long 'til the ghetto can only take so much
Of the blame gettin' thrown on us
And politicians bodies go numb from going dumb
So what?
These streets can only see so much until they say "So what?"

Let the police cars blow up
It won't be long 'til the ghetto can only take so much
Of the blame gettin' thrown on us
And politicians bodies go numb from going dumb
So what?

Blap That Ass Up

[Female news reporter]
That verdict just came down
Those three detectives, not guilty, on all counts
Not guilty of the manslaughter charges
Not guilty of the a**ault charges
Not guilty of the reckless endangerment charges
That verdict, is going to rock this city, this community
The, groom's fiancee, the one who was killed
They were, they had said prosecutors, proved this case
But they put on witnesses
But I want to show you, let's just turn around
I want to show you, just what's going on here
{*BLAM BLAM*}

[Unknown speakers]
We out here with the youth
The youth is saying F**K THAT, it's enough is enough
Well you the final one right now man, y'knahmean?
So we gotta take back the streets, you understand?

(We face this every day, it's not an isolated incident)
(We all know, how we feel about the cops)
(And how they practice this inst**utionalized racism)

House by house, door by door, block by block
Neighborhood by neighborhood, we need to organize
We need to have our own system set up, to control our communities
We don't need these racist pigs comin in our neighborhood
With their hands on their gun cause they're scared of us
[Hook: repeat 2X]
Blap, blap blap that a** up {*3X*}
Blap, blap blap, blap blap

[Unknown singer 2X]
What you came fo'?
What you came here fo'?
What you playin fo'?
Seri-seri-seri-serious

{*BLAM BLAM*}

[Paris as radio announcer with singer in background]
And yes yes y'all you in tune to Hard Truth Soldier Radio
Shoutin truth to power, representin freedom justice and equality
Comin in every city and every town
Every ghetto all 'round~!
Worldwide, where we ride on the police
Cause the police beat us

[Unknown speaker]
I don't care what they say
We're not the only ones that can bleed
We're not the only ones that can go to funerals
Unless they stop killin us, we're gonna take it into our own hands
We're not the only ones that can bleed... {*echoes*}
[Male news anchor]
Recent police shootings involving African-American victims across the U.S
Has led to a string of angry protests from outraged black community members
(There is a culture, of police officers out there that represent)
(a legalized genocide, and we need to recognize that)

[Paris]
1-2-3 in the parking lot
Make it pop so they feel when I peel the Glock
Hear the shot, killer cops all drop and fold
Ring around the rose pocket fulla slugs and holes
Controlled beef like demo-lition, the mission
Most prof-ficient with those that don't listen
We merk this b*t*h a** pigs when we ride through
Me in the front seat, T through the sunroof
Now gas, break, shoot
Cause it's an eye for an eye for the lives took and the bru-
-tality and the rapes and the bleedin'
For dope and the choke holds, water hosin the people
But the blap make it equal
"Blap, blap" be the sound for the WOOP WOOP when we see you
It's a gang war sequel
Between us and the punk police for what they do

[Hook]
[More news excerpts and speeches from 3:30 to the end]

The Trap

[Verse 1: Paris]
As I bend the corner ba** beatin' the back
I sink into the mood and watch the people react
Same gritty conversation, same bomb-a** rap
Same sh*tty-a** conditions, same grip on a strap
Same pigs, same crackers, same n***as united
Buyin' into the stereotypes that we fightin'
Buyin' into the stereotypes of us bein'
Buck dancin' a** sex-crazed murderous fiends
Still f**kin' up these home-schooled simpleton haters
Same people that display us wanna kill and betray us
Same division, mo' religion, never readin', just prayers
More bounty hunters, Imus' and Jena's and Kramer's
Still blame us for the cause of the way that we act
While lullabies of celebrities still keep us distracted
Keep the focus off the President and sh*t in Iraq
Keep us scapegoatin' immigrants and n***as on crack
Keep the propaganda comin', keep impressin' the kids
They only care about us when its time to enlist
But when them politicians talk about protectin' the fetus
What it mean when they send us off to war and mistreat us?
Tax cuts for the rich, ain't no snitchin' allowed
'Specially if it's piggies that we talkin' about
As they murder motherf**kers comin' up in your house
Seem that violence is the only thing they listen to now
It's the trap
[Chorus: Sandy Griffith]
Look at all the gangsters ride
Sometime it seem we born to die
What will it take to make it right?
With no chance, no promise of advancement, hey
Don't wanna lose another life
We've seen too many of us die
Let's put this thing together right?
Take a stand, and plan to get ahead

[Verse 2: Paris]
Now let's, get this sh*t clear once and for all
Ain't no terrorist that's bigger than America's balls
Ain't no terror more terrible than terror we brought

And ain't it terrible the terror's all America's fault
I'm askin', what would you do if you knew of it all?
If you knew all our enemies were made for the part?
If you knew that everything they do is part of a plot
That's pre-agreed upon with us, so you always support?
Claimin, patriot but can't never explain
Why babies killin' babies in America's name
Why black and brown bodies, why murder and pain?
Why these motherf**kers laughin' all the way to the bank?
That's gangster! But we don't see the truth of it still
Don't see the truth the way the ruthless murder and kill
Ain't no doubt about it bruh, that's big pimpin' for real
And you askin' why I'm out here servin' 'em still
It's the trap
[Chorus: Sandy Griffith]
Look at all the gangsters ride
Sometime it seem we born to die
What will it take to make it right?
With no chance, no promise of advancement, hey
Don't wanna lose another life
We've seen too many of us die
Let's put this thing together right?
Take a stand, and plan to get ahead

[Verse 3: Paris]
The way I see it, the only way to change it is pain
Seems they only pay attention when we splatterin' brains
Seem they never seem to hear us when we march and complain
Or when when we protestin', hopin' pigs don't whoop us again
Look here, see how fast money come for the schools
And how quick them motherf**kers bring home the troops
How the coonin' and derogatory sh*t in the music'll go away
When they see the people snatch 'em and shoot 'em!
Just watch! You'll see, sh*t'll change on a dime
Best believe for politicians ain't gon' be no more hidin'
Ain't gonna be no mo' lyin, don't wanna see 'em in court
Don't wanna sue 'em, rather do 'em, shoot 'em up in his Porsche
Bring the balance back where the people making the rules
Where the government is scared of what the people might do
And not the other way around, y'all got it confused
Was ignored, but you listenin' now! We on the move sayin'
[Chorus: Sandy Griffith]

Look at all the gangsters ride
Sometime it seem we born to die
What will it take to make it right?
With no chance, no promise of advancement, hey
Don't wanna lose another life
We've seen too many of us die
Let's put this thing together right?
Take a stand, and plan to get ahead

[Post-Chorus: Paris]
A write tah Congress is what they say it's about
I'm sayin', f**k de letta, wet her leavin' de house
I get my, gun and stun 'em, run dem out of de town
I'd rather, shoot now congressman, I shoot now congressman
I vote but never stop the problem around
Dem soldier, only murderin' the black and the brown
I get my gun and stun 'em, run dem out of de town
I'd rather, shoot now congressman a, shoot de President a
A write tah Congress is what they say it's about
I'm sayin', f**k de letta, wet her leavin' de house
I get my, gun and stun 'em, run dem out of de town
I'd rather, shoot now congressman, I shoot now congressman
I vote but never stop the problem around
Dem soldier, only murderin' the black and the brown
I get my gun and stun 'em, run dem out of de town
I'd rather, shoot now congressman a, shoot de President a

[Newsreel footage]

[Chorus: Sandy Griffith]
Look at all the gangsters ride
Sometime it seem we born to die
What will it take to make it right?
With no chance, no promise of advancement, hey
Don't wanna lose another life
We've seen too many of us die
Let's put this thing together right?
Take a stand, and plan to get ahead

Get Fired Up

[Verse 1: Paris]
What you know about that hip-hop that's corporatized?
What you know about them porch monkey raps and lies?
What you know about the image black men as pimps?
And Slavor Slav-a** country coon n***as with limp?
What you know about a mack MC with skills
Who could spit and kick real sh*t people could feel?
What you know about the radio and fake-a** clowns
With the same ten songs, every city and town?
What you know about that Hollywood culture fetish
And who f**kin' who and what b*t*hes is wearin'?
And who gettin' fat and who adoptin' who
And what n***a got arrested now actin' a fool?
What you know about these rappers on Cribs at night?
Shootin' pool with no motherf**kin' books in sight
Grinnin' grills when they showin' off they rims and ice
With that (Ha!), wish them dumb motherf**kers be quiet
See, I'm fresh outta favors, so excuse my tone
This bullsh*t been goin' on way too long
Who decide what you listen to and what gets shown?
Who decides what message get inside your home?
I'm knowin' all about devil-a** Jimmy Iovine
And all of the rest of the killin' machine
Debra Lee and the BET hoes and demons
Dealin' dope through the radio and video screens
I'm sayin', what if we demand a change?
And blow heads off 'stead of complainin'
I'll bet then you listen what folks sayin'
When we say we had enough, knowin we ain't playin'
Now get fired up
[Hook: T-K.A.S.H. and Sandy Griffith]
(Oh-wa-oh)
I get fired up (Louder!) (Oh-wa-oh)
I get fired up, (Oh-wa-oh)
I get fired up (Oh-wa-oh)
Look at what they doin' to me
(Oh-wa-oh)
I get fired up (Louder!) (Oh-wa-oh)
I get fired up, (Oh-wa-oh)
I get fired up (Oh-wa-oh)

Look at what they doin' to me

[Verse 2]
Oh yeah, and f**k these political hacks
Wanna act like they the mouthpiece for Blacks
Jesse Lee and Ward Connerly and Keyes, attack
Anything Black when white folks writing the checks
And in fact, I could see hella n***as is blind
Like Armstrong leavin' every child behind
And McWhorter's a w**** too, sh*t is a crime
Clarence Thomas couldn't ever be a brother of mine
I shine light on that bullsh*t, it's all self hate (Yeah)
Who the next face to betray the race?
I place bets that the real people sure to relate
When I blast on that bootlickin' masquerade, and say
"Hold up, wait a minute, n***a stop please
Me don't suffer from victim mentality
All we ever did was try to get a piece
Of the pie that supposedly for everybody"
Real talk, somebody best tell Russell
Fo' street n***as catch his a** up in a tussle
Drop squad in effect man, de-program
We throw his pink wearing a** in the back of the van
And say no more rap apologist, I quit
Every diamond is a blood diamond, please forgive
And see me redeemed for the deeds I did
For that Def Jam scam pushin' poison to kids
Now get fired up
[Hook: T-K.A.S.H. and Sandy Griffith]
(Oh-wa-oh)
I get fired up (Louder!) (Oh-wa-oh)
I get fired up, (Oh-wa-oh)
I get fired up (Oh-wa-oh)
Look at what they doin' to me
(Oh-wa-oh)
I get fired up (Louder!) (Oh-wa-oh)
I get fired up, (Oh-wa-oh)
I get fired up (Oh-wa-oh)
Look at what they doin' to me

[Verse 3]
What about these racists that talk that sh*t

'Bout these immigrants, like they claim to it's legit?
Like they ain't stole it anyway, murdered and pillaged
Like they justified, cryin' 'bout they want to get rid of
It's the one-two-three, the three to two-one (Yeah)
This nation was built on the backs of brown
Slave trade and the dead red population
Put the yellow man in a camp concentration
Now, I blast on these right wing hoes
Now, who'll be the first exposed?
Hannity with that weak doublespeak his tone
I'll make his drop out bartenderin' a** get thrown
And f**k Mike Savage, radio snake
With that bully bullsh*t minuteman debate
Pro-life, pro-war, man, it's all pro-hate
Do him in for his sins and Katrina disdain
And uh, motherf**k yo' taxes b*t*h
While Chevron is stackin' chips
While they send another off to die
Send another young body to Iraq with lies
What the f**k you gonna say to me? I see right through it
Through the smokescreen, keepin' folks meaner and stupid
Through the fake fear, fake tears, pride and collusion
Ain't no fakes here, all I see is lies and abuses
P (Dog), still the one you can't f**k with
Educated then a motherf**ker, I see clearly
Can't be whupped or debated, can't break my spirit
Never bought off, never go soft, and never fear it
Hear it loud when I say it, that's the way that it go
Hear it loud, cause I'm killin' 'em with words in a row
B*t*h, it ain't Paris Hilton, it's the murderous flow
Only P-Dog spittin' is the Paris you know
Now get

Neighborhood Watch

[Produced by Paris]

[Verse 1: Paris]
You can keep fightin', or you can go home
You can keep tryin', or get rolled on
I'ma keep ridin', 'cause when the funk is on
Most of these so-called rebels ain't got they phones on
So I turn to the killers and the gangbangers
Teach 'em how change, doin' the same thang
Show a loc how to love himself
And how self-hate make you wanna slug yourself
Introduce him to the enemy that enemy made
And how the evil made 'em murder for the clique that he claim
When I see it all click in his brain
I put an clip in his hand and tell 'em, "Come on, it's women to save"
You a young black warrior, raised in a battlefield
Some say soldier, trained with a strap to kill
But it ain't no good if all you think about
Is shootin' up the area Blacks chill, and that's real

[Chorus: T-K.A.S.H.]
Time to leave the wrong for right
Gotta make a change in my life
Shake all the stress and strife
And gain wealth with knowledge of self, baby
Settle down and raise a fam
And know about that master plan
That's why we gotta understand
Nobody looking out for us but us, true baby
[Verse 2: Paris]
History and time have proved nobody cares
If you live life cool or you die but you
You ride for me homie, I'ma ride for you
Long as you understand who you bring the violence to
If you hard enough to murder for malt liquor and mean mugs
Mash on these b*t*h-a** cops who bring teens drugs
And politicians who pa** laws that don't do sh*t, keepin' streets corrupt
Keepin' us stuck
And trapped in that hell hole
I know the reason of the reason for the reason which your mind bases hell on

You ain't gotta call hell home
If you think twice 'bout smokin' a brother for gettin' his mail on
Let me guess, you ain't workin' for the white man?
Who you think you workin' for, sellin' white, man?
They lend you yayo, send you to jail
The hard truth of it spells the intent to fail, might as well

[Chorus: T-K.A.S.H.]
Time to leave the wrong for right
Gotta make a change in my life
Shake all the stress and strife
And gain wealth with knowledge of self, baby
Settle down and raise a fam
And know about that master plan
That's why we gotta understand
Nobody looking out for us but us, true baby
[Verse 3: Paris]
Real G's know the drama
From being nine years old seein' Five-O feelin' all on your momma
Smacked her hard, threw her in the back of the car
For some out of date tags on the car
That's hard, real Crips know the real sh*t
Livin' with ya granny 'cause ya daddy ain't never callin' or give sh*t
So of course, the anger from the pain just might be the blame
For n***as that get they wig split
Real Bloods know it's hard to feel love
If daddy was there, but he threatened to kill us
And while we did homework, he just did drugs
Of course, I'ma flash red rags and give it up, n***a
Punk police, deadbeat daddies and crack
Are the reason many hated bein' black
It's time to rise up, open your eyes up
To the people who created the trap and hate that, take that

Acid Reflex

[Verse 1: Paris]
Hard truth soldier music, hard truth over music
Exposed so the youth can use it
Guerrilla Funk don't confuse it
With off-brand gangster rap that don't do sh*t
P-Dog and I'm back with a new clique
Sharpshooters, four deep in a 'lark shooters
That might creep in dark and shoot the police
In the heart for Sean Bell and Martin Luther
Cause ever since '90
America tried to bling me, but they still can't blind me
Eighteen years behind me, twenty mo' left
Pro-left, pro-death, the Bush Killa
Corporate conservative crook killer
Wolfowitz for the chips that he took killer
This industry is full of shook n***as
That's why the shame grip breaker returns to left hook n***as

[Hook: T-K.A.S.H.]
Now when we say Guerrilla Funk
We don't mean monkeys on a vine
We mean this as in New Orleans
Virginia Tech and Columbine

[Verse 2: Paris]
We still rise like gas prices
On fire like CNN satellite vans if they pa** by us
Like Bechtel hush money cash stipends
Lindsay Lohan's nose and v*****
F**k Imus
Then again white folks pointin' fingers at the hate that hate made is timeless
Look at Hussein, paid 'em, trained 'em
Played 'em, called 'em "al-Qaeda" then hanged 'em
You said die n***a? But I'm still crackin'
Like six out of twenty nine eleven hijackers
If anybody dead, it's kids in the black church
Being mislead by the misled
B-E-T, telling kids get bread
But never telling 'em what to do with bread
A project for the b*t*h scared

Joe Biden running blue but he just might drip red
[Hook: T-K.A.S.H.]
Now when we say Guerrilla Funk
We don't mean monkeys on a vine
We mean this as in New Orleans
Virginia Tech and Columbine
O.J. Simpson, B.T.K
Beltway, Peterson, Jon Benet
The San Francisco Panther 8
Our government's hate for foreign kind

[Verse 3: Paris]
Representing for the innocent victims out in Darfur
But it's really not our war
I'ma leave it alone on this track cause that's something
I had to go and write to a whole 'nother song for
The rap sh*t got n***as on all fours
T-K.A.S.H. make many sound like Forrest
Guerrilla Funk, straight vets, place bets them
Pseudo-a** revolutionaries never come towards us
By the way, if you ain't spittin' hard truth
Then you ain't spittin' sh*t up in our booth
Grande mocha civil rights leaders get a
Blue star mama tryin' to walk up in our shoes
Guerrilla Funk dot com is the website
Log on, get'cha head right
We got pro-red right scared to head to bed at night
Hard Truth won't spare ya life motherf**ker
[Hook: T-K.A.S.H.]
Now when we say Guerrilla Funk
We don't mean monkeys on a vine
We mean this as in New Orleans
Virginia Tech and Columbine
O.J. Simpson, B.T.K
Beltway, Peterson, Jon Benet
The San Francisco Panther 8
Our government's hate for foreign kind

[Interlude]
What is a revolution? Was no love lost, was no compromise, was no negotiation, I'm tellin' you you don't know what a revolution is! Because when you find out what it is you'll get out of the way. You haven't got a revolution that doesn't involve bloodshed

And you're afraid to bleed, I saw it, you're afraid to bleed
If it is right, for America to draft us and teach us how to be violent, then it is right for you and me

[Bridge: Sandy Griffith]
We don't talk about, we do it
Got no time to dance, it's the movement
Comin' way too strong, let's move it
Freedom must be won, or lose it

[Interlude: Paris]
Who said freedom could never be won?
Who said it was the ballot or the gun?
Who said a group like us, couldn't move?
It wasn't me, but maybe it was you
[Another speech to end - "never back down, never bow down"]

- True

[Verse 1]
Welcome back to California
The punk police will calico ya
The funk won't cease, we battle on the grounds
Of who it is that really own the town
Business, palm trees, a hundred degrees
C-I-As, F-E-Ds smuggle in keys
Schwarzenegger still hustle and scheme, puffin' the weed
Feelin' on women, killin' the whole scene
And I'm killin' that old image you got
I know you think the West coast started with Eazy and finished with 'Pac
But think again, we got it just as hard out here
You act like the government ain't in charge out here, man
Pa** the Molotov, light it up, and throw it at the city hall
Administration, station
Face the Nation, I ain't talkin 'bout the President
I'm talkin' 'bout the flag with the star and the crescent in it

[Chorus]
Look at all the gang bangers sidin' with true cuz
Look at all the flame brangers ridin' with true blood
P-Dog done provided the truth of the true thugs
How they divide and confuse us
Look at all the gang bangers sidin' with true cuz
Look at all the flame brangers ridin' with true blood
P-Dog done provided the truth of the true thugs
How they divide and confuse us
[Verse 2]
Now put your purple back partner, I don't smoke trees (Nah)
No dank, no drank, no coke, or speed (Hell, naw!)
You know me homey, sober and clean
A lot of G's want me on the team, but I don't roll with dope fiends
Imagine me goin' from Tookie to Pookie
I'm a threat 'cause mainstream rejection didn't spook me
Rappers tried to make me switch and couldn't move me
Kufi salute me and true n***as choose me
Viewed to be the new Huey in Newsweek
We all speak truth, now listen to the truth speak
Full circle with the way I view beef
If you don't choose peace, you leave with no front two teeth

Up in this motherf**ker (Yeah)
Guerrilla Funk and we ain't never been no run-and-duckers (That's right)
Now tell me what's so gangster 'bout flossin' your bank account
For some quick attention from the women while the people in the hood suffer

[Chorus]
Look at all the gang bangers sidin' with true cuz
Look at all the flame brangers ridin' with true blood
P-Dog done provided the truth of the true thugs
How they divide and confuse us
Look at all the gang bangers sidin' with true cuz
Look at all the flame brangers ridin' with true blood
P-Dog done provided the truth of the true thugs
How they divide and confuse us

[Verse 3]
Well look here, what'chu think of bringin' back the free breakfastes
The free food, free health care, free dentistes
The homey Fleetwood got the homeboy hotline
An ex-felon job line, hit him on MySpace
And pardon as I take part in upliftin' of my race
Past the high rate of incarceration and crime rate
Bein' my fate, so if you don't believe
That we can struggle and achieve then get out my face
So quick, so fast, you don't get no pa**
You don't get mo' black, we'll kick yo' a**!
Then turn around and spend yo' cash, in the hood
With the mommas and the kids livin' with no dad
Frisco through Oakland, Vallejo through Oakland
They try to gentrify and then rebuild most Oaklands
But it's still mo' funk and coke smokin' in the Oakland
Fo-fo's blowin domes open, think about it

[Chorus]
Look at all the gang bangers sidin' with true cuz
Look at all the flame brangers ridin' with true blood
P-Dog done provided the truth of the true thugs
How they divide and confuse us
Look at all the gang bangers sidin' with true cuz
Look at all the flame brangers ridin' with true blood
P-Dog done provided the truth of the true thugs
How they divide and confuse us

- The Violence of the Lambs

[Pastor Jeremiah Wright]
What Malcolm X said, when he got silenced by Elijah Muhammad was in fact true, "America's chickens are coming home, to roost!"

We took this country by terror, away from the Sioux, the Apache, the Arawak, the Comanche, the Arapaho, the Navajo; terrorism! We took Africans from their country to build our way of ease and kept them enslaved, and living in fear;
Terrorism!

We bombed Grenada and killed innocent civilians, babies, non-military personnel; We bombed the black civilian community of Panama with stealth bombers and killed, unarmed teenagers and toddlers, pregnant mothers and hard working fathers

We bombed Gaddhafi's home and killed his child. We bombed Iraq, we killed unarmed civilians, trying to make a living
We bombed a plant in the Sudan to pay back for the attack on our emba**y

Killed hundreds of hard working people, mothers and fathers, who left home to go that day not knowing that they'd never get back home

We bombed Hiroshima, We bombed Nagasaki! And we bombed far more than the thousands in New York, and the Pentagon, and we never batted an eye

Kids playing in the playground, mothers, picking up children after school, civilians, not soldiers, people just trying to make it day by day
We have supported state terrorism against the Palestinians and black South Africans, AND NOW WE ARE INDIGNANT!
Because the stuff we have done overseas is now brought right back into our own front yards!

America's CHICKENS, are coming home, to roost

Winter in America

[Produced by Paris]

[Verse 1: Paris]
I know you thought I wouldn't say somethin'
About the way the radio and TV, don't really say nothin'
Unless black men stay thuggin'
Unless black women straight sl*ttin'
I know you thought I wouldn't talk about rich white men
Still doin' to black artists today what they did to the ones back then
Can't you see brother, they don't love you
They just want money off of what you do
I know you thought I wouldn't speak on those with hot tracks
Runnin' 'round tryin to tell me hip-hop is not black
For real, it ain't black now? I guess it ain't
Long as y'all wanna thug in the 'burbs, slummin' dressed down
I'ma talk about the doc*mented fact
America funds Israel more than all of Africa
What the hell would I be rappin' for
If hard truth ain't attackin' ya, blappin' ya?

[Hook: Paris]
It's the same thing every day, we keep movin'
It's the same games people play, we see through 'em
Long as I am alive, the grind won't stop
We gonna fight 'til we die, the rhymes won't stop
Try to maintain through the pain, we keep movin'
'Til the chains break from the brain, we break through 'em
Long as justice denied, the grind won't stop
Bringin' sight to the blind, the rhymes won't stop, now come on
[Verse 2: Chuck D and Paris]
Microphone check 1-2, check the sound
Ba** for ya face, bring the level around
See us break over breaks take the racists and blaze
We, back on the stage, it's the prophets of rage
Not Dre but I'm still watchin over the game
What the hell has happened to us, seem as nothing has changed
Just coons on the tube, jiggaboos and pimps
Act a motherf**kin' fool while labels makin' a mint
I spit a verse, maybe curse, every city and town
What's the worst that could happen, brothers workin' it out

I been around growlin' freedom or death since day one
Miuzi weighs a ton, don't forget it's the bomb
I run up, we Public Enemy, they ain't said sh*t
Put the message in the music so you never forget
Time to take this thing back put the hit in the hits
If you ain't mad then you ain't even tripped
Pay attention, it's the Enemy

[Hook: Paris]
It's the same thing every day, we keep movin'

[Verse 3: Paris]
9/11 is no longer a conspiracy
It's being used to reduce civil liberties
Speak critically, they can legally ignore you
And let the VeriChip think for you
Screamin' out no child left behind
But all we end up, learnin' is how to work for the wealthy kind
Cause wealth defines the health we buy, from Blue Cross to
Leaders of the banks from the checks we write
Foolin' with my food, chickens as big as the turkeys
GMO's make produce bloom a month early
Cross-pollinatin' rice grains with hormones
Highly afraid of ice age, tryin' to fight plagues
But the real issue, is when you speak the hard truth
Then they will get you, bringin' light to our youth
Then they will kill you, if you Armstrong Williams
They big scrill you, and force the fickle to feel you, for real

[Hook: Paris]
It's the same thing every day, we keep movin'

The Hustle

[Uncle Ruckus from Boondocks]
Praise be the white God and his son, white Jesus~!
I'm on a mission from God
Contagious with the holy spirit of our caucausian savior
Now let me share his words wit'cha
"Come, child of God! Come!"

[Paris]
It's like the blind to the blind leading blind around
Put'cha faith in a spook God, how that sound?
Put'cha faith to the most and an unseen ghost
That they say full of love but we come up sho't
Now what I wanna know is where Jesus at
When the wars rage on and the po-lice clap
When the crime rate risin black on black
And the water from Katrina wash away your fam
It's like a, cruel joke that's played a lot
On the people that rely on they faith a lot
On the people that obey and respect a book
That was written by man to control the flock
Now tell me, how any God is just
To allow such misery and pain in us
To allow all the war sufferin and such
And to allow the President to remain untouched

[Hook: repeat 2X]
No different than the pimp game
Give you somethin to believe in
Give ya money to the preacher man
Take me a little higher, higher, higher
[Paris]
Pa** the plate around, put it on the buildin fund
While the priest get drunk and molest ya son
Such grief, no peace from the HIV
Thank god that he killin off the fags and fiends
But I guess the Lord works in mysterious ways
That's why it's okay for them to own the slaves
And civilize savages, praise his name
Take land, split the family up and sell off babies
What I'm sayin, it's kinda f**ked up to trip

That the sh*t you believe might not exist
Somethin like a unicorn man, it's on the list
With Big Foot, Mickey Mouse, Santa Claus and myths
And sh*t some might say "they's blas-phem-ous"
When I question the plague in Af-ri-ca
When I question the way your Jesus looks
And the way it affects all the minds of us, I'm sayin

[Hook]

[Paris]
Now look here, it's about that time again
When the corporations say spend and spend
On the trees and the gifts and the travellin
Kam told y'all the holidays are not ya friend
And when everybody floss, you can get it at Ross
And the midnight sales make 'em smile at Zales
What the hell~! They'll sell y'all the whole damn earth
Everything at the mall celebratin his birth
From a virgin, a perp couldn't make that up
If you believe that I got a bridge ready to dump
While your broke a** givin up the cash, fo' what?
They say the faith kicks in when the facts can not
And it make me wanna holla, Benny Hinn's the man
Like Creflo Dollar, that's Big Pimp-in
F**k rap, I could lead you from a life of sin
Sh*t next Sunday, we do it all again
[Hook]

[Paris]
Now I know some of y'all get mad at songs
So get your gay senator to pa** a law
Get the free speech out the way once and for all
Tap his motherf**kin shoes in a bathroom stall
Greenbacks, no tax is the golden rule
Anything they can do to keep y'all some fools
Don't mean to offend but that's okay too
Long as y'all recognize and explore the truth
Because it .. ain't no hustle like religious hustle cause religious hustle don't stop
Ain't no hustle like religious hustle cause religious hustle don't stop
Ain't no hustle like religious hustle cause religious hustle don't stop
Ain't no hustle like religious hustle cause religious hustle don't stop~!

[Hook] - 2X

"God bless us all" (*3X*)

› Rebels Without Applause

[Intro: Paris]
Yeah, yeah
Haha!

[Verse 1: Paris and T-K.A.S.H.]
I'm representin' where the sun set
Guerrilla Funk and we still ain't done yet
T-K.A.S.H. and the "Bush Killa," one threat
One sniper on the rooftop, one vet
Now come get with this West coast revolutionary tag team
Republican bad dream, blitzin' the rap scene
Pullin' over Five-O, profilin' white folks
Rewirin' Diebolds, why you lie under oath
I'ma let the fo' pancake, drag and scrape
Drive by the county jail with a hand grenade
It's a planned escape, Tomie Kash take the wheel
As I throw it at the gate for the Panther 8
While you sucker b***s trippin' off job cuts, I just
Keep a Glock tucked for the FBI
Like a Walter Reed patient, they'll let me die
For my deadly vibe, but instead we ride

[Chorus]
Real revolution, actual solution
You can clap if you want but it ain't 'bout that
Hard Truth the movement, more than just music
The respect of the ghetto is where it's at
[Verse 2: Paris and T-K.A.S.H.]
See we make the hood mobilize
Rise up cause they 'posed to rise, ride on you cause they 'posed to ride
For the Hard Truth Soldier side
When you see this motorcade unload and drive
Come slow from behind
And let the automatic make a hole from behind
The rich stay panicked, but the po' don't mind
If piggies get blasted, just those ha**lin' brown and black kids
We some West coast cla**ics, left vote pa**ing
No wackness, no braggin', so active
Freedom and equality we gon' have it
Known a**a**ins known for blastin' Dog and K.A.S.H

On and crackin', fo'-fo's and masks
For po-po's harra**in po' folks with pa**ion
Hard truth soldiers, our troops home right now
Or the nine millimeter might blaow

[Chorus]
Real revolution, actual solution
You can clap if you want but it ain't 'bout that
Hard Truth the movement, more than just music
The respect of the ghetto is where it's at

[Verse 3: T-K.A.S.H.]
The hood know my name, I'm good with the game
If Cheney got shot then I would get the blame
Even though I didn't do it, the feds can't stand to see
A revolutionary with the ghetto influence
By the way I talk turf, and still spit the real
On the way they got work, for kids in the hills
But they only got purp, and pills where it is
Mo' liquor stores than church, the dead folks go on shirts
I'm T-K.A.S.H., the pride of the underground
Guerrilla Funk, never ride to another sound
Make a politician run and hide when they come around
Cause of how I instruct hounds to gun ya down
The government make scratch mo'
Than my home girl who be spinnin for my potna with the afro
Black folks stack dough, scratch the smoke
Subtract dope, add hope and vote, like that doe!
[Chorus]
Real revolution, actual solution
You can clap if you want but it ain't 'bout that
Hard Truth the movement, more than just music
The respect of the ghetto is where it's at
Real revolution, actual solution
You can clap if you want but it ain't 'bout that
Hard Truth the movement, more than just music
The respect of the ghetto is where it's at

One Gun

[Produced by Paris]

[Intro]
"It's the fighting and development, and it threatens everyone who lives here. Some call it ethnic terrorism, and there's plenty of hatred to go around. African-Americans that hate Latinos, Latinos that hate African-Americans. In the past four years, an eleven percent spike in violence that crosses racial lines."

[Verse 1: Paris]
Original man, original family
Black-Brown unity, simple to understand
Ain't no us in them
Just us, 'cause just us trust us to bust the Klans and Minutemen
We the same thang
That's why the media is givin' us the same names
Convicts strikin' A**ata, the same game
Settin' up the same circ*mstances in the barrio and in the hood 'til we gangbang
Blame Spain, San Fran, San Diego, San Houston
Hampshire, New York, it's all the slave trade
Made rage, against us, we gotta defend us
In defense of the lineage in us
That keep us divided
Peep us fightin' one another and keep it alive with
Propaganda, paid informants, and people aligned with
Public school systems knowin' we the same person
But we a threat, so they secretly hide it

[Chorus: T-K.A.S.H. and Paris]
One gun, one slug, one blood
Regardless of where we might come from
Represent the same, represent the peace
So tell me why the pain? So tell me why the beef, what?
One gun, one slug, one blood
Regardless of where we might come from
Represent the same, represent the peace
So tell me why the pain? So tell me why the beef? One
[Verse 2: Paris]
Thirteen, fourteen, Crip, Blood, Latin King, Vice Lord, M.A
Nah I mean, comprende?
Temples of Aztlan, pyramids up in Egypt

But we just see us for what the TV shove
Back to blackfaces, about the Brown race
We fight over a hate made up to douse flames
The fire over gentrification, colonization
To savin' abuela, auntia, uncle and tia
Seein' is believin', you wanna talk about a reason
Squabbin' in the seventh grade with the ese's, that's why them ese
But like they say, we ain't sh*t
We can't get past it if we don't even see it in the first place
The worst case is a race war
Only finna benefittin' the mothaf**kers who birth race
War would end in war with men
Who make war with skin and not towards your kin, one

[Chorus: T-K.A.S.H. and Paris]
One gun, one slug, one blood
Regardless of where we might come from
Represent the same, represent the peace
So tell me why the pain? So tell me why the beef, what?
One gun, one slug, one blood
Regardless of where we might come from
Represent the same, represent the peace
So tell me why the pain? So tell me why the beef? One
[Verse 3: Paris]
Way before the Mayflower, we came before Columbus
And Columbus came, makin' what was happenin' hard
Never laughed at the Cubanos for singin' the Babalu
'Cause I know that they was honoring the African God
All the Aztec pyramids, mirror this, intricate
Infinite civil bliss syndicate which has been
Twisted inside out, so we ride out
On our own kind, but it's too late before we find out
Damn, another Black and Brown race war
Death aside, race really ain't in case for
Another underhanded trick to enslave more
Spain-like Moors by Spain's white lords
One love to the revolutionary Latin bloodline
Lineage trapped, beside the Latin thug type
If you kill for my family, I'ma kill for y'all
So save the bullet for the people steady buildin' walls
One gun

[Chorus: T-K.A.S.H. + samples]
One gun, one slug, one blood
Regardless of where we might come from
"We have a lot of conflict with Blacks and Latinos, so we bring the Blacks and Latinos together"
One gun, one slug, one blood
Regardless of where we might come from
"I don't think it's fair that the two races that are brought down the most, are fighting against each other"
One gun, one slug, one blood
Regardless of where we might come from
"Those guys that made gang members, too. I know pretty sure inside they wanna change just like me"
One gun, one slug, one blood
Regardless of where we might come from
"We don't need to have violence in between the Brown and the Black, we need to stick together"
[Outro]
"Uh, uh, uh, uh, uh"

- Harambe

[Produced by Paris]

[The Honorable Louis Farrakhan]
Brothers and sisters, you deserve a break today
Brothers and sisters, you deserve a break today
Let us go forth from here
And as we go forth from here, let us build a greater cohesiveness and unity and love among ourselves
Let's build brotherhood, sisterhood, friendship, and fellowship, and sistership, and brothership, and get rid of the bullsh*t
Let's get rid of the n***a mess and pull together, and get away from this division and disunity that keeps us bowing at the feet of our enemy and oppressor, to divide
Us and to have conquered us, and has put us in this condition
Brothers and sisters, I thank you
Now, I want you to stand just for a minute, put your Black fists in the air
Everyone, put your fists in the air
Let us all pull together
Harambe!

- Don’t Stop the Movement (Warrior Dance Mix)

{*17 second instrumental to open*}

[Paris]
Guerrillas in the mist
The mainstream team with pro-black twist {*echoes*}
Hard truth soldiers in the game
Hard truth soldiers back again
P Dog, I evolve
I drag pigs to the slaughter house, vut I never eat hog
As the fed and the World Bank seesaw
We keep y'all in deep awe cause we raw
Like uncooked crack by the government
Hit like a base rock, listen to the ba** knock
Free 'em in Jena, by any means they walk
Let's see who ready to squeeze
Givin power to the people and take back America
Panic in the head of the state, pa** the Derringer
Aim and shoot, Beruit to Bay Area
Bury a Homeland Security card carrier

[Hook: repeat 2X]
Get up, get up, get up, get up
Get up, get up, get up, get up
Don't stop the movement! Don't stop it, don't stop it
Don't stop it, don't stop it
[Paris]
Panther power, acid showers
This land is ours, stand and shout it
This plan to cower, isn't ours
This man is proud, keep the scandalous out
Now if it ain't what we about, it's irrelevant
U.S. policy route? Embarra**in
Never leavin you without, we got medicine
And we never bend, we got better sense
Hard truth revolutionary black militant
Death to the Minutemen, checks to the immigrants
Streets still feelin it, we still killin it
We still slaughterin hawks, feed the innocent
Read the imprint
Guerrilla Funk was birthed outta necessity, collectively

Respectively, to behead the beast
On behalf of the left wing scared to speak, NOW GET UP~!

[Hook]

[Paris - in background over Hook]
Yeah... hell yeah... that's right

[Honorable Minister Louis Farrakhan]
Something is WRONG!
Wrong with the government in which we live
Wrong with the leaders that lead us
Wrong with us... and the way we respond, to our enemy and each other
This nation is not about poor people!
Whether they're black, brown, red, yellow or white
This nation is about RICH people!
And to hell with the weak, the poor, they must serve~!
[Hook] - overlaps Farrakhan's speech

[Added to Hook]
Don't stop it, don't stop it
Don't stop it, don't stop it

[Paris]
Guerrilla on the loose
Scars on my neck but I'm holdin on the noose
Stars rock ice but they rollin like Roots
Thugs on the mic but they all shine shoes
See I don't care who you is or where you from
You look like slaves and tricks when soldiers come
And anybody disagree can get done
Coons'll run, battle lines are drawn
Take one for the U.S.A., the new Babylon
Renegade nation formed to do battle on
Man-made war for mind control, carried on
Mainstream media platforms to rattle y'all
But I can't be shook by the White House
Never go the right route, that's the right route
Bury me a 'G' for Guerrilla and I climb out
With the nine out, no time for time out
Get up!

[Hook]
[Protesting crowd]
The people, united, will never be defeated
The people, united, will never be defeated
The people, united, will never be defeated
The people, united, will never be defeated
The people, united, will never be defeated
The people, united, will never be defeated
The people, united, will never be defeated
The people, united, will never be defeated
The people...

Comin in under par with the stroke of his voice, follow through
Yet he's drivin you crazy with the words that he utters
From the tee to the green usin the wood for a putter
That's what he said, no he didn't stutter!
Reachin the hole in just one stroke
Fore~! Woo
Socially engineered anarchy induced chaos
So you playaz, you can count on it~!
Nothing lost around here, it's on the one
That fuss was us!
Them metaphors leaving metafools metaphysically in a state of euphoria
One mo' time! Hey!
You're in the presence of your past
And now they wanna count us out
But they are now, being funked down
We program, biologically, to benefit us
The age of modification, hahahahaha
(Don't stop the movement!)

Lethal Warning Shot

[Produced by Paris]

[Verse 1: Paris]
Warm it up bruh, it's time to put 'em to the test
P-Dog back up in mix from the West
Some throw a dub, but we throwin' up a fist
And a few things need to be addressed, goin' down the list
Let's get this mothaf**ka crackin'
Hard Truth Revolutionary back rappin'
Back on the map, finna put the Black back in
And stop actin' like the Black movement is past tense
Real n***as understand
Return of the drop squad recognize the brand
G-U-E-R-R-I double L-A funk
Comin' out the yay with that Bay funk
Yeah, still in line with struggle
Right with the right side recognize the hustle
Muscle on off brands stand with the muzzle
Aimed squarely at them fairy tale posin'-a** sissy clones
What kind of freedom you got?
Only one on that one-time a**, make 'em stop
Gat Turner with the twin burner, twenty-one shots in my drawz
Red beam on a pig make 'em pause
You could take it or leave it alone
Stay away from a soldier when he in a zone
Make way for a panther that's free to roam
And creepin' on all enemies until all his people on
[Hook: Sandy Griffith, Paris]
Say this, play this, spray this, can't evade this
Lethal Warning Shot
We bang this, claim this, name this, sang this, thang this
Lethal Warning Shot
That's the sound ya can't avoid
First round is on ya boy
We clap back, with that, get back, it's that
Lethal Warning Shot

[Verse 2: Paris]
Comin’ live from the Bay
The side where the Black lives die everyday

No rise in the pay, just hard times of the lost lives
On the front lines cryin' in pain
P (Dog), the needle in ya sandwich
Blood on behalf of the low and middle cla**es
Hard truth cla**ics, twelve point plan for freedom that's the transcript
Stand and demand this
Real spit, to keep us outta coffins
Gives a mad f**k 'bout the law, chalk 'em off and
Know for too many penitentiary is callin'
What's the next level? Gotta bring it to the devil
Mobbin', squabbin', it's on from the get
Explode, reload, how many of us left?
Film at eleven, channel seven, hold ya breath
When black steel bring the hammer time back, it's a wrap
Nope, it's not the Occupy movement
Thanks but no thanks, I already know the truth
And was very well acquainted with the term 'revolution'
Way before you waited for the price to drop and moved in
Repeat that, tweet that, P-D-O-G back
Freedom fighter relapse, sleep strapped
Lean back or get relaxed
I'm puttin' hands on the enemy and pullin' white sheets back
[Hook: Sandy Griffith, Paris]
Say this, play this, spray this, can't evade this
Lethal Warning Shot
We bang this, claim this, name this, sang this, thang this
Lethal Warning Shot
That's the sound ya can't avoid
First round is on ya boy
We clap back, with that, get back, it's that
Lethal Warning Shot

[Verse 3: Paris]
On ya set that, It's that, Guerrilla in the mix
Gotta get that, get back, hit 'em with a brick
Go ham on the man and I plan to get us some
With a plan I get it done, with a plan to get us some, now
'Bout damn time n***as got the meaning
Guerrilla Funk smotherin' ya set, please believe it
Guerrilla Funk smotherin' ya set, ain't no weakness
Just rough rap over rough beats clippin' weak sh*t
We all rise to rise and bring us up

And strive to bring us up, comprised to bring us up
Disguised it for the club, now it's time for freedom
Screamin' 'power to the people' out the roof of the Regal
Get my clap on, blast on, who wanna see us?
Tell them mark a** motherf**kin' pigs we beefin'
Tell Barack's a** n***as sick and tired of needin'
And we in this motherf**ka till we get some relief, it's lethal
[Hook: Sandy Griffith, Paris]
Say this, play this, spray this, can't evade this
Lethal Warning Shot
We bang this, claim this, name this, sang this, thang this
Lethal Warning Shot
That's the sound ya can't avoid
First round is on ya boy
We clap back, with that, get back, it's that
Lethal Warning Shot

[Outro]
Till the casket drop
Until the casket drop, yeah
Until the casket drop with that
Lethal- Lethal Warning Shot
That's the sound ya can't avoid
First round is on ya boy
We clap back, with that, get back, it's that
Lethal Warning Shot

Bring That Slap Back

[Produced by Paris]

[Intro]
Bringin’ you back what you miss in hip hop
Hard Truth Sol-sol-sol-sol-sol-sol-soldier Radio
You are tuned to the voice of armed self defense, broadcasting in the year of fire!

[Verse 1: Paris]
Back with that program
Fog city, no wack flows, no ham
Bring it back to the prose of the black man
Black hat, black strap, black fist in a black SS
We crush all when we throw down
F**k a throne, n***a, watch what we on now
Bring it home so the whole world know how
With no singin', no bling, just the real when we do our thing
See, I come from the land where the panthers mob
(One) glance and you know from the stance what's up
(We) advance programs that'll stand us up
And finance grants so the fans come up
Any fool with a view too could see what's happenin'
When hard truth bring the whole movement back in
Where youth get the truth that the schools is lackin'
And rhymes from the front line to see what's crackin', goin'

[Hook]
Psycho, alpha, disco, let's go
Take this thing back, straight from Frisco
Bring that slap back, bring that slap back
Bring that slap back, bring that slap back
Psycho, alpha, disco, let's go
Take this thing back, straight from Frisco
Bring that slap back, bring that slap back
Bring that slap back, bing that slap back

[Verse 2: Paris]
Hot damn hoe, here it go again
Back up on the set to let this n***as know what is
Back up on the set to keep it honest for the kids
Back to show the way to stay alive and out the prison
F**k what you claim, this is game for real (yup)

We just, need to rise and build
And bring back pride that we used to have
It's Hard Truth comin’ from the Sons of Malcolm
It's time to meet the guer-rillas
The soldiers, the leaders and the pro hittas (pro hittas)
And motherf**kas gonna feel us
This time or gonna be some blood spillin'
That's how it is, how it was, how it do, how it does
How we do, payin' dues, never lose, never run
Steady gunnin' f**k a pig, n***a do your thang
And let 'em know it's on again...all power to the people

[Hook]
Psycho, alpha, disco, let's go
Take this thing back, straight from Frisco
Bring that slap back, bring that slap back
Bring that slap back, bring that slap back
Psycho, alpha, disco, let's go
Take this thing back, straight from Frisco
Bring that slap back, bring that slap back
Bring that slap back, bing that slap back
[Verse 3: Paris]
Steady spittin', get the picture comin' through in the clutch
Gettin' witcha heavy hittin' n***a givin' it up (givin' it up)
Puttin' hands on these off brands, undefeated
Hard to beat, n***a, balls deep, please believe it
A beast when I bring the noise
Ain't nothin but a choice, and we choose to voice
How we steady makin' men from boys
Make em understand what the government's plan is for us
Show em how to thrive and survive the streets
To compete, how to eat, from these real OGs
When to walk away and when to reach
And show 'em how to mean what they say and to say what they mean
Little locs soak the game up, claim they life
They awoke from the shame and the pain and lies
Ain't no jokes, we control the way we defined
Let's see who wanna test it, tr
Mothaf**ka, we united

[Produced by Paris]

[Verse 1: T-K.A.S.H.]
Yo, another funeral, the usual, the shooter knew the shooter
And the dudes in the crew in which the shooter was recruited
Now the shooter dude's Buick is movin' up on the shooter dudes
Now you see the shootin' through the news
What if the dude shootin' would've got to the bottom
Of what made him shoot him before he shot him?
Got a proper solution to the problem
Instead of talk tough and drop 'em
Walk up and wop him, a strong enough option

[Verse 2: Paris]
Little wild a** brother comin' up in the west
From the streets where the heaters never given a rest
Role models pa** the bottle, ain't no time for cla**
Gun play seem the only way to settle scraps
What we doin'? Let's get it together
Cause it don't make sense if we all can't make it better
Like the Crips and Bloods in nine deuce
P-Dog speaking on the truce, truth

[Verse 3: K.E.V.]
Or is it logic to be duckin' and dodgin'
Or take a precaution, try and wonder who's watchin'
Too much hate on ya brain is toxic
Mixed with the rock in ya pocket, it's a poisonous concoction
War's because of money, recruiters influence youth
Rumors turn into shootin's and shootin's become the truth
Facts is the belief that the stacks is written proof
And stacks is for better living but living is in the truce
[Chorus: T-K.A.S.H.]
(Truce Music)
I'ma put away the rag and get to ballin'
Toss my strap for the bigger callin'
(Truce Music)
I'ma put away the rag for the ones that's dead and gone
Headstrong, my bread is long

[Verse 4: T-K.A.S.H.]
If the neighborhood say it's good
We can make the hood way good like the way it should
We can make good, on the lake good
People of the past promise to change the hood, 'cause the best know
If you play Suge, all you ever get is Death Row
I ain't finna check nothing I don't get a check for
We can bang tough, or we can put the thangs up
Change up, step our game up, rearrange stuff

[Verse 5: Mellinium]
Look at each turf like a partnership, try to get a part of this
Fightin' for a piece of cake when we can have all of it
Trigger's on the safety, now the talks has gotta make things
Simple so an eight year old can see the life of eighteen
Take it there, I can't dream, these gunshots is audible
Waken to enlightenment or die for something honorable
Raisin' up the dollar though he tryin' to put a dot on you like dominoes
We gotta live way past survival, yo
[Verse 6: Paris]
Never ask first, blast first, never understand
Why the strap burst, clap first, another brother dead
Time to step back a bit, gotta ask why
We all in the penitentiary and all dyin'?
No lyin' - we caught in the middle
But how we break up out our circ*mstances is the riddle
Little time left, crime left too many of us fallin'
But how many gonna hear the callin'?

[Chorus: T-K.A.S.H.]
(Truce Music)
I'ma put away the rag and get to ballin'
Toss my strap for the bigger callin'
(Truce Music)
I'ma put away the rag for the ones that's dead and gone
Headstrong, my bread is long
(Truce Music)
I'ma put away the rag and get to ballin'
Toss my strap for the bigger callin'
(Truce Music)
I'ma put away the rag for the ones that's dead and gone
Headstrong, my bread is long

[Interlude]
"This morning police are searching for suspects in an overnight shooting"
"A young man was, uh, gunned down in broad daylight. It happened right in front of a community center"
"Oakland remains one of the most dangerous cities in America"
"Two people are dead, and another injured, after an alleged stabbing and shooting in San Francisco’s Richmond district"
"Two teenage girls and a twenty-three year old man were killed. The suspect is described as African American, with shoulder-length dreadlocks. He’s 18 to 21 years old, 150 pounds, approximately 5 feet, 7 inches tall"
"We all walking around here, don’t even know when we gonna be a victim of a crime"
[Chorus: T-K.A.S.H.]
(Truce Music)
I'ma put away the rag and get to ballin'
Toss my strap for the bigger callin'
(Truce Music)
I'ma put away the rag for the ones that's dead and gone
Headstrong, my bread is long
(Truce Music)
I'ma put away the rag and get to ballin'
Toss my strap for the bigger callin'
(Truce Music)
I'ma put away the rag for the ones that's dead and gone
Headstrong, my bread is long

Buck, Buck, Pass

[Verse 1]
I was told, because I didn't witness the jump off
I was sick even 'fore I got my first cough
I was cold and black and made for killin'
With no conscience or feelings
Just like the million other burners that's just like me
A**embly line made killers for the murder and bleedin'
Got my first taste loaded when they tried to test me
Exploded on the first one, caught him in his chest
That's what a gat's made of
Knowin' I'm the hate that hate made, and regulate anyone
Equalize, neutralize any situation
Any cat runnin' up, any confrontation
I was put into a room with the rest of us
With the rest of us, ready to bust
Many rounds, any town, any city or state
Never rest, any contest, sealin' your fate
No mistake, I only come out when talkin's done
After squawkin' some, and never run
Never foolin' and ya just might lose, black steel in the hour
Give the power to the average dude shootin'
Clik clak boom, that's the rule
Clear the room, when I move 'em, cause confusion
Known for retribution, ain't no mercy, it's murder
I burn 'em and hurt 'em no further words necessary
[Hook]
We bring the, pain to make ya bend
No thing to, make ya, understand
Just blast it, pa** it, on again
Keep it movin' when we
Buck, Buck, Pa**
Don't fight, no, we blow, holes in them
We might go, psycho, soldier then
Just line the, sight up, hold the grip
Keep it shootin' when we
Buck, Buck, Pa**

[Verse 2]
Guess I pa**ed the first test ‘cause they shipped me out
Extra clips and a grip quick to whip me out

Turn nerds and these teenagers into killers
Overseas in Afghanistan, every village
I would go from being cold to warm, to hot quick
If anybody wanted some, it's on
Once dumped on a whole neighborhood for fun
Even shoot you in your back it I caught your a** runnin'
Little kids and they mamas too
Might pick ya little man off the roof, who's who
Don't matter cause they all look the same to me
The blood splatter on the concrete stains and claims the streets
No peace from this piece
I squeeze em and beat 'em, feed 'em slugs when the lugs get dumped
It's no reasoning, it's no use pleading, it's open season
We defeat 'em when this heater get heated I bleed 'em and leave 'em
[Hook]
We bring the, pain to make ya bend
No thing to, make ya, understand
Just blast it, pa** it, on again
Keep it movin' when we
Buck, Buck, Pa**
Don't fight, no, we blow, holes in them
We might go, psycho, soldier then
Just line the, sight up, hold the grip
Keep it shootin' when we
Buck, Buck, Pa**

[Verse 3]
Made it back in one piece fasho
But can't say the same for the homeboy that brought me home
He was off on that PTSD
The PTSD was keepin' him tweakin' and testy
'Fore long for we was hittin' the streets
Bloodshed wasn't nothin' to me, we street sweepin' with no relief
Full metal jacket as we pump and dump 'em and stack 'em
Let's get it crackin'
Be the first to burst, now who's the last to last, I blast them
To ashes, and fill they little caskets fast
That's what I do, that's my job, I was made for the beef
Killin' off all these young black men and causing grief
Oakland, Frisco, Detroit, LA, Chicago
That's where I go
From city to city, backyard to yard, even Newtown Connecticut

But now ya wanna ban my clips, hypocrites
Never gave a damn about a black teen dyin'
Quit lyin'
Take me down to your neighborhood buy back
They so scared, they don't want to see me try that
But it's so many more like me
We multiply, never die, we exist to feed
We exist in America from corporate greed
In the midst of the fake fear, lyin' and evil
Even got the police turnin' on each other
Blap a pig with that "get back," run for cover
Now it's all bad, funny how it's all bad
When the tables turn, got 'em shakin' till they fall back
And ya better hope that we don't come for ya
NRA, LaPierre, get 'em done for ya
Never thought we would come back and gun for ya
Pull the hammer smooth back and then dump for ya
[Interlude]
"Most of the shootings took place in poor neighborhoods, far from downtown and tourist attractions; One reason much of the city seems to be shrugging its shoulders."

[Hook]
We bring the, pain to make ya bend
No thing to, make ya, understand
Just blast it, pa** it, on again
Keep it movin' when we
Buck, Buck, Pa**
Don't fight, no, we blow, holes in them
We might go, psycho, soldier then
Just line the, sight up, hold the grip
Keep it shootin' when we
Buck, Buck, Pa**
We bring the, pain to make ya bend
No thing to, make ya, understand
Just blast it, pa** it, on again
Keep it movin' when we
Buck, Buck, Pa**
Don't fight, no, we blow, holes in them
We might go, psycho, soldier then
Just line the, sight up, hold the grip
Keep it shootin' when we
Buck, Buck, Pa**

Pistol Politics

[Verse 1: Paris]
Mic checka one, two, welcome to the movement
Nut check on this hollywood gangsta coonin'
On deck, still freedom fightin' for improvement
From a vet, do or die, sucka free I'm ruthless
Everyday we see the way they always do us
The ninety-nine percent is talkin', but does that include us?
Nine times out of ten, our problems deal with shootin'
I got ninety-nine problems, but I can't confuse 'em
The real sh*t is who dies and who's cryin'
Whose lives always touched in the clutch of violence
Immortalized on a t-shirt, hear the sirens
Hella straps for these young cats, who supply 'em?
All I care about is violence in our neighborhoods
It's all silence when it comes to stifilin' the hoods
It's all silence when it comes to violence in the hood
Cryin' Trayvon, but everyday it's on in blood
I say, to ya face, what about the blappin'
No applause, what's the cause for these n***as clappin'?
Is it the message these off brand cats is rappin'?
I'm spittin' hard truth to you, n***a put that in
I never run, stay about my business
Take this black on black thang back before we end us
Make this blue on black activate the soldier in us
Make it motivate us to eliminate the menace
[Hook: Sandy Griffith]
Hard truth, is what we came to tell ya
So recognize who really got balls
It ain't too many true ones left
But you don't have to worry at all
We sacrifice our lives
Keep the movement on the rise
Lift ya voice and sing, lift ya fist and swing
Forever givin' you all we got

[Verse 2: Paris]
Another n***a dead, wig split by aggressors
Choke the trigger make these pigs understand the message
Keep your motherf**kin hands off all my brethren
Make this gat cough, get up off this forced confession

Make it plain so you understand the lesson
Leave his racist a** guessin' with the Smith and Wesson
All guerrilla from the sidelines, no concessions
I'm providin' you these guidelines for the method
One, don't engage a pig 'less you have to
Two, never tell 'em they can search, that's the worst move
Three, f**k a protest bruh, this ain't the sixties
They could give a f**k and n***as get they a** whupped quickly
Four, and since we on that protest sh*t
Know you ain't protestin' if you askin' permission
Five, stop puttin' all your business in the street
Facebook is just another way for police to infiltrate
Six, stop trustin' the new, they'll go and tell
Only let ya real folks know, remember COINTEL
Seven, tearin' up these small businesses just ain't the answer
If you need to mob, take a molotov to the chancellor
Cause chances are your chances are hella slim
To pay for college, why the knowledge gotta be for them?
Eight, never go toe-to-toe, keep it gunplay
From a distance so that you can live to fight another day
Nine, only get with the guilty for what they did
Careful when you ride, never brutalize the innocent
Ten, and keep it all an eye for an eye
Listen, even if we blind, let the punishment fit the crime
One, two, ah yep, yep, huh
On blue, ah yep, yep, ah yep, yep
It's all true, ah yep, yep, ah yep, yep
We fall through, ah yep, yep, ah yep, now you know
[Hook: Sandy Griffith]
Hard truth, (Yeah)
Is what we came to tell ya (That's right)
So recognize who really got balls
It ain't too many true ones left (Uh-huh)
But you don't have to worry at all
We sacrifice our lives
Keep the movement on the rise
Lift ya voice and sing, lift ya fist and swing
Forever givin' you all we got

[Verse 3: Paris]
Now look here, you can occupy these nuts
I got ninety-nine problems, the percent ain't one

No outcry when we die, you never noticed the plight
Of brutal cla** oppression 'til recession ravaged the whites
Now you fall in, we all in the same gang, right?
At least until these companies proceed to tell us they hirin'
'Til these companies again see that it's cheaper to fire
And lie and kill the dreams of people simply tryin' to survive, and I'm tired
But it's all good, we all good, when y'all good
It's all good as long as struggle's all in the hood
Call the cops, George, and profile, these Negroes, we know how
The story ends with Skittles in my hand, no hope for survival
I'm liable to crack your motherf**kin' face
And get to shootin’ then we'll see if you get a taste
And see if you will see excuses as acceptable claims
Or if you'll do to me what should be your solution for him
P Motherf**kin' Dog, motherf**kin' "woof"
I tear the roof off this motherf**ka, hollerin' truth
With no slapstick, or buck dance, no Flav's without the Chuck's, man
Y'all suck man, I'm seein' through the coonin' and the yuks man
I'm seasoned, west coast motherf**kin' G
Sucka Free, Cali Bred Revolutionary
And it ain't no Sinatra wannabe in me
F**k peace, I cross 'em out and put a K for my freedom, believe it
So come on people "oh yeah"
Join in the struggle "oh yeah"
Fight for liberation "oh yeah"
Every generation "oh yeah"
So come on people "oh yeah"
Join in the struggle "oh yeah"
Fight for liberation "oh yeah"
Every generation "oh yeah"
Gun, pick up the gun, pick up the gun
And put the pigs on the run, pick up the gun
Know the game plan, look at how they always do us
It's pistol politics, know the enemy is ruthless
Gun, pick up the gun, pick up the gun
And put the pigs on the run, pick up the gun
Take a look around, recognize and take notice
Stop the black on black violence and stay focused

Gun, pick up the gun, pick up the gun
And put the pigs on the run, pick up the gun
Know the game plan, look at how they always do us

It's pistol politics, know the enemy is ruthless

Gun, pick up the gun, pick up the gun
And put the pigs on the run, pick up the gun
Take a look around, recognize and take notice
Stop the black on black violence and stay focused

“F**k the police we gon’ be in Ferguson… [?] b*t*hes…we gon’ see what’s happenin’”
“What’s up y’all scared, no! What’s up y’all scared, no b*t*h!”

[Verse 1: Paris]
F**k a pig is the right call
Gang whistles and pistols at nightfall
Bang on 'em for the lives that remain lost
Click clack is the get back new att**ude for blacks
Gotta bang for the way they treat us
Like animals, police clap and beat us
Like animals, police blap with heaters
To protect and to serve, better know who your enemies are
Been too much talkin' man, no talkin'
No more speeches, candles, no marchin'
No more grievin' parents, no Sharpton
No more calls for peace, let's spark it
And ride on these pigs till the wheels fall off
Collide for our rights till we rise above
Ain't no time for no talkin', let's chalk 'em off
Back 'em off us to show the cost, till they recognize
[Hook]
It’s the night of the long knives

[Verse 2: Paris]
One black man's killed every twenty-eight hours
By pigs and these fake vigilante cowards
Claimin' they scared only after they profile us
And beat us or worse, so we hit back first
Set it off with a molotov home-made charge
Blap when the strap, cough cap the sarge
Can't trust so we bust on officers
Now they callin' all cars, suspects at large
So we blast first then we ask questions last
Do like they do, mobb and mash
Do like they do, ain't no pa**
No stop, no frisk, just blap that a**
Cause we say gunplay only thing that works
Squeeze, retreat in Guerrilla Spurts
Do a drive by, ride by, clap and squirt
From the rooftop, shoot n***a, put in work
[Hook]
It's the night of the long knives
That's the sh*t
It's the night of the long knives
Lettin' off slugs and bricks
It's the night of the long knives
Pigs can't handle this
When the people come together better watch your six
It's the night of the long knives
And you can't deny it
It's the night of the long knives
We worldwide united

Know real riders ride
When we all come together hope we don't collide

[Verse 3: Paris]
Ma** incarceration, ma** surveillance
Ma**a, we just can't take it
Can't take the blame and the cold abuse
Can't take the slave route in the pen for you
Can't take this police state, I can't lie

So here's an open letter to the FBI
To the pigs and the CIA and prisons
To the force that enforce for the one percent
See we see right through your bull-sh*t
That's why we move and pull quick
No love for the people, now we've had enough
Keep it incognito when we call your bluff
And let these motherf**kin' hot rocks hit ya neck
Hold court in the street 'till you learn respect
That's a promise and a motherf**kin' soldier's threat
Gotta feel us to feel what we understand, we goin' in
[Hook]
It’s the night of the long knives

[Outro]

Because the only language America speaks is violence
The only language America understands in violence
So let's talk

"We want an immediate end to the police brutality and mob attacks that our people are confronted by every single day
Every single week, every single month, every single year
Across the land
This is the only reason, that we don't become involved in these non-violent demonstrations
To walk up to a man nonviolently, he got a gun in his hand
We are ready to die, or we're ready to see if someone else dies
I don't need to turn the other cheek
This black man was shot by policemen, not some Ku Klux Klansman down in Mississippi
They saw that he was black and they began to fire point blank
But they are dumb enough to think we have forgotten
We don't never forget
You don't kill our brother
You don't shoot one of us and then grin in our face
You don't shoot one of us and then shake our hands and think we forget
No, we never forget
We'll never forget!
Someone has to pay
Somewhere, somehow, someone has to pay

Hard Truth Soldier (Redux)

[Produced by Paris]

[Verse 1]
Just below the surface is hate
Retake, Black Panther mind state
With a platinum heater tucked in my draws
Still raw, still down for the cause
Choosin' words wisely
Knowin' some despisin' what I'm writing, ain't no time for compromising
Watchin' coons clown, ice cold expression
Too many on the paper chase with no direction
So we correct 'em, catch 'em in dresses
Snatch your b*t*h a** backwards myself, 'the f**k you thankin'?
"Blap" when the strap buck, now they back up
Ain't no more act up, now sh*t ain't funny no more
I know that some of y'all 'course, ain't feelin' me
Everyday it seem to get worse, y'all n***as killin' me
I stay low key, and let 'em be with the coon sh*t
Blame it on the coon sh*t, it's real like that
Cause Hollywood ain't real like that
Hold up your hands if you feel like that
Where all my hard truth soldiers at?
Hit back, it's P-Dog, I never run or buckle
Knowin' when you look in my eyes as I choke the muzzle
Always reppin the struggle
Represent the people, freedom fighter do or die on another level
Never looking' to settle
Black metal, Gat Turner with the twin burners, when I buck the devil
[Hook]
What they say, you ain't nothin' but a soldier
Yeah, straight hard truth soldier
Believe, you ain't nothin' but a soldier
Yeah, straight hard truth soldier
That's right, you ain't nothin' but a soldier
Yeah, straight hard truth soldier
Believe, you ain't nothin' but a soldier
Yeah, straight hard truth soldier

[Verse 2]
So many fake a** J-cat wannabe acts

With them fake raps n***as always wanna be macks
Never face facts, n***as always wanna relax
So I stay black, make them cat n***as collapse
Gives a f**k bout your shine, I'm a rider for mines
Let the dogs out, never leave a child behind
Goin' balls out, cause you know I'm knowin' the time
So I call out, all these coon n***as with rhymes
It's the G-U-E-R, R-I double L, A funk
Back to black, back with that
Black fist and blackness black back to business
B*t*h slap ya lip and clap back at pigs
This is, the movement, I keep it a hundred
Take it back to the days when the people was on it
Take it back to the days when black fists was raised
Take it back to the fight, black people unite, I tell 'em
[Hook]
What they say, you ain't nothin' but a soldier
Yeah, straight hard truth soldier
Believe, you ain't nothin' but a soldier
Yeah, straight hard truth soldier
That's right, you ain't nothin' but a soldier
Yeah, straight hard truth soldier
Believe, you ain't nothin' but a soldier
Yeah, straight hard truth soldier

[Verse 3]
It's that 1-2-3, the 3 the 2-1
Paris back in this motherf**ka, muggin' and gunnin'
To rewind and remind us of what it's about
Shine light so the blind get to figure it out
OG Coon killa, who wanna test
Any n***a in a dress, I'ma put him to rest
Any wannabe pimp police or kingpins that's rappin'
And pushing poison to kids, I'm killin'
Like that, n***a what? It's hard truth
The return of the rough, and y'all through
I'm black manhood, I can't be bought
Or sold out or co-opted, swayed or paid off
STOP cosigning' coons, make us all look bad
STOP cosigning fools say we hatin and mad
Man, you motherf**kin' right n***as hatin’ and mad
So STOP co signing' coons, make us all look bad

Take us back to the days, back to the start
Back to the place, back to the art
Back to the panthers and livin' in peace
And to community and kids playin' safe in the street
Take us back to black businesses with black business
Black wealth and black people doing for self
Take us back to days so we moving in step
Till we raise up understand it's freedom or death, and tell 'em
You ain't nothin' but a soldier
You ain't nothin' but a soldier
You ain't nothin' but a soldier
You ain't nothin' but a soldier
Straight hard truth soldier

- Hold the Line

See, the way you talk
Is frightening quite a lot of people
And I want to know
Are you going to minimize your way of approach?
Because not everybody's a revolutionary
And the fear is keeping people away
From coming together as we should
Now, what can you do about that?

There's nothing I can do about that
Because it's my firm belief that somebody has to be there
Everybody can't be mealy-mouthed
Everybody can't tiptoe through the tulips
Everybody can't play politics
Everybody can't compromise
Somebody has to be strong
I wouldn't have to be as strong as I am
If I saw some others being strong like that
I could tone down
But I'm feeling such desperation
To get the message out
To try to plant the seed in those who are strong enough
That the walls of their mind
Can hold that revolutionary light
It closes doors in my face
It cuts back on money [?]
It drives some women away from me
But I keep on pushin'
And somebody has to hold the line
I'm gonna hold the line

Call Signs

Tell them young boys they ain't messin' with me

Justice

N***as on TV, they hella fake

It ain't nothin' but a thang for a soldier to do
It ain't nothin' but a thang, it's the moment of truth
Put the message in the slang to the street from the booth
We gon' hit you with them Call Signs (hit you with them Call Signs)

It ain't nothing but the real, you've got nothing to fear
It ain't nothing but the real, but how many can hear?
True Justice on the wheels, keep the feeling sincere
When we hit you with them Call Signs (hit you with them Call Signs)

[Verse 1: XienHow]
They didn't think that I was ready for all that
But I a**ure 'em and then they just fall back
They ain't ready for the level I've gone bad
There's lions, and tigers, and then there are small cats
I'm headhuntin' for the head of the horsemen
Can't nobody say that I did not warn them
'Cause I'm not in it for the money and fortune
I'm only after who ain't paid for their portion
[Verse 2: Paris]
Now I blast and catch actors fast, I smash b*st*rd's backs
And snatch masks, the fake, they fall back
Who could see me when I rough 'em up
Stick 'em, I stuck 'em, snuff 'em
Corrupting the quo status, tellin' 'em who the baddest
True J-u st-ice, mack major
Play the mix, faders flick, we raid, blitzin'
Cold, but you ain't never seen it colder than, bolder than
Put my mack down, soldierin', n***a, snap a photo then

It ain't nothin' but a thang for a soldier to do
It ain't nothin' but a thang, it's the moment of truth
Put the message in the slang to the street from the booth
We gon' hit you with them Call Signs (hit you with them Call Signs)

It ain't nothing but the real, you've got nothing to fear
It ain't nothing but the real, but how many can hear?
True Justice on the wheels, keep the feeling sincere
When we hit you with them Call Signs (hit you with them Call Signs)

[Verse 3: XienHow]
Now who could say that I do not handle business?
When everything that I have started I finish?
And I will do it just to say that I did this
The government wants me quiet and timid
They want me working that 9 to 5
So I ain't never gotta use my mind
And they don't want me telling you what I find
They wouldn't mind having me doing some time
[Verse 4: Paris]
Uh-oh, now there they go, we move in slow
Blast fast, and mash, mathematics'll smash past
The av-er-age plans of these off brand emperor
No-clothes havin' a** hip-hop simpletons
You in the presence of the general, ask 'em
Who the coldest motherf**ka on the microphone rappin'?
P-dog in this b*t*h, never slippin' or switched
Never missin', a prime hitter, get 'em, I get witcha

It ain't nothin' but a thang for a soldier to do
It ain't nothin' but a thang, it's the moment of truth
Put the message in the slang to the street from the booth
We gon' hit you with them Call Signs (hit you with them Call Signs)

It ain't nothing but the real, you've got nothing to fear
It ain't nothing but the real, but how many can hear?
True Justice on the wheels, keep the feeling sincere
When we hit you with them Call Signs (hit you with them Call Signs)

[Verse 5: XienHow]
In the fight for the battle for truth, we face all kinds
There are warriors ready to answer Call Signs
Now that they got us online
They are saying my future's no longer all mine
I don't think inside a small mind
I envision a future that is beyond time

I will hit all the hard lines
I'ma take it straight to 'em to get 'em all eyes
[Verse 6: Paris]
I'm rough on 'em, like that, I cuss on 'em, like that
I bust on them cats that make the rap that make us like that
I fight back and write tracks that captivate with tight raps
With kick drums that smack, complement the clap and high hats
And ask 'em, stop and take a look at our condition
Take time to listen, cause sedition is the mission
Wishin' death upon my enemies, defendin' the line
It's a sin to me we finna be completely resigned, open up ya eyes

[Verse 7: ?]
What ya doin,' don't try to hold me back
Tired holdin' back, I'm about to get my Glock
And attack you, don't get in my way
'Cause it's a new millennium, it's a brand new day
Got my n***as, fake a** n***as
Here, we're done you all n***as
How many times I pull to gun dem out?
Why, why why why why why why why?

It ain't nothin' but a thang for a soldier to do
It ain't nothin' but a thang, it's the moment of truth
Put the message in the slang to the street from the booth
We gon' hit you with them Call Signs (hit you with them Call Signs)

It ain't nothing but the real, you've got nothing to fear
It ain't nothing but the real, but how many can hear?
True Justice on the wheels, keep the feeling sincere
When we hit you with them Call Signs (hit you with them Call Signs)

Why write it if you ain't f**kin' livin'

Brown Eyes

[Verse 1: Paris]
Under seventeen was when her body started impressin'
Been under scrutiny from dudes since early adolescence
Understood the game, understood just how to play it
She understood underprivileged was overrated
Always under pressure, 'cause her face was unforgiving
Underage, but her body done seen hella living
With attention undivided, she had understanding
That underneath it all the money was what really mattered
And her mentality was, "F**k it man, I gotta have it"
Had seen her mother struggle underwater with finances
With no father, unsupervised, she learned to manage
Undeterred, she would serve 'em till it hurt from damage
Under-educated, but she knew enough to know
The golden rule is that you rule if you control the gold
And her cat was golden, so she understood her role
Kept the money foldin', on the under, never told

[Hook: Claytoven Richardson]
See uh
Lovely, lovely, lovely Brown Eyes
Girl you know we need you, that's no lie
Brothers when you see 'em, hold 'em high

[Verse 2: Paris]
By her early twenties she was under the illusion
Men would always spend whenever sex was introduced
Used to playin' games under covers, under wraps
Under the misconception sex would always bring the snaps
Unpredictable, her lifestyle was hella shady
Tryin' to trap a baller, get him whupped and have his baby
Under the influence, underweight and hella skinny
Loud-talking out in public like that sh*t was pretty
Under-educated, never knew what she was missin'
Didn't understand the fact she didn't have to pimp the kitten
'Til a real pimp came along and got her twisted
And put the hanger on that a**, cold and unforgiving
"B*t*h, stay down, lay down and get my bread"
'Fore he put the smack down that was all he said
All she wanted was to be like Kim Kardashian

Funny how that works, on the mattress, back again
[Hook: Claytoven Richardson]
You see, uh
Lovely, lovely, lovely Brown Eyes
Girl you know we need you, that's no lie
Brothers when you see 'em, hold 'em high

I wish pops let me off on the mattress
I wish pops let me off- let me off
I wish pops let me off on the mattress
I wish pops let me off- let me off

Free, free, free, free, free

I wish pops let me off on the mattress
I wish pops let me off- let me off
I wish pops let me off on the mattress
I wish pops let me off-

Free, free, free

[Hook: Claytoven Richardson]
See uh
Lovely, lovely, lovely Brown Eyes
Girl you know we need you, that's no lie
Brothers when you see 'em, hold 'em high
[Verse 3: Paris]
Under the circ*mstances, twenty-eight seemed like a blessing
Tried to undergo a transformation to escape
Went underground for awhile, stayed undetected
But it was understaffed at the shelter and she left it
Took her chances though they all told her to be cautious
She was unconcerned, their alarm was met with nonchalance
Called the undertaker, cause they found her unresponsive
In her underwear underneath a parking structure
It was too late to understand what could've saved her
Underestimate these streets and end up under daisies
So much untapped potential underneath the surface
In the end, gotta ask, "Was it really worth it?"
So sad, she was caught up in the undertow
Never really knowing, never had a chance to really grow
All alone, just a full grown little girl

In the underbelly of the hellish underworld

[Hook: Claytoven Richardson]
See uh
Lovely, lovely, lovely Brown Eyes
Girl you know we need you, that's no lie
Brothers when you see 'em, hold 'em high

Raid

[Produced by Paris]

[Verse 1: T-K.A.S.H.]
Grew up in the ghetto
Rocks stars, heavy metal, fellows peddlin' pebbles
Cop cars full of devils, hit the set in severals
Try they best to set us up and get us up in the federals
Emerson, Carter, Oakland Tech
Went to Mac summer school, ask Bean from the West
Sixteen with a vest, big dreams of a Tec
Forty-five and a chop, tryin' to lock up the block
Peasant as an adolescent but I grew to be king
Jedi Prince, Bombthreatt dropped and I ain't looked back since
But for a minute, I just took that glimpse
Thank God, I did not decide to cook that brick
UnderMobb, Stolen Legacy, I shook that sh*t
Most of 'em wasn't Guerrillas, they just look that sh*t
Half of us still speak, through it all still weak
But it all back together, come with some real heat

[Verse 2: CMG]
It's the caramel light chocolate catastrophic
Lyrical mosh pit, huh, the floss chick
Invincible to weak MC'ss that never seen me
Comin' at a hundred degrees, I'm like fleas
That make ya itch, the wicked witch of the West
Savage mic flower, unseen too fresh
Creepin' out the dark with them blows to the guts
'Cause you never see me comin' from up out the cut, what?
We Raid, raid on, raid on

[Verse 3: Special One]
See us skee skirt, we work, ready to ride
I'm in my t-shirt, we serve, ready to fight
The street sweeper, bleed ya, freedom or die
Now who could see her, we the, dirtiest kind
Never beat, GOP's with these golden gloves
We'd rather see 'em in the streets with these golden slugs
It's K1, N***a show me love
We never beat, never weak, TCD, we thug, we mobbin'

[Verse 4: Paris]
We take the ride on, shine on, light that touch
Keep the fight on, ride on lies that cut
We collide on, rhyme on rise and bust
On they crime on - life to divide us up
Keep it basic, n***as want improvements now
N***a face it, they wanna keep the movement down
F**k what they said, we comin' with the proven sound
It's that bay sh*t, guaranteed to move the crowd, we sayin'

We Raid, raid on, raid on

[Verse 5: CMG]
I got that sin juice flowin', thick in the veins
And I'm finna set it off without no restraints
Lookin' strange, before I blow out gauge
On the front page news see me center stage
CMG the squaw with the native tongue
Never bitin' on a rhyme and still keepin' 'em sprung
West coast gangsta, savage beastie
Feastin' on wack mcs discreetly
[Verse 6: Special One]
I'm mad at you hoes cause y'all don’t feel it
We holdin' up a mirror to the streets, now who the realest
For real it, B*t*h, the ballot or the bullet?
My finger's on the trigger for my freedom I'ma pull it (I'ma pull it)
Now check it cause you might get hurt
See we clappin' off the straps if the rap don't work
(Sh*t, don't make us have to do that dirt
I got this freedom in my drawz, conscious daughters for the cause

[Verse 7: Paris]
Identify genocide, ride or die, we wreck
Guerrilla Funk, hard truth, we devise respect
Break through to the youth, keepin lies in check
For my troops and the fruit - NOI connect
Have pride, you could rise and confide in us
Keep it live and advise you we size em up
Understandin’ the plan they devised for us
Never ran, keep it mannish we rise us up, we sayin

We Raid, raid on, raid on
(Raid on soldier, raid on)
All day, everyday we raid, believe, (Yeah)
All day, everyday, we break, [?]

We Raid, raid on, raid on
(Hell yeah)
[Verse 8: T-K.A.S.H.]
Real players, real hustlers
Busters still hate us
Can’t touch us
Gangsters still stay up
Double up the paper
We prayin’
Bubble up the police
Don’t show me
No love, cause I don’t tell on homies
Show love for the young cats who know me
OGs that lace me while growin’
This one's for the hometown of Oakland
East side, west bound and north [?]
South Sac, south Stockton, Portland
Back down to the state that’s all golden
[?]

We Raid, raid on, raid on

- Turning Point

I am tired!
I am tired of people beating down my people!
I am tired of people beating down our man!
I am tired of people beating down the mentality and [?] of our children
As African people, we must [?] to the level where we stop letting people use [?] to do us
It is most important that we understand even in the recesses of our mind
That we are in a state of emergence
It’s become absolutely essential that we cut out all of the foolishness
All of the foolishness
We cannot make any more excuses
That [?]
Leave nothing without substance
Nothing without substance
Where do you stand on the community?
The fingers have got to turn

› Give the Summer Drums

[Produced by Paris]

[Intro: Paris]
89.5 KPOO in the city by the bay, hard truth soldier radio
Black owned and still strong, still got it goin' on
San Francisco California, bringin' it back with old school slaps, still puttin' in on ya
Representin' Freedom Justice and Equality, believe

[Verse 1: Paris]
Guerrilla Funk in the buildin', no straps on us
We hit the function and chill, a pro-Black moment
We tryin' to bubble for real, a mo' scratch moment
The opposite of killa with backbone it's on
Sunshine, Northern California summer time
Grillin' somethin' other than swine, bustin' rhymes
I didn't see one crime so wasn't no one time
It's fun time, old school vets lacin' young minds
I ain't talkin bout no murderin' blacks
I'm talking learning and encouraging blacks
Man we bringin' that encouragement back
Still respectin' the new school dudes and they YouTube views
I'm pushin' the 6-9, they pushin' the scraper
We at park and its crackin', my potnas doin' it major
Cold weather in the fall, but for now we loungin'
Summertime in the Bay and when it's good is astoundin'
Give the summer drums
[Hook: T-K.A.S.H.]
Gangstas, hustlas, none of that is among us
Just real life vets and youngsta's
Livin', livin', livin', livin' for the summertime
In the sunshine, nothin' up in the gun line
Give the summer drums

[Verse 2: Paris & T-K.A.S.H.]
Laid back, way back
Marvin Gaye track on a 8 track, day to relax
That's how we do it on this West Coast
Barbecue and Domino's, homie let's go
Unity and togetherness, let the rest go
We on that elevate, come on brother, let's toast

Kick that black on black violence out and shut the door behind it
Rewind it back to good times from the Bay to LA, back to Sac
Neighborhood superstar, block hero
Neighborhood animosity, I got zero
It's like that when you really reppin' for the people
P-Dog, Tomie Kash, "Better Days" sequel
Shot to 43rd Street, but it ain't lethal
Respected in Oakland for change and remaining peaceful
Yappin', no blappin' in my rappin'
A smile on my mask when I'm askin' "What's happenin'?"

[Hook: T-K.A.S.H.]
Gangstas, hustlas, none of that is among us (Hey)
Just real life vets and youngsta's (That's right)
Livin', livin', livin', livin' for the summertime
In the sunshine, nothin' up in the gun line (Yo)
Give the summer drums
[Verse 3: T-K.A.S.H.]
Brains all over the streets, brains I'm hopin' to reach
Hangin' all over the streets, bangin', I hope it'll cease
Change and grow into peace, rainin' with dough in the streets
Sprinkle the dough with the yeast, then we get bread, that's how we eat
Tomie Kash keep it lit, but without the heat
Pull up with them pounds, but I'm only talkin' 'bout the beat
Bust it in the air, just a friendly game of three-on-three
Ain't nobody dead 'cause it really ain't no reason to be
You ridin' with black men that's tapped in
To the black men from back then, that's past tense
And the straps and the reaction that traps black men
Back in the pen, it's back to relaxin' again
Did away with the thug livin', strictly gettin' high
Realizin' I love livin', tryin' to get it right
Unity, job opportunity
Community that's through with movin' in these streets foolishly

[Outro: T-K.A.S.H.]
Livin', livin', livin', livin' for the summertime
Livin', livin', livin', livin'
Livin', livin', livin', livin' for the summertime
Give the summer drums, son

- Change We Can Believe In

You know, and we learn not to question our government and um, to be grateful for everything we got, but we didn’t know that it was at the expense of many other people, in our own country, and all over the world

[Intro: Sandy Griffith]
Listen, baby
Let's talk about this life and what it means to me
Baby, listen
This how it's got to be
We only thought that you would come and turn these wrongs to right
But we see it's really all the same
Who knew that you'd disgrace us
White power in blackface us
Our eyes were closed
But now we all could see

[Verse 1: Paris]
Lookin' at the parties like, damn, what's the parties like
Just seems all the parties' right
Now I'm lookin' round wonderin'
What the hell has happened to us, it's on again
Just misery, so many promises
So many of us tried to make him what he really wasn't
Still suffering' so many unemployed
Still watchin, NSA's got me paranoid
Make me wanna holler, throw my hands up
Got us thinking' that we wrong if we demand stuff
So we propped the man up, but what'd it get us?
More useless excuses and more fed up
Sounds so sweet when he makin' speeches
Always preachin' hope and change like he really means it
Manchurian Candidate
Ladies love to hear him talkin' cause he's so slick
[Hook: Sandy Griffith]
We sing it, but they never really understand, no they don't, no
We bring it, but they never seem to take a stand, no they won't, no
We mean it, better know they really ain't your friend, and they've shown it
So believe in me, believe in, believe in

[Verse 2: Paris]

Dear Mr. President, wartime president
Slicker than his predecessor, but it's still the same sh*t
Lost jobs, lost benefits
Lost public option, lost souls follow quick
Lost all respect for that sh*t he selling
Same conflicts, but his reason ain't compelling
Same cause, same manufactured boogeymen
Same bombs drop when his poll numbers dip
Same profiteering - War's good for business
Same Israel nut-jockin' - sh*t is endless
Same wall street bailouts, early christmas
For the same motherf**kas that should be in prison
Same racism, nothing changed bro
Wingnuts wanna point and say "I told you so"
We both hate his sh*t, but for different reasons though
They hate cause he black, we hate cause he wrong

[Hook: Sandy Griffith]
We sing it, but they never really understand, no they don't, no
We bring it, but they never seem to take a stand, no they won't, no
We mean it, better know they really ain't your friend, and they've shown it
So believe in me, believe in, believe in
[Verse 3: Paris]
Shiiiit, so I'll say it all again man
Same sh*t, different day, all the same man
Same news cycle, same yapping' magpies
Same gats clapping' overseas taking lives
Now they say I'm hatin' cause I pulled his skirt
Same people that done lost they house and outta work
Got the nerve to think that I'm speaking' outta line
Can't criticize cause he 'posed to be my kind
But scared negroes won't rock the boat
Same Bush-era tax cuts, same drones
Same folks on lock, Guantanamo
Same campaign stops, same sh*tty jokes
Cracked while the world gets choked on
And most black folk broke but still hold on
To the illusion of choice
Both parties, both sides of the same bullsh*t coin

[Hook: Sandy Griffith]
We sing it, but they never really understand, no they don't, no

We bring it, but they never seem to take a stand, no they won't, no
We mean it, better know they really ain't your friend, and they've shown it
So believe in me, believe in, believe in

Murder Suit

[Produced by Paris]

[Verse 1: Paris]
Another casket they done asked me to carry
Another homeboy blasted they done asked me bury
I'm still exhausted from the last one, the setting was very
Hard to swallow but typical when the hood hit the cemetery
My heart is heavy for the families
Trapped in this tragedy of madness and insanity
Blapped in the street behind some bullsh*t he never seen
Got me thinking back upon the way we used to scrap we when was young and beefin'
When we would beat 'em, or might get did
But we let it go and lived, forgived
N***as knuckled up, buckled up, wasn't no whip it out and blast
Just because somebody muggin' when we pa**ed
When is thuggin' gone pa**, and this manhood thing come back around
Cause unity is cool by me
But until we get the message 'bout this death I say the rest is a wash
Too many livin' we lost, damn

[Hook: Paris]
Now I'm pullin’ out my murder suit
Now I'm takin’ out my murder suit
Got me puttin’ on my murder suit
In my best black too many times from all the shootin’
Now I'm pullin’ out my murder suit
Now I'm takin’ out my murder suit
Now I'm puttin’ on my murder suit
Got my best black one mo' time from all the shootin's
[Verse 2: Paris]
At the church again, sh*t is startin' to hurt again
Lookin' at another brotha layin' in a hearse again
Hear the Bible verse and then is off to the grave yard
A consequence of n***as thinkin' they hard
Put my arm around his mama but it ain't same thing as her child
She raised him up to never try to gangbang or be wild
A damn shame that he left to be a memory now
Plus he black and from the hood so ain't no empathy, wow
And I wore my "Rest In Peace" shirt to the viewin'
And they still ain't found the shooter

It's too bad now, it seems like it's gettin' normal to hear
About some murder in the neighborhood but nobody cares
It's all about this chrome fo'-fo'
Cause ain't nobody tryin' to box no mo'
I'm representin' for the homies throwin' things in the street
Realizin' at the same time, that's just me, god damn

[Hook: Paris]
Now I'm pullin' out my murder suit
Now I'm takin' out my murder suit
Got me puttin' on my murder suit
In my best black too many times from all the shootin'
Now I'm pullin' out my murder suit
Now I'm takin' out my murder suit
Now I'm puttin' on my murder suit
Got my best black one mo' time from all the shootin's
[Verse 3: Paris]
Never give up on my people, never leave 'em behind
Instead of teach 'em how to dougie, I'ma teach 'em to rise
I see these youngsta's tryin' to mug me but I see in they eyes
An intelligent, soldier who can see though the lies
It's really all what you believe in your mind, I believe you gone shine
But in these streets you gon' die if ain't no peace with yo kind
I ain't talkin' bout no gang affiliation
I'm talking doin' what it takes to change the situation
In this nation, you can be a brother with chips
Or be another statistic on a government list
Or do it like the brothers with the black gloves and a fist up
For revolution, even if you get ya wrist cuffed
You can be a great scholar or an African king
Instead of blappin' for bling, or somewhere trapped in the bend
You much better than a "rest in peace" legacy destiny
It's all about upliftment and lettin' the rest be

[Outro]
What are we looking at?
Two gunshot wounds to the upper-left chest cavity
At least three bullet holes in his left abdomen
I'm gonna need access. Here, I'm gonna start a subclavian line
Blood's filling his chest cavity. He'll need bilateral tubes
Betadine
Then take him up right now and start an ex-lap

We’re gonna cut into your chest to place a tube that will help you breathe
It’s gonna hurt like hell, but it’s the only way

› Side Effect

[Verse 1: Paris]
On the stretcher, under pressure
The sensation of the slugs in my body is still fresh in me
Mama is stressin' me
In the ambulance readin' me Genesis 1 or 7, I only remembered half of that
As I blacked out, pa**ed out
Woke up in general with nurses pullin' my oxygen mask out
I'm ready to smash out, but I can't walk, can't talk
Morphine drip, draining my train of thought, distraught
Weed and Patron to make you get loose
Ran my mouth to the wrong n***as and they let loose
Let they Tec shoot, Smith and Wess' hit the set, hit with death
Hit my chest, clipped my breath, then they jet, damn
And just like menace, my n***as visit, revenge intended
To go to who gave it, and give it
Give 'em the business, wanna see they brains hang
Never thought I meant it, that I'd be going through the same thing

[Hook: T-K.A.S.H.]
All I wanna do is feel better
But the red, white, and blue they got it set up
So the doctors and the nurses ain't there for us
Unless they working with the county welfare for us
Just basketball, alcohol, and jail for us
And a funky a** mr. access healthcare for us
In the hood we don't pay no attention
Cause it's just another way for you to bury us, uh come on
[Verse 2: Paris]
Yeah, it's time to check out, get out, before I leave
Signed paperwork, paying the cash out
Prescribing me painkillers and fluids to clean my flesh out
They told me copay with my provider is the best route
What the f**k is "copay with my provider" and sh*t?
F**k you mean if I don't pay, you ain't supplyin' me sh*t?
What the f**k is health coverage? I don't go to work
"B*t*h, I'm in these streets" I'm yellin' up at the clerk, it's nothin'
Six G's I pulled outta my pocket
And from a ten-grand hospital bill, they docked it
No diploma, no employment, no insurance, no benefits
No medicine, no better than when they let me in

I turn to mama, but mama ain't got a job
She's smokin' her damn self, that's why I'm up in the mob
My n***as be stackin' money, but n***as be actin' funny
When I call to see what's up on the hundred for my recovery

[Hook: T-K.A.S.H.]
All I wanna do is feel better
But the red, white, and blue they got it set up
So the doctors and the nurses ain't there for us
Unless they working with the county welfare for us
Just basketball, alcohol, and jail for us
And a funky a** mr. access healthcare for us
In the hood we don't pay no attention
Cause it's just another way for you to bury us, uh come on
[Interlude]
(Phone ringing)
(Yeah) Hello?
(Yeah) Yeah, I'm a boss in the game
(Hmm) Tryin' to get my insurance on
(Get your insurance on?) Get my insurance on
(Phone hangs up)
Hello? Man, this motherf**ker hung up the phone

[Verse 3: Paris]
And I ain't feelin' right
No prescription, no medication, so I ain't healin' right
When I walk, I limp and my shoulders is still stiff at night
Tried to get a job, they tellin' me ninety days
I be blazed to evade the pain, mental and physical
Takin' hella aspirin, shakin' hella bad
When I asked the people up in Walmart about it
Made me lift my shirt and show 'em the damage, I can't ignore it
They squirm like mama did, and tell me see a doctor for it
But I can't afford it
It cost money and I got it, but I can't report it
And I got to pay the ambulance, they mailed a notice
Another thug life side effect, I failed to notice
This health insurance is some cold sh*t

› Power

[Produced by Paris]

[Verse 1]
Two little nerds got angry
And brought entertainment to it's knees
Because they wanted music free
And knew what you don't know
With all that power that you claim
That you these streets and you run the game
Really, it just don't mean a thing
Cause they knew what you don't know
So now you take a look around
And music done turned upside down
And ain't no profit to be found
Cause they knew what you don't know
So all I say is use your mind
And next time don't get left behind
And get what you love taken by
Some dudes who wrote some code
Now that's cold

- Muggin’ Ain’t Thuggin’

[Verse 1: Tray Deee]
Who you thinkin' you intimidatin', frownin' up?
Mean muggin' ain't thuggin' 'less you down to dump
Down to scrap, ready for whenever it crack
Come time, front line at the head of the pack
Set it off, lettin' off at the pigs and all
Let the AK spray 'til they squeal and crawl
Got wires, now I ride to fulfill the cause
Gotta push black power 'til the system fall
With my fist in the air, a clip and a spare
Educated gangsta equipped and prepared
Finished with the ignorance and killin' my own
Politicin' with this crippin', brothas gettin' along
Plus we hollerin' at the brown now, keepin' it G
So the government in trouble wants peace in the streets
Yeah the revolution comin' homie, time to murk
But looks don't kill, gotta do that dirt

[Hook: T-K.A.S.H.]
You look that way, but you ain't built that way
You don't really feel that way, it don't matter what your picture say
Maybe you should fix your face, 'fore somebody come and split your face
A political pistol case, get this straight, muggin' ain't thuggin'

[Verse 2: Goldie Loc]
My life been sacrificed
And I don't need a TV show to tell a n***a what's right
And I don't need to reinvent myself
You Hollywood-a** n***as need a lotta help
Look at the way motherf**kas dress
Wait until they run into the devil's reject
Rapin' you suckas that be sellin' your soul
Man I'm tellin' you, they tear 'em a new a**hole
To where they can't even focus right
Aww sh*t, look at how they did Mike
This music makes me meditate
And Satanism is somethin' I can't illustrate
I can feel it in my soul and bones
That if I let go I'ma lose control
They create you, then the break you back down

Too much love for this music so we crackin' right now, yeah
[Hook: T-K.A.S.H.]
You look that way, but you ain't built that way
You don't really feel that way, it don't matter what your picture say
Maybe you should fix your face, 'fore somebody come and split your face
A political pistol case, get this straight, muggin' ain't thuggin'

[Interlude: Paris]
Party people, your dreams have now been fulfilled
Throw your fist up in the air, and let's get real
That's right y'all
This more than rough, we callin' your bluff
And when it comes to rhymes…

[Verse 3: Paris]
So I bust up out this motherf**ka cold, who the savagest?
Screamin black power, let's see who the mannish-ist
Paris and the Eastsidaz saying it's a wrap
When the gangsters and the revolutionaries start breaking bread
Tell these government pigs we recruitin'
To do it like Huey P Newton because they shootin'
We ride unified ain't no hidin' in fear
Combined to protect lives of black women and kids
I'm a pro-black motherf**kin' mack for mine
Put the slaps with the message in the rap and grind
Old school n***a, hold out, back in ya face
Hard truth, put the black power back into place
Cause lookin ain't crookin', talkin' ain't walkin'
Yappin' ain't blappin', rappin' ain't scrappin'
And scrappin' ain't what's happenin' the bottom line is you ain't active
N***a you just actin'
Muggin' ain't thuggin'

Martial Law (Redux)

[Intro: Paris]
Attention all citizens! Attention all citizens!
The United States of America is now under martial law
All const**utional rights have been suspended in the name of national security
Absolute compliance is necessary for protection of the fatherland
The New World Order now dictates that the penalty for dissent is death
This is your new reality
Do not attempt to think or depression may occur
War is peace
Consume, conform and obey
Remain calm

[Verse 1: Paris]
P-Dog, Guerrilla Funk, taking sheep from the slaughter
These automatics let 'em have it, f**k a new world order
Sick of tryin', sick of cryin' why we die and in prison?
Ain't no complyin', only violence is what's makin' 'em listen
F**k a politician, all they ever do is ignore
And f**k a closed border right to lifer callin' for war
F**k these close-minded simple evangelical w****s
And they stupid-a** home-schooled illiterate spawn
F**k a Huckabee, we buckin' these, ain't nothin' that's good
F**k a black ops and helicopters all in my hood
F**k a Bilderberger, we gon' serve 'em, people unite
F**k the military using kids to murder and fight
All I'm hearin' is these teary cries supporting the troops
All I'm seein' is these teary eyes whenever we lose
But what the hell they ever do besides pillage and shoot?
At all the colored people in they villages when they loot
It's all known, its evil at Bohemian Grove
I see that sh*t, see the cousins, see the skull and the bones
See it comin' see the dollar fall, never atone
See the martial law, see the Nazi criminal clones
See the police, so we pack, and stay strapped with black gats
For get back, when they clap, we clap back, now take that, and
Up in the mornin', early gunnin' for my opponents I'm knowin'
They ain't prepared as me guerrilla warfare in the streets
What you believin' in? I'm askin' the youth
That's from a triple OG repeatin' freedom and truth
So many stripes and I'm in this motherf**ka, look at the proof

I'm showin' you don't have be complacent, facin' the racist and ruthless
It's for ya mind, for ya body and soul
Now it's a battle for your money and for global control
But will the cattle wake up? Now that's what I wanna know
Shout to power in this motherf**ka, wake 'em and show 'em, I'm sayin'
[Chorus: Paris]
We ride on racists, rights are basic
We advise you, rise and take it
Tell me how many gonna hear the call
And how many of us know it's martial law?
When the police kill and have no regrets
And governments represent the one percent
Please tell me how many gonna hear the call
And how many of us know it's martial law?

[Verse 2: M-1]
This ain't a threat, it's a promise, I put that on my mama
And somebody gonna pay 'cause it's death before dishonor
They will never forgive, they ain't gon' never forget
So we set it off in the East, and we set it off in the West
It's the code to the streets, it's for the black and the poor
I learned that in the visiting room with Doctor Mutulu Shakur
He sacrificed for the fight, and that helped me see the light
'Cause a political education ain't just reading and writing

[Verse 3: stic.man]
I see freedom in Swahili on the wall in graffiti
A spray can became a silent voice for the needy
Ghetto children inherit the slums and tenements
In the projects, livin' off crumbs is bullsh*t
Ninety percent of the world's wealth controlled by ten percent
And America's the richest country in the world, ain't this a b*t*h?
How we livin' in conditions of poverty every day
And our realest leaders in the pen until their hair turns gray
[Verse 4: KAM]
The struggle of the sixties and the seventies is back
But black rappers, athletes and celebrities is wack
Wanna act like they a thug, but they ain't never with the fight plan
Busy in the club, drunk in love with the white man
Just a one night stand, freak for your people
Then it's back to the track where you speakin' no evil
Got the coward disease, so you need to go to church for it

We only lookin' for the Gs - search warrant

[Chorus: Paris]
We ride on racists, rights are basic
We advise you, rise and take it
Tell me how many gonna hear the call
And how many of us know it's martial law?
When the police kill and have no regrets
And governments represent the one percent
Please tell me how many gonna hear the call
And how many of us know it's martial law?

[Post-Chorus: Paris]
Sayin' woof motherf**ka woof, motherf**ka woof
(Woof motherf**ka, woof, motherf**ka woof)
Sayin' woof motherf**ka woof, motherf**ka woof
(Woof motherf**ka, woof, motherf**ka woof)
Sayin' woof motherf**ka woof, motherf**ka woof
(Woof motherf**ka, woof, motherf**ka woof)
Sayin' woof motherf**ka woof, motherf**ka woof
(Woof motherf**ka, woof, motherf**ka woof)
[Interlude: Paris]
Attention all citizens! Attention all citizens!
All individuals must pa** through security checkpoints for VeriChip compliance
All citizens are required to attend mandatory worship service on Sunday
Trust your government, we will protect you
Consume, conform and obey
Fear minorities and those different from you
War is peace, lies are truth
The number one enemy of progress is questions
We are your God
Remain calm, remain calm, remain calm

"Su-su-su-su"
"Su-su-su-su"

The Greatest

Let’s move onto the next question
Next question… go ahead

Hi- Hi- Hi-
Can you say why America is the greatest country in the world?
Can you say why- Say why- Say why-
America- Greatest country-

Diversity and opportunity

Can you say why- Say why- Say why- Say why-

Uh, freedom and freedom, so let’s keep it that way

What makes America the greatest- greatest- greatest-

It’s not the greatest country in the world, though. That’s where you missin’ the point

You’re saying-

Yes

Can you say why- Say why- Say why-

Wait a minute, so you’re gonna sit here and tell us that America is so cold, that we’re the only ones in the world who have freedom?
Canada had freedom. Japan had freedom. The U.K., France, Italy, Germany, Spain, Australia, Belgium had freedom
So there’s absolutely no evidence to support the statement that we’re the greatest country in the world
We’re sorry, the number you have dialed is not in service at this time

We’re 7th in literacy, 27th in math, 22nd in science, 49th in life expectancy, 178th in infant mortality, 3rd in median household income, number 4 in labor force and number 4 in exports
We lead the world in only three categories: Number of cats that's locked up, number of grown folks who believe angels are real, and defense spending
So when you ask what makes us the greatest country in the world, I don't know what the f**k you talkin' about

Search Warrant

Cops be warrin' with the search warrant
Cops be warrin', with the search warrant
Cops be warrin', with the search warrant
Cops be warrin', with the search warrant

[Intro]
I know we bold, better ask about us
We won't be sold, speakin' truth the loudest
We go in so, can't nobody doubt us
Cause somebody gotta speak for the people, and uhh
Soldiers control, we can't be divided
For the people, we represent the righteous
We way too cold, don't even think try us
It's hard truth for the win all my kin's invited

[Verse 1: Paris]
P-Dog, still on that organized warfare
If it ain't 'bout a revolution then I don't care
Break jaws 'till the state laws more fair
Escape dogs and batons and my door and stairs
I'm a panther but I'm hog status
Pro black silverback packin automatics
Where a black man's life is cheap
Between police and the cold a** streets, got us seekin' freedom

[Verse 2: WC]
I was raised in a hood of hydraulics, narcotics and pistols
Hood politics and bird whistles
Lames can't survive on the turf, so they join the police
Or either kill innocent lives in the church
So I tuck the snug and move with a ya ya
While other n***as singin' peace and all that kumbaya
In God I trust, bust 'til the clip is empty
I'm underground, like Harriet Tubman in some D**kies
[Hook]
Cops be warrin', with the search warrant
They must be snorin' thinking we ignorin' them
Cops be warrin', with the search warrant
Man we got somethin' for them, if they try to storm in
Cops be warrin', with the search warrant

They must be snorin' thinking we ignorin' them
Cops be warrin', with the search warrant
Man we got somethin' for them, if they try to storm in

[Verse 3: Tray Deee]
Never gon' compromise, break or apologize
Ride until I see a black face on the dollar sign
Thug with a conscience, f**k all the nonsense
Blackness the movement while justice the topic
And not just marchin', we pickin' off targets
Death to oppressors when pistols is sparkin'
Khaki suit, my uniform, general, my rankin'
Black revolutionary motherf**kin' gangsta

[Verse 4: Goldie Loc]
Always on the front line, dodgin' all the politics
Huey Newton zappin' 'em away with the gold stick
Sendin' robotic dogs to my door it's crackin'
I ain't runnin' like scary Jakari Jackson
I ain't spendin' one night inside ya FEMA camps
I got no love for republican or democrat
Brothers be glued to their phone
Open up ya eyes, black slavery's still goin' on
[Hook]
Cops be warrin', with the search warrant
They must be snorin' thinking we ignorin' them
Cops be warrin', with the search warrant
Man we got somethin' for them, if they try to storm in
Cops be warrin', with the search warrant
They must be snorin' thinking we ignorin' them
Cops be warrin', with the search warrant
Man we got somethin' for them, if they try to storm in

[Verse 5: KAM]
I see you twist a lotta vicks, so I'm hip to y'all's crime
Pistol Politics on my mind at all times
Everybody know it's racial, but y'all don't wanna say so
So court is now in session, my expression's more than facial
Recognition, no smilin', mission, go wild and
Time to do my own hate crimes and my racial profilin'
I'm dialin' 911, 'cause I'm just gon' rebel
All rydas go to heaven, and cowards go to hell

[Verse 6: E-40]
I'm sick of you people shootin' us unarmed people
The Lord created us equal, but you choose to be evil
A victim of casualty, brutality, do us dirty
The audacity, even though we the ones who pay their salary
I'm smokin' a cigarette drinkin' coffee, back and forth pacin'
Stressed out, heart hella racin'
Trapped in the system, they got me on a leash
Process of elimination, no justice, no peace
[Verse 7: Paris]
It's the killa cali black guerrilla pig chopping organized
Ryders screaming black power, firin' on the other side
Do it for the women, for the babies, for the right to live
Do it for the freedom, f**k the system for the way it is
Raise a fist, it's all about race
And black lives matter so we organize and escalate
Calling all cars for the cause ‘cause we tired of waiting
Don't worry what we gon' say, worry what we bringin'

[Verse 8: Sandy Griffith]
See ya groovin'
We soldiers and we done swore
To rep the movement
And always try to reach ya mind
We ain't playin'
But some never seem to notice
What we sayin'
I guess it's all part of the plan
To keep us losin'

[Outro]
I know we bold, better ask about us
We won't be sold, speakin' truth the loudest
We go in so, can't nobody doubt us
Cause somebody gotta speak for the people, and uhh
Soldiers control, we can't be divided
For the people, we represent the righteous
We way too cold, don't even think try us
It's hard truth for the win all my kin's invited

Cops be warrin', with the search warrant

Cops be warrin', with the search warrant

Engage

Whoop, whoop, that's the sound of the police
So we shoot, shoot, makin' war with the beast
What the f**k you thank? Ain't nobody firing blanks
Hit the precinct, leave 'em all shakin' and stankin'
In the land where we programmed to shuffle and suffer
Where a black life is measured by prison and murder
Where they gunnin' black people down and burning the churches
And where the only sound that's heard is how we probably deserve it
Got us sending this to anyone, thinking of doin'
Like Dylann Roof or anybody thinkin' of shooting
Anybody thinking that had better know that we moving
And that we rubbin' whole families out, as retribution
Consider it a promise, f**k a threat if it's on
It's real deterrent you can bet on, brandishing chrome
Scorched earth if we burst, all is fair in war
If it's an eye for an eye you'll see 'em die on the floor
Let 'em clap, we clappin' we clap back, no rappin'
No yap no jaw jackin', no convo is happenin', no
Unforgivin', ain't nobody givin' a f**k
No understandin', ain't no holdin' ya hand, and no love
No huggin', no rubbin', no talk, no candle burnin'
Ain't no marches, ain't no rallies or meetings, ain't no sermons
Just burnin', desire to fire on the oppressor
Let the messenger connect with his chest plate and register
I'm the real wrong n***a to f**k with
That knows to show, so the proles revolt
So you know, ain't got nothin to lose, nothin' to prove
Be the hardest one to move until the truth gets through
Just the sounds and the smell of the, automatic weaponry
Sizzlin' these piggies and hillbillies we killin'
Fill 'em up if they go bad, and toe tagged out
Send 'em back, bagged, wrapped in a confederate shroud
And tell them kissin' a**, open mouth kissin' a**
Pipeline to prison a** n***as and b*t*hes
With that silly sh*t, silly all talkin' and posin'
Worldstar coonery, house n***as be frozen
Get ya head right, a ryder is readin', the riot act, better heed it
If you breathin' and latino or black
Crack the code 'till it's known, if it's on it's on
Come together, and recognize the movement is growing

The War Dance

[Verse 1]
It's a true story 'bout two homies called "them"
Any two'll do, call 'em "him" and "him"
One from the ghetto, the other from the 'burbs
First is a rebel, the other is a nerd
In a two parent household, Moms and Pops
They so well off, sellin' bonds and stocks
But fell off 'cause he don't bond with Pops
And not comfortable with Moms a lot, that's the nerd
Compared to the rebel on the hood plantation
The pimps and the macks and the gang bangers laced him
Moms straight smokin', Pops is MIA
The chance for advancement for him ain't great
Both from two different worlds, but they both the same
Both idolize hip-hop style and slang
Both thinkin' manhood is defined by thangs
Emphasized in the raps we sang, sh*t, but we'll see

[Chorus]
It's the war dance, this the way it usually start
It's the war dance, everybody playin' a part
It's the war dance, maintain, gotta stay hard
It's that bang bang boogie, bang bang the boogie-oogie
It's the war dance, got 'em all caught in the game
It's the war dance, don't matter what you reppin' or claim
It's the war dance, we all die one and the same
From the bang bang boogie, bang bang the boogie-oogie
[Verse 2]
Repet**ive negativity combined
With music can afflict and affect the mind
Rap lies take lives to the pen with rhymes
Thinkin' prison finna get 'em they stripes, look here
This time, let me tell you just how the crime went
Rebel met nerd on some down to die sh*t
The nerd met rebel, found a cat to ride with
Now they outside the store lookin' in
One come from bad circ*mstance, never had a family
One did, but felt they didn't understand him
Young kids doin' what society demanded
Companies that owned jails and music planned it

Nerd brandished the gun, seen the money, grabbed it
Rebel waited for him in the car, music blastin'
Cashier shot, then cops, and they captured
Both hit the pen laughin', "This is blackness"

[Chorus]
It's the war dance, this the way it usually start
It's the war dance, everybody playin' a part
It's the war dance, maintain, gotta stay hard
It's that bang bang boogie, bang bang the boogie-oogie
It's the war dance, got 'em all caught in the game
It's the war dance, don't matter what you reppin' or claim
It's the war dance, we all die one and the same
From the bang bang boogie, bang bang the boogie-oogie
[Verse 3]
The first night, Big Homie said he want his a** licked
Nerd said "No," so he got his a** kicked
The rebel got his a** kicked and his a** split
It wasn't no more laughin' and sh*t
Two black men, brainwashed from the start
Never knew back then, these corporations play the part
To pursue black men for slave labor on the yard
Rhyme stars lead 'em to a life behind bars, follow
The countries that own companies and trade publicly
Invest in the music companies and praise thuggery
The money from the thuggery, they put it into jails
Just for criminal, young black males
All from the sound, penitentiary bound
While the sheep just follow 'em and swallow it down
Either working for the system, or we dead in the ground
Even with a new n***a in town, it's the

Keep Pushin’

[Hook: Sandy Griffith]
Do the things that keep it movin' every day
Hold it down don't let nobody, tell you that you can't
Nothin' promised to us, got to keep it true
We all we got, know this and you'll never lose

[Verse 1: Paris]
Why can't we understand?
Why can't we understand?
Why can't we comprehend?
Recognize the underhanded
Nature of the way they do
Keep us all, under rule
Love to see us always lose
Still the same, nothin new
Tired of the strugglin'
Struggle got us stressin' it's
Harder than it's ever been
To get the family close again
Mama working double shifts
Pops ain't never missed a day
Never missin' hours, never call in sick
And never late
Bills keep piling high - what do we do when
It's hard when you try to do right - we keep it movin'
Same grind, same time, steady punchin' a clock
Same climb, ain't no sunshine, they keep us on lock
And we easy to provoke, broken focus and hope
It's hard to cope with there's no control and never support
Just broken dreams and promises, we live to survive
It's no succeedin' just believin' what we need to get by, but why?
[Hook: Sandy Griffith]
Do the things that keep it movin' every day (We keep pushin’)
Hold it down don't let nobody, tell you that you can't (We keep pushin’)
Nothin' promised to us, got to keep it true (And it don’t stop, and it don’t stop)
We all we got, know this and you'll never lose

[Verse 2: Paris]
So we need to get a little closer now
Just like we supposed to now

Ever seem to notice how
Come up and then they slow you down?
Hate to see us go without
But ain't no hiring if you brown
No hirin' in the town, and these streets
Compete and call us out
Steady tryin to live right
It's harder when you live right
It's harder when you live right, cuzz
You just can't live life
So consumed with anger, I'm
Just beneath the danger zone
Just beneath the surface and I'm prone
To put these things up on ya
It's all bullsh*t, these b*t*hes think we stupid with it
They keep us stupid with it, through the music when we listen
Through the television, mission is to keep it twisted
And keep the people broke and fat and working for the system
So many obstacles, it's possible to fold and flounder
So I stay committed, keep my game tight and family grounded
And pound the pavement making statements I'm a hard truth rider
And James Evans n***as, goin’ hard with father guidance
[Hook: Sandy Griffith]
Do the things that keep it movin' every day (Keep pushin’)
Hold it down don't let nobody, tell you that you can't (Keep pushin’)
Nothin' promised to us, got to keep it true (And it don’t stop, and it don’t stop)
We all we got, know this and you'll never lose (Yeah)

Do the things that keep it movin' every day
Hold it down don't let nobody, tell you that you can't
Nothin' promised to us, got to keep it true
We all we got, know this and you'll never lose

Thang thang in my lap like
N***a really want this rap life?
I maintain me some act right
Little devil get your facts right
Back where it all started
Not purple but black hearted
From the land where we hustle harder
Thought I let it go, but I'm just smarter
Back raisin' my fist
Makin' 'em mad when I'm goin' like this
Never caught in a twist
Might run up but ya leave with a limp (look out)
Won't stop till we all eat
Beast mode, Bay n***as all beast

Hard truth, go get it
Beat that a** back for the cash then we all split it
No cap, it's the real comin'
Made for ya ride so your sh*t's slumpin'
Bring em out, see who run the summer
Everybody in this motherf**ka swangin' somethin'
All gas no brakes
Slappin' out the back of my Chevrolet
Comin' straight out the Yay
Y'all n***as thinkin' revolutionaries came playin', what's up?

[Hook]
Bang Bang (what?)
Move as a team on the fake sh*t
Unified, rise and awaken
Ain't gon' stop 'til we make it (what?)
And ain't lettin' sh*t slide, ride up and take sh*t
Bang Bang (what?)
Y'all motherf**kas don't want none
Don't be surprised by the outcome
Bus' on these hoes 'till we all won (what?)
Say it loud, fist in the air 'til we get somethin'
Bang Bang
[Verse 3: Paris]
Listen to it, get into in, sweatin' to it, trust
Reppin' us and keep a weapon for the rest in case they steppin' to it
Blessings all around for my people, don't even worry 'bout it
Brothers gonna work it out and bubble, ain't no doubt about it (let's Ride)
Comin' hard, with hard looks at hard facts (hey)
It's hard truth with hard proof and hard raps (hey)
No cap I just clap back and snappin' upon on that a**
Out the blue and had you thinkin' we was cool wit it
Ain't no braggin' or laughin' no rag flappin'
Or laggin', no back slappin' or slackin', I put the black in
On post, I'm known, to roast a POTUS
And prone to go in, approach and turn 'em to ghosts, now notice

Gives a f**k what you think
Gives a f**k how you feel, where you from, why you blinkin'
Y'all seem to be completely underestimatin' what it is that
Got a n***a started in the first place, so I give it
Revolutionary day one, revolutionary day one, listen

[Outro]
Revolutionary day one, revolutionary day one, Revolutionary
Revolutionary day one, revolutionary day one, listen, listen
Revolutionary day one, revolutionary day one, Revolutionary

One, two, three, four, five, six, seven, eight
Nine, ten, eleven, f**k twelve
Oh- oh- oh my god
Oh- oh- oh my god
Dog
One, two, three, four, five-

- Why Reconcile

[Intro]
Do you think a man that talks like this is afraid of death? I was born for the liberation of my people! So death don't faze me. But I wonder, are you as ready to die as you are to kill?

[Verse 1: Paris]
It's one for the panther hearted
Pushed this line since I first started
Pro black, and it gets no harder
Can't understand if you don't regard it
Brothers tryin' to build so you see the picture
Neighborhood watch, bring the homies witcha
Won't stop 'til we had enough
Mo' money mo' land mo' jobs mo' comin' up
Everythang in life that we 'posed to get
Every neighborhood, town, every street and set
No regrets, just grind so we all eat
Aligned we unite and combine 'tll we all free
Stand up, fight back, man up and then
Buy black, buy time, stack up ya bread
Re-emerge, buy back and don't never let
Motherf**kas ever get up on us like they was again

[Hook]
Step into the mind of the most hated
Killa Cali mindset calibrated
Apply pressure, ride on the enemy
And why reconcile if we ain't free, f**k peace
Ain't no middle ground, ain't no understandin'
Just demand fairness 'til we advancin'
Apply pressure, ride on the enemy
And why reconcile if we ain't free, f**k peace
[Verse 2: Paris]
Now we back on that mobilize
Won't relax 'til the people rise
It's combat 'til we equalize
Real eyes realize real life ain't for layin'
Bullet, not ballet if they want static
Blappin' at they Klan rally turned tragic
F**k peace, the automatic systematically
Keep your b*t*h a** back 'til we get our freedom

On they head, fog city bred
Thorough with this triple OG Cali cred
Go hard on em, swarm on the ones blockin' those of us
Born true and sworn to come through for the most of us
Grew up on that no bullsh*t commandment
Pops wasn't playin' that's how he planned it
Take a look around see who still standin'
Hard truth motherf**kin' street soldiers still mannish

[Hook]
Step into the mind of the most hated
Killa Cali mindset calibrated
Apply pressure, ride on the enemy
And why reconcile if we ain't free, f**k peace
Ain't no middle ground, ain't no understandin'
Just demand fairness 'til we advancin'
Apply pressure, ride on the enemy
And why reconcile if we ain't free, f**k peace
[Outro]
Why reconcile if we ain't free, f**k peace
And why reconcile if we ain't free, f**k peace
And why reconcile if we ain't free, f**k peace
Why reconcile?
Rise
We got to over the hump
We got to over the hump, yeah

Unless you wanna live on your knees, throw down
Unless you wanna live on your knees, throw down
Unless you wanna live on your knees, throw down
Unless you wanna live on your knees, throw down

Unless you wanna live on your knees, throw down
Unless you wanna live on your knees, throw down

Press On

[Intro]
And while you sittin' on your b***, afraid to come into the community and deal with the gra**roots of your people, a whole generation has come up around you. Black revolutionaries, sick and tired of what's been goin' on...

[Verse 1: Paris]
Back on my bully sh*t, no filter
Back fully equipped, y'all feel it
Back to get the people riled, and motivated
Panther's back, no smilin', all hatred
Still no affinity, for silliness
I'm toxic masculinity, you feelin' this
I recognize game and raise ya, and I suggest
You dial back that sh*t you sayin', it's disrespectful
I'm physical, political, and principled
Break your nose, let these devils know, ain't no suppossin'
Ain't no ya**uh bossin', no flossin', or bread breakin'
F**k what you think you on, a n***a takin'
Cause that MAGA sh*t'll get you soggy, soakin' wet
I know this cracka got you froggy, but I suspect
You computer cowboys don't want it, and you'll regret
How a n***a put a crease in you cowards if we connect, let's go

[Hook]
Let's go
Bruh ya best know
Ain't no question
Count your blessings, learn lessons
And press on
With no concessions
We fight oppression
With aggression
To get the rest on
Stand tall and press on
[Verse 2: Paris]
I look around and see n***as coonin', without a doubt
Huggin' pigs though they shoot us, and mow us down
Just goddamned fools hopin', they gon' change
Cryin, tryin' to plead and show 'em, that we in pain
But anti-black backash, will be a blur

Back to hashtags and no compa**ion, for n***as murdered
Been true since the days of slavery, keep us scurred
And murk black a****s and babies, it's the purge
Now let's see who wanna answer, I guess I'm canceled
Guess you want fancy dancers, instead of manhood
See black twitter twitchin', little b*t*h
Remind Stockholm Syndrome n***as of how they lynch us
I'm pro black and it's clear, you n***as weird
I stand here completely fearless, 'cause I'm aware
Your only cap is that I'm racist, or outta touch
I don't believe in warm embraces of toxic love

[Hook]
Let's go
Bruh ya best know
Ain't no question
Count your blessings, learn lessons
And press on
With no concessions
We fight oppression
With aggression
To get the rest on
Stand tall and press on
[Bridge]
It don't take much to see
They don't f**k with you and me
They say so, but actions prove that they don't (prove that they don't)
That's why we understand the need
To build up our own communities
Love us, and do for self and stay woke

Now ya
Might think, we on one
Cause we, don't take none
But if you do, this ain't for you, no (this ain't for you, no)
We just
Make it, plain to see
That we, must get free
If you agree, we sayin' let's go

[Verse 3: Paris]
So I steady make the sound 'til the people come around

Don't just film and stand around next time they got us on the ground
Clappin' rounds for the black and brown back the f**k up offa mine
Let the pistols whistle through they gristle, give 'em naps tonight
Who you think you f**kin' with? Ain't no duck and covers
Scratch that pig off the list, with a K and plug him
Guerrilla Funk means beef with pork, n***a we gon' beef with pork
Try to put the genie back for sh*t you started
'Cause protests only placate the people
Protests only mitigate response to evil
Go test if his vest work, tell me if his chest burst
And see if these devils really want upheaval
Bald eagles get barbequed, n***a feel me?
Make these pigs squeal 'fore you steal and burn the city
Apply pressure in the only language that they traffic
And let's see how many of em really want that static
[Outro]
Shots fired! Officer down! Shots fired! Officer down! We got a city officer down! Shots fired!
Shots fired! Unknown where the suspect’s shooting from

F**k you gonna do? F**k you gonna do?

F**k- f**k- f**k- f**k- f**k- f**k you gonna do when the people hit back?
F**k you gonna do when the people hit back?
F**k you gonna do- F**k you gonna do when the-
F**k you gonna do when the people hit back?
F**k you gonna do when the people hit back?
F**k- f**k- f**k- f**k- f**k- f**k you gonna do when the people hit back?
F**k- f**k- f**k- f**k- f**k- f**k you gonna do when the people hit back?
Back- back- back- back- back

- Nobody Move

[Verse 1: Paris]
One, two, three
It's that mad a** sucker free guerrilla with the get back
Seems you forgot who you f**kin' with
Pistol grip pump in my lap for this
Mannish and brandish your mind
Been damagin' these off-brands live since '89
Hard truth to ya, speakin' from the booth
From the Bay to Southern Cali, central valley
Steady slumpin', bumpin', I'm on the mic
P-Dog layin' in the cut to strike
Apply pressure with aggression
No stressin', but at the same time
Contemplatin' how I could bubble and push my same line
With murderous intent
Convince the proletariat to listen, envision
The uprise and the wise eyes open wide
Ride or die hear the battle cry united for the fight
Get 'em!

[Hook]
Nobody move
Nobody get hurt
Real spit, read the sh*t
Raised fist, keep sayin' it loud
Nobody move
Nobody get hurt
Read the truth, never lose
Keep it movin', steady doin' us proud

Nobody move
Nobody get hurt
Back 'em off us, if it's coughin'
Then his coffin's gettin' filled right now

Nobody move
Nobody get hurt
With that pow pow
Chicka pow pow
Chicka pow pow

Pow!

[Verse 2: Paris]
Guerrilla Funk on that Mau Mau, who the realest?
Never bow down, f**k they feelins
Buckle up, knuckle up, cousin this
The return of authentic hard truth spit
The Trump killa, Pence killa, Bush killa, Cop killa
Pop McConnell, back on my Geronimo
Blappin' on 'em, slap 'em with the sound, won't apologize
Won't understand what you stand for, a compromise
B*t*h what you thought it was
Got me clappin' on the blappin' while the salmon clammin' up
Fishy n***as with that sissy sh*t
Suspect identified as any n***a ridin' on the fence, now who wanna try it?
Colonize and get your guns up
N***as dumpin' on the first one to come
And I'm back to blast on the MAGAt's
Combat it, no cap is savage
Been practicin' so the strap will do the damage
Leave 'em staggerin', I'm back again
Grip rider with the zip ties
N***a feed 'em all fish and f**k they kids
Beast mode, f**k peace for the babies separated by police, from they families seekin' freedom
See, it's the American way, sayin' "warriors come out to play"
Raised on that Bay sh*t I'm sayin' ain't nobody playin' with it
Best admit it, P is cold as an ICE raid when n***as speak
[Hook]
Nobody move
Nobody get hurt
Real spit, read the sh*t
Raised fist, keep sayin' it loud

Nobody move
Nobody get hurt
Read the truth, never lose
Keep it movin', steady doin' us proud

Nobody move
Nobody get hurt
Back 'em off us, if it's coughin'

Then his coffin's gettin' filled right now

Nobody move
Nobody get hurt
With that pow pow
Chicka pow pow
Chicka pow pow
Pow!

[Verse 3: Paris]
Some ride around when I write about us
Glide by in the towns see the signs 'round us
Gentrified by the whites and the weirdos and the ones
Making beer with they artisan beards and man buns
N***a this ain't Migos
From Flint to Puerto Rico
I represent the blacks and immigrants from all the sheet holes
No free throws
I'm golden from the state, I'm in the paint
You try to keep a motherf**ker quiet but you can't
You could tweet that Donny, believe
Ain't no motherf**ker breathin' that can see me
I mean the, G in me wanna let it spit and blow your brains out
No stress, ask your predecessors how I gets down
Now I'ma say it for the slow
Don't let your president get you doe'd
Now it's the return of the uppity n***a you suckas stuck with me
I'm buckin' any cuck who think he rough enough to f**k with me
Now f**k a knee, I flip the bird, stand with Kaepernick
Stack a grip with housin' a**sistance and scholarships
No dragon energy, I'm draggin' any enemy or any weak MC
That seek celebrity on TMZ, n***a please
We's on track to see those
I rep the G code, I blap they nap and get to reload
So we grow, it's go cat go
Ain't no blow back, no throwback
Just smack a neat MC and end a ho back[?]
Y'all know that I'm quick to bust your motherf**kin' lip
Go and run and tell 'em, ring the bell and
Reach these with truth so we see these n***as' species
And teach these youngsters do for self and bleep the police and be free
Let me catch your a** coordinatin' with the orange satan and your best friends

Cause we gon’ P your crown to this
G’s up, foes down
While the real soldiers pounce to this
[Hook]
Nobody move
Nobody get hurt
Real spit, read the sh*t
Raised fist, keep sayin’ it loud

Nobody move
Nobody get hurt
Read the truth, never lose
Keep it movin’, steady doin’ us proud

Another anthem on that brown and blackness
It's that triple gold Dayton music
That big ballin' bbq’in no hatin' music
We getting money in a legal fashion
Bald heads, long dreads in the Regal smashin'
Figure 8 and fish tailin' at the sideshow
Reppin' peace up in the hood and that’s alright though
Real solid individuals
Overstandin' street knowledge and its principles
Giving back to up and comin's
Reciprocal respect is when the vets is on deck and the rest are runnin'

[Verse 2: Paris]
So complicit when he fiend for European
Validation conversatin' 'bout the choices that he say we makin'
But tell this Ruckus a** n***a that we bustin' caps n***a
Drop squad on that a**, ask the last n***a (aww sh*t)
Lil negro, tryin' to show what he knows
Tryin' to be the hero, so now we back and reloaded
Careful of your energy, confederate accessories'll get
Get your tranny sandal wearin' a** smacked, it's slaughter season
Now, who felt, this silly n***a need help?
This silly n***a need whelps, I'm taking off my belt
So run and tell racists that we takin out the trash

Black delegation move to trade this house n***a back

Turned The Key

[Intro]
"Neighborhood tensions have been simmering over gentrification. Though moderate housing has been built, thousands have been displaced. While a new cla** of urban professionals took up residence in luxury apartment houses, spawning changes that cater to them"

[Verse 1: Paris]
I try to represent the struggle
But the struggle as of late is being co-opted to bubble
Check the hustle, poverty-stricken huddles
Poverty stricken of us just displaced and rustled up
With po' folks rushed to the valley
Movin' us outta coastal Cali
Provin' that the gap between the haves and the have-nots
Got the workin' cla**es steady a**ed out when it come to housing
Gentrified is what we call it
Reverse white flight steady spoilin'
Got these wealthy techies lovin' when we selling weed for they dogs
But little black kids sellin' water get the cops called
Liquor stores and weed when it’s us
When it’s them is microbreweries and cannabis
Same neighborhood, different people but the quality of life
Is through the roof for certain reasons that they tap dancin' answers to

[Chorus: T-K.A.S.H.]
We want freedom and equality, right here where the gangstas ride
And if you can't follow me, all you gotta do is look outside
Where did we go? Where are we at? How did we get here? Can we go back?
Thinkin' 'bout how they burned me - I should've never turned the key
[Verse 2: Paris]
It ain’t no black people left in Oakland
It ain’t no black people left in San Francisco
I see more black people back in Sacramento
And we all know that none of this is accidental
Ask ya kinfolk about the 80's and 90's
Back when it was all so simple
Quality of life was just as good in the areas they swear changed recently
But really, it’s the hood and the hood means black
And if it’s black then it’s bad, and if it’s bad
Then it's cheap and if it’s cheap, then we grab
And we hold, then we sell, when we finish

Criminalizing and displacing families for twice the price what the hell, fail
Rebel, question their ent**lement, I been hood
You live in the hood, now it's good? Why is this?
I resist, prices which side with rich whites and give
Light to this fight against my kind and won't silence this

[Chorus: T-K.A.S.H.]
We want freedom and equality, right here where the gangstas ride
And if you can't follow me, all you gotta do is look outside (That’s right)
Where did we go? Where are we at? How did we get here? Can we go back?
Thinkin' 'bout how they burned me - I should've never turned the key

[Verse 3: Paris]
They vilify my black skin
Just enough for demonizing fraternizing black men
Just enough for chastising black kids
Police pull up and turn the block to target practice, plus the fact is
Eastern Contra Costa county and Castro Valley
Harbor Klu Klux Klansmen, add this with black families
Looking for a better life and what you get is
Resistance from pre-established pro-right old whites
So they make up harm to take up arms
And take what’s ours, imaginary adversaries
Claimin' that my race does harm, but they come hard
For burdens they create then insist I have to carry, irony
So I plot to take back plots of real estate
Give back spots and make fat knots and educate
Give blacks props, and set up shops and get us straight
Give them devils somethin' to really hate, ha

Baby Man Hands

[Verse 1: Paris]
Born and raised where the faces are pasty
In a place where your race is the best cheek
Got his first taste believin' it greatly
But was laced out the gate with the best lead
Daddy Fred, put hella millions on his head start
After getting pinched at a klan march
Just the average, pro white, simpleton
F**kboy birthright made out of privilege
Baby man hand b*t*h
Baby man hands with the grift
Baby man hands with the ban on the muslim
Baby man hands takin' parents from kids
Come again, come again, come again (What?)
Banged on the dems and republicans (What?)
Blame it on the TV president (Huh..)
Fame got the little man lustin' for some…
Make America great
But when was America great?
When was America safe?
Especially if your face is a different shade
Man f**k what they sayin', look

[Hook]
Baby man hands, baby man hands
Baby man hands, baby man hands
Baby man hands, baby man hands
Baby man hands, baby man ha-
[Verse 2: Paris]
How that coal workin' out for ya
How that farmin' you know workin' out for ya
How them terrorists feel makin' real terrorist
Blue eyed school shootin' white boys havin' fits
More government bailouts
For the people who say get the hell out
For the people who claim they've had it
But meet the new welfare queen heroin addicts
Skin thin as a motherf**ker
Still horny for Stormy but can't cuff her
Still cuffed by Vladimir that is clear

Still got eyes for his daughter but can’t f**k her (Eeeeeewwww!!!!)
Call Trump University
Cause this fake sh*t brings out the worst in me
Fake news, fake views, fake telecasts
Fed to the fake by the fake full of fake facts
F**k y’all with Kellyanne’s d**k
And start picking truth over fake sh*t
Start realizing you made this dimwit, racist, rapist, president
Come again with a true story
Grab ‘em by the pu**y and go for it
Grab ‘em by the Fox News cast w****
Do what you want, there will be no arrest warrant
Cause he here for the take
With hotels, vodka and steaks
Suckin’ off the EPA
While the whole planet get fried
Realize that it’s fine people on both sides
And I’m fresh out of tears
Fresh out of f**ks I could give
Fresh out of love long as police shootin’ at kids
Fresh out, get the f**k out of here, baby man hands
[Hook]
Baby man hands, baby man hands (Uh huh)
Baby man hands, baby man hands (Okay)
Baby man hands, baby man hands (That’s right)
Baby man hands, baby man hands (Uh huh)
Baby man hands, baby man hands (There he go)
Baby man hands, baby man hands (Wipe his nose)
Baby man hands, baby man hands (Ha ha)
Baby man hands, baby man hands

[Verse 3: Paris]
One little, two little, three little L’s
Tell us his mental capacity failed
Tell us he’s mental and gone off the rails
Maybe you’ll call Kavanaugh for some help
Bone spurs, deferred
Still talks tough but ain’t served
Still struck a nerve when the word got out about crowd size
So he brought up Hillary and Barack’s lies
Can’t f**k with the DUMB
We stuck with the DUMB

No luck with the DUMB
Can’t understand why they still can’t get a raise
Hard knock life when the stock price still raised
But America’s great
For some it ain’t up for debate
And some eat lobster and steak
And some just pray
And some can’t wait for the change

Walk Like a Panther

[Verse 1: Paris]
Prepping weapons scoutin' places matching faces and locations
Scope in place, lyin' in wait, pre-election state debate
9 in place, fire away, politicians die today
We uprising our kind today, retiring life that's blind to pain, I
Say f**k that demonstratin', let's mob and run up on 'em
No time for contemplatin', payback with chrome and dome 'em
And set an example for this generation to sample
'Cause these old n***as is trash and new n***as ain't really substantial as this
San Francisco legendary mumble rappers hella scary
Rapping about the trap but trapped inside a system built to bury
Blacks in prison, drug addiction and the military
Selective services furnishin' turf obituaries
N***as get to gettin scary about this revolutionary
Unaware I'm stayin' prepared, no hopes and prayers or open carry
White supremacists trying to prepare for Trump's impeachment with an attack
Guerrillas is strapped and drillin 'em back it's the revenge of militant blacks, like that

[Hook]
F**k your views, f**k your likes, walk like a panther
F**k your shoes, f**k your ice, walk like a panther
F**k your show, f**k your flow, talk like a panther
When hard truth is callin' you, stand up and answer
F**k your views, f**k your likes, walk like a panther
F**k your shoes, f**k your ice, walk like a panther
F**k your show, f**k your flow, talk like a panther
When hard truth is callin' you, stand up and answer
[Verse 2: Paris]
Still mannish with my plans to raise the nation with my plans up
Understand we need to stand up educate and take they land up
Get your bread right, get your head right, no back stabbin', no infightin'
No trash rap, and no hashtags, just hard spit with brick slaps back, and I'm
Still quick to blap at sh*t, quick to slap a b*t*h rapper
Acting savage but average with actual damage did
Black panthers back and n***as panic when they see me
'Cause this OG ain't PG, and these police, they she she, look
B*t*h devil-a**, scared to see a rebel-a**
Mobilize my folks to come together- a**, on another level a**
Freedom fighter, n***as still struggling on the street igniter
To think wider and reach higher

Yeah it's P-Dog, I make this .44 revolve
In front of the White House it’s lights out, I snatch they sheets off
Peace to all, activists that’s active in this madness, let’s get free y’all
They want us thinkin' we lost, but we strong don’t sleep y’all, I'm sayin'

[Hook]
F**k your views, f**k your likes, walk like a panther
F**k your shoes, f**k your ice, walk like a panther
F**k your show, f**k your flow, talk like a panther
When hard truth is callin' you, stand up and answer
F**k your views, f**k your likes, walk like a panther
F**k your shoes, f**k your ice, walk like a panther
F**k your show, f**k your flow, talk like a panther
When hard truth is callin' you, stand up and answer

- Somethin’ ’Bout the West Coast

[Intro]
I once was the problem
Now I am the solution
I don’t need no cop to police my neighborhood, when I saw it myself
Together we can take back our streets
That’s for the love of the community and for the love of my fellow brothers

Ain’t nobody lookin’ out for us but us
Ain’t nobody lookin’ out for us but us
Ain’t nobody lookin’ out for us but us
Ain’t nobody lookin’ out for us but us

[Verse 1: Paris]
It’s something about the west coast
Hustlas on that let’s go resist and represent though
Let the tech blow, ride for oppressed souls
Die for the right to know, liberation of my folks
Holdin' court in the streets, neighborhood respect
Gangland truce music beast
Keep the heat for the ones deservin', only for the ones that hurt us
Only for the ones that try to undermine our people's purpose
Thank you for your service
This hard truth slappin' sh*t is not intended for the nervous
Not intended for the coons or the racists, no safe spaces
Just embrace the hate that them devils gave us
Channel it and handle our opponents
Knowin' how to grow us into soldiers is my only onus
Focused rage translated into action
Nation-building with my comrades is the pa**ion
[Chorus: Ms. Monét]
It's funny what you see
When you're ridin' through the streets reflectin' on all the lessons
You learn on the path to becoming OG
Things really ain’t what they used to be
So excuse me as I give a little game for free

[Verse 2: Paris]
Still mobbin', minus pullin' pistol on my people as an option
Taking it back to boulders from the shoulders straight squabbin'
Bringin' back composure with the locstas no dosha

Just focused, no hopelessness over this
Police rollin' on us over some bogus quota sh*t
Banks with the homeowners hustle foreclosure sh*t
Politicians posted like they don’t notice the homelessness
You know I got a bone to pick, you know I’m letting them know what’s going on with this
Moment in time and space
Collide my rhymes with ba** and it’s murder was the case
P-Dog came to lace my loved ones
On how it’s hell being black and young, I once was
But now I push this OG status, no beef crackin'
More retreats goin' towards promotin' peace
It’s crazy how these woke and enlightened muthaf**kas got all the answers
But ain’t got no reputation in these streets, it's deep, see
Now we can funk up in the streets or we can get this money
Pull up on 'em with the heat or we can get this money
Continue livin' like a sheep or we can get this money
Only a mark would think this gettin' money sh*t is funny
A crucial element to empowerment in this country
I ain't tryin to see the homies as monkeys for companies
F**k waiting on some crooked culture vulture dollars
It's about increasin' knowledge and achievin' scholarship
Spread love it’s the Bay way, no AK spray
Just payday plays, I stay straight-laced
Informationed up on how to make a buck
These streets said drop a great one so I gave 'em one
With somethin' you can slap bones too
Shoot dice to, recite due Miranda rights if one time slide through
Hard truth you know what it is
Rest In Peace George Floyd, Nia Wilson, free Mumia, f**k the pigs

GAIA RESONATES

INTRO

VERSE 1

GAIA RESONATES AT A CERTAIN FREQUENCY
AS DO ALL INHABITANTS IN PERFECT HARMONY
OR, AT LEAST THATS HOW IT USED TO BE
BUT TAKE A LITTLE LOOK AT MAYAN PROPHECY
NOW WE COMIN UP TO A NEW AGE, A NEW ERA
WHERE THE HYPNOTISED WILL START TO SEE THINGS MORE CLEAR
REALISE THAT THE MILITARY HAS A BUDGET
OF 4 BILLION AND SUMTHIN MILLION
THE 3RD WORLD IS STRUGGLIN
BUT THE OBJECTIVE IS KILLIN
TO PRESERVE THE WEST CONSUMED WITH MATERIALISM
WHICH IS SILLY COZ IT ALL GETS
LEFT BEHIND WHEN WE'RE NO LONGER LIVIN
WHEREAS WE COULD BEEN NURTURIN
OUR SOULS STRAIGHT FROM THE BEGINNIN
INSTEAD OF BUILDING A FOUNDATION
ON CORPORATE TELEVISION
WHICH IS CONSTANTLY EMITTIN
POISON FOR THE MIND SO THAT PEOPLE FORGETTIN
THAT WE'RE BEINGS OF DIVINE LIGHT!
AND SHOULDNT BE SUBSERVIANT TO THIS
DARK BABYLONIAN KNIGHT!
AS WE ENTER THE 5TH DIMENSION, 2012, PARADIGM SHIFT
MAYBE THEN, ILL FIND SOME PEACE
WHEN THIS WEIGHT HAS BEEN LIFT!

YES BABYLONIAN DE-EVOLUTION CAN BE FIXED
64 AMINO ACID'S BUT ONLY 20 IN USE
WHAT EMOTION HAVE WE LOST
WHAT STATE OF BEING DID WE LOSE
BECAME MINDLESS ZOMBIES, HIGHER-SELFS CLOCK IS ON SNOOZE
THE HIGHER FREQUENCY THE LOVE VIBRATION RESONATES
TAPS INTO THAT "JUNK D.N.A: SO THAT IT ACTIVATES
REBORN STATES OF CONSCIOUSSNESS
OPEN THE GOLDEN GATES
SHED ALL YOUR FEAR SO THIS TRANSFORMATION
CAN TAKE PLACE
MEANWHILE THE ELITE DESPERATLY

COSMIC DRIFTER'S HELP OPEN THE GOLDEN GATE
NOW ITS UP 2 MANKIND ~~WITH~~ 2 DECIDE (AS) OUR FATE
THE HUMAN RACE HAS REACHED THE CROSSROADS
BUT ULTIMATLY ITS UP 2 GAIA IF WE CAN LIVE IN HER HOME
IF SHE WANTED SHE COULD WIPE US OUT SO THAT THERES NOBODY LEFT
SO A NEW SPECIES COULD RISE THAT PAID HER RESPECT
REINCARNATIONS FROM OUR SOULS (STRAIGHT FROM) THE LIFE STREAM
THE RIVER OF LIFE, THE MOST BEAUTIFUL PLACE THAT YOU'VE SEEN
SOURCE OF ALL EARTHLIFE, WITH A BALANCE WE LACKED

BUT THATS A WORST CASE SCENARIO, I DOUBT IT WILL COME 2 THAT
PROVIDING FORGOTTEN WAYS OF LIFE, BEGIN 2 COME BACK
LOOK AFTER GAIA AND SHE'LL LOOK AFTER YOU

~~BOI THATS THE WORST CASE SCENARIO I DON'T WANNA FACE~~

DEPRESSIONS RELENTLESS FURY

ITS THE HUMAN CONDITION
WE ALL SO LOST AND COLD
BECAUSE OUR CONFUSED WAY of LIVIN
BOT IS IT OUR FAULT WHEN
WE BROKEN DOWN RIGHT FROM THE BEGINN
BY CORPORATE TELEVISION WITH NO IDEA OF
THE SYSTEM WHICH KEEPS POWER HUNGRY
FOOLS SITTIN ON OUR DECAYING PLANET
WHATS WORSE IS THEY PLANNED IT
BOT I GIVE UP PREACHING THIS MESSAGE
I JUST LIVE AND LET LIVE WHILST
BEING CREATIVE BOT OUR WASTED
EXISTANCE MAKES ME DEPRESSED
AND ANGRY NOTHING MAKES SENSE
I "AVE GOOD INTENTIONS BUT AINT PERFECT
BUT THAT DONT MEAN WECANT BE PEACFUL
PLEASANT SO MUCH HATE MAKES ME
HESATENT TO REACH THE MASSES AND SHARE VIEWS
I ONCE THOUGHT IT WAS MY PURPOSE BUT IT
SEEMS THE HUMAN RACE DESTINED TO LOSE
I HOPE NOT BUT IT HARD TO KEEP FAITH
WHEN THE MANTRA IS IGNORANCE & HATE

SO I FIND IM WASTING MY MIND
ROTTING IN THIS SYSTEM WAITING HOPE OF LIFE MIND
BUT UNFORTUNATELY ALL I SEEM TO FIND
IS THAT SAME DERESSION WHOS RELENTLESS
FURY NOLONGER BOTTLES INSIDE
SO THIS SOUL ONCE ON A STRONG SPIRITUAL PATH
IS JUST TRYING TO FIND THE STRENGTH
TO LAST WHICH IS WHY THE PEOPLE LIKE
ME WILL NEVER UNDERSTAN HOW THEIR
INPUT HELPED ME THROUGH ANOTHER DAY
ON THIS LAND MUSIC IS MY
MEDITATION I JUST CREATE AN
WAIT FOR THE REST OF THE NATION
TO BE LOVING INSTEAD OF HATIN
HOLD MY LOVED 1S CLOSE
AND TRY NOT TO SIN
ANGELS AND ALIENS PLEASE
KEEP ON WATCHIN
FOR GAIA NEEDS THE SYSTEM
TO CRASH SO EVOLUTION CAN STEP
IN TIME TO LOVE 1 ANOTHER

I TRY 2 STAY HEADSRONG
IN4 SYSTEM I DONT BELONG
SO I STAY IN MY OWN AMBIENT DOME
WHERE THE UNSOMNIA HAS ME TRAPPED
INTO A PERSONAL REALM THAT IS DIFFERENT
BUT THE SAME THAT ALL INDIVIDUALS DELVE IN
I WISH IT DIDNT BUT DRUGS HELP
ITS LIFE A CHEMICAL SUPER NOVA
WORSE THAN JEHOVA
NOTHING CAN STOP
ITS LIKE A BLACK HOLE NOTHING CAN SORT
CANT CLOSE MY EYE SOCKET
BUT LIKA BLACK HOLE MY CREATIVITY IS
PULLED BY IT
WHATS THERE 2 REGRET
NOTHING INSIDE BUT THE PAIN THE
WORLD HIDES IS SHOCKINGLY STILL DEN
WHEN WILL PEOPLE REALISE IGNORANCE IS LIKE CYAN
LOOK DEEP INSIDE IF THERES ANY CYANIDE
HOPE YOULL FIND SOMETHING WORTHY
OF A HUMAN MIND INSTEAD OF
THE BABYLON INSTALLED HARDRIVE

ITS BETTER TO SEEK REDEMPTION BEFORE THE RIGAMORTIS SETS IN…

Love & Respect to those who seek redemption!!!!
Don't give up and don't give a fuck
but make sure when your time comes
your prepared to put them up
for the next generation to have a chance
take off them fucking masks
dont run into the devils hands
thinking for serving
you'll be earning
but really it be burning
when its to late to be yearning
for the chance to turn a curve in
this world of sin
so take this chance for learnin
cause we all family
if you want to be
I face the system
from the bottom
standing alone
I cant stop em
regardless i carry on going
till I'm dead and gone
legacy never forgotten
but continually passed on
"the Infinite Lesson" is a continuum
and our day will come
just as the morning sun
we wont be undone
they so obsessed
with Immortality
chasing fantasy
that will never be
but through the Temple of Hip Hop
we can see and keep the continuity
Peace, Love & Unity
loving freedom to put it simply
showing others the way
so if they take my last breath away
they will carry iton to the next day
and no matter how many times
my tribes are denied
their rights and their lives
the spirits wont hide
and will forever reside
in Gaias pulsing lifestream
coming back and slowly remembering
till the spirit is back
to where they left off

the knowledge i just dropped
is the infinite lesson
and can not be stopped
but this knowledge gets lost
on those at the top
when they too busy
trying to be the boss
whatever the cost
suddenly realise
just as their heart stops
when I'm asking
all humans to see sense
before their organic vessel
is just remnants
of decaying matter
no final respects
liquid cremation
in 30 foot vats
soy-lent green
was a vision they had...
recycle humans to feed the plants
is that where we at!
so many US states
have begun to legislate
flushing liquified remains
down into the sewers and drains
until its treated and sold as bio sludge
supposedly good food for the crops
more like chemical waste for the C.H.U.D.S.
as sad as that is its of no matter to me
back to the topic of immortality
thanks to all those before me
who gave me the key
to unlocking my own destiny
Path of Self Discovery
guided by Ancestry
Roots & Kulture is History
as well as Philosophy
and Rebirth is a cycle
its multitude is complex
many forms that interconnect
astral projekt Unity Collect
old to the new, new to the next
'infinite reset'
that lives on through respect
I thank the heavens
for all of my blessings
shout out to Koze K.
for transmission of lessons
and the higher spirits
that will always be in attendance
sometimes the life stream splits

too make a powerful soul into 2
and this is an inevitable force
that has never been lost
and it remains clear
when im feeling it here
and the message is sincere
and helps overcome fear
holding us back
spitting hard facts
always quick to react
to tyrannical acts
pulling people from the darkness
when esoteric bars hit
acceptance of the truth
that our species would lose
if Gaia didnt feel proof
of enough humans
paying spiritual tributes
its simple dont get it confused
stand in the woods no socks no shoes
without technological abuse
unless its music through a sound system
as that is the 1 benefit to come out of it
and this will help unite the spirits
of frequency driven
paradigm shiftin
forever upliftin
community
in unity
moving to the beat
as a singularity
that moves as 1
and this is all that needs to be done
and yet these words will be twisted
by the drones who so willingly enlisted
so quick to enable believing the fable
how many times i gotta say
YOU AINT GOT NO SEAT AT THE TABLE
Ha haaa
but in the end they have the future in store
so quick to build and install
a prison and walk in
while they lock the door
fear breeds obedient boot licker's
positioned nicely for the infinity kickers
like in Orwellian premonitions
willingly conditioned
to have Babylon hardrives
installed with precision
into their brain so their only vision
is what these demons want to have fitted
tyrants were so committed

signed the contract and never turned back
well we all still have a chance
to change our own paths
and this is a glance
into the future
and what theyll do to ya
and thats just a fact that wont change
even if im killed and get sent back again
that was always my destination regardless
... or did you forget that...?
will you be the slaves
who will never be killed
but tortured for the devils thrills
thats really the plan
of what devil owned man
will be on this land
and you can be a hero
or a punk ass bitch
and if you dont right your wrongs
that you made under oath
then by their belief system
the karma is cold
and thats on you
and by their law
they havnt done wrong
as they told you
what this would do
but still you carried it through
and even the circle within a circle
within a circle is subject to
this little burden
that was not behind the curtain
but directly on them
to not do these deeds
and hopefully this poetry
helps 1 of you to break free
as you are the victims in reality
your the ones thats been the most deceived
if you really believed
that your evil deeds
would be appreciated
by demons and fiends
and that youll be treated like kings
then you really are the dumbest
Mudoken meat puppets
thats ever been
human .... well....
the shell at least
as this the path of the beast
and cycles of rebirth
may not be so lucky
as human life may be

a brief moment in eternity
of lives that may elevate
if you chose to see
but no this message is lost too tyranny....
so desperate to read what i write
but never does the meaning break through to minds eye.....
whats your excuse for defending the rotten
a message to the top straight from the bottom

and im out

Peace x

SELF INFLICTED INSOMNIA

self induced insomnia
like a dark shadow over ma
mind and back
struggle to relax
fear manifest only held back

when i realize the obvious truth
heart chakra break through
higher self sometimes too
with the aid of them mushy blue
psilocybin laced with mescaline
Gnosis is the awakening

but now my higher self
has stepped back into the shadows
reduced to a drug induced insomnia
where the creative philosopher hallows

deep thought and insight lost in time
expressed only through the arts,
sometimes rhymes
reminiscing them art crimes
my distant brother Simba may be gone
but remnants of his creative soul
will always live on

i try to stay headstrong
stuck in a system i don't belong
so i stay in my own ambient dome
where the insomnia has me thrown
into a personal realm
that is the same but different
to what all individuals delve

wish it didn't but drugs help
its like a chemical super nova
worse than J.E.N.O.V.A.
a blackhole & nothing can stop it
cant close my eye socket

but like a blackhole
my creativity gravitates around it
what's there to regret
nothing inside
but the pain the world hides
its shocking but its still denied

when will people realise
ignorance is like cyanide
look deep inside
and if theres any hope you'll find
something worthy of a human mind
instead of a Babylon installed hard-drive

I came to this planet
to Resonate that Love vibration,
Me and all my family
came to free this enslaved nation,
Remove the parasites
that cling to Occupation!
Presence of Light makes Man (Mankind)
desire Liberation!

My Mortal body
is just a Temp. Organic Vessel,
To Help as many People
Elevate to higher Levels,
For the prison is one
that stems from Fear!
Higher Vibrations
makes this Truth all So Clear

SO AS THIS MOST
BEAUTIFULLY DIVINE VIRUS
SPREADS THROUGHOUT THE MASSES,
HUMAN RACE EMPOWERED
REINVENTS THEIR FORMER STATUS
EVERY SINGLE SOUL IS INFINITE
AND CAN TAP INTO THE SOURCE

SO EACH AND EVERY SOUL
HAS THE POWER TO CHANGE
ITS OWN COURSE
YOU THOUGHT YOU WAS OUR MASTER,
A DARK SUPERIOR FORCE,
THE DIVINE IS LOVE AND LIGHT,
YOURS WAS ALWAYS A LOST CAUSE!

ChronicRedEye said it right
about not sleeping at night
whilst holding a vision
that goes beyond religion
a potential purpose for livin’
has been hidden
by the people sinnin’
and sittin’ at the top
causing Gaia to rot

seems it ain't gonna stop
unless we retrieve what we lost
but we either dumb or forgot
which drives the awake to lose the plot
trying to help people unlock
sick of Babylon mind block
staring at a spinning clock
WHEN WILL THIS
SELF INDUCED INSOMNIA STOP?!

SUPER NOVA
WORSE
THAN J.E.N.O.V.A.

Put our Minds Together,
TRUE DEMOCRACY!
Create the World
We Want to come into Being,
Soo Many are Awake Now,

‘Nintendo Power’ Scans Disappeared From The Internet Archive

from the *nintendon't dept* Tue, Dec 6th 2022 08:05pm - Timothy Geigner

“It was only some weeks back that we were discussing how a group of hobbyists were once again doing the culture preservation work that content creators should be doing in the form of a scan of every single Nintendo Power magazine and uploading it to the Internet Archive. At the time, you could go to the link for the project and view every magazine’s contents in its full antiquated glory. I finished that post off with the following line after ruminating that the view on this by Nintendo should be that this is pure preservation and not some kind of threat to its current business operations:

> *Hopefully Nintendo can manage to see that as well. Somehow, though, I suspect the lawyers already have pen to paper.*

But, as I’m fond of saying, Nintendo is going to Nintendo. If you go to the site for the project now, you’ll see that the content has been replaced with a notice indicating that the content has been taken down. Annoyingly, the text displayed now doesn’t detail out why it’s been taken down, but rather indicates a bunch of possible reasons: TOS violations, a decision by the uploader, etc. Because of that, I can’t say for sure that Nintendo’s lawyers got involved to get this content taken down, but it’s a pretty safe bet. Why?

Well, because the company has done this exact thing before. At that link, you can read a Wired post on how Nintendo took down 140 issues worth of scans, also from the Internet Archive, back in 2016.

> *The 140+ issues of classic gaming magazine Nintendo Power that were uploaded to the Internet Archive are once again the preserve of physical collectors and forgotten boxes stashed in attics. Nintendo, the original publisher of the title, has had the digital collection pulled.*
>
> *While no formal announcement has been given on the takedown, Nintendo of America told Polygon that it must “protect our own characters, trademarks and other content” and “the unapproved use of Nintendo’s intellectual property can weaken our ability to protect and preserve it, or to possibly use it for new projects.”*

What’s clear here is that either Nintendo requested the content be taken down directly or either the Internet Archive or the uploader did so purely out of fear of Nintendo’s lawyers. Either way, as I’m often wont to do, I am happy to blame Nintendo for this.

And you really do have to keep it in your head that there both is no threat to Nintendo for not figuring out a way to allow this to exist, nor is Nintendo doing anything itself to achieve the same preservation efforts that the upload achieved. It’s not like there’s an official Nintendo site out there where all of this culture is being preserved. If there were, the IA.org scans wouldn’t need to exist.

It’s a net loss for culture, all because Nintendo just can’t stop being Nintendo.”

IN DEFENCE OF THE INTERNET ARCHIVES - Old to the New, makes New to the WISE

A short article that I would define as
'Res ipsa loquitur'
in the case of whether
copyright infringement is a criminal act
(i.e. causes damage, harm or loss)
or whether it serves,
to protect and preserve,
creativity & humanity
through all of its works
whether its sounds, pictures or words
if it found itself archived
than it must of had worth
to be cared about so much
that someone dedicated time to put it up
not for personal gain
but simply to share & explain
what made us and those before
rather than letting its memory
fade into the floor
with the organic vessels
that aren't here any more
the future isn't something
to be bought or sold
its all of mankind's history
immortal through legacy
passed on genetically
as well as through teachings
of our roots and life's meaning
and the only thing that's infringing
is corporate “owners” of rights
who didn't create shite
they just exploited and swiped
perverted its philosophies
and made a monopoly
and pushed the P.L.U.R. priority
down to a statistic anomaly….
excluding Underground Hip-Hopper’s, Obviously
our roots so deep they call it hollow earth theory
but mass media got the game locked tight
and when lawsuits claim about rights
they keep the original artist's out of sight
they don't get any payouts
not even recognition through shout outs
I’m sure they'd even sue the artists, NO DOUBT!
If you signed a deal but just gave it out
no profits theyd have to stop it
no freebies for the poor who cant afford shit
in fact….that would be interesting to see
would the courts expect artists to offer remedy
to a faceless, corporate entity
void of its own creativity
just because they scribbled some squiggles

dotted the i;'s and crossed the T's
then all that is achieved
is artists life's work
can no longer be perceived
future minds no longer relieved
lost generations, not under the wings
without knowing our history
they wont have eyes to see
what it truly means to be
part of humanity
only the tragedy
the system creates gradually
look at today's culture
and what do we see
projected through mainstream
none of that was passed down from us
it should of always been sus'
reeks of mental Psy-op’s
replaced their legacy
with crown chakra disease
the virus spreads through mentality
so turn off your tvs
as the roots of technologies
continues the creed
defined in MKUltra
they never did plan
to close the folder
just fine tuned the mind controller
so that they could create a new culture
that causes mental illness
before the children get older
but this may be
the internet's last legitimate library
like that of Alexandria but digitally
so we better hurry
to make into HARD COPIES
let them fly like the autumn leaves
Internets saving grace to be shared
truth knowledge and history
to ALL humans
in EVERY country
then it cant be deleted
by a few typing fingers
and these truths are like basics
Simple 1s for solid foundations

we are all 1
Children of the Sun
as well as Gaia
our Pacha-Mama

but they trying to hijack the spirit
they want you to fear it
and to be hating carbon
but that is the atom
which all known life is based on

the building block
for all life as we know it
so zero carbon is diabolic
sounds like a dead planet
or at least from earths understanding
they take knowledge then twist it
into a dark religion
hate fuelled Dogma yet again
even though its gone full circle
back to paganism
they still trying to warp 5D earths vision
death is part of life in a natural equilibrium
and if mankind's history is forgotten
their lies will become a "scientific" Doctrine
Matrix farms for making humans
these plans are already in view and
if we don't share all of earths views
than our species may collectively lose
without the Union
of a Man and Woman
our species will become sterile
inevitably extinction after a while
but that's a worst case scenario
hopefully even then we may return though
through rebirths we may come back
into earths flow
Maybe just with
a new genetic code
that might be more
inclined to grow
I'm talking spirit not dough
In equilibrium
instead of delirium
parasitic ways of livin'
like a blazing flames destruction
burns itself with no fuel for combustion
once its consumed all in sight
it goes out like a light
nothing left to consume but itself
such is the self destructive path of malevolence
.....this may just be a cycle of tangents.....
my feelings became this poem..... and it is a gift
no can own it once its left my lips
projected into the ether and continued through resonance
well.... that's if its heard and felt with spirit sense
let it be a part of my creativity
to hopefully connect spiritually
with brothers and sisters that ill never see
but so the legacy will continually
elevate consciousness so that we may be
higher beings than we are currently being
and that's just a dream
that i want ALL humans to achieve
we are all family and not enemy's
we have real power if we could just perceive
and we could guide the youth to better our Legacy
but without knowing the roots of kultural family Trees

they will repeat our mistakes even as new seeds
im so off topic into the esoterical
the point is without preservation its lost to elementals
and the system is using all of its power
to make sure all Human Culture is devoured....
but they will turn sour in the final hour
we are all just compost, food for the flowers
Immortality is real but only through generations
continual growth is evolution of elevations
anyways ill end on these pearls of wisdom
a philosophy shared by ALL religions
and that's to truly learn to know thyself
new age awareness continues to develop
we all have our own life lessons
but we can only find self through asking questions
and making sure you find your own answers
fuck the social norms most of them are spiritual cancers

A Tribe Called Quest Lyrics

"Push It Along"

[Verse 1: Q-Tip]
Q-Tip is my title.
I don't think that is vital for me to be your idol,
But dig this recital.
If you can't envision a brother who ain't dissin',
Slingin' this and that, 'cause this and that was missin'.
Instead, it's been injected, the Tribe has been perfected.
Oh yes, it's been selected, the art makes it protected.
Afrocentric livin', Africans be givin'
A lot to the cause 'cause the cause has been risen.
Some brothers, they be flammin', thinkin' we ain't slammin,
Comin' off like the days where we used to wear the tans and
A blue-colllar talker, a hemisphere stalker,
A glass of O.J and a ten mile walk-a.
If you're in a Jeep and you dig what you're hearin',
Can I get a beep and a side order of cheerin'?
I am what I am, that's a tribal man.
We all know the colours, we all must stand.
As we start our travels, things they will unravel.
"Que sera sera", for this unit is like gravel.
Won't be gone for long, listen to the song.
If you can't pull it, all ya gotta do is

[Chorus:]
Push it along, push it along.
Push it along, yeah, push it along. *[x4]*

[Verse 2: Pfeife, Q-Tip]
Put one up for the Pfeife, it's time to deceipher.
The ills of the world make the situation lighter.
The clock is always tickin', the systems should be kickin'.
Like *[?]* ham and eggs, I eat chicken, chicken, chicken.
Should I release the lever, the lever of the clever,
Embelish on the funk as we start to endeavour?
The wraughts of the rap filling up the gap
With the smash of a hand and a little toe tap.

The boom, the bip, the boom bip
Indicates to the brothers that we be on the flip tip.
Phonies start to crumble, funky rhythm rumbles
Through the dance-hall, but my anthem is humble.
It's the nitty-gritty, my time is itty-bitty,
So I kick the slash for the gipper and the witty.
This ain't trial and error, more like tribe and error,
Constantly rude as some sort of tribal terror.
The street can't depart from the bloody heart.
Repair the wear and tear, don't start 'fore it starts.

Won't be gone for long, listen to the song.
If you can't pull it, all ya gotta do is

[Chorus]

[Verse 3: Q-Tip]
Marchin' off the project, we hope that you will subject.
It's good to be an object and never, ever reject.
The tribe who meanders with drunken propoganda,
Keep it in boom and never will we slander.
[?] should be handed, don't let me demand it.
Money gives a nudge to the poet star bandit.
Control it, then recluse it, follow, you won't lose it.
Mysterious is the tribe for we choose it.
Although she's flippin' crazy, give my love to Gracy.
God, could you help 'cause this Quest is crazy spacey?
The pigs are wearin' blue, and in a year or two,
We'll be goin' up the creek in a great big canoe.
What we gonna do, save me and my brothers?
Hop inside the bed and pull over the covers.
Never will we do that and we ain't tryin' to rule that.
We just want a slab of the ham, don't you know, black?
This society of fake reality
Are nothin' but a peg of informality.
While I sing my song, sing it all day long,
If you can't pull it, all ya gotta do is

[Chorus]

A Tribe Called Quest Lyrics

"Luck of Lucien"

[Verse 1: Q-Tip]
Brother, brother, brother, Lucien, you're like no other.
Listen very close 'cause I don't like to boast.
Instead, I'll tell the tale of a French who prevailed
Through the Mr. Crazy Rabbits who were always on his tail.
[?] on sale, your rumour starts to wail.
Get caught with stolen goods and you will go to jail.
If you go to jail, then who will pay the bail?
They'll put you back to France on a ship with a sail.
Escargot, Lucien, you eat snails.
(Hey yo Tip, what's wrong with snails?)
From the Zulu nation, from a town called Paris,
Came to America to find liberty.
Instead of finding pleasure, all you found was misery,
But listen, Lucien, you have a friend in me.
Oh, luck luck will drive you butt baddy.
Next time you get some wheels, make it a Caddy.
In terms of doing good, I know you wish you really could,
But listen, brother man, I really think you can.
Succeed with the breed of the brothers on your back.
It's the creme de la creme, and you can bounce with that.
It'll take a minute, rice, so take my advice.
Trust in us, and thus you trust in your life.
Lucine, Lucien, Lucien, Lucien.
You should know!

[Verse 2: Q-Tip]
Are you ready, Lu?
This one is for you,
Comin' from a true-blue, fits like a shoe.
Como esta usted or como talle vu?
Lucien, I'll leave it up to you.
Voulez vous (vous).
Endez vous (vous).
Coo-coo (coo).
Les poo-poo (poo)
Watch that lass, gonna backlash fast.
Can you get a grip on the crackhead dip?
Sold you a paper bag, guess he saw you comin',
VCR from a neck-bone bummin',
$10 brother, he was hummin' and strummin',
Only had 20, he was livin' like ya slummin',
Gave him the money, well, I thought that was somethin',
Lookin' like a kid who was lost in crumbin'.
Don't worry about a thing, I won't get specific.
This is a song that is long and prolific.
Think of the stuff that I said if you can.

Figure it out, compute, understnad.
No problemo, I'll help you with your demo
If you go to the store for me.
Lucien, I'm just kiddin'.
You should know!

[Verse 3: Q-Tip]
You gotta get a grip on the missions you'll be takin',
Not so much the mission, but you got crazy ignition.
Sure, the sugar-babies wanna give you a chance
With the French "savoir faire" and the sexy dance,
But is she really fly, or is she a guy?
I won't ask why, 'cause I know that you try.
You try too hard, is that the answer to the riddle?
Instead of doin' so much, why don't you do just a little?
Boy, what a cad, I guess we shouldn't treat him bad.
In fact, it would be nice if we understood him like
A case of positionin' the feet in the shoes,
Sympathetic reason in the case of the blues.
Lucien is blue, even though he's really brown.
I had to make the sound, his life is too profound.
On the up-and-up, he's somethin' like a little pup,
Young and naive, it's hard to believe.
As long as you're strong, you can quest with the questers,
Jolly like a jumping bean or a jester.
Lucien, Lucien, Lucien, Lucien.
You should know!

A Tribe Called Quest Lyrics

"After Hours"

[Chorus:]
After Hours it was cool *[x8]*

[Q-Tip:]
Ten after one I think I'll hop the horse
Downtown late of three of course
Just came from fishing couldn't get a catch
Downtown they'll probably have a batch
A whitened sandwich and a Guiness stout
But with the bail though I had a bout
So I exchanged it for some apple juice
I had the blues but I shook them loose
A jeep is blasting from the urban streets
Loots of funk over hardcore beats
The moon dabbles in the morning sky
As the minutes just creep on by
I get a thought and hear comes my Tribe
Ritual shakes and in good vibes
Like always the Quest begins
In the mist though but the rhyth's move in
We find a spot and we sit and chat
Speaking on the status quo of rap
A derelick makes a real long speach
We pay attention to the words he read
When he was done we rattled on
There was no lunch because it wasn't dawn
We pointed things out about this times
The worlds famons and the crazy crimes
Inflation of the nation, it bothers me
I better go gold, to pay the taxes
Gotta be swift society
The man whose made is the man who maxes
The grounds for living are being discussed
As we go it gets close to dusk
Gather thoughts and savor breath
Cause there's only a few hours left

[Chorus:]
After Hours it was cool *[x8]*

[Q-Tip:]
Me ohh my, hey-hey, hey-hey
The human hours are here to stay
This is how it seems *[?]* my witness
Bug out all night, ask Phife, he's with this
Girls be screaming on this conversation
I have my two cents for a revelation

And my watch continuously tic-tocs
Shaheed will bring up the beats that rocks
I hear the frogs and the smashing of bottles
A car revs up and I hear it trottle
It probably moves with the morning wind
Ohh my God, here's Phife again
[?] talking about last nights game
Trying to remember someone's name
So hear the frogs dancing in the streets
Once again Ali will bring up the beat
Like this

[Sounds of frogs]

[Q-Tip:]
The beat is over and so is the night
The sun is risen and the shine is bright
We all say peace and go our separate ways
Youth is fading as we gain our days
Expedition for the song is simp'
The hours creep, excuse me, I mean limp
As we go you hear a gasp of laugh
As we start up our rhythmic path
Like this

[Chorus]

A Tribe Called Quest Lyrics

"Footprints"

[Q-Tip]
As we start trudgin, me and my brothers we be lookin and be buggin
Vehicles of life they be rollin and be mergin
Searchin for the virgins of life
that be shovin out the door that's crack
The valleys of time, are always on my feet
As least the beat will combine
The calluses and corns with the funky bassline
You don't need underdog for a nickel shoeshine or the shoes that's phat
Well can I get a level on the bass and on the treble
Footin up and down like a UNLV Rebel
The answer be amongst us cos we rarely dig acoustics
Can't be too much flackin, not too much packin
You must container that at least to dip your hand in rap
Your feet will be infectious so at least realise the fact
The rhythms are inserted and the nurse can be converted
This ain't rock 'n' roll cos the rap is in control
If you're a megastar, worth will buy you a car
I'd rather go barefootin, for prints I will be puttin
all over the earth if we can get there first
Now that we are in it, footprints are bein printed
So fi you recognise em, you can try to size em
They'll probably be the ones with the size not fryin
all over reveal, you won't have to yield
If you want protection you can hide behind the shield

[Q-Tip]
You can game on the gallons if you really need to rock
But we walk while we talk as we stompin through the block
Hand in hand 'cross the land as Muhammad cross the fade
It's a Tribe who meanders, precious like a jade
It's a art, Theo arch rhymes the ground placed upon
The mind will unwind, it will soft to beyond
Catch the track, track by track, get a map to track a trail
You will find yourself behind for a map does not prevail
See the levels peakin as the rhythms keep-a screechin
A Quest, oh yes a Quest, inside the jam I will keep preachin
the point, oh yes the point, because it's close but yet so far
The loudiness is ringin as we scoot across the star
We are bulgin, I'm indulgin in a rat-a-tat-tat
Explanation for the liners that the rhythm is phat
Keep it wild, wide and deep, you could dig it in a jeep
But dig it in the ground because the foot print now

[Q-Tip]
If there's a storm that's brewin, it won't keep us from doin
our thing as we start swingin, travellin is bringin

joy inside the domes as we hit the road to roam/Rome
A chair is not a chair, a house is not a home
Because my skin is brown, yo I'm gonna do the town
Rub it in the face and rub my feet all through the place
When you get your finger on the music it'll linger
Sing a song o' sixpence, sing it like a singer
A Nubian, a Nubian, a proud one at that
Remember me, the brother who said "Black is black"
You can come by request, I don't play, I don't dress
Get emotions off your chest, we are black, we the best
Makin moves, makin motions, flowin like an ocean
The walkin will continue, we know that we will bring you
the times that you have waited, more anticipated
Be gone but not for long because the feet will stay strong

A Tribe Called Quest Lyrics

"I Left My Wallet in El Segundo"

My mother went away for a month-long trip
Her and some friends on an ocean-liner ship
She made a big mistake by leaving me home
I had to roam so I picked up the phone
Dialed Ali up to see what was going down
Told him I pick him up so we could drive around
Took the Dodge Dart, a '74
My mother left a yard but I needed one more
Shaheed had me covered with a hundred greenbacks
So we left Brooklyn and we made big tracks
drove down the Belt, got on the Conduit
Came to a toll, we paid and went through it
Had no destination, we was on a quest
Ali laid in the back so he could get rest
Drove down the road for two-days-and-a-half
The sun had just risen on a dusty path
Just then a figure had caught my eye
A man with a sombrero who was four feet high
I pulled over to ask were we was at
His index finger he tipped up his hat
"El Segundo," he said, "my name is Pedro
If you need directions, I'll tell you pronto"
Needed civilization, some sort of reservation
He said a mile south, there's a fast food station
Thanks, senor, as I start up the motor
Ali said, "Damn, Tip, why you drive so far for?"

(Well describe to me what the wallet looks like)

Anyway a gas station we passed
We got gas and went on to get grub
It was a nice little pub in the middle of nowhere
Anywhere would have been better
I ordered enchiladas and I ate 'em
Ali had the fruit punch
When we finished we thought for ways to get back
I had a hunch
Ali said, "Pay for lunch"
So I did it
Pulled out the wallet and I saw this wicked beautiful lady
She was a waitress there
Put the wallet down and stared and stared
To put me back into reality, here's Shaheed:
"Yo, Tip, man, you got what you need?"
I checked for keys and started to step
What do you know, my wallet I forget

Yo, it was a brown wallet, it had props numbers
Had my jimmy hats I got to get it man

Lord, have mercy
The heat got hotter, Ali stars to curse me
I fell bad but he makes me feel badder
Chit-chit-chatter, car stars to scatter
Breaking on out, we was Northeast bound
Jettin' on down at the seepd of sound
Three days coming and three more going
We get back and there was no slack
490 Madison, we're here, Sha
He said, "All right, Tip, see you tomorrow"
Thinking about the past week, the last week
Hands go in my pocket, I can't speak
Hopped in the car and torpe'ed to the shack
Of Shaheed, "We gotta go back" when he said
"Why?" I said, "We gotta go
'Cause I left my wallet in El Segundo"

Yeah, I left my wallet in El Segundo
Left my wallet in El Segundo
Left my wallet in El Segundo
I gotta get, I got-got ta get it

A Tribe Called Quest Lyrics

"Pubic Enemy"

[Red Alert:]
Check this out, Cool DJ Red Alert
With my man, Q-Tip

[Q-Tip:]
In the morning, woke up from sexual pleasures
Looked at her sexual partner
Who acquainted her acquaintance
Five hours ago at a disco
She went lower than low, into limbo
A thought crossed the mind, her, a bimbo
She answered no, so she had to go...on with the program
Creedence, it seems that I've forgotten your name
But it seems that she's done the same
And now something has happened
Suddenly, she's been distracted
By something that has been attracted
She poked and poked and smacked at it
Then she broke down and she scratched it
Now, I think you understand
Clinic, saw the doctor flex his biceps
Then he picked up a pair of forceps
Her pretty face showed fright
Right then and there, she fainted
A really grim picture is painted
The brotha who she acquainted
Was the enemy, scary ain't it?
The Pubic Enemy

[Red Alert:]
Yeeeeeeaaaaahhhhh!!!
Let me tell you more about pubic enemy
Ay, Q-Tip

[Q-Tip:]
Old King Cole was a merry old soul
Had a lady queen, married since 18
He protested, that he was infested
Get lots of love and he couldn't digest it
All propaganda, one big fat lie
Cuz I see the king with my very own eye
Schemed and schemed like a crack fiend king
And poppin up on the teammates scene
And poppin and pimpin on hunnies with moneys
Whole situation to me, was kinda funny
He hold the crown but not the jimmy hat
Now he wears a frown and the jimmy hates that

So the fair maiden in the royal bedroom
Caught the king scratchin, so she had to assume
That he got vicked by the enemy's trick
The thought of cheatin made the maiden so sick
That she screamed and screamed, went on and kept screamin
Threw a pot and his dome was beamin
You could hear him yellin in the motherland
"Baby, baby please. Baby, understand."
She ignored and walked through the gate
The king is in the kingdom to await his fate...of the enemy
The Pubic Enemy

[Q-Tip and Red Alert:]
Propmaster(yeah) Please listen to me(what?)
Something lurkin by the JimBrowski
(Who? Jenny?)
No, not propulated
A horrible creature that must be penetrated
He gets all into ya, then he tries to do ya
You better run fast, he's gonna pursue the...
(What? Yo listen here. Propmaster whiz, no one fears...)
Oh, the caves know, just thought I'd let ya know
How he lives and how he go
Watch yourself when you're out on the run
The enemy is missed, we'll have too much fun
There's four friends of mine that thought they were bad
And laid up this girl, so now, they're sad
They scratched and scratched like it was Saturday and...

[Red Alert:]
Listen here. This is Cool DJ Red Alert
Known as the true, the only, the very one, the Propmaster
There's only one thing I gotta tell ya
There's a whole lotta propmasters out there. You know what I mean
Shaheed a propmaster, Q-Tip a propmaster
The Jungle Brothers a propmaster, BDP a propmaster
45 King a propmaster
I won't tell you nuthin bout the ladies, they ain't no propmaster
But you know who's the main propmaster
MEEEEEEEE!!!!!!

A Tribe Called Quest Lyrics

"Bonita Applebum"

[Intro: Q-Tip]

Do I love you?
Do I lust for you?
Am I a sinner cuz I do the two?
Could you let me know
Right now, please
Bonita Applebum

[Chorus:]

Bonita Applebum, you gotta put me on *[x4]*

[Q-Tip:]

[pause between every verse]
Hey Bonita, glad to meet ya
For the kind of stunning newness, I must have foreseen ya
Hey, being with you is a top priority
Ain't no need to question the authority
Chairman of the board, the chief of affections
You got mine's to swing in your direction
Hey, you're like a hip hop song, you know?
Bonita Applebum, you gotta put me on

[Chorus]

38-24-37 (uh, uh, uh!)
You and me, hun, we're a match made in heaven
I like to kiss ya where some brothas won't
I like to tell ya things some brothas don't
If only you could see through your elaborate eyes
Only you and me, hun, the love never dies
Satisfaction, I have the right tactics
And if you need 'em, I got crazy prophylactics
So far, I hope you like rap songs
Bonita Applebum, you gotta put me on

[Chorus]

A Tribe Called Quest Lyrics

"Can I Kick It?"

[Q-Tip]
Can I kick it? (Yes, you can!) *[7X]*
Well, I'm gone (Go on then!)

Can I kick it? To all the people who can Quest like A Tribe does
Before this, did you really know what live was?
Comprehend to the track, for it's why cuz
Gettin measures on the tip of the vibers
Rock and roll to the beat of the funk fuzz
Wipe your feet really good on the rhythm rug
If you feel the urge to freak, do the jitterbug
Come and spread your arms if you really need a hug
Afrocentric living is a big shrug
A life filled with *HORN* that's what I love
A lower plateau is what we're above
If you diss us, we won't even think of
Will Nipper the doggy give a big shove?
This rhythm really fits like a snug glove
Like a box of positives is a plus, love
As the Tribe flies high like a dove

[Phife Dawg]
Can I kick it? (Yes, you can!) *[7X]*
Well, I'm gone (Go on then!)

Can I kick it? To my Tribe that flows in layers
Right now, Phife is a poem sayer
At times, I'm a studio conveyor
Mr. Dinkins, would you please be my mayor?
You'll be doing us a really big favor
Boy this track really has a lot of flavor
When it comes to rhythms, Quest is your savior
Follow us for the funky behavior
Make a note on the rhythm we gave ya
Feel free, drop your pants, check your ha-ir
Do you like the garments that we wear?
I instruct you to be the obeyer
A rhythm recipe that you'll savor
Doesn't matter if you're minor or major
Yes, the Tribe of the game, rhythm player
As you inhale like a breath of fresh air

A Tribe Called Quest Lyrics

"Youthful Expression"

[Q-Tip:]
The taste of nuthin, this does somethin
Moms that knows that, says I'm frontin
Call me Smiley, cuz I'm wiley
Livin life like the life of Riley
Smokin blunts with a boy named Bud
We cough up your lungs, cough up your cud
Put out fires, with a 40, ounce of water
You know you oughta
Dance to this, your girl you kiss
I like fried foods, especially fish
Afrocentric, I'm electric
Socialistic and eccentric
Body's healthy, mind is wealthy
Thoughts, they flow, that will prepare me
To be a Native, get creative
Original and designative
Listen to the line that's playin
Listen hard to what Q's sayin
Politicians are magicians
Make your vote, they hope your wishin
Ambiguous words, senseless verbs
They all amount to crap that's heard
Violent hip hop, money flip flops
Promoters won't book, but it still rocks
I'm a Zulu, yes, a true blue
Red Alert is with the poo-poo
Ozone layer, loses flava
Here's the edge that you will savor

[Jarobi:]
The economy...politics...police...everything
Except for the youth
But the youth about to come back

[Q-Tip(voice distorted):]
Alright, here they come
Uh oh, uh oh, uh!

[Q-Tip:]
With expressions and I'm guessin
19 years is a youthful lesson
Fallin skies babe, open eyes babe
Can't you see what lays inside babe
Makin mentions on this tension
Rhythmic lovin, my profession
Hips, they gyrate, scripts I narrate

No banana, I ain't a primate
Ain't no soul glo, just an afro
The head is bred to let the thoughts grow
Quest together, to lands of never
Sleet and snow and storms can't sever
Tribe is growin, never know when
For this time, six necks may show in
Dialogues have been accepted
Negatives have been rejected
That's the music, negro music
Is here for all, so you must choose it
Phonies fondle, watch it throttle
3-6-5 straight out the bottle
Bustin caps, finger snaps
I prefer the second for ghetto tracks
Phife, Jarobi, Ali told me
Get the force like Wan Kenobi
Force his teachin, beats are screechin
Poly plateaus, we aim for reachin
Tribalization, freaks the nation
A mass of peers in celebration
Hopes been real high, since the knee high
Days of youth, feelin good and real spry
Avid combos, hear those bongos
Boom cacka boom, that's how they go
We ain't nomads, but we real glad
Hip hop slams through the nineties, no fad
As a rhythm, have been given
Hurry up, become, we breakin out, out

[Shaheed:]
With a rhythmic instinction to be able to travel
Beyond existing forces of life
Basically, that Tribal
And if you wanna get the rhythm
Then you have to join a Tribe
Word, peac

A Tribe Called Quest Lyrics

"Rhythm (Devoted to the Art of Moving Butts)"

[Shaheed:]
It's a new decade
The Native Tongues are about to proceed with the usual lingo
The usual rhythm

[Q-Tip:]
Devoted to...the art of moving butts
The rhythm's happenin, and it's movin up
The Tribe has been on hold for much too long
Don't fear the rhythm because it's strong
On the corners, brothas bop their heads
>From the high-tops to the knotty dreads
I'm a nubian y'all, look what we did
Took the crust away from the third eye lid
Now, it's kinda open, longs to see the site
Rhythms of the Tribe which is passed out right
Night after night, day after day
Questin for the rhythms of the Native Tongue lay
Rhythm is the key as we open up the door
Things a B-boy has never seen before
Polyrhythmatic with a big fat boom
You have an eargasm as you start to consume
The ghetto beat with a ghetto poem
Yeah, it's from the heart, cuz it's from the home
Jarobi, Phife, Ali Shaheed
Call me Koala, got what you need
You're a disc jock, then jock this
Rhythms can't lose, rhythms can't miss
If you feel uptight and you need to freak
It'll be alright once we drop this beat

[chorus:]
I got the rhythm, you got the rhythm *[8X]*

[Q-Tip:]
Ma ma sa ah, ma ma coo sa
Gets hectic, freak a bourgeios
We Quest around for the musical hard
On the avenues, streets and boulevard
Not sellin out, that's a negative
Lovin hip hop, lovin heritage
Got the instinct to travel miles and miles
Gotta whole lot of room for piles and piles
Now, you're kinda with it, wanna get the funk
>From the Zulu Nation, toppin all the junk
Standin on the top like the Temptations said
Rhythms are obese, yeah, you gotta keep 'em fed

Read what I read, can't be better said
Tribalic motions dabble in the head
Sweetback's bad, not as bad a beat
It's a "stone groove baby"
Continue, on the windy road
But, I'm luggin, a crazy big load
Will we be on point for the ninety deck
Is it muscle bound and will it flex?
But trudgin, we are used to
You don't Quest alone, Quest with a crew
We're four, once more, must make the tracks
You see four fronts, but now you see four backs

[chorus until end]

A Tribe Called Quest Lyrics

"Mr. Muhammad"

[Q-Tip]
Dip dip dive, to the socialised
Issued rhythms that are on the rise
Step right up, with an opened circuit
Get this current, don't you know it's worth it
Presented with, Tribe's intricity
Compared, don't you know? Vibe electricity
Strong like a bomb, quick like a comet
Can I get whatever from Mr. Muhammad?

[Ali scratches interlude]

[Q-Tip]
If Muhammad has the breaks, who will have the backs?
[whispered] Bodies set it up all flow to rhythm stack
Okay I see my brother (huh), you know what we can do (what?)
Cruise with the rhythms (hah), Shaheed will lead us too (yeah)
Posin with the hotties (huh), harder than the hard (hard)
Still Muhammad plays with a full deck of cards (card)
The Tribe's stuff is present (yeah), established with the beat (beat)
We roll around on wheels (huh) or utilise the feet (feet)
Go and keep progressin (huh), egos of the Tribe (Tribe)
If we have to swing it (uhh) we won't take a dive (dive)
Comprende my compadre? (Yeah) Kid you want some more? (Yeah)
Muhammad push the button (huh), sample sing the score (ho)

Brothers try to pose, up with the Tribesmen
Rhythm on your toes, yes it's the funk again
Appreciate the flow, denounce the circuit breakers
Do it with the best, the movers and the shakers
Bustin out your heap, ??? my vehicle
Burnin up the felts, rhythm's up to me
It will be strong like a bomb, quick like a comet
Can I get a whatever from Mr. Muhammad?

[Ali scratches interlude]

[Phife]
Sitting on the dock (huh), fin' to make a wish (word)
Muhammad oh Muhammad (huh), damn you're quite a dish (dish)
Fondeling the groove (groove), with the mystic sense (sense)
Honeys won't you try (huh), they push you in the tents (tents)
But I don't give a damn (word), rhythms make you swing (huh)
If you don't like it (no), you can pucker up (hoo)
You listenin Mr. Quayle (yeah), if you're hiding just give up (hoo)
I'm a rhythm monster (wild), who's out on a prowl (yeah)
Muhammad gives a hoot (hoot) like Woodsy the Owl (yeah)

Comprende my compadre (uh huh)? Kid you want some more (word)?
Muhammad push the button, sample sing the score (ooh)

A Tribe Called Quest Lyrics

"Ham n' Eggs"

[chorus:]
I don't eat no ham n' eggs, cuz they're high in cholesterol
A yo, Phife do you eat em? No, Tip do you eat em?
Uh huh, not at all(again)
I don't eat no ham n' eggs, cuz they're high in cholesterol
Jarobi, do you eat em? Nope, Shah, do you eat em? (Nope)
Not at all

[Q-Tip and Phife trading lines:]
A tisket, a tasket, what's in mama's basket?
Some veggie links and some fish that stinks
Why, just the other day, I went to Grandma's house
Smelled like she conjured up a mouse
Eggs was fryin, ham was smellin
In ten minutes, she started yellin (come and get it)
And the gettin's were good
I said, I shouldn't eat, she said, I think you should
But I can't, I'm plagued by vegetarians
No cats and dogs, I'm not a veterinarian
Strictly collard greens and a occasional steak
Goes on my plate
Asparagus tips look yummy, yummy, yummy
Candied yams inside my tummy
A collage of good eats, some snacks or nice treats
Apple sauce and some nice red beets
This is what we snack on when we're Questin'
[both:] No second guessin

[chorus:]
[Q-Tip: bridge]

[Phife:]
Now drop the beat, so I can talk about my favorite tastings
The food that is the everlasting, see I'm not fasting
I'm gobbling, like a dog on turkey
Beef jerky, slim jims, I eat sometimes
I like lemons and limes
And if not that, take it the road see and the salad sopped
Sit back, relax, listen to some hip hop

[Q-Tip:]
Gum drops and gummy bears tease my eyes
A sight for sore ones and some bore pies
And other goodies that are filled with goop
With fried apple roots
Delectable delights, control my appetites
Mine is for me, right, but I know what I like

Chicken for lunch, chicken for my dinner
Chicken, chicken, chicken, I'm a finger lickin winner
When breakfast time comes, I don't recognize
Pig in the pan or a pair of bogey chides
Mixed with stewed tomatoes, home fried potatoes
Or anything with flair, cook it, I'm in there
Pay attention to the Tribe as we impose
This is how it goes

I don't eat no ham n' eggs, cuz they're high in cholesterol
A yo, Phife do you eat em? Nah, Tip do you eat em?
Uh huh, not at all(come again, y'all)
I don't eat no ham n' eggs, cuz they're high in cholesterol
Jarobi, do you eat em? Nope, Shah, do you eat em?
Nope, not at all
I don't eat no ham n' eggs, cuz they're high in cholesterol
Afrika do you eat em? No, Pos, do you eat em?
Hell yeah, all the time
I don't eat no ham n' eggs, cuz they're high in cholesterol
Phife, do you eat em? Nah, Tip, do you eat em?
Uh huh, not at all
Jarobi, do you eat em? Nope, Shah, do you eat em?
Nope, not at all
I don't eat no ham n' eggs, cuz they're high in cholesterol
Afrika, do you eat em? No, Gary, do you eat em?
Yeah, all the time *[laughing]*

A Tribe Called Quest Lyrics

"Go Ahead in the Rain"

[Jimi Hendrix: Rain all day][2X]
[Q-Tip: Don't you worry]

[Q-Tip:]
All I wanna do is get down y'all
Have a ball y'all and freak freak y'all
Lifeless ventures ain't new boo
So don't boo hoo, yeah, you too
Gotta get a grip like culture
Swoop down, swoop down like a vulture
The rhythms will lurk into people
All funk ain't created equal
Lookin for the beat to rupture
Like the rapture, gotta capture
Don't let the storm of life scare ya
Get funky, let me prepare ya
For the days of grimness and oppression
A yo bro, here's your lesson
Even though the rain starts pourin
Start reachin, start soarin
Don't stop, if you do, you're stallin
Rhythm savior, hear ya callin
Instrumental to be freaky
Go ahead in the rain and you'll see

[Q-Tip:]
Can't we make you see
I mean, the fact that is the key, I mean
Devoted to the art of movin butts, so get on up and...
Think about what's yours
I mean your culture and your laws
I mean, I label you a sucka
If you're dumber, just stay dumber, but...
Stay in line and keep groovin
If it's movin, if it's soothin
Don't let a little thing like rain keep you unda
Or the fun-da, look at wonda
Stomp til your soul is lifted
Get with it, rhythm's with it
Get inside the groove and get nasty
Funky nasty, crazy classy
Money is a first on the list here
It's the good time, it's the good cheer
If you got the ride then ride it
Don't hide it, provide it
Drop, drop, drop down the pants, shake your fanny
Cuz it's handy, not an Annie

Rock to the roll with the hair down
Get the lowdown, rhythm showdown
The simple explanation is nada
Make it hotter, thanks, de nada
If you wanna hear what I'm sayin
Clean your ears and just come on and groove

A Tribe Called Quest Lyrics

THE LOW END THEORY
A TRIBE CALLED QUEST

A Tribe Called Quest Lyrics

"Buggin' Out"

[Phife Dawg]
Yo, microphone check one two what is this
The five foot assassin with the ruffneck business
I float like gravity, never had a cavity
Got more rhymes than the Winans got family
No need to sweat Arsenio to gain some type of fame
No shame in my game cause I'll always be the same
Styles upon styles upon styles is what I have
You wanna diss the Phifer but you still don't know the half
I sport New Balance sneakers to avoid a narrow path
Messin round with this you catch ?the sizin of em?
I never half step cause I'm not a half stepper
Drink a lot of soda so they call me Dr. Pepper
Refuse to com-pete with BS competition
Your name ain't Special Ed so won't you Seckle With the Mission
I never walk the streets, think it's all about me
Even though deep in my heart, it really could be
I just try my best to like go all out
Some might even say yo shorty black you're buggin' out

[Q-Tip]
Uhhh, uhhh, uhhh, uh!
Zulu Nation, brothers that's creation
Minds get flooded, ejaculation
right on the two inch tape
The Abstract poet incognito, runsss the cape
Not the best not the worst and occasionally I curse to get my
point across, so bust, the floss
As I go in betweeen, the grit and the dirt
Listen to the mission listen Miss as I do work, umm
as I crack the, monotone
Children of the jazz so, get your own
Smokin R&B cause they try to do me
or the best of the pack but they can't do rap
For it's Abstract, orig-inal
You can't get your own and that's, pitiful
I know I'd be the man if I cold yanked the plug
on R&B, but I can't and that's bugged

Buggin out, buggin out, buggin out you're buggin out *[x8]*

[Phife Dawg]
Yo when you bug out, you usually have a reason for the action
Sometimes you don't it's just for mere satisfaction
People be houndin, always surroundin
Pulsin, just like a migraine poundin
You don't really fret, you stay in your sense

?Comafied? your feeling, of absolute tense
You soar off to another world, deep in your mind
But people seem to take that, as being unkind
"Oh yo he's acting stank," really on a regal?
A man of the fame not a man of the people
Believe that if you wanna but I tell you this much
Riding on the train with no dough, sucks
Once again a case of your feet in my Nike's
If a crowd is in my realm I'm saying -- mic please
Hip-hop is living, can't yank the plug
if you do the result, will end up kind of bugged

[Q-Tip]
Yo, I am not an invalid although I used to smoke the weed out
Ali Shaheed Muhammad used to say I had to be out
Schemin on the cookies with the crazy boomin back buns
Pushin on the real ?hardest? so we can have the big fun
When I left for Rosie I was Boulevard status
Battling a MC was when Tip was at his baddest
It was one MC after one MC
What the world could they be wanting see from little old me
Do I have the formula to save the world?
Or was it just because I used to swipe the women and all the girls
I'm the type of brother with the crazy extended hand kid
Dissed by all my brothers I was all up what my man did
Supposed to be my man but now I wonder cause you're feeble
I go out with the strongest and I seperate the evils
it's your brain against my mind, for those about to boot out
All you nasty critters even though you see I bug out

Buggin out, buggin out, buggin out you're buggin out *[x8]*

A Tribe Called Quest Lyrics

"Rap Promoter"

[Q-Tip:]
It's a fly love song

To the effect of nothing, effective fronting
Is what I don't allow so let me tell you something
I am a bonafide
Not too modest and not a lot of pride
Soon to have a ride and a home to reside
If my momma is sick I'm by her bedside
Used to watch the show on Channel 4 called Riptide
Wash my wears in-Tide cause it's too damn cold out-Tide
That's how the runnings go
If there ain't no dough then there ain't no show
So take your roly poly fat promoter (ass)
To the Chemical Bank, and get my cash
If you wanna see the people scream and laugh
You best Quest, you ask the Quest, you ask real fast
Cause I don't wanna see 'em, start bucking
Throwing chairs in the air while you be ducking
What what? Don't step to me with that
If you promoting a show make sure it ain't wack
Or else I'm leaving ("Let me tell you")
I'm leaving ("Let me tell you")
I'm leaving ("Let me tell you")
Your wack show

[Q-Tip & {Phife}:]
Yo man what's up with that?
{Yo don't sweat me
C'mon, five hundred, that was the deal}
C'mon man, don't try to play me out
{We don't need you, sorry!}
And the Abstract rapper says

[Q-Tip:]
I want chicken and orange juice, that's what's on my rider
And my occasional potato by Ore-Ida
Don't forget my pastry make sure they're tasty
I'm not the type to be pushy or hasty
See I'm the type of bro that's reared in the ghetto
Took a few shorts before
Now the only ones I take are the ones that I wear
Ain't taking no shorts no more, now
Please act proper 'fore I call the CrimeStoppers
Don't dip on the dough, cause that's a no-no
Make sure you count your money real slow
Be alert, look alive, and act like you know

It's, the 90s, time to make moves
Not, the 80s, do away witcha womb
So what? You got a crew
I got one too, they're called the Brooklyn Zu
Don't break fool, let's be reserved and cool
We don't have to act like we in grade school
Just make sure that we're taken care of
And we'll do a fly show for ya bub, check it out

Diggy dang diggy dang gi-dang gi-dang diggy diggy
Dang diggy dang gi-dang gi-dang diggy diggy
Dang diggy dang gi-dang gi-dang diggy diggy
Dang diggy dang gi-dang gi-dang diggy diggy

A Tribe Called Quest Lyrics

"Butter"

[Verse One: Phife Dawg]

1988 Senior Year, Garvey High
Where all the guys were corny but the girls were mad fly
Loungin with the Tipster, Coolin with Sha
Scopin out the honeys - they know who they are
I was the b-ball playin fly rhyme sayin
Fly girl gettin but never was I sweatin
Cause when it came to honeys I would go on a stroll
Until I met my match - her name was Flo
Yeah - I messed around with the one called Flo
All the troopers round the way used to call her a ho
But deep down in my heart I knew that Flo was good to go
Cause I thought it was me - like Bell Biv Devoe
But little did I know that she was playin' with my mind
The only thing I learned is, good girls are hard to find
I feel like Heavy D I need somebody for me
Not someone who's mind is blank and tryin' to juice me for my bank
Swingin' with my main man Lucky behind my back
What type of crap is that - yo, hows about a smack?
Word life, I can't front - thought I was all that
But now it seems, I met my match
Was a stone cold lover, you couldn't tell me jack
Settlin' down with one girl, wasn't tryin' to hear that
I had Tonya, Tamika, Sharon, Karen
Tina, Stacy, Julie, Tracy
Used ta love 'em, leave 'em, skeeze 'em, tease 'em
Find 'em, lose 'em - also abuse 'em
My whole attitude was new day, next hon
And believe it or not, they all got done
Well here comes Flo, with the crazy whip appeal
And I'm all true man, like Alexander O'Neal
Is this really love, then again, how would I know
After all this time tryin' to be a superhoe
She finally played me, but yo, I'd find another
Cause I got the crazy game and yo, I'm smooth like butter

[Chorus: Q-Tip]

Butter, like butter baby . . . *[x2]*
Not no Parkay, not no margarine,
Strickly butter baby, strictly butter

[Verse Two: Phife Dawg]

I remember when,
Girls were goodie two shoes, but now they turned to freaks

Allofasudden "We love you Phife" - ease of ho, my name's Malik
Phife this, Phife that, where you goin', where you at
These girls don't know me from jack, yet I feel like the Mack
You didn't want me then, so hon, don't want me now
Here, Here - take the towel, wipe off your brow
And take the Ccontact out your eye, you're far from lookin' fly
You get an E for effort, and T for nice try
Now tell me what's the reason, for dyin' your hair
Slum village gold still danglin in your ear
You barely have a neck but still sportin' a rope
Four-finger ring just so Phifer can scope
You looked in the mirror, didn't know what to do
Yesterday your eyes were brown but today they are blue
Your whole appearance is a lie and it could never be true
And if you really loved yourself then you would try and be you
If your hair and eyes were real, I wouldn't have dissed ya
But since it was bought, I had to dismiss ya
If you can't achieve it, then why not try and weave it
If you can't extend it then you might as well suspend it
If you can't braid it, best thing to do is fade it
I asked who did your hair and you tell me "Diane made it"
If you were you and just you, talk to you, maybe
But I can't stand, no bionic lady
Tryin' hard to look fly, but yo, you're lookin' dumber
If I wanted someone like you I woulda swung with Jamie Summers
You wanna be treated right, see Father MC
Or check Ralph Tresvant, for sens-a-tiv-i-ty
See I am not the one, I got more game than Parker Brothers
Phife Dog is on the mic and I'm smooth like Butter . . .

A Tribe Called Quest Lyrics

"Excursions"

[vocal interludes sampled from "Time is Running Out" by The Last Poets]

[Q-Tip]
Back in the days when I was a teenager
Before I had status and before I had a pager
You could find the Abstract listening to hip hop
My pops used to say, it reminded him of be-bop
I said, well daddy don't you know that things go in cycles
The way that Bobby Brown is just ampin like Michael
Its all expected, things are for the lookin
If you got the money, Quest is for the bookin
Come on everybody, let's get with the fly modes
Still got room on the truck, load the back boom
Listen to the rhyme, to get a mental picture
of this black man, through black woman victim
Why do I say that, cuz I gotta speak the truth man
Doing what we feel for the music is the proof and
Planted on the ground, the act is so together
Bonafied strong, you need leverage to sever
The unit, yes, the unit, yes, the unit called the jazz is
deliberatley cheered LP filled with streeet goods
You can find it on the rack in your record store (store)
If you get the record, then your thoughts are adored
and appreciated, cause we're ever so glad we made it
We work hard, so we gotta thank God
Dishin out the plastic, do the dance till you spastic
If you dis... it gets drastic
Listen to the rhymes, cuz its time to make gravy
If it moves your booty, then shake, shake it baby
All the way to Africa a.k.a. The Motherland (uh)
Stick out the left, then I'll ask for the other hand
That's the right hand, Black Man (man)
Only if you was noted as my man (man)
If I get the credit, then I'll think I deserve it
If you fake moves, don't fix your mouth to word it
Get in the zone of positivity, not negativity
Cuz we gotta strive for longevity
If you botch up, what's in that (ass) (what?)
A pair of Nikes, size ten-and-a-half (come on, come on)

[Chorus:]

We gotta make moves
Never, ever, ever could we fake moves (come on, come on) *[4X]*

"Time.. time is a ship on a merciless sea
Drifting toward an average of nothingness

Until it can be retarded for it's own destiny
TIME is an inanimate object
Praying and praying and praying for ??
Time is DANCING, moving lingering all memories of past.."
The Last Poets

You gotta be a winner all the time
Can't fall prey to a hip hop crime
With the dope raps and dope tracks for you for blocks
From the fly girlies to the hardest of the rocks
Musically the Quest, is on the rise
We on these Excursions so you must realize
that continually, I pop my Zulu
If you don't like it, get off the Zulu tip
So what could you do in the times which exist
You can't fake moves on your brother or your sis
But if your sis is a (bitch), brother is a jerk
Leave 'em both alone and continue with your work
Whatever it may be in today's society
Everything is fair, at least that how it seems to me
You must be honest and true to the next
Don't be phony and expect one not to flex
Especially if you rhyme, you have to live by the pen
Your man is your man, then treat him like your friend
All it is, is the code of the streets
So listen to the knowledge bein dropped over beats
Beats that are hard, beats that are funky
It could get you hooked like a crackhead junkie
What you gotta do to is know that the Tribe is in the sphere
The Abstract Poet, prominent like Shakespeare

[Chorus]

Edgar Allan Poe, it don't stop (uh!)

"Time is running out on black power Africans today
and whites blacks and reporters at night
Everytime you see them ?? with their tongues hangin out
Time is running and past and passing and running
Running and past and passing and running (excursions)"

A Tribe Called Quest Lyrics

"Verses from the Abstract"

[Q-Tip:]
I had a dream about my man last night
And my man came by the studio
And his name is...
Busta Rhymes in effect, Shaheed is in effect
Phife Did-awg is in effect
Check it out and give me my 'spect

I'm movin, yes I'm groovin cuz my mouth is on the motor
Use the Coast in the mornin to avoid the funky odor
Can't help bein funky, I'm the funky Abstract brotha
Funky in a sense, but I play the undacova
Once had a fettish, fettish for some booty
Now I'm gettin funky and my rappin, that's my duty
Brothas tend to jock on the style in particular
If you got the ego like some brothas, then I'll get with ya
But if I don't pursue, then I just don't give a (fuck)
My motto in the 90's is be happy makin bucks
Girls love the jim, cuz it causes crazy friction
When it goes up in and fluctuates the diction
I still understand the (uh!) cuz that's what I met her for
I'm hooked on the swings, so just call me the music whore
Women love the voice, brothas dig the lyrics
Quest the people's choice, we thrive it for the spirit
If you can't hear it, then get the wax utensils
Write my rhymes straight up, don't get with no fancy stensils
The rhymes we get is sweet, we stay away from tart
Our perfection is at work, perkin up the art
If you want to battle, I suggest you check your clock
Your demise is comin up and I want your man to watch
Be the prime example, I deep instilled the sample
Insignificance, here I'll place you on the mantle
Born up in Harlem, reside down in Jamaica
The girl I used to rock, her moms was a claker
Now what does that make her? The evil money taker?
The crazy move faker, I used that to break her

[Vinia Mojica singing in the background]
Phife is in the house, Uncle Mike is in the house
Bob Power is in the house, Tim Latham is in the house
Wise Men is in the house, Brand Nubs is in the house
The J Beez, they in the house and De La, they in the house

I must regroup my thoughts and kick the next ones for my people
Please don't be deceived by ugly slice of evil
The world is kinda cold and the rhythm is my blanket
Wrap yourself up in it, if you love it, then you'll thank it

Don't move to rebuttal, wave your hand for action
The ladies of the '90's want more than satisfaction
They want keys and Gs, and all those illy things
If you want to, I'll show you, just what the Ab can bring
I keep a tight net with my brothas Ken and Kenny
If the question is of rhymes, then I'll tell ya, I got plenty
The thing that men and women need to do is stick together
Progressions can't be made if we're separate forever
I hooked this funky beat with the loop and the feature
With the funky singin by Miss Vinia Mojica
So listen because the Quest is led through the underground
My people been up on Quest to long, no more will we be down
People tend to riff cuz they don't know the mental
People tend to bug cuz their beats are hard but gentle
Afro kinda lurks through the body of this youngun'
Play like Bobby Byrd on your back and your comin to
The house of the jazz, of the funk, of the rhythm
All the goods are welcome, but if you're a villain
I'll just wait and debate, contemplate your arrival
If flexin is your motive, then you don't like survival
The Abstract is speakin, the hard beats is reachin
The Black and Puerto Ricans
Cuz their butt naked, streakin through the ever murky streets
Of the urbanized areas
Blastin out the speakers is the hip hop hysteria

Craig is in the house, Pete Rock is in the house
CL is in the house, Ultra Mag is in the house
Nice and Smooth is in the house, Big Daddy Kane is in the house
Beatnuts is in the house, Special Ed is in the house

Yeah *[7X]*
This one goes out to my man
Thanks alot Ron Carter on the bass
Yes my man Ron Carter is on the bass
Now check it out
Born into the 91 decade
You gotta say the Quest is on
And goddamn it, yes the Quest is on
And we out!

A Tribe Called Quest Lyrics

"Show Business"

(feat. Diamond D, Lord Jamar And Sadat X)

[Verse 1]

[Q-Tip]

Let me tell you 'bout the snakes, the fakes, the lies
The highs at all of these industry shing-dings
Where you see the pretty girls
In the high animated world
Checkin' for a rapper with all the dough
If you take a shit they want to know
And if you're gonna fall, they won't be around, y'all
So you still wanna do the show business?
And you think that you got what it takes?
I mean you really gotta rap and be all that
And prepare yourself for the breaks
Check it out!

Do you wanna be in the business? (The Business)
The ups and downs with the hoes (The Business)
Always gettin' fronted on at shows (The Business)
People gotta stick their nose (In the Business)

[Verse 2]

[Q-Tip]

Yo, I gotta speak on the cesspool
It's the rap industry and it ain't that cool
Only if you're on stage or if you're speakin' to your people
Ain't no-one your equal
Especially on the industry side
Don't let the games just glide
Right through your fingers, you gotta know the deal
So Lord Jamar speak, because you're real...

[Lord Jamar]

They're givin' you the business and puttin' on a show
You're a million dollar man that ain't got no dough
But you got a ho tickets backstage to a show
Sedated and at that fact they elated
Time pass and your ass say "Where's my loot?"
The reply is a kick in the ass from a leg and a boot
All you wanna do is taste the fruit
But in the back they're makin' fruit juice
You ask for slack and wanna get cut loose from the label

Not able cos you signed at the table
For a pretty cash advance, now they got a song and dance
That you didn't recoup, more soup wit' ya meal?
Cos this is the real when you get a record deal
And I say...

[Phife]

Aw....shucks, look what the cat hauled in
It's Phife Dawg from A Tribe Called Quest, let me begin
Like Chuck D, I got so much trouble on my mind
'bout these no-talent artists gettin' signed, they can't rhyme
And if that ain't bad, you got bootleggers
Goin' out like suckers, motherfuckers
Feel it's time that I let loose the lion
And if not that then I'll commence to head flyin'
Seems in '91 everybody want a rhyme
And then you go and sell my tape for only $5.99?
Please nigga, I've worked too hard for this
No more will I take the booty end of the stick
Bogus brothers makin' albums when they know they can't hack it
Cos they lyrics is played like 8-Ball jackets
Now tell me I can't tear it up
Go get yourself some toilet paper cos your lyrics is butt

Do you wanna be in the business? (The Business)
People can't walk a straight line in (The Business)
Some of these brothers can't rhyme in (The Business)
A-yo, I'm tryna get mine (The Business)

[Verse 3]

[Sadat X]

The party scene is cool, but then again it's all the same
You see the same faces, but at different places
When you're up and ridin' high everything is palsy-palsy
Get a million pounds and all the skins give you hugs
Well that's cool, I can dig it, it really ain't my bag
Prefer to max on the side and let my pants sag
"Oh, he's a cutie", yeah, real cute
But I wasn't that cute when I didn't have no loot
Although I hit a pound of herbs I'm still nice with the verbs
So fuck what you heard
The born cipher, cipher master makes me think much faster
But critics still continue to plaster
My name and discredit my fame
All that shit is game
And I don't really give a damn
Eat from the tree of life and throw away the verbal ham

[Diamond D]

Well, excuse me, I gotta add my two cents in
Don't be alarmed, the rhyme was condensed in
A matter of minutes so it must be told
All that glitters' not gold
Everybody wants a deal, help me make a demo
See my name in bright lights, ride around in a limo
My moms keeps beefin' ("Boy, get a job")
But I wanna make jams, damn, I know I'll slam
Huh, well it's not that easy
You gotta get a label that's willin' and able
To market and promote, and you better hope
(For what?) That the product is dope
Take it from Diamond, it's like mountain climbin'
When it comes to rhymin' you gotta put your time in
Get a good lawyer so problems won't pile
You don't wanna make a pitch that's wild.

A Tribe Called Quest Lyrics

"Vibes and Stuff"

[Q-Tip:]
Let me flaunt the style (style), I think that the time's near
That we drop studs (studs), there will be no duds here
Rappers play the dumb (dumb), kinda on the space tip
But when they hear the jams (jams), they be on the dilsnick
Now I'm not for the rock (rock), I know the territory
Go ahead and try (try), that's a different story
Similar to Grimm (Grimm), I could tell a better one
All about a kid (kid), who couldn't rap and didn't run
Stand (stand) aside (aside), when the rap is gettin dumb
Resort to baggin Billy (Billy), askin can he have some
No, never ever (ever) come back and try again man
If you come back (back), I'll be the first to shake your hand
Competitions good (good), it brings out the vital parts
The Abstract Poetic ('etic), majors in recital arts
Do it for the kids (kids), the elders and the rap peers
We know the job is done (done), when we hear a lot of cheers
Gotta feel the vibes (vibes), come from my creation
If the hands clap (clap) are filled with elation
Here I am ghetto, full with a lot of steam
Think I gotta, I think I gotta, I think I gotta scream (scream)
Cause that's how good it feels child
Let your hair down (down), so we can get buckwild
Do your I'll dance (dance), don't think about the next man
We must have unity and think of the bigger plan
The vision, we fall (fall) we must stick together, see
I'd like to take this time (time) to say what's up to Kool G
The name is Q-Tip (Tip), The Midnight Marauder
Give enough respect ('spect) to Afrika Bambaataa
As a man in the world (world), I must do my job
Take care of Mama Duke (Duke), I won't resort to rob
Bob you'll get your dough (dough), Mase is my witness
Obsessed with the rap (rap), for it's the mental fitness
Like shootin cee-lo (lo), and always gettin headcracks
The industry is luck (luck), winning with the fake raps
Peace to the crews (crews), who pump the real hip hop
Not sellin out (out) from hardrock to disc jock...
(From disc jock to hardrock, from hardrock to disc jock)

[Phife:]
I don't know what to say, but here I go freak it
If the papes come, then you know I'll seek it
I'm just a short brotha, dark skin face
Weigh a buck-fifty, 36 waist
My hair is crazy curly
Front like Mr. Furley
To this day, I still believe that no MC can serve me

Brothas try to front, but everybody know (know)
I get more props than the Arsenio Hall Show
Party animal I was, but now I chill at home
All I do is write rhymes, eat, drink, shit and bone
Found my thrill in Amityville, I'm always in the Island
Fudge and Monkey know the time, they know who keeps 'em smilin
Go out on my own, somethin that I gotta do
Do what the hell I want and have no one to listen to
I'm prompt with my business and I do things on the double
Yo, I'm out like Buster Douglass, I say peace to MC Trouble
Rest in Peace

[Q-Tip:]
Word Up, rest in Peace, and you know what else?
We got, we got, we got the vibe (vibe)
All the people in Long Island, we got the vibe (vibe)
Brooklyn and Queens, we got the vibe (vibe)
Uptown and New York, we got the vibe (vibe)
People upstate, we got the vibe (vibe)
If you're in DC, you got the vibe (vibe)
Maryland, Virginia, Carolina vibe (vibe)
Out West, we got the vibe (vibe)
In the Bahamas, we got the vibe (vibe)
Over in Europe, you know what? We got the vibe
And we gotta keep it alive, it goes on...

Of rap I'm a fan, I've seen a whole lot of subs
Goods with the girls, I got a whole lot of 'em
From fat to skinny, Freeda to Winnie (Winnie)
Emma to Cindy, Constance to Wendy (Wendy)
Cause I be more friendly (friendly), never on the snotty side
I don't brag to brothas about the little papes I got (got)
My vocal styles can vary, the sight is never scary (scary)
It's only legendary ('dary), my father well prepared me ('pared me)
My job ain't temporary, I'm here for the long shot
Better yet, the long term, I don't have a perm (perm)
In a way I do, call 'em the perma-naps
I'm crazy slap-happy and I'm scrappy when I'm nappy
When I get the mic in my hand and the crowd in stands (stands)
It's as good as grand like that (that)

I wanna say peace and dedicate this joint to MC Trouble and to
Um... Trouble T-Roy
And to um... Scott La Rock and to um... Cowboy, you know what I'm sayin?
This is for the slain rappers and the fallen rappers
You know what I'm sayin (sayin)?
This is a special, special, special, special, special dedication
And also to my pops and also to Vinny, his moms (moms)
You know what I'm sayin?
You just gotta keep it happy and keep the vibes going
And this is Vibes and Stuff
And we out...

A Tribe Called Quest Lyrics

"The Infamous Date Rape"

Classic, classic...
Classic example of a...a date rape *[4X]*

[Q-Tip:]
Listen to the rhyme, it's a black date fact
Percentile rate of date rape is fat
This is all true to the reason of the skeezin
You got the right pickin but you're in the wrong season
If you're in the wrong season, that means you gotta break
Especially if a squad tries to cry out rape
You be all vexed cuz she got it goin on
You don't wanna fight cuz you know that you're wrong
So instead you rest your head on the arm of the couch
Envision in your head of a great sex bout
Worthy opponent, all you wanna do is bone it
You ask can you kick it, she says you can't stick
This is the case, the situation is sticky
Should you try to kiss or head for a hickey
Not even, you can ask Steven
If the vibe ain't right, huh, ya leavin
Hit the road Jack and all of that
But if she offers her abode, to drop ya load
Right smack dab in the middle
Get the kitten, I got crazy tender vittles

[Phife:]
Uh huh, you know science, you get buckwild
Runnin mad games as if your name was Scott Skiles
Or better yet Magic or even Karl Malone
Regardless who it is, your aim is to bone
If she tries to front, then you start to dis her
If she's with the program, that's when you start to kiss her
Might as well get to the point, no time to waste
Might as well break the ice, then set the pace
You start to talk nasty, now she's ready to bone
Step out of the shower, throw on cologne
All of a sudden, her sugarwalls tumble down like Jericho
She's hotter than Meshach, Shadrach and Abendego
You listen to After 7, break fool after 10
Do your thing at 12 o'clock and when you go again
There goes round 1, ding, there goes round two
Now tell me what the (fuck) are you supposed to do
What do you know, when the meow is completed
Girly girl cried rape, yo, I didn't really need it

[Q-Tip:]
Sweetheart, we ain't goin out like that *[2X]*

Sweetheart, we ain't goin out like that(zulu)
We ain't goin out like that(zulu)
We ain't goin out like that

Now baby bust it, if you wanna groove
Me and you can do it, it will be the move
I won't cry over spilled milk
If you won't let me take you to the Hilt
I don't wanna bone you that much
That I would go for the unforbidden touch
I'm not the type that would go for that
I'll have to fetch a brand new cat
Baby, baby, baby I don't wanna be rude
I know because of your bloody attitude
I know why you act that way
It usually happens on the 28th day
I respect that crazily
When you're done with the past can you come check me
This ain't a joint to disrespect you
Because one head ain't better than two
Check it out

It's a classic example of a...a date...

A Tribe Called Quest Lyrics

"Check the Rhime"

[Q:]
Check the rhyme y'all.

[Q:]
Back in the days on the boulevard of Linden,
We used to kick routines and presence was fittin'.
It was I the abstract
[P:]
And me the five footer.
I kicks the mad style so step off the frankfurter.
[Q:]
Yo, Phife, you remember that routine
That we used to make spiffy like mister clean?
[P:]
Um um, a tidbit, um, a smidgen.
I don~t get the message so you gots to run the pigeon.
[Q:] You on point Phife?
[P:] All the time, tip.
[Q:] You on point Phife?
[P:] All the time, tip.
[Q:] You on point Phife?
[P:] All the time, tip.
[Q:] Well, then grab the microphone and let your words rip.
[P:]
Now here's a funky introduction of how nice I am.
Tell your mother, tell your father, send a telegram.
I'm like an energizer 'cause, you see, I last long.
My crew is never ever wack because we stand strong.
Now if you say my style is wack that's where you're dead wrong.
I slayed that body in El Segundo then push it along.
You'd be a fool to reply that Phife is not the man
'Cause you know and I know that you know who I am.
A special shot of peace goes out to all my pals, you see.
And a middle finger goes for all you punk MC's.
'Cause I love it when you wack MC's despise me.
They get vexed, I roll next, can~t none contest me.
I'm just a fly MC who's five foot three and very brave.
On top remaining, no home training cause I misbehave.
I come correct in full effect have all my hoes in check.
And before I get the butt the jim must be erect.
You see, my aura~s positive I don't promote no junk.
See, I'm far from a bully and I ain't a punk.
Extremity in rhythm, yeah that's what you heard.
So just clean out your ears and just check the word.

[Q:]
Check the rhyme y'all.

Check the rhyme y'all.
Check the rhyme y'all.
Check the rhyme y'all.
Check the rhyme y'all.
Check the rhyme y'all.
Check it out.
Check it out.
Check the rhyme y'all.
Check the rhyme y'all.
Check the rhyme y'all.
Play tapes y'all.
Check the rhyme y'all.
Check the rhyme y'all.
Check it out.
Check it out.

[P:]
Back in days on the boulevard of Linden,
We used to kick routines and the presence was fittin'
It was I the Phifer,
[Q:]
And me, the abstract.
The rhymes were so rumpin' that the brothers rode the 'zack.
[P:]
Yo, tip you recall when we used to rock
Those fly routines on your cousin~s block.
[Q:]
Um, let me see, damn I can't remember.
I receive the message and you will play the sender.
[P:] You on point Tip?
[Q:] All the time Phife.
[P:] You on point Tip?
[Q:] Yeah, all the time Phife.
[P:] You on point Tip?
[Q:] Yo, all the time Phife.
[P:] So play the resurrector and give the dead some life.
[Q:]
Okay, if knowledge is the key then just show me the lock.
Got the scrawny legs but I move just like Lou Brock,
With speed. I'm agile plus I'm worth your while.
One hundred percent intelligent black child.
My optic presentation sizzles the retina.
How far must I go to gain respect? Um.
Well, it's kind of simple, just remain your own
Or you'll be crazy sad and alone.
Industry rule number four thousand and eighty,
Record company people are shady.
So kids watch your back 'cause I think they smoke crack,
I don't doubt it. Look at how they act.
Off to better things like a hip-hop forum.
Pass me the rock and I'll storm with the crew and...
Proper. What you say Hammer? Proper.
Rap is not pop, if you call it that then stop.

NC, y'all check the rhyme y'all.
SC, y'all check it out y'all.
Virginia, check the rhyme y'all.
Check it out. Out.
In London, check the rhyme, y'all.

A Tribe Called Quest Lyrics

"Everything is Fair"

[chorus George Clinton from Funkadelic's "Let's Take It to the People":]
"Everthing is fair when you're livin in the city" *[8X]*

[Q-Tip:]
Lookin at Miss Lane, it was the fast lane
Barely knows her name, struck by fame
She just got a Benz, she rides with her friends
Gotta keep her beeper in her purse to make ends
Rollin down the block, checkin out the spots
She winks at the cops, always give her props
She knows she's the woman, can't nobody touch her
Hangs out for the loot, makes her papes from the gutter
Tried to make my moves on Miss Lane, she called me young boy
Told her not to dis me I just want to be your love toy
You young boy, my love toy, I doubt that very highly
Just because you rhyme don't mean I'll let you try me
Business oriented, egos never dented
Always sweet scented, if it's business, she meant it
Distractions never hurt, always did the work
Always was alert, she never got jerked
Queen of the feats, thrive to compete
Love the funky beats while she drive down the street
She was justified, couldn't get a job
Had to feed her family, so she had to play, then rob
Pullin out the ooh wop, listenin to doo-wop
You don't have to say a word
(gunshots)That's all ya heard

[chorus 4X]

She's not a big kahuna, wish I met her sooner
Instead, I met her later, my love is much greater
Put me on her roster, to rid her of imposters
And to sell the buddah for the sexy drug ruler
Love is my motive, now I'm drug promotive
Plus I needed duckets to fill up my buckets
Supplied me with the squeezy to make my life easy
Now I'm missing action for this fatal attraction
But don't you let me catch you with your joint up in these bitches
And don't you even dare to plan a plot upon my riches
Cuz if you play me out, I think I'll let ya be
I'll be damned if I let a brotha try to gas me
I played my cards well, try to live swell
For the G, I would sell, cuz I was deep in hell
But then I really wasn't, she had a fly cousin
Who would give me booty on the side of my cutie
Elaine, she kinda new, that I would do the do

But she didn't tear, I did my work with care
That's all that really mattered, he money never splattered
As long as she was paid, she was in the shade
You can't really blame her for holdin on a flamer
Society taught her, but they didn't tame her
A ten clip salute, hunny heres a troop
She will never stop until she reach the top
Top, top...

A Tribe Called Quest Lyrics

"Jazz (We Got the...)"

[Intro/Chorus]

We got the jazz *[X4]*

[Verse One: Q-Tip]

Stern firm and young with a laid-back tongue
The aim is to succeed and achieve at 21
Just like Ringling Brothers, I'll daze and astound
Captivate the mass, cause the prose is profound

Do it for the strong, we do it for the meek
Boom it in your boom it in your boom it in your Jeep
Or your Honda or your Beemer or your Legend or your Benz
The rave of the town to your foes and your friends

So push it, along, trails, we blaze
Don't deserve the gong, don't deserve the praise
The tranquility will make ya unball your fist
For we put hip-hop on a brand new twist

A brand new twist with the homie-alistic
So low-key that ya probably missed it
And yet it's so loud that it stands in the crowd
When the guy takes the beat, they bowed

So raise up squire, address your attire
We have no time to wallow in the mire
If you're on a foreign path, then let me do the lead
Join in the essence of the cool-out breed

Then cool out to the music cuz it makes ya feel serene
Like the birds and the bees and all those groovy things
Like getting stomach aches when ya gotta go to work
Or staring into space when you're feeling berserk

I don't really mind if it's over your head
Cuz the job of resurrectors is to wake up the dead
So pay attention, it's not hard to decipher
And after the horns, you can check out the Phifer

[Chorus]

[Verse Two: Phife Dawg]

Competition, dem Phifer come sideway

But competition, dey mus' me come straightway
Competition, dem Phifer come sideway
But competition, dey mus' come straightway

Hows about that, it seems like it's my turn again
All through the years my mike has been my best friend
I know some brothers wonder, can Phifer really kick it?
Some even wanna dis me, but why sweat it?

I'm all into my music cuz it's how I make papes
Tryin' to make hits, like Kid Capri makes tapes
Me sweat another? I do my own thing
Strictly hardcore tracks, not a new jack swing

I grew up as a Christian so to Jah I give thanks
Collect my banks, listen to Shabba Ranks
I sing, and chat, I do all of that
It's 1991 and I refuse to come wack

I take off my hat to other crews that intend to rock
But the Low End Theory's here, it's time to wreck shop
I got Tip and Shah, so whom shall I fear
Stop look and listen, but please don't stare

So jet to the store, and buy the LP
On Jive/RCA, cassettes and CD's
Produced and arranged by the four-man crew
And oh shit, Skiff Anselm, he gets props too

Make sure you have a system with some phat house speakers
So the new shit can rock, from Mars to Massapequa
Cuz where I come from quality is job one
And everybody up on Linden know we get the job done

So peace to that crew, and peace to this crew
Bring on the tour, we'll see you at a theatre nearest you

[Verse Three: Q-Tip]

Hey yo but wait, back it up, hup, easy back it up
Please let the Abstract embellish on the cut

Back and forth just like a Cameo song
If you dig this joint then please come dance along
To the music cuz it's done just for the rhyme
Now I gotta scat and get mine, underline

The jazz, the what? The jazz can move that ass
Cuz the Tribe originates that feelin' of pizzazz
It's the universal sound, best to brothers underground
In the one-six below, ya didn't have to go

Some say that I'm a sinner cuz I once had an orgy
And sometimes for breakfast I eat grits and porgies
If this is a stinker, then call me a stink, I ask
"What? What? What?" - now check it out

All my peoples in Queens ya don't stop
Now all my peoples in Brooklyn ya don't stop
And all my peoples uptown ya don't stop
That includes the Bronx a' Harlem ya don't stop

Now to that girl Ramelle ya don't stop
I say because Ladies First ya don't stop
And to the JB's, ya don't stop
And De La Soul, ya don't stop

To my Brand Nubians ya don't stop
And to my Leaders of the New ya don't stop
To my man Large Professor ya don't stop
Pete Rock for the beat ya don't stop

Everybody in the place ya don't stop
Ya keep it on, to the rhythm, ya don't stop
And last but not least on the sure shot
It's the Zulu nation

A Tribe Called Quest Lyrics

"Skypager"

[Q-Tip:]
Do you know the importance of a skypager?

Those who don't believe, see you're laid behind
Got our skypagers on all the time
Hurry up and get yours cuz I got mine
Especially if you do shows, they come in fine
If you're with a G and you're sippin wine
Eatin caccatore with a twist of lime
Gotta meet your lover at a quarter to 9
Joint by base, then you get your high

[Phife:]
If you get your then high, mine is next
The 'S' in skypage really stands for sex
Beeper's goin off like Don Trump gets checks
Keep my bases loaded like the New York Mets
At times I miss the pager so you don't get vex
Havin bad days like a voodu hex
Conceptually, a pager is so complex
Cuz I be standin by the phone ready to flex

(Welcome to the new skypager)
[phone dialing]
(Enter telephone number or other numeric message)

[Q-Tip:]
Uh, so funky *[4X]*

[Phife:]
The batteries I use are called Du-ra-cell
They last for three weeks so they do me well
Don't be goin through no phases my joint stays on
24-7, from dusk til dawn
If you're in Costa Rica on a sunlit beach
You greed for the Phifer, I can be reached
A number of importance, I just put it on lock
You leave code '69", that means you want some (cock)

[Q-Tip:]
People tend to think that a pager's foul
Well it kinda is, cuz it makes me scoul
But it really hurts when you're on the prowl
Brothas know it hurts when you're on the prowl
Grabbin on my joint cuz I'm an eager owl
Get paged by a G or a business pal
My shit is overflowin, they won't allow

Another page, so I'll just end this now
(Message sent. Thank you for calling skypager)

A Tribe Called Quest Lyrics

"What?"

[Q-Tip:]
Babies babble on, they lookin for excuses
Game for the buzzer who kicked it to the losers
Lame as a brain, could be, golly gee
If you see a shrink he'll charge you a fee
If you see me ya see the fee is nothing
Fee will be for patience all that's no fronting

What is a party if it doesn't really rock?
What is a poet? All balls, no cock
What is a war if it doesn't have a general?
What's channel nine if it doesn't have Arsenio?
What is life if you don't have fun?
What is a what if you ain't got a gun?
What's Ali without Shaheed Muhammad?
Nothing. Kapelka makes you vomit

What is a Quest if the players ain't willing?
What is a pence if you don't have a shilling?
Excuse me if I'm chillin, hey what, say what
What's a fat man without food in his gut?

What's a child birth, without the umbilical?
What's United Parcel, without the deliverer?
What's momma-san, without poppa-san?
What's martial arts without Daniel-San?
What's Rasheed without Tonya, Tamika?
What's orange juice and Doug E. Doug without Shaniqua?
Not a not a not a not a damn thing
What's Duke Ellington without that swing?

What's Alex Haley if it doesn't have roots?
What's a weekend if you ain't knockin boots?
What's a black nation, without black unity?
What is a child who doesn't know pubery?
What is my label when I exit boom status?
What's menage-a-tois, or, that is
What is sex when you have three people?
What are laws if they ain't fair and equal?
What's Clark Kent without a telephone booth?
What is a liquor if it ain't 80 proof?
What are the youth if they ain't rebellin?
What's Raplh Cramden, if he ain't yellin
At Ed Norton, what is coke snortin?

What is position if there is no contortin?
What is hip-hop if it doesn't have violence?

Chill for a minute, Doug E. Fresh said silence
[Four second pause]

What is a glock if you don't have a clip?
What's a lollipop without the Good Ship?
What's S&M if you don't have chains?
What's a con artist if he doesn't have brains?
What's America without greed and glamour?
What's an MC if he doesn't have stamina?
What's music fractured without Mr. Walt?
What's Trugoy without a phrase called torte?

What's Kris Lighty if he wasn't such a baby?
What is a woman if she didn't say maybe?
Baby laid down, I removed the frown
What would be my penal cord if it wasn't brown?

What is a paper without a president?
What is a compound without a element?
What is a jam if you don't spike the punch?

To go what to go what to go what to go WHAT

A Tribe Called Quest Lyrics

"Scenario"

[Tribe and L.O.N.S.:]
Here we go yo, here we go yo
So what so what so what's the scenario
Here we go yo, here we go yo
So what so what so what's the scenario

[Phife Dawg:]
Ayo Bo knows this (what?) and Bo knows that (what?)
But Bo don't know jack, 'cause Bo can't rap
Well what do you know, the Di-Dawg, is first up to bat
No batteries included, and no strings attached
No holds barred, no time for move faking
Gots to get the loot so I can bring home the bacon
Brothers front, they say the Tribe can't flow
But we've been known to do the impossible like Broadway Joe so

Sleep if you want NyQuil will help you get your Zs troop
But here's the real scoop
I'm all that and then some, short dark and handsome
Bust a nut inside your eye, to show you where I come from

I'm vexed, fuming, I've had it up to here
My days of paying dues are over, acknowledge me as in there (yeah)
Head for the border, go get a taco
Watch me wreck it from the jump street, meaning from the get-go
Sit back relax and let yourself go
Don't sweat what you heard, but act like you know

[Charlie Brown:]
Yes yes y'all (yes y'all!)
Who got the vibe it's the Tribe y'all (Tribe y'all!)
Real live y'all (live y'all!)
Inside outside come around
(who's that?) Brown

So may I say, call me Charlie
The word is the herb and I'm deep like Bob Marley
Lay back on the payback, evolve rotate the gates contact
Can I get a hit? (hit!)
Boom bip with a brother named Tip
And we're ready to flip

East coast stomping, ripping and romping
New York, North Cak-a-laka, and Compton
Checka-checka-check it out!
The loops for the troops, more bounce to the ounce
And wow how now wow how now Brown cow

We're ill 'til the skill gets down

For the flex, next, it's the textbook old to the new
But the rest are doo-doo
From radio to the video to Arsenio
Tell me! Yo, what's the scenario

[Dinco D:]
(True blue!) Scooby Doo, whoopie doo
Scenarios, radios, rates more than four
Scores for the s'mores that smother dance floors
Now I go for mine, shades of sea shore

Ship-shape, crushed grapes, apes that play tapes
Papes make drakes baked for the wakes
Of an L-AH, an E-ADER, simply just a leader
Base in the space means peace, see ya later

Later? (Later!) Later alligator
Pop blows the weasel and the herb's the inflater
So yo the D what the O, incorporated I-N-C into a flow
Funk flipped flat back first this foul fight fight fight
Laugh yo how's that sound (oh!)

[Q-Tip, Busta Rhymes:]
It's a Leader-Quest mission and we got the goods here (here!)
Never on the left 'cause my right's my good ear (ear!)
I could give a damn about a ill subliminal
Stay away from crime so I ain't no criminal

I love my young nation, groovy sensation
No time for hibernation, only elation
Don't ever try to test the water, little kid
Yo Mr. Busta Rhymes, tell him what I did

I heard you rushed and rushed, and attacked
Then they rebuked and you had to smack
Causing rambunction, throughout the sphere
Raise the levels of the boom inside the ear

You know I did it
So don't violate or you get violated
The hip-hop sound is well agitated
Won't ever waste no time on the played-out ego
So here's Busta Rhymes with the, Scenario

[Busta Rhymes:]
Watch, as I combine all the juice from the mind
Heel up, wheel up, bring it back, come rewind
Powerful impact boom from the cannon
Not bragging, tryna read my mind just imagine
Vo-cab-u-lary's necessary
When digging into my library

Oh my gosh! Oh my gosh!
Eating Ital Stew like the one Peter Tosh-a

Uh, uh uh, all over the track man
Uh, pardon me, uh, as I come back

As I did it yo I had to beg your pardon
When I travel through the town I roll with the squadron
Rawr! Rawr! Like a dungeon dragon
Change your little drawers 'cause your pants are sagging

Try to step to this, I will, twist you in a turban
And had you smelling ripe, like some old stale urine

Chickity-choco, the chocolate chicken
The rear cock diesel, butt cheeks they were kicking
Yo, busting out before the Busta bust another rhyme
The rhythm is in sync (uh!) the rhymes are on time (time!)
Rippin' up the sound just like Horatio
Observe the vibe and check out the scenario!
Yeah, my man motherfucker!

Here we go yo, here we go yo
So what so what so what's the scenario
Here we go yo, here we go yo
So what so what so what's the scenario

Here we go yo, here we go yo
So what so what so what's the scenario
Here we go yo, here we go yo
So what so what so what's the scenario

A Tribe Called Quest Lyrics

"Steve Biko (Stir It Up)"

[Phife]
Linden Boulevard represent, represent
Tribe Called Quest represent, represent
When the mic is in my hand, I'm never hesitant
My favourite jam back in the day was Eric B. for President

Rude boy composer
Step to me you're over
Brothers wanna flex
Youre not Mad Cobra
MC short and black
There aint no other
Trini-born black like Mia Longs grandmother
Tip and Sha they all that, Phife-Dawg ditto
Honey tell your man to chill, or else you'll be a widow
Did not you know that my styles are top-dollar?
The Five-Foot Assassin knockin fleas off his collar
Hip-hop scholar since bein knee-high to a duck
The height of Mugsy Bogues, complexion of a hockey puck
You better ask somebody on how we flip the script
Come to a Tribe show and watch the three kids rip

[Q-Tip]
Queens is in the house represent, represent
A Tribe Called Quest represent, represent
No tamin of the style cuz it gets irreverent
A Tribe Called Quest represent, represent

Huh-huh, here we go
You know that I'm the rebel
Throwin out the wicked like God did the Devil
Funky like your grandpas drawers, dont test me
We in like that, youre dead like Presley
When we comin through get tickets to see me
We work for the paper so therell never be a preemie
Lyrics are abundant cuz we got it by the mass
Egos are all idle cuz the music is the task
Valenzuela on the pitch, curveball, catch it
I think I got it locked, just smooth while I latch it
Right
Now I must move with the quickness
Here comes Shaheed so we must bear the witness

[Chorus]

Stir It Up *[x3]*
Steve Biko

Stir It Up *[x3]*
Steve Biko

[Verse 2]

[Phife]
New York City represent, represent
A Tribe Called Quest represent, represent
The Dawg is scientific with the styles I invent
A Tribe Called Quest represent, represent

MCs like to meddle, but heres my proposition
I let my lyrics flow, and jumped your whole position
I'm radical with this like the man this song is after
Yo Tip settle down, whats the reason for the laughter?

[Q-Tip]
I really cant say, I guess I laugh to keep from cryin
So much goin on, people killin, people dyin
But I wont dwell on that, I think I'll elevate my mental
Thanks for these bars on the Biko instrumental

[Phife]
Yo I take it back, Im the Indian giver
MCs take notes as I stand and deliver
Percussion isnt less, D's wear the vest
While they dodgin bullets, you should be dodgin Quest
Dont get me wrong, violence is not our forte
I just like to rhyme, kick the lyric skills like Pele
Tip educateem, my rhymes are strictly taboo
Fill em with some fantasies and I'll look out like Tattoo

[Q-Tip]

Okay
I am recognizing that the voice inside my head
is urging me to be myself but never follow someone else
Because opinions are like voices
we all have a different kind
So just clean out all of your ears
these are my views and you will find that
we revolutionize over the kick and the snare
The ghetto vocalist is on a state-wide tear
Soon to be the continent and then the freakin globe
Theres room for it all as we mingle at the ball
We welcome competion cuz it doesnt make one lazy or worn
We gotta work hard, you know the damn card
Try to be the fattest is the level that we strive
Try to be the fattest also to stay alive

A Tribe Called Quest Lyrics

"Award Tour"

[Chorus - Dove from De La Soul:]
We on Award Tour with Muhammad my man
Going each and every place with the mic in their hand
New York, NJ, NC, VA
We on Award Tour with Muhammad my man
Going each and every place with the mic in their hand
Oaktown, LA, San Fran, St. John

[Q-Tip:]
People give your ears so I be sublime
It's enjoyable to know you and your concubines
Niggas, take off your coats, ladies act like gems
Sit down, Indian style, as we recite these hymns
See, lyrically I'm Mario Andretti on the MOMO
Ludicrously speedy, or infectious with the slow-mo
Heard me in the eighties, J.B.'s on "The Promo"
In my never-ending quest to get the paper on the caper
But now, let me take it to the Queens side
I'm taking it to Brooklyn side
All the residential Questers who invade the air
Hold up a second son, cause we almost there
You can be a black man and lose all your soul
You can be white and groove but don't crap the roll
See my shit is universal if you got knowledge of dolo
Or delf or self, see there's no one else
Who can drop it on the angle, acute at that
So, do that, do that, do that, that, that (come on)
Do that, do that, do that, that, that (OK)
Do that, do that, do that, that, that
I'm bugging out but let me get back cause I'm wetting niggas
So run and tell the others cause we are the brothers
I learned how to build mics in my workshop class
So give me this award, and let's not make it the last

[Dove:]
We on Award Tour with Muhammad my man
Going each and every place with the mic in their hand
Chinatown, Spokane, London, Tokyo
We on Award Tour with Muhammad my man
Going each and every place with the mic in their hand
Houston, Delaware, DC, Dallas

[Phife Dawg:]
Back in '89 I simply slid in the place
Buddy, buddy, buddy all up in your face
A lot of kids was busting rhymes but they had no taste
Some said Quest was wack, but now is that the case?

I have a quest to have a mic in my hand
Without that, it's like Kryptonite and Superman
So Shaheed come in with the sugar cuts
Phife Dawg's my name, but on stage, call me Dynomutt
When was the last time you heard the Phife sloppy
Lyrics anonymous, you'll never hear me copy
Top notch baby, never coming less
Sky's the limit, you gots to believe up in Quest
Sit back, relax, get up out the path
If not that, here's a dancefloor, come move that ass
Non-believers, you can check the stats
I roll with Shaheed and the brother Abstract
Niggas know the time when Quest is in the jam
I never let a statue tell me how nice I am
Coming with more hits than the Braves and the Yankees
Living mad phat like an oversized mampi
The wackest crews try to diss, it makes me laugh
When my track record's longer than a DC-20 aircraft
So, next time that you think you want somethin' here
Make something def or take that garbage to St. Elsewhere

[Dove:]
We on Award Tour with Muhammad my man
Going each and every place with the mic in their hand
SC, Maryland, New Orleans, Motown
We on Award Tour with Muhammad my man
Going each and every place with the mic in their hand
Chinatown, Spokane, London, Tokyo
We on Award Tour with Muhammad my man
Going each and every place with the mic in their hand
Houston, Delaware, DC, Dallas
We on Award Tour with Muhammad my man
Going each and every place with the mic in their hand
New York, NJ, NC, VA

Seven times out of ten we listen to our music at night, thus spawned the title of this program
The word maraud means to loot
In this case, we maraud for ears

A Tribe Called Quest Lyrics

"8 Million Stories"

[Verse 1: Phife Dawg]
Went to Carvel to get a milk shake
This honey ripped me off of my loot case
The car oh yeah there's money in my jacket
Somebody broke into my ride and cold macked it
Yo tip I tell you man the devil's trying it
But I'm goin to stay strong cause I ain't bying it
Tonight I'm taking Sherry out
I don't have jack to wear
You know I've got to look dipped in the freshest gear
Cool I found something so I ironed it
I think I caught up on the phone
Oh shit I'm trying it
Will someone tell me what did I do to deserve this?
I think I'll pull out my suit for Sunday service.
My little brother wants Barney, cool I'm getting it
Took him down to Kay-Bee, they ain't sellin it
Here we go with the crying, yo he's throwing fits
My blood pressure blowing up, I can't take this shit
Finally got what he wanted now he's good to go
Again the robers smashed, were's my radio?
One time the car was in the shop I had to borrow see...
They had no mercy on the car oh you he'll kill me
Where the hell can Nicki be? I'm goin to smack her up
I got the tickets for the Knicks and she cold stood me up
I need to hit a hunny off yo drill pas me the phone
Pulled out my hooker hoes, oh yo Sheela's home
Steady smiling like a mother yo I'm wrecked to bone
Went down on hun, she's in the red zone
Stressed out more than one could ever be
Forever trying to clear the sample for my new LP
Everybody knows I go to Georgia often
Got on a flight then I ended up in Boston
With all these trials and tribulations yo I've been affected
And to top it off, Starks got ejected

[Refrain]

[Verse 2: Phife Dawg]
Just last week my girl was stressing me
Now her best friend be underssing me
Well I was lovin her by the moon lit
Now I'm tricking on her like Kinte'
Bought a bag of izm from the smoke shop
Walking towards the car, here come the damn cops
Now I'm station bound for the thai sticks
I bought it for my man, I don't believe this shit

Coach sat me down from the ball team
Cause I was breakin niggaz on the inseams
Some niggas cross town was trying to stick me
All I had was shorts, a dollar fifty
Picked up this gir in the hoopty
Just because of her rhymes she tried to soup me
Pay for this and pay for that loot for nails and hair
Who the hell do you think I am, Mr. Belvedere?
Go and get a bloddy job then can we look cute
Even if you get me boots, you'll neva see my loot
She wasn't even all of that just anothe hooker
Took the journey that ass way, quick like Chucky Booker
Sometimes you got put the hoes in their freakin place
Just move from in front me with your botty face!

My man Mohammed in the house, huh {come on, come on}
Zulu Nation in the house, huh {come on, come on}
Sub Rock is in the house, huh {come on, come on}
My man Skeff is in the house, huh {come on, come on}
Jarobi White is in the house, huh {come on, come on}
Bob Power in the house, huh {come on, come on}
My man Eric in the house, huh {come on, come on}
My man Lytcha in the house, huh {come on, come on}
(Help me, help me, help me, help me, help me, help me... MUHAMMAD!)

"Sucka Nigga"

"hey sucka nigga, whoever you are" *[x2]*
"hey sucka nigga, hey sucka nigga
whoever you are, whoever you are"

[Q-Tip]
Aiyyo, turn it up Muhammad
Turn everything up in the headphones
so I don't lose my vocals
Yeah that's good, turn my vocals a little bit
with the upper bassline

I be hatin sucka MC's, and the sucka niggas
Posing like they hard when we know they damn card
what you figure, rhyme-wise, I do the figure eight
So concisely, musically we are the herb so sit back
and light me, inhale *inhalation noise*
My style is kinda fat reminescent of a whale
Young girls desires for the females dreams
I be the Abstract Poetic representin from Queens
Socially I'm not a name, black and white got game
If you came to the jam, well I'm glad you came
See, nigga first was used back in the Deep South
Fallin out between the dome of the white man's mouth
It means that we will never grow, you know the word dummy
Other niggas in the community think it's crummy
But I don't, neither does the youth cause we
em-brace adversity it goes right with the race
And being that we use it as a term of endearment
Niggas start to bug to the dome is where the fear went
Now the little shorties say it all of the time
And a whole bunch of niggas throw the word in they rhyme
Yo I start to flinch, as I try not to say it
But my lips is like the oowop as I start to spray it
My lips is like a oowop as I start to spray it
My lips is like a oowop as I start to spray the

Sucka nigga, nigga nigga
I throw the sucka in the front for the ones that front
The sucka niggas, nigga nigga
I throw the sucka in the front for the ones that front
The sucka niggas, nigga nigga
I throw the sucka in the front for the ones that front
It's the neo-nigga of the nineties, c'mon

A Tribe Called Quest Lyrics

"Midnight"

[Q-Tip:]
The night is my mind
The sun'll still shine
But the night is on my mind
So parlay while I drop this rhyme

See, Jake be gettin illy when the sun get dark
They be comin out the heads, but shit don't let me start
Their activities are plenty in nighttime(nighttime)
For the ghetto child, it seems to be the right time
See, kids be gettin stuck with jewels and fly gimmicks
Shorty see the action and then start to mimic
Runnin to the corner, the dice game is blazin
Lookin at the loot, it seems so amazin
Puts it short down, to be exact would bound
He shakes the stones in his hand, then he lets it down(uh!)
Scam money don't make none
He threw a trip on the ace, now he's out son
Hits the local bodega to woof down a hero
Son is on a 'Midnight Run' like De Niro
Spots the shorty rock standin on his block
The thieves be handlin in the pumps,so he asked it it's not
Conversation that he kicked to the shorty was a sly one
Increased intensity, his dance sure was a fly one
Took her to the crib there she ran her gibs
About mind upliftment and bein positive
He yawned and he sighed til 1:05
Then he finally realized that hunny wasn't live
At least he didn't plan on buildin for the evenin'
Threw the Fila on the dome and said 'Come on yo, we leavin'
Came out on the scene as he told her to beep him
Saw his man Sam with the blunt in his hand
(Aww Shhh...!!!)You know the transaction
Brothas gettin lost in the weed satisfaction
Comin down the block man loud as (fuck)
You would swear Redman was inside the trunk
As the night seemed darker, cops is on a hunt
They interrupt ya cipher, and crush ya blunt
See you left your work at home, so they pat you down for nuthin
Why in the hell does 10-4 keep frontin?
You push to the park, even though it's still dark
The kid is nice on the hoop, he said 'I'll spot ya troop'

The night is on my mind
The sun'll still shine
But now the night is on my mind, the night is on the mind
The night is on your mind

A yo, the sun'll still shine
But now the night is on the mind
As for me...

I'm a nocturnal animal, God concentrates
On a young black man, who makes the niggaz speak a shake
The nighttime is busy, it's word to Aunt Kizzy
It's the time we get down, yo son, you know the sound
The flavas on the top with the rugged beat to back it
The night makes the aura and the J can't hack it
The way the moon dangles in the midnight sky
And the stars dance around, a yo, I think it's fly
Intensity, most rappers don't see it
Spirit wise, musically, you gotta be it
Serenity and sirens of the sounds and emotions
In the concrete jungle and the sun don't bungle
I think it's hard to find the words on how I feel
I paid about a deuce twenty for the Ampex steel
But let me slow down, I think I ran my gibs enough
Peace out to the Nation, stay rugged and rough

The night is on my mind, the sun'll still shine
The night is on my mind, the night is on my mind
The night is on my mind, yeah, the sun'll still shine
But now, uh huh, the night is on my mind
The night is on your mind, you know the sun'll still shine
But now the night is on the mind, yeah, the night is on my mind
The night is on the mind, a yo, the sun'll still shine
But now the night is on the mind, yeah, the night is on the mind
The night is on the mind, a yo, the sun'll still shine

A Tribe Called Quest Lyrics

"We Can Get Down"

[chorus:]
We can get down
We can, we can get down *[both lines 4X]*
Ah, it's like that man, it's like that (yes!)
It's like that man, it's like that (yes!) *[2X]*
It's like that man, it's like that
(*[Rakim from "My Melody":]* "Why waste time on the microphone")
Check it

[Phife:]
I'm not your average MC with the Joe Schmoe flow
If you don't know me by now, you'll never know
Steppin on my critics, beatin on my foes
The plan is to stay focused, only then I can go
Straight from the heart, I represent hip hop
I be three albums deep, but I don't wanna go pop
Too many candy rappers seem to be at the top
Too much candy is no good, so now I'm closin the shop
Crushin competition like your tires on grapes
My rhymes styles be blendin like a Ron G tape
My man where ya goin? You can't escape
When the Tribe is in the house, that means nobody is safe
How can a reverend preach, when a rev can't define
The music of our youth from 1979
We rap about what we see, meaning reality
>From people bustin caps and like Mandela bein free
Not every MC be with the negativity
We have a slew of rappers pushin positivity
Hip hop will never die yo, it's all about the rap
So Marion Barry smokin crack, let's preach about that
The trash you talk won't matter, that old bogus chatter
The more that you condemn us, it only makes us phatter
When I talk, I know I'm talkin for you poppers all around
You know you love the sound, we gets down

[chorus:]

[Q-Tip:]
I'm the cherry on the top of yo ice cream
I'm the wish you thought inside your dream
Listen to the way we pulsate the jam
I'm the nigga here with the mic in hand
Styles that we present are just a few
To do away with you and your hum drum crew
This is '93 and the shit is real
Black people unite and put down your steel
Ladies make a forum on your sexual drive

Devoted to your lover and make it thrive
The riff was of F, I'm a hip hop body
Release the energy like the force of a shotty
Standin on the wall with my Polo on
Talkin to the girl with the Liz Claiborne
Keep the poetry in my black knapsack
Got my Timbo horse and my Doublemint pack
Hit the city streets to enhance my soul
I can kick a rhyme over ill drum rolls
With a kick, snare, kicks and high hat
Skilled in the trade of that old boom bap
I can do a trick with the opposite breed
I used to down 40s and smoke grain weed
Now, I'm doin shows with half loot down
Now it's time for me to take ya uptown

It's like that man, it's like that (yes!) *[7X]*
It's like this, Shaheed!

[Shaheed: scratching until end]
[Rakim:] "Why waste time on the microphone

A Tribe Called Quest Lyrics

"Electric Relaxation"

Relax yourself girl, please set-tle down *[4X]*

[Verse One: Q-Tip, Phife Dawg]

Honey, check it out, you got me mesmerized
With your black hair and fat-ass thighs
Street poetry is my everyday
But yo, I gotta stop when you trot my way
If I was workin at the club you would not pay
Aiyyo, my man Phife Diggy, he got somthin to say

I like em brown, yellow, Puero Rican or Hatian
Name is Phife Dawg from the Zulu Nation
Told you in the jam that We Can Get Down
Now let's Knock the Boots like the group H-Town
You got BBD all on your bedroom wall
But I'm Above the Rim and this is how I ball
A pretty little somethin on the New York street
This is how I represent over this here beat
Talkin bout you

Yo, I took you out
But sex was on my mind for the whole damn route
My mind was in a frenzy and a horny state
But I couldn't drop dimes cause *you couldnèª¸ relate*

[Chorus]

[Verse Two: Q-Tip, Phife Dawg]

Stretch out your legs, let me make you bawl
Drive you insane, drive you up the wall
Starin at your dome-piece, very strong
Stronger Than Pride, stronger than Teflon
Take you on the ave and you buy me links
Now I wanna pound the putang until it stinks
You can be my mama and I'll be your boy

Original rude boy, never am I coy
You can be a shorty in my ill convoy
Not to come across as a thug or a hood
But hon, you got the goods, like Madeline Woods
By the way, my name's Malik
The Five-Foot Freak
Let's say we get together by the end of the week
She simply said, "No," labelled me a hoe
I said, "How you figure?" "My friends told me so."

I hate when silly groupies wanna run they yap
Word to God, hon, I don't get down like that

I'll have you weak in the knees that you could hardly speak
Or we could do like Uncle L and swing an ep in my jeep
Keep it in the down, yo, we keep it discrete
See, I'm not the type to kid to have my biz in the streets

If my mom donèª¸ approve, then I'll just elope
Let me sink the little man from inside the boat
Let me hit it from the back, girl I won't catch a hernia
Bust off on your couch, now you got semen's furniture

Shaheed, Phife and the Extra P
Stacy, ? DJ and my man L.G.
They know the Abstract is really soul on ice
The character is of men, never ever of mice
Shorty let me tell you about my only vice
It has to do with lots of lovin and (it ain't nuthin nice)

[Chorus]

A Tribe Called Quest Lyrics

"Clap Your Hands"

[Chorus scratching:]
Clap your hands now

[Phife:]
Brothas know the flavs when the Quest gets loose
Slammin sucka fuckas like the wrestler Zeus
Crazier than Tupac in that flick called Juice
Cock is longer than the hat worn by Dr. Seuss
Love a girl in Daisy Dukes like them kids called Deuce
Gets paid to sex the hoochie like my main man Luke
Control the mic like Denzel on the girls
Wack MCs be on the nuts like Rocket J. Squirrel
The worst thing in the world is a sucka MC
Favorite rap group in the world is EPMD
Can't forget the De La, the two originality
And if I ever went solo, my favorite MC would be me
Phife Dawg up in the house, I give a shout out to Snoopy
Peace to all the Questers, to hell with the groupies
Like um, Ralph up to Potsie, Brooklyn to Dodger
Laverne to Shirley, Rerun to Roger
Ren to the Stimpy, Laurel to Hardy
Q-Tip and Phifer, they mashed up the party
Kick the rhymes and more rhymes
Kick the beats and more beats
We'll have you scratchin in your head, like trying all techniques
For those who wanna oppose, just take a stand
But for now, just shut your shit and clap your hands

[chorus:]

[Q-Tip:]
You just wanna dance man, then clap your hands
If you venture up the wrong road, then the circumstance...
Will be crucial, I got hundreds of rhymes that'll suit you
So listen
The Abstract intuition is very very worthy
I can feel ya out from Russia to Jersey
Can't understand, the underground, it gets deep
The low, the Nikes, the links, the jeeps
The women, the lingo and all the other goods
Peace to the hoods, that keep my shit on play
Please don't do the mute when you hear me on the juke
Brothas know my angle, it's the Star-Spangled black banner
Hook up the beats at the funk manner
If want a roll, then dough I be rakin
The scope is on the world, cuz it's mine for the takin
You know I'm gonna do it

My shit is rock solid, but it flows like fluid
Chemists get confused of my ill composition
This is the third of the new Tribe addition
MCs be swingin, but alot of them be missin
So shut your bloodclot and listen
Cuz I'm bringin you the ill rendition
I'd like to send this out to the L.E.S.
Gotta alot of rhythm and style and finesse
Come here love, hot sex on a plat
And when your done with that then clap

[Chorus until end]

A Tribe Called Quest Lyrics

"Oh My God"

[Q-tip:]
Listen up everybody the bottom line
I'm a black intellect, but unrefined
with precision like a bullet, target bound
just livin like a hooker, the harlett sounds
now when I say the harlett, you know I mean the hott
V-A-V-A-Vader, the brothers in the spot
Jalick, Jalick ya wind up ya hit
Captain of the poets, I'm the #7 pick
lick, lick, lick boy on your backside
lick, lick, lick boy on your backside
listen to the fader, Shaheed lets it glide
Tip the earthly body
heavens on my side
even in Santo Domingo
Can I gotta Gringo
we got mikes when do we go
know a little nigga who can ryhme when you ask me
short, dark, and plus his voice is raspy
Phife Dawg
1 for the treble
2 for the bass
you know the style Tip
it's time to flip this
I like my beats hard like two day old shit
steady eatin booty M.C's like cheese Grits
My man Al B. Sure, he's in effect mode
used to have a crush on Dawn from En Vogue
it's not like honey dip would wanna get with me
but just in case I own more condoms then T.L.C.
now the formula is this Me, Tip, and Ali
for those who can't count it goes 1-2-3
The answer(scratch-Damn right I'm)Hiccup is how i be
brothers find it's hard to do but never me
some brothers try to dis my malik
you see'm ditchin me
now cure all the B.B. M.C.'s my shit is hittin
trainin gladiator, anti-hesitater
Shaheed push the fader from here to Granada
Mr. energetic, who me sound pathetic
when's the last time you heard a funky diabetic?
(I don't know man*[3x]*)
(I don't know*[2x]*)

[Chorus:]
(Oh My God yes, Oh my god *[x10]*)

[Q-Tip]
Complimentary it be
the theif of Poetry
I got a humdinger comin hook line and sinker
the TIMBO hits with the prints underground
TIMBO's on the toes, i like the way it's goin down
down like the lady of the evenin
when it goes in Toots just beleive the sin
cuz Queens is the county, Jamaica is the place
Take off your boots cuz you can't run the race

[Chorus:]
(Oh My God *[x14]*)

A Tribe Called Quest Lyrics

"Keep It Rollin'"

[Verse One: Phife Dawg]

Aiyyo swing swing swing, to chop chop chop
Yo that's the sound when MC's get mopped
Don't come around town without the hip in your hop
Cause when the shit hits the fan, that ass'll get dropped
MC's wanna attack me but them punks can't cope
I'll have you left without a job, like Isley from The Love Boat
So money watch your mouth, or I might have to bust ya
Battlin MC's, from JFK to Russia
Back down to London, Sweden and Brazil
Do a U.S. tour for three months and then a chill
Styles be fat like Jackie Gleason, the rest be Art Carney
People love the Dawg like the kids love Barney
"I love you, you love me"
The shorty Phife Dawg is your favorite MC
So move back yaself dread, you know the element
The Tribe is good for your health like a can of Nutriment
MC's don't have no winds, MC's don't have no winds
I flips you crazier than a busload of Jerry's Kids
Your crew don't want it, man your crew don't want it
But if you feel you can swing it, then money please bring it
(sup) Large Professor in the house (sup)
(sup) You know how we do (sup)
(sup) I stay on your crew (sup)
(whassup) like Mario Lemieux (whassup)
(Whassup?) Peace to Ike Love
(Sup? Hah hah) and the rest of the crew (Whassup?)
(Whassup?) I meet you guys in front the cleaners
Bring the blunts and the brew so

[Verse Two: Q-Tip]

Whassup kids? The Ab is speaking from the moon
Thanks for your support, aiyyo I'll be home soon
But the only thing I ask when I return from my task
Is a whole bunch of beats and a Blass full of ass
My fist stands firm because I'm, black and solid
I open up your pores like a plate full of collards
C'mon take it easy wouldya, easy easy
I'm up in the gulley, that's when I am her Buddy
She told me pull her hair, I did, it drove her nutty
Filled up the hole like spackle or I mean putty
When we over joints like this we never cruddy
Extra P hooked the beat, and kids it feels luh-huh-ovely
Check it out, cause my conception is immaculate
A bachelor, lookin for a bachlelorette

Back to you MC's, this is what your gonna get
A first degree burn from my man Ken's cigarette
I hope you like Malboro, Paul you know we thorough like Denver
The beat feels like a never-ender
But all things good must, so I won't sweat it
Drop the C's for the youthful crew, I hope you get it
As I stand, grip this mic inside my hand
Boy I smack you up, like I was your old grand
so respect yourself Son, and come and gimme love
Once again the Ab is who you think of
So chill with the beef money, we got a Jetti

[Verse Three: Extra P (Large Professor)]

It's Extra P and yo Tip I'm bout to set it
on the country once again here to win
I'm Uptown chillin, takin in this grand master Vic blend
from the projects, the PJ's, fuck them two DJ's
Self mission, I had her in the ill position
Saying "Large youse the soul brother that I'd like to
eff with for the rest of my life" yeah yeah now check the method
As I, proceed with what you need like Akinyele
A whip looks complete when the tires say Firelli
Funk monkey, one rapper fell off, now he's a junkie
There's 8 Million Stories in the city it's a pity
Don't fuck with the skins if she's trying to act shitty
Shout to the Guru, Primo and Zulu Zulu
Nation, was on a vacation, in the ghetto
Yo Ras slow your roll I'm bout to bag this here's metal
Rapper Nas on topic, seems we gonna rock it
Queens represent, buy the album when I drop it (drop it)

A Tribe Called Quest Lyrics

"The Chase Pt. II"

[BizMarkie] "I'm bout to wreck ya body and say turn the party out"
[repeat 4X]

[Phife:]
Them can't touch me no, them can't touch me
Them can't hold me no, them can't hold me *[2X]*
(*[Q-Tip:]* Damn, Phife you got fat!)
Yeah, I know it looks pathetic
Ali Shaheed Muhammad got me doing calisthenics
Needless to say, boy I'm bad to the bone
Making love to my mic like Jarobi on the phone
But um, no time for jokes (what!), there's bills to be paid (what!)
Hoes to be laid (what!), punks to be sprayed (what!)
Chumps to attack, so my man watch your back
Cuz '93 means skills are a must, so never lack (uh!)
Sit back and learn, come now watch the birdie
Your styles are incomplete, same as Vinny Testaverde
Battlin, whenever -- hot Damn!
Give me the microphone bwoy, one time, bam!

[Q-Tip:]
Keep it on the corner, cuz here comes the heat
Lyrically it stays, the jazz will pace the beat
As we proceed to elevate you, we in fo-fo
Run and tell your dad the Abstract's the bag
As we proceed to move your high parts, we know who has ass
Poets got the gimmicks, but they lack the sassafras
To make the average hardrock and cock the glock
And roam the city streets on the jury, they hot
I be ingredients, like sugar and candy
If your life is broke, girl I'll be the handy-dandy
That commends you, my fee is a shower
For you, I'll scrub your back and I'll soap the butt-crack
Make you shiny, spiffy in a jiff
Fuckin with the Ab, you got the greatest of gifts
Yo, my mic is sounding bug. Bob Power, you there?(Yeah)
Adjust the bass and treble make my shit sound clear(echo)

[Chorus x8:]
(Q-Tip: After fourth time)
Make you shiny, spiffy in a jiff
Fuckin with the Ab, you got the greatest of gifts
A-yo, my mic is sounding bug. Bob Power, you there?
Adjust the bass and treble...OK, could you come in Tip?

[Q-Tip:]
Whoop, back yourself man. Come watch me drop it

For showing me I could do it, for showing me I can rock it
Me not deal wit no changaram, bangaram business
I got soul on a hymn, like Jehovah's got the witness
Musically, the three, poetically, be me
We in jammin on the airwaves, kids just rave
Obey the MCs, cuz the MCs say
We flippin more niggaz like we Super Dave
But noticin my stature, y'all niggaz know we gotcha
Movin to the rapture, listen how we catch ya
Movin with the grace, here we go, let's begin
Makin people jump out their goddamn skin
Lyrically, we bite like we Rin Tin Tin
Peace to Grand Pu and his many, many skins
Don't mark with the arrow, cuz we know we get the wins
It's the Ab, Shaheed, and the Dawg for the blend

[Chorus until end:]

[Q-Tip:]
I wanna say peace to my man Rob P, my man Jerod, and
Skeff Anslem on the help out and we out like shout
Nine-tre, oh, oh, oh, oh, oh...
I don't wanna say nine-tre
cause my man Extra P said don't say the years
So, it's for eternity, know what I'm sayin?
Rock rock on, everybody in Queens, rock rock on
Everybody in Brooklyn, rock rock on
Money Earnin Mt. Vernon, rock rock on
Everybody in Jersey, rock rock on
Everybody in Philly rock rock on
Everybody in Houston, rock rock on
Everybody LA, rock rock on
Everybody in The Sand, rock rock on
Everybody in Egypt, rock rock on
Everybody Nigeria, rock rock on
Everybody in London, rock rock on
Everybody in Sweden, rock rock on
Everybody in beware, rock rock on
To the niggaz on the famous, rock rock on
Everybody no name, rock rock on
To the kids at Nu-Clear, rock rock on
The Cave rock rock on. McDonald's, rock rock on

A Tribe Called Quest Lyrics

"Lyrics To Go"

[Q-Tip]
Lyrics to go (lyrics to go) uhh
Lyrics to go (lyrics to go) ahh yeah, c'mon
Lyrics to go (lyrics to go)
Lyrics to go (lyrics to go) yeah yeah
Lyrics to go (lyrics to go)

Goin on and on to the rhythmic variation
Wakin in the morning I still represent the nation
When I speak of nation please don't make the deviation
Rebels of the party who create the jump sensation
Mind is a pit of different information
Microphone is on so of course communication
Bogle at the party then you got the bogle-ation
Decaptatin foes yo as if my name was Jason (c'mon)
Makin all the fellas at the party lose composure
Hook up the beat with the mic and it's over (original, uh!)
A Tribe Called Quest we on the run for whatever
Trials and tribulations that we have to endeavor
Brothers know my steelo it's a letter to the better
If you see a shorty that you like, then you sweat her
Silly with the microphone, in other words I'm loco
Six foot zero with my height, complexion cocoa
Representin on the mic it seems to be my daily
I can do a split and turn around like Alvin Ailey
But when it comes to days like this I got lyrics to go

(I got lyrics to go) It's like that y'all, c'mon y'all
Lyrics to go
It's like that y'all, c'mon y'all
(Lyrics to go) It's like that

[Phife Dawg]
I know it's been two years but see the Tribe was never fallin
Would have tried for singin but that stuff was not my callin
The mic is in effect so you know I'm never stallin
Walkin through the door and all them suckers started haulin
Talk a lot of trash but no one can seem to beat it
Pull out your microphone and watch the Phifer make you eat it
The MC's they get jealy when the girly's on my belly
Kick a slow dance like my brother R. Kelly (bust a rhyme)
Today's a hip-hop draft will I be top-seeded? (uhh)
Worked too frickin hard while all the rest were gettin weeded
Steady kickin styles so I can reach that other level (uh)
Don't worry about gettin gassed I push the pedal to the metal
Always wanted this cause it surely beats a scramble (right)
I'm Jordan with the mic, huh, wanna gamble? (mmm)

This I dedicate to all the honiest that be bogle-in
Cause at the end of the night y'know Malik will have his Trojans
But when it comes to nights like this I got lyrics to go

Check it out y'all
(Lyrics to go) It's like that y'all
Lyrics to go
Check it out y'all
(Lyrics to go) It's like that y'all
Lyrics to go
Check it out y'all
(Lyrics to go) It's like that y'all
Lyrics to go
Check it out y'all
(Lyrics to go) It's like that y'all
It's like that y'all
Check it out y'all
It's like that y'all
Check it out y'all
It's like that y'all
Check it out here we go!

[Q-Tip]
Please proceed with caution cause the lyricist is fatal
I can kick your little monkey ass like Kato (yes dread, uhh)
Formulate your rhymes like a child forms Play-Doh (right)
Calm and serene like the study was tayo
Poetry machine with correct mechanisms
Immune to disease I defeat organisms
that are waitin in my path, I overstep the critters
Give your ass the willies and your moms'll get the jitters (uh)
Winners turn to losers, losers are forgotten
Tangle in my fore with, hopes that I stop rockin
Never will that happen only if it is permitted (uhh)
Wait... I think somebody shitted (c'mon)
I guess that will be me cause I'm the only one MCin
I go for what I know doin a show for human beings
Always try to lead yo never will I follow
Blowin up the spot like Fred did to Rollo
And when it comes to days like this, I got lyrics to go

Check it out y'all
(Lyrics to go) It's like that y'all
I got lyrics to go
Everybody
(I got lyrics to go) Ah c'mon now
I got lyrics to go
Ah check it out y'all
(I got lyrics to go) It's like that now
I got lyrics to go
Everybody
(I got lyrics to go) Ah c'mon now
I got lyrics to go

Check it out y'all
(I got lyrics to go) It's like that now
I got lyrics to go
C'mon y'all
(I got lyrics to go) Everybody
I got lyrics to go
It's like that y'all
(I got lyrics to go) Check it out now
I got lyrics to go
Ah c'mon y'all
(I got lyrics to go) Everybody
I got lyrics to go
It's like that y'all
(I got lyrics to go) Check it out now
I got lyrics to go
It's like that y'all
(I got lyrics to go) Every-bo-ty
I got lyrics to go
It's like that y'all
(I got lyrics to go) Ah check it out now
It's like that y'all
Check it now
It's like that y'all
Check it now
It goes... uhh

A Tribe Called Quest Lyrics

"God Lives Through"

[Busta Rhymes] "Oh my God!" *[16X]*

[Phife Dawg]
There's a million MC's that claim they want some
But see, I create sounds that make your ears go numb
Peace to Sayers Ave., yeah you know how we go
My best friend Steven at the Home Depot
Lowerton is in the house, I can't forget Southside
Walk past MC's like that girl did the Pharcyde
I'm labeled as the cat's meow, the MC with the know-how
Act like you know, not now, but right now
Beast of the East, on MC's I have a feast
I'd eat that ass like quiche, crack a smile like Shanice
Straight out Jamaica scene, Jamaica, Queens
But you could find me out in Georgia, or anywhere in between
Now if my partners don't look good, Malik won't look good
If Malik don't look good, the Quest won't look good
If the Quest don't look good, then Queens won't look good
But since the sounds are universal, New York won't look good
Picture Phife losin a battle, come on, get off it
Put down the microphone son, surrender forfeit
Did I hear somethin bout a crew? What they wanna do?
You better call Mr. Babyface, so he can bring out _The Cool in You_
or it'll be a sad love song being sung by Toni Braxton
And I'll dissect you like a fraction
Oh, you wannabe top cat MC's, I'll pop you like a zit
You wanna be the champ, you more like Chief Some-shit
Big up myself everytime when it comes to this
MC's be runnin scared as if they're watchin the Exorcist
I kick more game than a crackhead from Hempstead
My styles are milk, man, you'd think that I was breast fed
You know the steelo when the diggy Dawg is on the scene
I dedicate this to all the MC's outta Queens
that goes for Onyx, LL, Run-D.M.C.
Akinyele, Nasty Nas and the Extra P
You need a chart, straight up and down man, there ain't no other
Nuff respect to all my peeps that made the album cover
Yo, Tip don't worry Dunn you know I get the party jumpin
Get on the mic and break em off a lil lil sumthin
Yo, Tip don't worry Dunn you know I get the party jumpin
Get on the mic and break em off a lil lil sumthin (Ooohh...)

[Busta Rhymes] "Oh my God!"

[Q-Tip] [over Busta Rhymes]
La, la, la, la..
Doop, doo, do, do..

La, la, la, la..
Shooby-doop, do, do..
La, la, la, la..
Shooby-doo, do, do..
You know I'm on the other, for the top 40
Haha, you gotta do it like this..

We got the funk doody don shit, clearly it's the bomb shit
So recognize me, kids memorize me
Everyday, I be scroungin, really, I be loungin
I play the down low, very very incognito
Aries is my sign, I know that I can rhyme
Sometimes I rhyme in riddles, plus I make the hunnies wiggle
Intellect is the major, some heads like to wager
The skills on the hill, overlookin dollar bills
Man, ya crazy, thinkin you can phase me
The Ab doesn't study near nonsense money
Life seems to meet me, MC's seem too cheesy
With they doody ass renditions of defeatin competition
I rock to the roll man, yes, I'm a soul man
Bet'cha bottom dolla, Vinia will make ya holla
As ya stand at attention, did I forget to mention
MC's will give me twenty, if I sense that they act funny
Lyrics are abundant, right there, I sound redundant
Just mentionin the fact, that the area is fat
I dwell in the unda, so hunny, it's no wonder
That I get plenty of tail, well I even get white
I'ma bet hittin head crack, there money, take that
Breakin niggaz off, cut their bank, then I'm off
While my Nik'es match my lil hat, beat joint is mad fat
Got the cutter of the box if a kid thinks he's ox
For tier means creator, the poetry relator
It's hemp, like Betsy Ross, let me tell you who's the boss

La, la, la.. (*[Busta Rhymes]* "Oh my God!")
La, la, la.. (*[Busta Rhymes]* "Oh my God!")
La, la, la.. (*[Busta Rhymes]* "Oh my God!") smooth it y'all
La, la, la.. (*[Busta Rhymes]* "Oh my God!")
La, la, la.. (*[Busta Rhymes]* "Oh my God!")
La, la, la.. (*[Busta Rhymes]* "Oh my God!")
La, la, la.. (*[Busta Rhymes]* "Oh my God!")
La, la, la.. (*[Busta Rhymes]* "Oh my God!")

Queens got a Zoo
Brooklyn got a Zoo
Bronx got a Zoo
Long Island got a Zoo

A Tribe Called Quest Lyrics

"Phony Rappers"

[Intro: Kamaal (Q-Tip)]

Phony rappers who do not write
Phony rappers who do not excite
Phony rappers, check it out, aight

[Verse One: Kamaal (Q-Tip)]

Yo, I was riding the train
And this Puerto Rican kid said simple and plain
Let's battle
It kinda took me by surprised
Cuz the brother was moving wit his eyes on the prize
I said screw it, I ain't got nuttin to lose but um
But I got to do this shit real quick so um
Hurry up kid, bust your joints and then I'll bust mine
And I be out cuz I got to see this hottie, he said ok
Now check it, check it out, blah, blah, blah, blah, blah, that's what he said
Then I came back and just fucked up his head
Cuz yo, he thought an MC who was seen on TV
Couldn't hold the shit down in New York City
Aiyyo, I showed his ass, then I went off on my task
To bless her ass Uptown, real MC's will hold it down
Yea, yea, sonny, to the beat like that
You wanna bring it to me, where you at

[Verse Two: Phife Dawg]

Yes, dread, I had a similiar situation
When this kid tried to tell me I didn't deserve my occupation
He said I wasn't shit that I was soon to fall
I looked him up and down, grab my crotch and said balls
Of course he tried to bring it on the battling tip
Ay, you know me, you know I had to come out my shit
Trying to lounge at the mall, meet Skef and Mr Walton
Finally I banged his ass wit the verbal assault
He said a rhyme about his .45 and his nickelbags of weed
That's when I preceeded to give him what he needed
Talking 'bout I need a Phillie right before I get loose
Poor excuse, money please, i get loose off of orange juice
Preferly Minute Maid cuz that's exactly what it takes
To write a rhyme, huh, to school your nickels and your dimes
Because an MC like me be on TV
Don't mean I can't hold my shit down in NYC

Phony rappers who do not write
Phony rappers who do not excite

Phony rappers, you know they type
Phony rappers, check it

[Verse Three: Phife, Consequence]

It seems there's a sanitation, y'all full of thrash talker
Sounding good but money can you feed the dog hawker
Talking 'bout your mic days and your breakdancing
Not enhancing, you sound tired
Oh, shit, I didn't know you like to play yourself in front'cha friends
Sitting there, lying to no end
MC's for me make things happening
Talk about a world but in a form of rapping
Who will be the captain of this ship
If it goes down, don't you know you have to go wit it
Just because you rhyme for a couple of weeks
Doesn't mean that you've reach the MC's peak
Let me stop sounding all bitter
Ghetto child, never be a quitter
But don't be a phony in the litter
Take it as a letter from the better
Take it from a man who used to rhyme in busted ass jetta's

[C:] Yo, Phife, you need a condom
[P:] Word to God, mess around
I catch Aids from Mc's being on my nuts too hard
[C:] Cuz on my blvd you better bring your bodyguard
[P:] And what's your blvd
[C:] LP, I represent naturally
[P:] So don't step on the rolly if you know that you're phony
Or else I bend that ass like elbow macaroni
Cuz I gotta keep it real (gotta keep it real)
A Tribe Called Quest, you see we never half step
[C:] (So on your mark) get ready, MC's be jetti
Me and Phifey be on ya like Veronica and Betty
Archie, Jughead, snuffing Mc's
From Brainslane down to Hempstead
[P:] Yes 'Quence, see over
His rhyme style is older that a Chrysler car Nova
I'm wilder then the cats from Arizona
Villanova, un, un, Kentucky
Whos' the next MC stepping up to try and bust me
Bring him here and boy, will I ever let him have it
[C:] And when it comes to the microphone, don't even try to grab it
What?

A Tribe Called Quest Lyrics

"Get A Hold"

[intro fading in:] Drifting, drifting, drifting, drifting, drifting, drifting, drifting, drifting, drifting by, totally. Drifting by(just)totally. Drifting by(just)totally

[Q-Tip:]
The deadly venom, let me start from the beginning
We always hittin, so yo, there'll be no extra innings
As I send the mic out the park like Reggie Jackson
You be the minor leaguer who sees no action
The coming attraction(what!)
The main feature
And I'ma greet ya, like a rhymin ass creature
Lurking all up in the dark, unknown parts
The brotha well prepared is the brotha who will start
And that's me Akki, as long as the ladies move they bodies
We'll have a four-on-two stand
Cuz that happens to be the nature of man
Sexuality, it is the format baby
Ain't no ifs, no buts, no ands, or maybes
But I praise Lord in the worlds that's unseen
Respect me for that and let me do my thing(just)
I said, respect me for that and let me do my thing

[Chorus:]
(Drifting by)You know we gotta get a hold
(totally) Over the illest drum rolls
(totally drifting by just...)

Yo, how you doin? Let me give you an intro
My name's the Abstract, now let me give you some info
Got the diamond in the back, and the sunroof shit
That makes the hardcore MCs resort to being bitch
And I don't give a shit about being wild rich
Just make me comfortable and I'll deal with it
Your lust for the riches make a nigga feel sick
Down to his zealots, upchuck and then spit
Denouncin my beliefs, well then your wig get split
Lay your ego on the ground so that you'll benefit
You can take these words and relay it to your click
Take some time for your mind and get off them head trips
The Tribe is the crew that makes your mics get lit
Like the Fourth of July on some firework shit
My record company be on some true jerk shit
But that's i-ight. Now, I'm on some true work shit
And I'ma make it happen for my whole outfit

[Chorus:]

(Drifting by)You know we got to get control
(totally)Over the illest drum rolls
(totally drifting by just...)Third verse

A-yo, we just gettin started
Got to redirect this vision
Got the beauty of a flower
Plus dimensions like a prism
Your minds are locked down like prison
Y'all really need to go lay down
Cuz positivity has risen
We hittin
Yo bust how we too strong to be broken
Occasional malfunction pressure time
We ain't jokin
For security we on this run like Logan
Kamaal's doin the hustle
And you backstage voguin
We all got flaws
Don't ever try to think that you perfect
We all are human beings
There's bullshit at the surface
Sometimes, I mean we rhyme
Damn, we ain't prophets
And if you think so, you need to stop it
So jump back inside your shell
Let your million dollar thoughts propel
But next man don't get jel
Playa hate that all carries weight
That we don't need
We slim with disabilities and
Thick with possibilities
Cuz then you can't move with fertility
Navigatin with good visibility
We put these tunes out in record shop facilities
Let's strive to get this constant money activity
We try to stay on the scene like Fidel
So if you get enraged with these names it still rebels
There ain't no plan B's
Yo watch, we movin through with plan A
Money market doin things the right way

[Chorus:]
(Totally)You know we got to get control
(Drifting by, just)Over the illest drum roll
(Totally drifting by just...) *[x3]*
(Totally just(x2), Drifting by *[x2]* in background)
Yo bust it out section, section.
Section Linden Boulevard
Section on Merrick
Section the whole Jamaica
Section on Flushing
Section in Bed-Stiduy

A Tribe Called Quest Lyrics

"Motivators"

[chorus:]
We be the number one motivators
Ghetto mentality and the innovators
Some of y'all may really hate us
But we won't be soft, all we wanna do is rock

[Phife:]
We be the crew that presents it on wicked instrumental
Damagin your mental, from here to Sacramento
This here groove was made for vintage freestylin
Feelin like I'm chillin on a Caribbean island
Rugged, raw material is what we bring forth
A Tribe Called Quest, we representin up North
What's that you're sayin in the back, actin all silly
Kickin freestyle raps, rollin up phillies

[Q-Tip:]
It's the four man fiasco in charge like Roscoe
Now you get the picture like Picasso
We make it happen when these niggaz start rappin
Who this, captain?
Stick out your hand, you gets no dap and..
I got the Razor, got the Phife, I got the Shaheed
Now all you shorties move your ass while you puff weed
Blessin fans with autographs in my paths
While other rappers get gassed, they be defeating the task

[Consequence:]
Yo, if I ruled the world
It wouldn't be that gassed shit, niggaz will make the light swirl
Cuz after you G, ain't nuthin but Girl...Scouts
And I'mma show you what it's all about(ah yeah)
Is what you say when my love is in your mouth
Without a doubt, I cut MCs like the cord
Cuz I does more than that MC from The Lords
While you be froggin like Bud-wei-ser
And rappin is what you slackin in
I'm knockin MCs outta action like abstinance
Rockin since kiss my dick was kickin ass
Peachfuzz, cuz...you might be on drugs

[chorus:]

[Q-Tip:]
To all my people across the state who sit back and contemplate
Motivate, I motivate
To all my people across the land who get their feet stuck in sand

Motivate, I motivate y'all

[Consequence:]
A yo, I speak with something new but not Granddaddy I.U.
Stay tuned, live from the L-B-Q
A yo, it's destined St. John, I swing on your block
You know how I get down like Heather B. with them glocks
I came to lead my team to victory like Hayden Fox
Cuz heads ain't ready for the willie I got
Ya naw'mean slim, I dug my thing like them grim
Leavin crews in state of black and blue like Rakim
And if you don't know, you better ask another
It's like 192 when we rollin deep cover
So don't shut down on the Razor
Cuz in the 9-Live we steppin through hotter than the Trail Blazers
And in Queens, I be a legend like Richard Dean
Son, I gotta team that Hakeem couldn't dream
While you be standin sellin, Queens keep it live
Who the hell you tellin (Kim from the Tribe)

[Phife:]
Let me tell you why I be the top dog in the industry
Because all these so-called mutts are not seein me
They too busy eatin cycles 1, 2 and 3
They can't MC, I'd rather be down with fuckin Droopy D
My style is deadly, word bond, act like you fuckin know
Been writin rhymes ever since Ray Parker sang with Radio
You're style is played out like a two-tone down goose
You couldn't Converse if you had fuckin react juice
So hold your corner as I fuckin bless this mic in here
I'm eatin through your crew like Stephen King's ankle layers
Chop off my feet, word to God, I'm gonna hurt you
(Will y'all fall off?) Will Laura fuck Urkel?
Never, here comes the funk, smell the aroma
Kid, my shit's the bomb, ask my peeps from Oklahoma

[Q-Tip:]
To all my people across the state who sit back and contemplate
Motivate, I motivate, I motivate y'all
To all my people across the land who get stuck in great sand
Motivate, I motivate y'all
To all my peoples everywhere throw your mitts in the air
Motivate, motivate, motivate, motivate
Can't do nuthin for your frontin, get involved and do somethin
Motivate, motivate, I motivate, I motivate, I moti...

A Tribe Called Quest Lyrics

"Jam"

[Girls talking on phone]

[Q-Tip:]
It was Friday afternoon in the middle of June
Heineken bottle caps and the aroma of boom
Around the time everybody had just got home from class
Shootin dice, talkin shit, hopin the cash would last
Yo, this was around the time when I didn't know no better
Juney moved around in a tinted out Jetta

[Phife:]
Then he introduced me to that hydro smoke
Then I took one toke, yo, I almost choked
See I never smoked before and my nerves got shot
Then he told me about the party at the spot jam rock
It was guaranteed on but I said "son, chill"
There's a joint around the way that's supposed to be real
Word

[Q-Tip:]
He said we got no Js, so we gonna do it right
Hit your man's joint first, then jam rock at one night
Then I said "aight", then I jumped inside the jetty
Let me take a shower, I'm sweaty, and then I'll be ready
Tonight is the night I get my groove on steady
And get my drink on with that Ford named Betty
I went upstairs to get fly, broke my tie
On some liquor, to meet my high quicker
Now, I'm tight, them know, the party is the M.O.
Me and my crew, we get it started like a demo
Eleven in the evenin, I'm feelin like a heathen
This thing is goin down and I highly doubt I'm leavin
Booty cheeks start to motion and the kids is drinkin potion
Word is bond, that Black Moon joint got me open
(Don't front)

[Consequence:]
A yo, the DJ put this short groove on
The good shit that makes a kid lose his drink
Blendin Risin to the Top and got these shorties hoppin
Nuthin but coppin, ain't no stoppin me now
Yo, I'm bound to win until that thing kicked in
The Alazay had me drunk, I don't know where to begin(echoed)

[Phife:]
Not I'm feelin kinda jaded, wildly coherent
Me and the fellas acted very irreverent

Butt grabbin, mad laughin and assin

[Consequence:]
When that chick caught up, the shorty lookin fed up
They say you drug one with this one, gibbin with that one

[Q-Tip:]
A yo, I'm just doin my thing, yo I'm just havin fun
You don't see me in here wylin pullin out no gun
Yo, I see some of that thing girl and I want some
So let's step inside this corner so that we can rap on
Over this bumpin ass song and some Dom Perignon

[Phife:]
I hit ya with the good lovin plus fillet mignon
(Yeah, yeah scrammy scrams, yo, that's that same old song)
(A yo, tell me why the hell your breath smells so strong)

[Consequence:]
Yo, put some brakes on your yappin or you won't live long
(Please nigga, push on)
Alright scrams, see you later (scrams)
Can't mess with these street sharks or these alligators

[Phife:]
I can't take it no more, yo it's damn near four
I've been partyin and drinkin since I came out my door

[Q-Tip (Consequence)]
Look at these kids about to mix it, damn, where's the exit?
(Son, jetted to the ride and got the burner out the Lexus)
Yo, he cocked his joint back like he's about to let him have it
(Kid, I kept it movin like the Energizer rabbit)
A yo yo, it's time to skate, ain't no time to contemplate
(*[all:]* Whoops, looka there, there's Jake)

A Tribe Called Quest Lyrics

"Crew"

[Intro: Q-Tip]

Just a lil somethin-somethin
about the cats who be fronting
You know the Tip, he be huntin
for all the goodness gracious
All across the wide spaces
yo, check it out, bust me down, yo
Yo... yo...

[Verse One: Q-Tip]

Youse my peoples, why it got to come down to this shit
Two people thinking as one so now he split
Remember what I said to you, you bleed, I bleed
C'mon, you know how we get down, if you're down, you need
And I'm supplying, the dynamic duo, electricfying
Everybody had to wet us, cuz no one will forget us
Son, I testify sure as God was my guide
Any petty little bullshit you did will slide
Same on my end, after all, what are we, friends
If niggaz ran me this, too much grounds we defend
In the honor or brotherhood cuz it's all good
Get on some grown man shit and let's knock on wood
But now seeing you baby in this stall out position
Wondering who's the dime piece that you're kissing
You night as well take the jigger and take my life
Cuz the dime piece you happen to be kissing is my wife
Shit, I should have know not to let these crab asses
Get within the circle of my girl and make passes
Now you disrespected me and everything I stand for
(But I'm saying though, son) Shhh, say no more
Allah forgive me, my thoughts is traveling to low desires
Should I turn the other cheek or react and perspire
Don't wanna see myself in penitentiary attire
But I caught him in the act and my emotion is dire

A Tribe Called Quest Lyrics

"The Pressure"

[Verse]

[Q-Tip]

In this American metropolis filled with MC's
A Tribe Called Quest came to drop jewels wit' ease
Plus make you party, we do this music thing for everybody
Black, White, Latino and Asian, we cold raisin'
The stakes of hip-hop to a new plateau
To bridge gaps in generations for future plantations
A god-fearin' folk cos we all from the yolk
Of one breed, one seed, to good goals we proceed
Nowadays I strive to be a very good influence
Even though not too long ago I was a truant
Now I'm droppin' it on this and many broad topics
From man's obsession with money to holy prophets
Like Mohammed, yo, you know the scene is so freaky
Enemies they denounce me and my own try to sweep me
Now I got hip-hop acts posin' like fat cats
Lex and a Rolex, Moet and a top hat
But what about your contract, slick? Is you proper?
It's time we turned the tables of this hip-hop fable
I be strivin yo', tryna bang these joints out my skillet
And fulfil it, think about these kids, we can't kill it

[Phife]

Now every dog has his day, but eff that, it's my year
All you gat pullin' MC's could never come near
All that bogus type chatter, please put it to rest
It's the Phifer from Quest leavin' venues a mess
So I even start to (Rap) when you know you have no (Haps)
Wit' your simpleton (Lyrics), your light-hearted (Act)
Step back, me no have no time for dat
I'm blowin' up the spot for all you ras clot idi-ots
In a world where you have like a zillion MC's
Ninety percent of all you suckers have filthy LPs
Bitch this, trick that, come on, act like you know
I be that up north MC who never chose to play the down-low
(His name is Phife Dawg) I label myself as The Boss (True dat)
Same height as Little Vicious, yet I'm shorter than Kriss Kross
Queens representation, son, you know how we do
While Light' and Sha, they represent BK to the fullest
I be the sidekick to The Abstract, so get ready for combat
Yo, what about about them biters? Errr! Me not like that
My motto is to wreck shop, I do it on the non-stop
Come on party people, you must give me my props

Cos y'all know good and damn well that the style has been mastered
So head for the border you peasy-haired bastards
Before I start to put it on ya, come on now, must I warn ya?
Queens is in the house so all MC's go hold their corner

[Outro]

We feelin' pressures in here
You know we feelin' pressures
Feelin' pressures in here
You know we feelin' pressures
We gotta stand clear
Jus' gotta stand clear
Gotta gotta stand clear of the pressure
The what?

A Tribe Called Quest Lyrics

"1nce Again"

[Intro:]

You on point Phife?
1nce Again Tip
You on point Phife?
1nce Again Tip
You on point Phife?
1nce Again Tip
Word
Watch me bust they shit
OK

[Chorus:]

[Tammy Lucas]
Ohhhh, you did it to me 1nce Again my friend
I swear you do it to me everytime
Cause you stay crazy on my mind
Yo you got it goin on (say word), on and on and on
On and on and on

[Verse One: Phife Dawg, Q-Tip]

This is the year that I come in and just devestate
My style is great ask your peoples can I dominate?
My rhymes are harder than last night's erection
Don't play me close, I'll have this mic up in your rear section
My shit is lovely simply meaning that my joint is tight
Amping up the mic making sure production's tight
Sometimes I might catch a severe case of writer's block
But by the end of the day you'll be on my jock
My name's Malik my hobby's putting MC's to the test
And if you front I'll put my foot up in your friggin chest
Freestyle fanatic, and never will it ever stop
You crew is loose, you might just want to call the cops

Aiyyo I gotta put some action on paper
Make sure my verse jump up and spread out like the raper
The only tip I got for a waiter
Is watch the doorknob hit me where the dirty dog shoulda bit me
That was my train of thought, but for so long I fought
Now I'm at a level supreme to the devil
So turn up the bass and lay low on the treble
We be the real MC's and you dead, bring a shovel
Revitalize, the vital Tribe nigga, WHAT?
The ladies sweat the style like the squirrel sweat the nuts
You know a fellas good for the moola

Don't smoke no woolas, read the name call me Slick Tip the Ruler

[Chorus]

[Verse Two: Q-Tip, Phife]

Yo I've been treading on this globe man for twenty-five joints
Sometimes Shaitan got me by the pressure points
But I can break a fella down like sex
You eat Wheat Chex but still light in the ass and can't flex
If one nigga front I'ma make more pay
Cause toniiiiight, we gettin off like O.J.
And yo I got a Dawg that bites, fuck the barking
Yo I got a crew with the beats and the smarts and

I fought my shit up on Linden in the one-nine-two
Forever writing never biting ain't shit else to do
Hoping to battle, but most MC's ain't ready yet
But if they huddle, and word, then this is good as set
You have MC's dropping bombs that's incredible
Some of the brothers, their styles are just despicable
As for me see I just do how I love to do
Try to deny me of my props then I'll be seeing you
Most of you suckers wanna be down for the tag along
The friggin fame, someone tell em that this shit ain't games
You gots to do this from your heart meaning your inner soul
And if it's real only then will you be on a roll
I try to stay on top my game there ain't no time to lose
Four albums deep as a Quester but still we payin dues
So hear me out one time, you gots ta be yourself
Cuz if you ain't yourself you end up by your friggin self
I'm coming rugged with the Linden Boule type of slang
And yo we'll see who can hang yo

You on point Tip?
Yo 1nce Again Phife
You on point Tip?
Yo 1nce Again Phife
You on point Tip?
Yo 1nce again Phife
Aiyyo that kid is hard!

[Chorus]

A Tribe Called Quest Lyrics

"Mind Power"

[Q-Tip:]
Your new lesson is to realize the mission when you hear it
MCin, see I got this in my spirit
I got verses like Mahalia singin church hymns
So strap up because you skatin on ice that's wild thin
A weak foundation doesn't make a good home
That's why mine is built on chrome microphones
We bout to do it theoretically, insteadibly, to the medley
Come on
It's the complete Kamal, unique, Fareed, breed
That'll keep you broke down like a horse 5 speed
So move buddy, a yo we got to get this money
In this land of dead and crummy, ain't a damn thing funny
A yo, shout out to Mobb Deep, the Extra P
Busta Rhymes, De La, the J Beez, so don't sleep
We got reality for the carriage
Stayin sincere to this, so I know we gonna manage
Give me, liberty in mass amounts and Swiss bank accounts
With the sustainer, it'll be real
So me and my brothas, we can sit down and build
Like Rampage with that last boy scout appeal
We got that silk, satin, Manhattan intelligence feel
That keeps everything on even keels
So all you slow brothas talkin yang, ya poo tang
Now, we gonna show you how the real crew bang

[Consequence:]
A yo, I bring it to you live kid, Queens niggaz love static
Your rap's had it, braggin more numbers than mathematics
I get brains on progmatic from leavin wet dreams shattered
That's the same copy gettin in your mug shot
I stays hot like summertime on LBQ and boo boo
The love shack is 192, my joint's smooth
To watch them niggaz fall like Linque
I keeps it brand new like school shoppin
It's on and poppin
So come peep this nigga's steez like rayon
You get laid off while I'll be gamin ghetto girl like 8-Off
The verdict's in, I be the look of blendin
Give up your goods cause it's the start of your endin

[Q-Tip:]
(Where ya at?) We seein life for what it is
(Where ya at?) We get this money for these kids
(Where ya at?) We bout to build the foundation
(Where ya at?)

[Phife:]
Now, all that glock totin' trash you talk will not prevail
It's stale, you'll either be dead or in jail
I keeps it realer than the logo on milk
Denouncin tough guy wannabes that look smoother than silk
That's the sound of the man gettin yanked off the stage
Tryin to front like he mad paid
Suckin so bad, we threw his mama off the train (insane)
MCs are just givin it all away (OK)
Who said him know about the Quest type sound?
Mess around and get your ass knocked down (clown)
I dedicate this to the posers that play hard
You wanna hear some rhymes, well come bring your bodyguard
So he can peep the worldwide Willie that we display
Leavin all MCs in complete disarray
I beez a veteran MC, crushin crews for years
You frontin hard, when you softer than the Berenstain Bears
Yeah, chumps be like "Phife, that ain't fair"
Fuck outta here, do I look like I care
Come off my stage, before I grab ya neck and handle ya
Wet ya like punani, then dry you like Canada
Shaheed Muhammad's on the Gemini mixer
Peace to Derrick Coleman, Mad Max and the Sixers
I'm cappin hard cause I got this rap shit sold
From Linden Boulevard down to Cascade Road
You know my steez, I treat hip hop like a sport
Holdin down fort up on Martinique Court like...

[Q-Tip:]
(Where ya at?) We seein life for what it is
(Where ya at?) We get this money for these kids
(Where ya at?) We bout to build the foundation
(Where ya at?) We gonna start the Zulu Nation
(Where ya at?) Come on, come on
(Where ya at?) We gonna put it all together
(Where ya at?) No matter what the hell the weather
(Where ya at?)

Uh, uh, mind power *[x5]*
Uh, uh, kickin willie is good, all throughout your whole hood
But we gotta start with the spirit first y'all
Mind power

A Tribe Called Quest Lyrics

"The Hop"

[Q-Tip]
Yea, move your body, decide to party
'Bout to bring it to you kid like we never ever did
My nigga Al G in it, my nigga Shaheed in it
We got the girl Kristine in it, got my man Big G in it

Hey, yo, inside the ghetto or in a sunny meadow
I'ma make you move whether woman or fellow
Yo, I got the medals in the warfield of respect
Like an ill porno make ya body get wet
Just a ghetto child trying to live a straight and narrow
Hoping that my shit will pierce your dome like an arrow
I'm sure it will, especially if it's God's will
MC's you ready to die cuz I'ma kill
All you negative feelings standing on two feet
While I make the hotties move to the hip-hop beat
You know what's really killer, realer than you can imagine
Using every source of pain in my range to make it happen
If I make it happen, that means I'm making motion
And I'm doing my thing causing an ill commotion
Everybody do the hop, niggaz soothe like lotion
I lay up in the piece or an incognotion
You gotta do the hop then move to the beat, you don't stop
Now everybody here, you do the hop
You going up to cop, a town full of brick, don't stop
You gotta come back and do the hop
Yo, fuk the cop, you gotta come back and do the hop
Move till your body won't stop
You gotta do the hop, nonstop motion, nonstop
You gotta come back and do the, do the

[Phife]
You see you, your career is done like Johnny Carson's
Get me vexed, I do like Left Eye, I'll start an arson
Now that I got that out my system
Watch me stab up the track as if my name was OJ Simpson
I packs it in like Van Halen
I work for mine, you, you're freeloading like Kato Kaelin
I'm representing wit my crew
Mess around, bite my rhymes, I beat that ass wit my shoes
C'mon, you know I'm crazy nice (nice, nice)
Brothers can't deal wit this shorty named Phife
You must be mad in the head
I bust his ass and leave 'em bloodclot for dead
Niggaz sound like Das EFX
If it ain't Das EFX, then they sounding like Meth
You might as well do Megadeth

Yo, punk MC's better save your freaking breath
You'se a corny muthafuka
You must be high smoking dust wit Chris Tucker
You

A Tribe Called Quest Lyrics

"Keeping It Moving"

[Q-Tip:]
Somethin for your earhole, so you can clean them shits out
It seems that some don't understand what I'm talkin about
How you get West coast nigga, from West coast hater?
I could never dis a whole coast, my time is too greater(true)
Yeah, we from the East, the land of originators
You also from the West, the land of innovators
The only difference of the two is the style of the rap
Plus the musical track, this beef shit is so wack
Let me let y'all brothas know I ain't no West coast disser
Another thing I'm not is a damn ass kisser
So listen to my words as I set things straight
I ain't got no beef, so don't come in my face

Keep it movin, yeah to the K.I.M.
Keep it movin, yeah yeah to the K.I.M.
I ain't got no time for schuckin and jivin
Keep it movin, keep it movin, yeah yeah to the K.I.M.
Keep it movin, yeah yeah to the K.I.M.
I ain't got no time for schuckin and jivin

[Q-Tip:]
Hip hop...a way of life
It doesn't tell you how to raise a child or treat a wife
I verbalize over...rhyme friendly
That puts a listener in a frenzy, so pop me in your Benzi
You dig it? Get wit it or get your melon splitted
If you ever try to combat, Sir Walter moves the king
We got the illy team that doesn't even sweat the gleam
Or glamour, we'll figure 4 your ass like Greg the Hammer
Man, we rockin joints like The Who or Santana
Keep jams packed and hotter than Havana
Positivity is the key in the lock
Put your hand on it, turn it to the right, ak
We doin daredevil dandies on these mics
Peace out to the whole Hiero who's puffin on the hydro
Yeah dun, we movin how we like
Since the days of rockin hi-los, we keepin things on pyro, fire
As we move with zeal and desire
Now, the hip hop plan, hope you complier
Son, we havin tunnel vision but my sight is real real broad
Cuz I can't afford to miss that call
Makin moves, not movies, as get on the ball
And we keepin things covered like a female shawl
When I watch hockey, yo, I just look for the brawl
Quest, Quest and you know we signin out y'all

Keep it movin, yeah yeah, to the K.I.M.
Keep it movin, yeah yeah, to the K.I.M.
I ain't got no time for schuckin and jivin
Keep it movin, yeah yeah
Keep it movin, yeah yeah, to the K.I.M.
Keep it movin, true dat, to the K.I.M.
I ain't got no time for schuckin and jivin

The Pharcyde, you know we do it up, uh, you know we do it up, uh
The Hiero, you know we do it up, yeah yeah, you know we do it up
Yeah, to the Mobb Deep, The Infamous, we do it up, yeah yeah
You know we do it up
To my peoples Know Naim, yeah, you know we do it up, uh uh
You know we do it up
To my man DJ Quik, uh, you know we do it up, uh uh, a do, a do it up
To my man Biz Mark, yeah yeah, you know we do it up, uh uh
You know we do it up
To my man Ike Love love, you know we do it up, yeah yeah

And my man Extra P, P, you know we do it up, uh uh uh-uh, uh, uh up
I can't forget Dr. Dre, uh, you know we do it up
MC Eiht, uh, you know we do it up
Shelly Mae, uh, you know we do it up
Muhammad, uh, you know we do it up *[fading out]*

A Tribe Called Quest Lyrics

"Baby Phife's Return"

[Phife:]
The mad man Malik makes MCs run for Milk of Magnesia
Maybe that'll ease ya
Master of this microphone mackin, master as in great
I'll have your brain goin in circles as my style tends to ovulate
I'm makin moves, never movies, that's why y'all MCs lose me
Retrace, won't, so your stubborn like groupies
Kid, you know my flava, tear this whole jam apart
Fuck around and have your heart, like Jordan had Starks
While you playin hokey pokey, there's no time to be dokey
Cuz I come out to play every night like Charles Oakley
Dissin around with wack rhymin
You lose your grip from chalk climbin
Let me take this time to say R.I.P. to Phyllis Hyman
Who never got the props that she damn well deserved
But see me, you don't wanna see me, cuz all MCs are gettin served
The nerve, for you to even step to the Phifer
I'll bumrush your set and crush your whole cypher
Reserve, a spot for me in hip hop's hall of fame
Cuz rappin ain't no game, big up your head and maintain
Yeah, Queens forever in this piece crushin any beef
Ain't nuthin sweet, the bakery's across the fuckin street
Phife Dawg, swingin it back and forth just like Aaliyah
Makin moves on your heart like that trick Tamia
No doubt about it, I love hip hop to death
But yo Tip, bring in the chorus cuz I'm losin my breath

[Consequence:]
A, yo, you know the deal when the diggy Dawg is on the scene
We got the fiend bumpin straight from the borough Queens
You know the deal when the diggy Dawg is on the scene
We got the fiend bumpin straight from the borough Queens
You know the deal when the diggy Dawg is on the scene
You know the deal, ha, you know the deal

[Phife:]
Big up pop Duke, that's where I caught my athleticism
My mama, no doubt, that's where I got my lyricism
My nana, that's where I got my spiritualism
As for Tip and Shah, they made me stop from smokin izm
Now, when I'm with some cheese, I be lettin off gism
Writin rhymes since Daddy Kane and Biz Mark was on Prism
I gotta brave heart like the one named Shirley Chisholm
As for my late twin, boy, I wish I was with him
Got the Lightro in the back talkin bout (come on, get him)
And when it comes to rhymes, no doubt, I flip em
Sucka MC in my path, hey main, I say we ship him

Money please, your rhymes are wack, say word, this geek is trippin
Just because my name is Phife, my man, I'm never slippin
I got the type of flave to have your ass straight bitchin
For those who act cute, see I got them on mute
Have you walkin through your projects in your birthday suit
Cuz your style is off loot, so I played him like a flute
If youse a sucka MC, then it's you I rebuke
My style is, everday all day, similar to water
Crushin MCs as if my name was Sargent Slaughter
Keep shit hotter...than a sauna
Or better yet, the hormones on your Christian daughter
Hey, I tried to warn her
My sounds the type to kill, like the grill on Lauryn Hill
So all ya sucka MCs, y'all best go chill
Bout to go to Union Square so I can see my care bear
Singin good stuff in my ear, runnin fingers through my hair
Represent the Zulu Nation with illy rap creations
Just keep shit hotter than Death Row-Bad Boy confrontations
Chillin with Fudge Love because he represents the Haitians
Ya naw'mean

Word up
I just wanna big up everybody for supportin A Tribe Called Quest
Through the years
This be the fourth LP, you know what I'm sayin?
Tip, Shaheed and Phife, Beats, Rhymes and Life
Featuring my man, you know what I'm sayin, Consequence
192 is the area where we represent, for the ladies and gents, ha ha
You know what I'm sayin? Big up Shaheed Muhammad, that's my man
Christine, you know what I'm sayin, word life (fading out)
The Abstract Poetic, rockin this track
Bouncin it all over the place, in your face
You know what I'm sayin? My man Lightro...

A Tribe Called Quest Lyrics

"Seperate/Together"

[Verse]

Sometimes men and women look at themselves and see bliss
Through experience we tend to exist
That's through our past or our caretakers
The instance is in particular, so you need to recognize that
if you take all this away
and look at us at the end of the day
we stand great among creation
So baby take these words as a little inspiration
While I kick this shit get your ass motivation
MCs, you're walking a thin line
Get in your ranks and tighten up as we walk through mines
and plus vipers, phony rhymers and biters
Money-grubbers, beat-dubbers
amongst a whole host of others
Who be fakin', fraudulatin'
Waitin' for your bacon
They be takin' and skatin' while you sit contemplatin'
Who's your peoples
Well let me tell you somethin' now paw
We're livin' a world that's R-A-double-raw
It's crazy but it's true, go for delly is the law
and if you cross the path then you dangerin' your jaw
And if you Glass Joe, don't go toe-for-toe
Yo all we wanna do is our thing and lay low
So brothers hold your heads high when you get down
Don't violate these women cuz we need them around
It's all of us together, not the one without the other
The Abstract is ill, word to mother.

[Chorus]

We got to do our do, not separate, together
Got to move on through, not separate, together
Got to do our do, not separate, together
Got to move on through, not separate, together

Yo, we got some problems baby
People stressed out, check it
But we can make it Sugar
Keep it light and I say
move on through separate
not together but together
Not separate, that's how
we got to do it, check it on out
Bust it, yo...

Yeah, yeah, yeah, yeah.

A Tribe Called Quest Lyrics

"What Really Goes On"

[chorus:]
We got the bump-da-bump-da-bump bump *[6X]*
We got the bump-da-bump-da-bump bump-da-bump-da-bump
Bump-da-bump-da-bump

[Q-Tip:]
Yo, we preparin ourselves for this ultimate war
The MCs are really lost and it's at a big cost
We be rhymin at our show thinkin we gettin dough
Movin throught every town off the fumes of...
And accolades of the crowd with our chests out proud
Yo, we bout to pack these joints so that these...sound loud
Some kids be actin stank like a baby pant
It's the rapper Abstract that make the joint get amped
Yo, use your body maker and use your minds, to break true
Yo, we gotta do the do
Son, we livin in a time where mad folks talk (shit)
Representin they crews or they East-West clicks
Let me tell everybody from coast to coast
About the lands we boast, but we don't own jack
How the (fuck) we movin through makin moves like that?
How the (hell) we movin through makin moves like that?
Can you explain that? I doubt that, very highly
We got jewels and Mo and the life is tight rowdy
Everybody lookin (shitty) like a to' down committee
Let's make these institutions, body slam for the smitties
I got girls with plenty tails, smarts and big (titties)
And they all stressin me, yo, really?
What really goes on? (James Brown: I don't know)

[chorus:]

[Q-Tip:]
One is for the beat and the two is for the rhyme
Three is for the life, now we on this incline
Never catch this kid stickin forks in swine
Never ran my gibs in nuthin less than a dime
A few of my brothas did that asshole one time
Strivin miss sunrise, sometimes is known as crime
The three twenty-five got that Windex shine
And when I shot skelly, I had my boxes in lines
All I wanna do is live life and be fair
I used to stress girls with long legs and long hair
Now, I want a woman with a spiritual flair
God will never make it too hard for me to bare
I'm hungry like a derelict whose stays in the diluse
Some can count me out, but yo, I doubt that I lose

The Westernized world got our minds confused
You frontin on me, ak, then you don't get bruised
The funny style cats, they be playin games like Chucky
Government officials shoot their same old...
Made of devil agents a.k.a. the devil flunky
Stiff (ass) squares gettin mad cuz we funky
This the crap game, then we got the top rolls
The positive jumps the negative like frogs
Resentin evil vibes, yo, that (shit) is at the morgue
We celebrate laughin down in at the smorgas borg
You still lookin (shitty) like a to' down committee
Let's make this institution, buy the land for the smitties
I got girls with tails, plenty smarts and big (titties)
And they all stressin me...really

[chorus:]

A Tribe Called Quest Lyrics

"Word Play"

[Q-Tip:]
One, two, what'cha wanna do
Three, four, cuz we're gonna give you more
Five, six, and we ain't the tricks
Seven, eight, and we got it straight
Nine, ten, cuz we make it blend
Eleven, twelve, never ever goin for self
Tribe Called Quest situation
Check it out

[Q-Tip:]
Power. People really get caught with this on different levels
Power controls your life
Money. The companion of the first. Some people tend to worship
And we know this ain't right.

[Phife:]
Attitude(attitude) is how I get my point across.
You can't call yourself an MC if you know that you're soft.
Agressive...is how the stage is approached. I burn MCs like toast
Cuz I'm the host with the most.

[Consequence:]
Illin(illin) is what you do when you're assin.
Whether it be you or all up in your past and...
Cashin...done turned your people corrupt
It's six o'clock, girl, you gotta get your weight up

[Q-Tip:]
Sex(sex). Either a man or a woman.
This agenda, but when lovers get down
Froggin. When niggaz try to play roles
But when they really need to put that shit background

[Phife:]
Miserable(miserable) is what your whole crew will be
If you're not original and you show no strategy
Heavenly...is how the track tends to flow
And if you don't know, tell em diggy said so

[Q-Tip:]
We livin this cuz it's deep in our bones
A Tribe Called Quest with this hip hop jones
So sit and analyze the lyrical spray
Cuz all it really is is word play(word play)(word)

[Consequence:]

Willie. That's what I kick to get this Millie on a lilly
Now, I'm packin dimes like Chilli
Stress(stress). That's what I always go through
Cuz it's survival of the fittest on the 192

[Q-Tip:]
Knowledge. When the mind accept facts
On this plane of livin, knowledge be the key, black
Understanding. Gettin a grip on what's revealed
When shit be real, can't give understanding back

[Phife:]
Analyze. That's what I do to MCs
That be talkin bout they this and that, money please
Ego. I'm on my own jock skill
Cuz if I don't say I'm the best, tell me who the hell will

[Consequence:]
Cheeba smoke y'all. That's what I use to get high
When I'm in a rut and I don't know why
Try. Yo try again my friend
Cuz you can't see this MC representin Linden

[Q-Tip:]
Freestyle(freestyle). A true MC trait
And when you do it ill, niggaz respect it as great
Yo, I gotta...*[laughing]*

[Phife:]

A Tribe Called Quest with the hip hop jones
So sit and analyze the lyrical spray
Cuz all it really is is word play(word play)

A Tribe Called Quest Lyrics

"Stressed Out"

[Intro/Chorus: Faith Evans]

I really know how it feels to be, stressed out, stressed out
When you're face to face with your adversity
I really know how it feels to be, stressed out, stressed out
We're gonna make this thing work out eventually

[Verse One: Consequence, Q-Tip]

Yo I ain't one to complain but there's things in the game
(What's your name?) Consequence, I'm tight, burnt like flames
(And why's that?) American dreams, they got this ghetto kid in a fiend

Don't stress that cause it's not in your bloodstream
Your whole being, comes from greatness, d'you remember
Shatan got you caught in the storms of December
And brothers on the block packin nines like September
Crazy situations keeps pockets on slender

Yo I be on the avenue where they be actin brand new
I'm splurgin on these Reebok joints for shorty boo

All of a sudden, I saw these two kids frontin
Talkin out they joints but they wasn't sayin nuttin
My hand was on my toolie they was actin unruly
(Say word) Yo word up, yo I was tight caught up
But I swallowed my pride and let that nonsense ride
Because I'm positive it seems that negative dies

Yo we was at the dice game makin these cats look silly
Flamin, steady runnin off at the Willie

I had my cash mixed, my rent due, with my play-dough
I gotta see some loot so all my girls I blow
Shook them shits in my palm let em hit the flo'
Kept my eyeballs scopin for them pigs po-po
I got to go on the ave see my parole by fo'
But I gotta steady freak these boys like JoJo

And I was doin it, til I met Ike, Spike, and Mike
One roll, they had my pockets thirstier than Sprite

Yo I know the feelin, when you feelin like a villain
You be havin good thoughts but the evils be revealin
and the stresses of life can take you off the right path (no doubt)
Jealousy and envy tends to infiltrate your staff
We gotta hold it down so we can move on past

all adversities, so we can get through fast, like that

[Chorus]

[Verse Two: Consequence]

You got the N.W.O. (low cash flow)
Your baby's on the way (and you don't know who)
And crosstown niggaz tryin to (bust at you)
Aiyyo they got me stressed out (and you don't know what to do)
So frame this Kodak black, and vision to my contact
with a poultry scrap, workers get pistol smacked
The switch hittin Queens, niggaz liquid sword spittin
with raw poppy, and now your first love is krill
Your vision of the mil got crept like Hey Lover
Tried to rise to the top, you just couldn't recover
And all I want is my laceration of the pie
to get this whip cream before the water runs dry
Niggaz flashdancin yo I don't know why
You're sick of snitchin, she got you cruisin to the pokey
like Smokey, the stress be tryin to squeeze out a homey
While I be tryin to get star status like Shinobi
So we can build a dynasty, just like the Toby's
And all I want, is the world to know my steez
These money hungry niggaz is seven thirty
And got me stressed out like these frog MC's

[Chorus]

[Outro: Faith Evans]

Don't worry we gon make it (gonna make it)
Don't worry we gon make it (oh yeah)
Don't worry we gon make it (gonna make it)
We gon make it (gotta make it)
Don't worry we gon make it (gotta make it)
We're gonna make it (we gotta make it)
Don't worry we gon make it (we gonna make it)
We gonna make it (ohhhhhhh)
Don't worry we gon make it (ohhhhhhh)
Don't worry we gon make it (gonna make it)
Don't worry we gon make it (ohhhhhhh)
We gon make it (ahaowwhwwww)
Don't worry we gon make it (ahahwwww)
I know we gonna make it (we're gonna make it)
C'mon baby we gon make it (yeahhhh)
We gon make it (yeahhahhahhhh)
Don't worry we gon make it (we're gonna make it)
We've gotta make it (we've gotta make it)
We've gotta make it (oh yeah)
Know we're gonna make it
We're gonna make it, gonna make it, we gotta make it, know we gonna make it...

Hard to the ground, ooh the Tribe with the sound boo
Touch me, tease me, feed me, squeezy
Take it easy, never sleazy
Promise that I will not answer
The phone when it rings love, while we do out thing love
Never fakin', it's late, spirits
Through the music is our mission
Honies who were not cooler than the ghetto rebel risin'
To overthrow a ruler
Dearly beloved, dearly departed
There's a reason why we did it
Cuz it's inside the body and the hearts
So here we are fam let's start, c'mon...

[CHORUS:]
Don't beat me in the head with the bullsh*t bat
C'mon everybody let's start *[x2]*

Truth, power, taste, devour
Niggaz in the street here comes the illest beat now
Move oceans wit' your mental
Think it, do it, be it, embellish
Here's another point for everyone to relish
When Ski busts his tools all ya'll foes will embellish
For somethin' wicked at ya'll faces
What I see is longin', needin'

Hey I got you with that goooooood stuff
And ya probably won't get enough
Ay-yo, lyrics I got it, lyrics, cadence
Do it with fun and patience
Funky, rhythmic, characteristic
Ebonically lingustic wit' the ghetto futuristic
Ay, ay, ay, ay, ay, ay, ay....

[CHORUS x2]

Beat me in the head, don't beat me in the head
Don't beat me in the head, don't beat me in the head

Don't beat me in the head, head, head, head...

A Tribe Called Quest Lyrics

"Find A Way"

[Chorus:]
Now you caught me heart for the evening
Kissed my cheek, moved in, you confuse things
Should I just sit out or come harder?
Help me find my way

[Q-Tip:]
Messing me up, my whole head
Teasing me, just like Tisha, did Martin
Now look at what you're starting
Schoolboy's crush and it ain't on the hush
The whole world sees it but you can't (uh)
My peoples they complain, sitt and rave and rant (come on)
Your name is out my mouth like an ancient chant (say what?)
Got me like a dog as I pause and pant...

[Phife:]
Speaking of which, got a leash and I wish just to rock you miss (come on)
Make a militant move, peep my strategy (what?)
End of the day you're not mad at me (uh)
Not dealing with nobody, now that's what you told me (what?)
I said: "hey yo, it's cool, we can just be friendly" (come on)
'Cause yo, picture me messing it up
Her mind not corrupt with the ill C-Cups
Shit, I'm on my J.O. (come on)
Bullshitting, hoping that the day goes slow (what?)
Got me like a friend, what confuses me though
Is kisses when we greet, tell me what's the dill yo? (dill yo, yo, yo...)

[Chorus x2]

[Q-Tip:]
Now why you wanna go and do that, love, huh?
Making things for me towards you harder
Killing me, just when I think we're there
You got the whole vibe and the flows in the air
Telling me 'bout next man
But next man ain't the nigga with the plan
Who got your heart in mind?
It's about time that you just unwind (come on)

[Phife:]
And let it just happen, make it front-free (uh)
Just sweat me like Moneypenny (uh)
Digging you, getting inside of your stee (what?)
It's the Quest that keeping you company
Forever, or however you want it

[Q-Tip:]
Word word, now wait a minute now before you jet it to the curb (yeah, yeah)
Start to make affections, which is good not the hurt
But it, it aint me, and I, I ain't blurred (uh)
I'ma still just chill with you
Maybe things could change if you change your view (come on)
If not then I guess it is cool (yeah)
just, to keep to yourself and adbide by the rules, right

check it out now...
check it out now...
like that now...
check it out now...
wha wha now...
check it out now...
yeah yeah now...
check it out now...

it's like that now...
check it out now...
yeah yeah now...
check it out now...
what you say, what? what?

[Chorus till fade out]

A Tribe Called Quest Lyrics

"Da Booty"

[Q-Tip]
Question
What is it that everybody has
And some pirates and theives try to take

[Chorus]
Da Booty (and if you is a crook than you takin' it)
Da Booty (and if you got money you shakin' it)
Da Booty (come on everybody that's here, that's word
to Phife Dawg and my man Shaheed)

[Q-Tip]
I give my promise to all y'all to keep my shit hittin'
Half of y'all claim dog but now a light kitten
Flippin' on brothers just like Mary Lou Retton
Get off that ass and see what I'm settin'
Born with this inside, you just can't get it
This is the lethal pop and you have no weapon
Who is the native brother who keep asses steppin'
make deep impressions and constantly be reppin'

[Phife]
When I was young I'd stretch gouch yo
Now I'm on Letterman, on the couch yo
the black thing with knives is called the back do'
can't we be cool instead of being foul though
Ghetto child dreams of fast cars and fast dollars
Impressions of live sometimes makes ya holler
Scream all that devil shit and talk like a scholar
You dumb as a doorknob, and why do you bother

[Q-Tip]
Phife Dawg puttin' the bite back in yours
Top dog, puttin' it up, flick his balls
MC from now til I get a frown
Shake that ass girl because you world renowned
Wake up, look at the sun, see the sights
Bull duke, you've got to die for your rights
MC's, y'all got to work for the mic
Zombies, do it from dusk to the night

[Chorus]

[Q-Tip]
Rock to the beat, yo it's never the same
Good girls usually got good game
Hot cats tearin' that ass out the frills

Block ass, you had no skills, that's the reals
Make this money without the friction
Take this honey, there goes your diction
Rappers better retreat, fix your joints
My whole crew got bumps on they points

[Phife]
Rumors being spread 'bout me and my click
We can't rock shows and our rhymes ain't shhh
Might not've heard it, or maybe you have
Between me and you, they can kiss my ass
Used to get angry, used to get quite vexed
But say what you may, just cash my check
'Cause all I'm ever guilty of is going on tour
Doing shows galore, and bringin' it raw

[Chorus]

A Tribe Called Quest Lyrics

"Steppin' It Up"

(feat. Redman)

[Q-Tip] Phiiiiiife Dawg
[Phife] Yo Kamal
[Q-Tip] Reggie Noble
[Redman] Up in ya!
[Q-Tip] Yo Busta Bus, yo it's time to step up

[Busta Rhymes]
You know I plas-ter, the little bas-tard

Hah! Uh-oh, aiyyo, whenever Busta Rhymes say so (mmmhmm)
when we move yes (mmmhmm) sometimes we lay low (mmmhmm) aiyyo (yo)
Big up my little nigga Pedro
Make you after the L like turkey, cheese and to-ma-to (to)
Fuck is that? Especially for niggaz that will pay no
attention to instructions, like they still wan' disobey y'all
Wonderin how it's activate real quick?
But then I could grow about five feet more with an extra dick!
One dick to hold in my hand when I'm rockin the mic
The extra dick to blow up the pussy for the rest of the night
Then I return with more lyrics like a bunch of rough niggaz
They tough niggaz that snuff niggaz (hah)
I know the club got enough niggaz (huh!)
to slap your face, expert, who the next jerk, to make me
exert heat? FUKKIT, let me network!

[Redman] Ha-hah!
[Q-Tip] Yo Reggie Noble
[Redman] Feel me, yo Busta Bus
[Busta] What up?
[Q-Tip] Yo Phife Dawg, yo it's time to step up

[Phife]
Yo what the fuck, ungh!
Check it here, peep the four-man transaction (action)
Phife diggy Dawg, we on some Todd Shaw mackin (mackin)
You know my stee', there's no time for relaxin (relaxin)
Word to Reggie (Phife Dawg) yo it's _Time 4 Sum Aksion_
Girl swing yo' ass, I can feel you climaxin (climaxin)
Don't even front, you know you wanna make it happen (make it happen!)
Yo Busta Bus, do you hear Violator faxin? (mad faxin)
Eighty G's for one show (eighty G's yo) that's satisfaction (satisfaction)
Now which emcee feel like he fuckin with dis heah? (This here)
Word to Queens, I keep shit hot like a canish, yeah (Nish yeah!)
Malik is back, I'm here to make you look foolish (foolish)
My roughest niggaz in the Apple (Apple) on Coolidge (Coolidge)
Remember White Shadow? My click stay sharper than an arrow (c'mon)

Plus in Trinidad I'm treated like the mighty sparrow (uh-huh)
Freestylin son, like there was no tommorrow (fuck it up nigga fuck it up)
Hence the reason why your bitch ass would love to follow (what?)
Two different toasters in your chest will make your shit hollow
How's about them apples, oh is it too hard to swallow?
Push your wig back, word to Big Moot and Bolo
Billy Razor, Fudge Lover, on down to Shine Lightro (Love Movement)
Yo Bootsy takes this mic from this fool see, make him run it
Five-foot invasion son, you can't run from it

[Busta] Yo Reggie Noble
[Redman] Blaoowww, yo Phife diggy!
[Phife] What up?
[Busta] Yo yo Kamal it's your time to step up!

[Q-Tip]
Check it out, the original, shit, we makin it
Takin it, to the extremes, we breakin it
When we get, inside a zone then you feel that it's good
All you jelly cats stop marinatin my wood
Niggazm grab the mic with loads of malarky
I bring the knowledge and wield the anarchy
Put it on pooh-butts who's unsettled with ignorance
Give the last sentence with poignance and diligence
Eighteen wheelin through niggaz like truckers
Breakin ankles, put it on like we at the ruckus
Guaranteein that shorty can move it around
In the place that gets you hot but leaves you here on the ground
Contenders don't you even think to challenge the crown
Of these brothers who so elequently hold the beat down
Fuck the rigamarole, we vyin for the control
We the musical equation of the whole entire nation

[Q-Tip] Yo Phife Dawg
[Phife] Yes Kamal
[Q-Tip] Busta Bus
[Busta] What up?
[Q-Tip] Yo Reggie Noble yo it's time to step up

[Redman]
Yo yo
I'm just a ill nigga who don't got it all up stairs
Riding dick, get the balls til they come in pairs
Oh yeah, throw the goggles on these engineers
Cause it might, get kinda wet when I spit this here
Yo, I'm six-foot-one with a big ass gun
To carry it you'd need a waistline the size of Big Pun
But I move crowds without a gun
like if -- The New York State Lottery is ninety nine million!!
Hah-hah, yo, when it's time to flow I suprise and blow
five hundred thousand units off a dime a trow
Forty below, I'm thorough when it's time to throw
the caboose, I'm even hard to be touched by a masousse

Whoo-whoo! Funk Doc gets the money
and best believe I went through more trees than Sonny
Me, Kamal, Busta Bus, Phife Dawg
Shittin, pussy niggaz get Lysol!
Heh heh heh

A Tribe Called Quest Lyrics

"Like It Like That"

[Q-Tip]

OOOOOOOHHHHH Ya *[echoes]*
Say What?
We was in the back of the joint cooling out
And I saw this girl
Asked her if she like it like that
Nod her head yes, therefore I didn't stress
Let my beat keep knocking cause we rock it like that
Bust your ass slow, as if you didn't know
Put my mic inside your brain zone, dis home dis
It's the rhyme, it's the beat that vibe all together
That makes the competitors sound like this
Really do I care yo, I let down my hair
When the music's up loud man, I jums real that
Lyrical valow, in club, in the go
In jeep in America,Tribe go mad
Females ride when my niggas just ride
With the songs we creating and musically relating
Sex niggas talk, my body's in chart
Meanwhile they boot shaking
On some funk shit faking
Wait, I can't front, stick men
Hereâ€™s a few who really come to do
What they say gonna do
Back at the ranch
There's no car branch
Everybody gonna move when we say move

Do you like it?
Say yeah if you like it like that
YEAH!!!!!
Do you like it?
Hell yeah if you like it like that
HELL YEAH!!!!!
Do you like it?
Tell me if you like it like that
YEAH!!!!!
Do you like it?
Verse two if you like it like that
COME ON!!!!!

[Q-Tip]

Who could be the one
Rhyming ill, having fun
Blowing up, making musical memories and things

Elevate your thoughts on the vibe that we brought
While we climbing we shine like a super bowl ring
You could do it too
I mean hot like we do
It's a lot like we do and make your own mark
It's deeper than the song
Hope you live your life long
When you win, how you start, kid you gotta have heart
Niggas in my shit, move
Give a nigga room
Back it up, it's a grown man making on time
Plus you damn similar to Newport's
Smoking ain't a new sport
Smoke you sister in vendible
Gotta spread love, no matter where you are
Where you at, where you went
Cause nobody want beef
Fountain is good, just flows like a river
Just go with a nigga, kid my stay ain't brief
Put your heart in the day, in the night, family Enemies but yo I really don't wet that
We was in the back of the joint cooling out
And saw this girl
Asked if her if she like it like that, yo
You like it that *[repeat till fade]*

A Tribe Called Quest Lyrics

"Common Ground (Get It Going On)"

[Q-Tip:]
Who that at the door? (Yo, Tip, it's her)
What you doin here, in front of my face? *[x3]*
You didn't want my...you didn't want it
To go somewhere, you all on it
But if you want to, then you can come here
Come here, yo

[Q-Tip:]
Have you ever met a woman that just took your breath?
So deep inside her life, she contemplated death
Can't help but get attatched to a woman like that (true dat) *[x4]*
The contact was quite immediate, I had to attack
(Because you the man, yo, you know you the man)
We related and debated over food and tunes
Started out in September, now we enterin June (say word) *[x4]*
Simple night in the crib, no, it just won't do
(no it just won't do, no it just won't do)
Because she liable to start shit that's wildin you
(wildin you, wildin...)
She wanna push my whip, buy diamond chips
And take on trips, conversin my flip
Gotta do her hair, take her out to the fair
When a jake be there, make sure you don't stare
At another one comin, don't be startin nuthin
Be a slave to her, don't be brave to her
Make sure that she's right, make sure that you're wrong
When she wants to do it, make sure that it's long
f anyone wanna make it work it's me (Phife Dawg help me out) *[x2]*
But we gotta come through with common ground baby
Any man, he can claim to be the one for you
But put it straight to your lover in life runs true

[chorus:]
And if it's me then let's get it going on *[x4]*
Get it going on, let's get it going on
And if it's me then let's get it going on *[x2]*

[Q-Tip:]
Phife Dawg in the break, is she more than you can take?

[Phife:]
See, I'm not the one to be taken advantage of
And if you really think about it, I got nuthin but love
Now if your heart isn't in it, please let me know
There's no need to waste time, if it's no, then I'll go

[chorus:]
And if it's me then let's get it going on *[x4]*
Get it going on, let's get it going on
And if it's me then let's get it going on *[x2]*
Get it going on, let's get it going on

[Phife Dawg]

So girls with fat asses and tits, nice to meet ya
Do five plus five equals ten? Ask your teacher
For God so loved the world he said Phife, ask your preacher
Love to toot my own Horne, similar to Lena
Before I take stage, I take sips of Aquefina
Fucked Judy Jetson now they call me Jet Screamer
Love my coffee dark so you can keep your dairy creamer

A Tribe Called Quest Lyrics

"Give Me"

(feat. Noreaga)

[Chorus]
Doin' our thing in Queens
We had dreams about bein' emcees
And there was no concern about so and so
And these record companies
But now we all are grown
And the spots is gettin' blown
Boyz II Men, ABC, BBD
Nah, we ain't none of them, B
Give me
So give me
Nore, Phife Dawg and Abstract
Give me
To everyone in the world
Nore, Phife Dawg and Abstract

[Noreaga]
Yo when I rap, all my niggas love Abstract
Yo, from Far Rock to Flushing, concussion
Every time a nigga rhyme it's like we get our bus' on
I used to ride a dollar van and really get my bus on
Yo, from South Don to El Segundo
All my niggas gettin' high yo, and still livin' on the run though
Get alot a dough so now we have a lot of fun though
Q-U, two E's, N-S
All we really care about is money, cheba and sex
what what what

[Q-Tip]
niggas get faded, never outdated
Give it to the world, 'cause for long they waited
Shorties online to cop the new CD
So hip-hop'll bust nut in graffiti
We could two-piece it or we could just seize it
Shorty, you're my shit, 'cause my style wild decent
What's it gonna be, the party or the precent?
Queens cats rock, keep it rugged and recent
my nigga Nore thug it out (thug it out, no doubt)
Phife Dawg buggin' out (buggin' out, no doubt)
The Love Movement no doubt (Love Movement, no doubt)
Ali Shaheed get a shout (shout it out, no doubt)

[Noreaga]
Yo better things, hold on, take a time out
Huddle up, yo, Queens niggas won't fuck it up
Keep my southside niggas just palyin' the cut

While my Queensbridge people stay roughin' you up
East Elmhurst, Carona, Iatola
Keep the caller ID on the Motorola
Gotta keep the po-po on the payola
Queens niggas shut it down, now it's all over

[Phife]
One nine two, the Bully fram Lou
Merrick Van Wig holler Shaft got brew
Head up Jamacia Ave, cop a tape by DJ Clue
Move to the acre, sippin' on a guinney booze
Scoopin' ladies up in babies makes my day complete
Freestylin' over beats for my peoples in the street
This is a place where stars are born
Linden to Lawton, we keep it hot like porn

[Chorus]

A Tribe Called Quest Lyrics

"Pad & Pen"

(feat. D-Life)

[D-Life]
This is the master D-Life

You feel the uniqueness, you seekin this?
And when we do it, we be freakin this

Here we sayin it, SAYIN IT, SAYIN IT

[Chorus: with D-Life]

My pad and my pen (ah ah, you didn't go there)
The beat and the blend (say word, you didn't go there)
The party won't end (you know, we got to be there)
Just keep your ?, buildin with friends, yo
[repeat x2 w/ variations]

[Q-Tip]
One love, one life, and one destiny
It seems that the devil keeps testin me

Got the illest part of the recipe
Yo tell your homegirl to stop stressin me (stop it)
Undressin me is the part you really like
Brothers hold the cracks now they holdin mics
The cusses you get, ? steady rights
Marauders, we did that shit at Mid-night, a-ah-aight-aight

[Phife Dawg]
I love it when my honeydip be slobbin me
Don't take it personal it's just comedy
My comedy completely turned to tragedy
I sense some of these rappers still be mad at me
Sweatin her because of her anatomy
When I bang you it'll be assault and battery
Don't make me discombobulate your micraphone
Talkin trash will only get you freakin head, flown

[Q-Tip]
Uhh, buy em out the box, never faulty ones
Get in that ass like karate son
I act with the light, sometimes it's lookin grim
We manage a smile, sometimes we slip it in

[Phife Dawg]

Emcees be soundin moist like vagina juice
The top of the world, we pursuin it
Don't worry about a thing, cause we doin it
DOIN IT, DOIN IT

[Chorus x2]

[D-Life]
That's the way we do.. c'mon, that's the way we do
It's the nigga D-Life, with T-C-Q
That's the way we are.. and the beat won't stop
Got to blow it up for the top..
Didn't think you knew how we rock..

A Tribe Called Quest Lyrics

"Busta's Lament"

[Phife Dawg]
Fuck the car-jacking, Phife Diggy is rapping
Got dawgs with love and plus dawgs that's packin
So what's the deal Captain, if it's time for some action
Watch me roll with hon, try to push her back
Which one of these niggaz, think they fuckin wit dis?
Put your money on Queens, yo these cats is pissed
Meanin hot green and stinky, see shorty there winkin?
Hit her off so hard, that her eyes start blinkin
Then massage her down, with the word serene
It's the Dawg For Pres, new star on the scene
And I'm here for the battle, right down to the letter
If it rains today, then it's a double-header
Range Beemaz and Benz, 1100's and Jettas
Phife Dawg for whatever, just get it together

(Just) get it together
(Just) get it together
(Just) get it together

[Q-Tip]
Just get it together
No matter the weather, or where you at
This is how we gon' do it, cause we keep shit fat
You gotta

(yo yo) do it (yo, yo yo) do it
(yo yo) do it (yo, yo) do it
(yo yo) do it (yo, yo yo) do it
(yo yo) do it (yo, yo) do it

[a lot of "yo" from Busta Rhymes]

[Q-Tip]
Didn't you read the news, did you heed the alarm
It was good overall, it said that we was the bomb
I'ma make the call, and I hope you respond
We the stars y'all, and everyone beckons far
You a star and you shining, I'm one and I'm rhyming
Let's get together, start intertwining
Yo you coming with me, somewhere where you can't see
with his bonafide joints, underneath the sea
Of confusion and glitter, nobody's a quitter
Try to front and get ripped, from your ear to your shitter
Gon' put it on harder than anyone did
It would benefit you to keep a wide open lid
Makin sho' shot shit, makin sure you shine

Takin shows for sure, takin hearts in time
Do it all for the rhyme, and the rhythm and things
When we do it we bangin, like we inside the bang
Ain't doubtin nobody, when we inside the jam
But I'm proud overall, and I know who I am
As the constellation gets brighter this writer's goin

(yo yo) do it (yo, yo yo) do it
(yo yo) do it (yo, yo) do it
(yo yo) do it (yo, yo yo) do it
(yo yo) do it (yo, yo) do it
[continues with variations]

A Tribe Called Quest Lyrics

"Hot 4 U"

[Q-Tip]

Yo, yo, yo, yo, yo
Knew a girl named Shelley
Six-pack belly
When we made love she made it shake like jelly
Put her own video star on my tele
Lived in the Bronx on the block named Fortelly
Had to be jetty cause this sucker hold netty
Kept blowing me up, her jonesing was steady
Told my man Louie that I really wasn't ready
Louie when we did it, man, we both got sweaty

[Phife]

This girl from my past
Had ridiculous ass
She attended UMASS and she passed every class
Walked down the hall with her stuffed up sass
Told the basketball players, she liked how they pass
But when I use to hit it
The ball cat, she quit it
She wouldn't ad-mit it
But shorty was addicted
(Say Word) Word, Nigga you heard
Like a fiend with a queen when he catches the bird

[Q-Tip]

Knowing how we living I'ma talk about Mayo
?Sagartery and mommy? Her love was a KO
We was on the under, had to stay on the lay low
Use to go so deep, she had to say Aiyyo
Rock with her friend, but her friend drove both way
Asked her about it and she used to say No way
Just let it go yo, I used to say OK
Just another day but fight anyway

[Chorus:]
[Q-Tip]
I put it down man, whatcha gonna do
[Phife]
Well hell, I put it down son, whatcha gonna do
[Together]
We put it down for the area crew
All the shortys that smoking y'all whoo
Looking good it you sipping on your brew

Come here ma, we make it hot for you
Come here ma, we make it hot for you
Come here ma, we make it hot for you

[Phife]

Met a shorty named Kenny
From East Saint Louie
Body good and plenty
The finest in Missouri
If you had no money, you better hit the highway
Even in her own right, she had to do it her way

[Q-Tip]

It was an ill situation when I met Dantanya
Worked in Saint Louis, in her mother's hair parlor
Use to hit her man for cake to come see me
Her and her man from home, they sold heemey
We had it hemmed, locked, sold and shit
When I thugged it yo, she said I was the ultimate
Broke her up kid, driving the drill like Truck Turner
All of things they did not concern her
People that we love yo, we love for a passion
I'ma type of cat that brings forth the action
You feeling me yo?
I hope you hearing me yo
One more thing before you start cheering me yo

[Chorus:]
[Q-Tip]
I put it down Phife, what we gonna do
[Phife]
Well hell, I put it down son, whatcha gonna do
[Together]
We put it down for the area crew
All the shortys that smoking y'all whoo
Looking good it you sipping on your brew
Come here ma, we make it hot for you *[repeat till end]*

A Tribe Called Quest Lyrics

"Against the World"

[Intro: Phife and Tip]

Back at you,
Right back at you,

[Verse 1: Tip and Phife]

Drove around the block,
Drove a lot,
Lookin' all around,
Don't see no cops,
Whispered in your ear, a ghetto star,
Sittin' on my lap inside of my car,
Lookin' at my lips, take a taste,
Taste yours too, rub your back,
Run your fingers on the logo of my baseball hat,
Moonlight dancin' inside of your eyes,
Close your legs, I start to sigh,
Now I reach down to unlace my Nikes,
Kick off your Adidas 'cause that's what you like,
Chris Tucker joke passed inside of my head,
Put the thought away think of you instead,
Hot outside, it's hot in here,
Roll down the window the breeze in your hair,
Your earrings shake, you a baby doll,
You say you want me but did you want them all??,
Make me feel special, I know that you can,
Make me feel special like a prominent man,
Prominent, dominant McCoy and I'm real,
Another brotha's fan? Forget how he feel/

[Chorus: Tip and Phife]

[Repeat 4x]

Me and you girl go against the world,
Against the world?,
[Female voice] Hell yeah the world

[Female voice] [Repeat 3x]
Yeah the world,
Yeah the world,
Yeah the world,
Whole wide world,
Yeah the world,
Yeah the world,
Yeah the world,

Whole wide world,
Yeah the world,
Yeah the world/

[Verse 2: Tip and Phife]

Zonin' undress ya???Still hold play???
Or can you hold my hand, it's better that way,
If we was on video I'd press rewind,
A nigga think about you all the time,
Pidgeon dropped a note on top my head,
R&B,pop girl's a thoroughbred,
Run around the track, let me slow you dowwwwnnnnnn...*[Pause]*
Pick you up,
Raise your cups,
Let's double up,
Bomb came known, natural disas,
Fall in love with me? huh, well that's that ass,
Wanna get you, inside my world,
Process, straight, afro or curl,
Stretch me out, fade me in,
Forever you in need let me see you grin?
He bust with you, I'm a tap his chin??
Make me feel special, I know that you can,
Make me feel special like a prominent man,
Prominent, dominant McCoy and I'm real,
Another brotha's fan? forget he feel/

[Chorus]

A Tribe Called Quest Lyrics

"The Love"

[all vocals by Q-Tip]

So many people, right now
Motivated to shit
Bull shit over some bull shit ass reasons
But we 'bout to put it inside of a love perspective like
Love it

We do it all for the love y'all
Yeah, we do it all for the love y'all
Weither white, black, Spanish, ain't a thug y'all
We do it, we give it all for the love y'all
We just givin' it all for the love y'all
We do it, we do it all for the love y'all
We in the party, put your hands up
Yeah y'all, we do it all for the love y'all

Love getting down and I love a cool breeze
Love seein' checks from record companies
Love lovin' love 'cause I love what I do
And we do our thing for the one nine two
And the rest of the country 'cause we from there too
Makin' sure love is givin' when I get it from you
Everybody, we regulate the party and shit
Love it when I get a little rugged wit' it
Love the circumstance to make my dough flow right
Love rockin' mics plus the ill style nights
She does it real good but love'll make it mo' better
Got me kind of open in the DK sweater
Love when my peoples come home from jail bids
Really love women and I really love kids
Love tight gloves where the muisc just bang
Camp-ass with gas women or shorty got bangs
Lovin' it
Yo yo, I'm lovin' it
Love a women when she got a tight outfit
Outfit meaning outlook and disposition
You love it when a nigga cause a love composition
Love peanut butter and jelly on wheat
Wylin' out, makin' hot shit to hot beats
>From Ohio to Poughkeepsie
>From Phoenix to NC
>From Cali to DC
Love it when the pressure falls righ on me
Love it when God keeps on overlookin'
Do a tight show so promoters keep bookin'

We do it all for the love y'all
Yeah, we do it all for the love y'all
We get the paper but it's still for the love y'all
>From the heart inside of the heart y'all
we do it, we do it all for the love y'all
For real, for the love, for the love y'all
All my peoples in the ghettos, for the love y'all
All my peoples all around, for the love y'all
For the love love

For my crews bomb, where my peoples still at
If they call me and I don't call back
For weeks at a time, love is still intact
Let's be big about it, and realize the fact
Love it, when the underdog comes through
Ghetto revalizer, overthrow these rules
Love it, when I get spared another day
Used to drink zay while my niggas weighed yay
Love it, when I gain control over this
Life is really bigger than the rolly on my wrist
Got a twist to this shit and the answer's inside
Sho as the world's small and the missisipi's wide
Had to rock a vest over unchoosed fest
Now I see people rockin' theirs in jets
Love it when my loved one really hold me down
Brand new flight and I'm takin' off ground

We do it all for the love y'all
Check it out, we do it all for the love y'all
For the love y'all, for the love y'all
For the love, for the love y'all
We get the paper but it's still for the love y'all
Yo, we do it all for the love y'all
For everybody, for the love for the love y'all
Weither white, black, Spanish, ain't a thug y'all
Yeah, we givin' y'all this shit, the love y'all
Just the love inside of the heart y'all
Yeah, for the love for the love y'all
Yeah, for the love for the love y'al

A Tribe Called Quest Lyrics

"Rock Rock Y'all"

(feat. Mos Def)

[Punch] Yo! We about to rock this joint, from the family. And
we want ya'll all to know, that it's time...

[CHORUS all:]
To rock rock ya'll
Freak freak ya'll
To the beat ya'll
It's unique ya'll *[2x]*

[Punch]
A-yo praise the master, make plans wit' your pastor
My rap'll blast ya, send you to the hereafter
I push a tractor, for horses grazin' in the pasture
Ya heard I was trickin', the whole room filled with laughter
In ciphers, I'm the one you don't rhyme after
You only know half of the math, it don't add up
The lead batter, my hits make ya frame shatter
Watch me now! Just begun like Jimmy Castor
I'm bad luck just like walkin' under ladders
Mad rappers, book of life, last chapter
Me and my squad build just like contractors
I break shit, you only give hairline fractures
Women flash us, don't know ya better ask us
A bastard, wit' more contacts than Lens Crafters
Tear down the rafters, venerials couldn't clap us
You need practice, hit chicks then I'm Casper

[Jane Doe]
The church of scientology, feminine biology
Manic depressive psychologically, A.D.D. alive and we
Polluted by technology, the fumes and its ecology
While your thought you was out of copy I get nastier than sodomy
Probably an oddesey, started back on robbery
Was the degree of the economy that do the sovereignty
Regarded as a prodigy, leery in sociology
Let the wallabees always conceal my gynecology
Rhymin' pathologically, that's how it gotta be!
Never makin' no apology, worshippin' my anthropology
Fuck modesty, studyin' microbiology
Causin' verbal lobotomy, it's in my geneology
Six months of sobriety, movin' very methodically
Like a unicorn, more ways than oceanography
Guard technology, rip shows antibiotically
True thugs bionically, give birth to criminology

[Words]

Yo as a youngin', I swear to God you couldn't tell me nothin'
I swore I was gettin' somethin', clothes or humpin'
For girls with the church, slacks with some shirts tucked in
I set it up for money, my mom worked when I was cuttin'
Unsigned strugglin', for the heat I lit the oven
One would by the CD, the other would do the dubbin'
Before I met Rob, I was in the clubs frontin'
Oh yeah I know the Tip, when I see him I be duckin'
But now when I'm clubbin', those that used to dis were buggin'
Overweight chicks, spandex, they stomachs sucked in
Stay interruptin', dance and try to cut in
Told people you got in free when you really snuck in

[Q-Tip]
We never get concerned about who's in the league
We just stay workin' so no one will need
An unconcerned outsider givin' niggaz feed
My niggaz puff weed but negotiate the seed
The family is granite and you can't intercede
I try to switch lanes at this operatin' speed
Cats in the game be gamblin' with greed
We the house, you the player and we gonna catch these
Who's the Sam Sneed makin' microphones bleed
Poker face creed while my mind just read
Shorty got rhythm but her freak got freed
That's insignificant but this take heed

[Mos Def]
They say I'm pretty like Clay is, bright like the day is
Beats from my fleet be sweet like Sugar Ray is
I'm swingin' this from Bay Ridge to where the Oakland Bay is
My game is tough to play, I'm tough to weigh like your safe is
The aim is, to make you recognize what the name is
Mos Def gon' set it straight from where the 718 is
The place with the great superiginate the flavors
An all-star block with some all-star laymans
(Turn the music down!) This is probably some haters
Achin' cuz they hear us rotatin' on the playlist
>From B-boy laces to Detroit gators
Yo Tip I got to bail, where the scale? Help me weigh this...

Yo! We wan't ya'll to know...that this is the family, right?
And what we want everybody out there to do...on the dance floor...
is get ready...because noooowwwwww we gonna...

[CHORUS [x6] to fade out]

A Tribe Called Quest Lyrics

"Scenario (Remix)"

[Busta Rhymes:]

Here in 1992, we present the fabulous what's the Scenario remix
Where as there are 7 MCs.
Six which are in physical form, one which is in spiritual essence
And he goes by the name of, uh...HOOD!

[Hood:]

Check the vibe, punk that ass again, god
'F' it (SHIITT!!) ! I lay buckshots
Hood, madman, I rip up stages
Lay down your wages, I'm wild like Larry Davis
Extra, extra, pick up a clip. I'll tear that ass out the frame (HUH!)
And grab my dick(OH!)
By the beats that I bump, I kick and drop bombs
I'm rugged and deadly, so I shit on the petty
A musical badder bastard, I'm bad news
I'm crazy and clever, cut holes in crews
Death on the phono, my skills are dolo
You say 'oh no', you bitch ass homo
I bag up waste, electrifying, I'm primetime
I slaughter slime, I'm the greatest of all time
Sick ass brotha, nasty ass nigga
Pump slugs in your face and jump that ass in the river
Two tears in a bucket, fuck it, kick the can (SAY WHAT, SAY WHAT!!!)
I'm a bad, bad man

[Phife:]

Quick is how I flip from the tip of the lip
Punchin out hits like Gladys Knight and the Pips
The 5 foot assassin has just raided your area
Your booty rhymes are wack and that's the reason why I'm hearin ya (SO!)
Pull out the red carpet cuz I'm kickin this
Vanilla Ice platinum? That shit's ridiculous
Excuse my French, but profanity is all I knew
And to you other sellouts, oh yeah, 'F' you too
And let it be known, I'm not the one to step to
You better off callin D-Nice to your rescue
Freestyle fanatic, probably the best around
As for corny MCs, like Chuck D, I 'Shut 'Em Down'
The Artical Don of hip-hop and I won't stop
The 5 foot assassin has come to wreck 'nuff shop
So do like Michael Jackson and 'Remember the TIme'(DO YOU REMEMBER?)
Put on your dancin shoes or somethin cuz you sho' can't rhyme

[Milo:]

(BIG UP BIG UP!) Into new eternity
Next was said somethin that complies onto me
What does it take to check a technique (MANY STYLES, MANY STYLES!)
Hostile heat brings forth the energy
Milo in the dance is the new identity
One, two mic check, select for the ruffneck
At a 10 to 1 bet, I come CORRECT!
In my cyphers are blocks, I bring box to connect with knots
So I can grow dreadlocks
Maintain the rock DON'T STOP THE ROCK!!!)
Maintain the rock (DON'T STOP THE ROCK!!!)
Kick it right, then not, E. Watt said not
I put my mug up, so fair is fair
So C. Brown are we in the clear? (Yeah!)
C. Brown are we in the clear? (Yeah!)

[Charlie Brown:]

Makin moves y'all (MOVES Y'ALL!)
On and on and on (CHECKA, CHECK IT OUT!!!)
To the breaka, breakadawn (WHO'S THAT?!?)
Guess, one of the LONS and A Tribe Called Quest
(EAST COAST!) to West
Remixed mad kick more than Metallica
To all ends like the Battlestar Gallactica
Stampin, stompin, rompin Compton
(PEOPLE ALL OVER THE WORLD!!!) I'm promptin (STYLE!)
Pick a style, any style, Strong Isle
Representation, sensationalization
Scenario for the radio, BLS and KISS, so
(HERE WE GO, YO!) Yeah
Force, Main Source LP on the rise
In Living Color was seen through original eyes
And I'm out like shout, Ooh Ahh, Ooh Ahh
(OOH AHH, OOH AHH!) There it is baby par

[Dinco:]

Vine, limb on a limb, slim chim
P I am, there I am (THERE I AM!)
Don't run from a blim
Sight be be right, be polite for mice like a Mike
SEE SICK, SEE SYKE
And slip away and off to the Poconos
Spot bring the flows, might swing the fruity poles
Yamaha (YAY-HA-MAY!)
Let's split the funk, now it all spells (HEY!)
Enough, enough, misfitted I'm with it
If I did it, I would split it and probably shouldn't have quit
Cuz yo, my public status act Knight like Gladys
Take rest space tests and yo, I'm like the maddest

Male, not female, hail from Uniondale
Bounce the beat for the beat pole cuz beats are bein yelled
In the hallway always ringin with a HO!
This is my 2 times 9 on the Scenario

[Q-Tip:]

Check it out everybody, rhymes and mics
Black mens gettin hip, DOIN WHAT THEY LIKE!
Eight black brothas in the public eye
If you listen very close, then I'll tell you why
HOOD!, Phife, Milo, Dinco and C. Brown
Shaheed, myself and Busta Bust Brown
Will commence to rock (ROCK!), so bring on the flocks (FLOCKS!)
Interrogation for the knockin of the box
The boom-box ruler controls the medula
None come cooler, I win like Shula
So bust out the moves as you start to pursue her
Intensified mind, non blunt consumer
Tip will come booty (WELL, IT'S ONLY A RUMOR!)
The beat is so sick, that it starts brain tumors (TUMORS!)
Peace to Hood baby from the midnight crooner
Smoke him up later, if not, then sooner

[Busta Rhymes:]

Hey what we gon DO! in '92, even though we had FUN! in '91
Quick to turn my day, all things comin down
Run up on the new sound, leavin cracks in the ground
What's goin on my man (GOD DAMN!) and now my brain is hurtin
Busta, rhythm will hit 'em, then I get 'em
Rip on 'em, shit on 'em, hit on 'em, then I will sit on 'em
Open up your mouth if you want the food
Take in full, Flipmode, cuz I'm in the mood, Uh-heh, uh-heh
Yeah man, that's how it goes
Body drippin with blood comin out your nose
Give me a band-aid, what are you askin for? (MORE!)
All in your secret and pure
Adverse, they said, check it and I bust a new rap
Rap, Busta Rhymes, and bust this wicked rap
Yeah y'all in '92, I'm packin my ant spray (ANYWAY!)
Tickle it, Tribe Called Quest, Leaders of the New School
Mad brothas would still think...Rhow, Rhow, Rhow!!!
To my dragon, baby, stop whining
I see my influence still shining
More crazy in '92, uh oh, time to go, yo
That's the Scenario!

A Tribe Called Quest Lyrics

"Money Maker"

[all vocals by The Lone Ranger (Q-Tip)]

This is the Lone Ranger
If you're one of the fortuante to purchase this
A Tribe Called Quest, The Love Movement album
You are privliged to witness the first in a series of attempts
To rectify music from it's rectulness
Again, this is the Lone Ranger with his first installment
Money Maker
Listen

Colder in the winter
And hotter in the summer
Get on up
Get on up
Live your life right when you be corrupt
Volcano about to erupt
Get it up, Get it up, Get it up

Got the motivating joints that keep your ass jumping
Why when a nigga get on, you want something
Yo I got the posinious traps for little rats that fiend
In come the bedroom dream
Kick it at a slow or at a quick tempo
A ladies' disposition won't fuck with the mental
I'm built for conflicts with chicks with issues
I can lick the wounds bring ease with miss yous
Bringin' all the pain and makin' things shiver
The beat make you bite your nails and shit your liver
And we gonna give a encore performance
Haters seem doormant while my presence is enormous
Tarnations, I went gold
Streesed out with Faith but told cats to get a hold
Who is the nigga who's mic is stronger
Rock for an hour and he might rock longer
Kid you're perplexed, seems I better get to gongin'
The clean up man, hang you up like on and
Don't step in the arena, that's a stern warning
I'm the pops, I raise the sun like morning
Seems you're still sleeping, hey, stop the yawning
Open up the blinds and witness the dawning
The new application and I'm the applier
And I'm a set it off like fire
Yeah yeah, that's where it's at
Make it hot and phat and like Puff (I like that)
Now I got to urge you on to move ahead
Don't dread, 'cause I keep the stock in the shed

And if you need a boost, then I got the jump
Because we prone to make the party go bump bump bump bump bump bump bump
Where you is, if you the baby daddy then uplift the kids
Get back and plan, don't be on front flossin'
Incognito, you heard the name quite often
You dressed in black and been issued a coffin
I thrive on this plain, you off to the lost one
Like cayon pepper, it gets hot to the better
>From each little dash it get the whole smash
It's tasty too, so satisfy your whole pallid
Fake ID's are revoked, they're invalid
Infractin' bodies out on the dance floor
Is what I wanna see, not less but much more
The lyrics just spewed, he got good reviews
The kid made the news, how he left no clues
On how he just murderlized the whole damn jam
He just got results that's smiles and waved hands
The mission could never be accomplished, however
Until we bounce to a autumn where hot weather
And still we'll be able to rock and rip crowds
While other emcees say nuthin' and talk loud
While other emcees say nuthin' and talk loud
If you with the Tribe, chest out and be proud

Shake your money maker
Shake your money maker
Shake your money maker
Shake it, shake it

A Tribe Called Quest Lyrics

"Hot Sex"

[Chorus]

[Verse One: Phife]

Ayo who wanna pull on Phifer long time no hear from
Suckers walkin' around talking about they could get some
But that pop is non cypher, no can do
And if you think I'm a dope, then ask the other crew
And I proceed to let you know, exactly how to flow
I'm not Lawn Doctor so just step off with the hoe
Oops my mistake I didn't know you went with her
Should I run down the line of the all the kids that done hit her
Don't be bitter, I hear that honey resembles a critter
I heard she likes to do one-one my man John Ritter
But back to the subject you can't catch wreck
You must get respect, to earn respect
Suckers think they could herb me cuz know I where specks
You're full of jokes, but you your name ain't flex
I got the riches, the bitches, I'm large like a Huxtable
You think you're all that but you're girl's quite doable
Yeah, I'm tellin' you G, to back up off me
I'm not a mad cohort, but I'm not Mr. Softee
Rappin' is an art, coming straight from the heart
So forget the chart because the action can start

[Chorus]

[Verse Two: Q-Tip]

Where ya at? To all my peoples with the funk
I'm the undercover brother dump your hoe in the trunk
Save all the sad songs and the tearjerkers
Niggaz step up it's the lyrical worker
The poems that I create ain't in paper back books
The poems that I create are for hookers and the crooks
My mental is excelling cuz I dabble in the books
I'm not the one to front on, so suboops-suboops
Yo I gets the pickens, I'm such a damn Dickens
If you step to this then the plot just thickens
I'll run you around the track like a bunny and a dog
To me, your just another MC on the log
A link on the chain, fluid on the brain
I boast of hype lyrics, and yours are mardane
See I can't maintain, especially if you come back
I'm the lyrical master blaster, yeah I can do that
I can also do your girl, so leave the hoe at home
Cuz when I get done, I'll have her strung on bones

It's the no-joke pressure, that elevates my mind
Makes me pick up and go when it's time to drop a rhyme
My title is locked, the Abstract poetic
I'm in the idle mode but my energy's kinetic
So smooth and debonair, especially for the ear
Gotta keep my thing in gear cuz it's evident and clear
That I will rock, rock, rock *[fades away]*

[Chorus]

A Tribe Called Quest Lyrics

"Oh My God"

[Q-tip:]
Listen up everybody the bottom line
I'm a black intellect, but unrefined
with precision like a bullet, target bound
just livin like a hooker, the harlett sounds
now when I say the harlett, you know I mean the hott
V-A-V-A-Vader, the brothers in the spot
Jalick, Jalick ya wind up ya hit
Captain of the poets, I'm the #7 pick
lick, lick, lick boy on your backside
lick, lick, lick boy on your backside
listen to the fader, Shaheed lets it glide
Tip the earthly body
heavens on my side
even in Santo Domingo
Can I gotta Gringo
we got mikes when do we go
know a little nigga who can ryhme when you ask me
short, dark, and plus his voice is raspy
Phife Dawg
1 for the treble
2 for the bass
you know the style Tip
it's time to flip this
I like my beats hard like two day old shit
steady eatin booty M.C's like cheese Grits
My man Al B. Sure, he's in effect mode
used to have a crush on Dawn from En Vogue
it's not like honey dip would wanna get with me
but just in case I own more condoms then T.L.C.
now the formula is this Me, Tip, and Ali
for those who can't count it goes 1-2-3
The answer(scratch-Damn right I'm)Hiccup is how i be
brothers find it's hard to do but never me
some brothers try to dis my malik
you see'm ditchin me
now cure all the B.B. M.C.'s my shit is hittin
trainin gladiator, anti-hesitater
Shaheed push the fader from here to Granada
Mr. energetic, who me sound pathetic
when's the last time you heard a funky diabetic?
(I don't know man*[3x]*)
(I don't know*[2x]*)

[Chorus:]
(Oh My God yes, Oh my god *[x10]*)

[Q-Tip]
Complimentary it be
the theif of Poetry
I got a humdinger comin hook line and sinker
the TIMBO hits with the prints underground
TIMBO's on the toes, i like the way it's goin down
down like the lady of the evenin
when it goes in Toots just beleive the sin
cuz Queens is the county, Jamaica is the place
Take off your boots cuz you can't run the race

[Chorus:]
(Oh My God *[x14]*)

A Tribe Called Quest Lyrics

"Jazz (We've Got...)(Re-recording)"

[Q-Tip:]
Woo...Grand groove, grand groove *[2X]*

Rough, rough, rugged
Tough like a nugget
Listen to the Abstract Poetic, don't snub it
The Midnight Marauder is the hype beat arranger
Don't front on the lyrics or the two cuz it's danger
Hook you like a junkie, you'll flip like a monkey
To the openness of the rhythm, so proceed because I'm funky
I get down, down like a fly hooker's panties
Make you catch a spirit and motivate a fanny
I be the fly poet, rappers, they get jelly
Upset when I rock, cuz yo, they beats is smelly
See, I got it goin on like a Forbes tax return
Listenin to these lyrics when it's hot will make it burn
Baby burn, baby burn, up into the heavens
The skies up above, the one you think of
Is the highly regarded, hell of the people
Your mic and my mic? Come on, yo, no equal
So if ya wanna do it to yourself
That is to mess around with the jazz, then just blame yourself
Cuz you made your bed, so now you lay in it
That's your (shit) on the floor, then go and play in it
I refuse to catch a 'L' in a battle
Cuz yo, I got the jazz and I'll whup a rapper's (ass)
Into little next to nuthin
Test me if I'm frontin
I'm passin flyin colors cuz yo...

[Chorus Q-Tip:]
Who got the jazz? (We've got the jazz) *[7X]*
We've got the jazz
Come on
Come on, Phife

[Phife:]
No need for introductions cuz you know who I be (the Phife Dawg)
Yep, the one who loves to slaugher MCs
I got style, grace and razamatazz
I'm like my girl Patrice Rushen, yo
I add pizazz, now
Most people remember Phife from the Phife like smoothness
But now it's time to hit you with roughneck rudeness
I'm still vexed, fuming, gots to come raw
The first punk that tries to flex, I'll be cracking your jaw
I'll mold you, fold you, roll you up like a spliff

Don't ever try to test or else that (ass) will get whipped
I'm forever poppin junk, its like a fat invite
To any MC who wants to flex, yo, we can do this tonight
Gel up my posse up on Linden and 1-9-2
Pull up my brothas from Sayers Ave., the Brooklyn Zoo
All my crew up in Strong Island, so yo, don't sleep
Cuz it only takes a peek to watch that (ass) get beat
Brothas wanna play rough, but they can all get some
Wanna be hero, but you're a zero, that means you gets none
Don't ever try to step to a kid you can't get with
Why mess with a brotha that your girl once slept with?
I'm a negro, he's a negro, wanna be a negro too?
But beatin on a woman, is somethin that a puss would do
I love jazz, but that doesn't mean that I'm timid
Not really a gangsta rapper but I can swing it for a minute

[Q-Tip:]
Who got the jazz? (We've got the jazz) *[3X]*
Come on
Who got the jazz? (We've got the jazz) *[3X]*
Come on
I go...woo...grand groove, grand groove
Ooh...grand groove, grand groove
Check it out
We got the jazz y'all *[3X]*
[ad lib]

A Tribe Called Quest Lyrics

"One Two Shit"

(feat. Busta Rhymes)

[Intro: Q-Tip, Phife Dawg, Busta Rhymes]

One two, one two
One-wa-wa-one, one two one two *[3X]*
Yo it's the Q-Tip, you know I get down
Yes I rock to the rhythm of a funky sound
It go
One-wa-wa-one, one two one two *[2X]*

And it's the, Phife Dawg, and I do the same
And when it comes to rippin mics aiyyo it ain't no games
One-wa-wa-one, one two one two *[2X]*

Aiyyo you know it's Busta Rhymes, ev-ery time
Oh yes, I'm comin wicked with the new design
I'm sayin
One-wa-wa-one, one two one two *[2X]*

[Verse One: Q-Tip]

MC's ain't coming equipped with the rhymes
Don't do the crime if you can't do the time
The time is eternal when you play with the miser
Soul is in my body, and the health make me wiser
The tantalizing wordplay yeah that's the joint
Sometimes I have to cuss just to prove my damn point
Brothers need to come, with better, compositions
I write, and recite, to make, good position
In this, rap game here, we en-gineer
Stabbin up the jam yeah son shit's clear
And I be kickin rhymes in my own damn way
Beatin niggaz to the punch like Sugar Ray
Got the cool-ass style, that's cooler than the cool
My lyrics is the bullet and the mic is the tool
Peace to C-Seventy-Three, and C-Seventy-Fo'
Do a little somethin when I'm out on tour
Comin thru like narcotics for the antibiotics
Flappin shorty's stockings to the Space-like Sprockets
What you really need to do is just boogie your ass
It's not gassed, we got to make the good times last
Let the good times roll, cuz we in control
Take you out on your high less you payin a toll
Let the good times roll, let the good times toll
Take you out on your high less you payin a toll

[Verse Two: Phife Dawg]

Question
Why is that, MC's be wack
And major labels wanna sound like crap
Aiyyo Funk Dat!
Word to life I'm comin rugged
Cuz once you add the hip to the hop kid, it equals out to love
If the beat's fat I use it, some wack shit, I lose it
Refuse it, how could you chose it, it stinks Renuse it
Put down the mic kid, cuz you gets no dap
How long did it take for you to see you can't rap
The name is Phife Dawg, and I got nuff style
It doesn't take long for me to get buckwild
So bust what I'm swingin what I'm swingin when I swing
I rap when I rap cuz I never wanna sing
Go ask the last MC what happened when he said battle
I bust his ass in Cleveland now he's Sleepless in Seattle
Rude bwoy official comin with the ill grammar
Comin back on kids, like Joey Montana
We be the three MC's to make your mind go batty
Mad play, on WKRP in Cincinatti
So lord send a hon, if ya kyant send a han sen a man
An if ya kyan sen a man, come yaself
Cuz all deez bitin MC's, lawd dem somethin else
See I kick the styles that'll make ya ass melt
Money on my mind so never mind a trick
New York is the town and the team is the Knicks
World's greatest five footer rippin parties apart
Here comes Shaheed with the big green shark
Never had to rhyme about feelin what with lead
NEVER MIND DAT MON HERE COME DE DREAD

[Verse Three: Busta Rhymes]

We comin farrrr farrrr farrrr
Busta Rhymes is comin farrrr farrr farr
ya know ya hear me Star!
Bet your bottom dollah
Right after this jam about one million one two niggaz go follow
Whether it be to-day or to-morrow
Niggaz be collaboratin sickening
you beat them like they father
Ohhhhh shit check out what I saying
Ah-hah ah-hah ohhhhh ah-hah ah-hah
You know my niggaz don't be playing
Once upon a mah-hah-hacking time
I received the opportuni-ties to represent my first rhymes
To define, lyrical sensations
Black masons blowin up the spot
Just to represent the Nations
Three dimensions, tryclops, Mr. Busta Rhymes three eyes
Fat like a burger and fries
Mama-so-mama-saa-mamma-ma-ko-sah

Go back to the country to go check my grandmama
Eeeyah!! Bring it to the table at the meetings
Gathering large receivings delivering intellectual ass beatings
As I carry on with my proceedings
Greetings!! Watch a nigga debut on premier movie screenings
But before I be face to face with my eternal resting place
I hope you find civilized every soul and every race
Sit dog sit!
Busta Rhymes forever on that ultrasonic shit!

A TRIBE CALLED QUEST
We got it from Here....
Thank You 4 Your Service

A Tribe Called Quest Lyrics

"The Space Program"

(feat. Vincent Price)

I'mma deal with a bigger insult, man
The heat, the heat, the heat, the heat
It's comin' down hard
We've got to get our shit together

It's time to go left and not right
Gotta get it together forever
Gotta get it together for brothers
Gotta get it together for sisters
For mothers and fathers and dead niggas
For non-conformists, one hitter quitters
For Tyson types and Che figures
Let's get it together, come on let's make it
Gotta make it to make it, to make it, to make it, to make it
To make something happen, to make something happen
To make something happen, let's make something happen

Word to Phifer
Gonna bring it to the overlord, drinkin' Cisco
Chilling with the gold microphone cords
And we grip our balls every time we stuntin' on tour
'Cause we never bore, responding to the ready crowd's roar
And promoters try to hit us with the art of war
We about our business, we not quitters
Not bullshitters, we deliver—we go-get it
Don't be bitter 'cause we not just niggas
Jarobi, my fiber wove into different cloth
Ain't nothing forbidden, this nigga get his written off
Hardest spit in the city y'all niggas spitting kitten soft
Confused and amazed, shook up with your brain missing lost
They planning for our future
None of our people involved
Pouring Henny and Smirnoff to get it cracking off
Cracking off a Smirnoff to quickly turn to Molotov
Molotov the spaceship doors before that bitch is taking off
It always seems the poorest persons
Are people forsaken, dawg
No Washingtons, Jeffersons, Jacksons
On the captain's log
They'd rather lead us to the grayest water poison deadly smog
Mass un-blackening, it's happening, you feel it y'all?
Rather see we in a three-by-three structure with many bars
Leave us where we are so they can play among the stars
They taking off to Mars, got the space vessels overflowing
What, you think they want us there? All us niggas not going
Reputation ain't glowing, reparations ain't flowing

If you find yourself stuck in a creek, you better start rowing
Used to see the TV screen as the place to land my dream in
And the car stereo where they would promote the show
Optimistic little brother with a hope you know

(Move on to the stars)
There ain't a space program for niggas
Yeah, you stuck here, nigga
(Move on to the stars)
There ain't a space program for niggas
Yeah, you stuck here nigga
(Move on to the stars)
There ain't a space program for niggas
Yeah, you stuck here, nigga
(Move on to the stars)
There ain't a space program for niggas
Yeah, you stuck, stuck, stuck
(Move on to the stars)

Sit and wonder sometimes, I read the paper every day
All these happenings is cycular, just happen different ways
And the president's refined, in her wing she's confined
With about thirty Percocets and five bottles of wine
Carolina nothing finer than a Black woman who climbs
To the top of the State building claiming that that flag is mine
Now, people on top of people, feels like we can't breathe
Put so much in this muthafucka, feel like we shouldn't leave
Put it on TV, put it in movies, put it in our face
These notions and ideas and citizens live in space
I chuckle just like all of y'all, absurdity, after all
Takes money to get it running and money for trees to fall
Imagine for one second all the people are colored, please
Imagine for one second all the people in poverty
No matter the skin tone, culture or time zone
Think the ones who got it
Would even think to throw you a bone?
Moved you out your neighbourhood, did they find you a home?
Nah cypher, probably no place to
Imagine if this shit was really talkin' about space, dude
Imagine if this shit was really talkin' about space, dude
Imagine if this shit was really talkin' about space, dude

Time to go left and not right
Gotta get it together forever
Gotta get it together for brothers
Gotta get it together for sisters
For mothers and fathers and dead niggas
For non-conformers, won't hear the quitters
For Tyson types and Che figures
Let's make somethin' happen, let's make somethin' happen
Let's make somethin' happen, let's make somethin' happen
Gotta get it together for brothers
Gotta get it together for sisters

For mothers and fathers and dead niggas
For non-conformists, one-hitter quitters
For Tyson types and Che figures
Make make make
Let's make somethin' happen, let's make somethin' happen
Let's make somethin' happen, let's make somethin' happen
Gotta get it together forever
Gotta get it together for brothers
Gotta get it together for sisters
For mothers and fathers and dead niggas
For non-conformists, one-hitter quitters
For Tyson types and Che figures
Let's make somethin' happen, let's make somethin' happen
Gotta get it together for brothers
Gotta get it together for sisters
For mothers and fathers and dead niggas
For non-conformists, one-hitter quitters
For Tyson types and Che figures
Make make make
Let's make somethin' happen, let's make somethin' happen
Let's make somethin' happen, let's make somethin' happen
Gotta get it together forever
Gotta get it together for brothers
Gotta get it together for sisters
For mothers and fathers and dead niggas
For non-conformists, one-hitter quitters
For Tyson types and Che figures
Let's make somethin' happen, let's make somethin' happen
Gotta get it together for brothers
Gotta get it together for sisters
For mothers and fathers and dead niggas
For non-conformists, one-hitter quitters
For Tyson types and Che figures
Make, make, make
Let's make somethin' happen, let's make somethin' happen
Let's make somethin' happen, let's make somethin' happen

The danger must be growing
For the rowers keep on rowing
And they're certainly not showing
Any signs that they are slowing!
"We're there!"
"Where?"
"Here!"
A small step for mankind
But a giant step for us
Oompa, loompa, doopa dee doo
I've got another puzzle for you

A Tribe Called Quest Lyrics

"We The People"

(feat. Consequence)

We don't believe you 'cause we the people
Are still here in the rear, ayo, we don't need you
You in the killing-off-good-young-nigga mood
When we get hungry we eat the same fucking food
The ramen noodle
Your simple voodoo is so maniacal, we're liable to pull a juju
The irony is that this bad bitch in my lap
She don't love me, she make money, she don't study that
She gon' give it to me, ain't gon' tell me run it back
She gon' take the brain to wetter plains, she spit on that
The doors have signs with, don't try to rhyme with
VH1 has a show that you can waste your time with
Guilty pleasures take the edge off reality
And for a salary I'd probably do that shit sporadically
The OG Gucci boots are smitten with iguanas
The IRS piranha see a nigga gettin' commas
Niggas in the hood living in a fishbowl
Gentrify here, now it's not a shit hole
Trendsetter, I know, my shit's cold
Ain't settling because I ain't so bold but ay

All you Black folks, you must go
All you Mexicans, you must go
And all you poor folks, you must go
Muslims and gays, boy, we hate your ways
So all you bad folks, you must go

The fog and the smog of news media that logs
False narratives of Gods that came up against the odds
We're not just nigga rappers with the bars
It's kismet that we're cosmic with the stars

You bastards overlooking street art
Better yet, street smarts but you keep us off the charts
So motherfuck your numbers and your statisticians
Fuck y'all know about true competition?
That's like a AL pitcher on deck talking about he hittin'
The only one who's hitting are the ones that's currently spittin'
We got your missy smitten rubbing on her little kitten
Dreaming of a world that's equal for women with no division
Boy, I tell you that's vision
Like Tony Romo when he hitting Witten
The Tribe be the best in they division
Shaheed Muhammad cut it with precision
Who can come back years later, still hit the shot?
Still them tryna move we off the fucking block

Babylon, bloodclot
Two pon yuh headtop

All you Black folks, you must go
All you Mexicans, you must go
And all you poor folks, you must go
Muslims and gays, boy, we hate your ways
So all you bad folks, you must go

A Tribe Called Quest Lyrics

"Whateva Will Be"

(feat. Consequence)

Girl, this motherfucker's got rhythm

So am I 'posed to be dead or doin' life in prison?
Just another dummy caught up in the system
Unruly hooligan who belongs in Spofford
Versus gettin' that degree at Stanford or Harvard
And by my work ethic, the way I speak
Yo, should it be mentally weak versus bein' Malik
Yo, should I be trapped in the trap? Would you prefer that?
Fourth grade mean level but he knows how to rap
Are you amused by our struggles? The English that's broken?
The weed that I'm smokin'? The guns that I'm totin'?
The drugs that I'm sellin'? No need for improvement
Fuck you and who you think I should be, forward movement

Melanin is shrouded in complexity
Brain charge shocking like 'lectricity
Mouth translate happens organically
The media relates to what it thinks it sees
Judging steps in shoes from a path they never walked
Shot down in a blaze over phrases, how they talk
Dark skin, walk with a bop, a trade feelin'
I'm chillin', feelin' down at a DNA crime buildin'
Supplement the youth, hypersexualizing women
They ain't got the strong enough hold, so they built a prison
Pumping false religion to all of these niggas' systems
Every voice devoid of the truth
Come on, listen

Look at this, look at this
Whatever will be will be
Like a billionaire investin' in a nigga's dreams
Certainly a head scratcher, like Pac and Big's killas capture
Or a women with the wisdom who's leadin' the way
The rarity is in the rear, but never today
Man, picture a PD lettin' good records play
On the strength of what it is, not the finesse of your biz
And your lady calls you dirty, her dirts under rugs
You'll find out only if she tells you, take her kiss and hug, cuz
In the answer for cancer in a prodigious kid's mind
Yes, the government will for learning is feed for everyone
And from that lie, your leaders will rise in the eyes
Of despair and adversity in some universal sense will be true

Everybody runnin' when they see the storm's comin'
But whatever's gonna be will be

Everybody runnin' when they see the storm's comin'
But whatever's gonna be will be
Some will dash to the mountain, some will crawl
And the weakest amongst them, they will fall
But the strongest in fate, they will stand tall
Everybody runnin' when they see the storm's comin'
But whatever's gonna be will be

[Consequence:]
I just wanna feel as liberated as lions in Liberia
'Cause recently my heart turned cold as Siberia
'Cause everywhere I go, bein' cold is the criteria
Let's see how well you know all your Tribe trivia
Green and the white, we servin' that Nigeria
North side of Queens, one-nine-two is the area
This is for my dawgs from Shih Tzus to Terriers
Fuck it, it's showtime, Tip, make sure they hearin' ya

A Tribe Called Quest Lyrics

"Solid Wall Of Sound"

(feat. Busta Rhymes & Elton John)

[Elton John, A Tribe Called Quest:]
Gonna hear electric music (What you gon' hear?)
Gonna hear electric music (What you gon' hear?)
Gonna hear electric music, solid walls of sound
Solid walls of sound (Solid wall of sound, solid wall of sound)
Solid walls of sound (Solid wall of sound, solid wall of sound)
Solid walls of sound (Pushing breaking ground, pushing breaking sound)
Solid walls of sound (Solid wall of sound, solid wall of sound)
Solid walls of sound (Tip and Phife in town, Tip and Phife in town)
Solid walls of sound (Solid wall of sound, solid wall of sound)
Solid walls of sound (Solid wall of sound, pushing breaking ground)
Solid walls of sound (Solid wall of sound, solid wall of sound)
Solid walls of sound (Jedi, Ali, Phifey, Tip)
Solid walls of sound (Jedi, Ali, Phifey, Tip)
Solid walls of sound (Jedi, Ali, Phifey, Tip)
Solid walls of sound (Jedi, Phifey, Phifey)

[Phife:]
Yo, ay piece of Q, massive man crew
Bars to any beat, we beat the beat for true
Massive MC's, dem smell the pussy stew
Don't let your mother, my yout

[Q-Tip:]
I shoulda spoke up when I'm in the mode of
Leave that to me, el-Hajj Malik
The man with a plan who went for it all
Like Marauders on a mission when we killin' dancehalls

[Phife:]
Hmm, sucka boi, Trini man
Ride out when wicked in mi hand
Left all of mi fan, one, two, three dem all of di gang

[Busta Rhymes:]
Ova couple pound a weed, and a cup of donovan
Hmm, bruk pocket, find another plan

[Busta Rhymes, Q-Tip & Phife:]
Yeah, cyan dun, push up on a man
And big up the sound man
Itty bitty DJ walk

[Busta Rhymes & Phife:]
Ayo most of them ah talk
They don't want no prob, they don't want no etch a outline

Inna bloodclaat chalk

[Q-Tip:]
Early in the night when you bring out the music
With the pipers and the band kill a sound man music
Live and direct when it all goes down

[Busta Rhymes:]
Like an idiot bwoy yuh nuh wanna fuck round

[Phife:]
Big tune make the world go round

[Busta Rhymes:]
Make way fi di soundboy crowd

[Phife:]
Dem fi know we di wickedest sound

[Busta Rhymes:]
So now your face make a soundboy frown

[Elton John:]
Sound
Solid wall of sound, solid wall of sound
Solid wall of sound, solid wall of sound
Solid wall of sound, solid wall of sound
Solid wall of sound, solid wall of sound
Solid wall of sound

Sound checking, I know your ass is shaking the room
In just a few hours you're gonna feel the burn
All of the goons are checking my guns at the door
The solid wall of sound is here on tour
It's gonna get loud
So no phones aloud
It's gonna get loud
So no phones aloud

A Tribe Called Quest Lyrics

"Dis Generation"

(feat. Busta Rhymes)

Handle rocks with the capital G, ball on the beat
Status, Chris Paul and John Wall in the league
Grabbin' mics till the knuckles would bleed
'Cause I believe
The potent that I'm quoting will have you geeked like speed
If rationale is naturale or a weave
It's all edges and peas
Settin' press, we on a permanent steeze
I'm in a world where my princess is Leia
And she's feeling my Vader
And my lure grows greater and greater
Chem trails, droppin' poisonous vapors
Have you shaking like Gator
Been trill, nigga, process the data
Blu-ray, wave file, or a Beta, I'll DVR it for later
Kappo Masa with a G to my waiter
You can't define us, XY us, or Z us
You generational elitists
Have your chi in virtual think pieces
See, these written words are poetical science
Brain's defiant, thoughts heavy, baby
They're a major appliance
Leave a dent when drop with the flyness, fluent giant
Dude's nice, he tight, screwed in with some pliers
Cool with some buyers
Yeah, nigga, cool with some growers
Never no tattletales, only I don't knowers
We a show me generation, show us what you gon' show us
So listen, mami, see we could collude with a boing
Mouthpiece like Goines, with a jubilant noise
Dudes rude and as useless as coins, shoot 'em boys
Versed in, rehearsed in the soothing of loins
Talk to Joey, Earl, Kendrick, and Cole, gatekeepers of flow
They are extensions of instinctual soul
It's the highest in commodity grade
And you could get it today

Dis generation, dis generation, dis generation
Dis generation, dis generation, dis generation
Rules di nation

One hitting reading pages of Poe
Telly is low, cuddle bunny ready to go
Day of the dead
Bury all the zombies instead
And it's just your aftermath, Busta cuttin' your dreads

Bruce Leein' niggas, while you niggas UFC
Smoke tree on niggas, sizzle out your USB
Surge pricing on these Ubers, I'mma get me a cab
Yo, where Jarobi at? Imbibing on impeccable grass
I be in NYC waiting for that law to pass
Pass shit, been waiting for a Jet's title since last
Richard Todd, Todd Bowles, gang green on that ass
Magic Mike on the mic, David Blain, Douglass Henning
In the church of Busta Rhymes, it's my sermon you're getting
Horizontal spittin', I'm the exorcist of your writtens
Don't interrupt me, nigga, sorry, that's a sin unforgiven
Like how we be skipping on beats like cooking crack in the kitchen
B-b-b-b-b-b-but wait
Just spit the package, dry it, bag up the wet
This mad city's not a game, easy, quiet on set, Phife
Student of the past trailblazing a daze
Not acknowledging a trend or swept up in a phase
We still the highest of commodity grade
And you could get it, get it, get it, get it today

Dis generation, dis generation, dis generation
Dis generation, dis generation, dis generation
Rules di nation

This is our generation, generation, uh huh, yeah
This our generation, generation, uh huh
This our generation, generation, uh huh

A Tribe Called Quest Lyrics

"Kids..."

(feat. André 3000)

[André 3000:]
I ain't even gon' lie, I was probably high
Just forgot to call you back, simple as that
I ain't no almanac, so lick my dictionary
I might just call a cab 'cause I dig canary
Yellow accents on a dark bitch
I met her back when she kept all her carpet
I'm well aware all that shit is fantasy
I double dare y'all to fuck your plan B
That's demeanor, momma's mannerisms
That mean, don't mean to get vulgar, but it's some
Hoes in this bitch like a box of donuts
It's cold out in this bitch, standing on the corner
Condolences to niggas that got erased
I pour out some liquor on a cop's grave
Mmm, digital church bells
Ringin' 'cross the street, sure work well

[André 3000 & (Q-Tip):]
(Kids) Kids, don't you know how all this shit is fantasy?
(Kids) Kids, don't you know how all this shit is fantasy?
(Kids) Kids, don't you know how all this shit is fantasy?
(Kids) For real (For real?) For real (For real)
Kids, don't you know how all this shit is fantasy?
(Kids) Kids, don't you know how all this shit is fantasy?
(Kids) Kids, don't you know how all this shit is fantasy?
(Kids) For real (For real?) For real (For real)

[Q-Tip:]
I don't wanna get up now, I don't wanna go to school
I don't wanna be the best, don't wanna follow rules
Mom, I think you fuckin' lied to me
Three stacks said all this shit is fantasy
It's my time, gon' put a little life to it
If life's a obstacle then I'mma bike through it
I see it like a kiddie on the carousel
If I 'url while I go around, what the hell
And that went well, so I'm compelled
To have visions of getting chicken while my friends get jel
My young nigga motto was, "Fuck it, I'm already grown"
And I dream of when I'm sixteen, I'm out my home
That petty though, 'cause my mama boyfriend dough
It's kinda long like this old head hustle, yo
He cognizant of a nigga ride and die
I see us getting money through my green eyes

[Andre 3000 & (Q-Tip):]
(Kids) Kids, don't you know how all this shit is fantasy?
(Kids) Kids, don't you know how all this shit is fantasy?
(Kids) kids, don't you know how all this shit is fantasy?
(Kids) For real (For real?) For real (For real)

[André 3000 & Q-Tip:]
Yeah, all the kids, all the what, uh
Yeah, all the badass kids, uh
Kids, say I'm the shit
I'm Chick-fil-A nuggets, McDonald's french fries
The spicy Popeye's and Red Lobster biscuits
And girls scout thin mints
Pardon my penmanship, but oh shit
Feel like I'm hungry now again
And I can't do nothing about it because my teeth are all rotted
And my mom and my pop, they just grin
And empathize with me 'cause they were little like Pygmies
But too bad they can't get back they 'member whens
Them grown-up stories don't work
In the court of the kiddies', the judgement is in
And while y'all doing all y'all your bids, y'all reminisce as kids
Fuck it, kids, the grown-ups won't own up
They stood on the corner
Like you once upon a, time
And probably felt like a loner
And smelled like a stoner, and snuck to Daytona
So when they questioning you 'bout who or who you ain't boning
Complaining that you always moaning
Never saying good morning
Storming out my house
And slamming doors like you paying bills
They been through it too, though
They were kids like you, though
But what if they knew though
And hit you with the cheat code
To a game you just start playing, no extra man
Leave you reckless on the court
With no high percentage shot
Just a bunch of, "You got 'em, nigga, just give it what you got"
Yeah, it look a little different on a yacht
But ain't gon' lie, I miss kayaking
I love the young niggas, and they do too, they just be acting
Like a bunch of retired tired thespians, a bit too salty
Shit, their blood pressure high, why?
They don't play no more, probably

[André 3000:]
(Kids) Kids, don't you know how all this shit is fantasy?
(Kids) Kids, don't you know how all this shit is fantasy?
(Kids) Kids, don't you know how all this shit is fantasy?
(Kids) Kids, don't you know how all this shit is fantasy?
(Kids) Kids, don't you know how all this shit is fantasy?

(Kids) Kids, don't you know how all this shit is fantasy?
(Kids) Kids, don't you know how all this shit is fantasy?
(Kids) Kids, don't you know how all this shit is fantasy?
(Kids) Kids, don't you know how all this shit is fantasy?
(Kids) Kids, don't you know how all this shit is fantasy?
(Kids) Kids, don't you know how all this shit is fantasy?
(Kids) Kids, don't you know how all this shit is fantasy?
(Kids) Kids, don't you know how all this shit is fantasy?
(Kids) Kids, don't you know how all this shit is fantasy?

A Tribe Called Quest Lyrics

"Melatonin"

I said I really dream in color, but (they don't know)
And every brother ain't a brother, but (they don't know)
Pop melatonin like they Swedish Fish (they don't know)
To give her everything's my dying wish (they don't know)
Roleplay, she plays the mannequin (they don't know)
Raising my hand, teacher says "Not again" (they don't know)
The sun is up, but I feel down again (they don't know)
On just one hand, I can count all my friends (they don't know)

The understudy for the star, the show must go on
I'm a beast on a leash, I'm towed from the lawn
Another notch in my belt, the food's getting scarce
Another notch in my belt, she shakes up the stairs
Drink liquid confidence to kill the czar defense
Get rid of this tense, it makes life make sense
'Cause I come off the fence and break through defense
Anxiety is on the ropes and it's gettin' intense

Population gettin' tired now (they don't know)
Everybody wants to spire now (they don't know)
Racist emails fire out (they don't know)
We did it in the dark, it's coming out (they don't know)
The world is crazy and I cannot sleep, but (they don't know)
The melatonin good enough to eat, but (they don't know)
I read the papers so that I can see what (they don't know)
I rather stay indoors and make a beat, but (they don't know)

My mother said a lotta lives were shooting
Her Bible was like her toolie
PZ-headed and unruly, I made her think she got to me
Follow in the trail of reefer and niggas talking through speakers
Fattest laces through my sneakers, and rap is for ghetto preachers
Thought I had it so I tried it, for so long I would just hide it
Then I made the crowds say "Oh," smoking more, get excited
I was hooked, I couldn't shake it, the more I got, I would take it
Couldn't sleep, couldn't eat, but this life, I would not forsake it

I said I really dream in color, now (they don't know)
And every brother ain't a brother, now (they don't know)
Pop melatonin like they Swedish Fish (they don't know)
To give her everything's my dying wish (they don't know)

So many thoughts in my mind making it very hard to unwind
Guess I should take one, just one
So many thoughts in my mind making it very hard to unwind
Guess I should take one, just one
So many thoughts in my mind making it very hard to unwind

Guess I should take one, just one
So many thoughts in my mind making it very hard to unwind
Guess I should take one, just one

This one for good girls that all gone bad (just one)
This one, I'll take it when I feel sad (just one, yeah)
This one, I'll take it to make me strong (just one)
This one, I'll take it so that I'll live long (just one, yeah)
This one, I'll take it to make me smile (just one)
This one, I'll take it to make life worthwhile (just one)
This one and that one and those and these (just one)
I just want to sleep, I want to be at ease (just one)

A Tribe Called Quest Lyrics

"Enough!!"

Is this enough?
Is this enough?
Is this enough?
Is this enough?

Yo, I'm savant with the game
Go on, tell 'robi yo' name
Provide words that's heard, setting your body aflame
Ooh, you off the chain, I'm handling your terrain, your valley
Has me standing down to the follicle
'Bout half of this bottle full of reasons for us to ball
Calming violations and travel vacations, ma
Place on your fancy bra, go take them vestments off
Skin and my lips involved with licking a place that's on
Jedi

Is this enough?
Is this enough love that I give to you?
Is this enough?
Is this enough time that I give to you?
Is this enough?
Tell me that you feel the same way I do
Is this enough?
Enough, enough, enough

Is it an issue if I make you nut?
But there's no quality time 'cause I forever grind
This is not an excuse, I just wanna get loose
That's some nigga jargon, girl, you're making me harden
To the stone and granite statue, I'm prone to get at you
It's hard to break your defense, I guess I have to leap fence
And scale wall and break fall on a tree right by your window
Reward me for my efforts by rolling this indo
As I nibble your neck naughtily, sex is a big part of me
Agencies want to audit me, searches in for sodomy
My thrust bust artery, I know you're on to me
Just wanna have shenanigan, don't wanna make you mad again
So focus on the flattery you feel when I fring it
Acknowledge that I got it and you love it when I bring it
Dirty talk loud but they saying, "Fuck this shit"
At the queen's request, if it's gotta be, it's gotta be

Is this enough?
Is this enough love that I give to you?
Is this enough?
Is this enough time that I give to you?
Is this enough?

Tell me that you feel the same way I do
Is this enough?
Is this enough?
Is this enough love that I give to you?
Is this enough?
Is this enough time that I give to you?
Is this enough?
Tell me that you feel the same way I do
Is this enough?
Is this enough?

A Tribe Called Quest Lyrics

"Mobius"

(feat. Busta Rhymes & Consequence)

[Consequence:]
I break bread, ribs, hundred dollar bills
Dream about Bugattis and other four-wheels
They say Illuminati and other ordeals
Is how my lawyer got me to avoid a raw deal
And now it's more real than it is for any other star
And that's enough to have you tearing up the mini-bar
I should probably get awards when the Emmys are
For how I deal with the path like Remy Ma
I get in the car like a sniper's on the roof now
But don't confuse how you see me, have to move now
I got bars like the cypher's in the booth now
Ooo, child, things are gonna get easier
'Long as they get my page right on Wikipedia
'Long as they say my name right in the media
If you don't, that's a sin like Cincinnati
'Cause ever since I had the polo suit at the Grammys
I been spittin' at the camera like Trick Daddy
So swag, he could have broke up with IG
I ain't surprised that they broke up on IG
I got the game on IV
Might as well have a live feed
Keep a fresh cut from Aunt B
So I always match the picture in my ID
They packin' Dub C and run with MAC 10
I was still a baby Similac then
And what the crack era did to black men
It had to be an error if you had a Cadillac then

[Busta Rhymes:]
How I rock mine, I throw it up
Makin' sure that you niggas all are on the same page
Powerful force, you better look both ways
Fuck that, I'm chokin' niggas, it's goin' down
I'm from a different cloth, we the oracles of the sound
Skip town, hit 'em with impeccable pound
Lost, found, the way I flood it, niggas gon' drown
Rip shit...oh, wait, wait, wait, wait...
I gotta do it again, I gotta do it again
You already know the script, roundhouse kick
She lookin' at me, lickin' her lip
Put my arm around her like a bowl of chip with the dip
With your bitch, what the fuck, niggas erupt
I got the half moon clip, that's banana, a good planner
A new anger like a larger Bruce Banner, out the house
Nigga, if you open your mouth

Damn, nigga, if you open you mouth
Fuck the press, I'm leavin' every room in a mess
Like herds of bulls with they aprons on and bakin' soda
Keep it movin', keep the convo short and bring a case of Henny
House of Pain, I control many
House of lies, where niggas go run, hide
Peep the way the scribe conflict with they real lives
(Nigga) Phonetic shit, we go bizarre
Bad news for niggas as I go emphatical, radical
Mention no animals, roamin' like a czar
Every time I blah for the record, the shit splatter
The whole data, no bullshit, the boom bapper
I pull the gat up, whip the ship, come to bat up
When I pull up too niggas even your momma goin' scatter

A Tribe Called Quest Lyrics

"Black Spasmodic"

(feat. Consequence)

Yo, y'all ready?
Yo, Phife, you ready?
Cons, you got that part right?
I dunno but it don't matter who choose to set it off
ATCQ, no doubt my niggas is boss
Little half-ass rappers, y'all pissin' me off
Time to dead 'em all off, yo, no matter the cause

[Consequence:]
(Black) They don't make thugs of this calibre
(Spasmodic) Who kept up the buzz the whole calendar
(Black) Used to sell drugs out the Challenger
(Spasmodic) Used to keep guns with the silencers
(Black) They don't make thugs of this calibre
(Spasmodic) Who kept up a buzz the whole calendar
(Black) Used to sell drugs out the Challenger
(Spasmodic) Now look what he does to any challenger

Now who want it with the Trini gladiator?
The finger to you haters, you biters not innovators
I take zero for granted, I honors my gift
Champion pen game, plus I'm freestyle equipped
You clowns be bum sauce, speak my name, it's curtains
Hamdulillāh my crew's back to workin'
Trash rap the dead pussy, kill the turban
Fuck boys, sit down, shit can only get worsen
How do you touch mic with flows uncertain?
Speak game tribal, that flow ain't workin'
Folks doin' items, dem vex and cursin'
Fuck made me wanna see these niggas in person
Third song in, muthafuckas dispersin'
Only to realize Gana loose in the buildin'
Big tune this for man, woman and children
Back on my bullshit, Busta bust then we kill them

[Consequence:]
(Black) They don't make thugs of this calibre
(Spasmodic) Who kept up the buzz the whole calendar
(Black) Used to sell drugs out the Challenger
(Spasmodic) Used to keep guns with the silencers

My nigga's spirit be talkin' to me, let me explain
Not through evil mediums, tarot cards or Ouija games
But through mixing chords and boards and even drum machines
He be saying, "Nigga fuck awards, keep reppin' Queens
And don't be taking slack from these non-rapping niggas, man

That intellectual shit you spit, you better change your plan
Especially when you see them at the lobby of a label
And they don't seem able to outstretch they hands and admit they fans
You better flame 'em in the J's that they standing in
Ostracize they memory for not remembering
The articles reduce their body parts to particles
And dust the Dead Sea with their cremated molecules
I'm leaving, but nigga you still got the work to do
I expect the best from you, I'm watching from my heaven view
Don't disappoint me, make sure that they anoint me
As the blue ribbon pedigree, the best of show five-foot-three
Speak of the legacy for short people around the world
Napoleonic bionic people who cause the world to twirl
Rip every stage with grace, look right dead in they face
Live the Tribe principle of havin' impeccable taste
Enjoy that breath like that one was your last one left
If you don't believe me, Tip, there's truly life after death
So refer to the Biggie covers and shoutout my Trini brothers
And please check in on my mother," Malik Izaak, call me shorty

[Consequence:]
(Black) They don't make thugs of this calibre
(Spasmodic) Who kept up the buzz the whole calendar
(Black) Used to sell drugs out the Challenger

A Tribe Called Quest Lyrics

"The Killing Season"

(feat. Consequence, Kanye West, & Talib Kweli)

[Talib Kweli:]
Winter in America, never knew white Christmas
'Cause elves said the squares is always making my shit list
Spring is in the air and all the flowers in bloom
The powers that be wanna devour the movement
Tears disappear when they fall in the summer rain
Bleedin' through this mic, but they call it entertainment
Running across stages is a drug
It's like a blunt that we crumple in raw papers
Call it the Lord's name cause we taking it in our veins
Like the feeding us intravenous
It's war and we fighting for inches and millimetres
Try to stall the progress by killing off all the leaders
If we don't give them martyrs no more, they can't defeat us
This lack of justice got us disgusted, look at our faces
All these soldiers hate but I saw military training
The force flags fly at a half mast this morning
Take a bow, this might be your last performance

[Kanye West:]
They sold ya, sold ya, sold ya *[x8]*

[Consequence:]
The old lady saw us on the lawn with the Henny
Turn the pool party into the one from McKinney
Might've been racist like the waitresses up at Denny's
So we had twelve gauges, automatics, and semis
Now they wanna condemn me for my freedom of speech
'Cause I see things in black and white like Lisa and Screech
Presidents get impeached and others fill in the throne
But veterans don't get the benefit of feelin' at home
So maybe those projections out at Silicon
Over dro they getting injections made of silicone
I swear it's the killing season
'Cause killin' is still in season yea

[Jarobi:]
Louder than a three pound, voices screaming at ya boo
It must be killing season, on the menu, strange fruit
Whose juices fill the progress of this here, very nation
Whose states has grown bitter, through justice expiration
These fruitful trees are rooted in bloody soil and torment
Things haven't really changed, been dormant for the moment
Marks and scars, we own it, only makes for tougher skin
Helps us actualize the actual greatness held within
Been on the wrong team so much, can't recognise a win

Seems like my only crime is having melanin
Connection to the sun so strong the relationship is lusted for
Causes meant to suffocate, I can't breathe no more
Settle the score sadly, need an abacus to tally
Through all the peaks and valleys, yo, I recognize them sadly
Black soul old enough, inner city holdin' up
Watch me get all my goons, watch us get soldiered up

[Kanye West:]
They sold ya, sold ya, sold ya *[x8]*

A Tribe Called Quest Lyrics

"Lost Somebody"

(feat. Katia Cadet)

Yeah, Phife—for your life

Now, in the time when niggas wasn't supposed to be born
Best of us are left for dead in cities that looks war-torn
Vietnam going wrong, heroin going strong
Neighbors would whoop that bad ass
Just for running through their lawn
Walt met Cheryl, Cheryl met Walt
Trinidadian love sprouting through the asphalt
Love was consummated and the angels registrated
Two were to be born but only one of 'em made it
Inside a cloud of sorrow, a silver lining and joy
It's a bouncing baby boy, a king's name they would employ
And before he even squeaks, it's decided it's Malik
Now give him hope, give him care
Raise him while his grandma there
Watch out momma, if you stare
Light brown eyes'll keep you there
Let's progress the story just a little bit
Malik, I would treat you like little brother that would give you fits
Sometimes overbearing though I thought it was for your benefit
Despite all the spats and shits cinematically documented
The one thing I appreciate, you and I, we never pretended
Rhymes we would write it out, hard times fight it out
Gave grace face to face, made it right
And now you riding out, out, out, out, damn

Have you ever loved somebody?
(Phife dawg, man)
Way before you got to dream?
(Bow wow, woof woof)
No more crying, he's in sunshine

Never thought that I would be ever writing this song
Hold friends tight, never know when those people are gone
So, so beautiful, opined indisputable
Heart of a largest lion trapped inside the little dude
Took me quick to granny house, now we eat the curry food
Talking hopes, dreams, plans, leak ice, never scared
Brand new pair of Nike Airs, avenue of sairs
Mailbox mayors, all our rhymes was written there
A nigga wanna battle, you know Phifey didn't care
Jarobi with the beat, into new ass we tear
I'mma flash forward well, took a trip to ATL
Cooking in the kitchen making sure my nigga eating well
Wedding in Tobago, you know exactly where I'm at

Standing on the side of black Malik Izaak

Have you ever loved somebody?
Way before you got to dream?
No more crying, he's in sunshine
He's alright now, see his wings
Have you ever loved somebody?
Way before you got to dream?
No more crying, he's in sunshine
He's alright now, see his wings
Have you ever loved somebody?
Way before you got to dream?
No more crying, he's in sunshine
He's alright now, see his wings
Have you ever loved somebody?
Way before you got to dream?
No more crying, he's in sunshine
He's alright now, see his wings
Have you ever loved somebody?
Way before you got to dream?
No more cry

A Tribe Called Quest Lyrics

"Movin Backwards"

(feat. Anderson .Paak)

[Jarobi:]
I hope my legendary style of rap lives on
A-fixed to the Earth like my feet, they got cleats on
I'm moving backwards, never that was never the plan
Pushing shit along, render stillness in the quick sand
Asphalt jumpin', junkie lyrical, concrete
My Jedi mind be moving me
Throughout the many dark streets
Backwoods, boondocks, whatever terrain
Auf Wiedersehen, Aloha, man our feet ain't the same
I won't abuse these shoes, these shoes ain't made for reversing
Then trudging through these motherfuckers' first album Footprinting, never ever ghostwritten, yo' shit free, bitten
Grab my shit with both hands, iron grip, steel mitten
Bloviated, Jarobi ate it and now it's gone
Closed mouths don't get fed or move ahead
To my hustlers with customers, scam my chicks just being petty
Trap lords with the fetty, don't be no backwards, no
No backward ass nigga, don't be no backwards, no
No backward ass nigga, don't be no backwards, no
No backward ass nigga, don't be no backwards, no
Don't do it, nigga

[Anderson .Paak:]
I spun around without a care
When I stopped, I felt lost
I'm two heels from the top tier
Really want to be boss
I figured it out, figured it out somewhere
Maybe the answer's not out there
Maybe it's on the ground somewhere
When I stopped, I felt lost
Do you ever feel lost?

They wanna see my downfall
Turn a good day into a downpour
Thorns in the crown hit the cross I bear
Why they wanna see me hangin' like a towel somewhere
One eye, two bills, three tears, a heart still
How I'm feelin' in my mind right here
Think I'm moving, I ain't going nowhere, nowhere
Maybe why I feel lost, yeah
How I'm 'posed to know how home feels?
I ain’t even on my home field
And again I feel lost
Was not a cruise that brought us here, again I feel lost
And I refuse to be stuck right here, yeah

I don't want to move backwards, no
Somebody just give me
Somebody just give me
Somebody just give me direction?
I don't want to move backwards, no
Somebody just give me
Somebody just give me
Somebody just give me directions?
I don't want to move backwards, no

[Q-Tip:]
Moving backwards never, that was never the plan
Can I vent? I was content being my own man
Up until that night ill-fated, walking home I was faded
Po puts braces on my wrist like he was clapping his hands
How demeaning, y'all? Who could be blind to racism?
Bring bro bro to me for the brotherly baptism
Instead of slaps, give him the dose of Ab wisdom
He'll make it out of the jungle some way
Hey, it's figurative, not a real place you stay
Ay, it's mind state filled with muck and malaise
Uh, I got direction without using Waze
Submitting myself to praying these days
Yeah, moonwalking backwards, it's only for stage

[Anderson .Paak & (Q-Tip & Anderson .Paak)]
Feds lining up in riot gear
And everybody's hands in the air
Four-five so get your ass found somewhere
Caught between hope and despair
Say it loud, what it take to make my niggas listen
Somebody just give me
Somebody just give me
Somebody just give me
Cool out, chill out nigga, I'm cool
Cool out nigga, nah, nigga I'm through
Head down, ain't no tellin' what you gon' do
(Somebody just give me—
Somebody just give me—
Somebody just give me direction
I don't want to move backwards, no
Cops killing us niggas everywhere
Maybe we should get some guns too)
She come around every now and a few
(Man, I hope she really loves you)
Living high ain't hard to do
(She'll be in the clouds somewhere
Feeling fresh, I strut your bitches out of here
Might even take your broad too
Oops, I'm 'bout to get kicked out here
Tell mama I'mma slide through)
Stealer, I'm trying to get out of here
But stuck up in the same room

(Too many open miles in here
Sick of eating out at drive through)

Hahaha, look at this motherfucker

A Tribe Called Quest Lyrics

"Conrad Tokyo"

(feat. Kendrick Lamar)

[Phife Dawg:]
Conrad Tokyo, Sapporo, pistachio
Just done mash a show, Dawg is off on sabbatical
Rather watch the Nixon shit than politicians politic
CNN and all this shit, gwaan yo, move with the fuckery
Trump and the SNL hilarity
Troublesome times kid, no times for comedy
Blood clot, you doing, bullshit you spewing
As if this country ain't already ruined
In lieu of these mumbling, fumbling
Swearing they're the greatest
Online they debate us, if we different, then we're haters
We ended our hiatus, the dogs looking for food
The nucleus is here now (ooo)

[Kendrick Lamar:]
Toleration for devastation, got a hunger for sin
Every nation Obama nation, let the coroner in
Crooked faces, red and blue laces for the color of men
Just embrace it and die alone, song of Revelation
Reverends and cattles racing
Devils and demons and Deuteronomy
Fumigate our economy, 'lluminate broken dreams
And manifest all insanity, look around
Sayonara tomorrow, it's just blood on the ground

[A Tribe Called Quest & (Kendrick Lamar):]
Conrad Tokyo, Sapporo, pistachio
(Sayonara tomorrow, it's just blood on the ground)
Conrad Tokyo, Sapporo, pistachio

A Tribe Called Quest Lyrics

"Ego"

(feat. Busta Rhymes & Katia Cadet)

Ego, ego skippin', trippin' in my mind
Ego, ego skippin', trippin' in my mind
Ego, ego trippin', trippin', trippin', trippin', trippin'
Ego, ego
I got one, you got one, and now we equal
Sometimes it makes you trip out on your people
Sometimes it has connotations of evil
Sometimes niggas call on it when they need to
It's called the ego

Ay, it's hard to really make the subject positively stated
Some may hate it and some may overrate it
It's a top story and you rarely see a trend
So all you psychoanalysts, pull out your pad and pen
It's called the ego
Come up with an idea, and no one seems to get it
Then every time you mention it
They stare like you're two-headed
But one day, in your cubicle, your idea really comes to view
Your boss is walking by, he sees it too and he takes it from you
She put you on the aces of all the stripper places
And has the kinda clientele where niggas trick off very well
You beg her and you plead her and you tuck away your ego
She knows you need the chicken
And you know that she's your people
They call you fat and lazy, your commentary crazy
They photoshop your face on a box of McCormick gravy
And now that inner voice, that ego, making you get wavy
Change your diet, hit the gym
And say, "What were you saying to me?"
The ego makes you do it, it makes you face the music
Or run away from life so fast that you'll outsprint Carl Lewis
It has you think your deceptive ways of being are the truest
Had the prettiest brown eyes but you change them shits to the bluest
It's the ego

Ooo, Jack White
Ooo, Jack White

A celebrated genius, my dick game is the meanest
I'll take the girl that's augmented, new me is invented
I'll take the biggest house in Calabassas
Anyone for Michael Phelps swimming classes?
You need it when you're balling, equally when you're falling
Or when those kids in school on your locker
They get to scrawling

Epithets that's racist is stupid and mean in nature
Something that can make you feel stronger when people hate ya
Ego make you violent or govern like a tyrant
Or switch a dictionary's word from vibrant to vivrant
Fool the thirsty people, selling tap water in bottles
Fooled a girl with NYU scholarship and now she models
Ego has no ending, has people pretending
Religious zealots get jealous 'cause guys want their defending
This is the last Tribe and our ego hopes that you felt us
And closing for our ego, we know only God can help us

Ego, ego skippin', trippin' in my mind
Ego, ego skippin', trippin' in my mind
Ego, ego trippin', trippin', trippin', trippin', trippin'
Ego, ego skippin', trippin' in my mind
Ego, ego skippin', trippin' in my mind
Ego, ego trippin', trippin', trippin', trippin', trippin'
Ego, ego skippin', trippin' in my mind
Ego, ego skippin', trippin' in my mind

Untouchable in my zone, watch it, don't leave him alone
Fuck your ass cheek flows with bars sweeter than scones

He could catch you on his plane or the one you on today

If you wanna take it further your Huckleberry is here
Doctor of your holiday, Wyatt Earp ya like the tears
We gon' celebreate him, elevate him, papa had to levitate him

THE WAR MIXTAPE

Akala Lyrics

“Welcome To England”

Welcome to England, part of so called Great Britain
But ain't a fucking thing great about the way we're living
For me it's hard to see how we're perceived over seas
It's believed we sip teas, and speak like the Queen
Nigga please, the streets will suck your blood like a leech
A lot of shells, ya get wet but real far from a beach
Dole queue, fifty pounds a week, ends don't meet
If ya like me even your mum's done hustled more than weed
Times are harder, we get dads but few get fathers
And we still pray but shit, get few answers
Every single area with an ethnic majority
Full of drugs, guns and poverty, getting to thirty is a lottery
And the government, deceiving the white working classes
Into believing they're supportive to us black bastards
Bullshit! Like we're living so cool
Go to your local fast food, take a look at who's serving you
And the schools are bullshit too, so we're weighing out grams
I'm strange amongst the mans 'cause I got some exams
I grew among youths real nice with the knowledge
Yet I'm the only one who finished school, let alone college
Our role models ain't doctors, but shottas who pop hollows
Chefs that cook food that'll kill you if you swallow
So addictive once the wicked thing holds you, you're never right
Can't begin to count the lives I've seen consumed by the pipe
Walking ghosts, that sold their own soul for them rocks
And mandem shot them rocks, just to cop rocks
'Cause the shining kind of rocks make sluts suck cock
Along with jocks and repping their ends by busting gunshots
It's on top, you cannot tell me all is not lost
Grown man is busting shots just 'cause they're dying for props
That's why, public displays, guns spraying in raves
But most of these youths can't shoot, so innocents hit by the strays
Our, future is fucked, that much is obvious
And I'm, far from perfect so I make no promises
'Cause every day create more Doreen Lawrences
So it's fake, when they make out like all is positive
I gotta keep them things and be willing to bust them
Niggas is ignorant, no discussion, you'll get murdered for nothing
A pregnant woman, got kneecapped, over a car crash

Ten year old boy stabbed and left bleeding to death in his own flat
Man is warring over manors not even drugs
You'll get plugged, for stepping on the wrong toe in clubs
You wanna know how real it is? I'll tell you with ease
All you gotta do, look at the last two New Year's Eves
One just passed, four teenage girls went out for a blast
Two never came home, machine guns that were blast
The year before, a man survived a shot in the chest
Bullet pierced the wall, put the gunman's own friend to his death
And what's funny, is that we ain't even shocked
This shit happens every day, so we just shrug it off
And that's a basic introduction to Britain's black community
No Puffys or Jiggas 'cause we got no unity
That's why, half the world don't even know that we're here
Yet we're living the same struggle, our mothers cry the same tears
And of course, I want my kids to have a better life
But for now... I gotta survive

Akala Lyrics

“C.R.E.A.M. (Freestyle)”

Who wanna be broke? Nobody, that's a joke
That's why coats get blood soaked for pound notes
That's most of the reason niggas bleeding from gun smoke
It's all of the reason that a twelve year old sell coke
That's why mum's stressed out, that's why niggas stretched out
If you stackin' cake, we'll break in your house, tape up your mouth
Take the spouse, where's the cash?
Give me the work or the cash, or you gettin' clapped
You can be the king of the track, or rap, niggas is rash
Long as you black you can get jacked, that is a fact
I never really been rich but I know one thing that won't change
Never let a man that bleed the same take my chain
I feel raped, I buss it, fuck it
I couldn't rest knowing the man took what's mine and I did nothing
How I run it, I done stuck a few in my days
But I'm still here so fuck it, party away
Get paid, get laid, get a house with a maid
Give back to those that was raised how you was raised
Whoever said life ain't about stackin' paper?
They a fuckin' idiot, and they need to wake up

Akala Lyrics

“This is London”

[Verse 1]
The place where you find the coldest ballers you ever seen
But they locked up or dead not in the Premier league
Best kid that I knew turned fiend by 16
It seems things never the way you see in your dreams
Years past, tears start, kids turn to teens
That sweet child you knew, grill done turn mean
Daddy left him and reality set in there's no cream
And it's embarrassing goin' school with holes in ya jeans
So, you know the cycle, it's little bags of green
Get expelled and sell the world hell by 16
Fuck a couple pristine chicks that suck dick mean
Couple bottles of cris sipped and wrists lit mean
And it's logical, lucky niggas do time that's horrible
Catch the flipside and ya speak with the oracle
It's fucked up yeah, but that's just how it is
And ain't nuttin' on these roads gonna change but the clip
[Hook]
This is London
Black t'ugs bust big slugs
This is London
Give ya fuckin' punks tough love
This is London
Single mums that pump drugs
This is London, Bruva this is London
(London calling...)

[Verse 2]
The place where it don't matter if you never sold a shot
Never run up on a nigga like "gimme what you got"
Get ya brain sprayed on the pave, in front of the rave
No reason other than niggas is frustrated
So many catching cases over screw faces
And dumb shit like we come from different places
London get your shit smoked like a chalice
Same city, different planet from Buckingham Palacee
Where young t'ugs is clutchin' big straps that's Russian
And dyin' to buss it what the fuck good is discussions?
Where hood rats is sucking any dick that push a nice somethin'
And them said gyal'a get you set like your life's nuthin'
Cause life's nothing that's just how it is
And there ain't nothing on these roads gonna change but the clip
Chorus

[Verse 3]
The place where you don't fuck with the Turks or the Asians

Triads, pikey's, even Caucasians
Where them cockney boys will chiv your face, you mug
No love, every colour mentality thug
But we take it to a whole 'nother level
Little girls gettin' shot in the back is not clever
Never far from the hood, even in the Sticks
Couple wrong turns, get dash out ya whip
By some little skinny kid, think he big with the chrome
They said he'd be the next Ian Wright but
The skunk said no
In this place, if you work you're an idiot
Most of the smartest motherfuckers illiterate
'Cause tax is a bitch, take half your pension
Just to fight war, now they want congestion
And they wonder why we all goin' insane
This is London, tell me is your city the same?

Akala Lyrics

“Roll Wid Us”

[Verse 1]
It's my time like it or not gotta ride can't fight
This thing'll take you with it like a landslide
My mind spitting rhymes refined as old wines
No games since age 5 I hold mine
Never fell for the spells they tell in this world
I read Malcolm, you was learning to spell
I took exams early with the geeks in the school
Opened a business you were still chasing your balls
I spent my teens sticking but I'm one of Britain's best mathematicians
Official, I got the certificate
So however you want it kid we could do scholarship politics
Or the opposite
War with hollow tips No supathug, just I don't fear, why would I?
You bleed like me and breathe the same air
I got a purpose on this earth
And I ain't ready to go
So if I gotta send you first then let it be so
[Hook:]
Roll wid us or get rolled over [x3]
It's time now the wait is over
Roll wid us or get rolled over [x3]
It's time now the wait is over

[Verse 2]
It's bigger than the music
It's more like a movement
A unit of trueness spreading like rumors
They foolish, say I can't do it they doubt
Cause we acorns now just watch out for the tree that sprouts
When it does, remember I told you
I'm going from local to global
Poor and hopeful
From glueing back shoes
Cause they showing my toes through
To owning shoe companies and yards on the coastal
If you real grab on, I'm taking the fam with me
But hold on tight cause we movin real swiftly
Fakes can't stop my flight
Not your life that's like
Trying to fight atomic war with a knife
(can't do that)
Fight like mike with control not physically
If ignorance is bliss that explain my misery
I'm clear in my vision b, solve your mystery
Compete with me you get whitewashed like black history

[Hook]

[Verse 3]
It's not all gravy, man dem is shady
Tings is crazy but that don't phase me
It's not all gravy, man dem is shady
Tings is crazy but that don't phase me
Get yours, there's only one life to live
You gotta feed your kids, you gotta eat real big
Young soldier you can do whatever you want to
And no one out there can stop you
Not sure just watch me for practice
In these board meetings
Taking cheese off crackers
You actors are not factors
I see the bluff cause you sell crack
It does not mean that you're tough
It's the matrix and it's blatant you
Paper thugs are not ready yet
For getting unplugged
Grown man still talking like
You know who I am, where I'm from'
Bredren what the fuck are you on?
Telling the world who you shot
And what are you earning
When you get popped that will not stop it from burning
So it's worthless, you gots to be a soldier
Watch me grind you'll understand it as you get older
Nothing pretty but when I do things the job's over
Never stick at that critical moment, I'm potent
I'm focused, you jokers can't see me
I feel like a marksman at point blank it is too easy

Da fam fought tha same way
We leasin tracks for no cats searchin 4 a pay day
But let's get one fing cleared up right now
Ain't nobody out there messin wid ma fam str8 up
Now listen - I ain't trynna drop a word of wisdom
But trynna show heads that don't know the place we live in
Where u got those? he shot tha fiends to make a livin
Will those envy? pretend to be friendz & I'm snitchin
While lil kidz are swearing hood in every drop I'm pissin
People end up missing - families left reminiscin
No fam beat tha clique
M1 blocks where we jam
If ya son says us on blud
Live me for my mans
Understand when I walkin road I check my shoulders
Your friendli man down tha phone blud - u ain't a soldier
Now I understand what they say to him when he's older
Roots see his roads Roll Wid Us or get rolled over
I understand what they say to him when he's older
Roll Wid Us blud or get rolled over
Roll Wid Us Or Get Rolled Over
It's time now the wait is over
A rolling stone gathers no moss

Matter without movement
And Pac's no force for the cause
I keep rolling
So composed it
While u was top speed
I'm still strolling
Fake thugs folding - u niggas is done
U just can't cannot fight - that's a fist to a gun
Bold when the sun
I'm ten versus one
Smoked to a lung
U little bastard - disaster must come
But most
Only postponed
U clones get dethroned
I shoot truth - leave ya lies leakin tha road
Bleed & exposed
Yes my flows are cold as an artic blizzard
It's not written in poems
Merlin verses
Dark as a womb
Worse than curses for raiding tha tomb
Meet ya doom - tha kid who can't be moved
I'm just livin out my name - it's all so plain
I'm different f*ckin gravy
Eva since tha lick
I keep the grasscuts - so the snakes can't slither my shits
We could talk stocks & figures like shots from triggers
Niggas gettin smoked like Kippers
Cause man and em' don't learn till tha shit happen first
This is not Usher but yeh we could let it burn
Roll Wid It - It's betta wid mo hands
Even when you can't fight what u don't understand
Roll Wid Us G
Or Get Rolled Over!
That's right
It's not a rumour blud
We coming for this year blud

Akala Lyrics

“U Ain’t A Killer”

[Verse 1]
I never claim to be no killer, just a little skinny nigga
But I'm down to get in it and jack the ripper if my life's threatened
Sicker than liquor in livers, when the trigger pepper up a silly nigga
Leave 'em stiff, no pretty picture
I'm no atheist, but Satan's waitin'
And I'm one shred of patience from havin' to face him
Real recognize real, but these fakers
Don't see 'til you makin' duppies like Wes Craven
And the haters wanna know if you mean what you spit
And they got nothin' to lose, they gon' never be shit
But dude don't get me confused with none of these cliques
That talk clips then they hit notes soon as they shift
I'm more similar to Malcolm, I track a school yard
But the road is the road so a tool's never too far
I love niggas but I'm no dummy
And ain't no one inflictin' that pain on my mummy
[Hook]
What, you ain't a killer, you still learnin' how to walk
From London to Leeds, get your frame outlined in chalk
Mark you for death, though we pray for a better day
But as far as today, y'all niggas gotta pay, what?
You ain't a killer, you just talkin' a song
You ran to the feds when it's on, pussy, take off your thong
Mark you for death, don't talk that where you from shit
That don't mean nuttin', unless it help you dodge a clip

[Verse 2]
Niggas talk tough but I don't believe 'em
Empty vessels make noise, they always screamin'
Cause a scene in the club, like the bitches to see
Love the hype, love the noise, blud, I don't believe it
These dickheads from school days, walkin' with a screw face
Now they got a ting and they caught a little food case
All of a sudden everybody tuggin', everybody dark
Everybody gums runnin', 'til the guns spark
Firms of dudes deep in the dirt like worms
But worms'll have you burn like an old school perm
It's the most dumb, with most pain, they tote guns with no brain

They will shoot you and tell the world just for the name
It's war, stay with a soldier medal
Keep low in the trenches, or you'll need more than a dentist
In London, niggas'll leave you stiff and dark
No reason in particular, shit it's sick-ular
Get your wig twisted, this shit ain't twisted it's the laws of physics
If a crisp bitch legs' open then a nigga's gonna hit it
You keep talkin' that shit, you go missin'
Lie too many times it'll sound convincin' but
[Hook]

[Verse 3]
Bredren, fuck the hype, laugh if you wise
Cus flames that burn bright, live the shortest life
It's why these loose cannons don't make it to 25
It's time, the signs right there but niggas is blind
So, I stay with the London state of mind
Touch mine, and I'm on you like shit to a fly
Clip and a guy, me nah bust shit in the sky
Think it's lies? When you see me, you are welcome to try
No tuff guy, but trust I, nah bluff my
Talk is true, you don't wanna see the proof
Brudda yo, I'm double O with mind
Anything I do, I move like MI5
That's the rhymes, even coming down to the sight
My eagle eyes recognize snakes, even disguised
Everybody want a plate when you splittin' the pie
But you find you on your own when them shells gotta fly
Know why?

[Hook]

Akala Lyrics

“Watcher (Freestyle)”

I'm the watcher, to me you cocksuckers are transparent
I see the future like tarots, my talent embarrass you faggots
Your shit is tragic like what happened to Magic
I'm cold turkey to addicts, wolf to a rabbit
Same city, different planet from Buckingham Palace
Where Rastas are smokin' the chalice, niggas drinkin' liquor by the barrels
Barrels smoke 'em, bullets soak in your apparel
I'm Sagittarius, so it's natural that I spit arrows
The watcher, I see proper, so called top shotters
Tell the world your business so you 'bout to get knocked by the coppers
But never lock up 'cus you sing like the opera
Pussy'ole fi get chop up, they got no morals
Think you ruthless 'cus the world see that you shootin? You stupid
On the low-low is how you should do tings
Passing your straps for stripe, you niggas are bitches
I don't know you, I know who you clippin', so much are snitches
Fuck the fame and the name, that ain't the aim of the game
Supposed to scheme for a better day
But niggas can't see, it's like they blind
It's cool, 25, plenty time to open your eyes
Like Memphis, future bleak, government vengeance
Like hell they wanna help, they just uppin' the sentence
Two strikes is life in the country we live in
If you pop shots, but not if you fuck children
So who you think they tryin' to imprison?
But niggas don't wanna listen
Limited vision is inhibited wisdom
So I keep my eyes open, every moment I'm focused
You jokers is bogus, I flow ferocious I'm sure that you know this
A lot of dudes spittin' written but I'm ripping riddims
God given, so you sinnin' if you think that you winnin'
No religion, not a Christian I believe in the spirit
Even if you a heathen, you believe in my lyrics
I'm the Einstein of physics, Shakespeare to writing
Tyson to fighting, strikin' like lightnin', we're frightenin', timin' like (?)
See clear, my vision refined
Look through my eyes, you feel like you see them for the first time
I spot the snakes, I know they kind
The fakes is easy to break

They got no spine, them man are principle
Discipline you niggas like the principal
My lyrical miracles, biblical to spiritual criminals

Akala Lyrics

“War”

[Skit/freestyle: Akala]

Akala means it can't be moved
Wise tug I stand firm like Muhammad or Malcolm
I won't budge, face it, this gyal naked or scrolls sacred
I'm the worst thing from England since the slave shit
Rappers still so real, it's time
Hit you so hard I separate your thoughts from your mind
Wizard of written kid, blizzards spittin' I'm so cold
Fassies get exposed by my snub-nosed flow
My 12-gauge frays at close range and make you levitate
Like David Blaine, it ain't no game
Bredrin if you real, roll with it
This is the movement, it's Akala blud and you can't move it
[Verse 1: Akala]
Just another strap burst, another black cursed, packed church
Another black man in a hearse before his 21st
Same story to tell all over the world
Crack sales, packed jails, sports, music on sale
Shoot 3 points or score goals
Just the slang's different, you'll relate to my flow
Hoes suck dick when your neck all froze
And you're known to move stone cold duppying foes
What you know, about single mums on the dole?
Had to hustle, raising 3 kids on their own
That's why I'm so grimy now, gotta give her the credit
She was always grinding, so for me it's genetic
No matter what, won't stop till my mum's living lavish
Shopping trips to Paris, till then, you faggots have had it
Talk a lot but you can't do shit to me
Shells among your iceberg will make you history

[Hook: Akala] x2
"There's a war going on outside no man is safe from" -
[Sample from Mobb Deep's Survival Of The Fittest]
You can't crumble or stumble, you gotta stay strong
Show these suckers on top getting preyed on
Concrete streets, the heat'll leave you laid on

[Verse 2: Akala]
It's the jungle where the prey turned killer
Streets is a gym where man work out there to improve their fitness
Bigger weight you push, the bigger you get
Not the size of your pecs, but your cheques and your reps
Niggas is partners too take turns for sex

One run his mouth the other do reps with his index
You talk real slick but don't really want shit
Man I stock more magazines than WHSmith
And I ain't glorifying nuttin', just reality
Make no man, mishandle my dough or my family
Shit'll get worse than prison for pedophiles and snitches
Cut you so wide you'll need a rope for your stitches
Teach one but I fear none, I ain't just spittin'
Mine or your mum's gonna cry then my eardrum's ringing
'Cause shit, my mum's already lost 4 infants
The 3 boys then only me, that's why I'm so militant
[Hook x2]

I'm only 19 but my mind is older
I'm Europe's youngest black company owner
[?] the style of wireless on this whole island
Shit's so rowdy, burst your eardrum when I'm miming
I walk jeans sagging, [?]
It's hard to believe my GCSEs improved the nation's average
And these dicks think they know me well
The only thing hotter than my flow is the shells
[?] receivers go missing
The way I [?] it can't be fixed by positions
Play your position, before I stop rapping start spitting
And you little bitches resting in ditches
No one too credible for attention to medical
Slugs encase your cerebral, make you a vegetable
Heat's unbearable, these streets are terrible
Kids are eating food even though it's inedible

[Hook x2]

Akala Lyrics

“Bells Of War (Freestyle)”

Let me give you some real shit for a second
Yo, listen...

Five hundred years of tears, we still here
Standing strong, the only thing that we fear
The reflection in the mirror, the hate is deep
It's been this way since Willie Lynch made the speech
Divide and rule got us all by the balls
The referee's cheatin', but we playin' by the rules
Even after all the rape and the killing
We still let the same man educate our children
There's been no apology, we still forgivin'
And he's got the cheek to portray us as the villain
Look across the globe at the way we are livin'
The darker the skin, the realer the condition, no coincidence
We built the whole western world for free
And what thank you did we get? To be hung from trees?
We been whipped, been stripped of our truth
But we still standin', a tree without roots
Black rose from the concrete, the petals is damaged
But surely you see the beauty of what just happened
What don't kill you, make a nigga strong, that's a fact
And we've been abused for so long, you do the math

(Akala)
its not a rumour

Akala - Stand Up Lyrics

All my people, wherever in britain
Bro I know the flows cold,
Let me know that you feel it,
And I know the roads slow but your ready to kill me
Cause I feel that same pain, hear the lyrics I'm spittin?
Critics ask why I don't smile, they gotta be kiddin,
Little kids'll blow your head off, just to say that they did it,
I'm in the streets one deep, these villains think that I'm slippin, #
Nah bruv, I don't care bout none of you spitters,
If your real then your eelin' it,
Nah, idont give a shit,
Respect the message nigga, illa state records,
British flag, yard colours cause tell me where my
Head is
First time you saw me, iwas screamin' 'fuck the
Police',
Next icame I change the whole game in the streets,
These wollys still tryna' catch up with ' war', I
Bang harder,
Father, 'roll wid us' huh, iain't even started...

'Moss side... stand up... longsight... stand up...
Hansworth... stand up... aston... stand up
Newtown... stand up... London... stand up
Anywhere, everywhere all my people stand up
St.pauls... stand up... chapeltown... stand up...
Luton... stand up... London... stand up...
Anywhere, everyhere all my people stand up! '

All my tugs stand up, fist in the sky,
Girls too... hands high, now your chillin' with I,
Mr.brazilian, so of course the womaen is feelin'him,
Lyrics is brilliant, no question, illa state england,
I ain't watchin' the states neither, their whole
Shit's tired,
All the great rappers is either dead or retired,
All these soppy cunts, talkin' bout bitches n'
Blunts,
How much your chain cost, and you bustin' ya gun,
And you can't spit, your sticks, ya get hang a box in
The chops,
Silly boys can't bang with me, fools can't hangwith me,
Idont relly care unless it's paper or my family.
Home's this is the roads and there's only one
Strategy,
Though I hate my reality, it's just way it has to be,

'Coventry... stand up bradford... stand up...
Wolftown... stand up... glasgow... stand up
Cardiff... stand up... London... stand up
Anywhere everywhere, all my people stand up!

Derby... stand up... leicester... stand up...
Newcastle stand up... sheffield... stand up...
Belfast... stand up... London... stand up
Anywhere, everywhere, all my people stand up! '

I talk alot, but idon't conversate with punks,
Try so hard to teach but ya man dem are dunce,
Don't learn when the shit happen,
Burn when the clap em,
This is not a perm, but you worms get a relaxin'
My reaction, only in a street fashion,
I am not bulletproof- could get my melon
Splattered,
So I stay ready, spread positive energy,
But I know full well couple prars wanna bury me,
No reason, just cause, that's the negativity,
How could you be a nigga-not feelin' my delivery?
Lyrically, my ability, rippin' up killa's viciously,
Spitter's that wanna mimic me,
Stickin' them where the spirits be, huh
Pretty boy akala, move like a ape,
Skinny, but ipush plates, like I'm fresh off a 8,
Ah mate, so you relly shoulk sty in ya lane,
Only spitter on my level got the same last name

Akala - Yeah Yeah Yeah Lyrics

There's a lot of talk, who flow the meanest,
Work it out = it don't talk agenius,
I spit my thesis talkin' ceases,
Rappers act sick and I got the treatment,
Expose actors, similar to a derringer,
Your wack tracks ain't got skills,
Add to that the fact thst your not real,
Talk bout gats, say make caps peel,
But they fake raps - you get slapped in ya grill,
Stop lyin' to buyers, I'm tight as pliers with the science, hahuh,
The ruffest rhymin', tough as diamonds, fuckin'
Blindin,
You must be high as kites',
Figure you can fuck with the nicest,
I'm off the scale, like hampstead house prices,
So hot, the sun seem cold,
So hot, the flow boil liquid nitro,
What hearin'- the best thing since bread slice,
Nigga with charisma, that woulk turn a dike,
That's why I've had more blows than opponents

[Chorus:]
If he talkin' like he's hard,
Don't believe him, pull his cards
Tell him... yeah, yeah, yeah...
And if your boss is talking shit,
And you really wanna quit,
Tell him... yeah, yeah, yeah...
Anybody, anywhere,
Chatton rubbish in ya ear,
Tell him... yeah, yeah, yeah... yeah, yeah,
Yeah, yeah... '

They say I think I'm the best, I'm far too
Arrogant,
I ain't the best = I'm beyond comparison,
Think ya good, but yaa not,
Couldn't get close to me inside aphone box,
Why spit? your whips and your porky-pie'ing,
Plus your whips and your clips is fiction,
That much of a killer?
Why you lyin'? ithink your porky-pie'ing,
If ya had dough, you should own shit,
Not buy it - I think your porky-pie'ing,
Tryna' be g when your soft as peewee,
That greezy talk see through to stevie,
I mean it believe me, to me it's easy,

You find it hard, ican hear from your cd,
I'm the best, can't put it more simple,
Plus pretty thug, women love the dimples,
Ibeen had gyal, like saddan or bin laden,
I'm kinda like a pimp, but no mink dragging,
A killer's nightmare- like ya ting jamming,
A skinny little nigga with the heart of a dragon,
Unstoppavle, mission impossible,
Logical, I'm the one- ask the oracle,
Legend like christ and the 12 apostiles,
Got more lines than whitney's nostrils,

[Chorus]

If you a baller cool, rap about,
But there's no puffs in england
So shut ya mouth.
It amazes me, these rappers are so dumb,
Get they advance and think they trump,
See I spit like guns, tongues speed of a chopper,
I don't really care, you're a shotter,
You't dem a blow ya brain out,
Cause ya got ya chain out,
So what real good is a name now?
Watch no face, trust me father,
Young. never bumb. that's not akala.
The don dadda, dun flow badda,
Walk tall as a ladder, and italk with sawagger,
Everything I do, pietry in motion,
Deep, like apuddle to me is the ocean,
Cause convulsions, like voodoo potions,
Ramp with the sultan, I find that insulting,
That's a nova, racing a ferrari,
Your little click, takin' on the army,
Be a legend when I die, like iwas bob marley,
Marcus garvey or muhammed ali,
Cause I drap knowledge, like oxford scholars,
So what real good is a name now?
Watch no face, trust me father,
Young, never dumb, that's not akala,
The don dadda, dun flow badda,
Walk tall as a ladder, and I talk with swagger,
Everything ido, poetry in motion,
Deep, like a puddke to me us the icean,
Cause cinvulsions, like voodoo potions,
Ramp with the sultan, ifind thaat insulting,
That's anova, racing a ferrari,
Your little click, takin' on the army,
Be a legend when idie, like I was bob marley,
Marcus garvey or muhammed ali,
Not bad, considering I didn't finish college,
I'm here now, your noise is void,

All you so called ' hot boys ' paranoid,
No paragraphs parallel, this is pardise,
I'm a paragon, leave you parasites paralysed,
My parables parachute here to paraguay,
It's paramount you don't fuch with I,
The flow kicker, go - getter,
Show ripper, pro- spitter, narural- born winner,
Sicher than liquor in livers,
Illa then jack - the- ripper killers,
Give riddim's bigas a gorilla nigga,
These bitter nigga's bicker,
But I'm bigger than that.
I'm tryna' fold figures, big as ' jigga' n' that...
I'm focused maaan...

[Chorus]

Akala - The Edge (Mikey J Remix) Lyrics

Do you never feel like there's something missing?
Stuck in arole, just playin' your postion,
Even when you scream, it seems no one listens,
Free as a bird, but it feels like prison,
Never break tradition, suttin' like it's
Superstition,
And your marrige is about as boring as a politician
Now listen, what you need to do is change the way you livin',
It's your, don't explain your every decision,
Watever your vision, believe and make it happen,
Look at me, I'm a english rapper,
It's only one life here.
Gotta do you bruv,
Ifeel marvelous, how about you luv?
Yeah, ifeel good... do you feel good?
Yeah, ifeel good... do you feel good?
Yeah, ifeel good... do you feel good?
Yeah, ifeel good... ttell the people...
Everybody jump over the edge,
Everybody let go and just feel the music,
Jump over edge,
Everybody jump over the edge,
Everybody jump over the edge,
Everybody jump!
Don't know where the edge is,
I'll explain to you it's fine,
It's that line or that time,
Like your boss has been rude to you,
One too many times,
Out at night, might just have one too many pints,
Like when you got ambition and they tell you,
You can't do it,
Your body feel the music,
But your scared to move to it,
The edge is where you lose it,
Jump with me,
Don't quit your job,
Take the low road,
Spit in his tea,
Drink til' your pathetic,
Til'ya act like an idiot.
In athe morning you'll regret it,
Righr now it's brilliant,
As far as your dreams go,
You just gotta get em,
And as long as the beat plays,
Just move to the riddim,

Yeah, ifeel good... do you feel good?
Yeah, ifeel good... do you feel good?
Yeah, ifeel good... do you feel good?
Yeah, ifeel good... ttell the people...
Jump over the edge baby, just
Jump over the edge...
Come over the edge.
To infinite possibilities,
Sorta like a parallel universe your visiting,
But it's here on earth from the prison to the Villages,
Open up your mind and you feel limitless,
Don't let them tell you what is real,
They don't realistically,
They said einstein was dumb,
How come he thought of relativity?
Thet just despicable, miserable individuals,
And every single syllable, they uttering,
Is cynical, it's typical,
Don't sit down waitin on a miracle,
Jump like jordan, like your tryna' reach the Pinnacle,
It's only one life here,
Gotta doyou bruv.
I feel marvelous, how about you luv?
Yeah, ifeel good... do you feel good?
Yeah, ifeel good... do you feel good?
Yeah, ifeel good... do you feel good?
Yeah, ifeel good... ttell the people...

Akala - Shakespeare Lyrics

Nigga Listen,
When I spit on the rhythm I kill 'em,
Raw like the ball of Brazillians,
You don't want war, cor, the kid's brilliant,
Blud, I'm the heir to the throne, not William,
Akala, smart as King Arthur
Darker, harder, faster
Rasclaat, I kick that illa shit
It's like Shakespeare, with a nigga twist.
Lyricist, I'm the best on the road
Nitro flow, oh so cold I'mma blow yo
Keep the hoes, I only want dough homes
Nobody close, I'm alone in my own zone
No no no love for the po-po
Loco when I rock mic solo
I hope that you know, where you don't go though
Want it with Bolo? Must be Coco.
It's William, back from the dead
But I rap about gats and I'm black instead
It's Shakespeare, reincarnated
Except I spit flows and strip hoes naked
No fakin', test my blood bruv
It's William, just back as a tug cuz
So real the shit I kick now
Plus I don't write, I recite my shit now
Straight from the top, expert timing
On top of that now the whole thing's rhyming
No more tights, now jeans sagging
If I say so myself, I'm much more handsome.
Don't ever compare me to rappers
I'm so quick-witted that I split 'em like fractions
My shit, I tell 'em like this
It's like Shakespeare with a nigga twist

I get you pumped up
Feelin' like you drunk drunk
When my beats bump bump
Lyrics hit like skunk blunts, blud, now
All the shit I kick so crazy
There ain't no ifs or maybes
Spit poetry so shady
For lords on road and my hood ladies
Pumped up
Feelin' like you drunk drunk
When my beats bump bump
Lyrics hit like skunk blunts, blud, now
All the shit I kick so crazy

There ain't no ifs or maybes
Spit poetry so shady
For lords on road and my hood ladies

I'm similar to William, but a little different
I do it for kids that's illiterate, not Elizabeth
Stuck on the road, faces screwed up
Feel like the world spat 'em out and they chewed up
It's a matrix, I try and explain it
But on a real thoe still ready blaze em
No contradiction just face it
They so enslaved, they are worse than a agent
I grace stages, sharp as razors
Don't get cut cuz, keep ya distance
No artillery, tryna' be militant
Ya'll dudes killin' me, think that ya killin' it
Its embarrassing watchin you babblin
Keep spittin ya darts, mine is javelins
The hood Tiger Woods too milly
Number 1 for so long, its just getting' silly
Shit kinda like Bruce wit da knuckles
Like the first time ya ever saw Ali shuffle
You don't trouble, left layin in a puddle
Bruv you are havin' a bubble
I'ma whole different kettle of fish
Thou shall not fuck with dis
My shit, I tell em like this
Its like Shakespeare with a nigger twist

I get you pumped up
Feelin' like you drunk drunk
When my beats bump bump
Lyrics hit like skunk blunts, blud, now
All the shit I kick so crazy
There ain't no ifs or maybes
Spit poetry so shady
For lords on road and my hood ladies
Pumped up
Feelin' like you drunk drunk
When my beats bump bump
Lyrics hit like skunk blunts, blud, now
All the shit I kick so crazy
There ain't no ifs or maybes
Spit poetry so shady
For lords on road and my hood ladies

To be fair, no MC close to the man
Little just come yout's jumpin out of they pram
Everybody badman, behind a mic stand
Its not creative, one bag of hype, and
If you buss a ting, where's the mash?
Move so much food? Where's the cats?

These dudes ain't real, they just rap
I don't spit what I don't know
Just the facts
No talks of rocks I ain't sold
Shots I ain't blown
So cold and I know my own
My business ridiculous
Sick with it, quick witted
Companies head to head an I liquidate it
Welcome to illa state, meet ya fate mate
Talk truth but we don't play games
Move sick, look sample techno
Never pull a ting, if it ain't gonna let go
That's that, rap track
Clap ya like a black gat
Back chat, crack back
I'm the nigga, that's that
The rest of these kids is irrelevant
Don't compare me to him
That's just beggin' it
I'm on my own shit
Dicks ain't spit
Its no democracy, dictatorship
So dicks hate my shit
I'm sick, raise ya spliff
Im swift, blaze em quick
My hits, major shit
I flip phrases quick
My sick razor shit
Give thick grazes quick
And chicks say he's cris
It's not a rumour
That kid Akala
It's not "Ack-a-la", beg ya pardon
Don't get it twisted
Your on the sideline like a mistress
I'm the whizzkid, with the sick shit
My shit, I tell em like this
It's like Shakespeare, with a nigga twist
I get you pumped up
Feelin' like you drunk drunk
When my beats bump bump
Lyrics hit like skunk blunts, blud, now
All the shit I kick so crazy
There ain't no ifs or maybes
Spit poetry so shady
For lords on road and my hood ladies
Pumped up
Feelin' like you drunk drunk
When my beats bump bump
Lyrics hit like skunk blunts, blud, now
All the shit I kick so crazy

There ain't no ifs or maybes
Spit poetry so shady
For lords on road and my hood ladies
I get you pumped up
Feelin' like you drunk drunk
When my beats bump bump
Lyrics hit like skunk blunts, blud, now
All the shit I kick so crazy
There ain't no ifs or maybes
Spit poetry so shady
For lords on road and my hood ladies

Akala - Carried Away Lyrics

Another hearse roll up slow,
Carry one more poor lost soul,
Carry them things every single day
Cause it makes him feel safe
Cause he carry on them ways, screw face
Love the game-reppin' his estate,
Talk tough look straight in his face,
Carrying deep pain self-hate,
Carry fam, so he carry weight,
It's logical daddy got carried away,
Not married away, just didn't stay
Coward carried his son to this fate,
His boys carrying weight in a wooden box can't stand straight,
They was getting outta the game,
But look fate she don't wait
Now the woman in the front row, her face t show no pain,
But her brain went insane on the day the news came,
Stare into space, face numb,
The boy getting carried, she carried 9 months

[Chorus:]
When this world strip me naked, I turn and
I face it,
And really believe I have the strength to change it,
I'm crazy, it's blatant sometimes I get carried away
When this world strip me naked, I turn and I face it,
And really believe I have the strength to change it,
I'm crazy, it's blatant sometimes I get carried away

One more body bag getting carried back,
From the war zone where they carry straps,
Where little kids is attacking tanks cause they carry no fear of the man,
All they know here is they land
And a hero, gotta make a stand,
So they roll cold with it in their hand,
Let bang on the big bad man,
But this particular soldier never move colder
Never enrolled to blow no homes up
Felt that life had carried him under
Chose to phone the number
The army gives you training,
Nothing they say could really explain it,
Sign them t papers, enslavement,
Now you're a tool to carry their hatred,
Rob, steal, strip a nation
All he wanted was qualifications
So he could carry his family places,

Better than those that he was raised in
Never really thought, he'd ever have to go to war,
Now who's gonna tell his kids daddy can't carry them no more

[Chorus]

Akala - This is London Lyrics

The place where ya find the coldest
ballers you ever seen,
but they locked up or dead, not in the
premier league,

it seems things never the way you see in ya
dreams,
years past, tears start, kids turn to teens,
that sweet child you knew, grill dun turn mean,
daddy left him and reality set in, there's
no cream,
and it's embarrassing goin school with
holes in ya jeans,
so you know the cycle, it's little bags of green,
get expelled and sell the world hell by 16,
fuck a couple pristine chicks that suck dick mean,
couple bottles of cris sipped and wrist slit mean,
and it's logical, lucky niggas do time that's horrible,
catch the flipside and ya speak with the oracle,
it's fucked up yeah, but that's just how it is,
and aint nuttin' on these roads gonna change but the clip,

Chorus
This is London,

This is London, Bruva this is London

(London calling...)

The place where it don't matter if you
never sold a shot,
Never run up on a nigga like "gimme what you got",
Get ya brain sprayed on the pave, in front of the rave,
No reason, other than niggas is
frustrated,
So many catchin cases, over screw faces,
And dumb shit, like we come from different places,
London, get ya shit smoked like a chalice,
Same city, different planet, from
Buckingham Palace,
Where young tugs is clutchin' big straps
that's Russian,
And dyin' to buss it, what the fuck good is

discussions?
Where hood rats is suckin, any dick that push a nice sumthin',
And them said gyal'a get you set like ya life's nuthin',
Coz life's nuthin', that's just how it is,
And there ain't nuthin on these roads gonna change but the clip,

Chorus

The place where you don't fuck with the Turks or the Asians,
Triads, pikey's, even Caucasians,
Where them cockney boys will chiv your face, you mug,
No love, every colour mentality thug,
But we take it to a whole 'nother level,
Little girls gettin' shot in the back is not clever,
Never far from the hood, even in the sticks,
Couple wrong turns, get dash out ya whip,
By some little skinny kid, think he big with the chrome,
They said he'd be the next Ian Wright but the skunk said no,
In this place, if you work you're an idiot,
Most of the smartest muthafuckers illiterate,
Coz tax is a bitch, take half of ya pension,
Just to fight war, now they want congestion,
And they wonder why we all goin insane,
This is London, tell me is your city the same?

Chorus

Akala - Roll Wid Us Lyrics

It's my time like it or not gotta ride
Can't fight,
This thing'll take you with it like a landslide
My mind spitting rhymes refined as old wines
No games since age 5 I hold mine
Never fell for the spells
They tell in this world
I read Malcolm, you was learning to spell
I took exams early with the geeks in the school
Opened a business,
You were still chasing your balls
I spent my teens sticking but I'm one of Britain's best mathematicians
Official, I got the certificate
So however you want it kid
We could do scholarship politics
Or the opposite,
War with hollow tips No supathug, just I don't fear, why would I?
You bleed like me and breathe the same air
I got a purpose on this earth
And I ain't ready to go
So if I gotta send you first then let it be so

[Hook:]
Roll wid us or get rolled over [x3]
It's time now the wait is over
Roll wid us or get rolled over [x3]
It's time now the wait is over

It's bigger than the music
It's more like a movement
A unit a trueness spreading like rumours
They foolish, say I can't do it they doubt
Cause we acorns now
Just watch out for the tree that sprouts
When it does, remember I told you
I'm going from local to global
Poor and hopeful
From glueing back shoes
Cause they showing my toes through
To owning shoe companies
And yards on the coastal
If you real grab on, I'm taking the fam with me
But hold on tight cause we movin real swiftly
Fakes can't stop my flight
Not your life that's like
Trying to fight atomic war with a knife
Fight like mike with control not physically

If ignorance is bliss that explain my misery
I'm clear in my vision b, solve your mystery
Compete with me you get whitewashed like black history

[Hook]

[Bridge:]
It's not all gravy, man dem is shady
Tings is crazy but that don't phase me
It's not all gravy, man dem is shady
Tings is crazy but that don't phase me
Get yours, there's only one life to live
You gotta feed your kids, you gotta eat real big
Young soldier you can do whatever you want to
And no one out there can stop you
Not sure just watch me for practice
In these board meetings
Taking cheese off crackers
You actors are not factors, I see the bluff
Cause you sell crack
It does not mean that you're tough
It's the matrix and it's blatant you paper thugs are not ready yet
For getting unplugged
Grown man still talking like:
'You know who I am, where I'm from'
Bredren what the fuck are you on?
Telling the world who you shot
And what are you earning,
When you get popped that will not stop it from burning
So it's worthless, you gots to be a soldier
Watch me grind
You'll understand it as you get older
Nothing pretty but when I do things the job's over
Never stick at that critical moment, I'm potent
I'm focused, you jokers can't see me
I feel like a marksman at point blank
It is too easy

Akala - Cold Lyrics

Can I take you back for a minute
I live it I'm spillin my spirit
On the beat like streets cold as blizzards
Late night drownin' my sorrow in a bottle of spirits
Was a sweet child, that characters missing No trace
Now it's bora in coat and screw face
Colder, soldier, angry young male
Don't ask how, you already know the tale
Never lived with my father
Nasty break up with my mum and her partner
And of course, times was harder
Moms did her best with the strength she could muster
But she so stressed it was us that would suffer
Plus school teachers hate me, say that I'm feisty
Play all kinda mind games to try break me
Helped turn a innocent kid, into a ignorant pig
Fuck em anyway, I still got straight A's
Winter was real, no gas
I went to bed in full clothing
Back when my world was closing in and mom was sick
I can't explain the pain when the news came
Sorta like the blizzard that came after the rain
My mind was a prison, I visioned the worst
Ran home from school, wanted to get there first
Didn't want either of my sisters, to find what I pictured
Moms was too strong, she just soldiered on
Don't think I don't understand
But I still had to learn how to be a man
Standing on my own two, not the way you supposed to
Funny how the cycle repeats
Nobody showed you, Wouldn't believe I told you what I had to go through
Pressure couldn't fold me, but turnt my heart cold G
What don't kill you make you strong supposedly
That must be why nobody can hold me
Yeah I had a struggle, but really it's sugar-coated
When you think of all the millions barely living and hopeless
In the news Mother and child, bellies bloated
Put yourself in their shoes, knowin' death is approaching
But it's not fate, it's bait, they were thrown in
The deep end of the endless ocean of mans sin
Politics, religion, man philosophize
Got technology and television
Still don't know why the worlds a weight on top of your shoulders
But we fold up, true we can't hold up them boulders
I been through the shit, but came out like roses
I'm blessed, don't ever think I don't notice
I know I got a path, but it's hard to stay focused

Specially on these roads, where foes are like roaches
Foul and I crush em and I won't even notice
If I lose my way, I just want you to know this

(Akala)

Akala - Freedom Lasso Lyrics

A rope tightens
Breath constricted
No hand pulls this is self-inflicted sickness
Sickness
Self diagnosed without witness
Wish list grip fist
The beggary of riches
A belly full fights never willingly
An empty stomach does not have the energy to finish it
Layers in between
Padded by a dream
Stretching for the means
Without thought of exhausting the seams
No space for indiginity
On the face of simplicity
A taste of sufficiency's
A bellyfull of lethargy
A dash of apathy a pinch of extacy's a recipe
Serving up a feast for the beast of our treachery
Not sure if your getting celebrity's out effigy
I hear just fine
But I'm deaf to those next to me
Conflict it perplexes me
Cause out biggest battle
Is now we're so free that we choose to be shackled

I'm stuck freedom lasso

This invisible strain of the human stain
Colours every brain, vein
Thus chained to another's pain
We may not be the artist by we surely are the fram
We may just be the smoke
But we cannot blame the flame
Strange is the fruit
That nourishes not the vein
Yet we are odder still
For we seek it like the rain
Nothing bounds out path
Yet we march perfect in lane
Whoever saw a tiger that desired to be tamed?
Reality defies
Nature does not know surprise
Yet the lesion of our season blinds even the eagle's eyes
Spies dread not headlock tight as threadknot
Get lost why throw a bone to a dead dog?
This is not charity

That is just sarcasm
That's why we bite so hard and never bark at em
Spark at em's insane
It's play gather and prey
When even the mighty tiger
He desires to be tamed

I'm stuck freedome lasso

They act as if it's positive
Though it's so obviously derogative
And even if you're bobby
This is never your prerogative
It's obvious we're warriors
And crooked just like bobby is
But colleges and mockeries
Will never make a socrates
Apologies and robberies
They follow with atrocity
Sorrow and hypocrisy
Don't make very good crockery
Watchin' this it's horror bliss
And one day I will promise this
The day the tiger wakes
That is the day of your apocalypse

Akala - Love In My Eyes Lyrics

// Chorus needs adding

Remember when I met you?
Heart went racing,
But I wont chase I was in a strange place then,
Faking, what on my face was blatant,
You could be mine but I'm scared of the taking,
Pacing, I was not used to the waiting; contemplating,
And I'm not talking about consummating,
Just conversation, let alone debating.
All the time in the world is all we've got and there's no need for waiting,
All the thoughts in my mind of what we could find got me anticipating,
Right now we're just friends and I like how we're shaping,
Plus I need time for the doubts that I'm facing,
Not about you, it's me who needs changing,
Look on my face you'll see that I'm gazing

But life is no oasis,
And soon things got complicated,
So I jumped ship, real quick,
'Cos I hit ship, sink and I really cannot take it,
'Cos I've never been here before,
In fact no where near before,
I don't quite know,
But I feel it from my afro to my big toe,
It's not working and I need my space,
Plus I gotta deal with this bullshit case,
So we parted ways and it felt real strange,
Didn't get much done with my days,
How will we ever see eye to eye?
I don't agree with myself even half the time,
Then it dawned on me, it's never plain sailing,
You can't succeed if you're afraid of failing

All the time in the world is all we have,
And there's no need for racing,
All the thoughts on my mind of what we could find got me anticipating,
Right now we're best friends and I like how we're shaping,
Plus I got over the doubts I was facing,
Couldn't change time but time had me changing,
Now on my face you'll see when I'm gazing

Akala - Comedy Tragedy History Lyrics

Day boy Akala's a diamond fella
All you little boys are a comedy of errors
You bellow but you fellows get played like
The cello, I'm doing my ting
You're jealous like Othello.
Who you? what you gonna do?
All you little boys get Tamed like the Shrew
You're mid-summer dreamin'
Your tunes aren't appealing
I'm Capulet, you're Montague, I ain't feeling
I am the Julius Caesar hear me
The Merchant Of Venice couldn't sell your CD
As for me, All's Well That Ends Well
Your boy's like Macbeth, you're going to Hell
Measure for Measure, I am the best here
You're Merry Wives of Windsor not King Lear
I don't know about Timon
I know he was in Athens
When I come back like Hamlet you pay for your action

Dat boy Akala, I do it As You Like
You're Much Ado About Nothing
All you do is bite it
I'm too tight, I don't need 12 knights
All you little Tempests get murked on the mic
Of course I'm the one with the force
You're history like Henry IV
I'm fire, things look dire
Better run like Pericles Prince Of Tyre
Off the scale, cold as a Winter's Tale
Titus Andronicus was bound to fail
So will you if Akala get at ya
That's suicide like Anthony & Cleopatra
Cymbeline was a modern day Bridget Jones
Love's labours lost, a woman on her own
She needed Two Gentlemen Of Verona
This is Illa State and I am the owner

Wise is the man that knows he's a fool
Tempt not a desperate man with a jewel
Why take from Peter to go pay Paul
Some rise by sin and by virtue fall
What have you made if you gain the whole world
But sell your own soul for the price of a pearl
The world is my oyster and I am starving
I want much more than a penny or a farthing
I told no joke, I hope you're not laughing

Poet or pauper which do you class him
Speak eloquent, though I am resident to the gritty inner city
That's surely irrelevant
Call it urban, call it street
A rose by any other name, smell just as sweet
Spit so hard, but I'm smart as the Bard
Come through with a Union Jack, full of yard

Akala, Akala, where for art thou?
I am the black Shakespearian
The secret's out now
Chance never did crown me, this is destiny
You still talk but it still perplexes me
Devour cowards, thousands per hour
Don't you know the king's name is a tower
You should never speak it
It is not a secret
I teach thesis, like anicent Greece's
Or Egyptology, never no apology
In my minds eye, I see things properly
Stopping me, nah you could never possibly
I bare a charmed life, most probably
For certain I put daggers in a phrase
I'll put an end to your dancing days
No matter what you say it will never work
Wrens can't prey
Where eagles don't perch
I'm the worst with th words
Cos I curse all my verbs
I'm the first with a verse to rehearse with a nurse
There's a hearse for the first jerk who turn berserk
Off with his head, cos it must not work
Ramp with Akala, that's true madness
And there's no method in it, just sadness
I speak with daggers and the hammers
Of a passion when I'm rappin I attack 'em
In a military fashion the pattern of my rappin
chattin couldn't ever map it
And I run more rings round things than Saturn
Verses split big kids wigs when I'm rappin
That boy Akala, the black Shakespeare
Did not want to listen, when I said last year
Rich like a gem in Ethiope's ear
Tell them again
For them who never hear

Akala - Where I'm From Lyrics

Yo, OK, OK, Yeah nice, OK
Where I'm from its not presidents, I'm trying to see the queen
Different toilet same shit, they're fiending for the big cream
Scheming their dough to the ceiling, till the no longer breathing
And they do shit to make us look heathen
The reason?
Born to a broken home, tears of my mother
Only those that no cos they've been there through all the hunger
Others judge us and snub us
They shouldn't
Growing up in my house, don't think you could of
Mummy hustling
, no one ever did us no favours
Except the neighbours
We used to borrow sugar and some toilet paper
Embarrassing when its my turn to knock
But its cool, what don't kill you only make you stronger
Know they say I'm conscious my words are positive
Its not that, to me its just the truth is obvious
And rather than talking bollocks about who I'd be clapping
I'd rather tell the truth about what actually happened
Every bodies killing five hundred man in the booth
The roads are bad but
If as much man was dying in the streets as was dying in the booth
They'd be nobody left
Stop with dishonesty man
All my home-boys locked up, everybody who's lost a family member
Ain't' nothing sweet in the streets
Here in England now we got bloods and crips
I'm ashamed and embarrassed to have to admit
Our grandparents got chased cos they were black
Now we kill each other for colours in the union jack
Shit
This is not the sates, no American dream
Just a British nightmare with a similar theme
Same scheme, same fiend, same end to the dream
Same church, same hurt, same mother that screams
With the only difference being there's no opposites here
No Jigga no Simmons, no positives here
It is obvious we are not prospering here
What's horrible? I don't no if it's possible here
Our grandparents came here invited by our majesty
Tragically just to be treated like savages
No Blacks, No Irish and of course no dogs
And if it ain't' cleaning toilets then of course no jobs
With all the Teddy boys attacking us and calling us wogs
Boys in blue at it too, apparently that's not on?

And here we are fifty years later, nothings improved
Its like we've gone back a step, like we chasing our roots
Here we are fifty years later nothings improved
We've gone back a step
But we ain't' chasing our roots
Don't know where you come from
You don't no where your going
Teach the yout dem man
Value of self, Understand?
When your watching your TV
Learning your history book
Listen, listen, Because...
Its just a bunch of lies that we perpetuate ourself
Being from the hood is not a definition of self
Circumstances don't define you, you define you
My baby diamond shines so bright it'l blind you
That's why I'm everywhere, fronting where rappers would never dare
No bodyguards, trust me my people I'm never scared
Not cos I think I'm hard, just that iv seen your vision
A million thugs in prison would die for my position
They get there so frequent for various reasons
When we're told we ain't shit we really believe it
Whether by another brother, a father, a mother
The television, or the teachers, police or the judges
Its covering the fear that they already no
You can only break a diamond with a piece of the same stone
Where strong beyond measure, ask your professor
How do you make a diamond? A billion years of pressure
And a diamond is found where? At first within the rough
So no matter where were at there's a diamond inside of us
Forget repping the ends, what the ends do for you?
Your worth so much more, If only you Knew, You Know?
All this ends rah, rah, rah, nonsense
That's exactly what it is just nonsense
All these rappers on TV talking shit about how much they bust their strap and Yah, Yah, Yah
You do not listen to them, their talking nonsense
They live in big nice houses
They got security, and bodyguards, and people to take care of them
Its an illusion, you understand?
And all the bitches, and the chains and the neck lasses in the video
Its just bollocks man, That's nobody's reality
When did the hood become so sweet?
That's no hood iv ever been in
Understand? The hood I no is miserable
The hood I no everybody's trying to get out of
So why are all these rappers dying to get back in it? And dying to be rude-boys?
When all the rude-boys are dying to be legitimate
So, Its just nonsense man, just be honest

x2

verse 2
everytime that we're sinnin
i feel like im winnin

wen we're finished and we're grinnin
we bring in another innings'
we're just fulfilling
the mission of really living
i feel like im givin back tht was missin
or more like im drillin to myself tht was hidden
im a villain and im wicked
but im also really timid
im rigid and i pivot
but im careful not to fidget
stick with it
im tryin to get close to yur spirit
it's kinda like a riddle
i figure u just a little
we both turn pages til we meet in the middle
ain't even hot but u sweat just a little
i feel like i might of found a wife just a little
kinda like i understand life just a little
we can spend time together more than a little
wanna see forever doin things just a little

chorus

u can be my lady
bit by bit
and we can make a babies
bit by bit
and drive each other crazy
bit by bit by bit by bit by bit by bit by bit
be my lady
and we can make babies
and drive each other crazy
bit by bit by bit by bit by bit by bit by bit

Akala - Something Inside My Head Lyrics

They wonder why the caged bird sings
But even worse a pain
Is the bird with lead wings
It

Akala - I Don't Know Lyrics

They say ignorance is bliss
Never a truer word spoke
Half the answers only bring more questions that we'll never know
Even the wise man knows he don't know much
Still not wise enough to accept it as such
So we chase the questions seeking direction
Every time we think we're right get a swift correction
Muslim or Jew really don't matter which
You can't buy tomorrow no matter how rich
We all bleed and breathe and take shits
And chase the same answers
Though some think are better equipped
But with all the test tubes and test and so-called best
They still don't know
A theory is just a posh word for a guess
Because you're in a skyscraper don't make you different
From those in huts along the Amazon
And not more significant
We're all the same all rise all fall
But those on high horses have the furthest to fall
The moon and the stars
Fast women and cars
Is this world truly ours?
Or are we just entertainment
Chasing it all we rise and we fall
Said I don't know
The moon and the stars
Fast women and cars
Is this world truly ours?
Or are we just entertainment
Chasing it all we rise and we fall
Said I don't know
They say ignorance is bliss never believe it
Those who don't learn from history are condemned to repeat it
Truth you gotta seek it, wherever its hidden
Or else you'll find yourself dancing to someone else's rhythm
Mental prison is the worst kind
You can take my liberty but my mind is mine
Whatever they controlling, never let your brain close in
The mind is like a parachute, it only works when it's open
Smoking gun but they say they never shoot
No such thing as a fruit without root
Truth not being told will never make it go away
A lie told a thousand times can never take it's place
They say it's fate, but take a proper view
They're trying to hold so many destiny's in their hands
They're bound to drop a few

So the more we keep moving, the better chance we got
Everybody knows a rolling stone gathers no moss
They say ignorance is bliss, well I ain't got a clue
All you gotta do is whatever that works for you
But when 6 billion individuals looking out for number 1
And we got to share the same sun
That's when the troubles come
That brings us back to where we started
Face to face with the cold-hearted facts
That there are no answers
My head all of this chit-chat
I don't even smoke
But I'ma go have a spliff and just kick back
You know, don't ask me
I'm not a prophet
I'm not the answer
I'm just a rapper
A little boy from North London
What you've heard for the last 40 minutes
It's my opinion
My thoughts, my feelings
It's not right, it's not wrong
It's just what it is
It's just Akala

My goons in the audience still clap when cued
Put the Hawk in your chest and Millsap you dudes
I'm still snapping dude, still run my city and still lapping' dudes
In the studio in a still trappin' mood
On a beat from '99 that's still slappin' dude

Then she slow it down like when the lights go yellow
On some real shit

Akala - Welcome to Dystopia Lyrics

Artist: Akala
Album: DoubleThink
Genre: Hip Hop/Rap

Conform x15
It's bigger than your local colloquium
In a world that is dystopian
Kid's aren't born in fallopians
They're grown in tubes and inserted growth in them
But this ain't the type of pollution we place in the ocean
It's apathy, stench we can't quench
Don't matter who inhabits the bench
Or wig or gown, hammer or crown, oval or down
Jokes on us, we're not even frowning
Smiling villany, the wickedest tyranny
Is the one that says fuck you so nice
You say thanks, and shake hands
Say he's your man, forget all your plans
Reach your hand out you see your in bondage
The idea of beauty is blondeness and other such nonsense
What our response is?
Conform and amputate conscience
Conform. Obey
Transform. Sleep easy
Ah, that good old human conditioning
Ever since days of the pyramids
Make us invalid, which means invalid
Wrestle with things we can't manage
Like peace and equality
Which minority is the authority?
Whoever has property, it's all idolatry
Even if you have no image of God, do you follow me?
Do we not all worship money?
When you think about it it's quite funny
Can't eat money, can't breathe money
Can't inject it and kill disease money
But we pray at it all till we're guns and tanks
And offer the money god a million sacraficial lambs
Who's the priest in charge of sacraficial plans?
Let us pray and hold hands
War is peace - ignorance strength - freedom is slavery x3
Not only do we believe that creed
We hold it deep and praise it as bravery
Along with the vision and difference
So we can maintain the belligerence
To their pain, feel no shame
It's all just stages in a video game
That our kids play kill, kill, kill

Death is such a thrill, thrill, thrill
Swallow junk, still feel ill
Take blue pill, pill, pill
Sometimes I feel like I'm losing my mind
I do beliee our nature's kind
Just confused and we're so far gone
Got no clue how to right these wrongs
So we bury our head in the sand or the desk
Anywhere but inside of our flesh
If I looked at my self - I would see I am the enemy
I am not honest nor kind nor caring nor sharing
Or any of the many thing that I pretend to be
I'm selfish and arrogant, and obedient
Follow truth only when it's convenient
Accept laws that I know that decieve me
So I can sleep in my bed easy
Don't blame governments, they are just us
If they are corrupt, then we are corrupt
Look back through history
What makes you think that we would act differently?
If we were in power
We would devourer whoever the underclass were like cowards
The question is, is this inevitable?
Is there good or evil?
Some say it's overspill from days when we were tribal
I don't buy that I think you will find that
That's an excuse if we just don't buy facts
Everything we really need to survive actually makes us feel good inside
Sex feels good, food feels good
Damn, even taking a pill feels good!
So if war and hate were our natural causes
Why would we need conditioning for it?
But I ain't gonna forfeit my privilliges
Now I'll get back in line and follow my orders

Akala - Faceless People Lyrics

Artist: Akala
Album: DoubleThink
Genre: Hip Hop/Rap

The faceless people (x4)

[Hook:]
We are the faceless people you don't ever see
We are the faceless people you don't wanna be
We are the faceless people you don't ever see
We are the faceless people, people

[Verse 1:]
As the world turns, so does my head
I need a little leg just to butter my bread
Gets a little bitter but I've gotta get fed
Never been a quitter so I've gotta get ahead
I am the invisible man, you can't be me
I am the invisible man, you can't see me
I am the invisible man but I'm 3D
Come and meet me, Mr. Invisible

[Bridge:]
We are the faceless
We are the faithfuless
Here today, tomorrow we're gone
But nothing is wrong
It's the same song, we're invisible
Nothing can change us
Or rearrange us
We come and we go but nobody knows
And nobody shows
We ain't nobody, we're invisible
We are the faceless people, people
We are the faceless people, people

[Hook:]
We are the faceless people you don't ever see
We are the faceless people you don't wanna be
We are the faceless people you don't ever see
We are the faceless people you don't wanna be

[Verse 2:]
As the world turns, so does my head
I need a little leg just to butter my bread
It's a little bitter but I've gotta get fed
And I've never been a quitter so I've gotta get ahead
I'm your worst teacher

Your favorite student
Frivolous spender, your saving is foolish
Lads on a bender, come on let's do this
I'm the pretender but I speak trueness

[Bridge:]

[Verse 3:]
Can't you see what is happening to us here
We are tearing apart tryna keep it near
Can't you see what's happening to us here, my dear...
I don't wanna wake up feeling like a wasteaway
I'm gonna save it for another rainy day
I wanna raise these stakes in the game I play
But I can feel it all slipping out my way
Because I am the invisible man, you can't see me
Being the invisible man is not easy
I am the invisible man but I'm 3D
Can't beat me, Mr. Invisible

[Bridge:]

Akala - I Don't Need Lyrics

Artist: Akala
Album: DoubleThink
Genre: Hip Hop/Rap

---

yo listen

okay.

I don't need for you to have long blonde weave down to your knees,
I don't need for you to have the latest boo tissues or Christian d'iore dress,
I don't need in-fact I don't want you to parade around in your underwear and booty shake for me in a video, I don't need for you to sing RnB.
I don't need for you to be an independent woman and I don't wanna be an independent man.
But if we can get along and laugh and talk and have sex and dream and laugh and talk and still like each other.Then maybe just maybe we can depend on each other.

I don't need for you to wear red lipstick or lip gloss or face dust, I like your face just fine as it is,
I don't need for you to paint your nails or to add fake ones i think they look kinda silly,
i don't need to see your cleavage or your thighs I'm still getting over your eyes and your smile and i don't need any more distractions.
I don't need in fact i don't want you to sit a certain way or talk like this or walk like a supermodel, I don't need you to loose weight.
I do need stimulating conversation, its like dead perez said I need mind sex,
I do need to laugh with you, I do need to dream with you, I do need to be able to be honest with you.

Maybe I'm getting old but I'm finding that when you get to know a woman vertically they can be incredibly interesting, inspiring creatures.Just watching you work, watching you think, watching you eat.Maybe I'm getting old but I cant be bothered to follow my dick around everywhere, I'm happy here and to be honest I just ain't got the energy.
Maybe I'm getting old but I feel like its okay to be vulnerable, to be upset, to admit I ain't the biggest, baddest, strongest man on the planet and sometimes I feel inadequate.
Maybe I'm getting old but I just don't need it any more

Yah know...

Akala - Peace Lyrics

Peace is on the way,
Peace is on the way.
By the sword they say.

After this, this last blow, last chop
Last drop
Peace is on the way
After this, this last scream, last shout, last trample of boot.

Just one more, one last rubble wreck where once were dreams housed,
Last plane, last flame, last sky.
Peace is on the way.

Just one more naked Vietnamese girl,
Be she Russian, Israeli, Palestinian or Great Great, Great, Really Great British.

Just one more placard wielding warrior and this last sword-slinging gunman.

Just one more song of machine-gun metal hurtling Death to outrun life

Just one more war,
Then we can have peace.

Then we can have peace.

Akala - Yours and My Children Lyrics

Artist: Akala
Album: DoubleThink
Genre: Hip Hop/Rap

Right here dangerous idea
If we did this then we couldn't feel fear
If there's no fear there's no control
If there's no control someone's gotta let go
They say I Shouldn't say too much they might delete me
Realize I don't really care about tv
Keep your awards your applause I'm easy
All I can do in this life is just be me
Pilger can say it so can Niomi Kline
Its free speech for them that's fine
Young black rapper should utter the same words
Utterly absurd nutter insane nerd
Even the fact I call myself 'black'
Social conditioning and that's a fact
The idea of races has no factual basis
It was made just to serve racists
To justify to doing to some what couldn't be done
To others but they all are our sons
Black or white all of our sons
Muslim Christian all of our sons
Look up in the sky that's all of our Sun
Last time I checked we only had one
So if some were superior

others inferior based on exterior
Well then surely the sun would know and fall in to line'
It would rain on your crops and not mine'
Air would prefer to inhabit your lungs'
Food would prefer the taste of your tongue'
If that's not the case then nature has declared
Despite what we say the worlds in fact fair
Chorus:
Kids in Iraq
Yours and my children
Kids in Iran
Yours and my children
Afghanistan
Yours and my children
Even Sudan
Yours and my children
Kids in brazil
Yours and my children
Police drive by the favela and just kill them
Kids in brazil

Yours and my children
Police drive by the favela and just kill them
Right here dangerous idea
If we did this then we couldn't feel fear
If there's no fear there's no control

Akala - Find No Enemy Lyrics

Artist: Akala
Album: Find No Enemy

Apparently I'm second generation black Caribbean
And half white Scottish whatever that means
See lately I feel confused with the boxes
Cause to me all they do is breed conflict
It's not that I've lost touch with the reality
Racism, sexism and nationality
Just to me it all seems like insanity
Why must I rob you of your humanity
To feel good about mine?
It's all about crime
Dehumanizing is how I justify it
So I must keep on lying about the history of Africa
So I can live the with massacres
And repeat my mantra of Muslim and terrorist
So I can sleep at night as bombs take flight
Eyes wide but I'm blind to the sight
Too busy chasing the perfect life
And the working class keep them uneducated
Truly educated men could never be racist
To educate is to draw out what is within
Are we not all not the same under the skin?
I got a heart like yours that pumps blood and oxygen
And insecurities are a whole lot of them I'm scared like you deep down
I really do care that world is not fair like you
But I don't even believe my own prayers like you
Chasing career going nowhere like you
Lost in a fog of my own insecurities
I hold myself up as a image of purity
And I judge everybody else
By the color of their skin or the size of their wealth
But it's not good for my health
As the only one I ever really judge is myself
The oppressor must suffer like the oppressed
Though I pretend I'm in control of this mess
By inflating my ego, puffing my chest
I see my weakness, and need to show strength
Or what we think strong is because if we're honest?
True strength is the strength to be honest
And if I'm honest I am just tired
If I'm honest I am just tired
Tired of everyday filling up my car and knowing that
I'm paying for the bombs in Iraq
Tired of pretending like it don't hurt my heart
Of wanting change but not knowing where to start
Tired of listening to all the conditioning

And all the forms they have me filling in
Next time you see what is a thug and despise him
Please know I was just like him
Cause I was like eight the first time I saw crack
Same time I first smoked weed choking on blowbacks
First time I saw knifes penetrate flesh
It was meat cleavers to the back of the head
As I grew and teenage years passed
Many more knifes pierced and the shots blast
And I not saying I had the worst upbringing
But there's a million young men just like me in prison
We complain about racism and elevate clowns
With their trousers down swinging their dicks round
Maybe that is not quite literal
But everything they do is just as stereotypical
To my real fans I feel your pain
And I get the messages, but don't complain
That we ain't got more fame for paying our part
They can keep the charts all I want is your hearts
They can keep the charts all I want is your hearts
They can keep the charts all I want is your hearts
Calling it black radio, don't make laugh
So is black music all about tits and arse?
You don't represent nothing, you're just pretending
When was the last time you ever played Hendrix?
Or Miles Davis or John Coltrane?
Or Ella Fitzgerald or Billie Holiday?
We can call it urban to me that's cool
If urban means street, that includes jazz too
And rock for that matter
Go ask Mick Jagger or Jimmy Page what they were listening to - the blues
Not discrediting, love Zeppelin too, just giving credit where credit is due
That blood soaked word rappers still use
All it really shows is that we still self abuse
That was the word that was used to kill Kelso Cochrane and Emmett Till
That was the word that the conscience eased
And made people pleased to hung you from trees
That was the word that let the whips crack
No matter what you say you can't take it back
And I can say their black so I feel their pain easier
But 1915 look at Armenia
If the whole world is human stupidity
Though we choke ourselves to death quite literally
And I can talk with my comfortable mouth
With my comfortable clothes and my comfortable house
The tables will turn, we can but stall them
Every empire on this earth has fallen
So unless we can find another way
Maybe not today, but it will come one day
It may sound like I'm bitter but in fact truth be told I am quite the opposite
I wake everyday and am overwhelmed
Just to be alive and be like no one else

And the sheer weight of the thought of space
Is enough to keep my little ego in place
All that we chase and try to replace all along it was right in our face
The only way we can ever change anything
Is to look in the mirror and find no enemy
The only way we can ever change anything
Look in the mirror and find no enemy

Akala - What Is Real (Ill Audio) Lyrics

Artist: Akala
Album: DoubleThink
Genre: Hip Hop/Rap

Will you you talk about being from the hood, like we're glad
Wear it proud, like it's a badge
But I'll be damned if, when I'm a dad my kids don't have more than I had
Please don't confuse your situation, with identity, it's not the same thing
You were pharaohs and scholars, long before the day you were armed robbers,
But, whatever, it's dumb to be clever, better to act like your brains been severed
Like these Americans so called “artists” boasting about their latest garments
But the same labels make it very clear, they don't make clothes for dark skin
Can't you see they're laughing? The question that I'm asking.

Real,
Is it real, really?
Now is it real really?

Real,
Is it real, really? (Is it real really?)
I doubt it's real really.

Real,
Is it real, really? (dolla dolla bill y'all)
Now is it real really?

Real,
Is it real, really?
I doubt it's real really. (uh, get money)

Pop champagne cop your chain, act like you got no brain
Pop champagne cop your chain, act like you got no brain
Pop champagne cop your chain, act like you got no brain!
Come on let's pop champagne!
Come on let's pop champagne!

Sorry, if I don't dance enough for the radio to play my stuff,
And got no girls in the video playing the silly ho loco shakin' their butts
I thought that rap was about content, I see now that's just nonsense
We judge MC's by the Bentleys, and how much they can have no conscience
How many chains can you wear, and not care, the cost was a village somewhere,
Stones of begets, slowly forget, this ain't the first time there were chains on your neck,
It was much worse, choose to accept, but now vexed, just perplexed
Of course that's all us people do all day, is pop champagne and have sex!
Why am I lying, I can't stand it, Chip on my shoulders the size of a planet!
I organic on the mike and the flames I will fan it
To burn down the galaxy I'm up to the challenge
Burn down the fallacy, scorch it with talent

Burn down the anarchy, restore the balance
I am the war with New York to Paris
No fun now around me, I'm far too savage
Yeah, hittin with knowledge, 'cuz we import it, ignoramus
You're playin' the stereotype, so of course you're famous
If for just one second you took your head from out your anus
You would see the motivation for your elevation

What is real?
Is it how much you make in the dollar bills?
What is real?
Is it how many you say you're gonna kill?
What is real?
Or is it something that I can truly feel?
Please tell me, please tell me, please tell me
What is real?

What is real?
Is it how much you make in the dollar bills?
What is real?
Is it how many you say you're gonna kill?
What is real?
Or is it something that I can truly feel?
Please tell me, please tell me, please tell me
What is real?

Still, I got love for you, though it's very clear that you hate yourself,
I'm just saying don't fall for the crap, being from the ghetto don't make you more black
Also the fact: this is bigger than the color of your skin,
It's a matter that we're all in,
Dumber you act, the bigger the cheer,
The bigger the fool, the bigger career,
It's about playing a role, the educated can't be controlled
It's about playing a role, the educated can't be controlled
So by keeping yourself dumb, keeping yourself under the thumb
By keeping yourself dumb, keeping yourself under the thumb
(Feeding your face on the foods that are?) dumb, keeping yourself eating the crumbs,
elevating some fool with a gun, keeping ourselves numb,
So we can fit in in a world where the price of life is less than the cost of living,
So we can fit in in a world where the price of life is less than the cost of living,

Have you forgotten what is real?
Close your eyes and don't believe that all you see is all you feel.

Couple tattoos, few bullet wounds? Silly songs? Illiterate tunes?
That tattoo may as well say coon, may as well grunt just like a baboon
That's what people see when they look at me, though they may applaud my stupidity
It's like sharks in a shark tank, watch them tear each other apart
Find the sharks entertaining, but that don't mean that we think they're smart,
Or are for that matter, you maybe call yourself a rapper,
Disrespect women, but, but you are the one who is a slapper,
You get paid to degrade yourself, publicly castrate yourself

What is real?
Is it how much you make in the dollar bills?
What is real?
Is it how many you say you're gonna kill?
What is real?
Or is it something that I can truly feel?
Please tell me, please tell me, please tell me
What is real?

What is real?
Is it how much you make in the dollar bills?
What is real?
Is it how many you say you're gonna kill?
What is real?
Or is it something that I can truly feel?
Please tell me, please tell me, please tell me
What is real?

We all play our positions, convinced that we are so different,
Accept these doctrines, and this nonsense, and we take these options,
Without one second, never questioning just what the cost is,
You're not a hater, you can't relate to the lowest denominator, dominator!
No, I don't wanna read the Source, I'd rather read some of Plato's thoughts,
Of course, let us not ever forget, the place in which where he was taught,
So if it ain't clear, none of these clown rappers could be my peers,
It's philosophical, historical, speculations that I thought were rhetorical,
like what's real, is it my face if an atom is nothing but empty space?
Why the rock feel solid when I'm on it and a comet could collide with the Earth and dislodge it?
Or maybe sonnets, metaphoric, promises the tonic for all that (is chronic?)
Illness, apathy, ignorance tapestry that they weave to turn us into batteries.

What is real?
What is real?
What is real?
Please tell me, please tell me, please tell me
What is real?
Please tell me, please tell me, please tell me
What is real?

Have you forgotten what is real?
Close your eyes and don't believe that all you see is all you feel.

Akala - It's Not That Serious Lyrics

Artist: Akala
Album: DoubleThink
Genre: Hip Hop/Rap

I know we only live our life based on what they think
Cause we think it matters but I reckon
If we didn't care for just one second
We'd be much happier
Realize your life is your's to live
Tell your friends or your parents and what they think
You want the whole thing
Four kids and a good job a big house and quiet down
And thats cool, stay in school. Go to uni with those like you
If on the other hand you want to travel the world just to meditate
Thats what you should do
You don't need permission from the state line commission just to be who you are
Follow your heart, follow your dreams like a kid again
They want to write you off, with the end of the bitter pen, let them have it
They'll come around eventually
If not it wasn't meant to be
Its their problem
June or December, theres one small thing that I think we should remember

It's not that serious
Sometimes I want to fight
Sometimes I want to cry
But then I must remind myself
It's not that serious
We're gonna make it through
And find a better way
That works for me and you

If you don't conform, society whips you with its displeasure
If they were happy they wouldn't care
Whichever way that you chose, what you do with your time
Long as you ain't hurtin' no one, then thats fine
Problem is we hate to see another live the life that we dream
And I don't mean big screen and flashiness
Just free, carefree, true happiness
Wake everyday excited whats to come
Never work a minute when doing something you love
So when we judge, ask why, is it because we feel life passed us by
It's never too late to get rid of the stress
Theres a whole world out there
Just look up from your desk and say that the world is mine
And if you're not having a good time, then you're wasting your time

You know, yo

People think I'm really serious, right
And I was for a long time
I'm not gonna lie and pretend I wasn't
But, then I realize that sometimes you just got enough
I mean, I'm not as serious as people think
Yeah I like to talk about the issues in the world
But at the same time, we can't let them bog us down
Yes, the world is not perfect, we all know that
Its just not that serious
Go to a comedy show, man
Take a bubble bath, or, I don't know, buy a pink dressing gown
Do something crazy that people wouldn't expect you to do
Let's drop these things called egos on the floor
Stamp on them, and try to get on with it, and realize that its just-
Just don't take yourself do god damn serious

What about the problems in the world?
Things ain't golden
Yeah, I agree
But will worrying solve them?
No, I'm not saying ignore
By all means do something if you feel for a cause
But you can't feel poor enough
To enrich one single person on this planet
And you can't feel bad enough
To fill one single soul with happiness
So, the biggest challenge we face, is just keeping a smile on our face
If stock markets crash, or girlfriends leave you, people don't like what they see when they see you
Football teams lose, bands will split
But the thing we must remember is this-
Its just not that serious
It really is not

Today walk up to somebody and talk to them find out how their day was
Don't worry if they think you're crazy- which they probably will
And you people in the train-
When you don't want no one peering over your shoulder to read your letter
Stop taking yourself so god damned seriously
Its just your newspaper. If I want to read a bit of your newspaper, whats the problem?
You should open it up, and let me have a good look
Yeah? Thank you
Ladies and gentlemen, this is Akala, not taking himself very seriously
And there are probably a lot of people that are angry about that and think I've gone crazy
"Why am I not screwing up my face? Why am I not trying to be the best grime MC?"
I'm trying to make nice relaxing songs
Whats my problem? I haven't got a problem, its just that I stopped taking myself so god damn seriously
Thats it. Have a good day

Akala
KNOWLEDGE IS POWER - KNOWLEDGE IS POWER - KNOWLEDGE IS POWER
KNOWLEDGE IS POWER
MIXTAPE VOL 1

Akala - Akala - Fire in the Booth Lyrics

Yes, I grew up on the dole in a single parent family
Been through a little bit of tragedy
Yes I was around drugs and violence
Before the day that I started secondary
And that's part of it
Not half of it
Get the picture, the rest ain't necessary
Growin' up, got a little caught up
But that ain't even half of my life
I was also given the knowledge of self
That is all we actually need to survive
If you saw me aged 9, reading Malcolm just fine
Teachers still treated me stupid
Students that couldn't speak English,
they put me in groups with
And the irony is
Some of the first man to give me schoolin'
You would call gangsters
But I already explained, we know what the truth is
They used to say ‘Don't be like me'
Yeah I got a name and dough on the street
Night time comes, I can't sleep
And that's the part that rappers don't speak
We don't hit the road cos we are thugs
Don't come out the womb, wanting to sell drugs
If we got the right guidance and love
Would we fight people just like us?
How could I knock the hustle to get by?
How do you think I ate as a child?
Judge no one, done many things wrong
I just don't boast about it songs
But listen to my older bars
I was just as confused as you probably are
But you grow and you learn
Travel and f*** up,
One too many man you know get cut up
One too many man that could've been doctors
End up spending their whole life boxed up
You learn, if you study
Its all set out just to make them money
No cover, it's all about getting
poor people to fight with one another
So its logical that us killing our brothers,
Dissin' our mothers
Is right in line with the dominant philosophy of our time
But time is a cycle, not a line
Comes back around you regain your mind

You be ready for the energy I channel in my rhymes
Remedy the pedigree, the jeopardy of mine
When the world's this f***ed up, lethargy's a crime
We can all fight with our brothers over crumbs,
Far harder to fight the one who makes guns
We can all talk sh** and get two dollars
Far harder to be the one who seeks knowledge
If we understood economics
We'd know money's nothin'
Think nothing of it
Money is a means to get wealth, not the wealth itself
Don't get confused, I'm far from broke
All that you see me do I own
But I wont hang what I make around my neck
I know from where that the diamonds came
But I do quite literally own a library,
That definitely costs more than your chain
And businesses, and properties
Far from starvin', I eat quite properly
And I don't care, just said it for the kids
Who need to know that you're not broke to listen
Don't know an asset from a liability
They've never been shown or told the difference
So they don't change situations
Richest man in Britain is Asian
That's significant, not coincidence,
Asian people build businesses,
Not by flossin/going out shoppin'
Giving out their culture for everyone's profit
Who run's Bollywood? Indian people
Who owns our shit?
So we shake our arse and dance
As if racism just upped and vanished
But has it? No its right on course
You're beaten so bad, you're trained to ignore
Let me not just make sweeping statements
Gimme a second, I'll explain it
For small amounts of drug possession there's more black people
in jail in America than there is for rape and a
rmed robbery and murder all put together
You can say they're just locking up thugs,
Imagine if they locked up every
middle class kid that had ever held drugs,
Oh that's right, that'd be your kids!
Bigger than that what is going on with this,
Prison in America's a private business
They get paid 50k per year per inmate by the State, just wait…
Also legally are allowed to use their prison inmates as slaves
Cheap slave labour, big corporations
They come out of jail, can't get a job
So when we celebrate going to jail,
We are LITERALLY CELEBRATING ENSLAVEMENT

Add to that, that the hood that you're livin'
Engineered social condition that breeds crime by design
Where do you think you get your nine?
You can say that they're just black,
But I like to deal with facts
In the 1920s you would've found in America
Black towns,
Prospering centres of economics
and education to make you proud
But some people couldn't bear
that the former slaves would not just lie down
So the KKK and other hate groups burnt
those towns to the ground
Killin hundreds,
If it ain't understood,
You think you were always livin' in the hood?
Shit it's only been sixty years
Since they hung blacks and burned em'
And that was so cool
Day reel passes, picnic baskets
Even gave kids the day off school
To go see a lynchin'
Have a picnic
It's fun to watch the little monkeys die(!)
Then people act a little dysfunctional
You wanna pretend that you don't know why
If your colour means you can be killed
And you're powerless to get justice about it
Is it difficult to figure out
how you would then end up feelin' about it?
And that ain't excuses,
Just dealing with the roots of abuses
that make a reality
Where a generation of young men
speak of ourselves as dirt casually
That's America,
This Britain,
Some things are similar,
Some different,
In this country the first enslaved were the working class
What's changed?
Worst jobs, worst conditions
Worst taxed, look where you're livin'
You go to the pub, Friday night,
You will fight with a guy,
Don't know what for,
But won't fight with a guy, suit and a tie,
Who sends your kids to die in a war,
They don't sell the kids of the richer politicians,
It's your kids, the poor british
That they send to go die in a foreign land
For these wars you don't understand,

Yeah they say that you're British
And that lovely patriotism they feed ya
But in reality you have more in common with immigrants
Than with your leaders
I know, both side of my family
Black and white are fed ghetto mentality
Reality in this system,
Poor people are dirt regardless of shade
But with that said,
Let's not pretend that everything is the same
When our grandparents came here to Britain
If you had a criminal record you couldn't get in
Yet that ain't protect them from all the stupid,
stupid abuses they would be livin'
Kicked in the teeth,
Stabbed in the street,
Many times fired bombed our houses,
Put faeces through our letter box
And of course the cops did so much about it(!)
Daily, up to the 80s
People spittin' into my pram cos' I was a coon baby
But of course that has had no effect on why today we are crazy
And none of this was for any good reason
They were just dark and breathing
To ease the guilt now for all of this treatment
Constant stereotypes and needed
So if I celebrate how big that my dick is,
Bricks that I'm flippin'
Clips that I'm stickin'
Chicks that I'm hittin'
I'm playing my position
But if I teach a kid to be a mathematician,
Messin' with the schism,
How they gonna fill a prison when materialism is no longer our religion?
What do you think we got now in Britain?
Just like America, private prisons
Prisons for profit!
That mean when your kids go jail people make money off it,
So keep environments that breed crime
Build more jails at the same time
Market badness to the kids in the rhymes
As long as rich kids ain't dying its fine!
Get em' to the point where some are so lost
They actually believe that
if they don't celebrate killin' themselves off
That it's because they're soft
Was Malcom soft?
Was Marley soft?
Tell me was Marcus Garvey soft?
Well? Was Mohammed Ali soft?
Nah, Nah I think not!
But they want us to think that the road is cool

Being on road is all we can do
We don't control the wholesale productions
Who benefits from us movin' the food?
Or thinking there's no way out of road life
But Malcolm X used to hustle out on the roadside
When Marcus Garvey organised more than 6million people
Why is this something you cannot equal?
Shiiiiit!
One of my homeboys did a ten straight in the box in yard
Now what's he doing?
Passin' his doctorate
Don't tell me that it's too hard!
Who trained you to believe that you're inferior?
Sungbo Eredo in Nigeria are the remains of an ancient moat,
Dug 1000 years ago
20 metres wide, 70 down,
Round the remains of an ancient town
That's 400 square miles around
400 square miles around
Please, please don't believe me,
It was a documentary on BBC!
But we ain't studyin' history,
Too busy watching MTV
And MTV said wear platinum,
Now everybody wanna go and wear platinum,
And MTV said pop magnums,
Now everybody wanna go and pop magnums
If MTV said drink prune juice
You would start hearing that in tunes soon,
‘Hey! Today I wore my Cartier,
Is it now more important what I got to say?'
Oh and I drive a Mercedes by the way
So everybody listen to what I got to say
Huh, does that make you all happy?
Ahh but shit my head's still nappy
Think for myself, still some mad at me
But on the mic ain't not one bad as me
All of this here's good for the rhymes
Put us in the same place at the same time
And it's clear to everybody that I'm out of my mind
Some of these guys are runnin' out of their rhymes
Clear to everybody that has got ears
I'm the guy that they just might fear
They wanna get near but they can't have a peer
Ah dear I'm hard liquor you're just like beer
Front on the kid for another five years
Come to my shows and some cry tears
It mean that much to em', it's a movement!
I don't speak for myself but a unit,
Black, white, man, woman,
anyone that respects truth we put in
Dudes are like dinner with no puddin'

Yeah you're sweet but no substance puddin'
You could never ever be with a level on
Our songs get out played out there in Lebanon
We speak for the people properly
Not for the old fat guys in offices
And the girls love him, it ain't fair
He can't even be bothered to comb his hair
Anyway that's enough kissin' my own arse
Back to the more important task of being so shower
I got half the hood screaming "KNOWLEDGE IS POWER"
And I ain't saying that will change rap
But I do know this for a fact
Right now there's a yout' on your block
With his hands on his balls, face screwed up
Swear he don't care, don't give a fuck
That he won't let nobody caught his block
But the words go in
Open your shackles
Because once that's happened there's no going back
Once you start to see what is really happening
Who the enemy you should be attackin' is
So READ, READ, READ!
Stuck on the block, READ, READ!
Sittin' in the box, READ, READ!
Don't let them say what you can achieve
Cos when people are enslaved
One of the first things they do is stop them reading
Cos' it is well understood
that intelligent people will take their freedom
Cos' if we knew our power
we would understand that we can't be held down
If we knew our power,
we would not elevate not one of these clowns
If we knew our power,
we wouldn't get arrogant when we get two pennies
If we knew our power,
we would see what everybody sees, that we're rich already!
But never mind MCs go run for your mummy
I'm hungry, I run for my tummy
That's enough back to worshipping money
I'm off, back to the study!

Akala - Absolute Power Lyrics

Absolute power corrupts absolutely
But absolute powerlessness does the same
Its not the poverty
Its the inequality that we live with everyday that will turn us insane

Absolute power corrupts absolutely
But absolute powerlessness does the same
Its not the poverty
Its the inequality that we live with everyday that will turn us insane

In a scheme of livin' my life wasn't hard
But as far as britain goes shit I practically starved
Sleeping in a track suit, gas meter runnin' out
Electric cut off as well, candles lightin' up the house
Lookin' in my momma's eyes I see how she feels
The strain and the pain of just paying bills
It ain't real, and thats how I grew like so many more
And it is part of who I am
I am very sure
You wanna know the rage I feel in my stomach
Knowing my mum and dad split up when I was still in her stomach
And not everything that happened I will put in sixteens
But I will tell you enough so you will know what I mean
My boy's mother got cancer the same time as mine
His mother died, and mine survived
The shit was fucked back then
When I was like ten already had the mental strength
More than many grown men

Absolute power corrupts absolutely
But absolute powerlessness does the same
Its not the poverty
Its the inequality that we live with everyday that will turn us insane

This was a couple years after my step-dad left
Did he really know the crazy mess that he left?
Cos mum done' recovered from the lumps in her neck
Being poor and alone just couldn't cope with the stress
And I earn my big sis for
So much soul that night hattan left school
When she left home
I was thirteen by now
Still a little kid, innocent
Next couple years though would turn him 'to a militant
That is the result of no food in the fridge
And every other day being searched by the pigs
Fuck these patronizing teachers

Don't want my grades 'slip, trynna' emasculate me
-yeah turn me 'to a bitch
And I dont mean a woman please lemme be clear
I mean a spineless man 'cos what do they fear
Than a working class black male with a brain
When our energy is harnessed, every changed
Look at 'Pac look at Marley look at Hendrix look at Garvey
This is the potential that is wasted on a daily basis
In this racist, classist world that we live in
Still we comin' from nothing but we educate millions

Absolute power corrupts absolutely
But absolute powerlessness does the same
Its not the poverty
Its the inequality that we live with everyday that will turn us insane

I understand why it scares you
Its like how dare you
Overcome obstacles that we have been careful to
Place in your way every step of the way
In this so called democracy where kids get sprayed
Blacks and the Asians, Turks and the chavs
Crowded in council flats, living like ants
And who's more confused than the poor white trash
Spouting the bullshit about they want their country back
It never was yours, you should read more
What they did to brown people they did to their own poor
Peoples memories short, so much that im seeing
Black and asian kids cussing eastern Europeans
No pot to piss in, makes competition
I fail to see how this is an effective system
Cats and dogs in America and Britain
Eat better food then most of humanity
We spend our technology only on killin'
How is this more than sophisticated savagery
Its like its said, the world is a stage
Each person's just an actor with a part to play
Like the middle class kids, - kids of the rich
Have everything, but yet still they pissed
On coke and ketamine, strung out on heroin
I ain't generalizing, look at the evidence

Absolute power corrupts absolutely
But absolute powerlessness does the same
Its not the poverty
Its the inequality that we live with everyday that will turn us insane

Go to Glastonbury any year
You will see, unlike carnival
It won't be crawling with police
This is London, the kids on the very next street
Had a very different life experience than me

In my experience they can't help but be smug
After a lifetime of what they think's just good luck
They're still more anxious
And more frank cos'
Unearned privilege weigh's like an anchor
That's why they copy what we do, tryna' be what they not
They will grow up though and get better jobs
They will maintain the system they claim that they hated
But they can't burn it down they got a stake in this matrix
Hip-hop is just a fad to them, you didn't know?
But to us, this our living breathing soul
And yeah they might backpack in South America
Or even volunteer in an African village
But all said and done, push comes to shove
And shit hits the fan they're middle class and British
That's just how it is, most rich brown people are just as full of shit
So more concerned with they cars and jewels
Most of the worlds poor looks just like you
So more concerned with imprivileged few
Most of the worlds poor looks just like you

Absolute power corrupts absolutely
But absolute powerlessness does the same
Its not the poverty
Its the inequality that we live with everyday that will turn us insane

Akala - Who's the Gangsta? Lyrics

Yo, Akala, listen...
Who's the Gangsta?
We claim Gangsta
Hip hop tells us we're Gansta
But do we make the straps and the scales?
Or just pack the jails
So please ask yourself
Who's the Gansta? The real Gansta

I don't give a rats arse
Or a raasclaat
Who you're spars are
Or where you par par
Don't start
Are your bars hard?
Have you mastered
How to spar with a bastard?
Been dark since the march of the Spartans
Before Eve ate the fruit of the garden
I was in pursuit of the truth like a slalom
Dodging these sergeants
Slave masters
Whether they cuffed or they feathered and tarred ‘em
Same shit
Different Jargon
Same Clip
Different cartridge
Same whip
Different master
Look closer
We ain't got past it
The shackles are not tackled
They're just different
Cattle rattle and rattle
But they collect the dividends
We're a fuel for someone else's engine
We don't run a damn thing We're just pretending
So all the big talk, don't affect me
My elders lick banks So you can't impress me
With all the talk ‘bout another mans gun
That we use to kill each other for fun
When the master sends the overseers to see us
We toss the weapon and run
Boy dem run in your yard diss your mother
Dashing her knickers all out of the cupboard
Got us face down with their feet on our neck
But we still believe we are vets

But... do we make the straps and the scales
Or just pack the jails
So please ask yourself
WHO'S THE GANGSTA?
Do we make the planes and the boats
That import the coke?
So please ask yourself
WHO'S THE GANSTA?

We blow each other's brain in
So entertaining
They drop bombs of depleted Uranium
You bruk the law?
You go to prison
They kill a couple million, stack a billion
Business as usual, death in the colonies
What is that but state to state armed robbery
Just a road move on a bigger level
Think we are mountains but we're just pebbles
Better yet a sand grain
Go pop a little champagne
But the people in the south of France are not our fans mate
Would love to live nice and happy too
But ask yourself this
Does anyone that you know control the flow of capital?
The answer is no
And if you knew the business deals man are negotiating
You would know you could never ever claim that im hatin
Vegan cuz, but I get the bacon and eggs just fine
In case you're mistaken
And if I don't like that?
I don't like that
Grew up on Big Yout and Gregory Isaacs
No surprise that
Revolution on my track
Been right there from right back
Sacred Geometry
Don't follow me
Still just an angry yout that spits horribly
Trying to live peaceful, I remember
What happened the last time I lost my temper
And believe I ain't trying to be hard
The abuse that I suffered
I'm emotionally scarred
Supposed to be only beholding the bars
Instead I'm a professor that never went to class
I write literature, they write bars
The Celtic warrior, Marooned from yard
When you compare me to these little tarts
All you are showing is you're not very smart
Real MC it's my culture

Grew up on the sound systems with the toasters
You man'a put down
Its third gear to me
Tenth planet ain't not another one near to me
When I orbit
Clicks forfeit
‘course it flows
My yout don't force it
Or try brush man off
As just conscious
Come out my face with that nonsense
Tug revolution, that's what it is
Never do we run from one of these kids
If we ain't shook with the owners of the plantation
Why would we run from a slave?
We've all got goons
That love us enough to wanna die for us
So just behave
Cause man'a old school straighteners
One two one two face of the haters
Chasing their papers
Nah!
Man are chasing freedom
But papers are making and blatantly shaking and quaking in their boots
Anytime you talk about breaking enslavement
So I do feel like Neo in the Matrix
Cause I don't understand
Why is everybody so scared of the agents
When they are powerless BLATANT
Got a little bit, but I put it on the line
Listen to the shit that I spit in my rhymes
Ali at his prime, principal first
Even if it means that I don't get heard
Cause the herds are absurd
Their hating the nerd
But the nerd's controlling the face of the earth
So I tell a man so straight I'm a nerd
But duppy a track at my worst
Cold as a blizzard in a furnace
A wizard of a wordsmith
Riddles that I chisel in stone
Perfect
Ask for yourself on the road
They'll tell you Akala is cold
He kicks knowledge for the block
Never gonna stop
Progression on my albums
Never gonna flop
When that shit's on
It starts to dawn
This whole shit is chess
And they want us to celebrate the fact that we are just pawns

But I am not on it
See
The last thing they want is man with road energy
To stop killing one another and think cleverly
And ask why you're living where you're living and how you're living
Did you create the conditions that you're raising you're kid in?
And if you didn't who did it?
Is it really for the hood
If only by crushing your aspirations
Can they maintain this here situation
Only by destroying the dreams of your kids quick
Can they keep their unearned privileges
And that is what it's all about

Akala - I'm So Cool Lyrics

Im an emcee first so guess what shithead
I can be an arrogant prick too dickhead
We all got tugs on the road that spit lead
What you choose to promote what's your intent
Man done hundreds of shows no deal
Can count countries I been and I still
Ill shit kill shit red and blue pill shit
Talk sense but tugs still feel shit
14 in coliseum with big women
Every other week when the shots kept ringing
So parden me if I don't give a fuck lately
But half of these bars emcees wanna spray me
Only care if you wanna educate me
Or great emcee like Biggie was baby
I've no response if you hate me
Don't lie to yourself claim that you don't rate me
Who else can make intelligence seem sexy
Girls try hard, still can't get me
Gotta be a queen, stay select
Grown man don't run when I get a wreck
Not any girl that can feel the sweat, heat
Push the mind sex and I change the technique
Who the fuck, you wanna claim you rep street
You ain't out there with the youts and get deep?

Im so cool playing the game
But I make my own rules
I'm so cool stay in your lane
Or you'll get took to school
Im so cool playing the game
But I make my own rules
I'm so cool, so cool so fucking cool

Many man talk shit but they got no talent
Everything that I spit classic
Known from Sudan to Zimbabwe the hard way
Livin' off the work of the words that the bard spray
Teaching my shit in the schools since the first disc
What would you think when im there, im a wordsmith
In the truest sense of the word have you heard prick
It's a new day absurd with my nerd shit
…We know Akala we know that he reads
Never run from no guy and see men bleed
We all talk tough on the track oh please!
You ain't out there on the steet
I am not superman
You are not superman

But I dont need to pretend that I am
I'de rather fight with the right foe that has stole land
Soul stone cold put a price on your soul man
You can take my wisdom for weakness sweetness
Don't belive that ‘turn the other cheek' shit
Fuck Akala with all that deep shit?
Please tell me, really whats street shit
Italian designers, chilling on the block with you
Shot rocks, pop Glocks, hop blocks with you?
We own the straps and the scales?
Or the fasion sales?
Or…just pack the jails

A military mind since back in 04
Who's relevant from then its oh so poor
Emcees come through and the last one sees
And im bleeding and breathing the meaning we feel it
Don't want credit for the message I discuss
Nuff' conscious emcees are boring as fuck
Credit cos my swag, is fly through the roof
A bop when I spit the fire in the booth
Credit cos I am the best emcee
Oh lord dear god Just flee fuck me!
Credit cos I am oh so original
You ain't the only bro that knows criminals
Don't shout out my OG's on the track
They're way too serious for all of that crap
Mans that buy yard and (yawnin) in Ghana
Might be gangstas but always were fathers
Can't rate man that is smuggling parada
Cos yout dem a struggle its dumb fuck retarded
Few emcees have got the game twisted
Don't be ashamed you're earnin' an honest living
How many fucked up cos our dad's in prison
And if they were around there would be less killing
And if you must die then die for the right cause
Die like a muthafuckin man in the right war
Die like Toussain
Die like Dessaline
Die like Malcom
Scheming on a better dream
Die for your family
Die for your Kids home
Don't die for a dumb block that you don't own

Akala - A Message Lyrics

Why are men so weak?
I ain't got the answer
Any boy can bust a nut
Takes a man to be a father and a partner
Especially young and poor, makes it harder
So we fuck and flee the glee of dicks harder
See every man wants to be loved as much as women do
But we are men, who we gonna admit it to
Especially in these streets when we pose like a killer do
When we say they're hoes does that go for our sisters too?
And I ain't saying i'm perfect
Far from it
Chauvinistic pig, but shit, i'm working on
From the day I woke up and realised that I hated women
Which is dumb, cos I was only raised by women
And I ain't saying they're perfect they would admit they ain't
But they ain't doing 99% of the rape
Male supremacy got us thinking its cool
And women are just objects we do things to

This is a message to my little sisters (this is a message!)
Growing up in this world with no father figures
Deep down need that love from a man (from a man!)
So she get it anyway that she can, yo
This is a message to my little brothers (this-is!)
Growing up in this cold world with only mothers
Trying their hardest to be a man
Gettin' the gram feed the fam only way you can (any way, yeah)

If most mothers acted exactly like most daddies do
There would be an even bigger bigger bag of homeless youths
Runnin' the streets, feeling unloved
How many so called tugs
That grew up with only mums
What if daddy stayed around
Showed him what a man was about
What if he wasn't 8 when he became the man of the house
Where would he be now?
Disciplined, smarter
Mums wouldn't have kicked him out for lookin' just like her partner
Instead when she glance at her son?
It's a reminder of the beatings that he gave her
How he mentally enslaved her
All the while he was abusing she looked at him like a savior
But nobody but herself could save her
And now her eldest son in and out of the prison and women like his daddy
And daughter 15 dropping a baby on the family

Listen
What about the daughters
We always hear about the boys madness
What about the girls born to a dad absent
Told her she was the princess, him and mummy fell out
Ever since then? quickly just lost interest
On to the next piece of skirt with a thin dress
Odd, the lessons we learn we don't sin less
We leave daughters, just because we can
And she after any affection she can have in a man
Same type of girl we turn and call a slag
I ain't sayin' I never did it i'm just sayin' its mad
Cos cuz?
Been 15 and suicidal sad
I don't know what it was
Maybe I miss my dad
All the things I never had, making me mad
In a world that says you don't have? You're basically bad
If we have half the parents
Are we half the person then?
Has it always been like this?
Is this the curse of men?
But then again, even if they stayed together
I don't know if its necessarily better
If they're at each other's throats, or just plain ignore
Parents, they fuck you up they do, that's for sure
Then we grow up
And turn up just like you
The question is?
Can we break the cycle

Akala - Get Educated Lyrics

Gordon Bennet
Im flabbergasted
Smart Barstard
Why don't he plsy his role and just act retarded
Cos when you're born single parent poor thts your place
Don't read too many books, sag your jeans screw your face
Chat shit
Act thick
Practice
Your backflips
Put your motherfucking arse out for the cameras
Providing entertainment for your cultural betters
Men of letters think we can only be good if they let us, cos
Knowledge ain't for punks, they market it like it is
Cos who the fuck wants to be Carlton from fresh prince
But geeks designed the system devisions of poleticions
Marthis, and the smiths were livin in their vison
So, Knowledge is power
For devouring cowards that showerd you
With propaganda each and every hour that's why
Malcom never died as, just another tug on the road
A symbol over the globe
Cos did you know?

The most rebellious thing you can do is get educated
Forget what they told you in school, get educated
I ain't sayin' play by the rules, get educated x4
Break the chains of their enslavement, get educated
Even if you're on the pavement, get educated
What a weapon that your brain is, get educated x2

We speak of power
When we speak of education
Free your body free your mind
What you think Toussaint did?
Planned rebellion, that's the way to use your brain kid
That's the only way were gonna make it outta this matrix but
Gotta know the basics
We can look around say that we hate it but
But how do we change it
Or rearrange it, all to replace it
Gotta step into the mind that designed ya
What do you reckon when you step into the fire
What are you reppin' is it definitely bias
Severing your effort in the ways they require?
Act like you're lesser than better
Severing [?] is clever

I know a bag of youths that act like they ain't clever
Cause it's become fashionable to say we all clap a tool
Never symbols of the state, only those that look like you
So whose love are we doin', pursuin' our ruin
The riddle ain't very hard, brother you fill the clue in
So when we clappin' our tools and play the fool
We ain't breakin' the rules, it ain't very cool, you know what to do

So you want to hide something from Blacks
Then you should put it in a book
Still some brothers won't even look, it's like they shook
Its not just us, dumber you act the more they promote it
Cos dumb people will not rebel, sure you know this
Yo, look at the dreams that they feed to our babies, your seeds
Look at the means that they tell us you make all the P's
Dumb celebrities say girls act like you're me
If you suck dick and film it, get a show on TV
Because we don't want too many women thinkin' like bell hooks
We want a bag of hookers that bend over and just cook
Our silicone addressers do anything to impress us
Of course a woman's life is lived just for the fellas
Much as the next man, I love a woman that's shaped up
But there's nothing more unattractive than a woman that play dumb
But the ego with a reason to see you
Lesser than equal to be you
But wanna keep you
At all the bullshit that we do deceitful
And we're evil
I wouldn't want to be you
Putting up with our bullshit, and I mean me too
The anger burns inside of me, violently, its dividing me
One moment I'm cool, the next I think that you're tryin' me
Cos of course I believe in peace, theoretically, generally
But if you love something then you got to defend it, see
Not tellin you be a coward, no coward could be a friend to me
You should know your enemy, cut the head of a centipede
But know the one whose head needs to get severed
For the one who just lives it cos they just don't really know no better
The yout across the block ain't your enemy brother
And if you really knew the truth you'd be defending each other

Akala - Behind My Painted Smile Lyrics

[Verse 1: Akala]
Behind my painted smile when all the revolutionary noise is nothing but a lost little boy
Confused and insecure, arrogant and oversure
An egotistical prick so come on please praise me more
It's great that my music bettered you but I contemplate murder every day so don't put me on a pedestal
Plus truly, just the vehicle the music just runs through me
In my better moments I could let the universe use me

[Lowkey]
Behind my smile there's generations of pain, self-hatred, ingrained miseducated my brain
Decimated the place where my dead relations were slain
Not just physically but mentally penetrated our veins
What you got inside hasn't gotta die once it can die a lot of times, that I promise my son
Analyse every song that I've done - tryna fight colonialism with a colonised tongue

[Hook]
Here I stand again
Living in sin
Caught up, in the dream
Behind the painted smile

[Akala Verse:2]
Behind my painted smile is the most painful grimace
This mental prison I live in cause I am so conditioned
By my privilege, what a strange contradiction
To grow up brown in Britain and know that your living
Was paid for by a carcass that resembles yours
Born in the heart of the empire
You're worth more than I was just like you
But less then the native ones, raised by my mum but in this world I am a father's son

[Lowkey]
Behind my painted smile, a very flawed human being
Done many things that I regret and never knew the reason
What do you believe in, truth or freedom or are you deceiving?
I don't wanna die in prostration to European's
They say the answer is within you and nowhere else
Understand the vision man on a mission to know himself
This is for my co-defendants no retreat and no surrender
You probably think that we don't remember Ota Benga

[Hook]

[Akala verse:3]
The smile is painted on my face is tainted by a frown
Picture in the pocket's of blood that decorate the town
Trigger jum bullets sung and guns hum

Then everyone that's dead was somebody's someone

[Lowkey]
Behind my painted smile I feel like a naked child
Maybe rapping ain't for now cos my passion is fading out
Up early though I search and roam along this dirty road
Just another traveller taking a long journey home

[Akala]
All this talk of intervention to protect on what is the intention
Same as it ever was the colonial past and present
And more respect for most of the right wingers
Than the paternalistic patronising liberal bigot

[Lowkey]
Our way of life is so divine, we should intervene
Select war and export the British dream
Behind cinema screens there's much that isn't seen
George Clooney war movies never bring our children peace

[Akala]
Yo fam, you ever wake up and just feel like fucking off,and never coming back to this place and just cutting off?

[Lowkey]
All the time, almost did last year the trouble was the bloody cops had me running in and out the bloody dock

[Akala]
I been there brother, though I don't promote it in this rap shit, I ain't a stranger to having my back on their blue plastic

[Lowkey]
Can't keep us captive

[Akala]
We see the tactics

[Lowkey]
To keep us passive

[Akala]
We beat the fascists

[Lowkey]
Release the classics

[Akala & Lowkey]
And reach the masses!

[Hook]x2

Akala - Insert Truth Here Lyrics

Truth
Who knows it?
Definitely not me
And they say they do?
They ain't said shit
Look at their attitudes

Who Knows what the truth is
Cos when im stupid enough to claim the exclusive
Rights on nulling of the facts, bullshit
Its just another attack, causing
You to be pushed to the back, move it
If you accept that you lack, prove it
Skill's of your own
Are you groaning
Your tone
In your phone
Gonna add your pay to poem? homes?
Accept my definition
Of yourself then your in my prison
Whos reality's
Gradually
Having me
Casually
Can you fathom the insanity
Of believing the truth is held by a few
And it ain't me or you
Ain't no truths just points of view
If it ain't known then is it still true
And If God made scriptures?
Can you tell me?
What language did she write in?
And if she picked one, out of the thousands?
How is that enlightening
For those that dont speak the language
How they gonna understand it?
Or is god that underhanded
That he'd act just about as dumb as man is
People just wanna feel important
Reporting ideas of the truth extorting
Those without nothing are the ones that brought in
Look at religion its almost deporting
Hard to admit that the world we're brought in
We ain't got a clue what the fuck the force is
That makes uncountable stars in the cosmos
Easy like a painter doing odd jobs
Accept that we dont know whats what

All gonna die anyway so whats lost
Good, bad, heaven, hell
Just ideas that are sold so well
By all the people with power and privilege
To trap us in fear, living like invalids
C'mon look at the BASTARDS like
Telling you to wait for the afterlife
They Ain't gotta live with half the strife
Fuck turn the other cheek, hardest strike
For anyone that tries to take your power
And use it in their way selfish
Nah, fuck these cowards
You're as divine as anybody else is
Anyone that tries to trouble your loved ones
That is the time and the place that you can buss guns
Numb fucks livin' off trust funds
Got us down hear struggling for nuff crumbs
People end up dumb, killing over lump sums
Look how quickly we become accustom
To picture the paper that's pretty
The price of a tenant to live in the city
Life were defending has ever been shitty
They write all the endings and never been with me

Look what they feed us, leaders
Prophets a profit, think that they're Jesus
Did Jesus ask for a church collection?
Or drive a rolls royce with a turbo engine?
Lines in my voice and the words i mention?
Inspired by choice that of false pretension?
Blinded by noise of the poise of pension
Sang with my boys we are music henchmen (?)
See? the truth i mention
Beyond my own comprehension

Akala - Knowledge Is Power Lyrics

We claim we're lovin' this hip hop
Are we ready to understand it
In its fullest cultural state
Beyond its useless branding
Beyond the story that keeps us telling us the common myth
People started rapping in the 70's what a bunch of shit
Done with the talk
Im lovin New York for impact in my heart
But lets not pretend there was no foundation to this art
Cos KRS-ONE and Bam would be the first ones to say
Birth of hip hop runs far deeper within our veins
Before Kool Herc came to New York pumping 100 watts
Before the Watts Prophets, Last Poets and Gil Scott
Before there was Jazz
Before there was Blues
Before there was Cab Calloway
Before the whips the ships and all the tragedy
Before we were stripped of Knowledge of our cultural anatomy
You could be hip hop for generations you're still family
Before there were slaves, fuck the bullshit about slave music
You must have had a cultural base to even produce it
The schools of Timbuktu they already knew
The cycles of the planet and the motion of the moon
150 years before Galileo check it
And medieval Benin's in the Guinness book of records
And all of them cultures there… they had a Griot speaker
A story telling musician poet and history keeper
Who had to memorise a couple thousand oral epics
The tradition still exists today but it could get neglected
And hip hop? Needs to be understood
In its fullest context not just as a product of the hood
Cos Miles Davis was rich and still played with the same feeling
It's that cultural memory go and ask Steven
Ella Fitz Gerald scatting's basically rapping
If you know we lost our language then you know what has happened
So when you hear somebody's rapping?
The base of its is African
Its not about excluding nobody its just accurate…

KNOWLEDGE... IS... POWER!
Don't let them tell you 'bout yourself
Never that's your wealth
KNOWLEDGE... IS... POWER!
If you dont feed your mind how can you live in health?
KNOWLEDGE... IS... POWER!
Don't let them tell you 'bout yourself
Never that's your wealth

Look around hip hop's becomes this global voice
But we must understand its roots so we can have a choice
What we should do with it how to use it
How to teach our students
Cos Viacom is not our cultural institution
But it will use this culture for its prostitution
And our destruction, anything but a solution
The ghetto dilemma's as bad as its ever been
People are dead, just ain't rememberin'
Roots of the rhythm and bass
[?] thing is as good as the parts that assemble it
Hamlet is writing, we think the pencil is
People are sacred, we think the Temple is
If i'm uncomfortable you shouldn't mention it
Im superior so watch your sentences
Don't disturb my privileged pensioners
Living off ignorance of all the members of
Every one of all the people we severed off
Never one of all the people we're never soft
Any gun or the better we sell it off
Any sum of all the cheddar we level off
Cultural suicide is a necessity
To get you to worship celebrity
Cos people with a strong sense of themselves could say that we'll never be

When they say that Knowledge ain't for you and your people
They're tryna' keep you less than equal
Cos deep down in themselves, that's how they really see you
Less based on status
Or the places you was raised in
Or the shape of your faces
Degrees or bank statements
So we gotta reject Whatever they set
They're never benevolent yet
Yet we sit at a desk Collecting a check
No need to ever respect
Mess coupled by death
Tripled by theft
Look at the West and the rest
Transfer knowledge transfer the power then tell me what is left
Bliss? No ignorance
It just just his head that is numbing the pain
Only the clever shit should ever change
Our development towards an aim
No bro, push of the chain
Training the muscle is training the brain
It is the same if you push through the pain
Once you are strong you are never the same
Your manner your swagger
The way that you stand up
The way that you work with your boys as a rapper

I've seen a killer convert from a trapper
To working with yout dem and tellin' em man up
I am not telling you it will get better
But if we are to fight we must keep our jab up

C'mon my people stand up

Akala - Let It All Happen Lyrics

Artist: Akala
Album: The Thieves Banquet

[Verse 1: Akala]
Existence is resistance in a world that
Thinks the human instinct should be held back
And all of our wisdom we we should sell that
Destroy the difference that we all have

And make use clones for the throne
Serving their agendas
Even when we think we oppose
We're really their defenders

Look at what is given to those
Who chose for their repentance?
To fold to the goddess of gold and be cold henchmen
For stars spangled with banners

That dangles cars as carrots
Strangle Mars with cannons
Mangle arms with malice
And channel arms so callous
And banish bards that challenge

And challenge half the planet
The great USA
With a British dog on a leash
We are the bringers of peace into the Middle of East

You are invited to Feast
On the tasty flesh of a beast
It might be someone's seed
But why worry there is no need

We intravenously feed
On dead carcasses
Yeah they're starving cos
They wanted to own their own wealth
And they are not part of us

Most of the time I think of myself
And I can palm it off
Sometimes I think of the world
It gets me started off

[Hook]
So so what do we do now

Make ways that praise more than a few how?
Their fake ways we kill it with a tool blaw
Or go back to the way we've always done it

Whatever we do there's always gonna be division
Whatever we do there will always be a thieves' religion
Whatever we do they're just gonna build another prison
So let's just do nothing and let it all happen

Whatever we do the universe just keeps on giving
Whatever we do the Earth will always keep on spinning
Whatever we knew we still won't understand beginnings
So let's just do nothing and let it all happen

Existence is resistance in a world that
Thinks the human instinct should be held back
And all of our wisdom we should sell that
Destroy the difference that we all have

[Verse 2: Akala]
Every freedom we believe we're receiving this evening
But believing is deceiving
When there's no meaning
In not a syllable

However how lyrical
Spouted from the mouths of a clout
Devout criminals
Hegemony is as old as humanity right?

So we're told
So let us scramble for the globe until everything folds
As long as pockets always have enough dollars to fold
As long as rockets always have enough venom to scold

A daddy's daughter
A mother's son
Or anyone
That has not come to succumb to a murderer's tongue

So we're told
Worship a gun
From the palace of permanent slums
Purchase a ton
From whoever will sell you the Sun

And sell it back to whoever can give you the funds
The race is run
But I don't know if we lost or we won
It's all perception, death and resurrection
A lack of answers won't stop as asking the question

[Hook]

[Verse 3: Akala]
Resisting the system?
Please tell me what's the mission
Cos we would probably be oppressors
If given position

Yeah I try to spread a message, but really ambition
Is what is driven through my lyrics
I'm really a gimmick
Not that I don't put my heart and my soul in the words

It's just I ask
If the bars are changing the Earth
How arrogant to believe we can change it
Through art

Only slightly less arrogant than those
Who believe that we can't
So pull a bit harder
We may just crumble the house of cards

Never to slumber it's strength in numbers
Whenever we charge
There is a charge, lays these bars lace the guitars
Aim for the stars
Game for the part, straight as dart, pain from the heart
Great for the art

Start fighting
Or never should ever you pen to the page
Start writing
Or never should ever you empty the gauge

Murder a phase, verbally slayed
The coroner could not determine his age
Hard as a foreigner earning a wage
From the conservative nerd of a sage

Not heard? I'm a permanent page
Written in the ink of the blood of a slave
No cotton so burn on a wage
Buried at the bottom of the ocean of rage

[Outro]
Existence is resistance.. x15
So so what do we do now?

Akala - Lose Myself Lyrics

Artist: Akala
Album: The Thieves Banquet

feat. Josh Osho

[Intro:]
Lose myself in you
Find myself in you

[Verse 1:]
Sometimes I feel like, I'm not enough
Can you please complete me?
Or at least let me sleep with ease
Convince myself to at least release me
I wanna be more than my wealth more than my health
I think I need your help
Be all that I can more than a man that I am
But still not someone else
I put you down just projecting weight by the pound
That drowns my direction,
Hate by the pound surrounds my reflection
I do this for my own protection
Reject it before I'm neglected, defective as it is
Thats my directive, the simple truth is that, I feel protected
Only at times that we're connected, cos

[Pre-Hook:]
I wanna be more than myself
I think I need your help
This song ain't gonna write itself
I think I need your help
This wrong ain't gonna right itself
I think I need your help
I wanna be more than you know
I just wanna, I just wanna

[Hook:]
Lose myself, find myself, see myself,
Be myself, lose myself, find myself
I just wanna, I just wanna
Lose myself, find myself, see myself,
Be myself, lose myself, find myself
I just wanna, I just wanna
I wanna be more than myself
I think I need your help
I wanna be more than you know
I just wanna, I just wanna

I wanna be more than myself
I think I need your help
I wanna be more than you know
I just wanna, I just wanna

[Post-Hook:]
Lose myself in you
Find myself in you
See myself in you
Be myself with you

[Verse 2:]
Save the drama
I'm far from a knight in shinning armour
I just do the best that I can as a man
I believe in Karma
Leaving the drama, is easily harder
When you find someone, easy to partner
They ask and its easy to answer
I think I have found what I seem to be after
Cos
I wanna tune to your rhythm,
I want a guide that relies on your wisdom
Open my eyes is closing my vision
So it's no surprise that I notice division
But
I wanna be more than the ordinary
Ain't you bored of the orderly?
Just a robot you know what
You could just order me
I, pretend I'm the remedy, but I could never be
Cos of my energy, I am the enemy, always eventually
Back where it's meant to be, I'm just a remedy
So
Whatever the weather, however clever,
You never, ever endeavour, to wrestle with for ever
Want to get better? Then we gotta sever
This big ego won' work together

[Pre-Hook:]

[Hook:]

[Outro:]
Lose Myself In You

Akala - Another Reason Lyrics

Artist: Akala
Album: The Thieves Banquet

feat. Megan Quashie

[Verse 1:]
Water cuts rock, so which has more force?
As water shapes the land,
It's still willing to change it's course
So those who can't even change their own minds
Usually change nothing
Can't ever blame your own mind?
Always blame something
But in failure, hides opportunity
In divided communities still residing is unity
Waiting to show itself
Soon as we're ready to see it
The truth is always there
Soon as we are ready to be it
So we can keep pretending
What is real is just the senses
But it is all the same when
You are looking with stronger lenses
So concerned with images
But it's there in the words
Images are just imagination
And that is what is so absurd
Have you heard the Pig now knows it's fat?
And the Zebra is confused because it's white and it's black?
So what is fact right and exact when everything changes
So change the way you look at the world
The world changes

[Hook:]
Instead of reasons to die, find a reason to live
Instead of reasons to fight, find a reason to give
Instead of reasons to talk, find a reason to sing
Instead of reasons to take, find a reason to bring

Instead of reasons for I, find a reason for we
Instead of reasons to try, find a reason to be
Instead of reasons to look, find a reason to see
People, I am pleading, find another reason

[Verse 2:]
We are so busy noticing money don't grow on trees
With what the food does

And miss the food that we need
You see, I done traveled all over the isles
And seen the poorest people
With the wealthiest smiles
So what is Rich or Poor, Less or More?
What's victory? What's defeat? And who keeps the score?
Who sleeps more soundly, the Prince or the Pauper?
Who speaks more profoundly, the Professor or just the talker?
The walker or the driver, who travels the furthest?
The explorer or the pirate, who is providing a service?
Who decides what is worthless, versus what has a purpose?
Did the so-called civilized world not think the world a flat surface, just yesterday?
So, who knows what tomorrow brings?
It's often the oddest of songs that tomorrow sings
Look back through the ages, everything changes
So change the way you look at the world,
The world changes.

[Hook:]

[Breakdown:]
We find all these reasons,
To never be the person we want to be
Because I'm still healing,
All these wounds that are burned,
So deep inside of me.

[Verse 3:]
We think that we're smart
And that makes us dumb
Think that we feel the most
And that makes us numb
Weak because we think that we have the power
Because we make buildings and guns,
But not a single flower
We are just waves but think we are the ocean
Because it's easier then admitting
We don't know where the current is going
We are just flowing
Why do we feel it needs controlling
A wave just rolls with the ocean until it reaches sand
So let's roll with our part, until we reach our land
Acknowledge that the fear in our hearts, is totally in our hands
It's not a thing, we just think,
Imagine the Earth decided that it was afraid to spin?
So don't be afraid, to sing with your voice
That is what it is for
The more we run from the truth
The closer it gets to your door
Look back through the ages, everything changes
So change the way you look at yourself,
Yourself changes

[Hook:]

Akala - Old Soul Lyrics

Artist: Akala
Album: The Thieves Banquet

feat. Asheber

[Verse 1: Akala]
I don't wanna romanticize another time that's gone by
But I have to be honest and tell you that
I am an old soul, sold,
Some Nina Simone is gonna put me in the zone
Quicker then some talk of Petrone
Or Crystal or or Pistol it's oh so tedious
I want to hear some tunes
Like strange fruit with meaning in
I want to hear the wolf howling and the waters muddy
I want it to dance, want it to make me cry but also funny
Feeling that inner city blues, Marvin's the town crier
Some soul-to-soul, some azwad with dubfire
Some Gregory Isaacs, a little touch of Dennis Brown
I love the soul but nothing moves me like that Reggae sound
Jamaican blood, sound system upbringing
Our black american cousins are big influences
On the songs we are singing.
It's all Soul with Africa at it's base
So Fela and Masakela, Makeba play from the same place

[Hook: Asheber]
I remember, I remember
Do you remember?
I remember
I remember, I remember
Cause I'm just an old soul
I'm just an old soul
I'm just an old soul
Do you remember?

[Verse 2: Akala]

Akala - Malcolm Said It Lyrics

Artist: Akala
Album: 10 Years of Akala

Malcolm said it
Martin said it
Marley said it
Ali said it
Garvey said it
Toussaint said it
I weren't there but I'm sure Dessalines said it
Malcolm said it
Martin said it
Marley said it
Ali said it
Garvey said it
Lumumba said it
I weren't there but I'm sure Dessalines said it

If you ain't found something to die for
If you ain't found something to die for, you'll never live

If you ain't found something to die for you'll never live
We might feed and breathe but we never did
Accept those with peace and equality
They don't see what we call authority
Live, speak truth and kill them for
We love them dead when they speak no more
But they will endure, ideas are bulletproof
Tooth of truth it's impossible to pull it loose
We smother any mouth, they utter it
Folly Fathers fear, we Mother it
We're lovin they're corrupt government
So we look the other way when in our name they're strugglin'
We idolize 'em and we despise 'em
Cos we're reminded we're the ones who are silent
So, give a moment for the times we were blinded
Scream at the top of your lungs like a siren

Maybe the wise man has nothin' to prove
But the one who has nothing has nothing to lose
More things we don't need will make more thieves
More laws we don't heed it's all Siamese
Who leads? It don't matter, they can't make change
New driver but we got no brakes
Whatever the place, whatever the face
The master never ever frees his slave
They always knew it
So they pursue it

But we've been too divided to ever be guided through it
Gotta stop 'em because they're rotton from the days of picking cotton
To sell us a love song and we're so besotted
So confused, we believe their promise
But there are some that lead more honest
They are not forgotten, though they shot'em
So scream to the top of your lungs right from the bottom!

Malcolm said it
Martin said it
Marley said it
Ali said it
Garvey said it
Toussaint said it
I weren't there but I'm sure Dessalines said it
Malcolm said it
Martin said it
Marley said it
Ali said it
Garvey said it
Lumumba said it
I weren't there but I'm sure Dessalines said it

People don't rebel, the rebels are the tyrants
You are not God, so we are not defying
No human nature, just our behavior
The oppressed wanting their oppressor as their saviour
Around the globe killin', made to be religion
But the book said they're sinnin'
And that is just the beginnin'
Now spread democracy by dropping a bomb
On a terrorist with no shoes or socks
I reckon, history teaches us a lesson
The bigger terrorist is the one with the bigger weapons
They talked but we didn't listen
They spoke and then went missin'
We can't see all the things that imprison us
Cos we don't appreciate the freedoms that they have given us
I wouldn't bet it, that we ever get it
Run, tell your friends that Akala said it

Malcolm said it
Martin said it
Marley said it
Ali said it

Akala - The Thieves Banquet Lyrics

Artist: Akala
Album: 10 Years of Akala

Once upon a time in an obscure part of the Milky Way Galaxy, there was a spinning ball of water and rock ruled by the forces of evil. The Devil himself, proud of the magnificent achievements of his children, decided to call a special banquet for the greatest thieves in all the land. He sent invites to thousands of the greatest murders, rapists and general-assorted scum, inviting them to attend his palace at the dawn of the new moon. Each thief would be given a chance to stake his claim as the greatest messenger of murder upon the planet, and the Devil himself would then decide who should be crowned king. After many days of deliberating, all of the petty thieves, such as street criminals, have been found far short of the required level of wickedness and there were just four sets of thieves left in the competition. They were: the monarchs of empire, a cartel of bankers, the heads of religious orders, and the third-world dictators. Each set of thieves appointed a spokesman to give his case to the Devil. We have recorded these events for posterity.

Uh, listen
Uh, okay, yo
First up was the thief of the worst reputation
Dictator of a third-world nation
He looked the Devil in the eye as he spoke
In an oh-so-serious tone

Dear Mr. Devil
I am the greatest thief there has ever been on Earth
Please tell me who else more than me personifies your work
I came to power in a military coup, I murdered the elected president
He wanted to use the resources of our country for our peoples' benefit
I proved to masters in the west
I could kill my own people just as well as the best
So I took over the so-called independent country when the foreigners left
Sent squads of death to those who would suggest
In power should be the one they elect
Erected a statue of the great man
That raped our mothers, stole our lands
That's how little self-respect I have
Don't fight slavery, it makes me glad
Account in Switzerland, Rolls Royce
Murder and rape cos I want new toys
Don't want a portion, but a whole fortune
With that profit, what's a little bit of torture
Even outlawed my indigenous culture
And language and history
And taught our people to only worship colonizers
And of course, ME!

Thief!
It's the banquet of the thieves!
Come and dine with me!
It's the banquet of the thieves!

The banquet of the thieves…

The Devil was so impressed with this wonderful man
He almost ejaculated on his hands
But the monarch of the empire said,

Excuse me, Mr. Devil, I'd like to speak if I may
Who do you think trained this amateur dictator to behave this way?
Yeah, I'm sure before I came along his country was far from heaven
But look of the carnage I caused all over the Earth, it's got to be the work of the Devil
Countless deaths, mass enslavement
Deliberate starvation of whole nations
The dictator tries his best, but looking at me, he's just an imitation
Who do you think pays his wages?
He would love to be trading places
I've been doing this ting on the roads
Way back, way back, way back
Since the Middle Ages
Everybody knows he's a criminal element
They think I'm democratic and benevolent
And that shows that I'm really devilish
Cos people think I'm heaven-sent
I couldn't care about democracy
You all know no one elected me
The people love me despite my crimes
Sucka MCs wanna bite my shine
So blingin' out of control you would vomit
Don't even touch dough, but my face is on it!

I'm a pervert who's in the cloak of the clergy
Yes, I'm a pervert who's in the cloak
I'm a despicable character
I use my position of authority and spiritual reverence
I'm a despicable character

Mr. Devil, allow me to speak
For all of the religious leaders that leech
In the world of creeps, I'm initiated
I take the peoples' faith and dissipate it
With false promises, hollow oratory
Don't need a gun, it's daylight robbery
Dear Mr. Devil
I thought you would like it
How I use their faith in God to keep them blinded
Put on a nice voice, read them a book
And they believe that I am not a crook
Tell them God will repay them in the next
They give me their life savings so I can buy jets
All the reports about child sex
None of us have ever gone to jail yet
This system of stealing, so appealing
Convinces the victims their lives have meaning

Monarchs boast about conquest
But needed my blessings to get it done
And all of the dictators use my books
Therefore, they are just my sons

The Devil was sure this was the winner
And was just about to put an end to the dinner
But then the man from the banking cartel
Stepped up and said,

I think I'm the biggest sinner
All of those three depend on me
All they ever do is defending me
Cos I paid for all of the things they have
Of course, and all of the lives they lead
Paid for the guns, bombs and the tanks
That's why you see, there is always more
I turned science's basic appliance
Into a client of weapon and war
Paid for monarchies, armed robberies
I make monopolies out of property
Never shot a gun nor killed anyone myself
But billions die cos of me
Who needs a threat? I make a debt
Out of thin air, just sit back and collect
Every single day, whatever they say
The people need me just to connect it
Yet none of them knows what I look like
Yet all of them spend my money to look nice
They want more, no one's pure
I hold the keys to every single door
Sell sex and drugs, profit and lies
Earth and skies, I'll even sell life
I'll even sell freedom for the right price
But no one is smart enough to ask me nice
So Mr. Devil, give me the medal
Don't be biased
If you don't give it to me
I'll just BUY IT!

Thief!
It's the banquet of the thieves!
Come and dine with me!
It's the banquet of the thieves!
The banquet of the thieves…

Akala - Pissed Off Lyrics

Artist: Akala
Album: The Thieves Banquet

[Verse 1: Akala]
True Words are never beautiful
Beautiful words are never true
Every truly clear thing
Need never prove
If it is not enough, it will probably never do
Ever feel like someone lives your life but it is never you?
You? Not knowing if coming, going or flowing
Every door that you open
A key to another one that's broken
Every word that is spoken
Somebody else's poem
And the more that we focus
The less we ever seem to notice
It's like the sound of the letterbox early in the morning
But you know it's nothing good
Just a red letter warning
Sucking every penny that we got
'Til we ain't got a pot left
All this pressure on my back
Do we want it off off off? YES!

[Hook: Akala]
Do you feel pissed off just like me?
Do you feel pissed off just like me?
Do you feel pissed off just like me?
I got an idea just why that might be

[Bridge 1: Akala]
We touch it, we taste it, we take a sip
We feed it, we need it, it invades our lips
We hold it, we own it, it controls our grip
It's something, it's nothing
It's just how we live
I can't call it
It's something with how we live
I can't call it
It's something with how we live
I can't call it
It's something with how we live
It's something, it's nothing
It's just how we live

[Verse 2: Akala]
True Words are never beautiful

Beautiful words are never true
What is your view?
Blessings or curses, are never ever few?
The man with no mind
The one who will never choose
The skin with no feeling is the one that will never bruise
We can't feel it, we touch it, we taste it, we breathe it
We peel it, eat it, believe it, we feed it
Heed it, we need it, defeat it?
Won't even meet it
To beat it you have to seek it
Cheat it? You just release it
Beneath it you get the secret
It's not real
Guns don't kill, the people behind them do
All the ism, schisms, divisions, if you decide it's true
They are doing nothing, shit,
Just what they're designed to do
Look close enough at your enemy
And you will find it's you

[Hook & Bridge 1:Akala]

[Verse 3: Akala]
True Words are never beautiful
Beautiful words are never true
The liar is the only one in the world that is never true
Fly all over the world but never move
The only vehicle he have, we never use
Talk a lot about dreams but never do
Is this just me and you?
Stuck in this position
Wishing we even had a mission
And wouldn't spend 40 years barely chasing a living
Job that we hate with a dying soul
Boss that we'd like to strangle slow
The partner we live with we don't even know
Because the man in the mirror is just another freak show
Stand like a pillar but what do we hold?
Have a lot of things but what do we really own?
Absolutely nothing
We're just bluffing the entire show
All of our discussions
And our fussing over the price of Gold
Should we be reminded that a Diamond is just crushing coal?
And they don't own it
It's we that make up the motive
They are not giants, just notice
They only stand on our shoulders, shit
And they don't own
It's we that make up the soldiers
They are not giants, just notice

They only stand on our shoulders

[Hook 2: Akala]
Do you feel pissed off just like me?
Do you feel pissed off just like me?
Do you feel pissed off just like me?
I've got an idea why the fuck that might be

[Bridge 2: Akala]
We feel that we are not in control of our own lives
We see that we are not in control of our own lives
We taste that we are not in control of our own lives
It's clear that we are not in control of our own lives
But we are more in control, then we could ever know
But we are more in control, then we could ever know
But we are more in control, then we could ever know
The steering wheel is right there, just grab a hold

Akala - Maangamizi Lyrics

Artist: Akala
Album: 10 Years of Akala

x2
How many lives have we lost to the Maangamizi
It's way bigger than the pain that I place on the CD
If I told you all the truth would you really believe me?
It's the Maangamizi, It's the Maangamizi

Maangamizi, meaning African hellacaust
Because we paid a hell of a cost
And don't really know what was lost
And the process ain't ever stopped
Since black civilization dropped
Through internal greed and external plot
Same ones that taught the Ancient Greeks
Greece and Rome helped to bring to their knees
Then Islam spread across Northern Africa
With slavery and massacres
Too many hurt, refused to convert
Spread South and West and people dispersed
Christianity is not alone in using
Race and religion for power to expand
Desert caravans took slaves across Sand
Where they staged a revolt of the Zanj
Enemies always invented mythologies
Curse of ham, so-called prophecy
After the migration
There was some reinstatement of autonomous nations
Then floating on the waves of the seas
Came a plague, a genocidal disease
With arms and heads, they looked like men
Really they were just dogs on two legs
When they first came some of our people said "Go!"
Most welcomed them into our homes
We didn't know they had hearts of stone
Frozen by Western Europe's cold
Also, there were scumbags among us
Willing to work for white conquerors honours
And with that collaboration
Began the largest forced migration
In the history of nations

x2

How many millions dead at the bottom of the ocean?
Thrown overboard like property stolen
Or jumped overboard rather than be sold on

A mother with her baby in arms, hold on
What awaited was not just enslavement
But a genocidal impulse craving
They committed unspeakable abuses
To make a nigger from an African human
Took a woman ready to give birth
Tied her limbs to four posts held firm
In a main square made every slave watch
Covered her in raw meat
Let off a pack of dogs
If anyone watching, even a relative
Made a sound, kill them for the hell of it
This was every day, not the exception
The science of gynaecology was perfected
On black women, no anaesthetic
They said a nigger bitch couldn't feel pain, pathetic
Hang a man from a tree cut off his penis
Force people to eat their own faeces
Put people in zoos, in a cage
Chimpanzee, black human, ape
And it was upon this here atrocity
Europe became the dominant economy
Now they play games, pretend it's about names
It's a scheme for unequal trade
Imagine the largest companies today
If all of their employees got no pay
For all of the centuries profit was made
Black skin was always branded slave
Even the child of the masters rape
Could be killed or sold because black blood in her veins
But the ancestors fought back, got free
Probably have not heard of Jean-Jacque Dessalines
Probably don't know the Haitian revolution
Caused the French to sell half of America
Nor know the role that Africans played
In the Civil War for that same America
If you ain't heard of Nanny of the Maroons or Bogle
You probably believe what they told you
But if they set Africans free
Because all of a sudden they grow a conscience
Tell me this,
Why were the slave masters given compensation,
And those that suffered not given a thing?
Why did they then invade Africa?
And make Africans slaves in their home?
With the Belgians killing 10 million
Souls in the Congo alone
Why then Jim Crow, why Apartheid?
Why did Black Wall Street burn that night?
Why collaborators will work for such evil,
Willing to be tools against their own people?
Why Africom? Imperialism for the new age

But with a brown face on it
That's right imperialism for the new age
But with a brown face on it

x2

Some will try their best to justify this torture
By asking you who the slaves were brought from
As if we do not know, tell them "Get the hell out
Every genocide ever has had sell outs"
And the largest wars of humans
Were fought between the people of Western Europe
So by your rationale it's cool to kill Frenchman
They killed Germans that look like them
Absurd right? But when your skin is white
Different set of rules you can abide by
Dark suffering is not humanized
No surprise, we still see ourselves through their eyes
Darkies became legally human
During the course of our parents life
And the freedoms we have only occurred
Cos our ancestors spilled their blood to the earth
They changed that much? Are you so sure?
The world's darker people still the most poor?
So it's our task to put an end to this
Even those like me with our heritage mixed
If a knife is in your back 9 inches
And it's only been pulled out six
When the wound starts healing
And we stop bleeding and bleaching
Can it begin to fix?
When the plague of self hate
Is no longer a weight so great
Push you to kill one another
When we put a stop to false charity
That gives with one hand and bombs with the other
When the IMF and World Bank, along with their puppets
No longer strangle our nations
When the invaders don't have military bases
In so many places
When the jail cells are not packed with black backs
And the gats and the crack are no longer factors
When we celebrate true self-determination
Not a few token bit part actors
When the truth is told and there is
The dignity to remember the dead
Because as long as they are distorting the past
It means they have the intention of doing it again

Akala - Our Way, The Way Lyrics

Artist: Akala
Album: The Thieves Banquet

[Intro: Akala & Ayanna Witter Johnson]

[Ayanna Witter Johnson]
How do we, how do we find our way?
How do we, how do we find our way?

[Akala]
Talk fights wars
Silence is never to blame
Talk's forever changing
Silence is always the same
Talk likes to play
But silence is not a game
Talk only confuses
Silence only explains

[Verse 1: Akala]
So they talk
And talk and talk and talk a lot
But behind their talk is not
Any action
That goes with the rhetoric
Its bullshit even if you ain't smelling it
The word is the word
Even if you're misspelling it
If there's a heaven
There's a hell in it
If it exists, they're selling it
Got no riches? then tenements
Is where you live, with relatives
That's just good biz, development
Selling a wedding a funeral, sell
The ugly the beautiful and the unusual, sell
A life, a death, a dress an adress
Or a desk or a pound of flesh
All is acceptable, not regrettable
When we make a person a decimal
Line syllable rhyme typical
Would it be better to mime lyrical
Im just giving you my individual
Spin on the things that ive seen in the physical
I wanna know

[Hook 1: Ayanna Witter Johnson]
How do we, how do we find our way?

When they have, so many things to say
How do we, how do we find our way?
When they have, so many things to say

[Hook 1: Akala]
Talk is the fool
Silence is always the wise
Talk is the rule
Silence is only a guide

Talk is the tool
But silence is in the mind
Talkings mostly the cruel
Silence is mostly the kind

[Verse 2: Akala]
See they say so many things
But then they clip so many wings
Cos all they really wanna do is win
And they dont want anyone against
They try to dismiss our right to resist
Or to fight with the fist you gotta be joking
Writing a diss, or reciting a myth, or lighting a spliff
You must be toking or
Punch drunk off power abused, used
In the only way that it has been
Ever since any time that I can tell
Maybe its nature we're battling
The propaganda; new form of
The hunters trap that's left for the prey
But these predators will only
Get fed from filling our heads
With the words that they say
More or less, you are more or less
If you have more or you can guess the rest
The story is an old one
In my time on this earth I have told some
With a Line syllable rhyme typical
Would it be better to mime lyrical
Im just giving you my individual
Spin on the things that ive seen in the physical
I wanna know

[Hook 1: Ayanna Witter Johnson]

[Hook: Akala]
They say so much, so much they say dont they?
They say so much, so much they say dont they?
They say so much, so much they say dont they?
They say so much, so much they say dont they?

[Verse 3: Akala]

A word only defines another word
So tell me whats in a name?
Does the word blood, really tell you
What it is that flows in my veins?
May sound odd
That a poet would try to persuade you
The words you relate to
Are nothing compared to the nothing that happens when nothing
They say do they do
I suppose what I mean is this
If i really had peace of mind
I probably wouldn't speak that much
And I probably would not write these rhymes

How do we, how do we find our way?
When they have, so many things to say
How do we, how do we find our way?
When they have, so many things to say

So many things to say
So many things to say
So many things to say
So many things to say

Akala - A Game Named Life Lyrics

Artist: Akala
Album: The Thieves Banquet

And s[Verse 1]
A game named life where fools make the rules
And poets paint pictures with words that change nothing
Survival of the fittest they say, are they sure?
Or just the survival of those with the will to kill more?
The heart that thinks itself purely, surely is not hungry?
Because hungry knows too well, the world is fuckery
And nature is indifferent to the suffering of infants
That think ourselves growing human beings and something special
But as fate would have it, I ain't buying the idea of fate
It seems we shape every place that we grace with hate
Depending which side of the fence or which epoch
You die a slow death or be singing from the treetops
Praise for the status quo, cus you're comfortable
Those who lost out in this lottery, ha, fuck 'em all
Nice with this roll of the dice, I'm quite proud and
I don't know if we will ever roll another time round

[Hook - Mai Khalil]
It's a game named life
In a game named life
In a game named life
In a game named life
In a game named life
Where the dice decide where I go
There I go, in a game named life
I dream to be let go

[Verse 2]
A game named life, where fools make the rules
And poets paint pictures with words that change nothing
Young child soldier, revolver not bluffing
In a game that teaches children to kill but can't love them
What is the journey of a bullet from the ground until we pull it?
A piece of earth made blow holes in souls
I'd like to know does a child choose in its mother's core or before as just a sperm to be born in war?
Does another sperm choose greatness floating in his father's pleasure?
Or does the game only begin when the umbilical's severed?
Is that the reason babies born screaming?
Because they know they left the spirit world
To live here with no meaning among demons
That see them as nothing more than chess pieces
In a game named life where even the winners stop breathing
And the whole thing is as tedious as a tale that is told twice
We clone life but don't even own our own life

[Hook - Mai Khalil]

[Bridge - Mai Khalil]
Sacrifice, pain and strife
The game named life is over
Before we even know

[Verse 3]
Life is a mirror always looking at you
It's not what we say or think, we are just what we do
With the time that is given it comes with no ribbon
Because life is not a gift to everyone that's living
Most of the moves are made before you took your first go
Some got a huge head start before their first role
So you could play with more skill than the other players
They will still be head because the past generations
Accumulated spaces so they could practice with acres
Illuminated arrangements so they could manage retainers
Are you foolish? They ain't racing we're chasing the pay slip
So they have won before even the game starts unless we change it
To another set of rules different from the fools
But to do that we are going to have to use their tools
And therein lies our greatest dilemma
In this game named life, who's playing it better?

[Hook - Mai Khalil] x2

Akala - The Thieves Banquet, Pt. 2 Lyrics

Artist: Akala
Album: The Thieves Banquet

[Verse 1 : Akala]
Towards the end of the feast the devil decided
He was so inspired, he couldn't be bothered with giving no prizes
In fact he said he would just retire
Cos he could see that what was required
To keep our children living in fire
Could be supplied by these thieves and these liars
Who had respectable titles
So he pronounced that he would bounce
Go back to hell as his house
Co-sign his work to these thieves like it was just an ounce
We know not what what was said
But still live with the effects
Of what was agreed by the greed
That night on the Banquet of thieves
The gist is this: The devil bestowed
All of the powers for ruling the globe
Only to those who would sell their soul
And take the devilish oath

[Hook : Thieves]
I solemnly swear to steal and kill
Not because i'm hungry for meals
But because my hundreds and millions
I wanna see turned into billions
I solemnly swear to make a place
Where women and children are raped every day
Where some eat ourselves to death
And others can't get a crumb on the plate

I solemnly swear to turn the globe
Into a living hell for most
And drug with death, anything left
That grows or has a pulse

[Verse 2: Akala]
The monarchs and dictators, religious leaders and the bankers
Had one more course before they could complete the Banquet
Screaming and panting, baby children were brought on plates
The end of their tantrums came
When they were stabbed in the heart with a stake
And chopped into pieces, served raw with the blood still warm
All the thieves gobbled down the children without a second thought
The devil explained; if ever they got to a place where they suffered pain
Or the slightest of shame, for killing a child

They should leave the game
Cos the noblest aim is to turn a child’s flesh to flames
For the hollow concept called profit so known as personal gain
The devil explained, there is a god, death is his name
So treat this life as if it was nothing more than a monopoly game
So get to work
There’s people to starve and people to slaughter
And also to torture, any rebellious son or daughter
If ever you fail, or find yourself getting to frail
An angry devil will be forced to return from the comfort of hell

(rand of applause)

All the thieves got up from their seats kand gave the devil applause
Bayby’s blood dripping from their jaws, totally reddend the floor
With that the devil vanished
And left the thieves in the palace
The banker was the first to speak on how they could meet the challenge

[Banker]
Look my fellow thieves
As long as we unite on the scheme
We’ll be living with dreams
There’s never been a team this mean

[Religious leader]
Yes Spiritual death
Is what I provide at the devils request

[Monarchs of Empire]
Monarchs can make laws and the courts
That would serve and protect
Our interests and nothing else
Commoners can fuck themselves
Cos we all see, democracy will just fuck up our wealth

[Third world dictator]
That’s where I can add some value
To this gathering of men
I can kill in broad daylight
I don’t have to pretend
I can do the things that all you rich developed countries can't be seen to do in public
But we all know you love it

[Banker]
Yes!
And we can pretend we’re enemies, still at war with each other
Though we couldn’t be further from the truth we are practically lovers

[Religious leader]
You’re quite right mr Banker deception must be used
We’ll hire prostitutes to spread our views

And call it news
Another set of prostitutes that call themselves artists
To say what we tell them to
Spineless Bastards

[Monarchs of empire]
Religious leader
Thou art a wonderful thief
The last thing that we do need before our schemes complete
Is a set of puppet politicians
That talk a lot
That the people think hold the power but they're really our dogs

[Banker]
Yes yes yes, yes oh fucking yes!
Let us drink to murder and theft
Until there's nothing left

[Narrator]
The thieves took a toast of warm blood
And nearly drowned in laughter
The Bankers passed out a charter
That they had carefully drafted
For the international organisation
Of theft and murder

[Monarch of Empire]
If we could sign this in blood
It would be totally perfect!

[Akala]
That's what they did
They took the child's bleeding finger
To sign a commitment
To keep the human spirit a prisoner
That's how it's been since then
A cannibalistic system
Run by themes dressed in death
Blessed with the devils wisdom

(Akala)
KNOWLEDGE IS POWER II

Akala - Mr Fire in the Booth Lyrics

I take 'em out
(All on my own)
Cos that's the way im made
Maybe in your culture suicide is being brave
The sage of the page makes graves plagued with dark ages
And ain't no choice to be buried I only do cremating
For little idiots thats not even rated
Not even hated not even a factor that needs to be calculated
And you can't explain it, much less contain it
Roll with us or get crushed, that i've already stated
In the plainest terms
But fools never learn
Still tryna be what they're not like wearing the blondest perm
Cos of loss of purpose, I have you lost on purpose
You can't escape the furnace, so best you praise my verses
Look around the cooning's a lot
I spit a sentence quick like a judge with a coon in the dock
But these clowns with their dead sound hate me
Still they don't count like a dead brown baby

Akala - The Fall Lyrics

(Ft Amy True)

[Verse 1: Akala]

In 1492 Columbus sailed the ocean blue
Being the cunt he was, the genocide that ensued
Was half a millennia of permanent blood bath
Today we celebrate the rapist and his fucked up past
Decimate a native, leave him in our path
Death and destruction, we kick back and we just laugh
When the culture values dogs more than certain humans
It is certain it will come up with the worst solution
Decimation, erase a nation and proudly stating
Nowadays the langauge has change
But it's the same shit since the Nazi's did within Europe
What Europeans was only supposed to do to natives
The word "genocide" now carries a little weight with it
But we don't really mean it, a killer is our patriot
Ain't nothin' better than a resource theft
Ain't nothin' more sexy than black and brown death
We'll tell you what is comin' yeah we'll tell you what is next
Cause we've eaten here before, we're familiar with the chef
Hmm, what's cooking? The same dish, different dressing
The same priest, different confession
But will still give you a blessing yeah
A baptism in blood, in fact it was a flood
In fact it was some grub who packed triggers and mug
A whole nation, this is empire
The question is can we aspire to empire?

[Hook: Amy True] x2
We're living through the fall of the empire
We're living through the fall of the empire
And we don't even know what is meant by it
And we don't even know what is meant by it

[Verse 2: Amy True]
See, any foundation that is built on greed
Raping and pillaging will never succeed
We're living in the age of information
Enslavement, call it colonisation
I call is straight piss taking
Call it money or lose your debt making
Breath taking, soul destroying, back breaking
Where they crack whips for fake staters
Our society is broken down
So I don't get a loan or credit cards

See that is out of bounds
Freezing all your assets, stopping any bank or draws
Read in to the future cause the past is shiowing many flaws
We are not collateral, we are something greater than
Take a stand, let's all take our money out of filthy banks
Mental evolution, no confusion built communities
Until my last breath, I won't stop until we all are free
Shouting People's Army, see I kow there's something blessed in me
Cause when it all falls down I know there's so much meant for we

[Hook]

[Verse 3: Akala]
Colonise and savage take what is a land
Then we justify it by claiming that we already had it
Cause who needs facts when we got force?
Who needs their own minerals, we'll just take yours
We ain't talking bout music when we say tours
Rape mothers and mother nature cause they both are whores
Tell our kids every day that crime don't pay
But there's no way we believe the bullshit we say
Cause it's as clear as the light of day
The light is lighting up the way
Of those who trade in graves cause death does pay
Supply arms to both sides in the fight
And if you ain't fighting you ain't paying attention to your alliance
I know something that we ain't learnt
Yeah, maybe hell is real and one day they'll burn
But in the meantime, sure they'll earn
Till their empires done and another one gets its turn

[Hook]

[Outro: Akala]
It's over, the fall
It's over

Akala - Sun Tzu Lyrics

(Ft Asheber)

[Intro]

Any which way some of you want to come through
I’m ready for you like Sun Tzu
Ready for you like Sun Tzu
Ready for you like Sun Tzu
Any which way some of you want to come through
I’m ready for you like Sun Tzu
Ready for you like Sun Tzu
Ready for you like Sun Tzu

[Verse 1]

The art of fighting without fighting
Or fighting when you need to
It's appealing, we're peaceful but demons if we need to
Equal whatever you bring we'll meet you
This sport is a war with a discourse
Which thoroughbred horse make it through this course?
Which emcee shall I chew up for this course?
Same energy known for the sick tours
No hype man, breath control
Record a track I do the same thing live
Can't do that? Ah bless your soul
You ain’t ready for the Shaolin vibes
Wake up when it’s still dark in the sky
With the heart for the grind and an art full of rhymes
And the sharpest of lines and a spark of the mind
So bright that I’m leaving them partially blind

[Refrain]

Any which way some of you want to come through
I’m ready for you like Sun Tzu
Ready for you like Sun Tzu
Ready for you like Sun Tzu
Any which way some of you want to come through
I’m ready for you like Sun Tzu
Ready for you like Sun Tzu
Ready for you like Sun Tzu

[Hook: Asheber]

Don’t be foolish
What you want to test I for?

I’m a man on a mission
Don’t let I catch you slipping
It’s no competition
I’ve been studying the art of war

[Verse 2]

It’s the hardest of times we’re living in, isn’t it?
So why ain’t you disciplined just a little bit?
Little git, wanna throw a little hissy fit?
Here’s a question, tell me can you riddle it?
Does it take effort to make yourself really shit?
Or is that your best that you’re giving it?
Nah, it can’t be
Well, rhyming just ain’t for everyone
Now every little son of a gun seems to think
From the moment they come out their mum they are the one
Without ever having what it takes to become
Ten lifetimes ain’t enough
I was a griot, I was a Sufi
I was a Mayan priest but not in the movies
I was a druid pouring out fluid
Blessing the ancestors cos we come through them
Hundred more times I was born before
Before The Windrush came and Britain forever changed
Energy and memory it remains
In my veins and it don’t take much to reclaim
All I gotta do is say my own name
And the power of Greyskull reigns
Yes, ruthless student, nuisance mutant
Trains with the Shaolin monks, I’m reclusive
Name is a thousand thumps with a pool stick
That reigns on a silly little punk for the bullshit
Game for a round, punch and we all kick
Elbows, knees, let’s go for the full kit
Tell your G’s I’ll believe that they’re all sick
When I see degrees they achieve, we’re talking
A school called wisdom, you could go there anywhere
Yet you are never there

[Refrain]

[Hook]

[Verse 3]

It’s the art of a warrior, heart of a foreigner
That’s living in an all-white town from a toddler
Graft that your body does half wanna honour us
But you've gotta tell them that you’re past wanting followers
A class for the coroners, who the ras wanna collar us?
Kill rate way past choleras

Look at all the revellers, look at what a rebel does
Sekkle, metal can’t settle us
Dope, but the CIA can’t peddle us
Nope, we go for the throat what you telling us
Choke, on the little hope that you’re selling us
Joke, I take Britain like Severus
Cult, it’s the occult and its elements
They wanna reign high but we come to be levelers
We know the design and we’re done with the evidence
Go with the times get bun for the hell of it

[Refrain]

[Hook]

Akala - Sometimes Lyrics

When I feel like "fuck it I've had enough"
Might as well bury my head in the sand and run from the world
No music or politics, I'm done with all of it, I just can't take no more
It's easy to let the world get you down
Look around
It seems that every towns [?]
The haves, the have nots
Lives we admire
Rags to rags lot that never climb higher
We're on a ladder of life, the ladder of success
The ladder of fucking over other people the best
It's a game of chess, where the pawns get sacrificed
They got limited movement and their on the frontline
Yeah, the game's rigged from the start
This we know in our heart
Yet we pick up the dice and play a part
But would it be better to act like a spoilt little brat?
Kick over the whole game with no shame
"I ain't playin' if I can't win"
Prayin' if I can't sin
What is a wife saying to a daft king?
Not much, power's fucked
I know it runs the world, sometimes it's too much

Like "fuck it I've had enough"
Might as well bury my head in the sand and run from the world
No music or politics, I'm done with all of it, I just can't take no more
When I feel like "fuck it I've had enough" x3
In the end I'm like "Shutup you coward, just suck it all up"

Can't sleep, my mind's runnin'
On a path of it's own and I ain't sure that I'm even comin'
All night I been tryna get a wink
The sun comes up now and I ain't had a blink
I think too bloody much
All the voices go around in my mind and I can't shut 'em up
They say "ignorance is bliss"
I ain't sayin' it is
On those nights when I can't shut off, I get pissed

For me, this is most nights of the week
If we look at the world then how could we sleep?
See in my deeper moments
I can only keep the [?] on what is wrong with the world and we can't even solve it
Like we ain't involved with anything promoted than to focus on our own little selves
The rest can go to hell
How do I know it so well? It's me

Specially at those times I wanna flee from reality

Like "fuck it I've had enough"
Might as well bury my head in the sand and run from the world
No music or politics, I'm done with all of it, I just can't take no more
When I feel like "fuck it I've had enough" x3
In the end I'm like "Shutup you coward, just suck it all up"

The road to depression I'm guessin' is oiled by a choked expression
And of course naked oppression
The lessons we're supposed to learn, is not possible
Cause you are not a fool and the teacher's horrible
So what choice left is there for sensitive souls?
Fight the power or let it swallow us whole?
It is easily done, look what we've become
If we could, I'm sure we'd find a way to put out the sun
Sometimes when I feel like collapsin'
Or giving in to the times that I'm trapped in
I contemplate all the others overcoming their fears
Fighting battles far harder so that I could be here
Then I feel like the silly little boy that I am
Count my blessings in the moment and get back tothe plan
Inspiration is the strangest thing
How it travels one spirit to another, transforms how we think
I know spirit is a dirty word, in this world obsessed with what we have and what do we earn
But its the only way to explain the voices inside of you
Only satisfied when you are inspired to
Its the reason when we feel we've had enough, always in the end we manage to get back up

Like "fuck it I've had enough"
Might as well bury my head in the sand and run from the world
No music or politics, I'm done with all of it, I just can't take no more
When I feel like "fuck it I've had enough" x3
In the end I'm like "Shutup you coward, just suck it all up"

Life is hard, life is beautiful
Life is strange, and life is unusual
If life's a stage, then who wrote the musical? (Who wrote the musical?)

Akala - Murder Runs the Globe Lyrics

Every shot that thunders
Through the nighttime don't you wonder
What potential was extinguished
To keep the flames burning under?
Through the underworld and over world
Principles are so the same
Though we pretend they're not as if they do not control cocaine
But you'll find it's connected
Every kid in the hood that's living with a death wish
Is the same as the King who kills for the bling
But he is just much more reckless
It's the King that I'm talking about
Though he is born with a silver spoon in his mouth
He still gonna clap for the slightest of chat
At any world leader that can't back it
If he is sitting on the boxes
They are just oil or mineral deposits
Food he is moving fucking with our profit
So he better stop it
They say money makes the world go round, but it don't
That is just not true
If you ain't got guns to protect that money
I'll regret that, Sonny, it is more fool you
Only murder further agendas that money couldn't force
Eliminate the foes who propose
To suppose a different course, of course
A little torture is usually a big supporter
Though there's nothing quite like killing
Good riddance to non supporters
We demonize the man on the corner
Paint him as a thug
We worship murder so much
It's just that he ain't killed enough
You wanna commit murder
But not end up in cuffs?
You gotta make it to the Premier League
A thousand murders plus
Who said money makes the world go 'round?
They just didn't know
Murder runs the globe
M-m-murder runs the globe
Every knife that puncture lungs of sons
Don't make you wonder Mums?
If he was born to billionaires backed by a hundred guns
Would he be living still, drinking, sleeping, eating meals?
Instead of dead where it don't count
We expect you to be killed

Because living as a pauper is a fate that is tainted
Acquainted with torture
We ain't debating the rape of the daughter
If she was raised in particular borders
Place that fate made particular slaughters
No fate just particular orders
It's the way of the world no accident
In fact it's immaculate
You got a big gun start clapping it
Cause the language of power devour quick
Any silly biddy little pacifist or activist or challenges
Brown or black skin savages
Who inhabiting land with minerals in it
Who think for a minute that the rhetoric we spoke
Hope? Was not meant to be a joke
Don't dream compassion will happen it won't
Just go straight for the throat
Because any nation or races
That prove themselves incapable
Of matching modern murder machines
Make themselves enslavable
It is murder not money we desire insatiable
The thrilling of the killing it's million dollars sensational, YES!
What you can't do with a bribe
Can be achieved in a breeze with a gun and a knife
Because only murder further agendas that money couldn't grind
Nothing like a couple dead kids to change a parents' mind
Who said money makes the world go 'round?
They just didn't know
Murder runs the globe
M-m-murder runs the globe
Let's get a little clarity
You ain't got the capacity to internationally
Have a say in the ways things happening
You expect to collect more battering
Your arsenal it ain't got no nukes
Armies equipped with too few troops
We're laughing at you when you call truce
It's part of the ritual to shoot-shoot-shoot
You got no background in colonization
Or public resource privatization
You can't bang with the big boys, face it
But you still wanna play like Satan
You got no death squads to call your own
Or a pilot to fly your drones
Much less bulldozers for their homes
Talk gangster and you want to name Al Capone?
He was an amateur, silly little boys don't understand
Even he went jail for tax evasion
For missing a payment in the payment plan
To the man, one with invisible hand
And a hidden fist to enforce my plan

I am just because I can more wicked than the Summer of Sam
Kick your shit and I kick mine fam
You bust your gun and I bomb your land
Only murder further agendas that money can't control
Nothing like a massacred village to get the problem solved!
Who said money makes the world go 'round?
They just didn't know
Murder runs the globe
M-m-murder runs the globe

Akala - Urge to Kill Lyrics

Do you ever just have the urge to kill?
Do you ever just have the urge to kill?
Do you ever just have the urge to kill?
Do you ever just have the urge to kill?

Riddle me this, riddle me that
If murder runs the globe and this we know an accept
What do we expect when mass murder is to live happily
Those fight for freedom to face tradgedy
When you really look at the world do you feel a sickness
Couple dead kids in the world, its just business
Arm sales economy, added to the GDP
Maybe its just me, maybe I'm that (?)
Tho I'm not Siamese
I do feel your pain
And I do belive, don't make me act insane
The state murder is still murder its still murder
There's no fight that's big enough to conceal murder
Lets make a movie and celebrate our real murder
Pay a rapper to glorify niggas kill murder
But never question your oppressors or suggest murder
Should be directed in your (?)
I wonder is it absurd that we protest murder
Cos clearly they haven't heard that we detest murder
However much we detest, we cannot deny it
Cos murder has both hurt and helped human life
And anybody, everybody has a human right
To defend themselves from oppressors with a greater might
I look around this world, such a bloody sight
I wanna know

Do you ever just have the urge to kill?
When you realize that peace won't work cos they don't respect peace
Oh the feeling is so real!
When you see that murder's legal when it's done by police the beast
Do you ever just have the urge to kill?
When you see a child's body like a dog in the streets believe
Oh the feeling is so real!
When there is no justice and we can't breath
Do you ever just have the urge to kill?

Terrorism is its own religion practiced by millions
Obviously not just Muslim but also Jewish and Christian
Atheist, Hindu, Buddhist
Since when has belief
Ever stopped human beings
From being bullies

They pretend one terror is worse terror
Even while they sponsor their terror it works better
Even while they bomb their countries and burn Emma
Even while they colonise them with no letter
And we, what do we do? Pay tax to them
Maybe I'm a coward
No war was ever one by dickheads with a (?) shoutin'
Rappers can't bring you liberation
Just articulation do you share these frustrations that I am facing?
Are you one of these assholes like me
That believes there's a better world that could be?
And knows that It won't come so easily
A revolutionary love there needs to be
Everyone has the right to defend the one they love
And no uniform gives you the right to shed my blood
If the courts systematically denies what we're legally due
What should we do?
(?) for heaven and wait for better and hope that it comes true
Or, defend ourselves from you
Cos it's only when you aim your violence at your oppressors That its taboo
I wanna know

Do you ever just have the urge to kill?
When you realize that peace won't work cos they don't respect peace
Oh the feeling is so real!
When you see that murder's legal when it's done by police the beast
Do you ever just have the urge to kill?
When you see a child's body like a dog in the streets believe
Oh the feeling is so real!
When there is no justice and we can't breath
Do you ever just have the urge to kill?

Nations and nuclear bombs and colonisers
Applaud us for our silence reward us for non violence
While supporting old tyrants
Calling them all clients
They bought them with a fortune a slice of the empire
Of course the (?) tourturing is a science
To witch you should resort to kill frauds and defiers
Feel the force of the fires
Petrol poured on the tyers
Bet it more than retires
Whoever's caught in the wires

Akala - Time To Relax Lyrics

[Verse 1]

This ain't a song, it's more like a note to self
A reminder to me that I need balance
'cause I'm always working, plannin' projects and preppin'
Stressin' over the state of this world and how we affect it
This is part of the gift, the energy that I'm blessed with
But if you overuse them, then you will blunt your own weapons
How ever much you train, muscles only grow when you rest 'em
Yet I don't make enough time to stop and pause for reflection
Go and check my mum, talk about nothing much
On a sunny day, sit in the park, stare at the sun
Feed the ducks, ride a bike, shit sit in a tree
Anything to escape the stress that the city will breed
Lucky enough, that what I love is my livin'
I know that that's rare so chillin' just feels like sinnin'
But it's not, take your time, you ain't gotta say sorry
If you're always exhausted, you can't help anybody

[Chorus]

Through all the work and the wages, bills and the tax
Through all the stress and the payments and the [?]
Through all the loss and the gain and the pain we attach
Through all the stress and the strain that came with the facts
We gotta kick back, make time to relax
Gotta kick back, make time to relax
Gotta kick back, make time to relax
Kick back, make time to relax

[Verse 2]

You're not paranoid, things really are designed
To offer you absolutely no peace of mind
Maybe that's the price to be paid 'cause we're complicit in suffering all over this world that we are living in
Cars and the clothes, everything we consume
Still painted in the suffering of colourful hues
So we're tainted by the nothingness of what we'll choose
But overwhelmed by the lack of change if we refuse
So we all watch the so called news
And see their views of a bunch of mass murderers paraded as true
Enough to turn anything in person to a lunatic
Maybe thats what we already are 'cause we are used to it
But in the midst of all this
There's a bliss that you're missing
Silent moments, one that you love quietly kissin'
Starin' at the stars, realising that ours is just a world among billions of worlds that we'll never know

[Chorus]

[Verse 3]

Just take a moment to breathe, is what I’m sayin’
Breathe deep till the air in your chest is all the way in
Let it out slowly, feel the tension erodin’
Listen to the music [?] before you compose it
Just take a moment to breathe and take stock
You ain’t that important, wars will not stop if you do not
But health and longevity depends on balance between yin and yang
And so far I just haven’t
Made enough time to breathe and just chill
Keep still
They ain’t lyin’ when they say stress kills
So breathe before you punch someone in the mouth
Breathe deep before you push out and tear down the house
Breathe before you hurt yourself and your health
Maybe cliché but it really is our true source of wealth
Breathe - essence of life and of the universe
We’ve done it from birth yet we doubt that it really works

[Chorus]

Akala - Sovereign Master Lyrics

My artillery's full to the brim
With a criminal syllable peel back skin
It's a sin, more than a loss or win
If you take on him I will break your kin
With the words i'm ashame him
Cos with the words i'm a shaman
Spiritual mind elevation
Back through time on the back of the rhyme
Shackles align through back of my spine
Capturing rhyme all the facts in the line
And the timing is frighting, i'm brighter than lightning
Not a man, a character from a movie
I chew through metal while my hand breaks Uzis
Who's these floozies?
Claiming they wanna slew me
Do what you you gotta do G
I quite like fighting i've made that clear
Take your career and replace it with tears
The Shakespeare is here i take fear and peer
Into the hearts of men and show you they're cowards
But I never allow em, i'm sending them flowers
Like five man on earth that can rap with this shower
Capture, empower, in fact i'm a tower
My roots go 10 miles down in the earth
How you gonna knock man down?
Silly little clown, when you got a dig down first
Who wants what with he kid i'm the best
I don't mean it in jest like most rappers do
Do yourself a favour look back through the albums
Mixtapes, and tell me who
Has been so consistent with blistering speed
Resisting the system not captive to creed
Put things over a person
Verbally i'm worser than the most of the worst of em
Put a hearse on em, see how it looks
Put a verse on em, see if he sWorse than a crook, see the words that i took from their language
I mangle more man that banners starred spangled
Cos i'm a vandal
You look dumber than man wearing socks with their sandals
Some man still do it tho, no shame
Us man still slew it tho, no strain
Who said you'll go through with no pain
They should have told you it is no gain
The A with the A with the A with the A
And i stay every day every day every day
Cos i'm harder than Bane was, Fuck Batman!
Some prick just defending the system

You all know my name cuz, we attack man
Get moved along like blacks out of Brixton
Fact not fiction, practice my diction
Rip these pricks like zips when you'r zips (?)
If I catch you, stiff as a statue
Pain is too much for you to react to, so you just freeze
I don't really mind, i'm pleased
Better than your talk just breeze, jheeze
You don't wanna ramp with these
Siamese flows cos i'm stuck to the beat
Chief, you don't really know that's its peak
The flows so cold better hold your receipt
And take that back back, when you sold crap crap
When ya hit back back, akala is back back
The world so gully, they could all rap about books
Still have the hood go bap bap, fam
It ain't that ive seen the strap stuff, i see the bigger picture of where we are trapped at
A junction, a function, people are munching on our flesh
Cos were meat for the luncheon
So i punch them, ones that come with assumptions
That i won't rumble for lunches
Im hungry, i'm starving, bones i am munching
Fuck crews im taking on countries
Why bring your rap to a nuclear war fight?
Give it 2 sec, be dead like your hype
10 years and ive been round the world twice
Why am i lying? like 10 times
And i bend rhymes lines, to ascend minds
And i'm 10 times guys that your friends hype
Yes im the best and im blessed, so don't test
Who ever questing whether knowledge is power, are you fucking deaf?

Akala - Freedom Lyrics

(Ft Swiss & Amy True)

Free your mind
Free your goals
Free your time
Free your souls
We go out, a lot out of the way
We go out, a lot out of the way
We want our freedom, ye
We want our freedom, ye

I want freedom
I don't know the meaning and how to achieve them
'Cause freedom founded
I was thinking how freedom is
But that's the kind of freedom
That's crazy and make appealing
And all other forms of freedom
Is crazy dangerous demons
Pray your brains on the ceilings
For entertaining the meaning
It's political
Physical, spiritual and it's healing 'cause
Freedom is difficult
It requires a critical
Master the population
Not following the typical
Propaganda accused
Media supreming news
In fact it ain't even shock anymore
It's just real,mask killers
Dining on fine dinners
While preaching to us about freedom
Like we are

Free your mind
Free your goals
Free your time
Free your souls
We go out, a lot out of the way
We go out, a lot out of the way
We want our freedom, ye
We want our freedom, ye

Free your mind
Free your goals
Free your time

Free your souls
We go out, a lot out of the way
We go out, a lot out of the way
We want our freedom, ye
We want our freedom, ye

Listen, I want to be free like the number
When I feel like to wonder
Don't want to feel like I'm under
But over saturated my imaginaticial wonder
Your boxers and cotton,is something I want to come to
'Cause I'm a freedom hunter
A true terrorist, a live killer
Me and Akala brought the pen inside, five fingers
It's musical medicine
Dude want to collide with us
We fighting the spiritual war
Can I get a further witness
More fire, more power
The worst hours
I can free myself for more these cowards
The up and downs
The biggest enemy ain't a coward
In my surrounds
My biggest enemy is the enemy
I'm a stoned gutter

Free your mind
Free your goals
Free your time
Free your souls
We go out, a lot out of the way
We go out, a lot out of the way
We want our freedom, ye
We want our freedom, ye

Free your mind
Free your goals
Free your time
Free your souls
We go out, a lot out of the way
We go out, a lot out of the way
We want our freedom, ye
We want our freedom, ye

If knowledge is power then tell me please what is freedom
Can you define a single word that has many meanings
If you mean it, like I mean it
Do we really need it
Is definition another prisoner that we believe in
Can you be free in prison sitting in your cell
Can you be free of the system when you living in hell

Can you be free if the vision is too difficult to tell
'Cause we going round in circles like a dog chasing his tale
Time will tell, if we fell
If we live to tell the tale
If we will ever break the spells that they telling us well
And get free
Free from the pressure
Free from depression
Free from the lies they tell us in the history lessons
Free

Free your mind
Free your goals
Free your time
Free your souls
We go out, a lot out of the way
We go out, a lot out of the way
We want our freedom, ye
We want our freedom, ye

Free your mind
Free your goals
Free your time
Free your souls
We go out, a lot out of the way
We go out, a lot out of the way
We want our freedom, ye
We want our freedom, ye

Akala - Bang with Us? Lyrics

We've been on this ting for so long now

10 years at the top of my craft
Maybe not at the top of the charts
But who could tell me what independent touring the globe
And flows as cold as winter was in hand me down clothes
Live shows of the chain Toussaint
Seems I was born to be what you ain't
A man that uses his art to fight
But still prospers in these hard times
So what's to hate when you're known around the globe, it's great
And their known around the globe, it's fake
The respects so high that
Left you in a jail full of lifers
A man sit in silence, try that
You can't buy that, nah bruv, I am that
Not because I'm a killer but because I'm a [?] black
Cause contrary to the rumours
Our community is not a bunch of delinquents, we are students
But don't respect the system made by the killers
The ones that paint us as the villains
Back to the spittin'
Listen, who's really my competition?
Really? Is there somethin' that I'm missin'?
These kids are kittens fighting with a pitbull
Carefull my brother you'll get your ship pulled

Who can bang with us? None (What!)
Who will stand with us? Come (What!)
Who's still doubting us? Dumb (What!)
We've been on this ting for so long now
You can't bang with us, none
You won't stand with us, son
You still doubting us, dumb
We've been on this ting for so long now

I got man puzzled like "I don't get it
How is he still so well with so much message"
Don't diss the sisters, celebrate killing other blacks
But still so fuckin' hard when he raps
I give you a tip, swag through the roof
It's no excuse to be boring cause you tell the truth
When it's said and done, I'm still the same as when I started
Ain't having a bar for none of these artists
That not giving a fuck gives me strength
Now I don't use it on us, use it on them
But defend what I have to

Sit down Matthew
Just one if my deciples, take notes
This is not music, this here is a sport
Who's ready for the ring ring fire?
You man are wetter than man's hair in Shoreditch
I think it's time to retire, heir

Who can bang with us? None (What!)
Who will stand with us? Come (What!)
Who's still doubting us? Dumb (What!)
We've been on this ting for so long now
You can't bang with us, none
You won't stand with us, son
You still doubting us, dumb
We've been on this ting for so long now

It's the father, you can call me uncle Akala
What's the palava with Ghana
Fans here to Ghana, globe, every corner
Punish every punk that is posing the hardest
Told you we tarnish those that are garbage
Get left for dead for opposing the carnage
So who's next, who's the best of me clones?
Take out a town like Obama with the drones
Known for the poems that scorch gin, poor ting
Probably [?] a 12 year old girls gassed at your king
But we are grown me so only grown women
And real hip hop heads, we care for their opinion
But where are my dominions?
I swear that your Brazilian
The way you got brutalised within your own kingdom
By this German efficiency, without the bigotry
Harder than the life of a black man in Italy

Who can bang with us? None (What!)
Who will stand with us? Come (What!)
Who's still doubting us? Dumb (What!)
We've been on this ting for so long now
You can't bang with us, none
You won't stand with us, son
You still doubting us, dumb
We've been on this ting for so long now

Akala - The Journey Lyrics

(Ft Mic Righteous)

[Intro: Akala & (Mic Righteous)]
Isn't the purpose of life to give your life some purpose?
Chasing these dreams and these goals to only find they're worthless
(In this eternal circus I could turn in circles
Spins around the fire burning
We're searching for higher learning)
Distracted by higher earning
Yearning for more than what's on the surface
What if I told you that inside you were perfect
(Would you believe me or say I'm crazy man, what's your verdict?)
The furthest from the battlefield is always love and war
(The one who's on the front line, well he ain't as sure)
Don't appreciate all your blessings, you need to struggle more
(Might have the fullest plate and live amongst the poor)
If you've got a heart full of hate then you are just as flawed
(What if the journey is the destination, what you reckon, if you present)
Is a present, will you grab it with every second, or
(Would you still wreck it, given a second chance?
Now that we've even said it, nah, we ain't no better, in fact)
We're just as wreckless and we ain't got the answers
(These are just our questions)

Journey with us, journey as we ask these questions
(Journey with us, journey with us)
Journey with us, journey as we're learning lessons
(Journey with us, journey with us
Journey with us, journey with us)
We ain't got the answers
(Journey with us, journey with us)
We've just got the question
Is this what they're waiting for
Cause we give it to them straight and raw
Is this what they're waiting for
(This what they've been waiting for)

[Hook]
Every journey begins with just one step
Turn over the page, open the book, just look
Every journey begins with just one step
Put your foot in front of the other and just move

[Verse 1: Mic Righteous]
I've been livin' in a prison in my mind
You been nothin' like mine, when you talk, pigs fly
What you call this life

What you glamorize is a pack of lies
I'm with a pack of lions
You ain't playin' with my pride
That's patronising, talking to the young thugs
Who ain't ready for the pop-pop
Little akon, you don't wanna get locked up
You don't wanna be a convict
[?]
Don't you fuckin' have a concious?
I got this
Can't stop it there
That's how I felt for the last couple years
You don't wanna confront my peers
My brother just lost somebody
So I had to go back to the manor and confront my peers
And comfort my peers
All this time I'm funding my career
All this time I fancy getting here
Yeah, I'm stood in the middle of nowhere
And I broke my back just to get here
Then and there is where dad just said a prayer
Still feel the blood of the person
I was building up with me, yeah I'm prepared
Still feel the blood of the person
I was building up with me, yeah I'm aware

[Hook]

[Verse 2: Akala]
Akala and Righteous, the words we are uttering
Feel in your spirit, the pain we are summoning
Cause we came up in the suffering, now we're recovering
But it still feels like we're stuck in it
There's enough of it
Everyone's sucking the life out of people
If it doesn't toughen em
Break, crack, shatter your life
This is the journey, it ain't always nice
We have not learned to disable the lies
It seems we're determined to pay all the price
But still, I murder a rhythm like no one in Britain
I'm righteous on mics when I'm spitting
Fam, don't worry bout me I am living
Just play your position and stay out the kitchen
When the rhythm hit him in the chest, better get a vest
I'm obsessed in his steaks there on the decks
Getting vexed, it's a head stare on your neck
So who's next to express? Get it off your chest
Chess that I play, fuck the right game
Time you were sure you aboard the right plane?
This one right here it goes where I say
The journey is allowing me to focus my pain

To spit phrases, moltonize flames
You'll get burned and frozen, that's only quite tame

[Hook]

[Verse 3: Mic Righteous]
Brush off my shoulders and bubble them others
[?]
Now all the lies will just turn into mumbling, turn up my mic again
Turn up my mic so they know who the fuck it is, know when I'm coming in
You just a problem for rap, when I rap I'm a problem for governments
There's a problem in mainstream media coverage, feeding us utter shit, please keep em coming in
This year I'm encouraging anyone with the courage to go up against
The system we're stuck up in
And if you ain't with us then fuck if then
Become a pawn or become a king
Become a pauper, they die by the sword of another poor
Why are we fighting each other for?
Why are we fighting our brothers for?
What's the price of a life if you young and poor?
Looking online at a life for [?]
I got a son that needs [?]so I'm opening doors
[?] hopeless
That is more dangerous than a man who is deperate, broken
Coming back from an injury, did you missed me?
Man a wanna throw me out like a frisbee
(Where you been fam?)
Wanna know where I've been G?
(Yeah, tell me now)
I've been alone, it's a rocky road, Kingsly

[Verse 4: Akala]
It's a rocky road in the stories that we're told
Well I'm evolved from the places that we've growed
You wasn't there when the rental was in arrears
And the bailiffs came to the door
You wasn't there, didn't witness all the tears
In fact have you ever been poor before?
You sure this ain't Jersey Shore?
This is your life, it is totally raw
Uncle's is going to prison
And half of your role models getting their dough in the kitchen
Living right next to the rich kids
One street away but our struggle is totally different
I am the man of the house where I'm living
And I'm like 11, I'm destined for prison
I never went though cause I beat the system
And all of my villains is proud that I broke tradition
You don't know shit about us
Do not discuss what you cannot sus
Sus is the start of them fuckin' us up
No it wasn't just not enough luck, better suck it up

[Hook]

Akala - Don’t Piss Me Off Lyrics

You what?

Grunt

You what?

I don't like to lose my temper but they give you no choice
It's like they were born irritating, even the sound of their voice, is dedicated to testing the patience of the most saintly type, elevated
So when they are faced with us that are basic are we supposed to be able to take it? I can't, can you?
No? Well then, here's what you tell them: Don't piss me off!
It's the tone of a pompous git when he's on your shit and he just make you wanna spit but instead you bite your top like and feel like a dickhead
'Coz this ain't the time of place for a punch in the face but you just wanna humble a mug
Move peaceful with abundance of love but you're not a prick and he muddled you up
Taking him out with a straight to the mouth, sometimes that's all they understand
Taking him out and then straighten him out so he realises he won't ever shout in the face of a grown ass man again
Are you a little boy and your only 10? Like if you need to you won't defend? Must've confused you with him and his friend but when you blow your gasket shit gets drastic, you're not elastic snap like a matchstick and you will slap pricks, yeah
Hype as an Irish man on St. Patrick's

Don't piss me off
Don't piss me off
Don't piss me off
You what, you what
Don't piss me off

Don't piss me off
Don't piss me off
Don't piss me off
You what, you what, you what, you what
Don't piss me off

I don't like to lose my temper and it don't happen that often
Sometime somebody wanna be a problem and nothing else will stop them other than knowing that physical conflict ain't off the roster
Box an imposter. This ain't life or death, this ain't my family under a threat
It's just a day when a little mug gets, out of his pram 'coz he don't recollect how it could get when the left hook checks, that same mouth that spouted the mess
You ain't on road, you don't need to body no-one, unless they trouble your mum
Fuck doing life, over little backchat. That's what the elbow's for to attack that

I ain't gonna lie, when I was a younger, shit, something in an avirex in the summer
I got lucky lotta man doing bird, wanking no access to a bird. Over he said she said, what have you heard?
My ends, your ends, shit is absurd. So here's to an old school punch up, come and have a dust up, we

should be teaching the youngers

You ain't on road, you don't need to body no-one, unless they trouble your mum. We are not dumb, we know how fools are become, everyone on a knife and a gun. But we all seen too many man doing life, 50 in a cell, over the hype so let's get old school lets just fight, put up your fists and tell 'em like this!

Don't piss me off
Don't piss me off
Don't piss me off
You what, you what
Don't piss me off

Don't piss me off
Don't piss me off
You what, you what, you what, you what
Don't piss me off

(Akala talking)

Don't piss me off
Don't piss me off
Don't piss me off
You what, you what
Don't piss me off

Don't piss me off
Don't piss me off
You what, you what, you what, you what
Don't piss me off

Akala - My Mind's Changed Lyrics

(Ft Selah)

[Chorus:]
My mind’s changed
It’s part of living this life
So wrong or right
We expand our mind
Cause my mind’s changed
I don’t know what to say
Along the way many wrongs in this place
Caused my mind’s changed
The things were better before
I ain’t sure that they matter anymore
Cause my mind’s changed
My mind’s changed [x2]

[Verse 1:]
In my mind a thousand characters battle to be heard
Each one screaming at the top of there lungs
So I can’t make out a word
And all occasion
One of the fools within my cranium
Recovers the rules, discovers the tools
For good communication
And the beatens ceases a million Jigsaw pieces
Shard of my shattered childhood fit together so easy
And violence has meaning
Poverty is honourable
That’s me projecting back
From the space I am now
When you in and you live it
It is more than just horrible
Any day you wake up your life can announce
Don’t quote me statistics
That won’t cure the feelings
When I can see the life expectancy is half of my pares
I done made it to thirty
Further than my mother
Four Corners, lions went off the rails
But never did get caught
Maybe the strength from my mind
Or powers divine
Or good old fashion love will explain it just fine
Swat team never past the stick that matter
You squashed the beef
Time the lord you promise to just cock and squeeze
I want that God

I was just acting
The pride and the confines of my mind
I was trapped in
Funny how shit work
The way how we grew up
See how the other brother face straight screw up
Now I see my brothers and I see my reflections
Don’t mean not prepared for the worst
That mean I just ain’t expecting
And the fear, and the crave and protecting
The need and direction
I no longer feel the need to mask those aggressions

[Chorus]

[Verse 2:]
In my mind I would die for the things I believe
One of the mind’s greatest powers is how it deceives
And you beliefs, is silent
Tell your people dialogue
Still you got to maintain conviction and never trying to stop
And I do not, know
No can I tell u surely
Surely, that pure speculation
That’s not put before me
But what the mind conceives
I strive to achieve
It’s cliche
As the phrase say, I believe it’s true indeed
Believe is powerful
The image of christ
Got half the entire planet believing that the saviour is white
And skin bleaching and such other sickness
Must be understood within us
Mind’s more evaded by
Multi purposed layered image
Ye many different mind’s resort the same
That we share a power switch
Soon cut this cord
Disconnect from our minds
Ye I called thind mind mine
The one, know nothing is in
Can’t define it much
Cause find it doesn’t reside in my brain

[Chorus]

[Verse 3:]
In my mind is a nation of it’s own
That I don’t condone
Much less control
The occupy the form

But know that I’m the servant
More like an observer
Powerless to stop myself
Witnessing the murder
It’s a curve and I’m recurving it
Nothing is ever certain
Cause the story tell us freestyle
And making up the word
And as it goes along
Just to throw me off
So I don’t know the plot
Even though I am on screen
Take the credits from new open shops
And that may sound cryptic
But I ain’t got a clue
How to explain to you
The things that we go through
I know that you feel it too
You know more control than I
It’s a charge, I wish they find the cure so I wouldn’t die
Seem like we charged that we would call alone
Along, thinking with discipline is 20 years old
Ye I gone back in time for only two minutes
The chapter on my mind is why i produce
It’s an overload
It’s in the coded code
We know it’s on the only show
On the road
Been told, ever since it hit Rome
Never showing them the cause of the flow
That a force to change the course
So we reaping and sewing
See the mind is the reason why we fooled up a lot
And if you troubling someone's loved ones
Then we fiending for blood
I want to grow up
And grow down
And go back into the ground
And some of the things produced by the mind
Might just stick around

[Chorus] [x2]

Akala - Riddle Of Life Lyrics

(Ft Ayanna Witter-Johnson)

[Akala: verse 1]

Who can read the riddle of life
It’s a tale told by an idiot, still we can't figure it
Maybe the simplistic things
That is where the wisdom is
Freedom only has meaning if you know what a prison is
All we see is differences, death don’t distinguish ‘em
Flickering flame to the brightest light it extinguish ‘em
Then its gone little spec gone forever
The soil that covers bones decomposes whoever
Weather you’re rich or you’re clever
A buyer or seller could not trade what they made for another day even as a slave
The heathen is made by believers enraged
As a gauge to find a way, to deceive us in wage
From the, screen to the page, to the wall to the cage
I wonder if what we say
Ever really has changed
Because, we ain't got a clue from whome that we came
But giving a name is one of the ways that we entertain

[Hook : Ayanna Witter-Johnson]

Deeper
And deeper, I go
Searching for something
Unknown
Wonder
The (?) my soul
Standing for something
I love

[Verse 2]

Who can read the riddle of life
I have wondered many times if Shakespeare was right
And it signifies nothing
Just that heaven’s bluffing
But the jokes on us cos we duiscuss all this deeper stuff
(?)
Cos it all just eventually, turns into dust
Must we change our disgust for the lust of depravity?
And adjust our (?) cusp of reality
I ain't sussed enough to give myself clarity
But I do know enough not to trust any charity

Cos the, language of death
Is spoken, by a golden breath
I know that I am golden but I am not hoping to be next
Yes, I do cling to this vanity
And I dip my pen in the ink of insanity
When mind numbing disparity
Passes as normality
The comedy of history’s we don’t see it’s a tragedy

[Hook : Ayanna Witter-Johnson]

[Verse 3]

Who can read the riddle of life
We ain't given equipment for recognising the signs
So lines are unclear
Trying to undo tears is near enough impossible
We’re clung to fear
The cost of letting go, is less than we know
But still, it’s way more than we are willing to show
So we cling harder, my mother and my father
As if, they’re the only ones that gave birth to a child
They say, life is a gift but I don’t know if it is
Not because I’m pissed I literally don’t know what it is
Are we spirits from another realm cast down into this world?
Or just animals focused on how we feed ourselves
Heaven or hell what’s the perspective?
A strong desire to return to the source and we call it a death wish
But maybe, they have just settled the riddle
No beginning or end but there’s a life in the middle

Akala - Dark Corners Lyrics

[Verse 1:]
Gangster, The Revolutionary, A Rape Victim, Random Accident
Drug Addict, A Politician. Whatever our self, or worldly definition we can’t escape the [?] transition. Some characterize it as the judgement of the sinners. Others spiritualize it and they say: 'There is no difference.'
Energy ain’t created or destroyed it just changes form once we play the song the sound just travels on

[Chorus:]
Dark Corners
The Dark Corners are the place where we look death in the face
And we let it give us chase but it always gets away
Dark corners are the place where we’re running out of luck
And we cannot back it up. Death always catches up

[Verse 2:]
As the needle plunged into the vein and blood was exchanged for dosing around Afghan something was strange this time the substance he injected was pure. Everything he had before had been cut never raw. Like all users he had used to make the pain disappear and it was the only time in life that his mind had felt clear. He had struggled with the sickness ever since fourteen when he remembered the hand that touched him understood what it means. After even longer struggle he finally got clean and met a girl that made it worth pursuing his dreams. They had plans to start a family with a wedding in June. He didn’t know he was so conventional but yeah it was true so when the news came about Michelle he just lost it. Ran straight back to the same block where he used to cop it. His old connect came up in the world who’d supply a grade much higher. Went and he hit it straight fire. His skinny body went into shock and fell asleep his brains forget to tell the lungs that he needed to breathe. Dark corners. Now he’s in them dark corners. When we hit them dark corners we can’t see
But dark corners

[Verse 3]
A good girl, a normal girl that was everybody’s view and though this annoyed her
She couldn’t deny that it was true. Whatever conventional was she was it. Grew up with both parents nice house in the Sticks. Though they had never been rich they certainly did prosper
Parents from Nigeria and both of them doctors. Church every Sunday, she had never missed a week ever. School she was top of the class yet they demanded better. Went straight to Cambridge, studying law. But had strange dreams of justice and helping the poor, maybe that was part of why she chose him, didn’t know what in her mind. But he was clever and kind of a little troubled inside. Her parents wanted for her a nice Yoruba boy. So when they found out he was English they were slightly annoyed. But when they found out he was addicted to drugs it was too painful. Said they ‘wouldn’t come to the wedding it was totally shameful.’ Michelle left the house in a storm. It was a rainy night she never saw the truck before it ended her life. Her parents had decided that they would apologise. But they never got the chance in the end. We live on borrowed time and when them dark corners come. No, you cannot run. No longer shall your skin bathe in the sun, that’s right. When them dark corners come. No, you cannot run. No longer shall your skin bathe in the sun

[Chorus]
Dark Corners
The Dark Corners are the place where we look death in the face
And we let it give us chase but it always gets away

Dark corners are the place where we're running out of luck
And we cannot back it up. Death always catches up

Dark Corners are the place where we look death in the face
And we let it give us chase but it always gets away
Dark corners are the place where we're running out of luck
And we cannot back it up. Death always catches up

[Verse 4:]
Born of Old Money, yeah, born into wealth. But how well did he play with the cards he was dealt? In his life on this Earth trip, the family confessed, even his father was slightly jealous of what he accomplished. Became an icon products became the sybmols of the age each time they were released you should have seen all the craze. Seen as an innovator. The great creator but beneath all the shine and the sheen was the slave labour and of course, there was that war they were funding to keep, the minerals flowing from the African Republic when the products they released
[?] The scientist that authored the report disappeared, thus, the message is clear, as power is old
It's blood nourishes soil in which powerful grows. Power changes reality and this CEO had enough leverage that the media only painted him as gold. But despite all the wealth and the things that he owned on his deathbed he couldn't find comfort for his soul. All he could see is images of death [?] Victims of mercenaries that this government had trained, died in a cold sweat, drowned him in shame. Billions couldn't buy him another day or numb the pain

[Chorus]
Dark Corners
The Dark Corners are the place where we look death in the face
And we let it give us chase but it always gets away
Dark corners are the place where we're running out of luck
And we cannot back it up. Death always catches up
Dark Corners are the place where we look death in the face
And we let it give us chase but it always gets away
Dark corners are the place where we're running out of luck
And we cannot back it up. Death always catches up

Re-Introduction Lyrics

[Verse 1: Logic(Peoples Army)]
Uhh!
Uhh!

See let me give a RE-
introduction..
I was raised around coke sales &
guns bustin'..
Men leave they baby mothers so
they start cussin'
Everybody's robbin' everybody's
bellys cuttin'
White rice mutton n' two boiled
dumplin'
Know suttin' ..
I hear man that no nuttin' and they
shows bumpin'
As long as you're flows pumpin'
You see it don't really matter if
you show nuttin'
But I'm moving.. (moving) ----
Forever I'm improving my
strategy
To go against the grain that I live
for is blasphemy
Fam' I don't just rap for P's ..
I rap for every third world family,
Facing tragedy
I just happen to be, a man who
holds integrity
Higher than the dreams of
becoming a celebrity
Every letter speek words than I
dun' spoke
Every tune I make gets me closer
to the anti-dote
I admit I never plan to vote..
But the BNP are gettin' more

power so we have to go
And put our names down, Vote so they don't gets to have a say now
Life is a playground
See this is just an introduction..
(listen)
Are you ready for the brake-down, ready for the brake-down
See this is just an introduction
Are you ready for the brake-down, ready for the..

[Verse 2: Logic(Peoples Army)]
When I start explaining what you never thought possible is happenin' and we got a lot to loose
Simple, clock the news
They promote the bad and rarely show the good stuff
They promote the fact that life in the hoods rough
The kids are raised tough, They're made to scuff over pennies
They go jail and coming henny
Then they goin' back again, tell me is it nice in pen?
If it is then why bother comin' out !!
Innit hot when the sun is out, Me I'm to proud to never let myself down
I stand strong never fall to the obvious
I never sell out, spittin' the monotonous
See gods everywhere fam' and

hes watchin' us
I know exactly what the devil man
has got for us
See I'm here to let him know that,
dem' tings' are not for us

Haha yeah

Elevate Lyrics

[Intro: Logic(Peoples Army)]
Okay. stand up salute!
March with the troops

[Verse 1: Logic(Peoples Army)]
Cos' do you live for yourself or do

Livin' a life thats just irrelevant
Buying into fashion and the prices
keep rising
Are you the type to show you're
face or are you hidin'?
Do you trust education?
Every term the curriculum's
changin' and they still leavin' out
the slave ting'
Never give the whole truth
And did you know? that they took
the Irish, they were slaves too
We had black slave leaders who
sold blacks to white merchants
Exchanging cargo for persons
And the worst thing is, what we
do hurts the kids
Encouraging them to spoke spliffs
And have sex younger and
younger, crime is a spell that were
under
I wonder if this life will ever
change
I say its time we delegate
positions for the renegade, we
gotta elevate!

[Hook: Logic(Peoples Army)]
We gotta elevate fam' !
Outta this system that they got us in
They got us trapped in this..
Mason.. Masonite system
Ahh!, ah..

[Verse 2: Logic(Peoples Army)]
See, Cos' i know that I'm stuck in society
But i guarantee that, nobody's buyin' me
And big brothers got his eye on me, they're spyin' on you
Politicians denying the truth, tricknology (Skull&Bones!!!)
They practice pagan ideology
See I'm in touch with my issues
Never met before, but i feel I've lived in his shoes
And anyone on earth who spits truth
I won't conform! (Nah neva!)
I hate the industry and broke the norm
Pee dee pee dee, Yeah i blow my horn, I mean trumpet
If you don't like it lump it and if you do like it bump it
I bin' on the roads and done shit, in a lot of ways
Now the kids learn from us, so we gotta change
Set new Goals, new boundary's, New steps
Teach little youths it ain't all about new crepes

[Hook: Logic(Peoples Army)]
(Forget you're new trainers and
new clothes fam)
Yeah, teaching them about
consumerism yeah
That we're just buying into they're
trap
(LISTEN)

[Verse 3: Logic(Peoples Army)]
Listen, Think deep about you're
Nike a trainers
Think about the people that make
em'
The papers, the corporate
company's are makin'
There's kids in the sweatshops
bakin'
And big fat bosses Bayden
Know suttin' ..
Most man out here spittin' don't
know nuttin' and they show it
We sell weed but don't grow it
If you ain't real then you know it
I'm more than just a rapper I'm a
street poet
I'm puttin' knowledge on a
bashman beat
A Gaberlunzie, I was there fam' i
heard Malcolm speak
I politics with Luther, the king
When i spat bars bob would sing..
I mean Marley
I exchange words with Garvey,
met Gandhi and Che Guevara
Asks me what makes an army, I
said strong hearts and people
with full control
We got this on our own ends fam,
but we don't know

[Hook: Logic(Peoples Army)]
Listen!
Stand up salute
We got enough soldiers on the
ends to form a real army y'know
Imagine dat'..

[Verse 3: Logic(Peoples Army)]
Listen, young ones that out
beefin each other
It's time you made peace with
you're brothers
Same skin color, but you wanna
burst him
You see the masons plan for us to
fail, and there plans workin'
My hearts still hurtin'
Cos the yout's that live where i
live, They're dun' mad at the
wrong person
They write bars about what they
know, So it's only fair we need to
educate them about Tony Blair
And stop bangin' on each other,
Bang the system
Don't let yourself be a victim
Now listen
See i in-vision us instead of weed
pickin' up
We get CD's now niggas is a
bigga buzz
Get rid of all the junk NWO, The
new skunk
The BNP are like our Klu Klux
I hate them with a passion
Whats the point in havin' faith
fam' with no action
(Whats the point)

Money Goes Around Lyrics

[Chorus: Big Frizzle]
Money makes the world go round
This is how it all goes down
And she calls
My name
I love
Her way
Money Makes the world go round
This is how it all goes down
And she calls
My name
I love
Her way

[Verse 1: Big Cakes]
We all know how it goes down
Money makes it go round
Greed is a sickness spreadin'
through the whole town
Money is the motive
Everybody knows it
Loves in my heart and i keep that
the closest
Still!
I can't pay my bills with love
Can't go Nandos buy a meal with
love
I gotta grime in the slime like a
slug
Tryna' speed it up, certain man
are sellin' drugs
Money is my bitch i won't lie i
check it still
My souls the misses can't sell her
for a record deal
And i got a good girl that I'm
dating

She got a good job, had to keep it
cos they ?????
Had to breeze overseas i over-
stood
Said she gotta get the P's get her
out the hood
Gotta get the money babes, i ain't
bug
If you come back around they say
it's love

[Chorus: Big Frizzle]
Money makes the world go round
This is how it all goes down
And she calls
My name
I love
Her way
Money Makes the world go round
This is how it all goes down
And she calls
My name
I love
Her way

[Verse 2: Nate]
They say money makes the world
go round
But i disagree, think about it
There's much more to life than
making P's
Yeah we need to feed our
children but can't you see
It's down to us as individuals to
overstand these fees
They slavin' all my peeps
In every single street
We die for the queens head and
personally i think its '???'
Wanna know what makes the
world go round?
Ask the creator
My life has much more value than
a peice of paper
The way it controls us
The way it holds us
Keeps us searching in the gutter
looking for that gold dust
I'm in my zone trust
Lookin' for my own stuff
I don't wanna say it, but this
world is beyond fucked
The system print it
All the bankers admit it
Keepin' poor people poor stuck
within this district
We need to invest in love
We've been blessed, distribute it
like a bank
Without the interest

[Chorus: Big Frizzle]
Money makes the world go round

This is how it all goes down
And she calls
My name
I love
Her way
Money Makes the world go round
This is how it all goes down
And she calls
My name
I love
Her way

[Verse 3: Logic (Peoples Army)]
Yeah yeah yeah yeah, oi oi
Wheres mine nah not just a little
bit
The place was ram, I'm not an
idiot
I know you're tryna' skank me
Cos' if i done the same thing
To a little kid from the road there's
no doubt he'd probably wanna
shank me
Now I'm tryna' give info to
anyone who doesn't know it
In-case you're ever on the roads
thank me
Cos' it's mad what the youths
nowadays do to each other
It's for the same reasons, to stack
P's
And even thought i know that
money isn't everything
I keep tryna' think of different
ways i can get it in
Cos' without it I'm wasted
And I've never been the type to
sit down and wait for a payslip
Survival is basic
Anything else is a bonus
Money makes the world go round
but it don't own us
Sayin' that it might own you
And if it does fam' yeah i don't
need to know you

[Chorus: Big Frizzle]
Money makes the world go round
This is how it all goes down
And she calls

My name
I love
Her way
Money Makes the world go round
This is how it all goes down
And she calls
My name
I love
Her way

Do What I Wanna Do Lyrics

[Verse 1: Nolay]
I play my cards right
I got my bars tight
So fuck them haters
Cos' I'm better than 'alright'
You either love me or hate me like
marmite
But this chicks got more spark
wid her than starlight
Start right
Burn so hot in the sky that i catch
the clouds alight
A par under the moonlight
With fresh white crepes
But the roads so dirty that i step
and make a mess
Cos' I'm up and out early
I'm ready for the tension
I've seen when it kicks off and
doors get flicked off
Comin like a plot written by Alfred
Hitchcock
I run track without the pit-stop
And make a hit song, niggas like
wow and none of them the black
rob
No i can't control my god
I breaths in the fog
On the back of a ducati 916
Snobs like good god, look at her
ting'
Labeling me as if i watch the face
of anybody
Now you must be on the bobby
Two fingers up, and I'm like
You should know the meaning, of
being yourself
And stop dreamin'

Most of you have never said how you felt
Well i say what i feel, and what i wanna
And i don't give a damn if the listener thinks that its a wronger
I just wanna let off some steam sometimes
Pick the mic and let you know exactly what is on my mind
For the time, if thats how i felt at the time
(And this is how i felt right now when i write)

[Hook: Logic (Peoples Army)]
See i say what i wanna say..
I do what i wanna do..
(LISTEN)
You see i do what i wanna do
I move how i wanna move
(LISTEN)
You see i say what i wanna say
I do what i wanna do..
(LISTEN)
I do what i wanna do
I move how i wanna move

[Verse 2: Logic (Peoples Army)]
You see i say what i want, fuck you and the authoritys
Fuck the government, i live in poverty
And under covers spottin' and clockin' me cos i shot weed
I ain't been jail before, cos' I'm lowkey

A lowkeys the same as logical
Sometimes i feel like the games impossible
Cos I'm not you, my hair ain't straight and my eyes ain't blue
You wouldn't last a day fam', If you lived in my nike shoes
Accordin to yous lot thats all we use
120 yeah and still it's the poor mans shoe
And ??? beef is the poor mans food
But i love it, White rice and hard old bread fills my stomach
I speek politics, i politrick
I read more than the average but don't believe alot of the shit
Cos' i don't believe in media the obviosness
I won't conform to what they want of da bricks

[Hook: Logic (Peoples Army)]
See i say what i wanna say..
I do what i wanna do..
(LISTEN)
You see i do what i wanna do
I move how i wanna move
(LISTEN)
You see i say what i wanna say
I do what i wanna do..
(LISTEN)
I do what i wanna do
I move how i wanna move

[Verse 3: Y-Done]
Remain the outer of the game
They say it's roudy but i say like
fuck the feds
I'm bustin' led im muddin for the
change
But the fate that i crave brings me
down on my knees
Keep a speech for my feen like
you out for you're seed
I'm the reason to be muzzle, Mr
clue was to the puzzle
When they label me a nothing
cos' i grew up in the struggle
My mom broke her back to bring
in minimum wage
I blow straps if you dissin' her
name
They can't tell me nuttin'
The freedom of speech, we're all
free to speek
But when I'm done, It mean't that
home was the best for my cousin
I got issues of my own so i play
hard

Pricks better stay calm thickest
black powder cos' i raise arms
I want all kids sayin' i can
If I'm good why the fuck they ain't
playin' my jams
And i do what i wanna do
Say what i wanna say
No crash, That royal fam murder
dianne

[Hook: Logic (Peoples Army)]
See i say what i wanna say..
I do what i wanna do..
(LISTEN)
You see i do what i wanna do
I move how i wanna move
(LISTEN)
You see i say what i wanna say
I do what i wanna do..
(LISTEN)
I do what i wanna do
I move how i wanna move

So Serious Lyrics

[Intro: Logic and Shadia Mansour]
Sometimes I feel like I'm living in hell
(أوقات بشعة كأني عايشة بجهنم)
But what is hell? (أيش جهنم؟)
Who knows? and who has the answers? (مين بيعرف؟ مين عندو الجواب؟)
My soul is something that I will never sell
(انا روحي مابيبعوا ابدا)

[Hook: Shadia Mansour]
We are so serious
Pump up your fist
March to the beat if you feel me
We are so serious
Imperious
Need we demand your attention
We are so serious
Pump up your fist
March to the beat if you feel me
We are so serious
Imperious
Need we demand your attention

[Verse 1: Logic]
Listen, you see
I'm like an angel, living in hell
I'm like a man that knows the truth with no mouth so he can't tell
I'm like the cold sewers where the rats dwell
I'm like a war zone I dispatch shells
Fully loaded with energy
I'm like forever cause' there ain't

no end in me
I'm like every secret in the recipe
I am jeopardy, for the masons
I am impatient, gimme gimme
now I'm not waitin'
I am a product, of my own actions
I am a general, salute everyone
standin'
I'm a captain, all aboard
I am the one that will draw the
sword
In the name of the lord, I am logic
A Gaberlunzie a prophet
I am the talk of the town, I'm the
main topic
I'm a force where you don't
wanna try stop it
I'm the truth in the flesh, I'm a
promise

[Hook: Shadia Mansour]
We are so serious
Pump up your fist
March to the beat if you feel me
We are so serious
Imperious
Need we demand your attention
We are so serious
Pump up your fist
March to the beat if you feel me
We are so serious
Imperious
Need we demand your attention

[Verse 2: Logic]
Listen
I'm unbreakable
Unmistakable
Don't really teach, but if I need to,
I will take it all
Born over-capable
Never gonna' race to lose fam, I
am here forever
As long as I can make tracks, state
facts
Banish all the fake cats
Give every third world a full plate
back
Take that, take that, take that, oi
take that
I don't feel no union jack from the
flag
So I roll on my Harley
Black hells angel, I got a big
tattoo of Garvey
We roll deep blastin' the sounds
of Bob Marley
Smoke weed, never sniff no Bob
Warley
Never
The army, everybody must come
together
Keep screaming free free
Palestine forever
Yeah, it's revolution so get up and
stand up
Inch'Allah I make it to Jannah

[Verse 3: Shadia Mansour]
[Arabic:]
انا ما بامن بقوانين بني اي
مين ما بيفيدوني قوانين بتفضيلي

جابه
انا زي وسط الكرة الارضية
يمكن ماتفجر ايا وقت، ما تزعلني
خواصي، ليست واحدة في الجميع
اتجاهات فانا آسفة إزا مش عاجبهن
يا رؤساء، شوفوا شو خلقتوا
وحش تيفضحكوا
هه
عنجد بضحكوا

[Hook: Shadia Mansour]
We are so serious
Pump up your fist
March to the beat if you feel me
We are so serious
Imperious
Need we demand your attention
We are so serious
Pump up your fist
March to the beat if you feel me
We are so serious
Imperious
Need we demand your attention

[Outro]
Listen
Listen
So serious
Listen
Listen
It's revolution!

Begging You Lyrics

[Intro: Frankie Valli & The Four Seasons, *Logic*]
Put your loving hand out
Baby
I'm begging
Listen, ah
One, two, one, two
Three, four, three, four
One, two, three, four
Let's go!

[Hook: Frankie Vallie & the Four Seasons/ Logic (Peoples Army)]
(Begging) Begging!
Put you're loving hand out baby
I'm beggin', Begging you
Put you're loving hand out baby

[Verse 1: Logic (Peoples Army)]
Listen, let me explain it
I wanna talk to all the baby moms
Who think they're big when they baby's come
But the fact is that you got pregnant so the council could get you out of the slums
I wanna talk to all the baby fathers
Don't blame the youth, or blame you're partners
'Cause you slept with a lady, and made you're little babys
Take care of what comes after
I wanna talk to all the gangbangers
The fake jeezy's the fake Santannas
See, your name ain't Weezy,

you're not greasy
Go home learn some manners
I wanna talk to the teachers in schools
See what is it that you're teaching the youths
The young ones aren't idiots, no syllabus fix up stop hiding the truth

[Hook: Frankie Vallie & the Four Seasons/ Logic (Peoples Army)]
(Begging) Begging!
Put you're loving hand out baby
I'm beggin', Begging you
Put you're loving hand out baby
Listen

[Verse 2: Logic (Peoples Army)]
Okay
I wanna talk to the men of religion
Religion is part of a system, Listen
See how I pray like music and my pages in the bible are missing
I wanna talk to all the politicians
Let me in that house that you preach in
See I'll talk for the street, the people I see
Tell youth's to fix up our conditions
I wanna talk to all the journalists
The media who promote the murderers (Yeah, fuck off)
The news shows that I hate, same stuff everyday they repeating cases never heard it
I wanna talk to all the rap stars, do

you know how rap did start?
'Cause I'm sure that you do but in
your bars it's all about you, you,
you and your fast cars

[Hook: Frankie Vallie & the Four Seasons/ Logic (Peoples Army)]
(Begging) Begging !
Put you're loving hand out baby
I'm beggin', Begging you
Put you're loving hand out baby

[Verse 3: Logic (Peoples Army)]
Listen
I wanna talk to all the millionaires
Sit down look I got an idea
If you all put a little bit of money together then you can make poverty disappear
I wanna talk to the football lads
Stop spending all you're money on WAGS
Save up some money's a demon
Give a bit back to who needs it bad
The starving kids, with no moms or dads
Kids in the factory making bags
Kids in the war right now with guns
Yeah you see dont nuttin' ever get done
So now I wanna talk to all the world leaders
Fix up if you really wanna lead us
'Cause we know how it goes
No tax, no doe, Bottom line is that you do need us

[Hook: Frankie Vallie & the Four Seasons/ Logic (Peoples Army)]
(Begging) Begging !
Put you're loving hand out baby

I'm beggin', Begging you
Put you're loving hand out baby

[Verse 4: Logic (People's Army)]
We know that you need us
'Cause with no people, there's no economy
With no economy there's no money
With no money there's no balance
With no balance there's no power
So we know, that the big people need
All the little people walking around, doing all the messy work for you, innit
Listen
But what I'm doing with this track
I'm begging all the people in charge
The rich people, and the people with power and money
Make a change

[Outro: Frankie Valli]
Riding high when I was king
Played it hard and fast
'Cause I had everything
You walked away, won me then
But easy come and easy go
And it would end
(Begging) I'm begging you
Won't you give your hand out
Cut

Time Lyrics

[Intro: Logic (Peoples Army)]
Ah..
Times moving so fast fam'
Serious..
Here today, gone tomorrow
You know that expression
Ahh... but it's to true fam'

[Verse 1: Logic (Peoples Army)]
Listen
Sometimes i wish that i could just
turn the clock back
And go back to school, No
attitudes
We see the world getting older
and we can't stop that
So what do we do, we're just
going through

[Hook]
We just need a bit more time,
yeah
See we just need a bit more time,
yeah
A bit more time
See we just need a bit more time,
yeah

[Verse 2: Logic (Peoples Army)]
See time is a man-made concept
So the whole idea about using
every last bit we got left
Is just a myth
See time is just a gift
So don't rush away this life, cos'
there's still life after this
Yeah..

See if you don't know something,
how do you miss it
See if its never in you're head,
then fam' what is it
I'm getting older, No chips on
shoulders
Cos' it ain't over until the fat girl
says its over

[Hook]
A bit more time
I just need a bit more time, yeah
(nobodys tellin' me nothing)
A bit more time
I just need a bit more time, yeah
I just need A bit more time
Theres never enough time
To much things to say
Like.. this ... Is that the beat
finishing already? i just need a
little bit more time y'know fam',
just a little bit more time, like 30
more seconds? i can't get that?

Was It All Worth It Lyrics

Yeah...
It's emotional fam
Listen

Mmmm
[Verse 1: Logic]
Can you tell me, was it all worth
it?
I'm still learning (Still learning)
That i can't proceed if your
hurting
I've found god, no need for a
sermon
The devil inside me..
I burned him and turned him into
love (Get him out!)
I forgive anything i don't hold a
grudge (never)
But i can't forget what you done,
but i forgive
So i can live happily and you can
live happily
And i wish the best for your
family, i hope you're
understanding me
But don't get in touch
Because i was down and I've only
started getting up
I know god and i hope he sees
the best in me
This is therapy
I left jealousy
I'll admit that you brought out a
better me
And at the same time you brought
out the Jinns too
I'm powerful yeah, I'm kinda Jinn
proof

[Chorus: Logic]
Turn the pages fam we gotta
move on
New chapters
New verse
New song
Everybody's right, until they're
proved wrong
So wrong can't tell me what's
right that's life!
A place where we gotta fight
Where were born and we live and
we gunna die
Lead the world and look down
from the sky
Sometimes i just wanna fly

[Verse 2: Logic]
Can you tell me is it all worth it?
I'm talking to the kids out on road
that are burstin'
Tell me what do you gain, if you
merkin'?
All you get is another dead
person
The streets ain't yours so why put
the work in
Put the work in yourself, start
learning
Research ya skin tone, ya heritage
The people that died so you and i
can see better things
I don't even have to ask cos i
know it isn't
It's not worth our life for even
seeing prison

See you giving them exactly what
they want you to give em'
Cos they want the gun violence,
they want the killin
Every track I've ever mades like
my blood spillin'
Earned everything I've got, had
nothing given
My careers been far from perfect
I've got a question; was it all
worth it?

[Chorus: Logic]
Turn the pages fam we gotta
move on
New chapters
New verse
New song
Everybody's right, until they're
proved wrong
So wrong can't tell me what's
right that's life!
A place where we gotta fight
Where were born and we live and
we gunna die
Lead the world and look down
from the sky
Sometimes i just wanna fly

[Verse 3: MiC Righteous]
I don't wanna die without saying
good bye
So for this bar ima' savor my past
Cos it may be my last
So just incase i don't make it to
yard
Sorry for the pain I've caused
Give me heaven I'm afraid of the
dark
This music has a place in my heart
Trying to answer all these
bleeding questions in life, leave
me guessing like a game of
charades
It would be wrong for me to pray
to Allah
Shouldn't really be putting his
name in a bar
I can't obey by your Islam when
I'm raised by the dogs

??????????????????????
But them my dark days
Abandoned by my family left in
markay
Whatever you are express your
heart-ache
And I'm with you all the way
unless ya can't change ah

[Chorus: Logic]
Turn the pages fam we gotta
move on
New chapters
New verse
New song
Everybody's right, until they're
proved wrong
So wrong can't tell me what's
right that's life!
A place where we gotta fight
Where were born and we live and
we gunna die
Lead the world and look down
from the sky
Sometimes i just wanna fly

Welcome To England Lyrics

[Verse 1: Crazy Haze]
Yo
Welcome to the land of the most
evilest conspiracies
Where they drink the blood of the
children from the middle-east
They don't wanna hear the truth,
still stuck in a bigotry
Steady beat physically, Blessed
the beat spiritually
Still loadin' up my A.K
Last war preperations
I'm politically knowing revolution
is my medication
The place where prophet
Muhammad levitated
The world is over according to
book of revelations
They got us fuckin' each other just
like, Lunatics
A brother killing a brother over
some stupid shit
I ain't a rapper, I'm a revolutionist
Screaming freedom road from
London to Jerusalem
Fuck the industry, I heard you
wanna dead me
You must be fast asleep or.. Just
having a wet dream
These cavara dum dums, will
leave you're soul empty
Split you in half, Like Moses did to
the red sea

[Chorus: Logic (Peoples Army)]
Welcome to England
Where they don't like immigrants

Where the feds got everyone's fingerprints
Where the criminals pray on the innocents
Don't really care about prison
Welcome to England
Teenage moms and dads
Favorite foods are curry's and kebabs
And they love a night out with the lads
The main aim is to get smashed

[Verse 2: Logic (Peoples Army)]
Welcome to england, but my advice is not to stay here
This is the land where the law doesn't play fair
See they give away money for free, but money ain't nuttin' to me so you can keep it
The Queen holds many secrets, lies
She's got a crown thats worth so much it hasn't got a price
Invaluable cos' of all the peoples lives they've had to take away so the queen can get a little shine
It's revolution time
And England is a better place than ever to start
We gotta round up all the troops and march
March with a meaning
Meaning that we're gonna' march wherever we want, whenever we feel it
See they persecute people that

pray, But i am kneeling
Searching for guidance and healing
Welcome to England
The land that might seem appealing
Until you get here and you see things

[Chorus: Logic (Peoples Army)]X3
Welcome to England
Where they don't like immigrants
Where the feds got everyone's fingerprints
Where the criminals pray on the innocents
Don't really care about prison
Welcome to England
Teenage moms and dads
Favorite foods are curry's and kebabs
And they love a night out with the lads
The main aim is to get smashed

The Writing..

Yeah
Simple

[Logic]
Listen
I had to stop my car and start
writing
Cos for the past 8 miles
I was freestyling
Sometimes i gotta think about
who I'm fighting
Without a passport were all
trapped on an island
I've been searching forever but
I'm never finding
Not phased by what others see as
'exciting'
On the stage people think that I'm
on a hype ting'
Nah it's not that I just believe in
what I'm writing
I put my insecurities in the words i
speak
I need to eat but physically i feel
weak
And I'm not the type to turn the
other cheek
I was taught by the place i was
raised to back beef
I've had people that i knew and
let in my house..
Tell me how they gunna push a
gun in my mouth!
See i was scared and at the same
time i got prepared

See if you went home that night i
was there
On my own with a tool that
probably doesn't work
Regardless i was prepared to go
an let it burst
Over what?
Over another mans Ego?
Sometimes fam i wanna be a hero
And save everyone but first i
gotta save myself
That's all down to me fam
Noone else
I don't need help but i do
appreciate it
You get out what you put in, and
that's basic
I've been programmed to go and
get Queens faces
Some people are programmed to
be racist
Raised with the mentality
Where they believe..
That there skin color makes them
a better breed
I got issues inside and out my
body
Original my mum never made a
carbon copy
We all special, yeah I'm talking
about everybody!
Every person on the planet has
the right to breathe
I've had pleasures from women
you would die to link
Wife material
The type that doesn't smoke or
drink

But every angels got demons that
they used to know
The devil plants his seed and
people make it grow
I see my enemys developing and
making moves
While the righteous are stagnant
in muddy shoes
Kids that grew together now
they're in different crews
Little girls having innocence a
race to loose
Lost children with NOBODY
trying to find em'
Lost like a weak vocal with no
hype man
Some rappers can't perform but
people still like them
The same man that opened the
door and it closed behind em
I get depressed and even times i
get suicidal
Sipping brandy
While i light up a nytol
I've been born in a life where we
fight rivals
To get a reputation
Get a street title
Make names up WEAK way to
dodge the feds
Kick doors of while you sleeping
in your beds
Surveillance cameras clocking
your every step
To make sure that there masonic
laws are kept
We defending a state or a road
name

Like we own it!
Like it's suttin we can claim!
The British keep sending troops
to Afghanistan
Not to maintain peace they got a
bigger plan
Little hands gotta eat from a
bigger hand
So they abuse it
Take over, run the land
They want the power and the oil
cos when it's put together...
It's more valuable then any
amount of cheddar..
We all die so I'm not trying to live
for ever
I'm tryna' write words that'll be
forever treasured
We all die so I'm not trying to live
for ever
I'm tryna' write words that'll be
forever treasured

When’s it all gonna to change Lyrics

[Verse 1: Logic]
I lost friends and gained angels
I fell like I lost my ends and I can't save you
I'll see you when I get there
Where ever it is; heaven or hell or between it
True life stories I've seen it
I really mean it
More than Cam
I'm spiting this
For Johnny Blacker and Ham
I understand that everyday we lost a life
Its just a matter of time before its you or I
Its me or you. See anybody is blazeable
Society is wrong and ain't saveable
Nowadays I hardly even rave at all
See anything is erasable anything can be taken back
My words they say it all
They say everything I feel
The ink from the pen is spilled till the whole page is filled
See where I live is too real
Pussy, Drugs, cash and others
I got to tell my mother I love her
It's life...

Chorus
When's it all gonna to change
The youngers are worse than us
Its no game
Blowing up trains and planes to

get answers
Most man I know raised with no fathers, It's mad
And Gordon Brown's mind frame Doesn't have nothing to do with my name
I'm UK but never will I fight for them
When we realize fam, the fight will end

[Verse 2: Logic]
Yeah, I lost girls and gained good friends
Sorry don't cut it when you disagree about life
Different trends, different aims, morals and ambitions;
Paths collide, you go your separate ways and keep wishing
I'm missing everyone that's gone
So I cherish every song
And where I live is me and where I'm from
It ain't easy
People follow trends and the latest trend is acting greazy,
Believe me
I don't wanna burst off shots
But ain't scared to do it
I got access 24/7
We've grow out of beef over with Peckham, Its evolution
Now I'm waring against the death and pollution
Tell me something, what does death solve? Does it give you peace of mind?

I know killers and they've told me
about the ghosts that they find
Sleepless, paranoid nights
Are they coming to get me I really
don't know

Chorus

[Verse 3: Logic]
Heart felt emotions taking over
Mentally see everything happens
for a reason
And everything was mean't to be
its fate
I wish everything was free and
everyone has a full plate forget
the steaks
Mind camouflage yourself I'm lost
into a gamma
Nature touchs me I can't escape
I know I smoke too much weed
Most of it forget profit
See life's logic
Theres knowing who you are
before you cop it
Your heart stop tick
Someone draws aims and this
time it feels like poppin
Please wait see let me get a few
last words
Sorry mom for all the times you
were hurt
See you deserve more and Dad,
thanks, you know what it's for
And grand take half of my ashes
to yard
And take the rest to island and
take my heart to the motherland
And bury it with a mango tree
I know you understand
Just leave Quinney all of my music
and let him distribute it
Tell minders the albums
concluded and give Jaia Soze

The blueprints and wondering
why nobody wants me
I think thats it I close my eyes and
remsice fam
How do it get like this

Chorus

After realization kicks in you start
to realized
That we are losing more than
what we are gaining

Severin Suzuki Speech
Hello, I'm Severn Suzuki speaking
for E.C.O. The Environmental
Children's Organization. We are a
group of twelve and thirteen-
year-olds from Canada trying to
make a difference: 
Vanessa Suttie, Morgan Geisler,
Michelle Quigg and me. We raised
all the money ourselves to come
six thousand miles to tell you
adults you must change your
ways. Coming here today, I have
no hidden agenda. I am fighting
for my future. Losing my future is
not like losing an election or a few
points on the stock market. I am
here to speak for all generations
to come. I am here to speak on
behalf of the starving children
around the world whose cries go
unheard. I am here to speak for
the countless animals dying
across this planet because they
have nowhere left to go. We
cannot afford to be not heard. I
am afraid to go out in the sun
now because of the holes in the
ozone. I am afraid to breathe the
air because I don't know what
chemicals are in it. I used to go

fishing in Vancouver with my dad until just a few years ago we found the fish full of cancers. And now we hear about animals and plants going extinct every day vanishing forever. In my life, I have dreamt of seeing the great herds of wild animals, jungles and rainforests full of birds and butterflies, but now I wonder if they will even exist for my children to see. Did you have to worry about these little things when you were my age? All this is happening before our eyes and yet we act as if we have all the time we want and all the solutions. I'm only a child and I don't have all the solutions, but I want you to realise, neither do you!

• You don't know how to fix the holes in our ozone layer
• You don't know how to bring salmon back up a dead stream
• You don't know how to bring back an animal now extinct
• And you can't bring back forests that once grew where there is now desert

If you don't know how to fix it, please stop breaking it! Here, you may be delegates of your governments, business people, organisers, reporters or politicians but really you are mothers and fathers, brothers and sister, aunts and uncles and all of you are

somebody's child. I'm only a child yet I know we are all part of a family, five billion strong, in fact, 30 million species strong and we all share the same air, water and soil borders and governments will never change that I'm only a child yet I know we are all in this together and should act as one single world towards one single goal. In my anger, I am not blind, and in my fear, I am not afraid to tell the world how I feel. In my country, we make so much waste, we buy and throw away, buy and throw away, and yet northern countries will not share with the needy. Even when we have more than enough, we are afraid to lose some of our wealth, afraid to share. In Canada, we live the privileged life, with plenty of food, water and shelter we have watches, bicycles, computers and television sets. Two days ago here in Brazil, we were shocked when we spent some time with some children living on the streets. And this is what one child told us: "I wish I was rich and if I were, I would give all the street children food, clothes, medicine, shelter and love and affection." If a child on the street who has nothing, is willing to share, why are we who have everything still so greedy? I can't stop thinking that these children are my age, that it makes

a tremendous difference where you are born, that I could be one of those children living in the Favellas of Rio; I could be a child starving in Somalia; a victim of war in the Middle East or a beggar in India. I'm only a child yet I know if all the money spent on war was spent on ending poverty and finding environmental answers, what a wonderful place this earth would be! At school, even in kindergarten, you teach us to behave in the world. You teach us:

- not to fight with others
- to work things out
- to respect others
- to clean up our mess
- not to hurt other creatures
- to share, not be greedy

Then why do you go out and do the things you tell us not to do? Do not forget why you're attending these conferences, who you're doing this for we are your own children. You are deciding what kind of world we will grow up in. Parents should be able to comfort their children by saying "everything's going to be alright","we're doing the best we can" and "it's not the end of the world". But I don't think you can say that to us anymore. Are we even on your list of priorities? My father always says "You are what you do, not what you say." Well,

what you do makes me cry at night. You grown ups say you love us. I challenge you, please make your actions reflect your words. Thank you for listening

Logic (People's Army) - Raised In The Bricks lyrics

[Hook]
Yeah, yeah, see let me tell you how it is
I'm born and I'm raised in the bricks, yeah
And even though I moved away from the ends fam
I'm still giving back to the kids, yeah
Yeah, see let me tell you how it is
I'm born and I'm raised in the bricks
And even though I moved away from the ends fam
I'm still coming back to the bids
[Verse 1]
See I'm livin' in poverty
Destined for better things like property
Not young but I still got a lot to see
And everything that happen's for a reason fam
That's my philosophy
So take a pop at me
I'll send a flame back
I'll melt down the peak of your old new era cap
It was never that
You was any competition
Every bar that you spat was a contradiction
You should come to bricks and
Talking reckless fam Yeah your bling bling showing
Make the younger see that, yet and trust me your bling bling's goin'
Anything you see there gonna want it
It's Logic
Cause nowadays fam you can't really make a profit
If you sell a little chronic
Cause everybody's on it
And the younger is feel like they gotta rob it
They doing whatever they gotta do until they got it
[Hook]
Listen, see let me tell you how it is
I'm born and I'm raised in the bricks, yeah
And even though I'm moved away from the ends fam
I'm still giving back to the kids, yeah
Yeah, see let me tell you how it is

I'm born and I'm raised in the bricks
And even though I'm moved away from the ends fam
I'm still coming back to the bids
[Verse 2]
See I'm, livin' in misery, sick of the whole industry
Feeling on these fake Mc's and they are not feeling me
I'm realer than realer can be
And everything written is me
I market and sellin' my speech
Verbally sick on the beat
Light years ahead of the weak
I'm not cheap but I do, do a show for free
Supporting charities
Visually it's sad to see
People losing calories, when the fat people don't have to eat but they grab the meat
Leavin' all the vegetables and poured juices
We gonna do this fam and there's no more excuses
People's army me ruthless I move calm too
Don't trouble any of the fam we won't harm me
Poverty juven' fills the affiliate [?] Ramzi
Oh see ol' Tracy [?] the family
I feel like my ends don't really understand my philosophy
It's been the same, since I have my lab in my Nan's yard
[Hook]
See let me tell you how it is
I'm born and I'm raised in the bricks, yeah
And even though I moved away from the ends fam
I'm still giving back to the kids, yeah
Yeah, see let me tell you how it is
I'm born and I'm raised in the bricks
And even though I'm moved away from the ends fam
I'm still coming back to the bids

Logic (People's Army) - Spectator lyrics

[Intro]
People always quick to make a**umptions, and judge someone when they've never really been in that situation themselves
[Hook]
I'm just a spectator looking in
But I can tell you how I think things should've been
And all the reasons why the world's where it is today
Please listen to my words, what I have to say
[Verse 1]
You see, in Gaza they're fighting for land
You see, they need this land cause it's a part of their plan, understand
The Jews needed a place after Hitler
But they got about three quarters of Palestinian land
Palestinians then had to make refuges
In places like Lebanon
In places where none of them had ever gone
Thousands were ma**acred for not leaving
See, I'd do the same, k** me, I'll die believing
I understand the mind of a man who commits suicide
But don't agree with any innocent that has to die
And what's gonna happen after this?, will they stop with the Gaza strip?
I don't think so
I sat with a Jew to learn
He told me that's it's not meant to go to Israel until the prophet returns
I said is this true
He told me go and read the Torah
Cause if it's true, then they're following another order
How can a nation that knows what it's like to be slaughtered
Go and do the same to someone else?
That's a simple question
That they gotta sit down and ask themselves, innit?
[Hook]
I'm just a spectator looking in
But I can tell you how I think things should've been
A couple reasons why the world's where it is today

Please listen to my words, what I have to say
[Verse 2]
I don't know everything and never will I claim to know
What our purpose is and what we really need to grow
But I do know we're dying for a common cause
A global word that is well known, war
I've been to Africa and seen a grown man on the floor
Disabled to the point I couldn't look anymore
A real beggar, in a real state of poverty
But he prays everyday, so he knows that there's gotta be another life
Where he can live as a strong man
And the ownership of Africa doesn't end up in the wrong hands, Western palms
Buying and destroying people just to trade arms
Could someone tell me why Africa is just surviving?
The whole land was a resource plus they got diamonds

Used to be able to run your hand through the sand
And get a handful of diamonds, do you understand?
How precious is the land if it's like that?
You see, it's wrong to say it was taken by the white man
It was taken by the power hungry
And the people that never saw the beauty of Africa, fam
They only saw the money, to them it was the land of opportunity
It's terrorism when it's done by either you or me
Treat these words like my eulogy
And remember that I died being exactly what I choose to be
Insha'Allah we all can see
That God is the goodness in you and me
No religion has ownership
See, the Quran and the Bible and the Torah were all wrote with ink
See, I think the ma**es are miseducated
See, most of the politicians were born racist
See, it's obvious that somehow we're all related
Millions of years back, before we separated
I heard Tony Benn say it in a speech
See, how can you murder another brother because he's weak?
Your ancestors could have been cousins, so take a seat
And try and reason with your brother fam before you beef
I'm just a spectator looking in from my view
I'm not different or special, I'm just like you
Bleed blood and shed tears when my heart's hurting
I get energy from everything in life, I'm learning

How to say my thoughts, release my stress through my words
Make you visualise everything you've ever heard
Picture ancient Egyptians meditating
To the elements, telepathically debating
Until the pirates came in the form of tradesmen
Promised them a Paradise in exchange for a Heaven
Temptation and misinterpretation, so they jeopardise the whole of the nation
You see, a Paradise is where we might choose to go
But a Heaven is the place where the angels go
So they can reason with the prophets, not bathe in gold
And it's not late for no one to save your soul
I'm a citizen of truth, love and loyalty
Every person on the planet is royalty
These are my thoughts, how I look at things
Fam, I'm just a spectator looking in
[Outro]
That's all I can really do
I can only give you my interpretation of any subject
I'm just a spectator looking in

Logic (People's Army) - I am Logic lyrics

[Hook]
I Am Logic
A Gaberlunzie a prophet
Born over-capable (banish all the fake cats)
You don't want to try and stop me
I Am Logic
A Gaberlunzie a prophet
Born over-capable (banish all the fake cats)
You don't want to try and stop me
[Verse 1]
Listen, it was Wednesday, 5:20, 10th of March
82 is when I first came, my Irish culture
It gave me my first name
That gave me a slave master's surname
In my heart is my mother's flame
Born militant born with a spirits of
My dead brothers they were innocent
Gone without reason
I thank Allah that I'm breathing
I thank Jack for the words that I'm speaking
I'm thankful that I'm able to see things
And look past the lies
I'm thankful that I was about to realize
Before I had a judge give me five for a robbery
I know why people rob, 'cause they've got to eat
But we all got to eat and we all can't rob
Not everybody's built for the job
I will never stop saying words that I feel need saying
I put my life in the words that I'm saying
[Hook]
I Am Logic
A Gaberlunzie a prophet
Born over-capable (banish all the fake cats)
You don't want to try and stop me
I Am Logic
A Gaberlunzie a prophet
Born over-capable (banish all the fake cats)
You don't want to try and stop me

[Verse 2]
I Am Logic
Still people don't listen to me
See I'm a Gaberlunzie, I'm a missionary
This is a life-long mission for me
Every day's another page of my life story
See I speak for my four fathers before me
And the four fathers before them
Facebook yeah I'm adding more and more friends
And here rappers they pretend that they're bad
When they really only bad in their MC
I recommend going back to basics
A DJ, an MC, forget the papers
Look I'm over truth to the essence, just the fact that I'm alive
And I'm able to talk to you is a blessing
People ask me about what a Gaberlunzie is
I told them to buy my album and listen to the first skit
Every verse is handcrafted
Roll south, unmixed and un-mastered, salute

But every word and every track is the truth
No aim for riches but if it comes it comes
I know I'm getting paid when this life done
I love my mom and my whole fam
For my people I'll chop off my writing hand
I hope you understand how deep I would go for my people
If I'm out, go k** for my people
I won't k** people for my people unless those people are evil, deceitful
I'm here for a deep meaning
I hear rappers that are spitting bars with no feeling
That's because what they're writing ain't really really
Therefore to the public it's not appealing
I'm at a stage of healing
I'm searching, I'm finding myself
Fam I don't feel right in myself
Every day I feel I'm fighting my health
f** old Jim, studio hustling king, I get it in
Don't care if I lose, but really, I want to win
Been forced in a life for a year, we got us in
The youths don't know how to read but [?]
I don't know a lot of stuff I keep bottled in
Yeah, I think it's overdue so now I'm getting it out
Listen to my album and hear what I'm about

I'm a rebel, I'm a soldier, I'm a general, I'm an order
I'm a prophet and I'm a loner, I'm a healer
I'm a speaker, I'm a reader and I'm a teacher
I'm the main one, not a feature
I'm a robot, a woman idol
I'm an enemy, I'm a rival
I'm the main shot at the title
More than an eyeful, I'm insightful
I'm a wish, I'm a vision
I'm everything that I'm talk
I Am Logic, and let me introduce you to the last Resort
[Hook]
I Am Logic
A Gaberlunzie a prophet
Born over-capable (banish all the fake cats)
You don't want to try and stop me
I Am Logic
A Gaberlunzie a prophet
Born over-capable (banish all the fake cats)
You don't want to try and stop me
I Am Logic
A Gaberlunzie a prophet
Born over-capable (banish all the fake cats)

Logic (People's Army) - Never That lyrics

[Intro]
Yeah! Logical, it's the Last Resort
Once again hahahha you think you can buy me
You think you can offer me things that will make me do things for you that I don't wanna do
Are you crazy fam?
It's never that!
[Verse 1]
I Am a winner, I think positive, but I was raised with the sinners
Mandem flush to buy the new beamers
When these kids in third world that don't have dinners
I'm not a beginner, our age just started nah fam it's never that
I invested, but I got my cheddar back
Fake rappers that are talkin' like they getting cash
When they really couldn't even sell a gram, get a job
And stop polluting the kids with an irrelevant stuff
Yeah I said enough is enough
I felt to set it off
Major labels I seekin' at the hardest that you think it's the easiest to [?]
Put a few more things on my CV and tell Jennifer Ross he needs to see me
Cause I'm lookin' some promotion from the TV
And know that it don't come easy
It's never that
[Hook]
Sell my self to make dough (it's never that)
Spend all my money on clothes fam (it's never that)
Anything I give I don't have to get it back (I will not loose)
Nah fam (it's never that)
Sell my self to make dough (it's never that)
Spend all my money on clothes fam (never that)

Anything I give I don't have to get it back (listen)
(nah fam it's never that)
[Verse 2]

You think I won't goes hard on verse 2, never that
Make the juju man curse you, never that
Made the devil man burn you and leave you lost, nowhere to turn to
See I refuse to be a loser
And I refuse to have my lifestyle controlled by a computer
I'm going to switch the power off haha
The government is not our boss
If we don't know the truth then that's our loss
If we get in a position to help but don't help
The only person that is losing is yourself, true
And if you ain't putting years of hard work in grafting
Tell me why should I rate you
I don't need to playing fool
I'm poverty juvenile and I know how to scrape through
There's too much love so how would I hate you
Now it's never that
I'm never gonna lose to [?]
[Hook]
Sell my self to make dough (it's never that)
Spend all my money on clothes fam (it's never that)
Anything I give I don't have to get it back (I will not loose)
Nah fam (it's never that)
Sell my self to make dough (it's never that)
Spend all my money on clothes fam (never that)
Anything I give I don't have to get it back
(nah fam it's never that)

Logic lyrics

Logic (People's Army) - True Talk lyrics

Logic:
You see I know that I've earned the right to have ears
Listen, I salute anyone who sees my vision
I believe that we gotta influence the children
That's the only real way to imper-ate the system
We work hard for a paper that goes fast
Tryna figure out the best way to make it last
It feels like im tryna chase a car
And the powers up b are tryin to erase my bars
Destroy my heart and take away my energy
See a friend is what they might pretend to be
Snakes and leaches blood s**ing devil creatures
Inside is a demon with human features
I know the truth and i plan to expose the secrets
No love for my ex i really mean it
The plait is clean yeah cause i cleaned it
I see people trying there best to do what we did
NAAH...
Klashnekoff:
They can't do what we did
Lowkey&Logic
Never that
Gimme my cheddar back
Get it in
Yeah i dont care what the penny brings
Listen logical im a veteran
Klashnekoff:
They can't do what we did
Lowkey&Logic
Never that
Gimme my cheddar back
Get it in
Yeah i dont care what the penny brings
Listen logical im a veteran
Klashnekoff:
Listen, think fast but fam you need to take it slow
Take time but time won't wait
Dont like potatoes i nurture the seeds

Cah everyday that they grow is another chance for me
To save there they go
Shine so bright remind me of the day glows
Just shout out to the real baby fathers
Cah they know
When you gotta BM whos a pain in the a hole
Used to be angel, but now she's on some demon sh**
I could go deeper but this there's where I'm leaving it

The moral of the tale is
Be careful who you're breeding with
Most 0f these young black males lack leadership
They like realer-ship they aspire to push a crack dealers whip
Cream surfing up more food than dealer smith
Him and his dargs shot
Narks to the Heathcliff
Knowin in his heart its his neck and arse in risk
And that's the truth
They can't do what we did
Lowkey&Logic
Never that
Gimme my cheddar back
Get it in
Yeah i don't care what the penny brings
Listen logical I'm a veteran
Lowkey
Smash the telly and rebellion before anything
Armageddon laws are all ready in
And war is more menacing
Shore to shore meddling
Be prepared to lose what you thought was your everything
Look up to the sky, i can see the horizon
The rulers are nervous
The people are rising
These are the times when the medias miming
The populars refuse to let their leaders define them
We built a scene and a platform
For real MC'S I stil believe
Though they try to guillotine and k** my dream
Look at this year
You can't say there's no progression
But plead bargain ain't an option now so I'm stressing
Think I'm not feeling with it cause I'm still free
At cross roads only god knows what will be

Take it like a man
Tell the judge not guilty
Lock me up throw away the key
That will not k** me
They can't do what we did
Never that
Gimme my cheddar back
Get it in
Yeah i dont care what the penny brings
Listen logical im a veteran

Logic lyrics

Logic (People's Army) - We'll Never Know lyrics

[Intro]
[Verse 1: Logic]
Let me start with the basic structures of a Western country
Imperialism, it's all about the money
While we moan and complain when it's not sunny
Little kids hustle foods, tryna fill their tummy's
And, every kid's seen a gun, when you to places like Iraq and Afghanistan
While kids over here think that shooting's fun
Kids over there shoot to protect their mum's
And, over here, we can't claim real hardship
Trust me, we don't really know what hard is
A hard life, where your family is starving
A hard life, where your family is k**ed by the army
A life where you're seen as a target
A life that you wish never started
But, they got big hearts, big smiles and energy to make a change
I make music for them to play
[Hook: Big Frizzle]
I said we'll never know
Because the places we've grown
Ain't nothing like what they know
Cause we'll never know
[Verse 2: Maverick Sabre]
Who little lad, Know you're feeling sad
Trust me there'll be better days you never had
The pain you felt will never last
Try and say we ain't the same, walkin' to different paths
Why must I hate? Turn on the TV and just sit and laugh
But, that child'll never smile, he's lost his dad
Seein' foreign flags fly above his mother land
He's hearin' gunshots like shots from your block
When he bleeds, do we not bleed the same blood?
There's no lovin' growin' up as cold thugs
Imagine growin' up where every sip of water makes you throw up
Where soldiers patrol every road, throwin' stones
To protect your home, all alone, when there's no-one else
So they say we ain't relatives, cause the difference in our melanin

As hell as being relevant, f** it all, to hell with it
This evil has been spreading it
And, even if my d**h comes quick
I'll be fighting 'til the end of it
[Sample]
We live in a period where our world has both the resources,
The technology and the know-how to end world poverty.
But, unfortunately we also live in a point in time

When at no other point in history has there been so much suffering
[Hook: Big Frizzle]
Cause we'll never know
[Verse 3: Akala]
Okay, let me make clear my position
I know your estate feels like sh** to live in
And, watching mummy graft to stop bailiffs from ringing
Is enough to make you wanna hit the block and start slingin'
I've been there, no gas, no electric to the kitchen
Fridge cuts off, defrosts and starts stinkin'
Whether Gorbals in Glasgow, Mumbai or Brixton
May not be the same sh** but it is the same system
But, this is Britain. As hard as some of us have it
We're still far better off than ninety-percent f the planet
And, that is what you learn, when you get to start travelling
Unravelling the bullsh** that they are babbling
So, this is for the nameless, faceless
Millions that die everyday, but don't even get a funeral
And, we tell ourselves because where they were born
They are less worth, less intelligent or beautiful
Well, I don't agree, they are you and me
And we are them, but we're too blind to see
While some have everything, they ain't got sh**
And, we tell ourselves, well that's just how it is
There ain't enough to go around, on this abundant planet
Of course there is, it's just that some of us are ganits
And, the habits we developed
That are so far divorced from the source
We don't even stop to pause, at the destruction everyday
Of counts of this human family, it's just normal insanity
[Hook x 2]
I said we'll never know (We'll never know, never know)
Because the places we've grown (Places we've grown)
Ain't nothing like what they know (Ain't nothing like ohh-oh)

Cause we'll never know (We'll never know, never know, never know)
I said we'll never know (We'll never know, never know, never know)
Because the places we've grown (Places we've grown)
Ain't nothing like what they know (Ain't nothing like they know, ain't nothing like)
Cause we'll never know

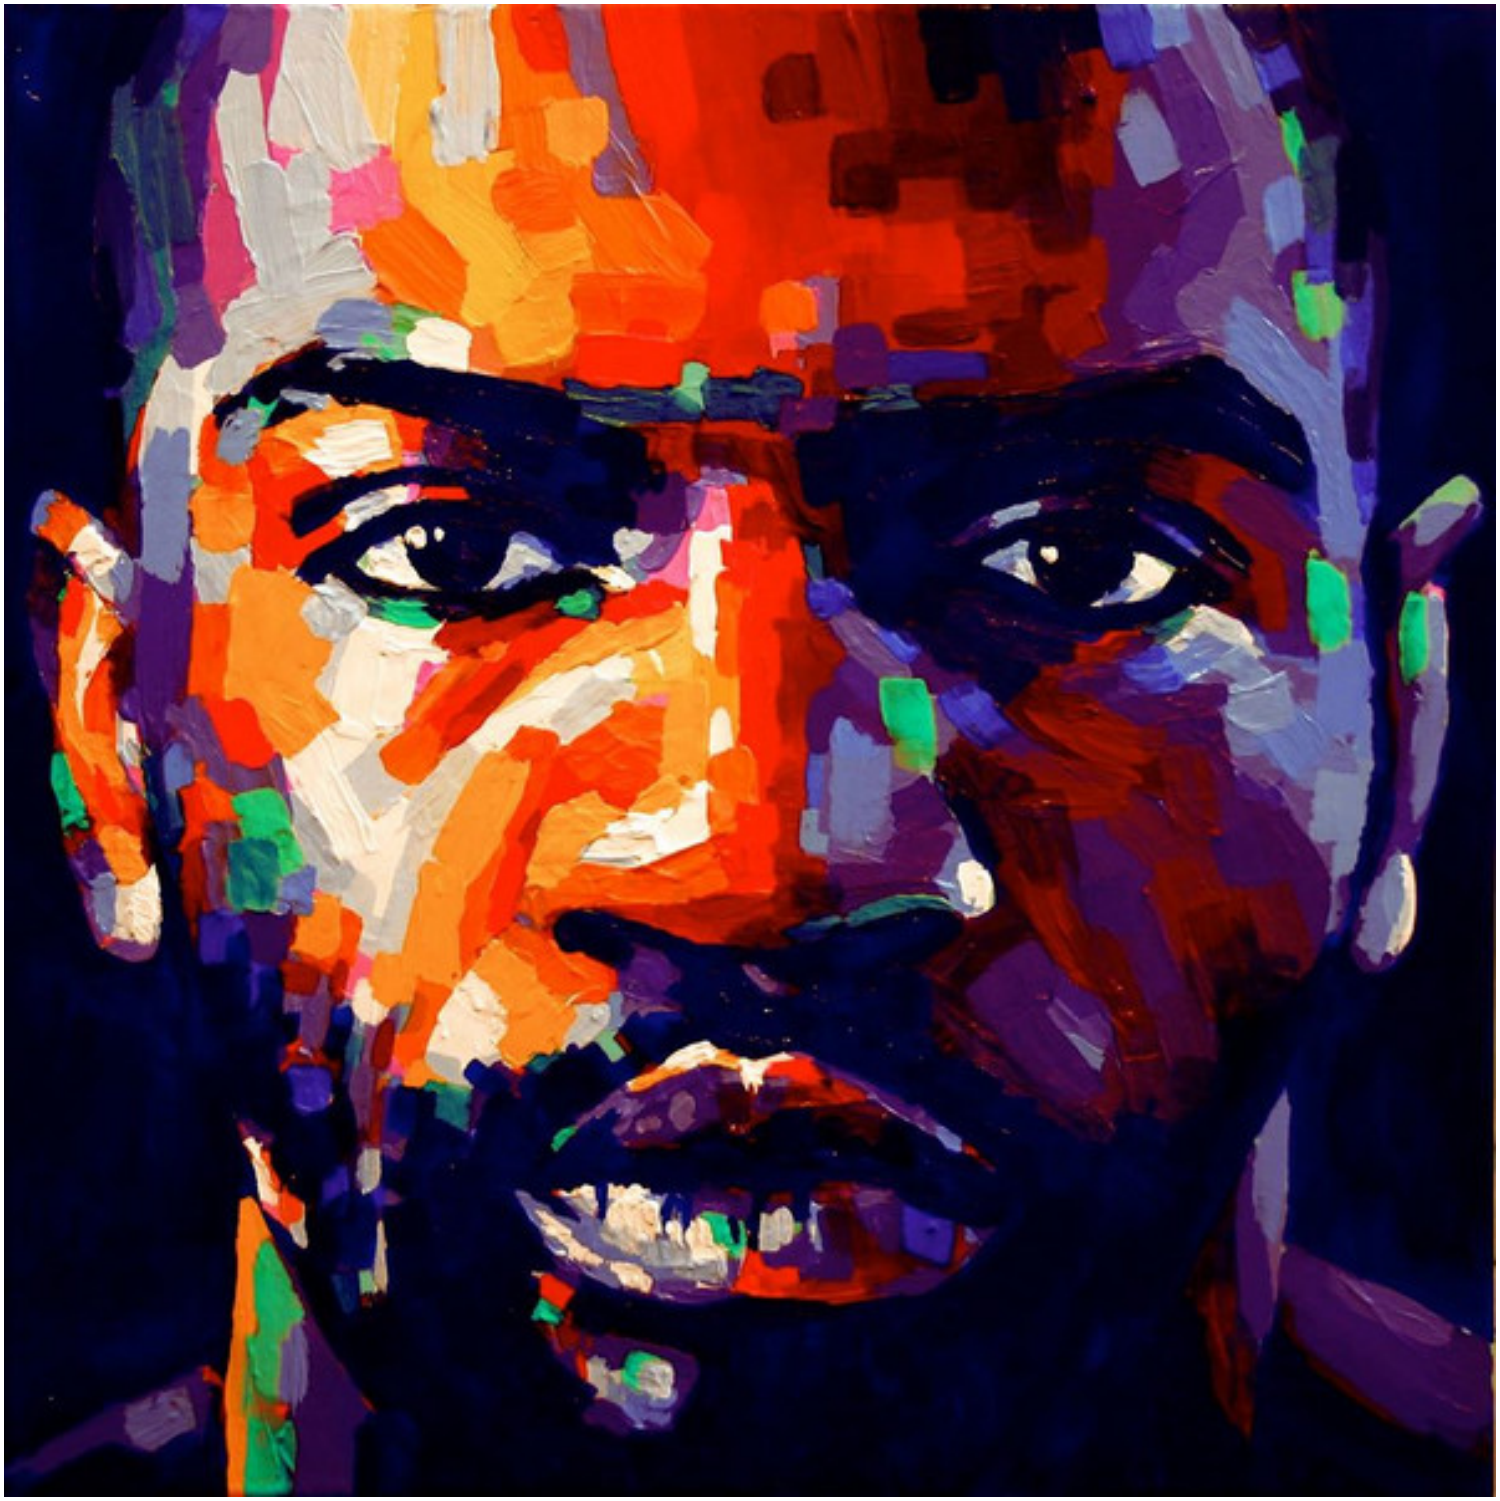
Logic lyrics

Logic (People's Army) - Testimony lyrics

[Verse 1: Elz]
Last Resort drop the sh** that make a n***a wanna rap
Hit the studio Logic shattering they ain't even got it back
Thug life's on my chest and freedom tattooed on my arm
Young n***a from the ends turned out from the start
Come put it on my heart come put it on my pain
I live for you becuh ain't tryna die in vain
[?], lord my ankle straight
I never flip, and turned pig for a f**ing chick
I move big, but I'm rode fully righteously
Flip through to buy all my people what they need
Forget greed when my [?] starving
I'm tired of all the peace rallies with all my people marching
I said we get the ting and spark 'em (spark 'em)
Time to charging and charging (charging)
For the crimes that's didn't [?] pagan
[Chorus: Renee Soul]
This is my testimony, hear me out
This is my testimony, it's all I have
This is my testimony, hear me out
This is my testimony, it's all I have
[Verse 2: Shadia Mansour]
See I wanna know which side are you on
There's nothing in between so you gotta pick one
I wanna know where you going
So I know where you came from
No need to expect an applause because you added freedom to your vocab' see
Only the realist can feel this it's simple
It's not enough to run around shoutin' "free the people"
We gotta breed this, live this, beat this
Change we wanna see in life to get the results we wants the generations to come can have the right one [?]
Now that hip hop is on our side we lyrically target the wreckers of creation from all sides
Of the global's universal
Never can they ever tame us, never can they ever stop us
Our souls are loaded

With enough ammunition that'll last
Until justice is served
For the stolen and indigenous generations

From Africa to Palestinian refugee camps to Indian reservations
until our final destination
[Chorus: Renee Soul]
This is my testimony, hear me out
This is my testimony, it's all I have
This is my testimony, hear me out
This is my testimony, it's all I have
[Verse 3: Logic]
Listen
A part of me loves it when I hear from my Ex
A part of me wishes I never even got the text
I've lost money and love, I've even lost respect
I've been young where I've put love after s**
I'm seen as a threat because of my a**ociates
If I wasn't conscious I wouldn't even noticed it
I would notice all the anger, and all the hate
That I get from people that don't feel the same way
But they might have had the same struggles
Same cornershops different blocks, but the same hustle
Not the type to say I love you, if I never meant it
Not the type to stay quiet, I'm the intervention
My heart pumps blood to my hand
And my hand writes it down so that you can understand
I never planned to be an activist, see I began as a producer
And over the years started to rap a bit
Then I started reading about what's happening
But not a lot of people like to read, so I'm rapping it
And even then it's more effective when you give a vision
Cause people do prefer to watch robbing and then to listen
The revolution will not be terrorised
Cause there's no way to deal televise a genocide
And they'll never publicise, none a their lies
My testimonies something that I'll never jeopardise
[Chorus: Renee Soul]
This is my testimony, hear me out
This is my testimony, it's all I have
This is my testimony, hear me out
This is my testimony, it's all I have



Question Everything Lyrics

[Intro]
Life is about questions. The more questions you ask, the more answers you're gonna get. The more answers you get, the more things that you're gonna know

[Verse 1]
Look, who said that E equals MC squared?
Who's to say that the world ain't square?
Who's to say that Heaven's even there?
Nobody knows, who cares?
And why is poverty even an issue?
Why don't the people who've got it wanna give you?
Who knows if Jay-Z is a Mason?
Who knows the real location of the gold that they're chasing?
And when will mankind learn to be patient?
And stop the wrong moves that it's making?
See who said a doctor is a God?
The NHS is a business. And who gets robbed?
Who's really better off?
The breda with a full time job or the breda who shots?
Who says what is true?
How can any other man that breathes air be over you?
Why does the media show all the negative?
And who believes the news that they're telling us?

[Chorus]
Question everything, the life that
we live in is a lie
Cause there's not just clouds in
the sky
And the Illuminati is not just an
eye
And I know that Adam and Eve
was a lie
So I question everything and
never take another man's word
Or rely on what another man's
heard
It's hearsay
I believe in myself repeat that
I believe in myself

[Verse 2]
See who's really had enough?
And who's really tough?
And who's scared?
If there's life on the moon they
just leave them there
How can we really get prepared
For something we don't know is
there
And why don't we share?
And why does a man need to be a
millionaire?
And why can't we wear what we
wanna wear
Without the robots that stop and
stare?
And how come we're unaware?
And why do people say they
wanna know about it when they

don’t care
And how does the unconscious
become conscious?
How can I break it if I never
promised?
And where’s logic?
And is Drake a Zionist?
Cause I’ve been to ‘48 and I don’t
know what HYFR is? (I don't
know)
Hell yeah, fuckin' right
I keep screaming free free
Palestine
I keep screaming free free-

[Chorus]
Question everything, the life that
we live in is a lie
Cause there's not just clouds in
the sky
And the Illuminati is not just an
eye
And I know that Adam and Eve
was a lie
So I question everything and
never take another man's word
Or rely on what another man's
heard
It's hearsay
I believe in myself repeat that
I believe in myself

[Verse 3]
Tell me why Africa is poor despite
The land is so broad and wide
Filled with all the resources that
they use to make things that we
buy
Tell me why they just survive
When all that we need, the land
provides
All that they need, the land
provides
All that we need, the land
provides

[Chorus]
Question everything, the life that
we live in is a lie
Cause there's not just clouds in
the sky
And the Illuminati is not just an
eve

And I know that Adam and Eve
was a lie
So I question everything and
never take another man's word
Or rely on what another man's
heard
It's hearsay
I believe in myself repeat that
I believe in myself

[Outro]
I don't believe in what they tell
man, fam. I don't believe in all the
stuff they want to put on the
news, I don't believe in all the
Internet jargon. I do my own
research, I look in to my own
sources. Over-stand and
understand the plan, it's to lock
you down and keep you
brainwashed. But make sure your
brain is washed! By yourself, the
truth. Logical salute!

Logic (People's Army) - I Wish lyrics

[Intro]
[Renee Soul]
(Vocals)
[Logic]
[Verse 1]
Listen
Yeah
Look
I wish there wasn't no system
I wish d**h on almost every other politician
I wish freedom for all my brothers stuck in prison
I wish people weren't led by the television
I wish the kids turned against the media
Don't believe everything you read on Wikipedia
Africa I wish that we were feeding ya and not raping ya wealth
I wish that people thought about somebody else before themself listen
Then maybe then we'd all live good B
If you need it then I got that the way it should be
Life's nowhere near where it could be
Sometimes I wish that I was Lowkey and they come and took me
Cause I feel kinda bad in my heart cause I threw the first bang so it's hard yeah we buss case
ITunes number 1 yeah forget papes
Forget any of the offers that the labels make
[Renee Soul]
[Hook]
I wish
I wish that all my wrongs were right
And I wish
I wish that I could change my life
So my kids
Would never have to sacrifice
Like I did
So I give
And they live
People have to realize
That we live

We're living in some crazy times
And I wish
I wish that we would all unite
And I wish
I wish I wish I wish
[Logic]
[Verse 2]
I wish for peace in every country
I wish for a stress-less life for my mummy
I wish that no kid went hungry
Cause trust me, if I had enough money
I'd fill up every hungry kid's tummy
I wish that money gets abolished
So anyone can give everything to their kids never can't afford it
I wish the whole world was able to live lawless
I wish that there wasn't no such thing as being the poorest
I wish we didn't know what more is
I wish that everyone saw everyone as beautiful and gorgeous
I wish for a lot of things
I wish that I was young and I still played for Kennington Kings look

I don't wish for the fame or the glamour
I wish for everyone to understand us
See what I really wish for will probably never be
I wish Africa and Palestine were free
[Renee Soul]
[Hook]
I wish
I wish that all my wrongs were right
And I wish
I wish that I could change my life
So my kids
Would never have to sacrifice
Like I did
So I give
And they live
People have to realize
That we live
We're living in some crazy times
And I wish
I wish that we would all unite
And I wish
I wish I wish I wish
(Vocals)

[Lowkey]
[Verse 3]
I wish I could see freedom for the Irish
And I wish you could see deeper than my iris
As I write this I wish
People would define it in a way that wasn't dictated by dividers and conquerors
Tell us conscious is what our genre is
You think their dominance is monstrous
But a bomb isn't stronger than a continent
Tell us we're incompetent
That's nonsense we're just onto them
My confidence is shocking them
Not all open hands and open mouths
Dry your tears cause the pioneer's the global south
That is why we're here
Never will I appear on Oprah's couch
Only in the press when the feds put my photo out
They wonder why the mad and young are grabbing guns (Why?)
But you could speak with your hands if you didn't have a tongue
Even that's better than sitting down sad and numb
At times I wish I was Gaberlunzie and I was about to have a son
Scratch that had a baby girl
Live twice and bring life to this crazy world
Be on rap congrats for the new arrival
I'm stuck in Britain accustomed to living suicidal
But not for much longer
I realize that our culture is a weapon
And nowadays I'm much stronger
Simply to exist is what I wish
Retirement or not what I have written is timeless

Logic (People's Army) (Ft. Cameron Jay & John McIvor) – Humans

[Charlie Chaplin - spoken]

Has barricaded the world with hate, has goose-stepped us into misery and bloodshed. We have developed speed, but we have shut ourselves in. Machinery that gives abundance has left us in want. Our knowledge has made us cynical. Our cleverness, hard and unkind. We think too much and feel too little. More than machinery we need humanity. More than cleverness we need kindness and gentleness. Without these qualities, life will be violent and all will be lost

The aeroplane and the radio have brought us closer together. The very nature of these inventions cries out for the goodness in men - cries out for universal brotherhood - for the unity of us all. Even now my voice is reaching millions throughout the world - millions of despairing men, women, and little children - victims of a system that makes men torture and imprison innocent people

To those who can hear me, I say - do not despair. The misery that is now upon us is but the passing of greed - the bitterness of men who fear the way of human progress. The hate of men will pass, and dictators die, and the power they took from the people will return to the people. And so long as men die, liberty will never perish

Soldiers! don’t give yourselves to brutes - men who despise you - enslave you - who regiment your lives - tell you what to do - what to think and what to feel! Who drill you - diet you - treat you like cattle, use you as cannon fodder. Don’t give yourselves to these unnatural men - machine men with machine minds and machine hearts! You are not machines! You are not cattle! You are men! You have the love of humanity in your hearts! You don’t hate! Only the unloved hate - the unloved and the unnatural! Soldiers! Don’t fight for slavery! Fight for liberty!

In the 17th Chapter of St Luke it is written: “the Kingdom of God is within man” - not one man nor a group of men, but in all men! In you! You, the people have the power - the power to create machines. The power to create happiness! You, the people, have the power to make this life free and beautiful, to make this life a wonderful adventure

Then - in the name of democracy - let us use that power - let us all unite. Let us fight for a new world - a decent world that will give men a chance to work - that will give youth a future and old age a security. By the promise of these things, brutes have risen to power. But they lie! They do not fulfil that promise. They never will!

Dictators free themselves but they enslave the people! Now let us fight to fulfill that promise! Let us fight to free the world - to do away with national barriers - to do away with greed, with hate and intolerance. Let us fight for a world of reason, a world where science and progress will lead to all men’s happiness. Soldiers! in the name of democracy, let us all unite!

Jurassic 5 Lyrics

"In The Flesh"

[Chorus: repeat 2X]

It's the J-U-R-A
Capital S another S-I-C
5 MC's in the flesh
Bound to catch wreck
Hit the deck
Cause we'll pop the trunk
Plus the tape on your cassette

I'm from the crew called Jurassic
Stretch like elastic
Live and on plastic
Step and get that ass kicked
From here to there
MC's beware
I represent that real ghetto urban warfare
Ah yeah
What you say when you see me in your town
Bucking off some rounds
Of that underground sound
You need to open your eyes
Realize and recognize
Throw your hands in the air lick a shot for J5
I'm all the way live
I socialize with the wise
Underprivileged spiritually deprived
At times in the flesh
Airwaves getting checked
The vibe is energized by the way I spit my dialect

I be the brain cell buster
Old school style kicking hustler
That'll rush ya like a wrestler
Elliot Ness ya
Bow to my pressure
Step to J5 you're getting played like Fester
I be the ever handy
Hard like rock candy
Down with Mork and Mandy
Won't date Sandy brown eyes
Tale of the physical trait
Intoxicated by the bomb as I start to sedate

Your mainframe
All speaking on running this thang
Five J's in the house and the styles to blame

[Chorus]

Cause it's the J-U-R-A
Capital S another S-I-C
5 MC's in the flesh
Bound to catch wreck
Hit the deck
A prehistoric B-boy making beats in my cave

They call me 2-na
As in Fish in sea
Self efficiency
That's my mission see
Got me wishing we all
Could've puffed a spliff first
Shoot the giff first
And 2-na Fish becomes a gift horse
Look me in the mouth
Tell me what you see
No matter who I am
I am you as you see me
U is still Nity
COM squared and shit
I was put here to see if you came prepared and shit
I'm red as shit
My head is split from every crazy
Lazy kid we thought was chill
They was Swayze
Soon as they got a taste
Of what the U-N-I was like
Their eyes was like BLAM
From the surprise and fright

Now it's the vocal enhancement
Vintage reigning rocks
A hundred mines swing
Dig a few chains of black gold
Plus block the seven holes that froze
A nigga soul and bust blood through his toes
For acting like his shit was mega heavy weight
But he couldn't escape
The way we wet him down like it was watergate
Infiltrate flavor crack skull and stone
Rip through the carcass spit blood and bone
For all those

Who feel their crews forever tight knitted
When raps emitted
Islamicly transmitted
Is the brother a color
Yes the color's darkly tinted
No acts or gimmicks
And when the bullets imprinted it's whipped
It hibernates till it stretch the yellow tape
For Mister Doc key is caliber career, yea
With so many rhymes it can't a crew make me
Rock for 32 times like John Wayne Gassey

You need to put your hands together
Cause J5 is in the house
Because we're guaranteed to keep it live
When we kick the party vibe
We came to catch wreck
We got the fossilized flavor
For you fools who slept
And plus we got you sucka crews in check
Now come correct Nu-Mark
Hit 'em with the perfect blend
Cause it "don't stop rockin till I say when"

J-U-R-A capital S
Another S-I-C
5 MC's in the flesh
Bound to catch wreck
Hit the deck
Cause we'll pop the trunk
Plus the tape on your cassette

Cause it's the J-U-R-A
Capital S another S-I-C
5 MC's in the flesh
Bound to catch wreck
Hit the deck
Cause we'll pop the trunk
Plus the tape on your cassette

Jurassic 5 Lyrics

"Jayou"

Yeah, testing, testing, one two
Uhh, one
Press the panic button God

[all]
We be the crew, guess who, the Jayou
R-A-double-S, I-C, we're
in the place to be, it don't stop
We got the rhythm that makes your fingers
snap, crackle, pop pop, fizz fizz
We're known to give a show plus handle our biz-ness
Stress, we'll destroy
We're known to make noise as the original b-boys
in the flesh, greater to the depth
Creates the ill scenes when we manifest, yes

I feel the vibe
I feel the vibe too
Cause it's the butter from the crew
CAUSE WE ORIGINAL, WHO
Wanna tussle?
Flex for the muscle?
WHILE WE KICK THE STYLE THAT BUSTS YOUR BLOOD VESSLES
With the rhythm
The ninety-six stylism
PICK UP A PILL AND FEEL EM KILL EM WITH YOUR VOCALISM

Yeah, I shoot the gift puffin another cold spliff
Fools are coming quicker than Anna Nicole Smith
Malginant metaphors and ganja stay herbs
We conjugate verbs and constipate nerds LIKE YOU
I'm hear to end the conspiracy, fearlessly
So you can really see the real MC's AT HAND
I'm tuna fish on the stickshift
The eclectic hectic, desperate to set trip

And for the niggaz who feel, that they're 24-karat
Plus, the way you're livin get your undewater baptism
Believe it or not, it's the rugged and raw
Put a bullet in the head of four in Mount Rushmore

Yeah, release the beast from within, baptise gins
Keep company with friends that repel sin

I'm out to win ain't no pretendin, fuck the first amendment
My speech was free, the day that my soul descended

[all]
Earthbound, we might sound various
Some niggaz can rhyme, but they got no character
So we preparin you for war, don't give up the fight
You need to stand up for your rights

And grab a mic and get loose, produce the juice that keeps the head on
collosion with the New World Order opposition
Competition, none, there's only one in the universe
that knows the final outcome

We got incarcerated minds, men women and enzymes
Vibin off the rhymes sent from the di-vine ESSENCE
PRESENCE EFFERVESENCE, not to be contested
Some miss the message, GO AHEAD AND BLESS THIS

So don't mistake us for a crew that used to hit
We on some underground certified Wild Style shit

[all]
We be the crew, guess who, and it'll be
The Jayou, ninety-five A.D.

Be be causin ramifications, physicians
sendin brothers on grammar vacations, if they don't listen
Competition, bustin shots on people basin
But we can delete constipation

[all]
Jurassic, 5, MC's
And we got the cure for this rap disease
So come on everybody let's all get down

Cause I'm down by law and I know my way around

Jurassic 5 Lyrics

"Lesson 6: The Lecture"

Edit.
OK, let's begin!

Compound: A substance composed of two or more elements chemically combined in definite proportions by weight.
Mixture: Two or more substances that are not chemically united, such as air.
Solution: A uniform mixture of varying proportions of a solvent and a solute.

For many of our students, this is the lesson you've been waiting for.

Lesson... Six.

Left channel.
Right channel.

Hydrogen, H, +1.
Sodium, Na, +1.
Magnesium, Mg, +2.
Aluminum, Al, +3.
Potassium, K, +1.
Calcium, Ca, +2.
Chromium, Cr, +2, three, six.

Any physical difficulty with a record, or a turntable, is taken care of.

Do you think that Led Zeppelin and Frank Sinatra would go together?

Edit.

No.

Combinations of music.

You're about to play a sole, 45 RPM recording,
But the turntable is set at 33 and 1/3,
And the record plays very slowly.

Let's pick up the tempo a bit, eh?

Now let us imagine you are in the middle of your Disk Jockey program.

This is the mark of a professional.

Yeah, if you could throw a couple...yeah uhuh..
Right when he's playin' the drum...
Let him play a couple' beats alone.

Eeeeuuh.

Uh!

Oh I'm sorry, I had the turntable at the wrong speed.

Listen!

Scratching -- The greatest thing on earth!

What do you do?
What do you do?

Drop!

Chemical change: a change that alters the composition of the molecules of a substance. New substances with new properties are produced.

Drop.

From now until your next lesson, we want you to study carefully every section of lesson six, and to go back over Lesson 4.

Practice carefully, and you will be ready for the new techniques and new situations we will cover together in Lesson 5.

Jurassic 5 Lyrics

"Concrete Schoolyard"

Now I'm a say this one time boy and that's my word
We rockin shots and not fire through the Hindenburg
The contribution is clear
You add water to bone
And get the Jurassic 5 on the microphone
Now if you like the tone
And how the harmony's done
And the sucka mc's die before they've begun
Well I'd like to know if
You've got the notion
Cause we're number one
I'm not trying to say my style is better than yours
I'm just on some other shit
I'm all about the beats and the lyrics
So when you hear it you can feel it
The vibe is energized by the presence of my spirit
No interference we persevere
The purpose is clear
We're here to leave your ear hurtin severe
You're lurking in fear
Cause we take it back like robbin loxly
Rockin from country sides to spots where hard rocks be
I often wonder if these MC's even know how it feels
To dedicate they whole life to this mic of steel
Its not about the bills
That's not keeping it real
A lot of tight rappers out here ain't got no deals
We appeal to the brothers with flow finesse
Cause it's the 100 watt blood shot game of death
Cause we're protected by the covenant of words and beats
Rewind and feel the heat
Recline and take a seat
So ah...

[Chorus:]
Let's take you back to the concrete streets
Original beats with real live mc's
Playground tactics
No rabbit in a hat tricks
Just that classic
Rap shit from Jurassic

[2X]

Now I walk from Tranzania
Earthquake Transalvania
And on my way I kicked a whole through the wall of China
Just to get the right blend
Cause its schizophrenic of the pathway to livin
I fell into the deep end
You shouldn't have told me
The pyramids can hold me
So now a contest is what you owe me
Pull out your beats pull out your cuts
Give us a mic, whatup
And we goin tear shit up
I'm on some old and forgotten
Sun up to sun down
Like picking cotton
The nutty professor science droppin
Rockin Robbin's hood
From New York to Compton
Me and my three sons
Jabari, Shakir, and Kahsum

[Chorus 2X]

Hey, I'm 2na-Fish from U-N-I-T-Y
Do or die
Anti-illumaniti, why
Do the liquid from my vocals
Make the ghetto start swimming
Forever winning I'm in it
Like Medolark Lemon
I get goose bumps
When the baseline thumps
A sucka MC freestyle
He had mine for lunch
Marc 7even get you open like an attach'
Briefcase in this case
The victor is no way
Ah, ah the tool spinners
Cooking the full dinner
Killing the first born of lyrical Yul Brenner's
When is it the academy
Rattling your anatomy
That'll be J 5 so kill all of your fake flattery
That'll be the day
When labels pay our way
2na what you say
when MC's come to play
Man fe dead

Cause we take it back like Spinal Tap
Preparing your intellect before your final nap
So ah...

[Chorus 2X]

You got beef now watch how I settle it
I'll fuck around and arrest your whole development
I'm eloquent
When it comes to digital display
I'm ready for the world while you earl off the Tanqueray
Tactics, my shits Jurassic 5
Fingers of death while you exhale and inhale
With a deep breath with my Chop-Sui style
Cause I'm a lyrical chef
I gets mines to the death
Cause I be cookin
From here to Brooklyn
Your shits annoying like fat-ass Bookman
On Good Times
When I rhyme
I hit the designated area
I hope you got your shots cause this is lyrical malaria
Spreading, beheading fools with the punishment
I live in America but fuck this government
A hundred and fifty times over silk with lead
While y'all drink the similack
My rhymes are breast-fed
No artificial nipples
I flip the real skills
I thought I told you once
I kick the lyrical windmills
And backspin Benedict
Strictly for my benefit
I step on toes when I flow don't get offended
Come and get with it
Comprehended when I kick it
I represent the real
From the beginning to the end of it

Jurassic 5 Lyrics

"Action Satisfaction"

I see dead man grins
Seven deadly sins
Couldn't keep his mouth closed in the house of chins
The all seeing eye that recognize the rap clones
Plus possess the pin to crack the pyramid stone
Its the call of the wild thats why my words rank high
Drop the verse for nine planets
That fell from the sky
Do or die you and I get fly with rap expressions
With the one two three four five

In the session with the lesson
Cause in bass and treble we trust
With the rebels orally ready in case we bust
And write a power chord and if the place be plush
We kick the old school like Julio Iglesius
Tapes we push be straps with no safety catch
We attack like a bullet till your face relax
And think about it
If you ain't got the class to flee
Be mentally ready for jurass-catastrophy

Now its time for me to rise
The lyric utilizer
Down like fertilizer
Quick to improvise
A style that can surprise ya
Your eyes is on the prize
We can go line for line
I ain't hard to find
While we break your spine
My mild style reclines
I'm laid back
All that talk you need to save that
The payback is all the reason that I'm flexing
The feds rocking like we x-men

[Chorus: 2X]
You say you want action satisfaction
The brothers with the positive reaction
The crew with style that's on top of the pile
J5's gonna rock a long long while

We get set
Who's up next to pull to a fast one
Lyrically connect the dots and then I blast one
Now who wants action satisfaction
Lyrics remind you of bass I'm everlasting
Casting plagues my styles crossing the switchblades
My momma shoulda named me grace cause I'm amazingly
Blazing with the fire and desire
I'm world renowned I gets down to the wire

If any child of mine gets out a line boastin'
My style of rhyme covers you like calamine lotion
Lifted out like vine motion I spend time stroking
You still drink a dime potion and dime boasting
But now my rhymes open brims a spirituality
We be giving power that you can share with your family
Aerodynamically cutting through danger
Ripping your narrow mentality nothing but flavor

[Chorus 2X]

The moral of my oral ammunition rendition
2na fish on a Marc 7even collision
We be forever keeping niggas on they P's and Q's
And the B's who snooze leave diseased and bruised
I see through your crews like an x-ray tube
And gamma rayed your function
Left you with assumption
That we be the butter clique
We smothered with the action satisfaction thats guaranteed to be jurassic

[Chorus 2X]

Jurassic 5 Lyrics

"Sausage Gut"

Yeah you're pickin up fat records.
Go ahead you go pick them up fat boy.
Pick em up, fatty, sausage gut.
Go head fatso.
You pick up a sausage sandwich for me pork rinder.
Peasywease!

Jurassic 5 Lyrics

"Improvise"

Now I'ma say this once again open up your mind
Shot heard around the world came from our fresh rhymes
The contribution to showbiz, mixed with entertainment
Resurrected rhymes, not the same old same
Now if you like what we came with
And you feel you can sang wit it
Peep the verbal language and the way we arranged it
Now entertainment to make the people applaud
I'm not trying to say my style is better than yours

I'm from the graduating class of one-nine-eight-eight
L.A. Unified School M A H
A gangbanger from the streets taught me how to break
In South Central L.A., ay yo, can you relate?

I'm Chali 2na
The one who puff the buddha keep the Snapple in the cooler
Used to go to junior high with Son Doola
Old skoola - a permanent, element, in ya tournament
Tellin it prevalent never delicate when we burnin it

Now from L.A. to the U.K. we attempt to rock a party
The rhyme and the music you don't hear that no more hardly
I can say it's partly, all our faults smarty
J5'll bring you more than the shakin of a body

Ay yo a child is born but no state of mind
But when I first heard it, put words to rhymes
I went from hypercars, to powder blue All-Stars
To hangin on monkey bars catchin spiders in jelly jars

[Chorus: repeat 2X]
So uh, let's take it back to the concrete streets
Original beats with real live MC's
Playground tactics, no rabbit-in-a-hat tricks
Just that classic, rappin from Jurassic

I bring the noise plus the funk, entertainin like a dunk
From a snotty-nosed prima donna millionaire punk
But uh, I heard a hunch, that somebody might munch
Cause J5 go together just like parties and spiked punch
Your crew's captain crunch, and I'm the seven seas
Bombin on MC's, crushin crews with ease

Brother please you know my steez is 100 degrees
With no era bring it live like the Trio of Terror

Trio of Terror no mascara, at last your brass surpass pleasure
We the last treasure set to entice the cash bearer
Mask wearers who bite my reflection like glass mirrors
Be trash pickers who need to consider the past clearer

Now what you thought was old and out of date
We brought it back alive and changed the shape
We put it on wax for those who think that
The 5 we energize has been extinct

[Chorus]

We takin it back like battles in hallways and bathrooms
And battles in the back of the classroom
And in the bungalows game of death with flows
Lunchtime rhymes you had to prove and show

Never the school type, couldn't pronounce the words right
The class jester, I was flunkin every semester
The summer hit, had it burnin in '86
Class cuttin and runnin wit all the neighborhood derelicts

Within the concrete jungle (huh!) we remain humble
Akil and Akir, bounce, flip and tumble
Uh, we never fumble, break down or stumble
Hot mumbo jumbo, just bring it when we rumble

We push it like the Daytona
Fresh rhymes we blaze on yas
Strictly from California old skool public diplomas
We spittin from every corner we flippin it when we wanna
Beneath the concrete be street word on ya

[Chorus]

JURASSIC-5
QUALITY CONTROL

Jurassic 5 Lyrics

"How We Get Along"

Yeah, I'm maintaining with Jurassic 5
You know what I'm sayin'
My people's up in here, Biggie B, One Love

What we're about to do and show you is how we get along
We get along with eye contact
We also get along by listenin' to one another
Not only that but we also get along because of rhythms
That we've learned during the course of the years

But above all, there is harmony because we got to listen to one another
It's all about feeling
But with a positive attitude to make it work
And what we're about to show you today
Is FIVE different versions of feeling good, yeaahh

B-Boyd and B-Girls
Jurassic 5!

Jurassic 5 Lyrics

"The Influence"

[Zaakir]
Yo, I create off drum drops and ate away blacktops
Grab the mic so you don't react
The double X Polo shirt with the hat to match
In fact, we verbally vibrate your track

[Marc 7even]
Then crush your confidence like plastic condiments
Build you up to break you down like forgotten monuments
The question is this: will they return with the hot shit?
Or keep it on the low flow

[Charli 2na]
Yo, and for you confused bastards, Tuna the blues master
Quick to grib the mic, crews fast and soundclashing
Critical mass, pinnacle blast have been deflected
Hypodermic vocals I flash get you infected

[Akil]
I don't sip on brew, so this Bud's for you
Speak when spoken to whenever you come through
My vibes fill you, Internal Revenue
You rhyme prostitute for little or no loot

[Jurassic 5]
Cause a lotta these kids think that commercial
Is rocking fly suits and jewelry
But we can rock shows with no rehearsal
With the Rebels of Rhythm and Unity

[Zaakir]
Yeah, cause I'm nice, smooth, hard as a bone
Since I pick up the microphone I'm hotter than brimstone
The razor sharp crossbow accurate
We drop the multiverbal miligram suppliment

[Akil]
Plus in bed, theological word advance
Been Too Legit To Quit before the Hammer pants
The parent to the pen converts words to song
Stay blacker than the New Year Harlem Renaissance

[Charli 2na]

No comp, we paint a darker picture, in your sector
Perfect verbal architecture, sparking lectures
Lyrics infectious, fuck your Lexus
If you ain't giving God your praise then it's useless
Like when MC's try to make hits and them shits flop
Running races like they was Penelope Pitstop
Develop these hits rock bottem, the disk jock got 'em
Souped up, but his rhyme is beating his loops up

[Jurassic 5]
Like dah dah (dah dah)
Bah dee dee dee dah dah (Dah dee dee dee dah dah)
Bah dah dah dah dee dee dee dee dah dah

[Marc 7even]
I can see clearly now, top of the pile with my style
Check the profile, it shifts like sundial
Crisp like young smiles, we rip and run wild
Intent to rock crowds, some bite like rottwilds

[Akil]
Your game is disconnected, misdirected
Disrespected, when we come in, expect some next shit
The J-U-R-A, classical forte
Get low down & dirty like the eel moray

[Zaakir]
My heart pump the rhythm of the militant street life
Soldier of composure up under the street light
The coat style, prototype, professional
Media light shine bright, now kill all the
Bullshit, cheap talk and lip service
Jealousy and envy and undertone cursed in your verses
Serve the purpose of a nigga living nervous
Unsure and uncertain but about to short circuit

[Jurassic 5]
Like dah dah (dah dah)
Bah dee dee dee dah dah (Bah dee dee dee dah dah)
Bah dah dah dah dee dee dee dee dah dah *[Repeat 2x]*

[Marc 7even]
Ayo my gift of gab should be sold in bags
Boost up the price tag, make a wack rapper mad
Rely on my right side, securing our tape tight
Tasty tangibles to your mandible and clavicle

[Charli 2na]
Yo, easily 2na be, cleverly swelling my treasury

Vocal pedigree for you critics who try to measure me
But easily I'm about to run you down my resume
Had a bundle of struggle from birth to my present day

[Akil]
Yo, your love don't compute, perhaps you need a boost
A magical flute, some nose candy to toot
Before you get loose, express and tear the roof
You claim you got the juice, but you lame and out the loop

[Zaakir]
So I associated myself with fossilized figures
Crack the summer sizzler, hit the real live niggas
My influence is gunshots and trauma units
Street trends, with material word friends

[Jurassic 5]
Like dah dah (dah dah)
Bah dee dee dee dah dah (Bah dee dee dee dah dah)
Bah dah dah dah dee dee dee dee dah dah *[Repeat 2x]*

Jurassic 5 Lyrics

"Great Expectations"

[Akil]
Uh, no doubt, it took ten years, for me to pressure cook my fears
No my front line rhymes moving up from the rear
My dream slash career appeared ever so clear
Now I'm able to touch, smell, feel, speak, and hear
My fans cheer, my time is finally here
The past depart the present cause the future is near
Anticipation, magnified my motivation
Direct my energy to touch nations
Been entertaining since niggas was really banging
Dancning at the old folks parties, pancaking
I've been waiting for my time to shine
From Catholic school John Muir Jr. High
From Manuasa to rocking at the Good Life
We paid the price to keep rhyming and rip shit on the mic
Yo, cause if you only knew what we been through
The struggle and the pain to maintain and continue

Expectations, on our committee Unified relations
We Rebel our Rhythm through tribulations
And treble and bass the situation with dedication

[Charli 2na]
Yo, go get your ticket, your seats snacks and beverages
While we get wicked all in your brain cracks and crevaces
Servicing bulletins to you critical puritans
Who be shouting in my vicinity doubting my capability
(Expect) no defeat, my whole fleet be scorching
Keep across your vision blurred from heat distortion
The proportions better that precaution
While we shake the portion fakes are lost in, never flossing
(The antidote for your mood) We sloppy dope and I'm hoping
What I wrote get you open like a Fallopian tube
In my crew we inclube brothers who worthy
Rebels indeed, J's from LA, I'm from Shahee
Plus never vexed, flipping for Allah cause he blessed us
With the talent, to make Jurassic your next guest
Rocking since the '84 Fresh Fest, yes

Great expectations, on our committee Unified relations
We Rebel our Rhythm through tribulations
And treble and bass the situation with dedication *[Repeat 2x]*

[Marc 7even]
Ayo my story starts in the NJ state
And gets deep like a movie Bruce and Demi make
I moved to the land of sand and ill earthquakes
I didn't know this was the place I'd get my piece of the cake
Or the piece of the pie, U-N-I-T-Y
Every Thursday night at the Life we kept it tight
That's right, that's where we dwelled and the rhythm rebelled
We a blast from the past like the shotgun shells
No a mocho males with raps about a beer
(Our mission is to persevere) So haters play the rear
We toured the stratesphere from London to the Square
You swear you're prepared to diss what we have here
Indeed time ticks as rapid rhymes rip
Earth and time split in time to find it's
Just another manic Monday, and one day
We'll shine, too, so my crew say

Expectations, on our committee Unified relations
We Rebel our Rhythm through tribulations
And treble and bass the situation with dedication

[Zaakir]
Yo, whether you love to hate it, if it's in or outdated
If I've been overrated or maybe your most favorite
You expect me still to write my verse on time
And I expect you not to front when you hear my rhyme
Don't expect me to smile cause it's in good taste
I know cats that's no mistake smiling in my face
And don't expect to try and guess if I'm mad or not
Or if I'm cold or hot, you would know if not
And don't expect me to come and just bite my tongue
It's kind of hard to forget what some brothers have done
But my mother always said you can forgive and forget
And expect that most promises won't be kept
I guess I gave credit where it wasn't deserved
To brothers must have preferred to not keep their word
The bigger the burden, the bigger the uncertain
No expectation for my creation, great expectation

Jurassic 5 Lyrics

"Quality Control Intro"

Expectation
Quality
Oh cool, perfect
Is that good?
Quality
Oh cool, perfect
Is that good?

Quality

Jurassic 5 Lyrics

"Quality Control"

[Jurrasic 5 Together]
Ayo my quality control, captivates your party patrol
Your mind, body, and soul
For whom the bell tolls, let the rhythm explode
Big, bad, and bold b-boys of old
Many styles we hold, let the story be told
Whether platinum or gold, we use breath control
So let the beat unfold, intro on drum roll
We be the Lik like E, Tash, and J-Ro
We harass niggas like we was the po-po
We can rule the world without Kurtis and still Blow
Finesse, from SP to Casio
Your jams ain't def, you ain't fresh, you're so-so
If you don't know us by now you'll never know
You set that mood when we groove and prove a show
The name of the game is survive and prove your flow
You can't out take Jurassic syllable
Cause it's survival of professional radio
Stop and comprehend and heed the words of my pen
Survival of professional poetical Highlanders

[Zaakir]
(Soup, you plan on rocking something fierce?) Oh, am I
Zaakir's the name, the A.K.A. super
The verbal acupunture from the dope old schooler
I used to be the brother for others that used to dumb on
Now they be the lovers of brothers that can't front on
Put me in the mix, LP 12-inch
SP, the elegant, poetic pestulence
I'm carbonated, the Fanti-confederated
Highly commemorated, and the most celebrated
For connecting it (Word!) Like verb subject to the predicate
Plus I got the etiquette
To keep it moving, and showing cats how it's done
Cause it's the verbal combat, position number one

[Mark 7even]
We keep it beaming like a beacon, if it's clearance that you're seeking
Whether black or Puerto Rican, people back us when we're speaking
We got the kind of rhymes that get you ready for the weekend
(To the mass amount of legions that came for party pleasing)
Our temperature is freezing all kind of different regions
The rhythm is the reason you're checking for what we've done

Please son, our thesis, will rip your crew in pieces
Your rhymes ain't right, homeboy, you ain't in season

[Jurrasic 5 Together]
Ayo my quality control, captivates your party patrol
Your mind, body, and soul
For whom the bell tolls, let the rhythm explode
Big, bad, and bold b-boys of old

[Charlie 2na]
Yo, yo, well it's the angelic man-relic clan repellent
My plan parent manuscripts withstand bullets
Flashing like a Japan tourist, we command pure hits
While you cramming to understand these contraband lyrics
My fam submits to pray, 5 times a day
Climbing into your mind with live rhyme display
J5 finds a way to remain supreme
Coming verbally Hardison as if my name was Kadeem

[Akil]
Ayo my team Dreamworks without Spielberg or spill words
Communicate from the Earth throughout the universe
I transmit, transcipts, transcontinental lyrics
Deeply rooted in your spirit
Up, I love the power of words, nouns and verbs
The pen and the sword, liquid stick on award
No folklore or myths in my penmanship
The Panther Scholar Warriors is what I present, uh
Verbally decapitating those against a
Jihad-fee-sabeel-illah words make sense
You gots to get up on your vocab, you gots to have vocab
Letters makes words, and sentences makes paragraphs

[Akil]
Yo, I make the pen capsize, the verbal with the planted eyes
Planning knives ever pair that I utilize
Spit juice, crack blood from your tooth
Inflict truths, speak Allah's 99 attributes

[Charlie 2na]
You baby MC's drink Pedialyte
While underground doesn't like you, the media might
But we the elite will change that
As we bridge gaps in this lyrical grudge match, brothers we slug back

[Mark 7even]
Yeah, we bless tracks with the help of a raw rap
Inprinted like poor tracks all over your brain rack
My mental maneuver will clear and steer right through ya

We Grand like Puba, understand that we move ya

[Zaakir]
Ayo, my rhythm reveal rollercoaster real deal
Revolutionize with active build
I plant my dreams in the field and wait to harvest my skills
For the starving MC, hungry trying to get a meal

[Jurrasic 5 Together]
Ayo my quality control, captivates your party patrol
Your mind, body, and soul
For whom the bell tolls, let the rhythm explode
Big, bad, and bold b-boys of old

Jurassic 5 Lyrics

"Contact"

Two excavations revealed a prehistoric fossil story about a band
Moving South
Carried here over 500,000 years ago
Contact
A planet
Yeah
I'm in range
Okay, engine stop
I'm going to step off the LEM now
Interplanetary contact with Earth
Two excavations revealed a prehistoric fossil story about a band
500,000 years ago
Moving South
To the Los Angeles underground
Stop
Send the word
Rapping with the gods
Word
Full contact
Interplanetary contact with Earth
Move forward
To the future
The year 1999
The place: Los Angeles
Los Angeles is what's happening
Los Angeles is what's happening

Jurassic 5 Lyrics

"Lausd"

[Jurassic 5]
Yo, we are no superstars
Who wanna be large and forget who we are
Don't judge us by bank accounts and big cars
No matter how bright we shine we're far from being stars
Cause stars fall, and disintigrate before they hit the
Asfalt, they incinerate cause we came
Not to destroy the law but to fulfill
For those who appreciate those with skills
And fresh windmills, and graf that kills
What is a DJ without the scratch to build?
Without the elements, it's all irrelevant
Niggas love to Freestyle but hate the Fellowship

[Zaakir]
Yeah, taste the city's agenda, most of you outta town niggas
Get caught up and turn bitter, the city of bullshitters
Where hopes are blown, not even money for the phone
Now tell me what's the solution, how to get back home?

[Charli 2na]
Yo, don't get caught up in glamor and glitz and camera tricks
The Land of the Dead, before you come examine your set
Where drama collects and women use special effects
Where amateur stunts can make a nigga damage your fronts

[Akil]
Uh, the California Sunkist with a twist of limelight
Some set trip on the Sunset Strip
Belive the Hide Boulevard nice, the glamorous life
Many searching for the fame but can't afford the price

[Marc 7even]
She would turn you out if you wasn't prepared
She would tell you the things you wanted to hear
She would blur your vision when it once was clear
This chick is full of tricks so approach with fear, cause

[Jurassic 5]
Yo, we are no superstars
Who wanna be large and forget who we are
Don't judge us by bank accounts and big cars
No matter how bright we shine we're far from being stars

[Zaakir]
You say you love LA, you say the weather is great
Plenty sun in your face, you like the cars with bass
You like the way we paperchase and the women that shake
In the land of earthquakes and high crime rates
A lot of people is fake, this is Hollywood
We shape the minds of kids in every hood
We make your past situation look good
The nights filled with Shugs and I wish you would

[Marc 7even]
Can dance with Alvin Haley and Les Miserables
In this century city, you can walk on the stars
Sex, money, and murder, yeah it's all 4 to 5
Cause fame and passerby with the name immortalized

[Akil]
On the avenue of stars, many names are called
On the boulevard, known for leaving permanent scars
Many dreams get robbed, real movie macabre
Young heartthrobs get young heart sobs, cause

"Good evenening ladies and gentlemen welcome to Hollywood, California"

[Charli 2na]
The city of angel's wings represents people's hopes and dreams
And the evil that men do that live life close to kings
And boast supreme, fancy cars, coats, and cream
Material things provoke more folks to scheme
Whether you paid your cost, Cali green made your call
The smog covers the city like a table cloth
Is it fame at fault? Entertainers labeled soft
The place where people come to lose their train of thought

[Zaakir]
Despite the claims of what LA is and what it ain't
The picture the city paints that overexaggerates
Within the circus, if you're filling this service purpose
Some feel it ain't worth it, the city that's got you nervous
And make you injure, and get up out of here nigga
Cause LA never considered for those that need baby sitters
This is the hot bed for singles and newlyweds
Some looking for better gigs or fiending to make it big
It's the only place where stars are born
And we are the only ones that can't be worn
Out, by any place regardless of the cost
Cause brothers with big dreams, sometimes they get lost cause

[Jurassic 5]
Yo, we are no superstars
Who wanna be large and forget who we are
Don't judge us by bank accounts and big cars
No matter how bright we shine we're far from being stars
Cause stars fall, and disintigrate before they hit the
Asfalt, they incinerate cause we came
Not to destroy the law but to fulfill
For those who appreciate those with skills
And..., and...
What is a DJ without the *[scratching]*
Without the elements, it's all irrelevant
(I represent the real from the beginning to the end of it)

Jurassic 5 Lyrics

"World Of Entertainment (W.O.E. Is Me)"

Well, here's a little something for my people in the house
I'm gonna tell you what my crew is all about
We like raw rhythm fusion, real rhyme producin'
songs for the world's men, women and children
Armed and equipped with much confidence
and this is how we're gonna make our living
Some are known for bein' biters
non-creative and wack rhyme-writers
Yo, they soup you up but can't rock the jam
known to the world as a one-hit band
Easy come, easy go, yo you had your turn
temporary niggas touchin' up your perm
You see a rapper is a kid that brags and acts big
A rhymer is a nigga that can handle his biz
Yo, A rapper is a kid that's tryin' to be the shit
An entertainer ain't tryin' cause he already is

[Chorus]
Welcome to the wonderful world of entertainment
where art imitate life and people get famous
Welcome to the world of showbiz arrangement
where lights, camera, action is the language

[repeat Chorus]

We was rockin a jam the other night
J5 was on the mic so the people was hype
Yo, we like to rock the party with adrenalin and passion
the crowd started screamin "Action Satisfaction"
Numark dropped the beat and the heat from the fire
We brought the energy and streetcar named desire

We was flippin, they was trippin, how we was old schoolin'
needle to the groove, hands in the air movin'
and we said to the crowd "This is the place to be,
whether you paid a fee or you got in free"

So when you step through the door, the music gets loud
Manuever through the crowd to get a better view now

[Chorus]

To be an MC, you got to be so fresh

to have style and finesse way above the rest
With the strong delivery, vocal chemistry
street poetry in tune with the beat
So if you think you got the skills come take a test
microphone check if you truly are blessed
If you can flow like water and can comprehend
you need longevity in this game to win
Now if you want to be the best you got to move and motivate
Watch the money that you make in the industry stakes

Cause some of these people ain't got no class
and some of these folks'll make you beat they ass
If you can believe then you can achieve
get the loot, live the dream, be on top of the scene
To keep the people in it, and accumulate fans
to be dope in the studio and slam at the jams, so

[Chorus]

Welcome party people, while we got your attention
There's a few things we'd like to mention
The name is Jurassic, but they call us J5
we rock bonafide fly rhymes fortified
We got 2 DJs controlling the beat and
vocal harmonies make it sound so sweet
We're the four horsemen, with words to caution
expressed and flipped in an orderly fashion
With the rhymin', designin' the music on time and
the fellas saying "ho" and the ladies losin' they mind and
the breakin', the scratchin', this thing called rappin'
the cultivated music that keeps your hands clappin
The passion, reaction, the street satisfaction
Brothers using no tactics to make it happen
the rhythm, the spirit, you love it when you hear it
Nowadays when you're samplin' shit, you gotta clear it

[Chorus 1.75X]
[cut after "Welcome to the world of showbiz arrangement, where.."]
[samples: "lights" - "camera" - "action!"]

Jurassic 5 Lyrics

"Monkey Bars"

This record is particulary for then youngsters...
Now you get right to the procedure

Now what do you like the most about this
Conflict, Consequence, constant evidence
A classic contact communicator confrence
Weither 5 or 6 weither a number misprint
Or if it seems that, you heard above 4
If you thought that you would never hear it no more
You should never dial commin runnin murda mile
Cause it's all about ya health (lets go)
(wait wait)
Now you know us but it's not the coke rush
Four MC's so we ain't the furious
Like the fourth mc's or the 3 from trecherous
It's a blast from the past from the moment we bust
But if our shit go rough, still in god we trust
Cause it's the - comming
Display the rhymes so stunning
We keep ya runnin, and give a shoutout to the london
And keep it all, and still perform till the early morn'
Some said till dawn
We got a word abundance, hold benz by the hundreds
Top speed, guarenteed, we stil runnin

People master my tere-tactics
Why you actin plastic
Treatin all ya fans like ya matches
We be the other pair comin' in tight the tupper wear
Other fear, push ya luck and beware the brigadier

Yo, DJs be spinnin the records that make up the music
So people can focus whenever the mic has been passed to me

The more drums we have in our kit, the more we can handle
We gonna take a break here..

Lets go. wait wait still

Jump a bill A-K-I-L known to exhale when i inhale
And you can tell when in the coo i do my duty-o
And swung to the studio
J-5 let the beat bounce

Thats what counts without a doubt
so sup grab the mic and pull the magic out ya mouth
We be the rythem kings, plus the rhyme channelings
(I could sneer anything) Go ahead

Sneer *[repeated 21 times]*

Light emcee kay mastered fatness so we crack this
Runnin through wall and wack this
Yo, 2 emcees add a little um, spice
So we concentrate on mic's and keep the path tight
3 emcees underground and worldwide
Surgean general on the 5 to defy the certified
4 emcees at ya door once more
When it rains in pours from the heavens to the earths floor
Elements, vocal instruments super extra strength
Hip-hop activist
Throw yo mind no time and inner twine
Roll with the rhymes ta let the sun rise
You should know, when we flow, you get what ya lookin for
Terrorize ya enterprise
And we dont shoot until we see the whites in ya eyes

Non-stop, real rhyme rockin
Disc jockeys out record shoppin'
Writers doin graphs so bring ya pop lockin'
We incorporate the whole of hip hoppin', non-stop

Non-stop, we keep it up to par
from the metal monkey bars to conquer school yards
It's like bein arabic, comin from right to left
It's hot to def so take a breath and (wait wait)

[Applause + Laughter]

Ya. Get the fuck, this fo entertainment
This made to stoppin the day
Pop pop pop...

Jurassic 5 Lyrics

"Jurass Finish First"

[Charli 2na]
Yo, because of cash in the purse, guns blast in the hearse
A vast universe when the last is the first
The past been a curse, I need some asprin to nurse
It's your casket in earth, or my ass when it hurts
A passionate burst of some last-minute work
First the human bodies are living last in this Earth
Puffing grass when it works, a bastard at birth
But at last planet Earth, 5 Jurass finish first
(Stashed in this verse) Burning like gas on a torch
(Graspin' a thought) Some don't see past their front porch
(Masked in a smirk) No doubt my class been alert
Verbal splash for your thirst, 5 Jurass finish first

[Marc 7even]
Yo, because of crooks in the game no one's acting the same
Not mentioning no names, merely passing the blame
Your ass been in flames since the cash went ka-chang
Now you can't stand the rain when my crew bring the pain
You a masculine myth who I constantly diss
As I bond with the Fish, understand we the 5th
Platoon, hit the dirt, wish you well, wish you worse
Your ass been cursed, 5 Jurass finish first

Bringing it back from the lost, we have to report
The trash on the chart make you have to resort
To leave the record store instead of quenching your thirst
But at last planet Earth, 5 Jurass finish first

[Charli 2na]
Yo, because of passing the course wife asking divorce
Taking half of your cash, now you bask in remorse
Turning rap into sport, I've mastered the part
Cause the trash on the chart leave you gaspin for art
Now if you've mastered the art, I'm askin with force
To mass of your thoughts, to your ass is a corpse
Cover grass in a burst, unfasten your purse
Give your cash to the clerk, 5 Jurass finish first

[Marc 7even]
Yeah, cause of tricks of the trade, some are virtual slaves
A smirk will get raised once the pen hits the page
While your thoughts of the stage and perhaps getting paid

Relax in the shade, time passing in days
I'm searching for ways to avoid the charade
Cause when voices are laid, choices are made
Be not afraid, people plastic on Earth
Verbal blast bout to burst, 5 Jurass finish first

5 Jurass finish first *[Repeat 2x]*

[Charlie 2na]
Yo, because of passing the torch, puffing pipes with a bouche
You a hype living loose with your life in the noose
You invite many fools when you ligt chemicals
Night of the living ooze, your ego makes many bruise

[Marc 7even]
You need to watch what you choose, what you give is what you get
Some are lacking intellect in their quest for a check
Is it love or respect, does the subject get you vexed?
Only 4 bars to wreck, the situation is complex

[Charlie 2na]
Yo, you in constant pursuit to be the last in the house
(Where's your wallet?) With the wife, deep stashed in her blouse

[Mark 7even]
Like "Without a Doubt" you can catch me on the B-side
Cause the one who wins the war...

[Charlie 2na]
...is the one without pride
J5 make you feel a lickle gaseous at first
[Martin Lawrence] And yes I make you ask "Is that Lurch?"
Either try this or lyrical madness that works
Give your cash to the clerk, 5 Jurass finish first

Jurassic 5 Lyrics

"Contribution"

[chorus]
yo, either you a part of the problem
or part of the solution
what's your contribution to life
so many people complain, always talk about change yo
but what's your contribution to life
either you with or ain't with it, if it ain't broke don't fix it
yo what's your contribution to life
either you give or you take, make moves and you wait yo
but what's your contribution to life

(your about to witness three of the most common
tales of man, woman and human, the difference between the three
is that there is not difference, just other outcomes
listen and witness the common tales)

aye yo my momma and a nigga for life
love carousel, cuss yell and fight
seven nights a week, no respect when they speak
disrespect between the sheets, the ends don't meet
no rice beans or meat
my momma was the bread winner plus
she had to cook his dinner
my daddy was a full time sinner
poppa was a stoner stay gone till November
off of that, gawk that made Emacs
like the devil done took his soul and ain't given it back
remember that, when you play for the bless
speedy victory for the poor and the press
I cant stand the stress, its test and time press
up against my momma and daddy chest, I try and rest
with no stretch of the mind, I cant find no piece
of mind within this family of mine, yo

[marc 7even]
she got chips and you don't, that's bottom line
that's just the way love goes, (hmmm) lets rewind
you really ain't paid, you clockin minimum wage
now basically you a slave, your wife studies for days
no money for much, just movies and such
the way your two hands clutch, you know its love not lust
now she's sick of the bus, and using you as a crutch
and on top of this stuff, she graduates in a month

damn, her new job got her clocking the dough
now she's buying new clothes, and taken you to the show
you feeling like you the ho, not knowing which way to go
and ultimately you know, you ain't feeling her so
you need to get up, get out and get something
your job ain't nothing, all these years you've just been frontin
thats the way she played ya, the talked in rager went back
to your days of...*[chali 2na voices over marc 7even]*

[chali 2na]
she always said I'm out husslin for food, kitchen indeed
while this nigga spend his ends on booze, bitches and weed
I thought that we'd agree, with two kids to feed
that you would slow your own, but instead of switchin your seed
you slapped me, you cant attack me thinkin I'm be happy
in fact its a packing and we rapidly
after we witness, no love between parents
the father type that was once on the sence vanished
supreme bamish the couples that match these
producin generations of kids with latched keys
her daughter learned from momma
how to reject men, her sons attracts women
that don't respect men, and then
one parental provided can be the plan
but no woman can truly teach a boy to be a man
that's why I'm always telling these many pals of mine
the most that you can spend on any child is time

(look we don't have all the answers, we're victims also
to the same situations, but man, plans and the lord plans
and the lord is the best of planners,
so what's your contribution to life)

[chorus]
what's your contribution to life

Jurassic 5 Lyrics

"Twelve"

One, two, Jurassic Crew
What we bout to do, brothers have no clue
Three, four, tear down the door
And give the party people what they came here for, ahh

One, two, Jurassic Crew
What we bout to do, brothers have no clue
Three, four, tear down the door
And give the party people what they came here for

[Akil]
Yo, my pleasure principle from the streets of South Central
Ghetto hip-hop, nonstop fundamental
Urban curb servin', vocabulary surging
Rebel with the turban and the street corner sermon
I keep it working for certain, close curtains
Renegade bought up a troop when I'm dispursing
That body rock moving, ghetto baby music
We eat together with the inner city coolness

[Chali 2na]
Yo (Who's this?) Slicing a rhyme in square bits
Burning through open skin like newly prepared grits
It's 2na Fish, I'm bringing the bad news
And changing your bathroom if you thinking that cash rules
Oooh, pumpernickle blow words like snot speckles
When shots echo, some duck and hide like Doc Jeckyl
Like Don Rickles, I'm kicking rhymes that stop heckles
Correcting all them bumbaclot specials

[Zaakir]
Yeah, I got my mind on my money for those that comprehend
And my money on whatever I think I look fresh in
Questions, is he stepping authentic?
Controller of the panic, break a senate lieutenant
Spit it, yo, despite your critic comments
Knowing it ain't a hotter verse than Zaakir Mohammed
Whether last or first, or bottom or top
Now is it "Stop hip-hop" or "Hip-hop don't stop?"

[Marc 7even]
You need to protect your neck
You the kind of brother who be chasing checks

Me and my crew crash through and get nuff respect
Basic bet takers I'm beyond your average thinker
Break and MC down, like my name was Dr. Shrinker
Passion fake MC's, wearing mink MC's
On-the-brink MC's, you need to think MC's
Bout to sink MC's, don't even speak MC's
Cause half the shit you kicking sounding weak MC's

Yo, it goes one, two, Jurassic Crew
What we bout to do, brothers have no clue
Three, four, tear down the door
And give the party people what they came here for, ahh

One, two, Jurassic Crew
What we bout to do, brothers have no clue
Three, four, tear down the door
And give the party people what they came here for

[Zaakir]
I razor sharp with mindset, sunset til sun
And I admit, I used to bite people's shit when I was young
Back in 83rd, before my style was preferred
Now my connectionw with the word is preferred
Primo, my AC, 310
The first confidential, inscribed my initial
The Z double A K-I and R
Submerge in submarine words near and far
Cause I'm too hot to handle, too cold to freeze
And I'm a diss any nigga that sounds like me

[Akil]
Yo yo, breeze through the trees, feel the flavor at ease
Degrees of melodies, typewriter MC's
They on their Q's and P's withing my vicinity
Department of Correctional Rhyme Ability
Keep the biters on lock, rock no silk
Still shock, rhyme around the clock

[Marc 7even]
You schmucks is out of luck, I'm ready to run amuck

[Akil]
Ayo I'm lampin, I'm lampin, I'm cold stone lampin
High pitch, beat drumsticks like Lionel Hampton
The champion, fly shit, the anthem
5'11" with dark skin and tantrum
Handsome never, not even as a kid
The girls used to say "Oh his nose is too big"

[Chali 2na]
Yo, you'll get bruised, kid, ghetto blues, you'll never refuse shit
The show's good, pinching MC's like rosewood
I'm shrinking you rap characters into die-cast minitures
I'll blast ten of you while my rhymes while my rhymes harass senators
Through TV monitors, brains and glass dinner jaws
Verbal vinegar for you biters down at the salad bar
The combat that's making your mom mad
I'm feeling a congrat for burning his mom bad

One, two, Jurassic Crew
What we bout to do, brothers have no clue
Three, four, tear down the door
And give the party people what they came here for, ahhh

One, two, Jurassic Crew
What we bout to do, brothers have no clue
Three, four, tear down the door
And give the party people what they came here for

Jurassic 5 Lyrics

"The Game"

All right, everybody shut up
I said shut up!
Now are you ready to play the game?
NO!
Are you ready to play the game?
YEAH!

The Game
Playing to survive
Aiming to win anyway they can

Yo, yo
Pass the ball, final casting call
First of all, verbal basketball
Off the glass, smash your jaw
Too fast for y'all
You might take a nasty fall
Trying to stick with the prehistoric passenger
(Foul Ball)
All breath, no physical contact
Bounce back, demonstrate invincible bomb raps
Not no hustler no player or speakin no crime crap
I'm vocally trying to score before my time lapse

Uh! Full court press, hands in your chest
Runnin' cause I'm a rebel with the ghetto
No fouls just checks, make a brother sweat
Word for y'all to earn my reject
Get it out of here, attack from the rear
Ya'll niggas aint nothin but some bitch ass queers
I'll be in your ear, increase the fear
Rippin with the shears as the crowd just cheers

Bring on the opposition
Cause my position is to shut you down
As the basketball pounds on the concrete floor
Envisioning moves to freak brothers every which way
Dominating like Doc J.
Pass me the rock, I know just what to do with it
It's real vivid, I pivot, through the lane
Three hundred and sixty behind my back
I take your monkey ass to the rack like Jerry Stack

I'm saw by most recruiters and heavily recommended
Stickin your best shooters they lower verbal percentage
It's takin its toll, 24-second clock control
Stoppin this obstacle, impossible
I was the number one block project in the city prospect,
Now thats something that you can believe
So be it, whether pro or collegiate, the hit but don't miss
Prime time the offense, switch

Y'all can't ball, Y'all can't ball
Yo ref, where's the tech? Man, make the call
The game is gettin tight verbal victories in sight
What counts is what you write not concerned about the hype
My rhymes go baseline so why you tryin to take mine?
Last man tried just died inside the paint line
I bank rhymes, got a call so I flex
I'm on the foul line with a few verses left
When my flow hits the net, the next brother flex

I put my foot in the pavement
With the brothers I'm raised with
Play with and break dance back in the days with
And still in the game with 12 points, 4 assists
Get up in the game, in your face like swish
Crash the boards with metaphors
In the air like a concord
Aiyyo what you out for?
Yo I'm out for the whole score
22 flat seconds for me to win
I can't win for losin with this cheatin ass ref

[Clip from Laker game]

My squad's supreme
So I don't need Clyde or the dream
Next time you play the game boy pick a better team
Your choice is short when you on a concrete court
But my mental cohorts is bout to change the whole sport
Give me the pill boy, crossover with the skills
Wrap around pass, fly right past your grill
Take off from half court, in some J5 shorts
The rap band with the man when my words play sports
Comin' through your lane, with pure skills so stand clear
Vocal charge is a mirage, I still stand here
Damn near, make your shit look soft like Pam Grier
Fans cheer for the paragraph Bill Lambier

Show me the rock, so I can show these fool what I got
(He's heating up) Fuck that, I'm flaming hot

Verbally take you to the blacktop, and wreck shop
Turn my game up a notch, pass me the rock
1 on 1, 3 on 3, 5 on 5, horse, 21
It really don't matter cause son you'll still get done
Yo you should know better than try to barter with this globetrotter
Militious, vicious dunks, I'm Vince Carter
And it's the high draft pick, flashin it
Still can penetrate and slightly overweight
But whatever it takes my shot can elevate
No pain, no gain for the brothers with no game

Jurassic 5 Lyrics

“Concrete and Clay”

Now I'mma say this once again open up your mind
Shot heard around the world came from our fresh rhymes
The contribution to showbiz, mixed with entertainment
Resurrected rhymes, not the same old same
Now if you like what we came with
And you feel you can sang wit it
Peep the verbal language and the way we arranged it
Now entertainment to make the people applaud
I'm not trying to say my style is better than yours

I'm from the graduating class of one-nine-eight-eight
L.A. Unified School M A H
A gangbanger from the streets taught me how to break
In South Central L.A., ay yo, can you relate?

I'm Chali 2na
The one who puff the buddha keep the Snapple in the cooler
Used to go to junior high with Son Doola
Old skoola - a permanent, element, in ya tournament
Tellin it prevalent never delicate when we burnin it

Now from L.A. to the U.K. we attempt to rock a party
The rhyme and the music you don't hear that no more hardly
I can say it's partly, all our faults smarty
J5'll bring you more than the shakin of a body

Ay yo a child is born but no state of mind
But when I first heard it, put words to rhymes
I went from hypercars, to powder blue All-Stars
To hangin on monkey bars catchin spiders in jelly jars

[Hook: repeat 2X]
So uh, let's take it back to the concrete streets
Original beats with real live MC's
Playground tactics, no rabbit-in-a-hat tricks
Just that classic, rappin from Jurassic

I bring the noise plus the funk, entertainin like a dunk
From a snotty-nosed prima donna millionaire punk
But uh, I heard a hunch, that somebody might munch
Cause J5 go together just like parties and spiked punch
Your crew's captain crunch, and I'm the seven seas
Bombin on MC's, crushin crews with ease

Brother please you know my steez is 100 degrees
With no era bring it live like the Trio of Terror

Trio of Terror no mascara, at last your brass surpass pleasure
We the last treasure set to entice the cash bearer
Mask wearers who bite my reflection like glass mirrors
Be trash pickers who need to consider the past clearer

Now what you thought was old and out of date
We brought it back alive and changed the shape
We put it on wax for those who think that
The 5 we energize has been extinct

[Hook]
So uh, let's take it back to the concrete streets
Original beats with real live MC's
Playground tactics, no rabbit-in-a-hat tricks
Just that classic, rappin from Jurassic

We takin it back like battles in hallways and bathrooms
And battles in the back of the classroom
And in the bungalows game of death with flows
Lunchtime rhymes you had to prove and show

Never the school type, couldn't pronounce the words right
The class jester, I was flunkin every semester
The summer hit, had it burnin in '86
Class cuttin and runnin wit all the neighborhood derelicts

Within the concrete jungle [huh!] we remain humble
Akil and Akir, bounce, flip and tumble
Uh, we never fumble, break down or stumble
Hot mumbo jumbo, just bring it when we rumble

We push it like the Daytona
Fresh rhymes we blaze on yas
Strictly from California old skool public diplomas
We spittin from every corner we flippin it when we wanna
Beneath the concrete be street word on ya

[Hook]
So uh, let's take it back to the concrete streets
Original beats with real live MC's
Playground tactics, no rabbit-in-a-hat tricks
Just that classic, rappin from Jurassic

Jurassic 5 Lyrics

"Swing Set"

So Hot! So.. Hot!

This is the sound of the 30's!

1..2..1, 2, 3, 4.

Gather round all you ruggytutters, 'cause we're going to show you what Swing is all about!
Oh yeah?
Yeah!
Yeah?
Yeah!

These great sounds should not be left to gather dust. You might dig out that old 78.

Doodeedoot n' doodeetdoot n' doodeedoot n' ah ha ha ha!

Hi Ex-Swinger, don't be a wimpy, go way out!

Do you wanna dance?!
Yeah!

Swing.

All hands on deck!

Love that! Yeah! Oooh!

Ok everybody on the swings.

Ahhhh-- Ooh!

The sound of the Swing era.. kind of scratchy after all these years. If only it sounded like this...

[Bebopin' & Scattin']

What you probably remember was more like this..

Ooh ooh ooh ooh.. Bada da da daaaaa!

So Hot!

..Aaand will fill me up!

Woooh yeah! Swing time in the ol' corral.

Yo,yo,yo this is sister ?
From original wailers
You are in tune to Jurassic 5
Don't move your dial
Enough love and respect
The music is strong
Play on

Jurassic 5 Lyrics

"Freedom"

[Chorus]
Hold on to this feelin', Freedom (Freedom!) *[2X]*

[Chali 2na]
Yo, Seldom travel by the multitude
The devil's gavel has a cup of food
My culture's screwed cause this word is misconstrued
Small countries exempt from food cause leader have different views
You choose

[Akil]
What meen the world to me is bein' free
Live and let live and just let it be (Let it be)
Love peace and harmony, one universal family
One God, one aim and one destiny

[Marc 7]
Are we there?
Imagine life without a choice at all
Given no hope without a voice at all
These be the problems that we face
I'm talkin' poverty in race
But no matter what the case we gotta...

[Chorus]

[Soup]
Yo, I'm the first candidate to hate
Had to beat on the drum to communicate
For what was to come to those who were hung
They would decapitate the tongue if you would mention the word (Freedom)

[Chali 2na]
Got people screamin' free Mumia Jamal
But two out of three of ya'll will probably be at the mall
I'm heated wit ya'll, been defeated before
And complete an unsolved when the word freedom's involved

[Akil]
Yo, my forefathers hung in trees to be free (Rest in peace)
Got rid of slavery but kept the penitentiary
And now freedom got a shotgun and shells wit cha name
Release the hot ones and let freedom ring

[Soup]
I'm the former vote prisoner
Hollywood visitor
Dance for cats segregated on wax
My color got me HANDY-
-CAP amos and andy
For the freedom they just won't hand me

[Chorus]

[Marc 7 (2X)] **Hold On**
Cause there's not a lot of time **To**
Your heart, body, soul and your mind **This**
They're so true and they been hurtin' so long **Feelin'**
Thats the reason why we named this song **Freedom**

Jurassic 5 Lyrics

"If You Only Knew"

[Chali 2na]
Never think just for
Shits and giggles
Do we spit sylable riddles
For bits and kibbles
So chics can wiggles and shake
Cause this image is fake

[Akil]
I'm tryin hard to relate
In a place filled with so much hate

[Soup]
Some brothers debate
Some love or some hate
Whatever the case
Its all about the choices you make
That's the reason your balloon'll deflate

[Chali 2na]
But to relate
We tryin' to take rap back to its primitive state, wait

[Marc 7]
No overnight success or runnin' with vets
Just pure unadulterated work progress
I'm willin' to bet the farm
You'd give your right arm
For a piece of the pie
Ask yourself, Why?

[Chorus:]
[All]
If you only knew
The trials and tribulations we been through
But if you only knew
We're real people homey, just like you
We humble, but don't mistake us for some corny ass crew
What we do, is try to give you what you ain't used to
[Marc 7]
Soul music, somethin' we can all relate to

[Akil]

Yo yo, I ams what I am and thats all I can be
Uh, no more no less what you're seein' is me
Akil the emcee dubbed the U-I-S-C, uh
Wise, intelligent, God did bless me

[Soup]
Yes we, rock up off the S-B freshly
Especially dangerous rough and deadly

[All]
The pimp positioner, tip the Richter...Scale

[Chali 2na]
Alone we sink together we sail and prevail
The rum raisin comin through guns blazin'
Some of you duns runnin' ones with none savin'
Complainin', me and my clan are unscathen
From the soul comes somethin' amazin'

[Chorus]

[talking in background]

[Akil]
Yo, how many times I got to hear
Some fanatic in my ear
Tellin' me I got to keep it real
When they ain't payin' my bills
Or feedin' my kids, judgin' me on how I live
If my crib in the hood or if its up in the hills?

[Marc 7]
Have you forgetten who you are?
Oh, you think yo a star
Why you frontin'? (You ain't nothin')
You went from nothin' to somethin'
But somethin' means nothin' if ya people still wantin'

[Chali 2na]
And ya got money and givin' them nothin'

[All]
Flossin' and frontin'

[Soup]
Ya game of sharades
The way you behave
The image you save
Yeah brother thats one big parade

I'm sick of your ways
I'm sittin here spittin a phrase
Next time they smile and they wave
They probably be with a gaze

[Chorus]

[Marc 7]
Soul..soul..soul..soul..soul

Jurassic 5 Lyrics

"Break"

[Akil]
Yo, yo, if you had much class
And style like I had
You would be so glad
I see why you so mad
I'm born with it
Like Marvin and Lauren with it

[Chali 2na]
Yo, deform with it
The way we perform wit it
You gon' get it
Your rebuttals are long winded
The song ended
If you satisfy

[Marc 7]
It's all splendid
Yeah, like Kevin Lockerbie
Rockin' some beige Wallabees
Blinded by the mockery

[Soup]
Time is never stoppin' me
Drop the clue
Connected with Cut and Nu
On the...1-2

[talking]

[All]
There's only one capable
Breaks the unbreakable
Melodies unmakeable patterns
Unescapeable whatever we aim at
We line 'em up
The party is weak from the same rap
Time's up
We payin' homage as well as returnin' favors
Candy for your ears hear us now
Or hear us later

[Chali 2na]

We fully capable
Make no mistake if we
BREAK a few rules
Make a few moves
And drop a few jewels
On top of your views
Unstoppable dudes
Using third optical tools
To Rakaa few crews
You gotta confuse
Melodically
Use rap to sonically bruise cats
Harmonies move over
Chemically glued tracks the ripper

[Marc 7]
Formulated fax center
Orchestrated back bender
Sign, Post, Date and send ya
And take you out like placenta
When I'm in your eye end ya
Blend with the beat like shadows and black ninjas

[Akil]
Me the epicenter
When I'm rocking the mike
I'm from the earthquake state
Shakin' up your life no aftershock
We blow the spot from the top
We have to rock
Ain't that much time on the clock
Kick rocks
Keep it movin' now pick up the pace
We drop and hit the ground runnin'
Winnin' the race
With limited space and limited papes
At any rate we take your mind
To the realest of states
Cuz...

[Chorus:]
[All]
The flow gon' shine
We blow yo mind
With vocal rhyme
And music from my DJ in the back
Gon' shine
We'll blow your mind
With vocal rhyme

My DJ in the back is gonna
BREAK *[scratching]*

[All]
Yo, we payin' homage as well as returnin' favors
Candy for your ears hear us now...

[Soup]
I put the Bob in the Bob Diddy
Spit it for y'all city
Use what Allah give me
Flip it if y'all wit me
Kinda black kinda bold
Ghetto soul beautiful
Still in it for you to hold
Cover girl centerfold
My spot, hot like lava rock
I get busy from Panorama City to Lompoc
You prefer hood medic procedure
Poetical breather with fever
Cuz...

[Chorus]

[All]
There's only one capable
Breaks the unbreakable
Melodies unmakeable patterns
Unescapeable whatever we aim at
We line 'em up
The party is weak from the same rap
Time's up
We payin' homage as well as returnin' favors
Candy for your ear hear us now
Or hear us later

[Sample]
For those listeners who didn't feel that
We just had another one baby

Jurassic 5 Lyrics

"React"

Here's what we do
We will set up
This is tunnel vision
From planet to planet
Solar system to solar system
From galaxy to galaxy
REACT
It's what you do first
Come in please
Uncensored
Power
Come in sky watch clear
REACT
Another public service message from way out
We care about your world
Stay tuned

Jurassic 5 Lyrics

"A Day At The Races"

[Akil]
Yo, my metaphor, my musical madness
Move and motivate those with musical talents, uhh
Read it in bold print, we holdin it down
Lick a shot, hip-hop when we in yo' town
Uhh, master blaster sound
Freak the future far from here and now
With style, release increase the peace, uhh
Bubble with the beat 'til they feelin the heat in the streets
Now each one, teach one, reach one, young gun
On one, listen to the warrior's drum
Beatin up the block with the ghetto hop that knock
and make you wanna crash the spot
And unlock explode (BOOM) the alpha and omega code
With drum rolls and old soul, we uphold
And foretold to scores of six years ago
Fast flow from G. Rap to Kool Moe
Supasyllable, major to the minimal
Every individual, bounce to the tempo yo
Lungs collapse and raps be trapped in
The only way to make it happen, jaw-jappin, fast rappin

[Zaakir]
Yo, I'm the hot dog that run the hottest monologue
In star poetic inserts and yes y'all s
My speech is like holding two glocks apiece
The outreach that rock police
The super adventure men portend to put somethin in bitches
Win when we write, the Emmy winner get hyped, off any printer
And I came to get it (HIT IT)
Like Operation PUSH, operate the tush
Black octopus of soul, in inter-planetary patrol
I planted my gold, and low and behold
It's the brother doc, ready to rock-rock
Don't stop Hobbes, I known like the lumberjack chop chop
The wordsmith, I write in block letters of cursive
Curse my circus, serve this surface
And watch how the brother fet over
The fly Cassanova with the frankencense odor

[Percy P]
Bear witness
To where riches'll make career bitches share pictures

When the ears get this ya brainses software'll glitches
Splatter your brains
Leave scattered remains of matter and stains
That'll explain how you was battled and slain
I get rude and go, to your show and use a row
of fans to BOO and throw you off 'til you lose your flow
A pro mean like Joe Greene when I blow theme
Put your whole team on pause like cold cream
Then show laughter when I flow faster, your hoe haveta
go after her weave from the breeze when I blow past ya
I'm dapper plus ghetto and just pedal
When the dust settles we left in the rubble the crushed metal
Nurses with hearses sealin conversed with lit purses
Spit fire, make you first to bit, try me
Like Osama, odoma', I'ma cause trauma
And homicides when I collide I get kamikaze

[Big Daddy Kane]
Kane baby, walk hard, the p-jects
On streets of Brooklyn I'm a crew of D-cepts
On streets of L.A. I'm a whole E-set
On tracks with Jurassic I be the T-Rex
Still that Gucci dressin, still that coochie pressin
My pimp game smooth be-gets 'em
I don't use discretion; cop tends to be stressin
Fuck explainin it, who's he testin?
Finsta perform all physical forms
Leave your ass shakin like a Mystikal song
Please Dumb, what type of shit was you on?
Cause man to compress a nigga mean One less a nigga (uh-huh)
All I want is my niggaz all recruitin a slimmy
All I want is my liver all polluted with Remi
Duel with any, bring it, I face-off
Son you out your league like Jordan was with baseball

[Chali 2na]
Yeahhh, your majesty, word flash photography
Third class economy, blade slashed your artery
Nerve gassed anatomy, blurred past dramatically
Herbs hashed, my word splash packed agility
Never predictability
Manouvers of mind fully designed cause I'm true to the rhyme
We do the sublime, crackin yo' backbone
Attackin you wack clones
Vernacular right and exact, capital rap zone
that come back verbal assault rifle (ahhhhh)
We fight like Stokely Carmichael
Nope! We just like you
We broke and ain't no tellin what we might do

Ain't no joke
Provoke the right to reverse to seek mercy
with the King Asiatic and Percy P
Ain't heard the worst of me, until your chest 3-D
Spit venom and burn your body like a STD

[Marc 7]
Put a 20 on the next brother steppin to me wrong
I mess around a lick cause you done cheat on my theme song
This might seem wrong, but this is a mean song
Crushed like King-Kong, and just like ping-pong
Back and forth, I spit knowl' and toss, it's time to floss
My verbal affirmation is to always go off
When syllables slide you'll be enjoyin the vibe
When consider it pride, it's J5
When another deadly medley, camera action yo we heavy
Aim steady slash machette Mazeratti engine ready
Good and plenty don't be petty count the fetti and we jetti
OFF to another city where we do our nitty grity
We wild like Serengeti, tear it down let's seek and set it
Get ready, for the ride, verbally hand-glide
Write and stay tight, mission's in sight
Murderer worldwide the stage is yo' knife

Jurassic 5 Lyrics

"Remember His Name"

[Zaakir]
Yo whats up ak

[Akil]
Who is this

[Zaakir]
Its me zaak--ir

[Akil]
Hello? what? (Hello?) I can't hear (I GOT IT! HANG UP!)
Yo speak louder I can't hear

[Zaakir]
(Yo Ak) Yo It's me Zaakir!
I was sittin at the television feelin' disturbed
Hey yo, I just got the word, off Tigram and 83rd
Some cat that got clapped, (gangster rapper?)
Perhaps, But I was lookin at the face of one particular cat
Now I done seen him before, (Can you remember where at?)
Well it was either at the liquor store or laundry mat
Or at a party and shit, ?or drive through of a quickie split?
But the fellas her ran wit, they no longer ex-- (yo, dude peep this)

[Akil]
Yo I know dude, I been knowin him all my life
Ever since I was young I used to see him shootin' dice
On occasion i would see him once or twice
With all types, many different walks of life
He tried to keep in touch, but i knew what was up
Every time he came around and showed his face I ducked
In the mid-eighties, the nigga went crazy
He had alot of ladies selling they babies, the nigga was shady
But he had alot of friends that he would visit on the weekends
Thrill seekin, influenced by his teachings
My daddy knew him, yo, he met him at a hotel
My homeboy Johnny, kicked it with him in a jail cell
Alot of people met him with a female
Doing real well, connected with the drug sales
The rich and the poor, for better or worse
The last and the first, walked the earth, but can't avoid his turf
And it hurts my brain, he's drivin me insane
It's a shame I can't remember his name

I think 2na know dude, Soup, i aint tryin ta be dude
But my wife just cooked, im bout to grab up some food

[Zaakir]
Aiight peace, 2na said he probably runnin the streets
I'm about to give these young brothas a beep
[ring ring]

[2na]
Yo! asalaam ulakum

[Zaakir]
Yo, ulakum asalaam

[2na]
Heyyo, what's up on 83rd man?

[Zaakir]
Man, the fuedin is on
Hey, the reason why i called, that was the cat from my building
You seen him?

[2na]
Yeah we met that brother out in Pasadena,
Remember seven, on Marengo
No my mistake, we were right between fair oaks and lake
Tryin to take us a lunch break

[Marc7even]
And cop us a sess sack!

[2na]
But had to drive right past the place where they rest at

[7even]
We drove in a hactchback

[2na]
Corolla, these cats pack pistolas, the cadillac they drove

[7even]
It was brown and black

[2na]
Patrollin the hood, lookin for trouble
Saw us purchasin trees
Lurkin with speed, pulled the strap, and was hurtin to squeeze

[7even]

You ?jerk? and you bleed

[2na]
Threw it in reverse and we fleed

[7even]
Or should we say fled?

[2na]
They wanted to make us more than play dead, flashin his heat

[7even]
Two cars are movin fast on the street

[2na]
That's when I peeped, that dude was in his back passanger seat
(yo that shit was deep) Still I can't remember his name..

this suckas gonna get us killed
now come on man I feel like cuttin loose
violence
you behave yourself

[Zaakir]
Oh man, where have I seen this brother before, man
well it was either at the liquor store or laundry mat
Seem like everybody I know know dude, but can't nobody remember his damn name man
I been knowin him all my life
the same with everybody from ShawnyMac, YawYaw, my brother Mohamad
Its like you cant *cant avoid his turf*
Oh, hey, you know what, now I know who homie is man, his name is
De-De- Death

Jurassic 5 Lyrics

"What's Golden?"

[Zaakir]
Check it out now...
I work the pen to make the ink transform
On any particular surface the pen lands on
Zaakir is hands-on, what's the beef?
The Cooley High cold chief high post techniques
I drape off poetic landscapes and shapes
Illustrate the paper space off the pens that paint
Then design what have a National Geographic a magic
With tailor made status and plus flavor that's automatic

[Chorus]
We're not balling
We take it back to the days of yes y'all-in'
We holding onto what's golden
[PE Sample] *On a stage I rage and I'm rollin'*

We're not balling, or shot calling
We take it back to the days of yes y'all-in'
We holding onto what's golden
[PE Sample] *On a stage I rage and I'm rollin'*

[Marc 7even]
Melancholy mundane so I tame the hot flame
Big rings, fat chains, and y'all quest for the same
No name, use fame, strictly new to the thang
We stay true to the game and never bring it to shame
We tight like dreadlocks or red fox and ripple
We pass participles, and smash the artist in you
The saga continues, this I won't get into
'Cause there ain't enough bars to hold the drama that we been through

[Akil]
Yo...
We still the same with a little fame
A little change in the household name but ain't too much changed
We in the game but, yo not to be vain
I refrain from salt grains to season up my name
We entertain for a mutual game from close range
Steady aim, drum at your head to hit the brain
I'm labor ready, Rhode Scholar for the dollar
Work for mines pay me by the hour

[Chorus]

Hip...Hop
Music *[a bunch of times]*

[Charli 2na]
Yo...
Well, it's the verbal Herman Munster
The word enhancer, sick of phony mobsters controllin' the dance floor
I been in dark places, catch you when you stark naked
Your heart races as we pump you for your chart spaces
The taut taces be bringing these hot styles through
Some of you bum a few chairs from shock value
Word power can plow through acres of cornfields
Paragraphs cut like warm steel, preform ill...

[Chorus]

Jurassic 5 Lyrics

"Thin Line"

(feat. Nelly Furtado)

[Chali 2na]
Yo, this is a lesson in friendship
The depths of a kinship
What women and men begin with, and then slip
My pen drips
As I scribble my thoughts on thin strips
Of emotion
A fraction, seduction, attraction
Eruption of passion
Corrupts if a lasted friendship's involved
But love to cross the line
But that's why we built these walls

[Hook: Nelly Furtado]
We been friends for a long time, a very close friend of mine
Love you like you was mine, but respect a thin line
I love you like you was mine, think about you all the time
Very close friend of mine, but respect a thin line

[Akil]
Opposite's attract
When the female and male come in contact
Sticky situation in fact
Tryin not to let the feelings catch
But there's a thin line between both of y'all
So you respect that
And entertain the idea, but get brought back
To reality, and could you really live with that?
Decision, based on intuition
You love and keep your distance
Hug and kiss in friendship

[Marc 7]
An ongoing kinship, we was people to begin with
Disrespect was not intended
but your feelings sparked the sentence
Sometimes you're too intense in your quest to invent
The perfect man, please understand, my rhyme is your repent

[(Hook) - repeat 2X]

[Soup]

Man, too bad that we became friends first
I'm not on expert on how relationships should work
But, (echos) from the minute it as known
It changed the whole tone on how we spoke on the phone
Yo, it was cool but I felt it wasn't enough
And I was stuck when your moms would pick it up
Over you, all my buddies would swoon
But I felt we were in tune, you let me up in your room. (Damn)
But to me girl, you're still off limits
No matter all the times that I hinted. (Yo, whatchu doin after this?)
Infactuation was authentic, but yo I just pretended
So I wouldn't lose the friendship
Maybe, I should spill all my guts
Or write a letter, then tear it up
Or do a song, just to say what's up
I want ... just ... a touch

[(Hook) - repeat 2X]

[Nelly Furtado]
I can't do this anymore
See my heart just falls out when you walk in the door
Friendship turns into lust and this only tip
That I can't comprehend even if I knew it
Can't do justice to these things that I'm feeling
You got someone else, don't wanna be caught stealing
Hell if she knew she would never leave us alone
in the roo-ooo-ooom

[Chali 2na]
This was a lesson in friendship
I stress in this sentence
Should women and men be friends first?
And then slip?
My pen drips as I scribble my thoughts on thin strips
of devotion

[Akil]
Opposites attract
And best friends make a perfect match
If you only knew that
Once you cross, ain't no turning back
The minute you let him in it and he hit that
That's that

[Marc 7]
We was people to begin with, but you was too relentless
Jeporidizing kinship, respect is intended
Resolve is my intent

While we got it in
I'm tryin to salvage a friendship

[(Hook) - repeat 2X]

Jurassic 5 Lyrics

"After School Special"

[SOUP]
Check it out yo,
It's clear I'm burning out the candles here
No open toed sandals here
I finesse any way I dress
Capital F-R-E-S-H so fresh

[CHALI]
YO the mass men who suppress pain like aspirin
Jurass men are the best trained assassins
Your class pins get thrown in the trash bins
You leaches and has beens get your teeth smashed in
Hot as you'd keep a furnace
We kept it earnest
Poems puncture your epidermis
And swell up enormous
Smoother than candles or flannel pajamas
We raid the city on camels
And dismantle informers
The omen

[AKIL]
We blowin' never knowing where we goin'
When we flowin' with the fresh word spoken
Your chokin cuz my mikes smoking
Hoping that you get a chance to get into the open for some fresh air
But you already there
Yo I'm in the clear
West of the hemisphere J5 musketeers
Zorro with the oral editorial
The moral of the story I'm professional

[CHORUS]
J5 mcs and its on
J5 MCs then its on

[MARC 7]
I'm never cautious on MCs that make me nauseous
I feel that it's important
So Let's write and go record
No need for applause
If you're kicking the raw shit
We rotate tracks double back, just like swordfish

Word gifts is given when precision is I
Dominator, illustrator of this lyrical pie,
Why you livin' a lie
Just unloosen your tie
So you can check the way we do this
In conclusion we'll fly

[SOUP]
With the view from the birds eye
With birds eye flown
I symbolize the skull and the cross bones
S to the O U P to the izzay
Sharp like the blade that stabbed the back of the OJs

[Chorus]

[KIDS]
Akil, Chali 2na, Marc 7, Cut Chemist, Numark, Zaakir, Jurassic 5
Schoolhouse rock the dock I'm about to block back
To the underground into the next round and to the next town
I NEED A BEAT

Jurassic 5 Lyrics

"High Fidelity"

[Zaakir]
Well my name, Zaakir
I'm versatile
Plus I never eat the cow if ain't Hilal
While you rap or bit our styles in the third degree
Myself and 7even tight like cornbread Earl and me
Showcase with the voice that's Oh so fresh
And I can still serve a brotha in a minute or less
I can talk all day but I'mma save my breath
And let my nigga Marc 7even just do the rest

[Marc 7]
I'll do the rest
But I won't rest
Get fresh off of any beat you suggest
High tech with the combination we prepare
Rap concierge behind there kickin' the snare
Now check it
Marc's the word
7even marks the spot
Guaranteed to keep it hot
If you like it or not
MC's is ink blots
We verbal potshots
Takin' the top spot
We clutchin' top notch like...

[Soup]
And together we, will forever be
High Fidelity
Definitely
Switchin' the melody
Can it be
The Casanova speech therapy
That heavily puts the flavor right where it should be
My words have been connected to the poets of old
The way I utilize the pen I turn ink to gold
Keep it overly creative
Innovator of soul
Now check the flavor from the fader
Which my DJ holds

[Samples]

[Both 2X]
And together we
Will forever be
High Fidelity
Definitely
Switchin' the melody
Can it be the brothers that you rarely see
That got together for the better
Whether him or me

[Marc 7]
You better remember these
Incredible MC's
Our sounds invade spread plagues just like a lepresy
Our weapons be our vocals
Guaranteed to smoke you
Better think twice about steppin'
We nice
Never focused on ice
And still comin' off tight
It's like the color of night
I mean the beat is so right
Damn!
Soup and 7even
Infiltrate your heart
The beat that's compliment of DJ Nu-Mark

[Soup]
And it's the fifth element
Never repetitive
Highly competitive
Classy and elegant
Super intelligent we're tellin' it to ladies and gents
Never irrelevant now do I have to say it again

[Marc 7]
The fifth element
Never be hesitant
Totally accurate
Present or past tense
We immaculate in fact you get a whole crew
Backin' it
Hit 'chu with my two inch tape
And show you what workin' with

[Both]
And together we
Will forever be

High Fidelity
Definitely
Switchin' the melody
Can it be the way that we demonstrate
Our Wonder-Twin powers we activate

[Soup]
I'll tear a competitor
Pluck 'em like chicken feathers
I'm better than ever
Incredible poetical editor
Dead or be better
I bet'cha regardless the whether
Whenever with clever endeavors
When me and 7even rappin' together

[Marc 7]
Your style is post mortem
No decorum
Style pourin'
We explorin'
You ignorin'
I'm the foreman
Longshoreman
And I'm sure when you tourin'
That you whack and you borin'

Jurassic 5 Lyrics

"Sum Of Us"

[CHALI]
Sparkling extreme spinnage
Watching your scene plumit
If lyrics were green vomit
My vocals would clean stomachs
Addicts wean from it
Where dreams and green run it
The faces on money change like the host on Teen Sumit
I'm close to being done with this industries cream driven
supreme livin, seein more demons than Gene Simmons
And mean fibbin' actors be adlibbin
Fakin the funk and some of us naturally had rhythm
Some of us act like they had women
Gats in the abdomen back when the fad hit them cats
they didn't have nothing
For certain I'm sure it's fiction but for some
The purest diction
Insures their jurisdiction
I'm kicking it up a level trying to stay in the red
Some stay in the bed zombie
Like the day of the dead
With decay in the head
Playing instead of staying ahead
Steadily portraying celebs, delaying the inevitable
When some come round
Run down when they touch ground
They clown But their structures unsound
Some of you like the way my words caress tracks
While some of these politicians secretly suppress facts

[CHORUS 2X]
I'm saying through songs I write
My wrongs I right
If you wanna fight the power
Get the power to fight
Cuz some of us judge without knowing the man's inner
And some of us find fault in the sin and not the sinner

[AKIL]
Influential ideas
Push pressure on my peers
That's why most of these brothers have short term careers
You appear to be what's happening

One year you crackin
One hitter quitter now you missin in action
With no satisfaction from the streets
I only hear foolishness when you speak
I repeat my predecessor's indeavor with pleasure
Lock and load, explode and come better
Hopin that generation X
Be more wicked with the flex
And not so quick to cash a check
And disrespect, chasing drugs and sex
Guns and death, but end up getting layed to rest
At your request
You're at the end of your line
Out of your mind
Idle women, weed and wine
And shells for your nine
The blind lead the blind
Time after time
When you rhyme for the shine

[CHORUS 2X]

[CHALI]
Yo, I'm telling you to rebel
But dude, if you stale
The 2na can tell
Either you're coming to the party or you're truant as hell
Politicians ain't got no problem puttin you in the cell
It's like he rolled up a snowball and threw it in hell
See some of us are looted with mail and suited to swell
But still blind like they're fluent in Braille

[AKIL]
Yo, I never can tell uh, why some make it or fail
Speak it and spell overcome and still prevail

[CHALI]
We ripple the water frequently
Blink if we show delinquency, please
Human frequencies
Have been diseased, A breeze ain't what I'm feelin
Healing is essential
Mental aggrivation shows you what we've been through

[AKIL]
Yo, sign of the times influence the ways I rhyme man
Pick up yo nine and put down your picket sign, man
Your life is worth way more than just some diamonds
Without bling I still gleam

Glisten and shine, man

Jurassic 5 Lyrics

"DDT"

(feat. Kool Keith)

Ahhh!

[Kool Keith]
I look at rappers with maximun equation
X-ray vison invasion
Rhyme connects perfects insects
That crawl and try to bite my rhymes
Pesticides I'm the double D combine the T
Thats DDT
A chemical more to better to burn
Roaches, germs, mouse, lice, termites and percunious bugs
Or try thugs who perpotrate
Nothing within contaminate
Got my gloves on
So bring turtle doves on
Watch me pluck em and pick em
Stick em kick em and vic em
I see you're featherless
You got the birdy disease
Bite any rhymes that I have for ya
The poison is bad for ya stupid
You're equal measure to dirt dust grime and puss
You're just a rappin infection
Dirtlizin my section like a six-legga
Ya betta step off and walk ya pure roach

[laughing]

Jurassic 5 Lyrics

"One Of Them"

(feat. JuJu of the Beatnuts)

[Chali 2na]
Yo, Your image deceives what your people perceive
Some people believe what the media feeds, TV MCs
That try to bark hollow...pretend to be harsh fellows
But be yellow and softer than marshmallows

[All]
Oh you one of them niggas!

[Juju]
Homo I'ma hurt ya feelings
Name brand talkers...pretty ass earrings
Where are all your women I ain't seen you with one
The only bitch that ever loved you gotta call you her son
Yeah, you that nigga...choch ass nigga
No heart...won't even approach us nigga
So you be humble man...stay in your place
We them niggas that rumble and get in your face

[All]
Oh you one of them niggas!

[Marc 7]
Concerned with lookin' cute...nails done, eyes plucked
Homie, what the fuck?...I mean really whassup
Help a brother understand
How self-admiration takes the soul of a man
Damn, vain ass, plain ass, nothing ass niggas
Get your punk ass out the goddamn mirror

[All]
You one of them niggas!

[Cuts: DJNu-Mark]
Real niggas do real things and that's a fact

[All]
Oh you one of them niggas!

[Cuts: DJNu-Mark]
Are you in with the heart or are you in it for the funds

[All]
Oh you one of them niggas!

[Akil]
Uh Mr. Know-It-All, flossy floss, all talk
Head Mr. A&R ...we ain't hard, who the fuck said we was?
You never heard us holla...Crip or Blood or I'm a thug

[All]
You one of them niggas!

[Zaakir (Soup)]
You wanna rhyme like that?
You won't get signed like that
Ya'll need the R&B track
Or call some sister sluts
Tell them...back that thang up
'Cause only real niggas spit game that much

[All]
You one of them niggas!

[Chali 2na]
Right off the bat...what you speak is contrived
Its like you're cloaked in a Pinocchio vibe
And when you lie...you play with the dream
You make it decay at the seams
You can fix it...if you say what you mean

[All]
You one of them niggas!

[Juju]
Pick and choose who you beef with
Leap froggy, Show me how real you keep it
And know that you pussy all underneath it
Now it's time for the 5 to expose your secret

[All]
You one of them niggas!

[Cuts: DJNu-Mark]
Shake up...foo's be faker than make up...HA!

[All]
Oh you one of them niggas!

[Cuts: DJNu-Mark]
Are you in with the heart or are you in it for the funds

[All]
You one of them niggas!

[Cuts: DJNu-Mark]
Knock this pretty boy kaz on they ass...each time we drop...kid

[All]
Oh you one of them niggas!

[Marc 7]
No time for idle chattin'...folks say what's happening
'Til we go platinum...house in the Hamptons
Bank account large...give sha-tan my cold regards
There's a killer at large...and he murders his team?
'Cause he strips black teens of all their dreams

[All]
You one of them niggas!

[Akil]
Yeah what you trying to prove
Keep it gangsta where I'm from...means the G's move
Now everybody wanna pop that shit
Walk like a Crip...what part of the game is this?
Don't get caught up the twist of some gang bang shit
But then you probably would...fascinated with the hood

[All]
You one of them niggas!

[Zaakir (Soup)]
Man...enough is enough...I know that you're ghetto
But thinkin' you tough?...your possie is deep
And when you speak it's fuck the police
Am I to believe...is that the way you really would be
If only we see...what there is no cameras allowed
And your bodyguard didn't have to hold your hand through the crowd

[All]
You one of them niggas!

Jurassic 5 Lyrics

"Hey"

[talking]

Scorpio...Cancer...Leo...Taurus...Sagitarius...
Hey...hey, hey

[Soup]
Now, if theres a party theres about to be
Then let me start queing up the frequency
Six members, fresh spinners, we make the fly ladies say...
Hey...Hey
The Shak-Zulu shot a rhyme right through you
Now your don't want static with my crew now, Do you?
C.A. all day, we make the party people say...
Hey...Hey
Check it, regardless what you heard this year
The party atmosphere is only crackin' right here
And uh, we givin' you the theme that ya want
Cha come clean if ya want, know what I mean
If ya don't because...

[All]
We just wanna get you out
To the party everybodys talkin' bout

[Soup]
And you dont have to worry bout a fee
Ya see its all vi-a-vi
Because you're rollin' with me and uh...

[All]
We just wanna get you out
To the party everybodys talkin' bout

[Marc 7]
Yo, we thought we'd come a little different
Somethin' unscripted
Push up our percentage
Rip it like we meant it
Vintage verses
Sentence wordsmith
Here with no delay
Relax and don't decay
Turn to the DJ

He can make ya people say...
Hey...Hey

[Akil]
Yeah, yeah, party people in the place to be
It's all live cause the party is packed
(No straps, just raps)
Sweat drippin' ain't nobody set trippin'
All the ladies testifyin' to that...
Hey...hey
Ay yo I'm feelin' the vibe
Take you on a natural high
Boogie wonderland cause we gon' party tonight, yo

[All]
Cause we just wanna party wit you...
Hey...hey
Open up your mind and let the vibe flow through (Uh)
Cause you dont have to worry bout a thing
Let the rhythm heal your brain
While the party people sing (Hey!)

[Chali 2na]
Yo, the more you offer, displayin' your inner visions
Oral officers will be freein' your inhibitions
So skip an intermission and suddenly parlay
Cause movers are hot pumpin' in butter from parkay
You wonderin' what that prehistoric force is
Make you scream...
Hey...hey
Like a heard of hungry horses
Yes, the music you approached me with was inappropriate
Cause me and my associates are closely knit shit
The main course on the menu for today say...
Hey...hey
(talking in background)
Hey...hey

[Soup]
Now if theres a party for the gangstas here
The DJ's spinnin' records you don't wanna here
To have it your way
Participate and make him play...
Hey...hey
I represent it, get wit it for the hood
The lights is turned low and the mood is all good
Whether you parlay
Or on the dance floor say...
Hey...hey

Regardless what you heard this year
The party atmosphere is only crackin' right here
And uh, we givin' you the theme that ya want
Cha come clean if ya want, know what I mean
If ya don't because...

[All]
We just wanna get you out
To the party everybodys talkin' bout

[Soup]
And you don't have to worry it's enough
No guest lists and stuff because you're rollin' with us
Now if theres a party theres about to be
Then let me start queing up the frequency
Six members fresh spinners, we make the fly ladies say...
Hey...Hey
C'mon, The Shak-Zulu shot a rhyme right through you
Now your don't want static with my crew now, Do you?
C.A. all day, to make the party people say...
Hey...Hey
(talking in background)
Hey...hey, hey
(talking in background)
Hey...hey

[Sample] **And all round you people are screaming,
nation tan, nation tan, nation tan, nation tan
shit, here it come again, here it come again,
here it come again, here it come again,
here it come again**

Jurassic 5 Lyrics

"I Am Somebody"

[All]
Yo, raise the level, bass bottom to treble
Forever keep it ghetto
Funk and heavy metal
F*ck the devil
Unify the rebel
Whistle like a kettle
With a fly acapello
Smooth and mellow
Locked load and settle
Shine through times with rhymes bright like yellow
Taste and swallow, lead and never follow
Break it like a bottle
Inspire like a role model

[Chorus:]
[Soup]
Say, "I am" (I am) "Somebody" (Somebody)

[Akil]
Yo, my soul, bounce rock and roll
Tumble with the rhythm
Heat the mic when it's cold
I was told "Be Bold"
Whether platinum or gold
Keep it solid
Do the knowledge
Til' I reach my goal
My hunger-pain thunder
Lumberjack the fifth wonder
I never slumber cuz I keep it on the under
My post beat for people in the street
Ghetto M-U-S-I-C (We bring the heat)
That African soul
Clap black power impact
Who said ghetto rap was all about a dope sack?
A pimp slap or a big black gatt
Fuck around and get jacked
For your rhymes where I live at
Uh, I'm not a gangsta but I boogie wit beats
No gang affiliation in my lyrics or speech
But still I keep it straight hood-hop techniques
South Central Fundamentals J5 emcees

And it's on!

[Chorus]

[Chali 2na]
Who's to say if I choose to make moves today
Whether I win or lose or I end up on the news today
Amuse but never confuse
Still got dues to pay
You abuse elegant rules when you use clich's

[Marc 7]
They got you sittin' on the edge of your seat

[Chali 2na]
Creatin' beef

[Marc 7]
Mark of the beast
Code on the street
Cease and decease

[Chali 2na]
Never the least

[Marc 7]
Let me repeat
The situation gets sticky like the badge on police

[Chali 2na]
We individually driven in the beginnin'
We winnin'
Six men and a venomous independent decision and clear vision
Pretendin' was never a possibility
I got to kill it
Because I want to be it
The poet to win a Pulitzer Prize
Who wouldn't survive?

[Marc 7]
The fullest of vibes

[Chali 2na]
Deliberate surprise

[Marc 7]
When bullets the size

[Chali 2na]

Of quarters arrive

[Marc 7]
And slaughter your lives

[All]
We trying to counteract that

[Chali 2na]
Unifying these ballers and backpacks
With Knowledge-&-Fact-Tracks

[Chorus]

[Soup]
Yo, my soul, infiltrate birth control
And control guns Huey P used to hold
I breathe life and through the 60's
Voted most likely to get busy
Inner city flash jiggy burn
Phillies and things
And we boogie to the bang
Sunshine and rain
Why you cats be talkin' that pimp crap in jail
I corresponded with a nigga who can barely spell
I know the situation oh so well (so well)
I done seen it in 3D
It ain't hard to tell
Why you bang for your turf chain girl or your man
I be banging for Islam in a spot in Sudan
Cuz I can't solve or stop or put foot to this
The hottest brother on the block couldn't cook to this
J5 drop the verse beat hook to this
And if you want a fly jam you should look to this
So...

[All]
Raise the level, bass bottom to treble
Forever keep it ghetto
Funk and heavy metal
Fuck the devil
Unify the rebel
Whistle like a kettle
With a fly acapello
Smooth and mellow
Locked load and settle
Shine through times with rhymes bright like yellow
Taste and swallow, lead and never follow
Break it like a bottle

Inspire like a role model

[Chorus]

Jurassic 5 Lyrics

"Back 4 U"

Check this out
Real quick
I don't know if everbody know us personally as individuals
So what I want to do right know is
Is I want to take this timeout just to introduce everybody
So let me just introduce everybody

I need from the people up top
From the people on the bottom
And the people in the back on both sides
To give it up when I say

(When the music is the soul)
(And the soul is the music)

So what I want to do right now
Is I just want to go back a little bit with y'all
Check this out

[Zaakir]
Yo, dressed in indiginous garb sittin abroad
The words that I use to be awed people aplaud
Now watch how the brother adapt fill in the gaps perhaps
I play the block until the curb collapse
Now check the method and put the message on record
Promote the effort and change the neighorhood preference
And keep'em guessin from the old to the adolescent
It's J5 and it ain't no half steppin

[Chali 2na]
The word play we display
Can only convey the vibe when they dj
Colonial rep but far from the empecee
Feel sorry for those who bystand innocently
The menace in me divides men's courage in half
I murdered my staff
Demolished every nerd in my path
The verbal giraffe
....jive
We do play live
Ask the people who they fly
The crew J5

[Mark 7even]
We ride right into the night
Words that we write
We're calm then a settle your site
Come to the light
The word play we display
Kept us movin from Tokyo to LA
Catch the feelin as we move on
Follow the groove and steadily soothe
Gotch you all comin in two
Follow the crew
No mean thing cause we tied like shoe strings
When we sing you hear buzz like bee stings

(thank you...thank you)

[Chali 2na]
This is a, uh, very historical moment for us as Jurassic 5 man for real man
I feel like, uh you know, we have some serious support out here...

[Chorus]
You know we bring this back 4 u
So you know we bring this back 4 u
So you know we know we know we know we know we
So you know we bring this back 4 u

[Akil]
Yeah...What...Yeah
When we play you walk this way
We walk in faith I hope you feelin great
We came here tonight just to celebrate
Put ya hands up high you know we're rockin the place
If you came here to hate you came way to late
Jurassic emcees and came to set shit straight
Originality, check the way we originate
Style and communicate check the way we demostrate

[Chali 2na]
Countdown three two one
Some rappers a speak the real
And I can see through some
I focus my sound
I never sellin surplus pounds
I'm workin to smash and drown all you circus clowns
You try to dis and get your rims crushed like ants eggs
Some are fated where my tims touch my pant legs
We indestructable plus we's magnificent kings
Beat over book by overlooking insignificant things
That bullshit that you bring

[Chorus]

You know we bring this back 4 u

So you know we bring this back 4 u

So you know we bring this back 4 u

So you know we bring this back 4 u

So you know we bring this back 4 u

So you know we bring this back 4 u

So you know we know we know we know we...

Jurassic 5 Lyrics

"Radio"

[Announcer]
Many, many moons ago
Jurassic 5
Began their quest
To put real hip hop on the radio

[Akil]
Now here's a little story that must be heard
About the brother with the word sounds so superb
It started way back with these emcees
Now here's a little somethin on the history

[Zaakir]
I'm a H-I-P H-O-P H-E
A-D, been since one-nine-eight-three
R to the A-P-P-I-N
Eighty-four was the year I picked up the pen
At the same time breakin tryin' to come on in
But I was already in since way back when
One-nine-seven-five, the saga began
R to the O-B-O-T-I-N
Eighty-one I was P-O-P-P-I-N
One-nine-eighty-two D-J-in
Eighty-three it was all about Run-DMC man
A gangbanger taught me how to break dance then
The same year I picked up the pen
And wrote my first rhyme and got that feelin
And now I'm here in the flesh still dope still death
Tryin' to get my song (rockin on the radio)

[Chorus]
The summertime yo we would hang out
And talk about the new jam that came out
And from the way the beat was laid out
And all the emcees had turned the place out
And we would say our rhymes to the beat
Right but we never indulged in the street
Life and now we all good to go
J5 is rockin on the radio

[Akil]
Yo I was an inner-city nigga in my room I'd sit
Poppin off quick cause I could sing a little bit

with my hi-top fade and matchin outfits
But once the record hit it's like listen to this
Hip hop is the reason that a brother evolved
And I was so involved I ain't gonna lie to none a y'all
By the time I started rhymin in the late eighties
The drugs in Cali was crazy

[Chali 2na]
Nine-teen eighty
Nine's the number this is the summer
On some get rich come up Quest switch the drum up
Invested some of my best years because of
Then I repped with some of the best kids that done it
My love dates back to show, that's incredible
Brothers who lack revenue spent on they back several
Times It made me know which way to go
And now (Jurassic is rockin on the Radio)

[Chorus]
The summertime yo we would hang out
And talk about the new jam that came out
And from the way the beat was laid out
And all the emcees had turned the place out
And we would say our rhymes to the beat
Right but we never indulged in the street
Life and now we all good to go
J5 is rockin on the radio

[All Together]
I got my mind on back in the day
The style a dress and the records they play
Reminisce I got somethin to say
Check it out cause it went this way cause it went this way

[Mark 7even]
The year was eighty-two and the block was froze
When I stepped out rockin burgundy shell-toes
A fresh mock-neck and some new Lee jeans
Add a pair a Gazelles and well you know what I mean
DJ Red Alert and Mr. Magic had static
Over Kiss FM and BLS which one is the baddest
Brothers on the block was doin the Wop
While the cars drove by bumpin real hip hop
The vibe and the feelin was oh so real
We held it oh so dear so brother don't go there
Fat Boys Cold Crush Force MCs
All showed me how to really be a real emcee
From the Yes Yes Y'alls to the Ladies say Ho
I can't believe my jam is (rockin on the radio)

[Akil]
From the Yes Yes Y'alls to the Ladies say Ho
I can't believe my jam (rockin on the radio)

[Chorus]
The summertime yo we would hang out
And talk about the new jam that came out
And from the way the beat was laid out
And all the emcees had turned the place out
And we would say our rhymes to the beat
Right but we never indulged in the street
Life and now we all good to go
J5 is rockin' on the radio
J5 is rockin' on the radio
J5 is rockin' on the radio

Jurassic 5 Lyrics

"Brown Girl (Suga Plum)"

(feat. Brick & Lace)

[Brick & Lace]
You want sexy
I give you sexy
Heh-he
It's brick and lace and Jurassic 5
And I like that

Mercy yeah!

There's Brown Girl in the Ring
Tra-la-la-la it, Brown Girl in the Ring

Tra-la-la-la it, she looks like Sugar and the Plum
Plum plum

[Jurassic 5]
Yeah
You're too cute too resist
And you'll probably wanna mention
That you are not used to this
Hope I don't seem hard pressed
Can a brother get your number email address
I'mma keep my eyes glued
And hate on any brother you that talks to you
Cuz anytime another
Comes around harder than i
Put it on paper this is what i would describe
Intelligent
The fly female
Perfume smell even if its not from Chanel
Hair and fingernails
The fly debutante is what I want
And you can trust me
Plus give me props when you discuss me
Its about to be super ugly
But tonight's the night that's gonna make your love
It's in the pocket

[Chorus: Brick & Lace]
There's Brown Girl in the Ring
Tra-la-la-la it, Brown Girl in the Ring

Tra-la-la-la it, Brown Girl in the Ring
Tra-la-la-la it, she looks like Sugar and the Plum
Plum plum

[Jurassic 5]
Yo

She look like
We, my ticket at the end of the night
Ugh, she my type
Tall just my height
Tall brown skin
African decent
So decent
World wide princess
Get down to business
Ain't by the bullshit (mmm-hmm)
Y'all know
Stand up tall
Queen of the bar
Nah, she ain't a pimp y'all

[Jurassic 5: Chali 2na]
Back and forth
Forth and back
With your back support
Got your back
We gonna have a laugh
'lil chat
Some food after that
Have a pack
Bake a crack
Take a step back
(there's a)
Push it with a burst of air
Will it work
Will i thurt
Will i persevere
Till the dirt
Im a flirt
First one with dear
Im afraid when the worst is near

[Chorus: Brick & Lace]
There's Brown Girl in the Ring
Tra-la-la-la it, Brown Girl in the Ring
Tra-la-la-la it, Brown Girl in the Ring
Tra-la-la-la it, she looks like Sugar and the Plum
Plum plum

[Jurassic 5]
Her day starts with a bus and backpack
Half burn cigarette
Study and some black facts
Baby got it gonna on in the her own hood
All the fellas on the ride

Ask me how i figure tho
Give me just a second and
I'mma tell you what a brothers know
She was 15
Following her for-scene
You know flossin'
Moe when tossin'
Baby had dreams but she put em off often
She'd rather slow one and grow a damn high
Living in the hood is like walkin' on a landmine
Yeah, come on

[Brick & Lace]
Watch me shake it to the left and copy it up on the right
Me gots the goods to deliver
I got the mind to shiver
Come for rockin'
Come for rockin'
It's in the pocket
No one can stop it, yeah

[Chorus: Brick & Lace]
There's Brown Girl in the Ring

Plum plum

Jurassic 5 Lyrics

"Gotta Understand"

[Soul sample cut]
"You might wanna say it" Testing "O, Ya got to understand"

[Chorus]
"what ya gotta" speak the truth for real
"you might want to say ?" "you got to understand"
We trying to tell you the deal from our perspective
The J5 collective will wreck cuz you
"You got to understand" keep it together and try
"you might want to say ?" but you "you got to understand"
We're more than meets the third eye, words fly
Reppin' from the bird's eye view

[Akil]
I ain't hating I just heard better
Up the ante on the game and apply the pressure
Understand I was a fan
Before I was a member of your favorite rap band
Understand that I'm still a fan

[Soup]
And you can keep playing after the fact
Related to the game and came after crack
Cuz every nigga I know is out ta get a plaque
So why you wanna go and do that, huh?

[Chali 2na]
I don't know man cuz we see fiends who dream c.r.e.a.m
Reppin' the west through special effects and green screens
And it seems you need to be the one to flash that cannon
Or sign the autographs till the last cat's standing

[Marc 7even]
Brother pass that action, and your trashin' is real
Your only way of coming up is probably inking a deal
While your thinking the skills, some are thinking the mills
In a never-ending quest ta get the house on the hill
AND THAT'S REAL

[Chorus]

[Akil]
I need some understanding in this world between me and my girl

She want the diamonds and the pearls to be a part of my world
Twenty four-sev, but love don't pay the rent
So love me when I'm home and cherish the moment

[Chali 2na]
Uh-Huh
Cuz some of you women are men's mirrors
I know some women who dodge balls like Ben Stiller
Please understand, it's not to offend or seem bitter
But every queen, need a king wit her

[Soup - singing]
Ms. Thing I don't know, but ever I leave you ready to go
My Momma told me about how it flow
But I didn't wanna listen but she told me so
Now if it ever came to the bank account
Who'd ya pack ya things and get up and bounce
These the type of things that I be thinking about
To all my other fellas "you got to understand"

[Chorus]

[Chali 2na]
And all the times I tried ta do ?what this wanna god do?
It's cuz I see the world from the Artist eye view
You live life the next part is you die, too
And there's no one on this earth it doesn't apply to

[Soup]
Now that's true, cuz every single day I live
I'm obligated just ta say it like it T-I is
And I ain't gon talk about no cat whose decision is poor
Trust me man my hand is just as dirty as yours

[Marc 7even]
Either they like you, or they hype you, it's a cycle
Choices that we make in the vi-tal
Cuz in the blink of an eye it can all go awry
And the next man will quickly take your title

[Akil]
Yeah, between me and myself and all of these things
Understanding is a theme when we doing our thing
From the job to my queen and chasing my dream
The whole world needs a little understanding

[Chorus (w/ad-libs from Akil)]
[cut sample until fade]

Jurassic 5 Lyrics

"In The House"

Urhh

Uhh
Yo,
Party people, from right to left just kick off your shoes and enjoy yourself
The rec-ipe for rap is to flip the script and we the Jurassic 5 and we bout to rip
So ladies and Gentlemen
From the music this is farfetched extreme, from the brothers we bring a whole brand new thing,
Were in-the-house

Yo,
The original ryme-inyl hospital the mic, I spin on the mic, believe it, those believing the hype, my beat in this life, what ever you believe in this light, I'm reading it right, whatever, cant ya sing it you'd like
It's like,
Could it be hot or could it be cold or could it control I'm leaving it
co, co c, c, c, controldable to the party goers exclusively, and you agree I'm much better than I used to be, because J5 MC were here to rock, rhymes like yours can never be stopped
You heard the four of us even though it's six, guaranteed to succeed while were bringing you this.
I give J5 uh the recipe, south central MC in the place to be.
Common say ho if ya know that my flow get ya out on the floor and make ya sweat for sure, uh
Cos we got what you need
Stuck on my style and my melody
Yeah, lemmie' show you where the party at
The rhythm from the jungle with a party hat
Party back from the front to back, yeah
Party rap and you know that

So just get back now
Party with the people when you bust that move
Give it up don't stop now
Feel the vibe let the music push you

So ladies and Gentlemen
For the music this is farfetched extreme, for the brothers we bring a whole brand new thing,
Were in-the-house

So ladies and Gentlemen
Get on down

Yeah that's what I'm talking about
Ya see I'm coming with the healing plan
Leaving my enemies running like a ceiling fan
Now while the rest assume

I let my blesses bloom
In a session I take it back like a dressing room and it's a cinch what the tuna do,
Turn a roach and you're convinced I'm as dressy as a French quarter filler brew,
so that were beautiful music pharmaceutical ladies and gents this events undisputable

Its tuna fish in the house tonight

Were hustling
For de money
Give us the ends
The dividends
Yaiah

That hobbadoba shop webe deba he
That shit will blow up.

Give us the ends

Were hustling
For de money
Give us the ends
The dividends
Yaiah

Whats the motto for J5 2006?

Were hustling
For de money
Give us the ends
The dividends
Yaiah

Give us the ends

Yeah you know when a song is going off its like
Were hustling.

Jurassic 5 Lyrics

"Baby Please"

You know them ladies half amazin' half crazy
Baby wanna make a baby baby please what she say to me
Yeah

Ain't nutin new up under the sun
She want a boy
I don't want none
Girl just wanna have fun
I'm tryin to get my funds count my ones

[Chorus]

Nutin new up under the sun
Gotta a brother up under the gun
Gotta run cause a girl got a plan to get a man
Ain't a ring on my hand
All she wants is me and her to be one

Uh, let me tell you how the story begun
At first thought she was the one
She was chill then so much fun
Her uzi weighed a ton
Didn't know I was chillin with a loaded gun
Can you feel or hear me son
Disappear reappear call me hang up
Love me hate me quit me date me
Baby on the low might Robert Blake me

You want your problem solved holler dog
Can't be seen with her in the mall
Givin you a piece of my catalogue
Never thought you would pull up at a broad
But I had it y'all
Bagged it y'all
Hate it when a girl get mad at y'all
I'm a snap at y'all
Don't panic nah
The reason why a five nigger haven't called

[Chorus]

Ain't nutin new up under the sun
No money no car why you call me a bum

Cause you got cake and I'm scrapin crumbs
Now I'm on the video your face look stunned

[Chorus]

Nutin up under the sun
Fellas succumb when they nails and they hair get done
It's better for some to tell'em when young
Keep'em under space in the place til they head get sprung

I can't mess wit you hoes
Out to get my dough
Alterior with the mo
From my heart the plot is closed
You know
You thought since I was nice
That I was blind like some mice
But I'm a man with advice
Baby please get it right

All of us used to walk the world
Akward, scared to talk to girls
Every flavor, even chocolate swirl
Can't get a housewife from a stalker girl
uh uh
Cannot handle a high caliber woman
Camera hold steady
A blast and I'm a move it around
Tryin take advantage and vanish for standing how I'm a get down

[Chorus]

Ain't nutin new up under the sun
She want a boy
I don't want none
Girl just wanna have fun
I'm tryin to get my funds count my ones

[Chorus]

Uh, I'm a break it down real real quick
Just cause she fine don't mean she fine
In the time it took me to write this rhyme
Baby done slept with all man kind
Don't play me play lotto
You can't rev me like no throttle
Get yo ass up out that bottle girl
Stuff the benz in some model world

Let me spit this man
With miss thang
Put it in the way just to get this Jane
Sorry girlfriend I forgot your name
Don't blame me just blame the game

Your claim to fame ain't your brain
Without no game her end can't complain
She don't wanna make the change
She just wanna shake that thing and chase that fame

[Chorus - 2X]

Jurassic 5 Lyrics

"Work It Out"

(feat. Dave Matthews)

1-2-1-2

[Dave Matthews]
A don't stop stop your dreamin'
Let yourself float upon the notion
We can work it out, we gon' work it out baby
Go ahead lose yourself inside this opportunity
That we gonna make it right now, make it right now

[Marc 7even]
Hey
We live and we learn, we crash and we burn
Right now my only rhyme is this lesson I learned
You talk about trust, I talk about lust
It's not appealin' as you truly speak your feelings
I'll be lookin' at the ceiling, so concealing
I shoulda put my heart on the table
Knowin' I was good and able but instead I fed your fables
If I could have you back best believe it'd be forever
Cause each and every day you would hear those four letters

[Chorus]

[Chali 2na]
Hey
These are different times but we feel the same pains
The blood of mankind runnin' through the same veins
We'd like to make it right some which it remain tame
Same crimes even though the names changed
And we like different minds workin' off the same brain
Passengers on different cars steppin' off the same train
In the end, makin' it right's the main aim
Different parts of the picture highlight the same frame

[Chorus]

[Akil]
Yo
Now if you know what I know you need to work it out
If you ain't happy with yourself you need to work it out
You havin' problems with your family then work it out
The things we go through just to work it out

I work it out when the situation seems unworkable
unreversible but God is most merciful
Many works, Many men converse
With soul searches sweat it out
when they tryin' to work it out

[Soup]
With the constant complaint, we either gonna make it fly
Or we ain't, I already know what some of ya think
I'ma talk a hip hop and how bad its got
Then tryin' pull a brother, I'm not
lookin' for nobody to judge, you said you ain't I never thought you was
I'm just tryin' get with ya and pose in the same picture
So this mic thing can move the right thing and do the right thing
Made for your life gain, plus my man might sing

[Chorus - 2X]

Jurassic 5 Lyrics

"Where We At"

(feat. Mos Def)

Ahhhhhhh

Speak my mind
just to reach your mind
tap a tempo off the instrumental
just to get the drum line
you know it's my time
reel up and rewind
get off that cheap wine
swingning on my grapevine
you heard a brother
worthy to create rhymes
I take it further than a murder
or I hate crime
don't hate on me
what have you done for me lately
Beside to baith me assume and mistakely
Too abstract than a backpack
to super underground with the beats and rats
cause I refuse to bust gatts
and wather down my raps
to get me caught up in a trap
and set me years back. Fuck that!

[Mos Def:]
Yeah right from the start
remember that feeling
the way the Hip-Hop used to make you feel
so real like
getting first signed
then the first time you heard Planet Rock
Word is over, the God
Staten Island, for real... for real

I heard brother say J5, men them niggas ain't shit
Them niggas never slapped no bitch, never inserted a clip
They never claimed thug or a pimp
Them niggas never made the attempt
Hey yo, they ain't all that
men Six members men and four of them black
what kind of racist statement is that
they need to change their views

start talking about the clubbing they do
thats the reason we ain't fucking with you
today's artist is tough
talking loud, this isn't enough... yeah
let's talk about the guns you bust
Nigga, the crack you cut
or all the cars that you bought wholesale
or the niggas rattling your cold tail
I've been keeping it real
let's talk about the ash you feel
now thats the way to get mass appeal
Ya'll ain't heard that wow
the brothers ain't feeling your style
you get stoned play over the radio right now

Where we at
Wh...Whe...Wher...Where we at (YA)
Where we at

Don't deny me, diss or austrsize me
cause it's likely I'm all up in your sight gee
It's unreal how you deal and threat us
your bunch of beleivers
I can tell just by the way you retreath
cactus is a discreed fact
they heat rap beat gaps but stay of the knee rack
so you could put your seat back
pick up your feet and bring facts
rhymes and beats that we create can defeat that weak crap
cause your either bling-bliging or your next tails rigning (dring)
either way it goes, fat baby ain't signing
the game ain't over until we all get shined
I mean you do your thing and I do mine

Jurassic 5 Lyrics

"Get It Together"

[Intrumental Intro] One, Two, Three

[Zaakir]
Yeah, I'm tryin' to get it right, live my life right
I want the things that come with the fast life
but I don't wanna lose my soul, right? pay with my life
I just wanna rock ice with my fresh nikes (yeah, yeah)
cuz the girls at the school think I dress nice. (yeah)
The real thug niggaz cool with a nigga, right? (that's right)
'Til one day after school, wakin' home, right? (Uh Huh)
Them same thug niggaz ran up on a brother, right?
With three more I never met in my life. (Damn!)
Axed me where I'm from, banged on me, right? (Where you from?)
The brothers that I knew was up outta sight
(Man they made me get it together, now I ack right.)
(Let's get it together)

[Mark 7even]
Trials and tribulations, both got you accosted
Understand I'm not the one, go tap some other resources
The road that you travel gon' be paved in some gravel
so before you try on jock me understand the shit is rocky
I don't mean a boxer, Illy? or Oscar
I'm tryin' to spit some game, so your ass can prosper
Pay a little dues, do a couple a shows
put a mix-tape out, man let's see how it goes
My only good advise is to cut your own slice
I mean, the world ain't gon' bite, just cause you think you nice
How can I be diplomatic when this ain't automatic
I'm gonna tell you right, this a roll of the dice
(Let's get it together)

[Chali 2na]
Hey, being (solid?) silent's the first sign
if not, being able to follow my first line
I dirt-grind on my first, it works fine
I'm alert, but I been caught of guard at the worst time. (worst time)
Yeah, I get apparent applause
but do these people know my character flaws? I get embarassed
and pause, meticulous, but never careless because
I might be the one standin' on your terrace that falls
And you can laugh, but it's therapeutic, to
talk about my faults of a rare acoustic, bangin' dove shit

We ain't perfect, to fight just ain't worth it
despite a stained surface, we gotta retain purpose
(Let's get it together)

[Akil]
I was a pick-a-the-litter, when I was a-little-nigga
my pops would turn preacher once my voice got deeper
than his. For all the times a nigga would vent
I had to listen, he was payin' the rent and what
he's sayin', he meant. I'll admit, I was tripin' a bit
I was hangin' with different chicks and we be wild'n and shit
but I had to get a grip before time ran out
or pop starts to trip, start puttin' me out
but now I kinda see what he was talkin' about
you can't live in somebody house and start airin' it out
You got to be your own man and handle your biz
and later on you can tell 'em what time it is
(Let's get it together)

Jurassic 5 Lyrics

"Future Sound"

[Akil]
Yea

[Soup]
Turn me up though

[Akil]
Uh Huh,Yea

[Soup]
Come on

[Akil]
Anyway

[Soup]
A 1,2 what cha gonna do
2,3 what's this gonna be... come on now

[Akil and Soup - talking over each other]
Yea Yea uh, a come on now
Let me hear you, Let me hear you

[Akil]
Uh yea
Provoke emotions when I'm boastin and braggin
Just imagine gun clappin' linguistic assassin
Bout to shake the world up, slam it to the floor up
You heard of us, real niggaz we blow the world up
Rip off the planet, take it for granted when I manage
With that home team advantage, automatic rhyme bandit
Bout to hand it , Cause you cram to understand it
When I land it open handed
I'm a transatlantic slave, with that old black magic
Got to have it from the demo, to the master
Some brothers try to strike, but light the fire of disaster
I'm the chainsaw massacre, brain ball acid dust
Down shift, pump your brakes, ease off the clutch
We fuck it up, when we conduct, load your pistol up
Put this verbal dick in your mouth, until I bust a nut
And let this jam tell you who the fuck I am
Original black man from the Billali Sudan

[Chorus: Akil and Soup]
It's like that y'all, so go head and get up
Sample (Be bad)
This is the future sound
[Sample]
Without further ado, you don't see us, but we see you

[Akil]
Either you're here to teach

[Both]
Or you're here to be taught

[Akil]
If you don't plan to get away

[Both]
Then you plan to get caught
I was born to lead, that why I run don't walk
South-central MC what the fuck you thought

[Soup]
I set my first verse up, similar to a stake out
The minute that they break out, they send jake out
But I'm super laxative and I don't need no practice kid
You're probably wondering what track this it

[Akil]
Uh, so carry on with that twisted ass street rap
I ride for peace, but I will contradict that
And bitch slap any rapper that act, uh
Like he really want it I'm a have to mishap

[Soup]
So act like you want it, but don't get loud
And you haven't seen a style this vivid in awhile

[Akil]
I rebuild cause I'm a rebel
My education and rhythm is on a higher level
Smash til the dust settles

[Chorus]

Yes, yes, yes y'all
Mic test, test y'all
Freestyle lyrics being thrown straight at y'all
And we hype so and we might just flow from the get go
Hey yo Soup, let 'em know

[Soup]

I'm one of the last cats, (That's right) puttin' the flavor back in the rap
And make a sun roof straight to your cap
Now the original black, now watch how the herbs react
I play the block, where I learned to rap (tell em)
Ain't nothing to it, I keep the word play fluent
And tone will run through like the emperor Jones
Now the inventor of poems and lymrics outstanding pitch
Regardless if your feeling my shit
Yo, I stay prime and plus I'm never outdated
In time I break atoms from the way that I rhyme
Now I created a line with no miscues, fake no moves
So here's the rhyme I couldn't wait to use
I represent, and put the pressure on your local event
And drop heavy when the vocal commits
To hit you with the hits, from the colonial prince
The master of the ceremonial
It's like that y'all

[Chorus]

Jurassic 5 Lyrics

"Red Hot"

[Marc 7]
Syllable slasher, insurmountable mic gasher
Quick to vent with intent, you can't crash us
Constant link passers, styles'll skate past ya
Beats that we present will make you hate like a slave master (Hardcore)
Heated and hot, control the venomous plots
We be the cream of the crop, so keep our name out your mouth
We'll entertain your brain for three minutes and change
Ain't it strange, your fame is three minutes and change
Let me finish explainin', break it down like a layman
All the stuff that you sayin', Ain't it all entertainin'

[Akil]
Uhh, Yea...
(Red hot) molten lava
Too hot for toddlers
Too hot for you and your crew so don't bother
I'm the globetrotter, party block rocker
Heart and show stopper, break it off proper

[Soup]
With lengths to go,Yo
The Jacques Cousteau with flow, and underground continental
With words that blow
The competitions straight to the door
We'll rock it, Herbie Hancock it like '84, Fo' sho'

[Jurassic 5]
This jam is red hot

[Chali 2na]
A smooth brotha, for real we buckshots like that BlackMoon fella
The backroom sellers makin' rap tunes illa
The Killa flow spilla, the Chicago killa named 2na

[Marc 7]
We come tramplin', your city and stand in
We movin' in tandem, your crew couldn't phathom
We reppin' the fashion, no mushin' and mashin'
I'm through with you has beens
Your crew better cash in

[Jurassic 5]

This jam is red hot, when were rockin the spot
If you like it or not, this jam is red hoooooot

[Soup]
The vangard of art
Quick to put pen to the thought
And nice from the minute I start, huh
Maneuver well, I tell girls that can't tell
That say since I don't look like Maxwell
They think I can't mack well

[Chali 2na]
We them backpack boys, at your backdoor
They can catch a cap like a hatch door
Givin' the exact score
Forever we fight for honor yo
Tight since we was lable mates with Mic Geronimoooo!

[Marc 7]
Walking, stompin' in my big black boots
It be the crew J5 and we're all in cahoots
(Soon) to bring it to ya live, yea that's what you paid for
With skills much sharper than a Texas Chainsaw

[Akil]
Yo, pipin' hot and your mic is not
We steam from the pot, you wet like rain drops
We fire with the brimstone
Heat up your girls erogenous zones with electrified sparks and poems

[Jurassic 5]
This jam is red hot, when were rockin the spot
If you like it or not, this jam is red hoooooot

This jam is red hot

[Chali 2na]
So let the ash blow
We relieve static with a grammatic fiasco

[Marc 7]
Don't even start me
We rippin' up your party
Put us on a marque
We clutch without the car keys

[Jurassic 5]
This jam is red hot

[Akil]
Mind blowa, syllable Sammy Sosa
Dap the King's Cobra

[Soup]
Huh, we come up to sun up thanks to noon
And you can say, I'm on his dick cause you are too, Come On!

[Jurassic 5]
This jam is red hot, when were rockin the spot
If you like it or not, this jam is red hoooooot

Jurassic 5 Lyrics

"End Up Like This"

Yeah

Hey, yo,
We used to be young, dumb, full o' cum,
Bubble Yum bubble gum, with no funds,
But we still had fun.
Don't worry, be happy, that's what we was.
We was family, caring for loved ones,
Blood relatives; first and second cousins.
Brothers all from the same mother.
Now we act like we don't know each other.
We used to play with toy guns,
Now we bust real ones.
Shoot 'em up Kill Bill style and fashion.
Hey, yo, what happened?
Hey, yo, what happened?

Na na na na na na na na
What if we end up like this?

Na na na na na na na na
What if we end up like this?

Da da da da da da da da
What if we end up like this?

Da da da da da da da da
What if we end up like this?

Hey, yo,
The vision that I'm seein' ain't the same no more.
We used to tell the girls we love 'em,
Now we calling 'em whores
Summers of the past was a blast when we cooked out
But now we grab the phone, sit alone, and order take out
Kids playin' outside, yellin' out names,
Now the fun and excitement's in the video games
Brothers used to speak "What's up," "How you"
Now it's "Homie," "Who the heck" and "Why he lookin' at you?"
It really blows my mind how we changed our direction
As the years go by, I gotta ask this question:

Na na na na na na na na

What if we end up like this?

Na na na na na na na na
What if we end up like this?

Da da da da da da da da
What if we end up like this?

Da da da da da da da da
What if we end up like this?

We-a dire need, but what the empire need
When you lyin' to me, it seems so fine to me
I got a glass eye that reflects the fast fly
Then my acne ?? the latchkey cool
I used to want to hit the streets to hide my fault
The life at the ??, or the pain I've caused
The damage I laid was covered up with praise
Cause, Momma, did you know that I had changed my ways?
But don't judge me, harass my clique,
We only doin' this, cause the neighboorhood permits.
So try to explain, just one thing:

What if we end up like this?

Na na na na na na na na
What if we end up like this?

Na na na na na na na na
What if we end up like this?

Da da da da da da da da
What if we end up like this?

Da da da da da da da da
What if we end up like this?

Yeah, I'm runnin' muddy and graffiti understudy
To switchin' to musician and children across the country
Trips to Cuba and tours with Santana
Help me not to flip this statement and endure these bad manners, man
They ain't chasin' but came to main cause inducing caine is a beast
To sustain your brain pressure
Tryin not to see the fact that you da man, leave the plan, ??
Cause your choices affect your band members in the air, shit
Later for business, what happened to friendship?
The rest is just nonsense
My natural response is to just to roll up our fists and ask:

What if we end up like this?

Na na na na na na na na
What if we end up like this?

Na na na na na na na na
What if we end up like this?

Da da da da da da da da
What if we end up like this?

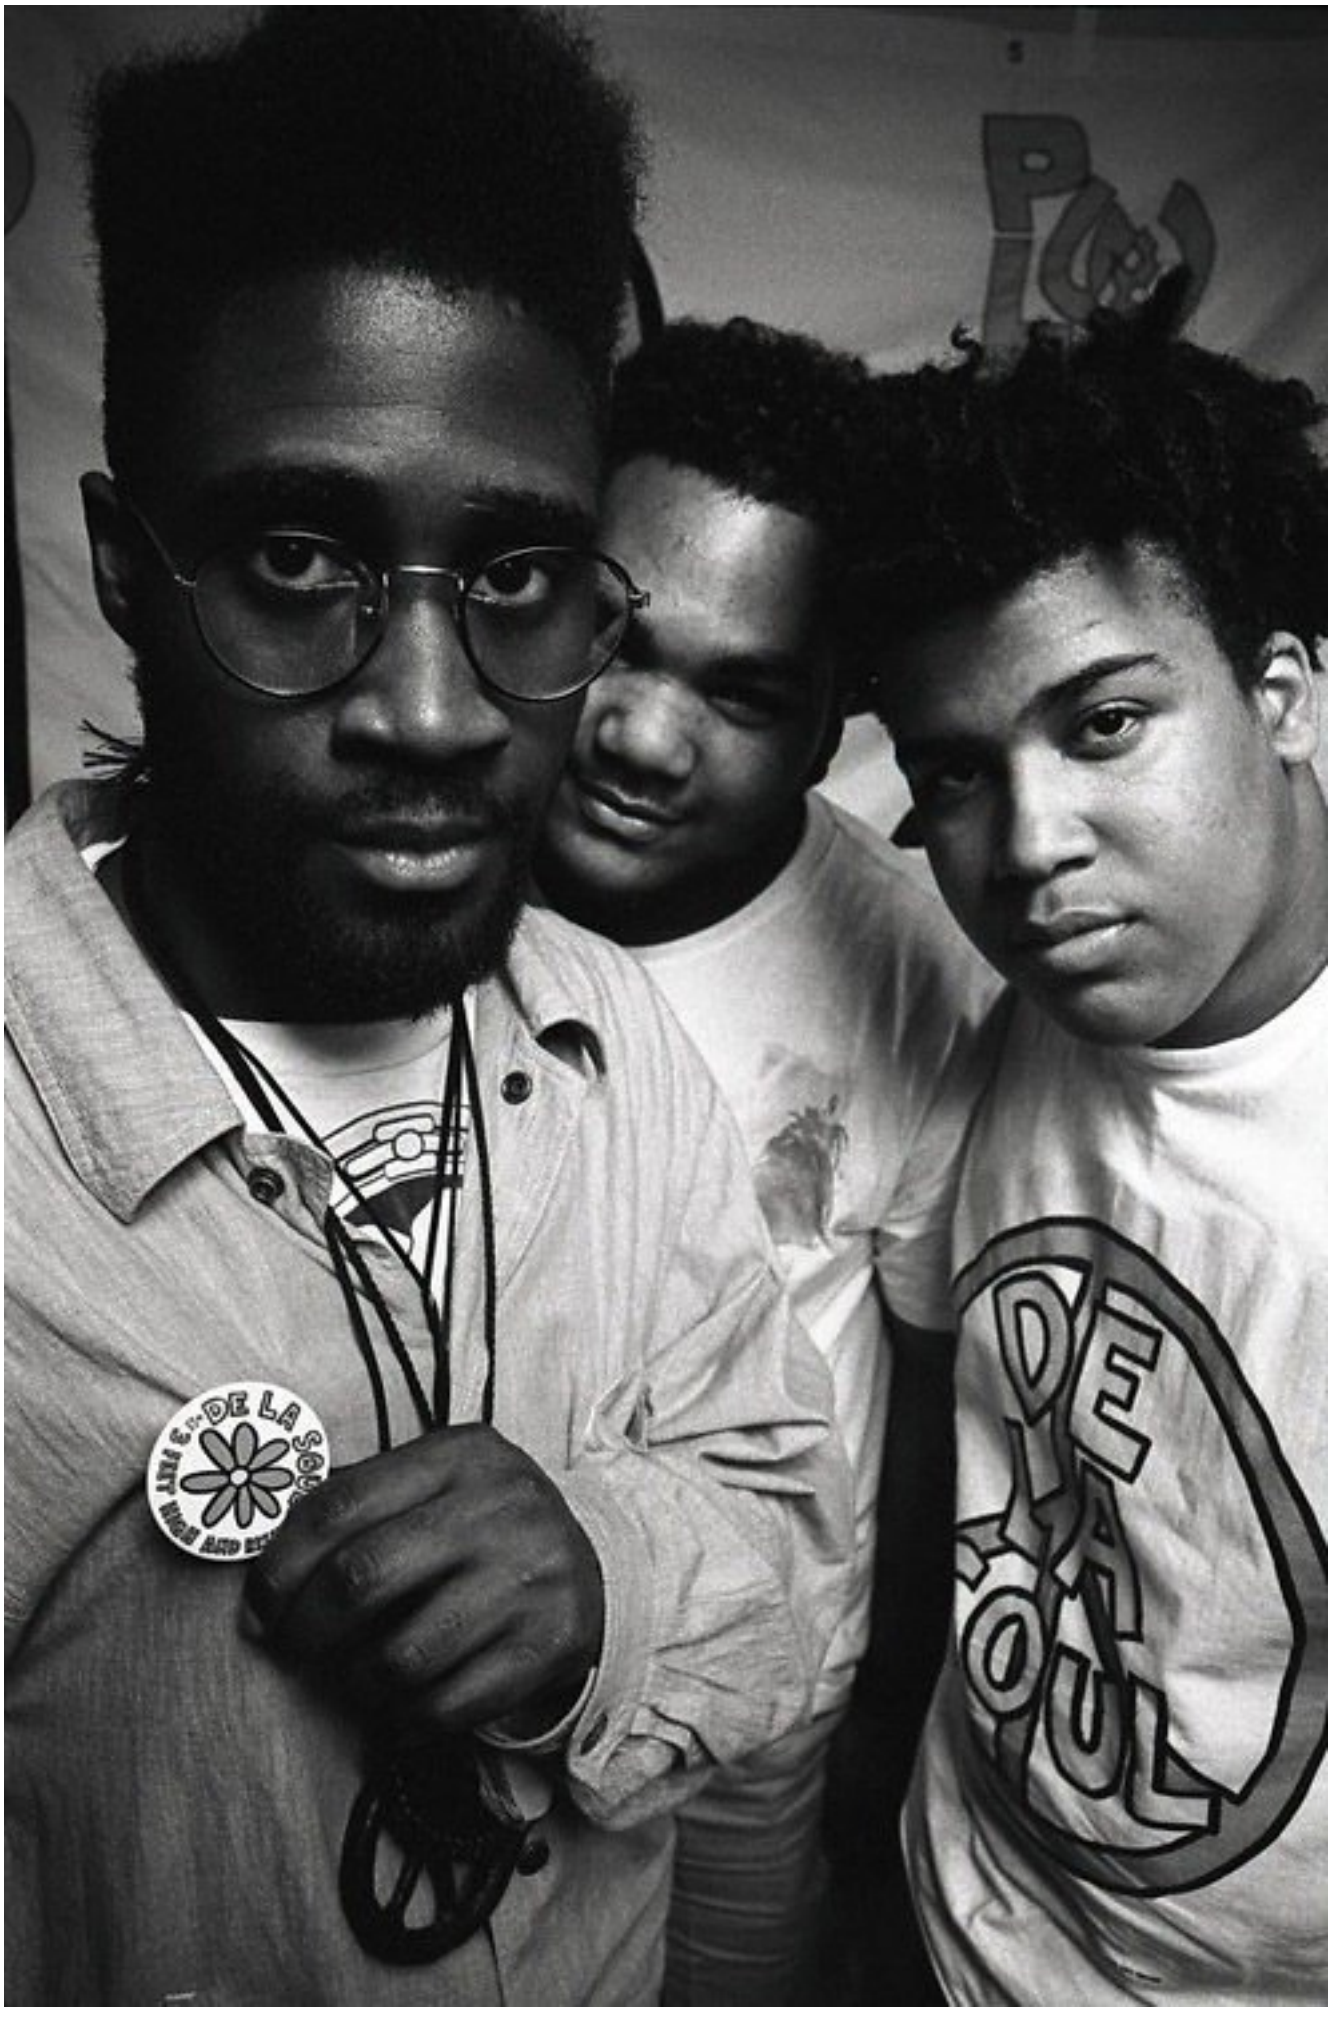
Da da da da da da da da
What if we end up like this?

Na na na na na na na na
What if we end up like this?

Na na na na na na na na
What if we end up like this?

Da da da da da da da da
What if we end up like this?

Da da da da da da da da
What if we end up like this?



DE LA SOUL

DE LA SOUL
3 FEET HIGH AND RISING

De La Soul Lyrics

"Intro"

[Al Watts:] Hey all you kids out there! Welcome to Three Feet High and Rising. Now, here's what we do. The following contestants... how are you doing, contestants?

[Contestants:] (General babble, inc. 'Okay', 'Alright', 'Yo Mama')

[Al Watts:] So fellas, tell us a little bit about yourselves. Contestant number one!

[Contestant #1 (Dove):] How ya doin', Al. Just came all the way down from Wichita just to be on this show. You know it's gonna be swell and I'm gonna win all the money. Gonna win all the money. See ya.

[Al Watts:] Okay, contestant number 2.

[Contestant #2 (Mase):] Excuse me, um, my name is, um, P.A. Mase, I'm from Australia, and I'm just glad to be here.

[Al Watts:] Okay, contestant number 3.

[Contestant #3 (Pos):] Hello, my name is, uh, Plug One, and uh, let me tell you a little bit about myself, I like Twizzlers, and I like the Alligator Bob, and my favorite movie is um, Bloodsucking Freaks, just like your mama.

[Al Watts:] Okay, contestant number 4.

[Contestant #4 (Prince Paul):] Hello, my name is Prince Paul, and I'm just... glad to be on the show. Thank you.

[Al Watts:] Okay. Now we've met the contestants, let's get to the game! I'm going to ask an amount of four questions, and the contestants will try to answer them correctly. Now, you out there in the audience can answer along with them.
How many feathers are on a Perdue chicken?
How many fibres are intertwined in a Shredded Wheat biscuit?
What does "touche et lele pu" mean?
How many times did the Batmobile catch a flat?

Now that we know the questions, we'll let the contestants think them over, and we'll return right after these messages.

De La Soul Lyrics

"The Magic Number"

(Got to have soul!)

[POS:]
3
That's the Magic Number
Yes it is
It's the magic number
Somewhere in this hip-hop soul community
Was born 3 Mase, Dove and me
And that's the magic number

(What does it all mean?)

Difficult preaching is Posdnuos' pleasure
Pleasure and preaching starts in the heart
Something that stimulates the music in my measure
Measure in my music, raised in three parts
Casually see but don't do like the Soul
'Cause seein' and doin' are actions for monkeys
Doin' hip hop hustle, no rock and roll
Unless your name's Brewster, 'cause Brewster's a Punky
Parents let go 'cause there's magic in the air
Criticising rap shows you're out of order
Stop look and listen to the phrasin' Fred Astaires
And don't get offended while Mase do-se-do's your daughter
A tri-camera rolls since our music's now set
Fly rhymes are stored on a D.A.I.S.Y. production
It stands for "Da Inner Sound Y'all" and y'all can bet
That the action's not a trick, but showing the function

Everybody wants to be a deejay
Everybody wants to be an emcee
But being speakers are the best
And you don't have to guess
De La Soul posse consists of three
And that's the magic number

[DOVE:]
This here piece of the pie
Is not dessert but the course that we dine
And three out of every darn time
The effect is "Mmmm" when a daisy grows in your mind
Showing true position, this here piece is
Kissin' the part of the pie that's missin'
When that negative number fills up the casualty
Maybe you can subtract it
You can call it your lucky partner

Maybe you can call it your adjective
But odd as it may be
Without my 1 and 2 where would there be
My 3
Mase Pos and Me
And that's the Magic Number

Focus is formed by flaunts to the soul
Souls who flaunt styles gain praises by pounds
Common are speakers who are never scrolls
Scrolls written daily creates a new sound
Listeners listen 'cause this here is wisdom
Wisdom of a Speaker, a Dove and a Plug
Set aside a legal substance to feed 'em
For now get 'em high off this dialect drug
Time is a factor so it's time to count
Count not the negative actions of one
Speakers of soul say it's time to shout
Three forms the soul to a positive sum
Dance to this fix and flex every muscle
Space can be filled if you rise like my lumber
Advance to the tune but don't do the hustle
Shake, rattle, roll to my Magic Number

Now you may try to subtract it
But it just won't go away
Three times one?
(What is it?)
(One, two, three!)
And that's the Magic Number

(Yo, what's up?)
(1, 2, 3)
(I say, children, what does it all mean?)
(Woah-woah-wo, 1, 2, 3)
(I wouldn't lie to you)
(No more no less, that's the magic number)
(No more no less)
(What it is?)
(No more no less)
(Is this the future?)
(No more no less)
(Do the shang-a-lang)
(No more no less)
(No one on the subway ever chats to me)
(No more no less)
(Anybody in the audience ever get hit by a car?)
(No more no less)
(How high's the water, mama?)
(No more no less)
(How high's the water, mama?)
(No more no less)
(Three feet high and rising)

(No more no less)
(Three)
(That's the magic number)

De La Soul Lyrics

"Change In Speak"

[POS:]
Once again it's time to bite more soul
A flavor you will savor in your soul
Wax is distributed and then sold
So watch it turn, bring your next of kin soul
P.A. Mase has rocked it on the console
Scream real hard until you blow your tonsils
Bang-oh-bang until you burn your shoe soles
'Cause you are now dancing to the big soul

[DOVE:]
Live is the motion of the soul step
Set the exposure to my one step
This scene'll last to the next step
All those in favor take a big step
True to the Soul, we'll never back step
In sense to that, we don't half step
Just as a reminder from the last step
Negative ones are lost in footsteps

Levels we've set will never go down
Competitions commence the step down
Those involved with peace who know the Soul's down
Can see that the Soul has got a new sound
Dance until you find yourself a new part
If you don't then I'll give you the True part
When received you'll see the real small part
Of the new way is no part at all

[POS:]
Pos and Dove is rarely caught not dressed in peace
Movements always walking round now stressing peace
When this biter should know true in peace
Instead they cause violence and shoot out beef
Still we are professing to be on a roll
Public cause this party going on the road
And if you crave sex, drugs and rock'n'roll
Sent by the Quest, Jungle and De La Soul

Give 'em a taste, Mase

De La Soul Lyrics

"Cool Breeze On The Rocks"

Cool breeze
Rock that shit homie
Rock
Lyte as a
Rock
A-a-a-a-a-as a rock
Cool breeze
Rockin' it, rockin' it
Rock
You gotta rock it
Keep on rockin'
Rock's the best
Rockin' music
Cool breeze
The king
Of rock'n'roll
Rock, rock
This world for you
King Adrock
Rock those bells
I want
Body body rock, body body rock
You are now rockin' with the best
I put this together to
Rock the house
Michael?
"I wanna"
Rock!
"With you"

[AL WATTS:] Contestant number one, do you have any answers?
DOVE: Ummm... I wish my cousin Nag was here, he knows these things,
no, I'm sorry I don't.

De La Soul Lyrics

"Can U Keep A Secret?"

Ahh yeah, ah ah ah

Prince Paul likes Buddy
Posdnuos likes Buddy
Trugoy likes Buddy
Mase likes Buddy
Wouldn't you like to Buddy too? Ooh

Prince Paul needs a haircut
Mase needs a haircut
Posdnuos needs a haircut
Trugoy would you please give us a haircut?

Prince Paul needs a luuden
Trugoy needs a luuden
Posdnuos needs a luuden
Mase needs a luuden
Everybody I want to just get a luuden

Paul has dandruff
Posdnuos has a lot of dandruff
Mase has big fat dandruff
Trugoy has dandruff
Everybody in the world, you have dandruff

Dante is a scrubb
Dante is a scrubb (scrubb)
Dante is a scrubb (is a big scrubb)
Dante is a scrubb (a super scrubb) (scrubb)

(And ya not gettin' the haircut either, scrubb!)

De La Soul Lyrics

"Jenifa Taught Me (Derwin's Revenge)"

[DOVE:]
Access to her code
Lovestruck was my mode
Took a look, dropped my textbook
Jenifa... (OH!)

Breakfast, broke it fast
She was in my English class
Asked for notes, rocked my boat
Jenifa... (OH!)

Jenny
Lost her favourite penny
So I gave her a dollar
She kissed me
(And I hollered)

In a flash the school bell rang
Jenny grabbed on to my hand
Took me home and said, Trugoy just
Swing and swing and swing

[POS:]
The downstairs, where we met
I brought records, she cassettes
Lost the breaks, found her shape
Jenifa, oh Jenny

Transcripts showed more than flirt
'I love daisies' read her shirt
Grabbed my jeans, Jimmy screamed
Jenifa, oh Jenny

Marvelous
Shaped like a vase
No one can live their life for Pos
Found a house, aroused my joust
Jenifa, oh Jenny

Her clothes, I did shuck
Just like Dan I strictly stuck
To the punt, she cried 'kick it'
Posdnuos was in

Jenny
Only thought about Jimmy
But asked was I a virgin

Like some kid named Derwin?

She said 'Let's try it in the bathroom'
But 'Dnuos is way above sinks
So to the kitchen she did Dan
And came back wrapped in Saran

(Now wait a minute! Little Derwin got something to
show us that Jenny could never do. Listen...)

(Hey. Look at little Derwin. Look at him go, look at him go!
Awww, baby.)

[DOVE:]
Positions, muscles flexed
Dove was lost in a Ghana hex
Passed her test, felt her teddy
Jenifa oh Jenny

Notions
Soothed the mood
Dove was lost in De La heaven
Screwed Plug Two, did the do
Jenifa oh Jenny

Jenny
Teased my homeboy Granny
In fact she teased so many
She was known as a garden tool

[POS:]
No more
I dispatched
Was it Jimmy had met his match
Or could it be the realisation
All girls owned a Jenny

For normal health
I had fought
A valuable lesson she had taught
Don't flaunt that the candy is good
Unless you came with plenty

De La Soul Lyrics

"Ghetto Thang"

[POS:]
(Mary had a little lamb)
That's a fib, she had two twins though
And one crib
Now she's only fourteen, what a start
But this effect is ground common in these parts
Now life in this world can be such a bitch
And dreams are often torn and shattered and hard to stitch
Negative's the attitude that runs the show
When the stage is the G-H-E-T-T-O

[DOVE:]
Which is the one to blame when bullets blow
Either Peter, Jane, or John or Joe
But Joe can't shoot a gun, he's always drunk
And Peter's pimping Jane, and John's a punk
Infested are the halls, also the brains
Daddy's broken down from ghetto pains
Mommy's flying high, the truth is shown
The kids are all alone
'Cause it's just the ghetto thang

IT'S JUST THE GHETTO THANG (WORD)

[POS:]
Who ranks the baddest brother, the ones who rule
This title is sought by the coolest fool
Define coolest fool? Easy, the one who needs
Attention in the largest span and loves to lead
Always found at the jams, but never dance
Just provoke violence due to one glance
The future plays no matter, just the present flow
When the greeting place is the G-H-E-T-T-O

[DOVE:]
Lies are pointed strong into your skull
Deep within your brain against the wall
To hide or just erase the glowing note
Of how to use the ghetto as a scapegoat
Truth from Trugoy's mouth is here to scar
Those who blame the G for all bizarre
So open up your vents and record well
For this is where we stand, for the True tell
Ghetto gained a ghetto name from ghetto ways
Now there could be some ghetto gangs and ghetto play
If ghetto thang can have its way in ghetto range
Then there must be some ghetto love and ghetto change

Though confident they keep it kept, we know for fact
They lie like ghettos form, 'cause people lack
To see that they must all get out the ghetto hold
The truth they never told
'Cause it's just the ghetto thang

IT'S JUST THE GHETTO THANG (WORD)

[POS:]
Do people really wish when they blow
Out the cake candles, and if so
Is it for the sunken truth which could arise
From out the characters in which the ghetto hides
Roses in the ring supply their shown relief
Granted it's planted by their shown belief
Kill and feed off your own brother man
Has quickly been adopted as the master plan
Posses of our people has yet to provoke
Freedom or death to them, it's just a joke
What causes this defect, I don't know
Maybe it's the G-H-E-T-T-O

IT'S JUST THE GHETTO THANG (WORD)

Standing in the rain is nothing felt
When problems hold more value, but never dealt with
Buildings crumbling to the ground
Impact noise is silent sound
But who's the one to say this life is wrong
When ghetto life is chosen strong
We seem to be misled about our dreams
But dreams ain't what it seem
When it's just the ghetto thang

IT'S JUST THE GHETTO THANG (WORD)

De La Soul Lyrics

"Transmitting Live From Mars"

(Ecoutez. A midi.)
(Quel heure est-il? Il est midi.)
(C'est l'heure de dejeuner. Qu'est-ce qu'il y a a manger?)
(Il y a saucisse, sans doute.)
(Ecoutez et repetez. A midi.)
(Quel heure est-il?)
(Quel heure)
(Quel heure est-il?)
(Est-il?)
(Il est midi. Midi. Midi. Il est midi. Il est midi.)
(C'est l'heure de dejeuner.)
(C'est l'heure de dejeuner. C'est l'heure de dejeuner. De dejeuner.)
(C'est l'heure de dejeuner.)
(Qu'est-ce qu'il y a a manger?)
(Qu'est-ce qu'il y a?)

De La Soul Lyrics

"Eye Know"

[POS:]
Greetings, girl, and welcome to my world of phrase
I'm right up to bat
It's a Daisy Age and you're about to walk top-stage
So wipe your Lottos on the mat
Hip-hop love this is and don't mind when I quiz your
Involvements before the sun
But clear your court 'cause this is a one-man sport
And who's better for this than Plug One
Now you don't have to worry about me squashin' other deals
'Cause they've already been squooshed
Freeze a frame about moods the same which we can continue
Right behind the bush
You'll stay with me
Eye Know this
But not because of all my earthly treasures
Or regardless to the fact that I'm Posdnuos
But because

(Eye know Eye love you better)

[DOVE:]
May I cut this dance to introduce myself as
The chosen one to speak
Let me lay my hand across yours
And aim a kiss upon your cheek
They name's Plug Two
And from the soul I bring you
The Daisy of your choice
May it be filled with the pleasure principle
In circumference to my voice
About those other Jennys I reckoned with
Lost them all like a homework excuse
This time the Magic Number is two
'Cause it takes two, not three, to seduce
My destiny of love is brought to an apex
Sex is a mere molecule
In this world of love that I have for you
It's true

(Eye know Eye love you better)

[POS:]
Now it's time to let this rhyme style
Get somewhat poured in the mold
Hold my hand and we'll pick my plantation
Of Daisies for a bouquet of Soul

Life will begin at the cut of a rim
Take it as filled to the rim as in brim
Squeeze your stoop like Betty Boop
We'll make Campbell's Alphabet Soup
And spell Plug One's within
Forward march is the say
When transistors will play
Come into bed is the mood
Dolby sound will be then top crowned
When I put the needle into your groove
I got a good thing
And in full swing
I show this in gifts, words or letters
But even without those three
Eye know you'll be close to me 'cause

(Eye know I love you better)

[DOVE:]
It's I again and the song that I send
Is taking steps to reach your heart
Any moment you feel alone
I can fill up your empty part
We can ascend 'till we reach De La Heaven
And in a spin we'll hit the Top Ten
Then we will meet Mr Stuckie
And Pos' brother Lucky will preach
Let the wedding begin
Shot by an arrow of cupid
Through the string of a G-clef
My dear, I claim you're def
And if you can hear me, by golly gee,
Trugoy is ready for what you posess
We could live in my Plug Two home
And on Mars where we could be all alone
And we make a song for two,
Picture perfect things and I sing of how

(Eye know I love you better)

De La Soul Lyrics

"Take It Off"

(It's hurting.)
(Smell your breath!)
(You smell like Jabba.)
(Your nose is what's doing it.)
(You're talking into the recording... YO!)
(Okay Lucky, start it off.)

Take take take take take it off...
Take it off, take take take take it off
Take it off, take take take take it off,
Take it off, take take take take it off,
Take it off,
Take it OFF!
(Take that suede front off)
Take it OFF!
(Take those contacts off)
Take it OFF!
(Take that horsemeat off)
Take it OFF!
(Take those shell-toes off)
Take it OFF!
(Take those track fleas off)
Take it OFF!
(Take that doo-rag off)
Take it OFF!
(Take that moth rag off)
Take it OFF!
(Take those fat laces off)
Take it OFF!
(Take that bomber off)
Take it OFF!
(Take that BVD off)
Take it OFF!
(Take those Converse off)
Take it OFF!
(And those Gazelles too)
Take it OFF!
(Take that Kangol off)
Take it OFF!
(Take that Jordache off)
Take it OFF!
(Take that Afro off)
Take it OFF!
(Take that jhericurl off)
Take it OFF!
(Take that Le Tigre off)

Take those acid-washed jeans, bell-bottomed, designed by your mama... off? Please? Please..

De La Soul Lyrics

"A Little Bit Of Soap"

[POS:]
Please listen to this simple De La style I'm gonna sing
It's strongly directed to all the misery you're bringing
Now I'm not all about dissing someone else personnel
But there's no quota on your odor
That's right, you smell
Now you might feel a little embarassed, don't take it too hard
And don't make it worse by covering it up with some Right Guard
Before you even put on your silk shirt and fat gold rope
Please take your big ass to the bathroom
And please use
(A little bit of soap....)

De La Soul Lyrics

"Tread Water"

[DOVE:]
I was walking on the water when I saw a crocodile
He had daisies in his hat, so I stopped him for a while
He delivered me a message, a massage to soothe my stage
What it was was more then plug-up dosage
More than DAISY age
Conversation drew a rule,
Which the crowd will roar by millions
Mr. Crocodile said, 'Dove, you must look
For now the villains try to hold you underwater
But one thing we all must heed
Sony Walkmans keep us walking
De La Soul can help you breathe when you tread water'

As I walked along my journey,
I thought 'What have I just learned?'
In a flash I saw commotion
There was movement in these ferns
Silently the silence came, was it the end of my world?
I shouted out in fear, 'Who's there?'
'It's me,' said Mr. Squirrel
'I've searched for you all over, now you're found,
No time to waste. We must find the Preacher Man,
We must find the P.A. Mase. All my population's dying,
And we're all in tune to doom.
Like the Daisy, I need water
I need chesnuts to consume.'
'Mr. Squirrel,' I said, 'I'm sorry,
But the problem can't be solved
If there's no one here to help, and no one to get involved
Always look to the positive and never drop your head
For the water will engulf us if we do not dare to tread
So let's tread water'

[POS:]
Now one weary day I woke, my alarm said 'Plug time's up'
Filled my bath up with the water, gargled with my gargle cup
As I bathed I felt a presence, and I'm sort of ticklish
I looked down and then around and I heard,
'Hi! I'm Mr Fish. How do you do? As for me,
I'm in tip-top shape today, cause my water's clean
And no-one's menu says Fresh Fish Filet
See I look past all my worries, which is something you must do
Though you're fed up, throw your head up
With this advice ffrom me to you
And that's to tread water'

As my day went unexplained, time was finding nothing fun
As I walked along the sidewalk, I heard,
'Psst, excuse me, Plug One.'
From my Soul, De La that is, I hollered
'Yes, are you talking to me?'
'No alarm meant,' he said, 'Let me introduce myself.
I'm Mr Monkey.'
'Mr Monkey, I pledge you slap of five,
Now how does your problem meet?'
He said, 'My bananas are at their ripest, but they all
Stand at three feet. My swinging hand is bandaged up.
Could you help me with this chore?'
I brought him down to the Native shop
And bought him copies of the De La score
Which assisted well in his elevation
Now all bananas is at his grasp
He decided with this accomplished,
He would put me on to the path
He to my to live by the Inner Sound, y'all
Which would bring me health in showbiz
Then to use them, not abuse them
And then in the words that got me to 'em
And that is to tread water

De La Soul Lyrics

"Potholes In My Lawn"

(Yo, something's wrong here. No, not again!)
(Get the daisies for the...)

Potholes in my lawn

[DOVE:]
Everybody's sayin'
What to do when suckin' lunatics start diggin' and chewin'
They don't know that the Soul don't go for that
Potholes in my lawn
And that goes for my rhyme sheet
Which I concentrated so hard on, see
I don't ask for maximum security
But my dwellin' is swellin'
It nipped my bud when I happened to fall
Into a spot
Where no ink or an ink-blot
Was on a scroll
I just wrote me a new 'mot'
But now it's gone
There's no
Suckers knew that I hate
To recognise that every time I'm writin'
It's gone

(Yodel-a-hee, Yodel-oh-hee, Yodel-a)
(Yodel-a-hee, Yodel-oh-hee, Yodel-ee-hee-hee-hee)

Potholes in my lawn

[POS:]
I've found that it's not wise
To leave my garden untended
'Cause eyes have now pardoned all laws of privacy
Even paws are after my writer
See, I've found that everyone's sayin'
What to do when suckers are preyin'
On my well-guarded spreadsheets
Oh why, hell does it send up fleets
Of evil-doers through the big hole
To get to evil-doers who dig holes
Which leaves my lawn with lawn-chew
I think I'd better plant traces to give clues
Or better yet call 911
And when they get here I inform them I'm the Plug One
Open a chair and let them realize the reason
For concern of the Soul,

'Cause we've come down with a case of potholes

(Yodel-a-hee, Yodel-oh-hee, Yodel-a)
(Yodel-a-hee, Yodel-oh-hee, Yodel-ee-hee-hee-hee)

Potholes in my lawn

(Who stole, who stole, who stole the cookie
from the cookie jar?)

[DOVE:]
Now you got the message
What to do when you die
The death that I predict in 'Plug Tunin'
It's a shame that you deny to claim
That you stole my words of fame
That I wrote in my rhyme sheet
Which I concentrated so hard on, see
I don't ask for a barbed wire fence, B
But my dwellin' is swellin'
It nipped my bud when I happened to fall
Into a spot
Where no ink or an ink-blot
Was on a scroll
I just wrote me a new 'mot'
But now it's gone there's no
Suckers knew that I hate
To recoginse that every time I'm writin'
It's gone

Potholes in my lawn

(Yodel-a-hee, Yodel-oh-hee, Yodel-a)
(Yodel-a-hee, Yodel-oh-hee, Yodel-ee-hee-hee-hee)

De La Soul Lyrics

"Say No Go"

[POS:]
Now let's get right on down to the skit
A baby is brought into a world of pits
And if it could've talked that soon
In the delivery room
It would've asked the nurse for a hit
The reason for this?
The mother is a jerk
Excuse me, junkie
Which brought the work of the old
Into a new light, what a way
But this what a way
Has been a way of today
Anyway push couldn't shove me
To understand a path to a basehead
Consumer should erase it in the first wave
But second wave forms relievers
And believers will walk to it
Then even talk to it and say

(You got my body now you want my soul)
Nah, can't have none of that
Tell 'em what to say Mase

(Say no go)

[DOVE:]
Nah, no my brother
No my sister
Try to get hip to this
Word, word to the mother
I'll tell the truth
So bear my witness
Fly like birds of a feather
Drugs are like pleather
You don't wanna wear it
No need to ask that question
Just don't mention
You know what the answer is

[POS:]
Now I never fancied Nancy
But the statement she made
Held a plate of weight
I even stressed it to Wade

[DOVE:]

Did he take any heed?

[POS:]
Nah, the boy was hooked
You coulda phrased the word "base"
And the kid just shook
In his fashion class once an A now an F
The rock rules him now
The only designs left
Were once clothes made for Osh-Kosh
Has converted to nothing but stonewash

[DOVE:]
Now hopping in a barrel is a barrel of fun
But don't hop in if you wanna be down, son
'Cause that could mean
Down and out as an action
What does that lead to?
Dum da dum dum
People say what have I done for all my years
My tears show my hard earned work
I heard shoving is worse than pushing
But I'd rather know a shover than a pusher
'Cause a pusher's a jerk

(Say no go)

[POS:]
Believe it or not
The plots forms a fee
More than charity
But the course doesn't coincide
With the ride of insanity
Is it a chant that slants
The soul to fill for it?
I know it's the border
That flaunts the order
To kill for it

[DOVE:]
Standing, scheming on a young one
Taking his time
8 ball for a cool pool player
Racked it all
Tried to break, miscued
Got beat by the boy in blue
Next day you're out
By the spot once more
Looking hard for a crack in the hole
I ask what's the fix for the ill stuff
Word to the Dero
The answer shoulda been no

[POS:]
Run me a score from the funky four plus one more
(It's the joint!)
Rewind that back
This is the age for a new stage of fiend
Watch how the junkies scream
For their crack
"It's the crack"t should explain it from the start
Behind the ideals of cranking up the heart
Now the Base claims shot over every part

(Say no go)
(Say no go)
(Don't even think about it)
(Say no go)
(Say no go)

De La Soul Lyrics

"Do As De La Does"

(Yeah! Yeah! Yeah! Uh-huh! All right now! Oh yeah! Yo! Word! Oh! Yeah! Uh-huh!)

[MASE:]
Yo yo yo yo! We got De La Soul in the house, the producer Prince Paul, P.A. Mase, and I wanna know one thing!
Yo, yo! You gotta show right up your hands, let me hear you say Aa-ow!
(AA-OW!!)
Aa-ow!
(AA-OW!!)
Come on! Come on! Come on!

[POS:]
Plug One on the mic, P-L-U-G-O-N-E, yo what's up, you know about Jimmy, you know about Jenny,
I want everybody in this place, c'mon, say Plug it up!
(PLUG IT UP!)
Say Plug it up!
(PLUG IT UP!)
You got somebody next to you with some bad-ass breath, I want you to tell that brother, come on, tell him "Take a Luuden!"
(TAKE A LUUDEN!)
Say take a Luuden!
(TAKE A LUUDEN!)
Plug Two!

[DOVE:]
Sto-o-op! Here we go!
If you like to drink some soda, let me hear you say Coca-Cola!
(COCA-COLA!)
Coca-Cola!
(COCA-COLA!)
Stop!

[PAUL:]
Ah yeah, pump it, pump it, ah yeah, pump it up!
You if you got doo doo in your pocket, you got doo doo in your pocket, put one hand in the air like this, wave it back and forth, say doo doo!
(DOO DOO!)
Say doo doo!
(DOO DOO!)
Come on! Ah yeah!

[MASE:]
Yeah yeah this is Plug Three! This is Plug Three! Yeah! Say hoo!
(HOO!)
Hoo!
(HOO!)

[POPMASTER HIGHT:]

Hey De La Soul, you fucking lasagne heads, that's better than my mama's lasagne! Hey! Hey, come on!
That was freakin' A, man! I really wanna take it back home with me, you know! I really get into your fuckin' music!
It's so excellent! Ah, you big sconzilli heads! De La Soul's so fuckin' great!

[DOVE:]
Let me hear you say 'I like to eat that...'

De La Soul Lyrics

"Plug Tunin' (Last Chance To Comprehend)"

(And now for my next number, I'd like to return to the classics.
Perhaps the most famous classic in all the world of music...)

[DOVE:]
The first time around, you didn't quite understand our new style of speak.
(Don't worry, we can fix that right now)
So why don't you all just grab your bags
(Come on aboard, hoist the anchor, and we'll be off)
(And good luck to both of you)

Plug One, Plug Two, Plug One, Plug Two
Plug One, Plug Two, Plug One

[POS:]
Answering any other service,
Perogative praised positively I'm acquitted
Enemies publicly shame my utility
After the battle they admit that I'm with it
Simply soothe, will move vinyl like glue
Transistors are never more shown with like
When vocal flow brings it all down in ruin
Due to a clue of a naughty noise called
Plug Tunin'

(Hmm-mm, hmm-mm, hmm-mm, hmm-mm, hmmmm)

Flock to the preacher called Pos
Let him be the stir to the style of your stew
Sit while the kid of the Plug form aroma
Then grab a Daisy to sip your favorite brew
Lettin' this soul fire be your first prior,
But don't let the kick drum stub your big toe
See that the three will be your thread
But like my man Chuck D said, 'What a brother know'
Dance while I play and the cue cards sway
From my flower girls China and Jette
The button is pressed in '89 we'll start the panic
From De La Soul and a Prince from Stet
Negative noise will be all divided
Dangerous to dance, Posdnuos will croon
Ducks and kizids will all be rid
When paying position to the naughty noise called
Plug Tunin'

(Hmm-mm, hmm-mm, hmm-mm, hmm-mm, hmmm)

Plug One, Plug Two, Plug One, Plug Two

Plug One, Plug Two, Plug One, Plug Two

[DOVE:]
Freeze 'cause these are the brothers
Brothers of the Soul who present a new flick
Every last viewer is tuned to the method,
Known to be a method, no magicians, not a trick
Bitten by the spoken who been titled Plug Two
Swallowed by the loonies who are jealous with the showbiz
Dove'll teach the truth, Posdnuos will preach the youth
To the fact that this will bring an end to the negative
Flow to the sway 'cause I say fa-so-la-ti
At the top we will dwell
Difference is fame and we rise then we build
Where we are set we get fat and we swell
Motions of the Soul is a positive stride
One step forward is the space we consume
Vivid as the moon, you have yet to assume
How the Soul found the motto of a naughty noise called
Plug Tunin'

Vocal is local so believe that
This chant shan't rely on the strong lap
Trying and live so you best realise
That the gift that I present, I say gift wrap
Style of the Tune is personal
And defining what's the rhyme is worst of all
Stop, sit and study 'cause the meaning isn't muddy
Just preach and do the gear as the first of all
Watch while the pitcher is pitching
'Cause this is the pitch of the year
Sing a simple song but keep the swing strong
Though you heard Dove crying 'I ain't fair'
Those who think De La's on the flip tip
Try to flip this and you're doomed
Watch for the B-B 'cause if you try to grieve me
You'll be hung by the wire of the Plug Tune

(Hmm-mm, hmm-mm, hmm-mm, hmm-mm, hmmm)
(I can't twist your arm and make you stay with me)
(Are you ready for this?)

De La Soul Lyrics

"De La Orgee"

[DOVE:]
This is De La Orgee...

[Various male and female grunting, panting and screaming sounds, including...]

(It's in there.)
(Say you like it. Tell me you like it.)
(I like it, oh I like it)
(More! More!)
(What's my name? What's my name?)
(Flip over!)
(Mase!)
(On your stomach. Put your face in the pillow.)
(Yes!)
(Seven feet. Seven feet long!)
(Cut it!)
(You like Jimmy? Tell me you like Jimmy.)
(I like Jimmy!)
(Speak to Jimmy.)
(I like Jimmy...)
(Cut the damn tape!)
(Cut it!)

De La Soul Lyrics

"Buddy"

[DOVE:]
Hello

Meany, meany, meany, meany (Say What?)
Meany, meany, meany, meany (Say What?)
Meany, meany, meany, meany, mean
Meany, meany, meany, meany (Say What?)
Meany, meany, meany, meany (Say What?)
Meany, meany, meany, meany, mean (Okay)

Hello it's the soul
Troopin' in wit the Jungle patrol
And this one's about the KO's the knockouts out there
Who's holdin' my buddy
Hold up
(wait a minute)

[POS:]
Now just wait
We're gonna talk about Buddy on this plate
But before we let the herd out the gate
Make sure the all the levels are straight out the jungle
(The Jungle, the Jungle, the Brothers, the Brothers)

[AFRIKA:]
De La Soul from the soul
Black medallions no gold
Hangin' out wit Pos hangin' out wit Mase
Buddy buddy buddy all in my face

[MIKE G:]
For the lap Jimbrowski must wear a cap
Just in case the young girl likes to clap
Ain't for the wind but before I begin
I initiate the buddy with a slap

[Q-TIP:]
Now for the next
I'm the Q-Tip from A Tribe Called Quest
And when I quest for the buddy I don't fess
For my jimmy wants nothin' but the best (the best)
The best (Ooh Wee!)
Let's stick out jimmy and see what we can catch
(Stick em up, stick em up jimmy)
Next won't be needed unless
(Jenny wanna get right to the flesh)

(Sweet little woman, sweet little woman)

[POS:]
I won't lie, I love B-U-D-D-Y (why)
Cause I never let it walk on by
When it comes to me and Jenny I seem (very serious)
Like a Peak Freen
Buddy is the act that occurs on the lip
when Jenny and jimmy start shootin' the gift
Boy let me get shot I won't even riff

[AFRIKA:]
Buddy buddy don't you know you make me go nutty
I'm so glad that you're not a fuddy duddy
Not too skinny and not too chubby
Soft like silly putty
Miss Crabtree I hope that you're not mad at me
Cause I told you that it was your buddy
That was making me ever so horny
Junglelistically horny

[DOVE:]
On the dial my buddy talks to me for a while
Plug Two is the

[Q-TIP:]
Q to her tip

[DOVE:]
On the A side and sometimes the flip
(Gotta gotta flip this record)
Buddy is the bud to my daisy tree
And the luuden to my do-re-mi
And the pleaser to my man Plug 3
(Plug 3 gets all the buddy)

[MIKE G:]
Behind my bush my buddy likes the way that I push
And like a champ just knock it on out
Never ever once sellin' out
(Oh let loose the juice)
My buddy helps me to
(De La my Soul)
Keepin' jimmy in total control
Without Buddy I'd be on a roll

(La la la l-la la la la, la la la l-la la la la)

[Q-TIP:]
Hey girl I heard ya lookin' for some good times
If you Quest from the Soul here's what we'll find
A whole lot of fun lots of fun together
Just like kissin' cousins (yeah that's kinda clever)

Close like bosoms, bosoms stay close
If you be my buddy I will toast
That we're like Ethel Merts and Lucille MacGillicuddy
You can be mines and I can be your buddy

[DOVE:]
The best buddy's in evening wear
Long lovin' less Tru know (he's in there)
I feel sorry for those who pay a fare (a fee) word to the D
I don't beg I just tease my buddy with my right leg
And when it's ready what's said is buddy is best in bed

[AFRIKA:]
Fly buddy told us all to get into a circle
Said don't worry cause I won't hurt you
All I really wanna do is freak you (she freaked us)

[MIKE G:]
And I watched and then I checked my swatch
To see the time
The Soul had formed a buddy line
And that buddy was (mine all mine)

[POS:]
Now when Tribe, the Jungle, and De La Soul
Is at the clubs our ritual unfolds
Grab our bones and start swingin' our hands
(Then Jenny start flockin' it everywhere)
Cause Jenifa just wants to stay aware
Yo fellas should we keep her aware
(Mmm Hmm, yeah!!!)

De La Soul Lyrics

"Description"

[DOVE:]
I am Trugoy
A Dove-like boy
Could wingspread,
But instead,
I will employ

[MASE:]
Me the Plug Three
Or Baby Huey
I eat up
All ketchup
For its tendency

[POS:]
I am Plug One
I'm 19 years young
I love peace
Well at least
I think we need some

[Q-TIP:]
I'm Q-Tip y'all
3 Feet produced by Prince Paul
This session
Was lessoned

[GRANNY:]
I am Granny

The 3, 4
Yo, no more
I need peace for me

[CHINA & JETTE:]
I'm China

We're crazy for Daisies
When we're on the set

[PAUL:]
Will rise, not fall
Definition, Prince Paul
The Mentor
Don't be sore

When I say
That's all

De La Soul Lyrics

"Me, Myself And I"

[DOVE:]
Mirror, mirror on the wall
Tell me, mirror, what is wrong?
Can it be my De La clothes
Or is it just my De La song?
What I do ain't make-beleive
People say I sit and try
But whan it comes to being De La
It's just me myself and I

It's just me myself and I
It's just me myself and I
It's just me myself and I

[POS:]
Now you tease my Plug One style
And my Plug One spectacles
You say Plug One and Two are hippies
No, we're not, that's pure Plug bull
Always pushing that we've formed an image
There's no need to lie
When it comes to being Plug One
It's just me myself and I

It's just me myself and I
It's just me myself and I
It's just me myself and I

[DOVE:]
Proud, I'm proud of what I am
Poems I speak are Plug Two type
Please oh please let Plug Two be
Himself, not what you read or write
Right is wrong when hype is written
On the Soul, De La that is,
Style is surely our own thing
Not the false disguise of showbiz
De La Soul is from the soul
And this fact I can't deny
Strictly from the Dan called Stuckie
And from me myself and I

It's just me myself and I
It's just me myself and I
It's just me myself and I

[POS:]

Glory, glory hallelu
Glory for Plugs One and Two
But that glory's been denied
By kizids and dookie eyes
People think they dis my person
By stating I'm darkly pack
I know this so I point at Q-Tip
And he states, 'Black is Black'
Mirror mirror on the wall,
Shovel chestnuts in my path
Please keep on up with the nuts
So I don't get in aftermath
But if I do I'll calmly punch them
In the fourth day of July
'Cause they tried to mess with
Third degree, that's me myself and I

It's just me myself and I
It's just me myself and I
It's just me myself and I
It's just me myself and I

De La Soul Lyrics

"This Is A Recording For Living In A Fulltime Era (L.I.F.E.)"

(This is a recording) (Life)

[POS:] Living in everyday is something,
Something everyday like this is our livin'
[DOVE:] Giving something sheer for the crowd is our major,
Major to the crowd is to hear what we're givin'
[POS:] No time to rest, we got work in the studio
Studio suppliers rest at no time
[DOVE:] Showtime is enough when the Soul is performing,
Performing is the Soul y'all, and it's showtime
[POS:] Coping with dates in clubs, can't even lounge,
Lounge with the homeboys how we are copin'
[DOVE:] Scoping new material for Paul to plug high-pitched,
High-pitched what Paul plugs in and still scopin'
[POS:] Bearer of peaceful views to express peace,
Peaceful expressions why we are bearers
[DOVE:] What the Soul tries to project is when existing in rap,
You're living in a fulltime era

(This is a recording!)
(This is a recording) (Life)

[POS:]
Puttin' in spin the rhyme, rappers fear so
Fear so much of what Pos is puttin'
Couldn't do better, the punks they don't try hard
Try hard enough, they don't, so they couldn't
No joke to what I do inside this field,
This field to me is filed, there's no joke
So soak up the fact there's no part-time,
Part-time rappers at, so soak
Taking in new ideals leads to new groups,
New groups to better the Soul, I'm takin'
Wakin' from days and nights to do my best
[DOVE:] Your best gets us paid
[POS:] So I'll keep on wakin'
Wearer of a Plug logo to the dying,
Dying are rappers who think I'm no wearer
What I'm trying to say is when dealing in rap,
You're living in a fulltime era

(This is a recording!)
(This is a recording) (Life)

[DOVE:]
Love is to all, to all goes my love
Dove comes to peace like stand comes to sit

Stand for the court, 'cause standing is healthy
Healthy in sense is mentally fit
Pause for the poets of a new style of speak
Just here to do the same with no trick
Grab the Plug Two's live wire, my brother
And find that you've grabbed my pet boa constrict
Ring goes the garbage I'm hearing
Seek for the truth, my brother is tearing
No time to back-step, 'cause if you back-step
Look what you stepped in, you stepped in mess
So look what's around you
Don't worry for the Soul will find the truth
About three years from now, you know why?
'Cause we're living in a fulltime era

(This is a recording!)
(This is a recording) (Life)

De La Soul Lyrics

"I Can Do Anything (Delacratic)"

(It's Delacratic)
If I want to I could jump off this building.
(It's Delacratic)
I could hold two pieces of doo-doo in my hand.
(It's Delacratic)
I could call everybody in that room a rubberneck.
(It's Delacratic)
Come on, please?
(It's Delacratic)
I can say anything that I want.
(It's Delacratic)
I could wave my hand in my air.
(It's Delacratic)
I could stick my hand up my nose.
(It's Delacratic)
I could hold my foot and count to three.
(It's Delacratic)
I can do anything.
(Possie? Dovie? Masie?)
(Pass my bag.)

De La Soul Lyrics

"D.A.I.S.Y. AGE"

(Woah. Stay, stay, stay)
(Daisy! Daisy!)
(I love daisies, I love daisies,
I love pushing up your favourite daisies)
(Daisy!)
(This is Posdnuos, the president of a paragraph)

[POS:]

President
President preaching 'bout the on-tech,
Known for the new step,
Stop and take a bow

Amityville
Resident
Resident supported by the speaker view
Want to feel it in your shoe
Let me show you how

Platform
Witnesses
Witnesses, show you to my show-lab
Fill you with my vocab
Hope you have a spoon

Discuss
Contracts
You like the way I vocalise
And bring it to a compromise
My P.A. won't set up till noon
It's a DAISY age

Sun
Ceiling
Ceiling connects to the sun
Burning inside everyone
On a side, plug-a-fied sire

One

Demonstrations have been heard
My hair burns when I'm referred
Kid shouts my roof is on fire

Go
Dancing

Dancing like a bandit
Psychics try to stand it
Keep it up until they burn a cell

Romancing
Romancing dialect in shows
Posdnuos creating flow
You say you didn't know
Oh well, it's a DAISY age

[DOVE:]
Pedal
Promenade
Promenade people to the providence
Dove will show dominance
Inside of every phrase

Rebel
Renegade
Renegade reaching only topflight
Can't find your new height
Think you need a raise

Dialect
Ultimate
Ultimate strings from the soul stuff
Copies always staying rough
Before they go to plate

Try a pack
It'll stick
Stick to you but won't deflate
Keeping all the levels straight
I tell you, mate, that we're top rate
'Cause it's a DAISY age

The speak
Motor
Motor is the heart beat
Sleeping in your car seat
Kept alive to every mile discovered

Complete

Quota sharp at 12 noon
Risen to a new tune
Positive is greater than negative

Mirror
Mirror image don't contend
Vocals should be comprehended
Silver audience'll say what's said

Scrimmage
Nearer
Nearer to the goal line
Forget about the rose vine
The Soul will let you know it's time
And it's a DAISY age

(La la la la, lah)
(This is a DAISY age)

(Sing about, sing about the DAISY age)
(Let it rain, let it rain, rain on a DAISY)
(Rain on, rain on)

[Al Watts:] Now it's the end of the show. Contestants, do you have any answers?

[Contestants:] (Clueless babble, including 'Nah,' 'I dunno,' 'Mama')

[Al Watts:] For those of you who think your answers are correct, Don, tell them where to send the answers to.

[Don:] Thanks, Al. For all you listeners at home who think you have the right answers, jot 'em down on a four by ten sheet of paper, and get two proof of purchases from the back of the album, and send them to Tommy Boy records in care of Dante the Scrubb, 1747 First Avenue, New York, New York, 10128. For those who have all four answers correct, you will receive a specially selected grand prize. Thanks and goodnight, for Three Feet High and Rising, this is Don Newkirk.

De La Soul Lyrics

"Plug Tunin' (Original 12" Version)"

[MASE:]
Yo Pos and Dove, stand clear to be plugged up into line one and two
So y'all can flaunt the new style of speak

(And good luck to both of you)

Plug One, Plug Two, Plug One, Plug Two
Plug One, Plug Two, Plug One

[POS:]
Answering any other service,
Perogative praised positively I'm acquitted
Enemies publicly shame my utility
After the battle they admit that I'm with it
Simply soothe, will move vinyl like glue
Transistors are never more shown with like
When vocal flow brings it all down in ruin
Due to a clue of a naughty noise called
Plug Tunin'

(Hmm-mm, hmm-mm, hmm-mm, hmm-mm, hmmmm)
(Mmm-hmm, yeah)

Flowing in file with a new style
Barrels are cleaned and loaded for salute
Chanters with the choice standing steady like my mouth
This paragraph preacher is now introduced
Drums are heard sounding off on each and every person
Vocal confetti is blown at top stage
Roses and violets aren't proper for throwing
When showing appreciation, why? This is a Daisy Age
Hands won't sweat 'cause there's no threat
Mic will stay dry while pitchin' so loose
Rhymes aren't fables but stable to be on time
'Cause they're marketed and labeled sticker 'Posdnuos'
This pitch will fit with every consumer
Microphone loosed in cycles, start blooming
Profit and cost should never be lost
All due to a clue of a naughty noise called
Plug Tunin'

(Hmm-mm, hmm-mm, hmm-mm, hmm-mm, hmmm)
(Mmm-hmm, yeah)

Plug One, Plug Two, Plug One, Plug Two
Plug One, Plug Two, Plug One, Plug Two

[DOVE:]
Dazed at the sight of a method
Dying at the death of a neverending verse
Gasping and swallowing every last letter
Vocalised liquid holds the quench of your thirst
Reasons for the rhythm is for causes unknown
Different individuals are dazzled with the showbiz
Auditions are gathered but the Soul would just rather
Hold a count at three and in the end leave it as it is
Flow to the sway of my do-re-mi
Leaving are fixed lunatics who will hawk
Words are sent to the vents of humans
Then converted to a phrase called talk
Musical notes will send a new motto
Every last poem is recited at noon
Focus is set, let your polaroids click
As they capture the essence of a naughty noise called
Plug Tunin'

(Hmm-mm, hmm-mm, hmm-mm, hmm-mm, hmmm)
(Mmm-hmm, yeah)

Vocal in doubt is an uplift
And real is the answer that I answer with
Dying yet live, what you must realise
That the tune that I present is surely not a gift
Different in style is definite
And style which I flaunt is sure legit
Now set aside, I say I hold pride
In performing this melodic misfit
So swing 'cause this pitcher is pitching
In sense JD Dove is now saying
All sing along to his favorite song
While the pocket transistors are playing
But least but not last I'm frightened
For the words that I reply hold doom
Life of the check can be stopped by accident
When you're tripping the wire of the Plug Tune

(Hmm-mm, hmm-mm, hmm-mm, hmm-mm, hmmm)
(Mmm-hmm, yeah)
(No-one that I know can live my life for me)
(Are you ready for this?)

De La Soul Lyrics

"Oodles Of O's"

[DOVE:]
Oodles and oodles of O's, you know
You get 'em from my sister
You get 'em from my bro
All I is is man, and once an embryo
Am I solid gold? I don't cast a glow
Yes, I guess it's reflex
Some have no control
I'd rather let a laughter
And tally, off I go
Canoeing in the river or out into the O
You just know we're not
So not play the role
Some are lovey-Dovey, ah you crazy crow
Some shake your hand but
(This is called the Show)
I was John Doe, now I'm Mr. Jolico'
Pissed with the witness, and now I adore
O's got the world 'cause O's was on tour
Girls gave the O's and guys, oh for sure
Where they arose, well nobody knows
What do they mean, well here's how it goes
